Notice of the Chief Administrative Law Judge's or administrative law judge's dismissal action shall be given to the parties or mailed to them at their last known addresses within 20 days from the date on which the hearing was scheduled. Such notice shall advise the parties of their right to request review by the Benefits Review Board pursuant to § 725.490.

**§ 725.475 Effect of dismissal.**

The dismissal of a case or claim shall be final and binding unless suspended or set aside (see § 725.486).

COMPLETION OF FORMAL HEARING

**§ 725.480 Termination of formal hearings.**

Formal hearings are officially terminated when all the evidence has been received, witnesses heard, pleadings and briefs submitted to the administrative law judge, and the transcript of the proceedings has been printed and delivered to the administrative law judge.

**§ 725.481 Issuance of final decision and order.**

Within 20 days after the official termination of the hearing as defined by § 725.480, the administrative law judge shall issue a decision and order with respect to the claim making an award to the claimant or rejecting the claim.

**§ 725.482 Form of final decision and order.**

(a) Orders adjudicating claims for benefits or suspending payments of benefits shall be designated by the term "decision and order" followed by a descriptive phrase designating the particular type of such order, such as "award of benefits," "rejection of claim," "suspension of benefits," "modification of award. All decisions and orders shall contain the names of the parties in interest, a statement of the basis therefore, findings of fact, an award, rejection, or other appropriate paragraph containing the action of the administrative law judge. Final decisions and orders shall be signed by the administrative law judge at two places following the action paragraph.

(b) Copies of decisions and orders shall be served personally or by certified mail upon the parties in interest.

**§ 725.483 Contents of decision and order.**

(a) *Findings of Fact.*—(1) All original decisions and orders shall contain, in the paragraph headed, "*Findings of Fact,*" findings with respect to the names and addresses of the parties in interest, and dates and places of employment pertinent to the claim, the circumstances surrounding the coal miner's exposure to respirable coal dust, the nature and extent of the disability, notice of total disability or death, and such other facts as may be necessary to determine all of the issues raised before the administrative law judge upon the hearing of the case or otherwise, but in case of rejection of the claim the administrative law judge may in his discretion omit any findings unnecessary to support such action. In cases in which the claim is rejected, the grounds for such rejection shall be stated in a paragraph following the findings of fact.

(2) In orders other than the original order, the statement of the basis for the order shall contain reference to all prior orders with the dates thereof. In such orders the findings of fact shall relate only to the immediate issues before the administrative law judge without restatement of facts found in any prior order relating to the same disability or death, unless necessary for the completeness of the order.

(b) *Conclusions of Law.*—All decisions and orders shall contain after the findings of fact a paragraph entitled "Conclusions of Law." This paragraph shall, when appropriate, contain statements of all ultimate facts necessary to support the action of the administrative law judge. This paragraph shall contain among other things a statement as to the claimant's eligibility for benefits and, when appropriate, a statement asserting or denying the liability of an operator or his insurance carrier for the payment of benefits to the claimant for any periods after December 31, 1973.

(c) *Order.*—All decisions and orders shall contain after the conclusions of law the orders of the administrative law judge directing the parties to take any action consistent with the findings of fact and conclusions of law as required by the Act.

**§ 725.484 Formal hearings; filing and mailing of orders; disposition of transcripts.**

The administrative law judge shall, within 20 days after the official termination of the hearing, deliver by mail, or otherwise, to the office of the deputy commisioner having original jurisdiction, the transcript of the hearing, and other documents or pleadings filed with him with respect to the claim, together with his signed order. Upon receipt thereof, the deputy commissioner, being the official custodian of all records with respect to such claims within his jurisdiction, shall formally date and file the transcript, pleadings, and benefits order (original) in his office. Such filing shall be accomplished as expeditiously as possible, and the deputy commissioner shall, on the same day as the filing was accomplished, send by certified mail a copy of the order to the parties and to representatives of the parties, if any. Appended to each such copy shall be a paragraph entitled "proof of service," containing the certification of the deputy commissioner that the copies were mailed on the date stated, to each of the parties and their representatives, as shown in said paragraph.

**§ 725.485 Interlocutory matters to be disposed of without formal orders.**

Decisions and orders or other formal orders shall not be made or filed with respect to interlocutory matters of a procedural nature arising during the pendency of a case where benefits have been claimed.

**§ 725.486 Finality of decisions and orders.**

Decisions and orders issued pursuant to § 725.442 or § 725.481 shall become effective when filed in the office of the deputy commissioner, and unless proceedings for suspension or setting aside of such orders are instituted within 30 days of such filing, shall become final at the expiration of the 30th day after such filing, as provided in section 21 of the Longshoremen's Act.

**§ 725.487 Withdrawal of controversion of issues set for formal hearing—effect.**

Whenever a party withdraws his controversion of the issues set for a formal hearing, the administrative law judge shall halt the proceedings upon receipt from said party of a signed statement to that effect and forthwith notify the deputy commissioner who shall then proceed to dispose of the case as provided for in § 725.442.

**§ 725.488 Modification of awards.**

Upon his own initiative, or upon the application of any party in interest, on the ground of a change in conditions or because of a mistake in a determination of fact by the administrative law judge, the administrative law judge may, at any time prior to 1 year after the date of the last payment of benefits, or at any time prior to 1 year after the rejection of a claim, review a case in accordance with the procedure prescribed in respect of claims in this subpart and in accordance therewith issue a new final decision and order which may terminate, continue, or reinstate, increase, or decrease such benefits, or award benefits. Such new order shall not affect any benefits previously paid, except that an award increasing the benefits rate may be made effective from the date of the entitlement and if any part of the benefit due or to become due is unpaid, an award decreasing the benefit rate may be made effective from the date of entitlement, and any payment made prior thereto in excess of such decreased rate shall be deducted from any unpaid benefit pursuant to Subpart C of this part.

APPEALS FROM DECISIONS AND ORDERS

**§ 725.490 Right to appeal; Benefits Review Board.**

Any party in interest, adversely affected or aggrieved by a decision or order of an adjudication officer issued pursuant to § 725.481 may within 30 days from the filing of such decision or order appeal such decision or order to the Benefits Review Board.

**§ 725.491 Procedure before the Board.**

All appeals filed with the Board shall be processed and determined pursuant to rules and regulations duly promulgated by the Board as authorized by the Secretary in 20 CFR Part 802.

V 38 179 SEP 17 73 XUM

**§ 725.492 Judicial review.**

Pursuant to section 21(c) of the Longshoremen's and Harbor Workers' Compensation Act as incorporated by section 422 of Part C of Title IV of the Act, any person adversely affected or aggrieved by a final order of the Board may obtain a review of that order in the U.S. Court of Appeals for the circuit in which the disability occurred by filing in such court within 60 days following the issuance of such Board order a written petition praying that the order be modified or set aside. The LHWCA provides that payment of the amounts required by an award shall not be stayed pending final decision in any such proceeding unless ordered by the court. No stay shall be issued unless the court finds that irreparable injury would otherwise ensue to an operator or carrier.

**§ 725.493 Certification of record for judicial review.**

Whenever the record of a hearing shall be required for review or otherwise by any court of competent jurisdiction, the Secretary or his designated representative shall transmit the record with a certification thereof over an appropriate signature as the official record of the case in his custody. The certification shall list each transcript of testimony and other paper included in the record.

**§ 725.494 Costs in proceedings brought without reasonable grounds.**

If the court having jurisdiction of proceedings in respect of any claim or final decision and order determines that the proceedings in respect of such claim or order have been instituted or continued without reasonable ground, the costs of such proceedings shall be assessed against the party who has so instituted or continued such proceedings (Act, section 422 and Longshoremen's Act, section 26).

## Subpart F—Payment of Benefits

### General

**§ 725.501 Applicability of this subpart.**

For purposes of the Department of Labor's administration of Part C of Title IV of the Act, benefits shall be determined and paid pursuant to the provisions of this subpart. This subpart applies to all new claims of eligible individuals filed after December 31, 1973, as well as new claims filed with the Department of Labor pursuant to section 415 of Part B of Title IV of the Act by claimants entitled thereby to benefit payments under Part C of Title IV after December 31, 1973. However, in respect to new claims filed under section 415 of the Act, no payment of benefits under this Subpart F of this Part 725 shall commence before January 1, 1974. Benefits due any eligible individual from the Department of Labor which are payable under Part B of Title IV of the Act, shall be determined and paid pursuant to Subpart C of Part 720 of this subchapter.

**§ 725.502 Manner of payment; payment periods.**

(a) Benefits under this Act shall be paid periodically, promptly, and directly to the person entitled thereto. Coal mine operators shall be liable for such payments as provided in Subpart D of this Part 725.

(b) Benefits are payable for monthly periods. If the claimant meets all the requirements for entitlement to benefits in the same month in which his claim is filed, the filing will be effective for the whole month. If a claimant dies in the first month for which he meets all the requirements for entitlement to benefits, he will be considered to be entitled to benefits for that month.

(c) On the 14th day after the date when there has been a determination by a deputy commissioner or decision by an administrative law judge to the effect that the claimant is entitled to receive benefits, or the date when payment of benefits has been ordered pursuant to § 725.312(b), the first installment of benefits for which an operator or his carrier is determined liable shall become due and all benefits then due shall be paid. Thereafter compensation shall be paid in monthly installments, except where the adjudicating officer determines that payment in installments should be made in some other fashion.

**§ 725.503 Date from which benefits shall be payable.**

(a) Section 6(a) of the Longshoremen's Act as incorporated by section 422 of Part C of Title IV of the Act requires that in the case of total disability benefits shall be payable to eligible beneficiaries from the date of the onset of such total disability and in the case of death, benefits shall be payable to eligible beneficiaries from the date of such death. In no event shall benefit payments be required under this part for any period prior to January 1, 1974.

(b) Each decision and order issued by an adjudication officer with respect to a claim shall, pursuant to the requirements of paragraph (a) of this section, state the date from which benefits are payable to eligible beneficiaries.

(c) Benefits payable for any period prior to the date of the decision and order awarding such benefits shall be computed on the basis of the benefit rate applicable to such period.

(d) In light of the fact that it may not be possible in certain instances to determine the date upon which a miner became totally disabled due to pneumoconiosis, the adjudication officer charged with the responsibility for determining such miner's claim may, in the absence of evidence to the contrary and under appropriate circumstances, determine that such miner's total disability due to pneumoconiosis began on the date such miner's claim was filed.

(e) No provision of this section shall be construed to in any way expand or alter the requirements of § 725.124 of this Part 725 which sets forth the time limits within which a claim under section 422 of Part C of Title IV of the Act must be filed.

**§ 725.504 Payees.**

Benefits may be paid, as appropriate, to a beneficiary, to a qualified dependent, or to a representative authorized under this subpart to receive payments on behalf of such beneficiary or dependent.

**§ 725.505 Payment on behalf of another; "legal guardian" defined.**

Benefits are paid only to the beneficiary or his legal guardian or representative payee. As used in this section, "legal guardian" means an individual who has been appointed by a court of competent jurisdiction or otherwise appointed pursuant to law, to assume control of and responsibility for the care of the beneficiary, the management of his estate, or both.

**§ 725.506 Guardian for minor or incompetent.**

An adjudication officer may require that a guardian or representative be appointed to receive benefits payable to any person who is mentally incompetent or a minor and to exercise the powers granted to, or to perform the duties required of, such person under the Act.

**§ 725.507 Assignment and exemption from claims of creditors.**

No assignment, release, or commutation of benefits due or payable under this part, except as provided by the Act as implemented by this Part 725, shall be valid, and such benefits shall be exempt from all claims of creditors and from levy, execution, and attachment or other remedy for recovery or collection of a debt, which exemption may not be waived (Act, section 422, and Longshoremen's Act, section 16).

### Benefit Rates

**§ 725.510 Computation of benefits.**

(a) *Basic rate.*—The benefit amount of each beneficiary entitled to a benefit for a month is determined, in the first instance, by computing the "basic rate." The basic rate is equal to 50 percent of the minimum monthly payment to which a totally disabled Federal employee in Grade GS–2 would be entitled for such month under the Federal Employees' Compensation Act, Chapter 81, Title 5, United States Code. That rate for a month is determined by:

(1) Ascertaining the lowest annual rate of pay (step 1) for Grade GS–2 of the General Schedule applicable to such month (see 5 U.S.C. 5332);

(2) Ascertaining the monthly rate thereof by dividing the amount determined in paragraph (a)(1) of this section by 12;

(3) Ascertaining the minimum monthly payment under the Federal Employees' Compensation Act by multiplying the amount determined in paragraph (a)(2) of this section by 0.75 (that is, by 75 percent) (see 5 U.S.C. 8112); and

(4) Ascertaining the basic rate under the Act by multiplying the amount determined in paragraph (a)(3) of this section by 0.50 (that is, by 50 percent).

(b) *Basic benefit.*—When a miner or widow is entitled to benefits for a month for which he or she has no dependents who qualify under Part 715 of this Chapter VI and when a surviving child of a miner or widow, or a parent, brother, or sister of a miner, is entitled to benefits for a month for which he or she is the only beneficiary entitled to benefits, the amount of benefits to which such beneficiary is entitled is equal to the basic rate as computed in accordance with this section (raised, if not a multiple of 10 cents, to the next high multiple of 10 cents). This amount is referred to as the "basic benefit."

(c) *Augmented benefit.*—(1) When a miner or widow is entitled to benefits for a month for which he or she has one or more dependents who qualify under Part 715 of this Chapter VI, the amount of benefits to which such miner or widow is entitled is increased. This increase is referred to as an "augmentation."

(2) The benefits of a miner or widow are augmented to take account of a particular dependent beginning with the first month in which such dependent satisfies the conditions set forth in Part 715 of this Chapter VI, and continues to be augmented through the month before the month in which such dependent ceases to satisfy the conditions set forth in Part 715 of this Chapter VI, except in the case of a child who qualifies as a dependent because he is a student. In the latter case such benefits continue to be augmented through the month before the first month during no part of which he qualifies as a student.

(3) The basic rate is augmented by 50 percent for one such dependent, 75 percent for two such dependents, and 100 percent for three or more such dependents.

(d) *Survivor benefit.*—(1) As used in this section, "survivor" means a surviving child of a miner or widow, or, a surviving parent, brother, or sister of a miner, who establishes entitlement to benefits under the provisions of Part 715 of this Chapter VI.

(e) *Computation and rounding.*—(1) Any computation prescribed by this section is made to the third decimal place.

(2) Monthly benefits are payable in multiples of 10 cents. Therefore, a monthly payment of amounts derived under paragraph (c)(4) of this section which is not a multiple of 10 cents is increased to the next higher multiple of 10 cents.

(3) Since a fraction of a cent is not a multiple of 10 cents, such an amount which contains a fraction in the third decimal place is raised to the next higher multiple of 10 cents.

**§ 725.511 Certification to dependent of augmentation portion of benefit.**

(a) If the benefit of a miner or of a widow is augmented because of one or more dependents (§ 725.510(b)) and it appears to the Office that the best interest of such dependent would be served thereby, the Office may certify payment of the amount of such augmentation (to the extent attributable to such dependent) to such dependent directly.

(b) Any request to the Office to certify separate payment of the amount of an augmentation in accordance with paragraph (a) of this section, shall be in writing on such form and in accordance with such instructions as are prescribed by the Office.

(c) In determining whether it is in the best interest of such dependent to certify separate payment of the amount of the augmentation in benefits attributable to him, the Office shall apply the standards pertaining to representative payment in §§ 720.435–720.444, and the instructions issued pursuant thereto.

(d) When the Office determines that the amount of a miner's benefit attributable to the miner's wife or child should be certified for separate payment to a person other than such miner, or that the amount of a widow's benefit attributable to such widow's child should be certified for separate payment to a person other than the widow, and the miner or widow disagrees with such determination and alleges that separate certification is not in the best interest of such dependent, the Office shall reconsider that determination.

(e) Any payment made under this section, if otherwise valid under the Act, is a complete settlement and satisfaction of all claims, rights, and interests in and to such payment.

**§ 725.512 Commutation of payments—lump sum awards.**

(a) Whenever the deputy commissioner determines that it is in the interest of justice, the liability for benefits or any part thereof as determined by a final adjudication, may, with the approval of the Director of the OWCP, be discharged by the payment of a lump sum equal to the present value of future benefit payments commuted, computed at 4 percent true discount compounded annually.

(b) Applications for commutation of future payments of benefits shall be made to the Office in the manner prescribed by the Office. If the deputy commissioner determines that an award of a lump sum payment of such benefit would be in the interest of justice, he shall refer such application, together with the reasons in support of such determination, to the Director of the Office for consideration.

(c) The Director of the OWCP shall, in his discretion, grant or deny the application for commutation of payments. In the case of a denial an appeal may be taken pursuant to the adjudicatory procedures prescribed in Subpart E of this Part 725 as though such appeal were an appeal from a denial of benefits.

(d) The computation of all commutations of such benefits will be made by the Office of Workmen's Compensation Programs and for such purpose the deputy commissioner shall refer the file to the appropriate officer. For this purpose the file shall contain the date of birth of the person on whose behalf commutation is sought, as well as the date upon which such commutation shall be effective.

(e) For purposes of determining the amount of any lump sum award, the probability of the death of the disabled miner and/or other persons entitled to benefits before the expiration of the period during which he is entitled to benefits, shall be determined in accordance with the American Experience Table of Mortality, and the probability of the remarriage of the surviving wife shall be determined in accordance with the remarriage tables of the Dutch Royal Insurance Institution. The probability of the happening of any other contingency affecting the amount or duration of the compensation shall be disregarded.

(f) In the event that an operator or carrier is adjudicated liable for the payment of benefits, such operator or carrier shall be notified of and given an opportunity to participate in the proceedings to determine whether a lump sum award shall be made. Such operator or carrier shall, in the event a lump sum award is made, tender full and prompt payment of such award to the claimant as though such award were a final payment of monthly benefits. Except as provided in paragraph (g) of this section, such lump sum award shall forever discharge such operator or carrier from his responsibility to make monthly benefit payments under the Act to the person who has requested such lump-sum settlement.

(g) In the event a lump sum award is approved pursuant to this section, such award shall not operate to bar an eligible miner's entitlement to medical benefits pursuant to sections 422 and 424 of Part C of Title IV of the Act.

**§ 725.513 Reimbursement payments to the Department of Labor.**

(a) In all cases in which the Department of Labor has made benefit payments or paid for medical services or treatment rendered under section 424 of Part C of Title IV of the Act, for which a coal mine operator is ultimately adjudicated liable, such operator or his insurance carrier shall, simultaneously with the first payment of benefits made to the eligible beneficiaries, reimburse the Department of Labor for the full amount of all benefit payments made by the Department in respect of the claim. Such reimbursement payments shall be made payable to the United States Department of Labor.

(b) The procedures described in sections 18 and 21(d) of the Longshoremen's Act and section 422 of the Act shall be applicable in respect of reimbursement payments due the Department.

### Increases and Reductions of Benefits

**§ 725.515 Modification of benefit amounts—general.**

Under certain conditions, the amount of monthly benefits as computed in

V 38-179
SEP 17 73
XUM

§ 725.510 may be modified to determine the amount actually to be paid to a beneficiary. A modification of the amount of a monthly benefit may be required in the following instances:

(a) *Reduction.*—A reduction from a beneficiary's monthly benefit may be required because of:

(1) Any compensation or benefits received under or pursuant to any State workmen's compensation law because of death or partial or total disability due to pneumoconiosis; or

(2) Any compensation or benefits received under or pursuant to any Federal law including Part B of Title IV of the Act because of death or partial or total disability due to pneumoconiosis; or

(3) The fact that a claim for benefits from an additional beneficiary is filed, or that such a claim is effective for a payment during the month of filing, or a dependent qualifies under Part 715 of this chapter for an augmentation portion of a benefit of a miner or widow for a period in which another dependent has previously qualified for an augmentation.

(b) *Adjustment.*—An adjustment in a beneficiary's monthly benefit may be required because an overpayment or underpayment has been made to such beneficiary.

(c) *"Rounding" of benefit amounts.*—(See § 725.510(e).)

(d) *Failure to disclose pertinent evidence.*—Any individual entitled to a benefit who is aware of any circumstance which, under the provisions of this part could affect his entitlement to benefits, his eligibility for payment, or the amount of his benefits, or result in the termination, suspension, or reduction of his benefits, shall promptly report such circumstance to the Office of Workmen's Compensation Programs. The Office may at any time require an individual receiving, or claiming that he is entitled to receive a benefit, either on behalf of himself or on behalf of another, to submit a written statement giving pertinent information bearing upon the issue of whether or not an event has occurred, which would cause such benefit to be terminated, or which would subject such benefit to reductions or suspension under the provisions of the Act. If such individual fails to submit any such report or statement, properly executed, to the Office as herein required, the Office may subject such benefit to reductions, suspension or termination as the case may be.

(e) *Reimbursement of trust fund.*—Pursuant to the provisions of section 422 of the Act and section 17(b) of the Longshoremen's Act as incorporated therein, where a trust fund which complies with section 302(c) of the Labor-Management Relations Act of 1947 (29 U.S.C. 186 (c)) established pursuant to a collective bargaining agreement in effect between an employer and an employee entitled to benefits under this Act has paid disability benefits to an employee which the employee is legally obligated to repay by reason of his entitlement to benefits under this Act, the Secretary may authorize a lien on such benefits in honor of the trust fund for the amount of such payments.

### § 725.516 Reduction; receipt of State or Federal benefit.

(a) As used in this section the term "State or Federal benefit" means a payment to an individual made on account of total or partial disability or death due to pneumoconiosis only under State or Federal laws relating to workmen's compensation.

(b) Benefit payments to a beneficiary for any month are reduced (but not below zero) by an amount equal to any payments of State or Federal benefits received by such beneficiary for such month.

(c) Where a State or Federal benefit is paid periodically but not monthly, or in a lump sum as a commutation of or a substitute for periodic benefits, the reduction under this section is made at such time or times and in such amounts as the Office determines will approximate as nearly as practicable the reduction required under paragraph (b) of this section. In making such a determination, a weekly State or Federal benefit is multiplied by 4⅓ and a biweekly benefit is multiplied by 2⅙ to ascertain the monthly equivalent for reduction purposes.

(d) [Reserved.]

### § 725.517 Reductions; retroactive effect of an additional claim for benefits.

Beginning with the month in which a person other than a miner files a claim and becomes entitled to benefits, the benefits of other persons entitled to benefits with respect to the same miner, are adjusted downward, if necessary, so that no more than the permissible amount of benefits (the maximum amount for the number of beneficiaries involved) will be paid.

## Overpayments, Underpayments

### § 725.521 Overpayment.

(a) *General.*—As used in this subpart, the term "overpayment" includes:

(1) Payment where no amount is payable under Part C of Title IV of the Act;

(2) Payment in excess of the amount due under Part C of Title IV of the Act;

(3) Payment resulting from the failure to reduce benefits under section 422 (g) of the Act;

(4) Payment resulting from the failure to terminate benefits of an individual no longer entitled thereto.

(b) *Adjustments for overpayment.*—If the beneficiary to whom an overpayment was made is at the time of a determination of such overpayment, entitled to benefits, or at any time thereafter becomes so entitled, no benefit for any month is payable to such individual, except as provided in paragraph (c) of this section, until an amount equal to the amount of the overpayment has been withheld or refunded.

(c) *Adjustment by withholding part of a monthly benefits.*—Adjustment under paragraph (b) of this section may be effected by withholding a part of the monthly benefit payable to a beneficiary where it is determined that:

(1) Withholding the full amount of each month would deprive the beneficiary of income required for ordinary and necessary living expenses;

(2) The overpayment was not caused by the beneficiary's intentionally false statement or representation, or willful concealment of, or deliberate failure to furnish material information; and

(3) Recoupment can be effected in an amount of not less than $10 a month and at a rate which would not extend the period of adjustment beyond 3 years after the initiation of the adjustment action.

(d) *Overpaid beneficiary dies before adjustment.*—If an overpaid beneficiary dies before adjustment is completed under the provisions of paragraph (b) of this section, recovery of the overpayment shall be effected through repayment by the estate of the deceased overpaid beneficiary, or by withholding of amounts due the estate of such deceased beneficiary, or both.

### § 725.522 Notice of right to waive consideration.

Whenever an initial determination is made that more than the correct amount of payment has been made, notice of the provisions of section 204(b) of the Social Security Act regarding waiver of adjustment or recovery shall be sent to the overpaid individual and to any other individual against whom adjustment or recovery of the overpayment is to be effected.

### § 725.523 When waiver of adjustment or recovery may be applied.

There shall be no adjustment or recovery in any case where an incorrect payment under Part C of Title IV of the Act has been made with respect to an individual—

(a) Who is without fault, and

(b) Adjustment or recovery would either:

(1) Defeat the purpose of Title IV of the Act, or

(2) Be against equity and good conscience.

### § 725.524 Standards for waiver of adjustment or recovery.

The standards for determining the applicability of the criteria listed in § 725.523 shall be the same as those applied by the Social Security Administration pursuant to §§ 410.561–410.561(h) of this title.

### § 725.525 Collection and compromise of claims for overpayment.

(a) *General effect of the Federal Claims Collection Act of 1966.*—Claims by the Office of Workmen's Compensation Programs against an individual for recovery of overpayment under Part C of Title IV of the Act, not exceeding the sum of $2,000, exclusive of interest, may be compromised, or collection suspended or terminated where such individual or his estate does not have the present or prospective ability to pay the full amount

of the claim within a reasonable time (see paragraph (c) of this section), or the cost of collection is likely to exceed the amount of recovery (see paragraph (d) of this section), except as provided under paragraph (b) of this section.

(b) *When there will be no compromise, suspension, or termination of collection of a claim for overpayment.*—(1) *Overpaid individual alive.*—In any case where the overpaid individual is alive, a claim for overpayment will not be compromised, nor will there be suspension or termination of collection of the claim by the Office if there is an indication of fraud, the filing of a false claim, or misrepresentation on the part of such individual or on the part of any other party having an interest in the claim.

(2) *Overpaid individual deceased.*—In any case where the overpaid individual is deceased:

(i) A claim for overpayment in excess of $2,000 will not be compromised, nor will there be suspension or termination of collection of the claim by the Office if there is an indication of fraud, the filing of a false claim, or misrepresentation on the part of such deceased individual, and

(ii) A claim for overpayment regardless of the amount will not be compromised, nor will there be suspension or termination of collection of the claim by the Office if there is an indication that any person other than the deceased overpaid individual had a part in the fraudulent action which resulted in the overpayment.

(c) *Inability to pay claim for recovery of overpayment.*—In determining whether the overpaid individual is unable to pay a claim for recovery of an overpayment under Part C of Title IV of the Act, the Office will consider such individual's age, health, present and potential income (including inheritance prospects), assets (*e.g.*, real property, savings account), possible concealment or improper transfer of assets, and assets or income of such individual which may be available in enforced collection proceedings. The Office will also consider exemptions available to such individual under the pertinent State or Federal law in such proceedings. In the event the overpaid individual is deceased, the Office will consider the available assets of the estate, taking into account any liens or superior claims against the estate.

(d) *Cost of collection or litigative probabilities.*—Where the probable costs of recovering an overpayment under Part C of Title IV of the Act would not justify enforced collection proceedings for the full amount of the claim or there is doubt concerning the Office's ability to establish its claim as well as the time which it will take to effect such collection, a compromise or settlement for less than the full amount will be considered.

(e) *Amount of compromise.*—The amount to be accepted in compromise of a claim for overpayment under Part C of Title IV of the Act shall bear a reasonable relationship to the amount which can be recovered by enforced collection proceedings giving due consideration to the exemptions available to the overpaid individual under State or Federal law and the time which collection will take.

(f) *Payment.*—Payment of the amount which the Office has agreed to accept as a compromise in full settlement of a claim for recovery of an overpayment under Part C of Title IV of the Act must be made within the time and in the manner set by the Office. A claim for such recovery of the overpayment shall not be considered compromised or settled until the full payment of the compromised amount has been made within the time and manner set by the Office. Failure of the overpaid individual or his estate to make such payment as provided shall result in reinstatement of the full amount of the overpayment less any amounts paid prior to such default.

### § 725.526 Underpayments.

(a) *General.*—As used in this subpart, the term "underpayment" includes a payment in an amount less than the amount of the benefit due for such month, and nonpayment where some amount of such benefits is payable.

(b) *Underpaid individual is living.*—If an individual to whom an underpayment is due is living, the amount of such underpayment will be paid to such individual either in a single payment (if he is not entitled to a monthly benefit) or by increasing one or more monthly benefit payments to which such individual is or becomes entitled.

(c) *Underpaid individual dies before adjustment of underpayment.*—If an individual to whom an underpayment is due dies before receiving payment or negotiating the check or checks representing such payment, such underpayment will be distributed to the living person (or persons) in the highest order of priority as follows:

(1) The deceased individual's surviving spouse who was either:

(i) Living in the same household with the deceased individual at the time of such individual's death, or

(ii) In the case of a deceased miner, entitled for the month of death to widow's black lung benefits.

(2) In the case of a deceased miner, or widow, his or her child entitled to benefits as the surviving child of such miner or widow for the month in which such miner or widow died (if more than one such child, in equal shares to each such child).

(3) In the case of a deceased miner, his parent entitled to benefits as the surviving parent of such miner for the month in which such miner died (if more than one such parent, in equal shares to each such parent).

(4) The surviving spouse of the deceased individual who does not qualify under paragraph (c)(1) of this section.

(5) The child or children of the deceased individual who do not qualify under paragraph (c)(2) of this section (if more than one such child, in equal shares to each such child).

(6) The parent or parents of the deceased individual who do not qualify under paragraph (c)(3) of this section (if more than one such parent, in equal shares to each such parent).

(7) The legal representative of the estate of the deceased individual as defined in paragraph (e) of this section.

(d) In the event that a person who is otherwise qualified to receive an underpayment under the provisions of paragraph (c) of this section, dies before receiving payment or before negotiating the check or checks representing such payment, his share of the underpayment will be divided among the remaining living person(s) in the same order or priority. In the event that there is (are) no other such person(s), the underpayment will be paid to the living person(s) in the next lower order of priority under paragraph (c) of this section.

(e) *Definition of legal representative.*—The term "legal representative," for the purpose of qualifying to receive an underpayment, generally means the executor or the administrator of the estate of the deceased beneficiary. However, it may also include an individual, institution, or organization acting on behalf of an unadministered estate, provided the person can give the Office good acquittance (as defined in paragraph (f) of this section). The following persons may qualify as legal representative for purposes of this section, provided they can give the Office good acquittance:

(1) A person who qualifies under a State's "small estate" statute; or

(2) A person resident in a foreign country who under the laws and customs of that country, has the right to receive assets of the estate; or

(3) A public administrator; or

(4) A person who has the authority, under applicable law, to collect the assets of the estate of the deceased beneficiary.

(f) *Definition of "good acquittance".*—A person is considered to give the Office "good acquittance" when payment to that person will release the Office from further liability for such payment.

### § 725.527 Relation to provisions for reductions or increases.

The amount of an overpayment or underpayment is the difference between the amount actually paid to the beneficiary and the amount of the payment to which the beneficiary was actually entitled. Such overpayment or underpayment, for example, would be equal to the difference between the amount of a benefit in fact paid to the beneficiary and the amount of such benefit as reduced under section 422(g) of the Act, as increased pursuant to section 412(a)(1), or as augmented under section 412(a)(3), of the Act. In effecting an adjustment with respect to an overpayment, no amount can be considered as having been withheld from a particular benefit which is in excess of the amount of such benefit as so reduced. Overpayment and underpayment simultaneously outstanding on account of the same beneficiary are first adjusted against one another before adjustment pursuant to the other provisions of this subpart.

V 38 179 SEP 17 73 XUM

**§ 725.528 Applicability of overpayment and underpayment provisions to operator or carrier.**

(a) The provisions contained in this subpart relating to overpayments and underpayments are applicable in those cases where the overpayment or underpayment was made by a responsible operator or carrier, except that in appropriate cases the Office shall have the authority to take such action as may be necessary in any particular case to protect the rights of all parties including the utilization of the adjudicatory procedures described in Subpart E of this part.

(b) No operator or carrier may proceed to make an adjustment in respect of an overpayment except upon application to and approval by the Office. In all such cases the Office shall exercise full supervisory authority over the adjustment of an overpayment.

**§ 725.529 Applicability of Part B representative payee provisions.**

Except as otherwise provided in this part, the representative payee provisions contained in Subpart C of 20 CFR Part 720 shall be applicable in respect of benefit payments made under Part C of Title IV of the Act.

MEDICAL BENEFITS

**§ 725.541 Availability of medical benefits.**

A responsible operator, his insurance carrier, or the Secretary, as the case may be, shall furnish such medical, surgical, and other treatment, nurse and hospital service, medicine, and apparatus, for such period as the nature of a miner's pneumoconiosis and related disability, or the process of recovery may require.

**§ 725.542 Approved physicians.**

The term physician shall mean all duly qualified physicians, to include surgeons and osteopaths within the scope of their practice as defined by State law. Chiropractors, naturopaths, podiatrists (chiropodists), psychologists, optometrists, faith healers, and other practitioners of the healing arts are not recognized as physicians as that term is used in this part.

**§ 725.543 Supervision of medical treatment.**

The Office shall actively supervise the medical care rendered to disabled miners, shall require periodic reports as to the medical care being rendered to disabled miners, and shall have authority to determine the necessity, character, and sufficiency of any medical aid furnished or to be furnished. The Director of the Office may, on his own initiative or at the request of the miner or responsible operator, order a change of physicians or hospitals when in his judgment such change is desirable or necessary in the interest of the miner.

**§ 725.544 Fees for medical benefits.**

(a) Fees for medical services contemplated in this subpart shall be paid by a responsible operator if he is a self-insurer or by his insurance carrier. In the event there is no financially responsible operator, fees shall be paid by the Office.

(b) Fees charged in respect of medical benefits obtained by a miner pursuant to this subpart shall be subject to the provisions of § 725.135.

VOCATIONAL REHABILITATION

**§ 725.551 Objective of vocational rehabilitation.**

The objective of vocational rehabilitation is the return of miners who are totally disabled for work in or around a coal mine and who are unable to utilize those skills which were employed in the miner's coal mine employment to gainful employment commensurate with such miner's physical impairment. This objective may be achieved through a program of re-evaluation and redirection of the miner's abilities, or retraining in another occupation, and selective job placement assistance.

**§ 725.552 Requests for and referral to vocational rehabilitation assistance.**

Each miner who has been determined entitled to receive benefits for his total disability under Part C of Title IV of the Act shall be informed by the OWCP of the availability and advisability of vocational rehabilitation services. If such miner chooses to avail himself of vocational rehabilitation, his request shall be processed and referred by OWCP vocational rehabilitation advisors pursuant to the provisions of §§ 702.501–702.508 of this Chapter VI as is appropriate.

Signed at Washington, D.C., this 10th day of September 1973.

BERNARD E. DELURY,
*Assistant Secretary for Employment Standards.*

## DEPARTMENT OF LABOR

### Employment Standards Administration

### [ 20 CFR, Part 725 ]

### BLACK LUNG BENEFITS PROGRAM REDUCTION

### Receipt of State or Federal Benefit

On November 30, 1972, 20 CFR Chapter VI was amended by adding thereto a new Part 725 (37 FR 25440–25466), section 725.516(d) (37 FR 25462) in that document contained a procedure for reducing the amount of benefits to which an eligible claimant under Part 725 would be entitled by the amount of any State pneumoconiosis benefits received less certain State claim connected expenses incurred by such claimant.

In the FEDERAL REGISTER of this date Part 725 was revised. However, paragraph (d) of § 725.516 was not reissued but was reserved in order that further consideration might be given to the contents of the paragraph. It is proposed that paragraph (d) will contain either the provisions of Alternative I or of Alternative II.

Alternative I, describes a procedure by which a dual Federal and State claimant shall have his Federal black lung benefits reduced under section 422(g) of the Act by the amount of State black lung benefits awarded less the amount of such claimant's State claim connected expenses (e.g., legal, medical, etc.). Alternative II describes a procedure by which such claimant shall have his Federal black lung benefits reduced under section 422(g) of the Act by the full amount of any State black lung benefits awarded. Alternative I is predicated upon the incorporation by section 430 of Part C of Title IV of the Act, of the 1972 amendments to section 413(b) of Part B of Title IV of the Act and attempts to reduce the burden of double legal and medical fees which must normally be born by any claimant who, for any reason, finds it advantageous to file pneumoconiosis claims under Part C of Title IV of the Act and under a State workmen's compensation law. Alternative II is supported by the traditional workmen's compensation practice that a claimant's legal and medical costs incurred in the pursuit of his workmen's compensation claim are personal expenses which are exclusively the responsibility of such claimant.

Public comment is requested concerning these two alternatives. The time for comments concerning these two alternatives shall remain open until October 10, 1973, at which time the Secretary shall determine which of the two alternatives best serves the purpose of the Department's Part C Black Lung Benefits Program. The Department will publish in final form one alternative, with any revisions which are warranted, prior to January 1, 1974.

It is proposed to amend paragraph (d) of § 725.516 as follows:

**§ 725.516 Reduction: receipt of State or Federal benefit.**

* * * * *

ALTERNATIVE I

(d) Amounts paid or incurred or to be incurred by the individual for medical, legal, or related expenses in connection with his claim for State or Federal benefits (defined in paragraph (a) of this section) are excluded in computing the reduction under paragraph (b) of this section, to the extent that they are consonant with State or Federal law. Such medical, legal, or related expenses may be evidenced by the State or Federal benefit awards, compromise agreement, or court order in the State or Federal benefit proceedings, or by such other evidence as the Office may require. Such other evidence may consist of:

(1) A detailed statement by the individual's attorney, physician, or the employer's insurance carrier; or

(2) Bills, receipts, or canceled checks; or

(3) Other clear and convincing evidence indicating the amount of such expenses; or

(4) Any combination of the foregoing evidence from which the amount of such expenses may be determinable.

Such expenses will not be excluded unless established by evidence as required by the Office.

ALTERNATIVE II

(d) Amounts paid or incurred or to be incurred by the individual for medical, legal, or related expenses in connection with his claim for State benefits (defined in paragraph (a) of this section) are included in computing the reduction in paragraph (b) of this section to the extent they are consonant with State law.

Signed at Washington, D.C. this 10th day of September 1973.

BERNARD E. DELURY,

## DISCLOSURE STATEMENT FOR COLLEGES AND UNIVERSITIES

### Basic Requirements

No. 179—Pt. III——1

V 38-179 SEP 17 73 XUM

## COST ACCOUNTING STANDARDS BOARD

**[ 4 CFR Part 351 ]**

### DISCLOSURE STATEMENT FOR COLLEGES AND UNIVERSITIES

**Basic Requirements**

Public Law 91–379, which applies to most negotiated defense prime contracts and subcontracts in excess of $100,000, requires that contractors shall disclose in writing, their cost accounting practices. The Disclosure Statement Form (CASB–DS–1) has been designed to facilitate the meeting of this requirement by contractors. The purpose of this publication by the Cost Accounting Standards Board is to propose a modification to Part 351.14, Disclosure Statement, of its rules and regulations.

Representatives of colleges and universities have expressed to the Board a strong desire to have a separate Disclosure Statement to cover their practices. Such organizations, most of which operate under Budget Circular A–21, have unique terminology relative to their cost accounting practices and in completing the original Disclosure Statement Form they are required to use innumerable continuation sheets to adequately describe their cost accounting practices. The proposed Form CASB–DS–2 incorporates terminology more commonly used by colleges and universities.

Colleges and universities are now subject to Standards only in contracts awarded by defense agencies. A very small number of such organizations are now required to submit Disclosure Statements. The Board has worked with representatives of Government agencies and universities in designing a separate Disclosure Statement for colleges and universities, and that proposed Disclosure Statement is being published today.

The Cost Accounting Standards Board solicits comments on the proposed Disclosure Statement for colleges and universities, Form CASB–DS–2. Interested persons should submit their comments to the Cost Accounting Standards Board, 441 G Street NW., Washington, D.C. 20548. To be given consideration by the Board in its deliberations relative to this proposal, written submissions must arrive no later than November 16, 1973. All written submissions made pursuant to this notice will be made available to the public for inspection at the Board's offices during regular business hours.

The following modifications to Part 351 of the Board's regulations are proposed in view of the foregoing:

**§ 351.145 Disclosure Statement—colleges and universities.**

The data which are required to be disclosed by colleges and universities are set forth in detail in the Disclosure Statement Form, CASB–DS–2, which will be devised by the Cost Accounting Standards Board and will be arranged substantially as set forth below.

1. This Disclosure Statement has been designed to meet the requirements of Public Law 91–379, and persons completing it are to describe their contract cost accounting practices. For timing of requirement to file a Disclosure Statement, see 4 CFR 351.40. For complete regulations and instructions concerning submission of the Disclosure Statement, refer to the FEDERAL REGISTER, Title 4, Parts 331 and 351. A Statement must be submitted by all defense contractors who enter into negotiated national defense contracts with the United States in excess of $100,000 other than contracts where the price negotiated is based on (1) established catalog or market prices of commercial items sold in substantial quantities to the general public, or (2) prices set by law or regulation. A separate Disclosure Statement must be submitted by each organizationally independent and self-sufficient educational institution or a segment of an educational system that substantially has such characteristics of independence and self-sufficiency, whose costs included in the total price of any contract exceed $100,000, except where such costs are based on (1) established catalog or market prices of commercial items sold in substantial quantities to the general public; or (2) prices set by law or regulation. If the cost accounting practices under contracts are identical for more than one organizational unit, then only one Statement need be submitted for those units, but each such organizational unit must be identified. A Disclosure Statement will also be required for each system (home) office or group office when costs are allocated to one or more system segments performing contracts covered by Public Law 91–379, but only Part VIII of the Statement need be completed.

2. The Statement must be signed by an authorized signatory of the reporting unit.

3. The Disclosure Statement should be answered by checking the appropriate box or inserting the applicable letter code which most nearly describes the reporting unit's cost accounting practices. Pen and ink may be used to enter the check or letter code. Part I of the Statement asks for general information concerning the reporting unit. Part VIII covers System (Home) and Group (Intermediate) Offices whose costs are allocated to one or more segments performing contracts covered by Public Law 91–379. Part VIII should be completed by each such office, and care should be taken to insure proper identification of such offices on the cover of the Disclosure Statement. In short, while a System (Home) or Group Office may have more than one reporting unit submitting Disclosure Statements, only one Statement need be submitted to cover the System (Home) or Group Office operations.

4. A number of questions in this Statement may need narrative answers requiring more space than is provided. In such instances, the reporting unit should use the continuation sheets provided. The number of the question involved should be indicated and the same coding required to answer the questions in the Statement should be used in presenting the answer in the continuation sheet. The reporting unit should indicate on the last continuation sheet used, the number of such sheets that were used.

5. Amendments shall be submitted to the same offices, including the Cost Accounting Standards Board, to which submission would have to be made were an original Disclosure Statement being filed. If on a year to year basis the responses to Items 1.1.0 through 1.4.0, 8.1.0, and 8.2.0 would remain the same, the contractor need not resubmit data concerning these particular items. Otherwise, revised data must be submitted annually at the beginning of the contractor's fiscal year. If fewer than five of the other items in the Disclosure Statement on file are changed, a letter notice precisely identifying the Disclosure Statement, the specific items being amended, and the nature of the changes will suffice. If five or more items are changed, the entire Disclosure Statement shall be resubmitted. Resubmitted Disclosure Statements must be accompanied by a notation specifying the items which have been changed and the nature of the change.

ARTHUR SCHOENHAUT,
*Executive Secretary.*

| 5.1.0 | Depreciating Tangible Assets for Government Contract and Grant Costing. (For each of the asset categories listed on Page 17, enter a code from A through G in Column (1) describing the method of depreciation (Code F for assets that are ex. nsed); a code from A through E in Column (2) describing the basis for determining useful life; a code from A through C in Column (3) describing how depreciation methods or use charges are applied to property units; and a Code A, B or C in Column (4) indicating whether or not residual value is deducted from the total cost of depreciable assets. Enter Code Y in each column of an asset category where another or more than one method applies. Enter Code Z in Column (1) only, if an asset category is not applicable.) |

Column (1)--Depreciation Method Code

A. Straight line
B. Declining balance
C. Sum-of-the-years digits
D. Machine hours
E. Unit of production
F. Expensed at acquisition
G. Use charge
Y. Other or more than one method (Describe on a continuation sheet.)
Z. Asset category is not applicable

Column (2)--Useful Life Code

A. U.S. Treasury Department guidelines
B. Replacement experience
C. Term of lease
D. Engineering estimate
E. As prescribed for use charge by the Office of Management and Budget Circular No. A-21
Y. Other or more than one method (Describe on a continuation sheet.)

Column (3)--Property Units Code

A. Individual units are accounted for separately
B. Applied to groups of assets with similar service lives
C. Applied to groups of assets with varying service lives
Y. Other or more than one method (Describe on a continuation sheet.)

Column (4)--Residual Value Code

A. Residual value is deducted
B. Residual value is covered by the depreciation method (e.g., declining balance
C. Residual value is not deducted
Y. Other or more than one method (Describe on a continuation sheet.)

PART VII--DEFERRED COMPENSATION AND INSURANCE COSTS

NAME OF REPORTING UNIT

| Item No. | Item Description |
|---|---|

Instructions for Part VII

This part covers pension costs and certain types of deferred incentive compensation and insurance costs. Some organizations may record all of these costs at the main campus level or for public institutions at the governmental unit level, while others may record them at subordinate organization levels. Still others may record a portion of these costs at the main campus level and the balance at subordinate organization levels. Reporting units, therefore, should obtain the necessary information from the organizational level at which such costs are recorded.

7.1.0 Pension Costs. The actuarial terms used in this item are defined in Opinion Number 8 of the Accounting Principles Board, American Institute of Certified Public Accountants.

7.1.1 Pension Plans Charged to Government Contracts and Grants. Does your organization have one or more pension plans whose costs are charged to Government contracts and grants? (Check one.)

A. [ ] Yes (If Yes, list each such plan on a continuation sheet [e.g., TIAA-CREF, University-Operated Plan, State Retirement Plan] and indicate the approximate number and type of employees covered by each plan.)

B. [ ] No (If No, skip to Item 7.2.0.)

7.1.2 Is the pertinent information requested in Items 7.1.3 through 7.1.10 available to the reporting unit?

A. [ ] Yes (Complete Items 7.1.3 through 7.1.10 for the three plans covering the greatest number of employees whose pension costs are charged to Government contracts and grants.)

B. [ ] No (If no, skip to Item 7.2.0.)

7.1.3 Extent of Funding. (Check one block for each plan. In the event the amount funded for each plan is different from the amount charged on the books of account, describe the difference on a continuation sheet. If the actuarial cost method in use does not separately develop prior service costs, block A should be checked. If normal pension costs are not fully funded, check block "Y" and explain funding practices on a continuation sheet.)

| | Plan I | Plan II | Plan III |
|---|---|---|---|
| A. Normal costs only | [ ] | [ ] | [ ] |
| B. Normal costs plus interest on past or prior service costs | [ ] | [ ] | [ ] |

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

# List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

## Title 3—The President

PROCLAMATION 4242

# National Hunting and Fishing Day

*By the President of the United States of America*

## A Proclamation

Hunting and fishing appeal to many Americans.

They provide an opportunity for our people to be outdoors, to travel, and to enjoy the blessings of nature. The result is that both the cause of conservation and the spirit of man are benefitted. Through the purchase of licenses and permits, the payment of excise taxes on hunting and fishing equipment, and voluntary contributions, the hunter or fisherman plays a vital role in the betterment of the Nation's wildlife resources and in support of hunting and boating safety programs.

The American people have been coming to realize in recent years that the environment of man is one with the environment of fish and wildlife—that which harms one harms the other. This is a truth which has always been understood by the Nation's sportsmen. They have long been active in the effort to protect and renew our environment and we will continue to look to them for leadership in this vital area.

In recognition of the many worthwhile contributions of the American hunter and angler, the Congress, by House Joint Resolution 210, has requested the President to declare the fourth Saturday of September, 1973 as National Hunting and Fishing Day.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby designate Saturday, September 22, 1973, as National Hunting and Fishing Day.

I urge all our citizens to join with outdoor sportsmen in the wise use of our natural resources and in insuring their proper management for the benefit of future generations.

IN WITNESS WHEREOF, I have hereunto set my hand this fourteenth day of September, in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred ninety-eighth.

Richard Nixon

# Fire Prevention Week, 1973

## PROCLAMATION 4243

*By the President of the United States of America*

## A Proclamation

Scarcely a day passes that we do not read of a tragic fire which has destroyed life or property somewhere in our land. Each year more than 12,000 lives are lost from fires in America and an additional 300,000 people suffer serious injury. Fires also cause a staggering loss in terms of property damage. Each year the cost in property destroyed by fires in this country is more than $3 billion while another $8 billion is spent on additional fire costs.

While this needless waste cannot be halted completely, we know that active fire prevention can do much to reduce these terrible misfortunes. Two years ago, I appointed a National Commission on Fire Prevention and Control which has since reported its findings concerning our Nation's fire problem. The Commission's strong emphasis on fire prevention is persuasive and sensible. It encourages us to place a greater priority on the work of preventing fires before they start rather than simply working to put them out after they begin.

Accidents are often acts beyond our control, but careless accidents can be prevented. Every American must recognize his or her responsibility to make fire prevention an effective national commitment.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby designate the week beginning October 7, 1973, as Fire Prevention Week.

I urge all our citizens to involve themselves personally in fire prevention activities in their own communities, working with local fire departments and local governments as well as with the National Fire Protection Association. I also request all Federal agencies, in cooperation with the Federal Fire Council, to conduct effective year-round fire prevention programs in order to help reduce the terrible loss of life and property from fires.

IN WITNESS WHEREOF, I have hereunto set my hand this fourteenth day of September, in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred ninety-eighth.

Richard Nixon

# Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

## Title 32A—National Defense, Appendix

## CHAPTER XI—OIL IMPORT APPEALS BOARD

## OIAB—RULES AND PROCEDURES

The Oil Import Appeals Board seeks petitioners' cooperation and assistance in providing the Board with sufficient information in order that the Board may continue to process all petitions fairly, efficiently, and promptly. The Oil Import Appeals Board considers it advisable to publish a revision of its procedural regulations as set forth below. Authority of the Board to effect such revision is as stated in the revised regulations.

One purpose of the revision is to incorporate into the Board's regulations the recent changes in Oil Import Regulation 1, 32A CFR Chapter X, as amended, which implement the Mandatory Oil Import Program established by Presidential Proclamation 3279, 24 FR 1781 (March 10, 1959), as amended; 38 FR 9654–9656 (April 19, 1973); 38 FR 16195–16201 (June 21, 1973). Another purpose of the revision is to incorporate existing practices adopted by the Board to conform to the above listed changes in Regulation 1 and to established guidelines referred to below.

Major revisions have been made in sections 3 and 6 of the Board's regulations, and a new section 7 has been added. The revised section 3 sets out the Board's enlarged jurisdiction, including its new power to grant rebate of license fees paid. Section 6, as revised, continues the requirement that all petitions filed with the Board be accompanied by completed questionnaires and sets out the established Board practice of requiring responses to the Guidelines published by the Chairman of the Oil Policy Committee, 38 FR 10811–10812 (May 2, 1973). These revisions enable the Board to better evaluate petitions before it under the Guidelines and enable petitioners more easily to obtain relief where justified.

In order to expedite the processing of petitions, if possible without hearings, the Board has published two questionnaires, 38 FR 9840–9841 (April 20, 1973), 38 FR 10649 (April 30, 1973), relating to crude and unfinished oils or to finished product petitions. The new section 7 recites the questionnaires as revised to update them in accordance with the above mentioned Guidelines and the changes to Regulation 1. The previous section 7 and succeeding sections in the former rules have been renumbered and edited, and they are included herein for completeness.

Other revisions appear in sections 4, 17 and 22. Section 4 is revised to clearly state the Board's requirement that petitioner's representative file his name, address, and telephone number and that it is petitioner's duty to inform the Board of any change in its representative. In the revised section 17 the Board's existing requirement that a petitioner must demonstrate a reasonable justification for in camera treatment of information contained in the filing is more clearly set out. Section 22 has been revised to more clearly state the requirement that petitioners promptly notify the Board of any change in circumstances subsequent to the filing of the petition which would affect petitioner's merit to receive or retain a Board allocation.

This revision of the Board's regulations incorporates changes in the Mandatory Oil Import Program already effective and existing practices adopted simultaneously to implement those changes. Because of this and to conform with existing guidelines, to publish the revisions as proposed rulemaking would serve no useful purpose and would not be in the public interest. Accordingly, the revised regulations as set forth below shall be effective on September 18, 1973.

Dated August 31, 1973.

SETH M. BODNER,
*Member.*

GEORGE H. SCHUELLER,
*Member.*

DANIEL HARRIS,
*Chairman.*

The revised text of Chapter XI reads as follows:

Sec.
1 Purpose.
2 Establishment of Board.
3 Authority of the Board.
4 Representation before the Board.
5 Types of petitions; time and place to file.
6 Content of petition.
7 Data required by the Board to accompany petitions.
8 Hearings on petitions.
9 Notice of hearing.
10 Unexcused absence of a petitioner.
11 Conduct of hearing.
12 Consolidation.
13 Briefs, memoranda of law, documentary evidence, and other information.
14 Statements by interested persons other than petitioner.
15 Private communications prohibited.
16 Participation by the Office of Oil and Gas.
17 In camera orders.
18 Decisions of the Board.
19 Reconsideration of decisions.
20 Reopening of proceedings.
21 Clerical mistakes.
22 Duty to inform the Board.
23 Record open to the public.

AUTHORITY: Proclamation No. 3279 of March 10, 1959, as amended, 24 FR 1781, 10133, as amended, 38 FR 16195; sec. 232 of The Trade Expansion Act of 1962, 76 Stat. 877; and Oil Import Regulation 1, Revision 5, as amended (Amendment 59), 38 FR 19820.

**Sec. 1 Purpose.**

These rules govern the procedures on petitions to the Oil Import Appeals Board, hereinafter referred to as the "Board." They shall be construed to secure the just, speedy, and inexpensive determination of every proceeding.

**Sec. 2 Establishment of Board.**

Pursuant to section 4 of Presidential Proclamation 3279, dated March 10, 1959 (24 FR 1781), as amended, hereinafter referred to as the "Proclamation," the Board was established by section 21 of Oil Import Regulation 1 (24 FR 1907), as revised and amended. Oil Import Regulation 1 is hereinafter referred to as the "Regulation." The Board is comprised of a representative each from the Departments of the Interior, Justice, and Commerce, designated respectively by the heads of such Departments. The Department of the Interior member serves as chairman.

**Sec. 3 Authority of the Board.**

(a) The Board, subject to the general direction of the Chairman of the Oil Policy Committee, shall consider petitions by persons affected by the Regulation that fall within the limits of the jurisdiction specified in this paragraph and without regard to the limits of the maximum levels of imports established in section 2 of Proclamation 3279, as amended, may:

(1) Reverse or modify on grounds of error actions taken by the Director, Office of Oil and Gas, Department of the Interior, on applications for allocations of imports under the Regulation;

(2) Modify, on the grounds of exceptional hardship, any allocation made to any person under the Regulation;

(3) Grant allocations of imports of crude oil and unfinished oils in special circumstances to persons with importing histories who do not qualify for allocations under the Regulation;

(4) Grant allocations of imports of finished products on grounds of exceptional hardship;

(5) Grant allocations of imports of crude oil, unfinished oils and finished products to independent refiners or established independent marketers who are experiencing exceptional hardship, or in emergencies in order to assure, insofar as practicable, that adequate supplies are available;

(6) Review the revocation or suspension of any allocation or license;

V 38-180 SEP 18 73 XUM

(7) Review the denial by the Director, Office of Oil and Gas, Department of the Interior, of refunds of license fees, whether in whole or in part, theretofore paid by a person; and

(8) Grant refunds, in whole or in part, of license fees paid by persons to whom licenses were issued for imports which they subsequently became entitled to make under allocations made by the Board.

(b) Only petitions relating to matters covered by paragraph (a) of this section may be considered by the Board. Petitions requesting a change or disregard of the proclamation or the Regulation may not be considered.

(c) Except with respect to its function to review applications for allocations of imports to which license fees are applicable, licenses issued pursuant to Board allocations shall be fee exempt.

(d) The Board may adopt, promulgate, and publish such rules and procedures as it deems appropriate for the conduct of its business.

(e) The Board may take such actions on petitions as it deems appropriate and its decisions shall constitute final action.

**Sec. 4 Representation before the Board.**

Subject to the provisions contained in Part 1 of Title 43, Code of Federal Regulations, a petitioner may appear in person, by counsel or other qualified representative, and participate fully in any proceeding before the Board held pursuant to these rules.

Petitioner's representative must file his full name, address, and telephone number with the Board. Should petitioner change his representative, it is petitioner's duty to so inform the Board.

**Sec. 5 Types of petitions; time and place to file.**

(a) Several types of petitions may be filed with the Board requesting it to take action within its jurisdiction as set out in section 3 or other related provision of these regulations or in Oil Import Regulation 1.

(b) Petitions and related documents shall be addressed to the Oil Import Appeals Board and filed with the Board (address: Oil Import Appeals Board, Department of the Interior, 4015 Wilson Boulevard, Arlington, Va. 22203 (telephone number 703 557-9220)).

(c) A petition requesting review of any action taken by the Director, Office of Oil and Gas, Department of the Interior, must be filed with the Board not later than 30 calendar days after the action has taken place. The Board, at its discretion, may extend the time limit in which to file upon a showing of good cause.

**Sec. 6 Content of petition.**

(a) A petition must be in writing, signed by the petitioner or his duly authorized representative or attorney, clearly marked as "petition," and filed in six copies. Each petition shall be organized under six headings, as follows:

(1) The relief sought by the petitioner, expressed in barrels per day (b/d) and in total barrels (bbls.) during the applicable allocation period;

(2) The pertinent provisions of the Regulation under which the Board has authority to grant such relief;

(3) The decision of the Director, Office of Oil and Gas, Department of the Interior, involved in the petition, if any;

(4) The relevant facts in support of the petition;

(5) The arguments in support of the petition;

(6) Responses to the guidelines published by the Chairman of the Oil Policy Committee in Title 32A CFR Chapter XII for the Board's use in evaluating petitions. The responses must be under the heading of each of the published guidelines and provide sufficient information to enable the Board to evaluate the petition under each.

(b) Each petition shall be accompanied by the pertinent data—finished product or crude and unfinished oils—with the information sought set out under the headings of the pertinent format as set forth in either section 7(a) or 7(b).

**Sec. 7 Data required by the Board to accompany petitions.**

(a) In order to process petitions for finished product import allocations the Board requires the data and information as set forth below. Submit six completed copies of this material, identifying each item by the number and precise heading appearing herein. Make attachments, if necessary. Quantity figures should be stated in terms of gallons and in terms of barrels, unless questions herein are specified otherwise.

(1) Full name of petitioner, address of principal office and name and telephone number of company official responsible for the petition.

(2) Company ownership. If petitioner is not a sole proprietorship, list all companies, individuals or stockholders possessing 10 percent or more of company ownership or stock.

(3) The relief requested (expressed in barrels per day and total barrels), the particular commodity requested, and the specific period for which relief is requested.

(4) All domestic subsidiaries and affiliates, if any, in which petitioner holds an interest of 15 percent or more.

(5) Market area, specifying Districts, in which petitioner, its subsidiaries or affiliates operate.

(6) All brand names which petitioner, its subsidiaries or affiliates use in marketing products.

(7) State whether petitioner, its subsidiaries or affiliates sell products to (a) motorists, (b) home owners, (c) industrial and other commercial accounts, (d) governmental agencies, (e) farmers, and (f) to independent marketers for resale without brand names or under brand names different from the brand name(s) used by petitioner, its subsidiaries or affiliates.

(8) State for each of the last 3 years petitioner's gross sales separately by product for the particular product(s) which are the subject of the petition, and, where such sales are made, specify figures for: (a) gasoline, (b) No. 2 fuel oil, (c) residual fuel oil, (d) other products or services (Estimate where appropriate). Also state your gross sales to date and estimates for the balance of the current allocation period.

| Calendar year | Quantity | | | Dollars |
|---|---|---|---|---|
| | Gallons | Barrels | Barrels per day (average) | |

With respect to (a) gasoline and (b) No. 2 fuel oil, state the approximate percentages of those gross sales which were made to the various types of customers described in item 7 above.

(9) List your actual and/or prospective suppliers for the current allocation period of the product(s) for which you seek an import allocation. Indicate the quantities already obtained as well as offered or expected during the allocation period and the delivered price:

| Supplier | Quantity | | | Delivered price per gallon |
|---|---|---|---|---|
| | Gallons | Barrels | Barrels per day (average) | |

State which of the above supplies are subject to (a) long-term contracts (6 months or longer), (b) short-term or ever-green contracts, and (c) spot purchases.

(10) List your past suppliers of the product(s) for which you seek import allocations in each of the last 3 years, the quantity supplied, and delivered price:

| Calendar year | Supplier | Quantity supplied | | | Delivered price per gallon |
|---|---|---|---|---|---|
| | | Gallons | Barrels | Barrels per day | |

State which of the above supplies were subject to (a) long-term contracts (6 months or longer), (b) short-term or ever-green contracts, and (c) spot purchases. If past suppliers terminated any supply contracts or allocated deliveries for the current year, state the name(s) of such supplier(s), the circumstances of contract termination, and the actual amount by which deliveries were or will be reduced.

(11) State, showing docket number, all previous filings by the petitioner with the Board in the present and 3 preceding years, all Board awards received as a result of these filings, and the amounts imported, exchanged, or otherwise obtained by the authority of such awards. Unused awards should be explained.

(12) List all suppliers contacted for the product(s) for which you seek import allocations for the current allocation period who did not offer any product or offered it at noncompetitive prices:

| Supplier | Quantity offered | | Delivered price per gallon |
|---|---|---|---|
| | Gallons | Barrels | |

Provide the Board with any adequate responses from your suppliers which are or may be in violation of any government sponsored allocation program.

(13) State your average selling price for the product(s) for which you seek import allocations, in each of the last 3 years and in the current year:

| Calendar year | Product(s) | Average price per gallon |
|---|---|---|

(14) State your operating costs (per gallon) for the product(s) for which you seek import allocations, in each of the last 3 years, and an estimate of such costs for the current year. Give a detailed breakdown of such costs:

| Calendar year | Product(s) | Operating costs |
|---|---|---|

(15) State your inventory of the product(s) for which you seek import allocations, on the last day of December of each of the last 3 years:

| Calendar year | Product(s) | Inventory | |
|---|---|---|---|
| | | Gallons | Barrels |

(16) List and describe storage facilities, transportation equipment, and any other equipment or installations relevant to the petroleum industry owned or controlled by your company, its subsidiaries or affiliates. State whether products are supplied to you by tanker, barge, pipeline, railroad, or motorized equipment.

(17) If your company, its subsidiaries or affiliates supply retail outlets or service stations which they own or lease, or which sell products under a trade name owned or controlled by your company, its subsidiaries or affiliates, state the average number of such retail outlets and service stations supplied during each of the last 3 years and in the current year.

(18) State, in dollars, for each of the last 3 years, the after-tax profit or loss record of your company, its subsidiaries and affiliates, and an estimate of such profit or loss for the current year. Indicate whether these figures cover calendar of business years. Separate, if possible, profits or losses on product(s) for which you seek import allocations and profits or losses on other products and services. (Estimate, if necessary). With respect to total profits or losses, state what percentages of total sales and service revenues they represent:

| Year | Profit or loss on product(s) for which you seek import allocations | Profit or loss on other products and services | Total profit or loss | Percent of total revenues from sales and services |
|---|---|---|---|---|

(19) State for each of the last 3 years on the basis of the respective balance sheets or profit-and-loss statements of your company, its subsidiaries and affiliates:

(i) Net worth or stockholders equity;

(ii) The amount of retained earnings;

(iii) Ratio of current assets to current liabilities;

(iv) Long-term debts;

(v) State the cost of petitioner's investment, if any, during the current and last allocation periods, in new or substantially improved petroleum related facilities, together with a brief description of such facilities;

(vi) If petitioner is a corporation, the amounts paid out in dividends.

(20) Name the principal competitors of your company, its subsidiaries and affiliates, in the business of marketing petroleum products. (Depending on size of petitioner's operations, not more than five to ten competitors should be named.)

(21) The undersigned certifies that the above data and information are true and complete to the best of his knowledge and belief _____ (signature).

(b) In order to process petitions for *crude and unfinished oils* import allocations the Board requires the data and information as set forth below. Submit six completed copies of this material, identifying each item by number and precise heading appearing herein. Make attachments if necessary. Quantity figures should be stated in terms of barrels per day and in terms of total barrels per year, unless questions herein are specified otherwise.

(1) Full name of petitioner, address of principal office and name and telephone number of company official responsible for petition.

(2) Company ownership. If petitioner is not a sole proprietorship, list all companies, individuals or stockholders possessing 10 percent or more of company ownership or stock.

(3) The relief requested (expressed in barrels per day and total barrels), and whether the request is for offshore or Canadian crude oil, or for unfinished oils, or both, and the specific period for which relief is requested.

(4) All domestic subsidiaries and affiliates, if any, in which petitioner holds an interest of 15 percent or more.

(5) Location and rated capacity of each domestic refinery owned or controlled by petitioner.

(6) Average daily inputs of each refinery listed in item 5 above: (a) of crude oil and (b) of other raw materials, in each month of the last 3 calendar years, and in each elapsed month of the current allocation period.

(7) From data given in response to item 6 above, calculate and set out the combined daily average inputs of all refineries listed (a) of crude oil and (b) of other raw materials, during each of the last 3 calendar years.

(8) The volumes of (a) crude oil import allocations and (b) finished products import allocations received by the petitioner in the current year and in each of the 3 preceding years from the Office of Oil and Gas or Oil Import Administration, and the amounts imported exchanged or otherwise obtained by the authority of such awards. Unused awards should be explained.

(9) State, showing docket number, all previous filings by petitioner with the Board in the present and 3 preceding years, all Board awards received as a result of these filings, and the amounts imported, exchanged or otherwise obtained by the authority of such awards. Unused awards should be explained.

(10) The approximate product yields (as percentage of total production) at each refinery listed in item 5 above during the current allocation period and the two preceding years.

(11) The number of retail outlets which distributed products under a trade name owned or controlled by your company and the total quantity of gasoline you supplied to them during each elapsed quarter of (a) the current allocation period and (b) last year.

(12) The percentages of your total production of (a) gasoline, (b) No. 2 fuel oil, and (c) residual fuel oil which you sold to independent marketers during each quarter of the last calendar year. With respect to each of said product categories indicate what portions of such sales involved exchanges for finished product import licenses that had been issued to independent marketers.

(13) The quantities of (a) gasoline, (b) No. 2 fuel oil, (c) residual fuel oil, and (d) other products which you sold to, or exchanged for crude oil with, any other petroleum refining company during the last calendar year.

(14) Specify the domestic and foreign sources (indicating company names) of crude oil supplies and other refinery feedstocks obtained by the petitioner and the quantities received from each, in each of the last 3 years, separated into quantities received pursuant to: (a) Long-term contracts (6 months or longer; (b) Short-term or evergreen contracts; or (c) Spot purchases. Indicate which of these quantities involved the utilization of import licenses issued to the petitioner.

V 38 1 80 SEP 18 73 XUM

| Year | Source of supply | Quantity: Barrels | Quantity: Barrels per calendar day | Type of contract |
|---|---|---|---|---|
| | | | | |

(15) For each quarter of the last calendar year, list the average effective cost per barrel of petitioner's crude oil or other raw material supplies delivered to the refinery.

(16) List your actual and/or prospective suppliers for the current allocation period of crude oil and other refinery feedstocks. Indicate the quantities already obtained as well as offered or expected during the current allocation period:

| Supplier | Quantity: Barrels | Quantity: Barrels per calendar day | Delivered price per barrel |
|---|---|---|---|
| | | | |

State which of the above supplies are subject to (a) Long-term contracts (6 months or longer), (b) Short-term or ever-green contracts, (c) Spot purchases.

To the extent that purchases already have been consummated or contract prices have been fixed, indicate the average effective cost per barrel of such crude oil supplies delivered to the refinery. Indicate also which of the supplies listed in response to this question involve the utilization of import licenses issued to petitioner.

(17) State whether petitioner is a participant in the government royalty oil program and what quantities have been or are expected to be received during the current allocation period.

(18) List all suppliers contacted for the product(s) for which you seek import allocations for the current allocation period who did not offer any product or offered it at noncompetitive prices.

| Supplier | Quantity: Barrels | Quantity: Barrels per calendar day | Offered delivered price per barrel |
|---|---|---|---|
| | | | |

Provide the Board with any inadequate responses from your suppliers which are or may be in violation of any government sponsored allocation program.

(19) A brief description of ownership participation of petitioner in crude pipelines (including gathering systems) in finished product pipelines, and in inland water transportation equipment.

(20) Type and capacity of crude oil storage facilities at each refinery listed in item 5 above at the time of filing of the petition, and a brief description of mode of crude oil delivery to such facilities (pipeline, tanker, barge, railroad, etc.).

(21) Crude oil inventory at each refinery listed in item 5 above at the time of filing of the petition.

(22) Submit the following financial information. State whether the data cover calendar or business years, and whether figures are calculated before or after Federal Income Tax. Publicly held corporations should submit copies of the latest annual stockholders' report.

(i) What proportion, in terms of dollars, of petitioner's total income is derived from its petroleum business, specifying the amount of income from:

(a) Refining crude oil.

(b) Production of crude oil.

(c) Domestic distribution of finished prdouct, i.e., gasoline, fuel oil, etc.

(ii) State petitioner's total net profits or losses as well as its net profits or losses from its petroleum business for each of the last 3 years.

(iii) State the percentage which such total profits represent:

(a) Measured on net worth.

(b) Measured on sales.

(iv) State the amount of petitioner's retained earnings.

(v) State petitioner's ratio of current assets to current liabilities.

(vi) State the cost of petitioner's investment, if any, during the current and last allocation periods, in new or substantially improved petroleum related facilities, together with a brief description of such facilities.

(23) The undersigned certifies that the above data and information are true and complete to the best of his knowledge and belief _____ (signature).

**Sec. 8 Hearings on petitions.**

A petitioner may request a hearing before the Board on his petition by submitting an unqualified request therefor, in writing, with the filing of his petition. The Board in its discretion may grant a hearing. Where a hearing has not been requested by the petitioner, the Board may, in its discretion, schedule a hearing on the petition. Hearings will be scheduled in the discretion of the Board with due consideration to the regular order of filing of petitions and other pertinent factors. On request and for good cause shown, the Board may in its discretion advance or postpone a hearing. A party failing to request a hearing as provided in this section may be deemed to have submitted his case upon the Board record.

**Sec. 9 Notice of hearing.**

The petitioner shall be given at least 14 calendar days' notice of the time and place set for hearings, unless otherwise agreed. Such notice will apprise the petitioner of the requirements of section 13 of this regulation for submission of briefs, memoranda of law, documentary evidence or other necessary information. In scheduling hearings the Board will give due regard to the desires of the petitioners and to the requirement for just and prompt disposition of petitions. Public notice of the scheduling of a hearing will also be posted in the office of the Board.

**Sec. 10 Unexcused absence of a petitioner.**

The unexcused absence of a petitioner at the time and place set for hearing will not be occasion for delay. In the event of such absence the hearing will proceed and the case will be regarded as submitted by the absent petitioner on the record before the Board. The Board shall advise the absent petitioner of the content of the proceedings and that he has 5 days from the receipt of such notice within which to show cause why the petition should not be decided on the record made.

**Sec. 11 Conduct of hearing.**

(a) Any member of the Board may conduct a hearing.

(b) Hearings shall be as informal as may be reasonable and appropriate in the circumstances and shall be public. Petitioner may offer at a hearing such relevant evidence as he deems appropriate, subject to the sound discretion of the presiding member in supervising the extent and manner of presentation of such evidence and subject to the requirements of section 13(b) of this regulation. In general, admissibility will hinge on relevancy and materiality. Arguments bearing on the policy embodied in the proclamation or in the regulation shall not be received. Letters or copies thereof, affidavits, or other evidence not ordinarily admissible under the generally accepted rules of evidence, may be admitted in the discretion of the presiding member. The weight to be attached to evidence presented in any particular form will be within the discretion of the Board, taking into consideration all the circumstances of the particular case. Stipulations of fact agreed upon by a petitioner and the Director of the Office of Oil and Gas, or his representative, may be regarded and used as evidence at the hearing. The petitioner and the Office of Oil and Gas may stipulate the testimony that would be given by a witness if the witness were present. The Board may in any case require evidence in addition to that offered by a petitioner.

(c) Witnesses before the Board will be examined orally under oath or affirmation, unless the facts are stipulated, or the Board shall otherwise order. If the testimony of a witness is not given under oath, the Board shall call to the attention of the witness the provisions of Title 18, United States Code, sections 287 and 1001, prescribing penalties for knowingly making false representations in connection with claims against the United States or in any matter within the jurisdiction of any department or agency thereof. The Board may, in its discretion, permit Government officials participating in the hearing to examine any witness.

(d) Hearings will be recorded verbatim and transcripts thereof shall be made, costs of transcripts to be borne by the requesting parties.

**Sec. 12 Consolidation.**

Upon good cause shown, or upon its own initiative, the Board may at the same time hear or decide two or more petitions, if it determines that such action is appropriate.

**Sec. 13 Briefs, memoranda of law, documentary evidence, and other information.**

(a) The Board may on its own initiative require the filing, either before or after hearing, of briefs, memoranda of law, documentary evidence, or any other information it considers necessary for the disposition of a petition.

(b) Any briefs, memoranda, documents, statistics, and other data and statements, but not including witnesses' testimony, to be presented or used at a hearing, shall be filed in six copies with the Board not later than 6 days, exclusive of Saturdays, Sundays, Federal legal holidays and other nonbusiness days, prior to the date of hearing.

**Sec. 14 Statements by interested persons other than petitioner.**

(a) Persons interested in opposing or supporting a petition, other than petitioner, may file in six copies with the Board written statements on issues raised by the petition at any time prior to 7 calendar days before the scheduled date of the hearing on the petition. At the same time such statement is filed with the Board, a copy shall be sent to the petitioner or his representative by the interested person. The petitioner may file in six copies with the Board a written reply within 7 calendar days after receiving such statements.

(b) Persons interested in opposing or supporting a petition other than petitioner, may file in six copies with the Board written statements on issues raised by the hearing within 7 calendar days following said hearing, unless extension is granted by the Board for good cause. At the same time such a statement is filed with the Board, a copy shall be sent to the petitioner or his representative by the interested person. The petitioner may file in six copies with the Board a written reply within 7 calendar days after receiving such statements, unless extension is granted by the Board for good cause.

(c) The Board will not consider statements made pursuant to paragraph (a) or (b) of this section or section 16 of this regulation unless copies have been furnished to petitioners or their representatives in a timely fashion by the interested persons.

**Sec. 15 Private communications prohibited.**

Oral or written communications by petitioners, interested private parties, or their agents, concerning the facts or law of a petition, or policy of the Board, will not be considered by individual members of the Board, unless such communications are made part of the record before the Board.

**Sec. 16 Participation by the Office of Oil and Gas.**

A copy of each petition filed with the Board and a copy of each written statement on issues raised by a petition filed pursuant to section 14 of this regulation will be forwarded promptly to the Director, Office of Oil and Gas, for purposes of information and for any comment which the Director may deem appropriate and wish to submit to the Board. Any comment submitted to the Board by the Director must be filed with the Board and sent to the petitioner or his representative. The Board, when possible, will advise the Director, at least 1 week in advance, of the time and place of any hearing which may be scheduled upon a petition and will request that the Director or his representative appear at the hearing and present information and arguments on behalf of the Office of Oil and Gas.

**Sec. 17 In camera orders.**

(a) Upon request by the petitioner the Board may order that oral testimony or written evidence which discloses trade secrets or privileged commercial or financial information be placed in camera. However, in camera treatment will be granted on a limited basis for specific portions of petitioner's presentation. Granting of in camera treatment requires a clear showing by petitioner that publication of the material in question would have an adverse competitive or other detrimental effect upon petitioner's business. The order shall include: (1) A description of the specific data assembled from the petition and questionnaire or other specific document or testimony for in camera treatment, and (2) a concise statement of the reasons for granting in camera treatment.

(b) Documents and transcripts of testimony subject to in camera orders shall be segregated from the public record and filed separately under the in camera order. Subject to the provisions of paragraph (c) of this section, documents and transcripts subject to an in camera order will be made accessible only to the petitioner, his counsel, authorized Board personnel, members of the Board, and court personnel concerned with judicial review. The right of the Board and of reviewing courts to disclose in camera data to the extent necessary for the proper disposition of the proceeding is specifically reserved.

(c) Documents and transcripts of testimony subject to an in camera order shall be released to third parties only if required by law.

**Sec. 18 Decisions of the Board.**

(a) In its evaluation of a petitioner's request the Board will consider the guidelines published by the Chairman of the Oil Policy Committee in Title 32A CFR Chapter XII and the responses to those guidelines filed with the Board by said petitioner.

(b) Concurrence of any two Board members shall be sufficient to constitute a decision of the Board. Decisions of the Board shall be in writing and are final and not subject to administrative review.

(c) Each decision upon a petition to the Board will contain a concise statement of the reasons for the Board's action.

(d) A copy of the decision shall be furnished promptly to the petitioner or his representative. All decisions of the Board shall be available for inspection by the public.

**Sec. 19 Reconsideration of decisions.**

Not later than 30 calendar days after issuance of a decision of the Board, a petitioner may file with the Board a petition for reconsideration of such decision, setting forth the relief desired and the grounds which justify reconsideration. Such petitions must be clearly labeled as "petition for reconsideration." The Board, within its discretion, may decide the matter on the petition, or it may schedule a public hearing thereon in accordance with section 8 of this regulation. The Board may specify any issues on which it desires to hear arguments. The Board, within its discretion and upon showing of good cause, may extend the time limit in which to file a petition for reconsideration.

**Sec. 20 Reopening of proceedings.**

(a) *Reopening prior to decision.* At any time prior to its decision, on its own motion or at the request of an interested party, the Board may reopen the proceeding for the reception of further evidence.

(b) *Reopening after decision.* Whenever, during the applicable allocation period, a petitioner subject to a decision of the Board is of the opinion that material changes of fact or of law, which occurred after issuance of the decision, warrant that such decision be altered, modified, or set aside, such petitioner may file with the Board a petition requesting a reopening of the proceeding for that purpose. Such petition shall state the relief desired, the specific changes of fact or of law warranting a reopening of the proceeding, and shall include such evidence and arguments as will provide the basis for a Board decision on the petition. The Board, in its discretion, may decide the matter on the petition, or it may serve upon the petitioner a notice for a public hearing thereon. Said notice shall indicate the time and place of hearing, and it may specify any issues on which the Board desires to receive further evidence or hear arguments.

**Sec. 21 Clerical mistakes.**

The Board may at any time, without advance notice to the petitioner and without hearing, make such changes in a Board decision as are required to correct clerical or other errors arising from oversight or omission which have no adverse effect on petitioner.

V 38 1 80 SEP 18 73 XUM

**Sec. 22 Duty to inform the Board.**

The petitioner shall promptly notify the Board of any change in circumstances subsequent to the filing of the petition which would affect petitioner's merit to receive or retain a Board allocation.

**Sec. 23 Record open to the public.**

The petition, transcript of hearing, exhibits, written statements filed by interested parties, all papers filed with the Board, and matters of official notice or record, shall constitute the record for decision and shall be open to the public, subject to the provisions of section 17.

## Title 7—Agriculture

## CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Grapefruit Reg. 14; Grapefruit Reg. 13 Terminated]

## PART 944—FRUITS; IMPORT REGULATIONS

### Minimum Grade and Size Requirements for Imports of Grapefruit

This regulation prescribes minimum grade and size requirements for imports of grapefruit, effective during the period September 21 through October 14, 1973, to coincide with such requirements being made effective on Florida grapefruit during the period September 17 through October 14, 1973. Such action is required by section 8e of the Agricultural Marketing Agreement Act of 1937, as amended.

Section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674) provides, in part, that whenever a marketing order issued by the Secretary of Agriculture pursuant to section 8c of the aforesaid act contains any terms or conditions regulating the grade, size, quality, or maturity of grapefruit produced in the United States, the importation of grapefruit into the United States during the period of time such order is in effect shall be prohibited unless the fruit complies with the grade, size, quality, and maturity provisions of such order, or comparable restrictions, promulgated under said section 8e. This import regulation prescribes a grade and size regulation which is the same as the domestic grade and size regulation for grapefruit, pursuant to the marketing agreement, as amended, and Order No. 905, as amended (7 CFR Part 905) regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida.

It is hereby found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective time of this regulation beyond that herein specified (5 U.S.C. 553) in that (a) the requirements of this import regulation are imposed pursuant to section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), which makes such regulation mandatory; (b) the grade and size requirements of this import regulation are the same as those being made applicable to domestic shipments of grapefruit under Grapefruit Regulation 74 (§ 905.551); (c) compliance with this import regulation will not require any special preparation which cannot be completed by the effective time; (d) notice hereof in excess of three days, the minimum that is prescribed by said section 8e, is given with respect to this import regulation; and (e) such notice is hereby determined, under the circumstances, to be reasonable.

### § 944.110 Grapefruit Regulation 14.

(a) During the period September 21, 1973, through October 14, 1973, the importation into the United States of any grapefruit is prohibited unless such grapefruit is inspected and meets the following requirements:

(1) Seeded grapefruit shall grade at least U.S. No. 1 and be of a size not smaller than $3\frac{1}{16}$ inches in diameter, except that a tolerance for seeded grapefruit smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in § 51.761 of the United States Standards for Florida Grapefruit; and

(2) Seedless grapefruit shall grade at least Improved No. 2 and be of a size not smaller than $3\frac{1}{16}$ inches in diameter, except that a tolerance for seedless grapefruit smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in § 51.761 of the United States Standards for Florida Grapefruit. "Improved No. 2" shall mean grapefruit grading at least U.S. No. 2 and also meeting the requirements of the U.S. No. 1 grade as to shape (form) and color.

(b) The Federal or Federal-State Inspection Service, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, is hereby designated as the governmental inspection service for the purpose of certifying the grade, size, quality, and maturity of grapefruit that are imported into the United States. Inspection by the Federal or Federal-State Inspection Service with appropriate evidence thereof in the form of an official inspection certificate, issued by the respective service, applicable to the particular shipment of grapefruit, is required on all imports of grapefruit. Such inspection and certification services will be available upon application in accordance with the rules and regulations governing inspection and certification of fresh fruits, vegetables, and other products (7 CFR Part 51) but, since inspectors are not located in the immediate vicinity of some of the small ports of entry, such as those in southern California, importers of grapefruit should make arrangements for inspection, through the applicable one of the following offices, at least the specified number of days prior to the time when the grapefruit will be imported:

| Ports | Office | Advance notice |
|---|---|---|
| All Texas points.. | L. M. Denbo, 506 South Nebraska Street, San Juan, Tex. 78589, phone 512-787-4091, or | 1 day. |
| | Charles E. Parragon, room 516, U.S. Court House, El Paso, Tex. 79901, phone 915-543-7723. | Do. |
| All New York points. | Frank J. McNeal, room 26A, Hunts Point Market, Bronx, N.Y. 10474, phone 212-991-7668 and 7669, or | Do. |
| | Charles D. Renick, 176 Niagara Frontier Food, Terminal, room 8, Buffalo, N.Y. 14206, phone 716-824-1585. | Do. |
| All Arizona points. | B. O. Morgan, 225 Terrace Ave., Nogales, Ariz. 85621, phone 602-287-2902. | Do. |
| All Florida points. | Lloyd W. Boney, 1350 Northwest 12th Ave., room 538, Miami, Fla. 33136, phone 305-371-2517, or | Do. |
| | Hubert S. Flynt, 775 Warner Lane, Orlando, Fla. 32814, phone 305-894-9511, or | Do. |
| | Johnnie E. Corbitt, Unit 46, 3335 North Edgewood Ave., Jacksonville, Fla. 32205, phone 904-354-5983. | Do. |
| All California points. | Daniel P. Thompson, 784 South Central Ave., 206 Wholesale Terminal Bldg., Los Angeles, Calif. 90021, phone 213-622-8756. | 3 days. |
| All Louisiana points. | Pascal J. Lamarca, 5027 Federal Office Bldg., 701 Loyola Ave., New Orleans, La. 70113, phone 504-527-6741 and 6742. | 1 day. |
| All other points.. | D. S. Matheson, Fruit and Vegetable Division, AMS—U.S. Department of Agriculture, Washington, D.C. 20250, phone 202-447-5870. | 3 days. |

(c) Inspection certificates shall cover only the quantity of grapefruit that is being imported at a particular port of entry by a particular importer.

(d) The inspection performed, and certificates issues, by the Federal or Federal-State Inspection Service shall be in accordance with the rules and regulations of the Department governing the inspection and certification of fresh fruits, vegetables, and other products (7 CFR Part 51). The cost of any inspection and certification shall be borne by the applicant therefor.

(e) Each inspection certificate issued with respect to any grapefruit to be imported into the United States shall set forth, among other things:

(1) The date and place of inspection;

(2) The name of the shipper, or applicant;

(3) The commodity inspected;

(4) The quantity of the commodity covered by the certificate;

(5) The principal identifying marks on the container;

(6) The railroad car initials and number, the truck and the trailer license number, the name of the vessel, or other identification of the shipment; and

(7) The following statement if the facts warrant: Meets U.S. import requirements under section 8e of the Agricultural Marketing Agreement Act of 1937, as amended.

(f) Notwithstanding any other provision of this regulation, any importation of grapefruit which, in the aggregate does not exceed five standard nailed boxes, or equivalent quantity, may be imported without regard to the restrictions specified herein.

(g) It is hereby determined that imports of grapefruit, during the effective time of this regulation, are in most direct competition with grapefruit grown in the State of Florida. The requirement set forth in this section are the same as those being made effective for grapefruit grown in Florida.

(h) No provisions of this section shall supersede the restrictions or prohibitions on grapefruit under the Plant Quarantine Act of 1912.

(i) Nothing contained in this regulation shall be deemed to preclude any importer from reconditioning prior to importation any shipment of grapefruit for the purpose of making it eligible for importation.

(j) The terms used herein relating to grade, diameter, and standard box shall have the same meaning as when used in the United States Standards for Florida Grapefruit (7 CFR 51.750–51.784), except that the 3-14/16 inch minimum diameter requirement specified in paragraph (a)(1) of this regulation shall correspond to 40 size and count grapefruit set forth in Sec. (1)(b)(3) of Regulation 105–1.03, as amended, effective September 1, 1973, of the Regulations of the Florida Citrus Commission. Importation means release from custody of the United States Bureau of Customs.

(k) Grapefruit Regulation 13 (§ 944.109; 37 FR 21802; 38 FR 10152, 13650, 18028) is hereby terminated at the effective time hereof.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

Dated September 13, 1973.

CHARLES R. BRADER,
*Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

## Title 12—Banks and Banking

## CHAPTER II—FEDERAL RESERVE SYSTEM

## SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. Q]

## PART 217—INTEREST ON DEPOSITS

### Protection of Depositors

On July 26, 1973, the Board of Governors invited public comments to be submitted by August 27, 1973, on a proposed amendment to its Regulation Q to provide that (1) any advertisement, announcement, or solicitation relating to interest paid on time deposits by member banks include clear and conspicuous notice that Federal law and regulation prohibit the bank from paying a time deposit before maturity unless certain interest is forfeited, and (2) the bank customer shall be given, at the time that a time deposit is made, a disclosure statement which makes it clear that the customer has contracted to leave his funds on deposit for the stated maturity and which describes how the early withdrawal penalty applies to time deposits in the bank, in the event the bank, notwithstanding the contract provisions, permits payment before maturity. (38 FR 20470). This amendment to Regulation Q was proposed to be made pursuant to the Board's authority under section 19 of the Federal Reserve Act to prescribe rules governing the payment and advertisement of interest on deposits in member banks.

After consideration of all comments received, the Board has decided to adopt the proposal in substantially the same form as proposed on July 26, 1973.

Effective September 18, 1973, Regulation Q (12 CFR Parts 217) is amended in the following respects:

1. § 217.4 is amended by redesignating paragraph (e) as paragraph (f) and by adding a new paragraph (e) to read as follows:

### § 217.4 Payment of time deposits before maturity.

* * * * * *

(e) *Disclosure of early withdrawal penalty.* At the time a depositor enters into a time deposit contract with a member bank, the bank shall provide a written statement of the effect of the penalty prescribed in paragraph (d) of this section, which shall (1) state clearly that the customer has contracted to keep his funds on deposit for the stated maturity, and (2) describe fully and clearly how such penalty provisions apply to time deposits in such bank, in the event the bank, notwithstanding the contract provisions, permits payment before maturity. Such statements shall be expressly called to the attention of the customer.

* * * * * *

2. § 217.6 is amended by redesignating paragraphs (e), (f), and (g) as (f), (g), and (h) and by adding a new paragraph (e) to read as follows:

### § 217.6 Advertising of interest on deposits.

* * * * * *

(e) *Penalty for early withdrawals.* Any advertisement, announcement, or solicitation relating to interest paid by a member bank on time deposits shall include clear and conspicuous notice that Federal law and regulation prohibit the bank from allowing payment of a time deposit before maturity unless substantial interest is forfeited. Such notice may state that:

Federal law and regulation prohibit the payment of a time deposit prior to maturity unless three months of the interest thereon is forfeited and interest on the amount withdrawn is reduced to the passbook rate.

With respect to any advertisement, announcement, or solicitation made by television or radio, the required notice of penalty may be stated in a form such as "Substantial interest penalty is required for early withdrawal."

* * * * *

The effective date was deferred for less than the 30-day period referred to in Title 5, United States Code, section 553 (d), because the Board found that the public interest compelled it to make the action effective no later than the date adopted. See § 262.2(e) of the Board's rules of procedure (12 CFR 262.2(e)).

By order of the Board of Governors, September 12, 1973.

[SEAL] CHESTER B. FELDBERG,
*Secretary of the Board.*

[FR Doc.73-19758 Filed 9-17-73;8:45 am]

## CHAPTER V—FEDERAL HOME LOAN BANK BOARD

## SUBCHAPTER D—FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION

## INSURED INSTITUTIONS

### Service Corporation Subsidiaries

The Federal Home Loan Bank Board, in Resolution No. 72–1376, dated November 22, 1972, proposed to amend Parts 561, 563, and 570 of the Rules and Regulations for Insurance of Accounts (12 CFR Parts 561, 563, and 570) to impose certain limitations and requirements on service corporation subsidiaries of insured institutions. Notice of such proposed rule making was duly published in the FEDERAL REGISTER of December 16, 1972 (37 FR 26837), with an invitation for interested persons to submit written comments by January 19, 1973. On the basis of its consideration of all relevant material presented by interested persons and otherwise available, the Board hereby adopts amendments to said Parts 561, 563 and 570 and to Part 566 (12 CFR 566) to read as set forth below, effective October 19, 1973.

The regulations are adopted as proposed subject to the following revisions:

A new § 561.27 defining "controlling person" as used in §§ 563.18–1 and 563.34 has been added.

Section 563.17–1 is amended (1) to permit filing of consolidated audit reports in lieu of separate reports and (2) to provide that a copy of an appraisal report made by the Corporation shall be furnished to the insured institution, affiliate, or service corporation, as appropriate, rather than to the insured institution in all cases.

Section 563.18(b) is amended to require report of a loss whether or not it is repaid or recovered. This merely clarifies the meaning of the regulation as proposed.

Section 563.18–1 is amended to clarify the scope of the reporting and penalty provisions based on section 407(1)(5) of the National Housing Act.

Section 563.23–3 relating to accounting principles and procedures has been reworded to clarify its present meaning. This amendment results in no substantive change from the amendment as proposed.

Section 563.34(a) is amended by deleting the definition of "controlling person" in the last sentence thereof.

V 38 1 80 SEP 18 73 XUM

A new § 566.8 regarding the relationship of the Board's enforcement authority to these regulations has been added.

## PART 561—DEFINITIONS

1. Part 561 is amended by adding new §§ 561.24, 561.25, 561.26 and 561.27 thereto to read as follows:

**§ 561.24 Affiliate.**

An "affiliate" of an insured institution, unless otherwise defined, includes any corporation, business trust, association or other similar organization—

(a) of which an insured institution, directly or indirectly, owns or controls either a majority of the voting shares or more than 50 per centum of the number of shares voted for the election of its directors, trustees, or other persons exercising similar functions at the preceding election, or controls in any manner the election of a majority of its directors, trustees, or other persons exercising similar functions; or

(b) of which control is held, directly or indirectly through stock ownership or in any other manner, by the shareholders of an insured institution who own or control either a majority of the shares of such insured institution or more than 50 per centum of the number of shares voted for the election of directors of such insured institution at the preceding election, or by trustees for the benefit of the shareholders of any such insured institution; or

(c) of which a majority of its directors, trustees, or other persons exercising similar functions are directors of any one insured institution.

**§ 561.25 Service corporation.**

A "service corporation" is any corporation, the majority of the capital stock of which is owned by one or more insured institutions and which engages, directly or indirectly, in any activities similar to activities which may be engaged in by a service corporation in which a Federal savings and loan association may invest under § 545.9–1 of this chapter.

**§ 561.26 Service corporation affiliate.**

A "service corporation affiliate" of an insured institution is any service corporation which is an affiliate of an insured institution.

**§ 561.27 Controlling person.**

A "controlling person" of an insured institution is any person or entity owning or holding ten percent or more of the stock or voting rights of the insured institution or otherwise having the power, directly or indirectly, to direct or cause the direction of the management or policies of the insured institution.

## PART 563—OPERATIONS

2. Part 563 is amended by revising paragraphs (b) and (c) of § 563.9–3, § 563.17, paragraphs (a), (b), and (c)(6) of § 563.17–1, paragraphs (b), (c), and (d) of § 563.17–2, § 563.18, paragraphs (f) and (h) of § 563.18–1, § 563.23–3, paragraph (a) of § 563.34, and by adding new paragraph (d) to § 563.19 and new §§ 563.37 and 563.38 to read as follows:

**§ 563.9–3 Loans to one borrower.**

* * * * *

(b) *Limitations.* No insured institution shall have outstanding any loan on the security of real estate to one borrower, as defined in paragraph (a) of this section, if the sum of (1) the amount of such loan and (2) the total balances of all outstanding loans on the security of real estate owed to such institution and its service corporation affiliates by such borrower exceeds an amount equal to 10 percent of such institution's withdrawable accounts or an amount equal to such institution's net worth, whichever amount is less: *Provided*, That, notwithstanding any other limitation of this sentence, any such loan may be made if the sum of subparagraphs (1) and (2) of this paragraph does not exceed $100,000 or if such loan is secured by a first lien on low-rent housing.

(c) *Determination by institution; maintenance of records.* If an insured institution or service corporation affiliate thereof makes a loan to any one borrower, as defined in paragraph (a) of this section, in an amount which, when added to the total balances of all outstanding loans on the security of real estate owed to such institution and its service corporation affiliates by such borrower, exceeds $100,000, the records of such institution or its service corporation affiliate with respect to such loan shall include documentation showing that such loan was made within the limitations of paragraph (b) of this section; for the purpose of such doucmentation such institution or service corporation affiliate may require, and may accept in good faith, a certification by the borrower identifying the persons, entities, and interests described in the definition of one borrower in paragraph (a) of this section.

**§ 563.17 Management and financial policies.**

(a) For the protection of its insured members and other insured institutions, each insured institution and service corporation thereof shall maintain safe and sound management and shall pursue financial policies that are safe and consistent with economical home financing and the purposes of insurance of accounts and are appropriate to their respective types of operations; in implementing this regulation the Corporation will take into consideration that service corporations may be authorized to engage in activities which involve a higher degree of risk than do activities permitted to insured institutions.

(b) Compensation to officers, directors, and employees of each insured institution and its service corporations shall not be in excess of that which is reasonable and commensurate with their duties and responsibilities.

**§ 563.17–1 Examinations and audits; appraisals; establishment and maintenance of records.**

(a) *Examinations and audits.* (1) Each insured institution and affiliate thereof shall be examined periodically, and may be examined at any time, by the Corporation, with appraisals when deemed advisable, in accordance with general policies from time to time established by the Board. The cost, as computed by the Corporation, of any examination made by it, including office analysis thereof, overhead, per diem, travel expense, and other supervision by the Board, shall be paid by the institution examined, except that in the case of a service corporation of a Federal savings and loan association such cost shall be paid by such service corporation.

(2) Each insured institution and service corporation thereof shall be audited at least once in each calendar year by auditors and in a manner satisfactory to the Corporation in accordance with general policies from time to time established by the Board. The Corporation may at any time make, or cause to be made, an audit of an insured institution or service corporation thereof, with appraisals when deemed advisable. An insured institution and each of its service corporations shall promptly file with the Corporation, through the Board's Chief Examiner of the Federal Home Loan Bank District in which the home office of the institution is located, a copy of the consolidated or separate report of each audit, other than audits made by the Corporation, made pursuant to this paragraph (a)(2). If a consolidated report is filed, such report shall include, either by footnote or in a schedule or schedules, the balance sheet and statement of income for the association and each of its service corporations included in said consolidated report. If separate reports of audit are issued, a copy of each such report shall be filed as provided herein. The cost of any audit made pursuant to this paragraph (a)(2) shall be paid by the insured institution or service corporation audited.

(b) *Appraisals.* (1) Unless otherwise ordered by the Board, appraisal of real estate by the Corporation in connection with any examination or audit of an insured institution, affiliate, or service corporation shall be made by an appraiser, or by appraisers, selected by the Board's Chief Examiner of the Federal Home Loan Bank District in which such institution is located. The cost of such appraisal shall promptly be paid by such insured institution, affiliate, or service corporation direct to such appraiser or appraisers upon receipt by the institution, affiliate, or service corporation of a statement of such cost as approved by such Chief Examiner. A copy of the report of each appraisal made by the Corporation pursuant to any of the foregoing provisions of this section shall be furnished to the institution, affiliate, or service corporation, as appropriate within a reasonable time, not to exceed

90 days, following the completion of such appraisals and the filing of a report thereof by the appraiser, or appraisers, with such Chief Examiner.

(2) The Corporation may obtain at any time, at its expense, such appraisals of any of the assets, including the security therefor, of an insured institution, affiliate, or service corporation as the Corporation deems appropriate.

(c) *Establishment and maintenance of records.* To enable the Corporation to examine insured institutions and affiliates, and audit insured institutions, affiliates, and service corporations, pursuant to the provisions of paragraph (a) of this section, each insured institution, affiliate and service corporation thereof shall establish and maintain such accounting and other records as will provide an accurate and complete record of all business transacted by it, and the documents, files and other material or property comprising said records shall at all times be available for such examination and audit, wherever any of said records, documents, files, material or property may be. Without any limitation on the generality of the foregoing sentence and without modification of any other requirement with respect to the establishment and maintenance of records to which such institution is subject, each insured institution shall establish and maintain the following records:

(6) *Other records.* Each insured institution and service corporation thereof shall establish and maintain such other records as are required by statute or by any other regulation to which such institution or service corporation is subject.

* * * * *

**§ 563.17–2 Re-evaluation of assets; adjustment of book value; adjustment charges.**

* * * * *

(b) *By examiners.* In connection with each examination of an insured institution or service corporation, the Board's examiner shall make such re-evaluation of such institution's or service corporation's assets (exclusive of insured or guaranteed loans) as he deems advisable or necessary. Any such re-evaluation of real estate shall be based on an appraisal as provided by § 563.17–1, except that re-evaluation of parcels of real estate that are similar in all essential respects may be based on an appraisal of one or more of such parcels.

(c) *Adjustment of book value.* If the re-evaluation of assets, pursuant to paragraph (b) of this section, or otherwise as ordered by the Corporation, discloses that any asset of an insured institution or service corporation is over-valued on its books (exclusive of over-valuation due to fluctuations in value which are caused by changes in market interest rates), such institution or service corporation shall, at the direction of the Supervisory Agent, make an adjustment of the book value of such asset; unless otherwise directed by the Supervisory Agent, such institution shall make such adjustment by establishing and maintaining a specific reserve in an amount equal to the over-valuation.

(d) *Adjustment charges.* Adjustment of the book value of an asset by an insured institution or service corporation pursuant to any provision of this section may be made by charge against such institution's or service corporation's earnings for the period in which such charge is made, or against surplus, undivided profits, or reserves established for the sole purpose of absorbing losses. Any recovery of any portion of any amount previously charged against reserves established for the sole purpose of absorbing losses shall be credited to such reserves; such credit shall be in addition to all other required credits to such reserves. Any recovery of any portion of any amount previously charged against earnings shall be credited to earnings for the period in which such recovery is effected. For the purposes of this paragraph (d), any charge against a specific reserve established pursuant to any provision of this section shall be deemed to be a recovery on an asset the book value of which was previously adjusted unless such charge is made for the purpose of concurrently writing down the book value of such asset.

**§ 563.18 Reports to the Corporation.**

(a) *Periodic reports.* Each insured institution and service corporation thereof shall make such periodic or other reports of its affairs in such manner and on such forms as the Corporation may prescribe. The Corporation may provide that reports filed by the insured institutions or service corporations to meet the requirements of other regulations also satisfy requirements imposed under this section.

(b) *Reports of loss.* Whenever an insured institution or service corporation thereof suffers a loss due to dishonesty of a director, officer, attorney, agent, or employee, whether or not repaid or recovered, or whenever a deductible amount specified in a bond is increased above the permissible deductible amount specified in the table in paragraph (b) of § 563.19, such insured institution or service corporation shall report promptly the facts concerning such loss or increase in writing to the Board's Chief Examiner for the Federal Home Loan Bank district in which the home office of such institution is located.

**§ 563.18–1 Reports of change in control; other reports; form and filing of such reports.**

* * * * *

(f) *Other reports.* The Corporation may also require insured institutions and individuals or other persons who have or have had any connection with the management of any insured institution, including any present or former director, officer, controlling person, or agent of an insured institution, to provide, or cause to be provided, such periodic or other reports or disclosures as the Corporation may determine to be necessary or appropriate for the protection of investors or the Corporation.

* * * * *

(h) *Penalty for failure to report.* For the willful failure of any institution, individual, or other person who has or has had any connection with the management of any insured institution to submit, within the time prescribed by the Corporation, any report or disclosure required by the Corporation, such insured institution, individual, or other person shall be subject to a civil penalty of not more than $500 (which penalty shall be cumulative to any other remedies) for each day that such failure continues, which penalty the Corporation may recover by suit or otherwise for its own use. The Corporation in its discretion may, at any time before collection of such penalty (whether before or after the bringing of any action or other legal proceedings, the obtaining of any judgment or other recovery, or the issuance or levy of any execution or other legal process therefor), compromise or remit in whole or in part any such penalty.

* * * * *

**§ 563.19 Bonds for directors, officers, employees, and agents; form of and amount of bonds.**

* * * * *

(d) A service corporation of an insured institution shall maintain such bond coverages as may be appropriate considering the nature of its activities and the practice of other corporations engaged in similar activities.

**§ 563.23–3 Accounting principles and procedures.**

For purposes of examination by and reports to the Corporation and of compliance with this subchapter, each insured institution and service corporation shall:

(a) Employ such specific principles or procedures on particular accounting or reporting matters as the Corporation may require by regulation or otherwise; and

(b) Prepare and maintain such books and records as will support its financial statements and reports to the Corporation and readily permit reconcilation of such statements and reports with its books and records; and

(c) Prepare its other financial statements and reports to the Corporation on the basis of generally accepted accounting principles.

**§ 563.34 Selection of depositary.**

(a) Except with the prior written approval of the Corporation, as provided in paragraph (b) of this section, and except as is otherwise provided in this subparagraph, no insured institution may (1) establish a depositary relationship on or after July 1, 1972, with a depositary with which it has an interlock; or (2) maintain an existing depository relationship if an interlock with such depositary occurs on or after July 1, 1972. Any depositary arrangement involving an interlock existing prior to July 1, 1972, may be continued on and after such date unless such arrangement has been specifically disapproved by the Corporation. The provisions of this section shall not apply to a depositary relationship between an

V 38 180 SEP 18 73 XUM

insured institution and a Federal Home Loan Bank. For the purposes of this section and "interlock" will be deemed to exist between an insured institution and a depositary whenever any officer, director, or controlling person of the insured institution, or attorney regularly serving the institution in the capacity of attorney at law, or the spouse of any of the foregoing, is an officer, partner, director, or trustee of the depositary or the owner of ten percent or more of the depositary's stock:

. . . . . .

**§ 563.37 Operation of service corporations; limited liability of insured institution for debt of service corporation.**

(a) *General.* Each insured institution and service corporation thereof shall be operated in a manner which demonstrates to the public the separate corporate existence of the service corporation and the insured institution. Regulations of the Corporation which apply both to insured institutions and service corporations shall not be construed as requiring operation of an insured institution and its service corporations as a single entity.

(b) *Service corporation debt.* Every instrument evidencing borrowing by a service corporation shall indicate that its parent insured institution is not liable, or in the case of a service corporation owned by more than one insured institution, that none of its parent insured institutions is liable, except that no such statement is required if the loan is guaranteed by a parent insured institution and the total amount of such guaranteed loan, together with all other guaranteed loans, direct loans, and direct investment by the insured institution in its service corporations, does not exceed the maximum investment permitted by law or regulation.

**§ 563.38 Salvage power of insured institution to assist service corporation.**

(a) *Salvage power and investment authority.* No insured institution, in the exercise of its salvage power or otherwisewise, shall, without the prior approval of the Corporation, make any contribution, loan, or guarantee of a loan made by any other person to its service corporation, or invest in its service corporation or assume any of its liabilities, if such contribution, loan, investment, guarantee, or assumption of liability, together with all such guaranteed loans, direct loans, contributions and direct investments by the insured institution in its service corporations, would exceed the maximum investment permitted by law or regulation.

(b) *Applications for approval.* Each application by an insured institution to the Corporation for its approval to make any such contribution, loan, investment, guarantee, or assumption of liability shall establish, to the satisfaction of the Corporation, in a written statement, that the action it proposes is for the protection of the insured institution's investment and is consistent with safe, sound, and economical home financing. The application shall describe and discuss alternative solutions to the service corporation's financial problem including solutions which do not involve increased investment by the insured institution, and contain such other information as the Corporation may require. In the case of a State-chartered insured institution, such application shall be accompanied by an opinion of counsel that the proposed action is within the authority of the insured institution. Every contribution, loan, investment, guarantee, or assumption of liability made pursuant to approval by the Corporation under this section shall comply with the terms and conditions of such approval.

## PART 566—CEASE-AND-DESIST AND SUSPENSION AND REMOVAL ORDERS

3. Part 566 is amended by adding a new § 566.8 thereto to read as follows:

**§ 566.8 Application of the supervisory act with respect to service corporations.**

(a) Each insured institution, or director, officer, employee, or agent thereof, shall take whatever action may be necessary and within its or his power to assure that any service corporation of such insured institution does not—

(1) violate any law, rule, or regulation applicable to such service corporation;

(2) violate any charter provision or bylaw of such service corporation;

(3) violate any condition applicable to such service corporation and imposed in writing by the Board or Corporation or State supervisory authority in connection with the granting of any application or other request by such institution or service corporation;

(4) violate any written agreement applicable in whole or in part to such service corporation and entered into by such insured institution or service corporation with the Board or the Corporation or State supervisory authority;

(5) violate any cease-and-desist order which has become final and is applicable in whole or in part to such service corporation; or

(6) engage in any practice which is unsafe or unsound with respect to such service corporation or the insured institution.

(b) A violation of paragraph (a) of this section is a violation of a regulation within the meaning of section 5(d) of the Home Owners' Loan Act of 1933, as amended, and section 407 of the National Housing Act, as amended, and may constitute an unsafe or unsound practice, a breach of fiduciary duty, or conduct or practice with respect to another savings and loan association or other business institutions within the meaning of said sections of said Acts.

## PART 570—BOARD RULINGS

4. Part 570 is amended by adding a new § 570.10 thereto to read as follows:

**§ 570.10 Separate corporate existence of a service corporation.**

(a) *General.* If an insured institution and its service corporation fail to maintain their separate corporate existence, a court, for equitable reasons in an extreme situation, might hold the institution liable for the obligations of its service corporation. To insure judicial recognition of the separate corporation existence of service corporations, the institution and its service corporations should operate so that (1) their respective business transactions, accounts, and records are not intermingled, (2) each observes the formalities of their separate corporate procedures, (3) each is adequately financed as a separate unit in the light of normal obligations reasonably foreseeable in a business of its size and character, (4) each is held out to the public as a separate enterprise, and (5) the insured institution does not dominate the service corporation to the extent that the latter is treated as a mere department of the former. In recommending such operating practices, the Board is not suggesting that a failure to follow one or more or all of such practices by an insured institution and its service corporation should cause a court to ignore the separate corporate existence of the service corporation.

(b) *Operation of service corporations.* Section 563.36(a) of this subchapter requires that an insured institution and its service corporations be operated in a manner which demonstrates their separate corporate existence. Failure to assure corporate separateness could result in serious risk to the insured institution and to the Corporation. In monitoring compliance with § 563.36(a) of this subchapter, the Corporation will look for attributes of corporate separateness such as those contained in paragraph (a) of this section.

(Secs. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended (12 U.S.C. 1725, 1726, 1730); Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48 Comp., p. 1071.)

By the Federal Home Loan Bank Board.

## CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airspace Docket No. 73 GL 27]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

### Designation of Transition Area

On Page 18383 of the FEDERAL REGISTER dated July 10, 1973, the Federal Aviation Administration published a notice of proposed rulemaking which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a transition area at Hartford, Wisconsin.

Interested persons were given 30 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective November 8, 1973.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Des Plaines, Illinois, on August 27, 1973.

R. O. ZIEGLER,
*Acting Director,*
*Great Lakes Region.*

In § 71.181 (38 FR 435), the following transition area is added:

HARTFORD, WISC.

That airspace extending upward from 700 feet above the surface within a 6.5 mile radius of the Hartford Airport (latitude 43°20'55"N., longitude 88°23'30"W.).

## Title 24—Housing and Urban Development

## SUBTITLE A—OFFICE OF THE SECRETARY, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-73-227]

## PART 42—RELOCATION PAYMENTS AND ASSISTANCE AND REAL PROPERTY ACQUISITION UNDER THE UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION POLICIES ACT OF 1970

### Grievance Procedures Relating to Adequacy of Replacement Housing; Claims Review

The purpose of the following amendment is to make a minor, clarifying correction to § 42.330(c).

Since the change is minor in nature and no substantive change in the regulation is effected, notice and public procedure thereon are unnecessary.

In consideration of the foregoing, Part 42 is amended, effective upon publication in the FEDERAL REGISTER, as hereinafter set forth:

Section 42.330(c) is revised to read as follows:

**§ 42.330 HUD review.**

. . . . . .

(c) *Determination on review by HUD.* The written determination by HUD shall be delivered to the State agency and to the complainant and shall include, but need not be limited to:

(1) The Area Director's decision on reconsideration of the complaint;

(2) The factual and legal findings upon which the decision is based, including any pertinent explanation or rationale for the decision;

(3) The relief, if any, to which the complainant is entitled, and directions to the State agency on how this shall be achieved;

(4) Notification to the complainant of his right to seek further HUD assistance if the relief specified in paragraph (c)(3) of this section is not provided;

(5) Notification to the complainant of his right to seek judicial review in the event the determination is adverse.

. . . . . .

(Sec. 7(d), Department of Housing and Urban Development Act, 42 U.S.C. 3535(d); sec. 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4633).)

*Effective date.*—These regulations are effective on September 18, 1973.

JAMES T. LYNN,
*Secretary of Housing*
*and Urban Development.*

## CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

### SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-208]

## PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

### Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the last column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

**§ 1914.4 Status of participating communities.**

. . . . . .

| State | County | Location | Map No. | State map repository | Local map repository | Effective date of authorization of sale of flood insurance for area |
|---|---|---|---|---|---|---|
| . . . . . | | | | | | |
| California | Alameda | Piedmont, city of | | | | September 13, 1973, Emergency. |
| Idaho | Latah | Unincorporated areas. | | | | Do. |
| Michigan | Gogebic | Ironwood, city of | | | | Do. |
| Missouri | St. Louis | Times Beach, city of. | | | | Do. |
| New Mexico | Quay | Tucumcari, city of. | | | | Do. |
| North Carolina | Pamlico | Incorporated towns of Oriental and Vandermere. | | | | Do. |
| North Dakota | Morton | Unincorporated areas. | | | | Do. |

(National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968), effective Jan. 28, 1969 (33 FR 17804, Nov. 28, 1968), as amended (secs. 408–410, Public Law 91–152, Dec. 24, 1969), 42 U.S.C. 4001–4127; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, Feb. 27, 1969.)

Issued September 7, 1973.

## Title 33—Navigation and Navigable Waters

### CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 73-210 R]

### PART 117—DRAWBRIDGE OPERATION REGULATIONS

### Miner Slough, Calif.

This amendment revokes the regulations for the pontoon bridge across Miner Slough between Ryer Island and Prospect Island because this bridge has been removed. Also revoked is the requirement that when Prospect Slough is impassable continuous attendance of the draw is required. This change is due to the completion of the Sacramento Ship channel which eliminates Prospect Slough as a main channel.

Accordingly, Part 117 of Title 33 of the Code of Federal Regulations is amended by revising paragraph (c) of § 117.716 to read as follows:

**§ 117.716 Sacramento River and its tributaries, Cal.**

(c) *Miner Slough—(1) State of California highway bridge between northernly end of Ryer Island and Holland Tract.* At least 12 hours notice is required.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4).)

*Effective date.*—This revision shall become effective September 18, 1973.

Dated September 10, 1973.

W. M. BENKERT,
*Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.*

[FR Doc.73-19755 Filed 9-17-73;8:45 am]

## Title 50—Wildlife and Fisheries

### CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

### PART 32—HUNTING

### Iroquois National Wildlife Refuge, N.Y.

The following special regulation is issued and is effective during the period October 1, 1973 through November 3, 1973.

**§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.**

NEW YORK

IROQUOIS NATIONAL WILDLIFE REFUGE

The public hunting of migratory waterfowl on the Iroquois National Wildlife Refuge, New York, is permitted. Information on this program is available at the refuge headquarters, Basom, New York, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, John W. McCormack Post Office and Courthouse, Boston, Massachusetts 02109. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of migratory waterfowl subject to the following special conditions:

(1) Waterfowl hunting is by permit only.

(2) Hunting is permitted on Monday, Tuesday, Thursday, and Saturday.

(3) Prior registration required for opening day, holidays, and the three succeeding Saturdays. Other days permits issued on first-come-first-served basis. All hunters will draw for hunting sites on date of hunt.

(4) Waterfowl hunting permitted from legal opening until noon, local time.

(5) Hunters must check out and present harvested game at the permit station on Casey Road, not later than 1:00 p.m. local time.

(6) Hunters assigned a stand must hunt within a 50-foot radius of the station marker with no more than two hunters to each stand.

(7) The maximum daily bag limit of waterfowl or marsh birds (ducks, geese, coots, and gallinules), or any combination thereof is 3.

(8) No shotguns larger than 12 gauge are allowed.

(9) On Tuesdays and Thursdays migratory waterfowl will be hunted with 12 gauge shotguns using iron shot provided by the refuge at a cost of $.16 per round.

(10) Only 15 rounds are permitted per hunter.

(11) Shot size is restricted to size 2 fine shot or smaller.

(12) Disorderly conduct, intoxication, high shooting or otherwise unsportsmanlike conduct will not be tolerated and the permittee will be ejected from the area.

(13) Hunters must be equipped with hip boots *or* waders.

(14) Guns will be loaded (chambers and magazines) only when a permittee is hunting waterfowl at an assigned stand or within an assigned shooting area. A permittee must unload his gun and not re-load his gun after taking his daily bag.

(15) No person shall use or hunt from a boat.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 3, 1973.

RICHARD E. GRIFFITH,
*Regional Director, Bureau of Sport Fisheries and Wildlife.*

SEPTEMBER 7, 1973.

[FR Doc.73-19745 Filed 9-17-73;8:45 am]

### PART 32—HUNTING

### DeSoto National Wildlife Refuge, Iowa

The following special regulation is issued and is effective September 18, 1973.

**§ 32.32 Special regulations; big game; for individual wildlife refuge areas.**

IOWA

DE SOTO NATIONAL WILDLIFE REFUGE

Public hunting of deer on the DeSoto National Wildlife Refuge, Iowa, is permitted only on the area designated by signs as open to hunting. This open area comprising 660 acres is delineated on a map available at the refuge headquarters and from the Area Manager, Bureau of Sport Fisheries and Wildlife, 601 E. 12th Street, Kansas City, Missouri 64106. Hunting shall be in accordance with all State regulations governing the hunting of deer with bow and arrow and shall be permitted only during the regular Iowa archery deer season, October 13, 1973, to November 25, 1973, and December 8, 1973 through December 16, 1973.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 16, 1973.

JAMES E. FRATES,
*Refuge Manager, DeSoto National Wildlife Refuge, Missouri Valley, Iowa.*

SEPTEMBER 7, 1973.

[FR Doc.73-19743 Filed 9-17-73;8:45 am]

### PART 32—HUNTING

### Eastern Neck National Wildlife Refuge, Md.

The following special regulation is issued and is effective during the period October 12, 1973 through December 31, 1973.

**§ 32.32 Special regulations; big game; for individual wildlife refuge areas.**

MARYLAND

EASTERN NECK NATIONAL WILDLIFE REFUGE

Public hunting of white-tailed deer on the Eastern Neck National Wildlife Refuge, Maryland, is permitted on all areas except County roads, parking areas, and areas designated by signs as closed to hunting. This open area, comprising 2,169 acres, is delineated on maps available from Eastern Neck National Wildlife Refuge, Route 2, Box 225, Rock Hall, Maryland 21661, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, John W. McCormack Post Office and Courthouse, Boston, Massachusetts 02109. Hunting shall be in accordance with all applicable State regulations governing the hunting of white-tailed deer, subject to the following special conditions:

(1) White-tailed deer may be taken from sunrise to sunset during the following open seasons:

Archery hunt only: October 12 and 13, 1973.

Muzzle loading longarm hunt only: October 19 and 20, 1973.

Shotgun hunt only: October 26 and 27, 1973.

(2) Bag limits: One deer, either sex.

(3) All participants in the deer hunt must check in and out at the refuge check station before entering or leaving the refuge. All deer killed must be presented for examination at the refuge check station on the day killed.

(4) Hunters may not enter the refuge before one hour before sunrise and must

V 38 I 180 SEP 18 73 XUM

check out no later than one hour after sunset.

(5) Possession of loaded weapons, including arrows notched in bow, on County blacktop roads, in designated parking areas, in or on vehicles and before shooting hours is prohibited.

(6) All hunters must enter and leave by way of State Road 445 only. Entry by boat is prohibited.

(7) During the gun hunts all hunters must furnish and wear, so as to be readily noticeable, daylight fluorescent orange caps or hats and vests, shirts, or coats of the same color while on the hunting areas.

(8) Hunters under 18 years of age must be accompanied by either a hunting, permit holding adult or a non-hunting adult with a refuge issued identification pass.

(9) Contained fire cooking devices will be allowed within fifty (50) feet of legally parked vehicles and in the Ingleside Recreation Area.

(10) Pre-season deer hunt scouting will be allowed from sunrise to sunset September 29, 1973 through October 4, 1973. Only those persons that have received a hunting permit may scout. The hunting permit will be carried by the scouter and will serve as his permit to scout.

(11) All hunters must exhibit their hunting weapons, game, Federal permit, deer-turkey stamp and State hunting license to Federal or State officers on request.

(12) A completed proficiency certificate will be required of muzzleloading hunters in addition to the Federal hunting permit. This must be presented at the check station prior to entering for the hunt. The certificate will contain identification of shooter, identification of certifying individual, and will verify that the shooter placed three consecutive shots in a 12 inch bullseye at 50 yards distance using an off-hand firing position and State minimums of powder grains and ball diameter. The weapon ignition system used to hunt must be the same as that used to qualify.

(13) A Federal hunt permit will be required of all participants in the deer hunts. Permits will be issued in advance of the season to hunters selected by a public drawing of completed, legible applications received. Applications must be received no later than September 13, 1973 at the refuge office for the public drawing starting at 12:30 PM, September 18, 1973 at the Eastern Neck National Wildlife Refuge Office. Permits will be limited to 300 per day for archery hunting and 150 per day for gun hunting.

(14) This permit must be returned to the refuge at check-out or in the case of persons unable to hunt on day selected, the permit must be returned prior to December 31, 1973. Non-compliance will be grounds for non-selection in future hunts.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 31, 1973.

## PART 32—HUNTING

### Rice Lake National Wildlife Refuge, Minn.

The following special regulation is issued and is effective on September 13, 1973.

**§ 32.32 Special regulations; upland game; for individual wildlife refuge areas.**

MINNESOTA

RICE LAKE NATIONAL WILDLIFE REFUGE

Public hunting of ruffed grouse on the Sandstone Unit of the Rice Lake National Wildlife Refuge and the Rice Lake National Wildlife Refuge proper, is permitted from sunrise to sunset September 15 through October 29, 1973 and from November 1 through November 30, 1973, only on the areas designated by signs as open to hunting. The open area of Rice Lake National Wildlife Refuge, comprising 2,000 acres, is delineated on a map available at refuge headquarters, McGregor, Minnesota and from the Regional Director, Bureau of Sport Fisheries and Wildlife Federal Building, Fort Snelling, Twin Cities, Minnesota 55111. Hunting shall be in accordance with all applicable State regulations governing the hunting of upland game.

LELAND A. THORNBLOOM,
*Acting Refuge Manager, Rice Lake National Wildlife Refuge, McGregor, Minnesota 55760.*

## CHAPTER II—NATIONAL MARINE FISHERIES SERVICE, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

### SUBCHAPTER F—AID TO FISHERIES

## PART 253—COMMERCIAL FISHERIES RESEARCH AND DEVELOPMENT

SEPTEMBER 10, 1973.

On page 17016 of the FEDERAL REGISTER of June 28, 1973, there was published a notice of proposed rulemaking setting forth amended procedures to be used by the Secretary in providing financial assistance to State agencies for research and development of the commercial fisheries resources of the Nation under the authority of the Commercial Fisheries Research and Development Act of May 20, 1964 (78 Stat. 197, 16 U.S.C. 779a–779f), as amended by the Act of October 4, 1968 (82 Stat. 957, 16 U.S.C. 779b), and as further amended by the Act of October 27, 1972 (86 Stat. 1303).

Interested persons were given 32 days in which to submit written comments, suggestions, or objections with respect to the proposed amended regulations to the Director, National Marine Fisheries Service, Washington, D.C. In addition, every State commercial fishery agency was independently notified, as were members of the Advisory Commission on Intergovernmental Relations in accordance with OMB Circular A–85.

A change was suggested which would add the words "or inadequately harvested" to the proposed meaning of "developing a new commercial fishery" in § 253.2(d). The change was not made on the grounds of inconsistency with the intent of the Act to develop a new commercial fishery. Another change suggested was to allow funds apportioned to a State under subsection 4(a) to remain available "until expended by said State." The suggestion was not adopted on the grounds of inconsistency with the Act which limits availability of funds under subsection 4(a) to 2 fiscal years.

Therefore, all comments having been fully considered and no changes being made, the part as so proposed is hereby adopted. These regulations are effective on September 18, 1973.

Issued at Washington, D.C., pursuant to authority delegated to me by the Secretary of Commerce.

(Catalog of Federal Domestic Assistance Program No. 15.003, Promotion of State Commercial Fishery Research and Development.)

HOWARD W. POLLOCK,
*Acting Administrator.*

SEPTEMBER 10, 1973.

Sec.
253.1 Definitions.
253.2 Interpretation of the authorization.
253.3 General provisions.
253.4 Use of funds.
253.5 Environment.
253.6 Assurances.

AUTHORITY: Sec. 8, Commercial Fisheries Research and Development Act of 1964, 78 Stat. 197 (16 U.S.C. 779a–779f), as modified by Reorganization Plan No. 4 of 1970, effective October 3, 1970 (35 FR 15627).

**§ 253.1 Definitions.**

As used in this part, terms shall have the meaning ascribed in this section.

(a) *Secretary.* The Secretary of Commerce or his authorized representatives.

(b) *Act.* The Commercial Fisheries Research and Development Act of 1964, Public Law 88–309, 78 Stat. 197, as amended by Public Law 90–551, 82 Stat. 957, and Public Law 92–590, 86 Stat. 1303 (16 U.S.C. 779 et seq.).

(c) *Grantee.* A State agency participating in a grant-in-aid award with the Secretary.

(d) *Application.* A description of work to be accomplished, including objectives, results expected, procedures, cost, location, and time required for completion, and such other information as may be required by the Secretary.

(e) *Grant-in-aid award.* A written agreement for research and development activities to be carried on as provided by the Act and these regulations. Such award shall set forth the terms and conditions binding upon the grantee and the Secretary, including the objectives, procedures, costs, the award period, and such other provisions as may be appropriate.

(f) *Aquatic plants and animals.* All animals and plants growing or living in or upon water, including finfish, shellfish, and other marine invertebrates, fur seals, whales and other marine mammals, frogs, turtles, and algae.

(g) *Commercial fisheries resources.* Any aquatic plant or animal available or potentially available for harvesting with the primary intent of commercial use as either raw or manufactured products.

**§ 253.2 Interpretation of the authorization.**

The terms used in the Act to describe the authorization to the Secretary for program and apportionment purposes are construed to be limited to the meanings ascribed in this section.

(a) *Research and development.* The words "research and development" mean program of work, including construction and acquisition, designed to acquire knowledge of commercial fisheries resources and their environment, and to develop and apply methods and techniques to enhance such commercial fisheries resources including their harvest, conservation and utilization.

(b) *Raw fish harvested by domestic commercial fishermen and received within a State.* The words "raw fish harvested by domestic commercial fishermen and received within a State" mean living aquatic plants and animals harvested by individuals, associations, partnerships or corporations resident in and authorized to do business in any State and engaged in harvesting of commercial fisheries resources or the processing and manufacturing of products therefrom. Aquatic plants and animals are received within a State when transferred from a catcher vessel within the jurisdiction of a State or permanently removed from a fish production facility.

(c) *Manufactured and processed fishery merchandise.* The words "manufactured and processed fishery merchandise" mean commercial fisheries resources or parts thereof after undergoing a change(s) contributing to or achieving a condition of readiness for sale.

(d) *Developing a new commercial fishery.* The words "developing a new commercial fishery" mean activities designed to assist the commercial fishing industry by developing and evaluating methods for the harvest, utilization, and conservation of commercial fisheries resources not commonly utilized.

(e) *Commercial fishery failure due to a resource disaster arising from natural or undetermined causes.* The words "commercial fishery failure due to a resource disaster arising from natural or undetermined causes" mean a serious disruption of a commercial fisheries resource affecting present or future productivity. It does not include inability to sell raw fish or manufactured and processed fishery merchandise or compensation for economic loss suffered by any segment of the fishing industry as the result of a resource disaster.

(f) *State.* The word "State" means the several States of the United States, the Commonwealth of Puerto Rico, American Samoa, the Virgin Islands, and Guam.

**§ 253.3 General provisions.**

(a) *Designation of State agency.* The Governor of each State shall notify the Secretary which agency of the State government is authorized under its laws to regulate commercial fisheries and is designated to submit applications and to enter into grant-in-aid awards. An official of such agency shall certify as to the official(s) authorized in accordance with State law to commit the State to participation under the Act, to sign project documents, and to receive payments. The Secretary shall be advised promptly of any changes made in such authorizations.

(b) *Application.* (1) An application for Federal assistance shall be submitted for each proposed project for approval by the Secretary. An approved application shall not be binding upon the parties until incorporated in a grant-in-aid award.

(2) Applications utilizing an allocation of State funds additional to amounts previously allocated by the State for commercial fishery research and development activities shall be preferred over applications utilizing an allocation of State funds which does not involve an increase of State funds dedicated to commercial fishery research and development programs. No application which involves a reduction of State funds previously dedicated to commercial fishery research and development will be approved.

(c) *Grant-in-aid award.* (1) After the Secretary has approved an application, activities to be undertaken by the grantee and the obligation of Federal funds shall be evidenced by a grant-in-aid award executed by the grantee and the Secretary. Such awards may be amended by mutual consent of the parties.

(2) The grant-in-aid award shall contain applicable provisions as required by Federal law and regulations. These provisions are identified in the Grant-in-Aid Handbook, NOAA Handbook No. 22, the most recent version of which may be obtained from the Director, National Marine Fisheries Service.

(d) *Prosecution of work.* (1) The prosecution of work by the grantee shall be performed in a manner acceptable to the Secretary. Unsatisfactory performance shall be cause for the Secretary to withhold payments. Grant-in-aid awards may be terminated or suspended upon determination by the Secretary that satisfactory progress has not been maintained.

(2) All work shall be performed in accordance with applicable State laws except when such laws are in conflict with Federal laws or regulations, in which case such Federal law or regulations shall prevail.

(e) *Economy and efficiency of operation.* No grant-in-aid award shall be executed until the grantee has shown to the satisfaction of the Secretary that appropriate and adequate means shall be employed to achieve economy and efficiency, including the avoidance of undesirable duplication, in the completion of a project.

**§ 253.4 Use of funds.**

(a) *Apportionment of subsection 4(a) funds.* On July 1 of each year, or as soon thereafter as practicable, the Secretary shall notify respective States of the amount of funds authorized under subsection 4(a) of the Act and apportioned to each State under subsection 5(a) of the Act. Funds apportioned to a State in any fiscal year shall remain available to it for obligation until the end of the succeeding fiscal year and, if unobligated at that time, such funds shall be returned to the Treasury of the United States.

(b) *Use of authorized funds for commercial fisheries resource disaster.* (1) The Secretary shall cause to be published in the FEDERAL REGISTER a notice that a commercial fisheries resource disaster exists at the time such a finding is made.

(2) After such publication, Federal funds may be used for 100 percent of the cost of restoration of commercial fisheries resources if all the funds are obtained from appropriations authorized under subsection 4(b) of the Act.

(c) *Use of funds for developing a new commercial fishery.* (1) Applications related to the development of new commercial fishery may be approved only after the Secretary determines that such applications will reasonably accomplish the purpose of developing a new commercial fishery.

(2) The Secretary may finance up to 100 percent of the cost of developing a new commercial fishery.

**§ 253.5 Environment.**

Projects shall be performed in such manner as to be consistent with the policies set forth in the National Environmental Policy Act of 1969 (83 Stat. 852).

**§ 253.6 Assurances.**

The State must assure and certify that it will comply with all applicable Federal laws, regulations, and requirements as they relate to the application, acceptance, and use of Federal funds for projects under the Act in accordance with OMB Circular A–102.

[FR Doc.73-19784 Filed 9-17-73;8:45 am]

V 38-180 SEP 18 73 XUM

# Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

## DEPARTMENT OF THE INTERIOR

### Bureau of Indian Affairs

[ 25 CFR Part 243 ]

### JACKSON RANCHERIA, AMADOR COUNTY, CALIFORNIA

### Distribution of Assets

*Correction*

In FR Doc. 73-16864 appearing on page 22034 in the issue of Wednesday, August 15, 1973, paragraph (a)(5) of § 243.3 should read as follows:

"(5) The dependent members of the immediate families of those Indians in paragraphs (a) (1), (2), (3) and (4) of this section."

## DEPARTMENT OF AGRICULTURE

### Animal and Plant Health Inspection Service

[ 9 CFR Part 113 ]

### VIRUSES, SERUMS, TOXINS, AND ANALOGOUS PRODUCTS

### Testing and Evaluation

Notice is hereby given in accordance with the provisions contained in section 553(b) of Title 5, United States Code (1966), that it is proposed to amend certain of the regulations relating to viruses, serums, toxins, and analogous products in Part 113 of Title 9, Code of Federal Regulations, issued pursuant to the provisions of the Virus-Serum-Toxin Act of March 4, 1913 (21 U.S.C. 151-158).

These proposed amendments would codify in Part 113 the test methods, procedures and criteria established by Veterinary Services for evaluating twenty-six biological products to be pure, safe, potent and efficacious and not to be worthless, contaminated, dangerous or harmful. Each of these products must meet the applicable requirements before they can be released for market.

These requirements have been developed over a period of years in cooperation with interested members of the scientific society and, for the most part, have been utilized by industry either as accepted requirements or as proposals under development.

The publication of these requirements is done to make more readily available to the general public these requirements which now appear in administrative memorandum.

One safety test utilizing mice as test animals and another utilizing guinea pigs as test animals are codified in two new sections. One or both of these tests will be conducted on samples of each serial produced when such tests are prescribed in a Standard Requirement or approved Outline of Production for a product. If the results are unsatisfactory, the serial will not be released for market.

Standard Requirements for three diagnostic agents—Tuberculin, Pullorum Antigen, and Avian Mycoplasma Antigen—used in disease detection programs throughout the United States are included in three new sections. It is essential to these programs that the agents used are uniformly prepared and tested. These requirements will make this possible.

Reference is made in this document to a notice of proposed rulemaking published in the FEDERAL REGISTER, Volume 38, No. 112, June 12, 1973, in which §§ 113.50-113.64 were issued.

Part 113, Standard Requirements, of Title 9 of the Code of Federal Regulations, is amended by adding the following new material:

### § 113.38 Guinea pig safety test.

The guinea pig safety test provided in this section shall be conducted when prescribed in a Standard Requirement or approved Outline of Production for a biological product. When desiccated products are tested, final container samples of completed product prepared for administration in the manner recommended on the label shall be used. When liquid products are tested, either bulk or final container samples of completed product shall be used.

(a) Unless otherwise specified in the Standard Requirement or approved Outline of Production for a product, a 0.5 ml dose shall be injected intraperitoneally into eight mice and the animals observed for 7 days.

(b) If unfavorable reactions attributable to the product occur in any of the mice during the observation period, the serial or subserial is unsatisfactory. If unfavorable reactions which are not attributable to the product occur, the test shall be declared inconclusive and may be repeated; *Provided*, That, if the test is not repeated, the serial or subserial shall be declared unsatisfactory.

### § 113.39 Mouse safety test.

The mouse safety test provided in this section shall be conducted when prescribed in a Standard Requirement or approved Outline of Production for a biological product. When desiccated products are tested, final container samples of completed product prepared for administration in the manner recommended on the label shall be used. When liquid products are tested, either bulk or final container samples of completed product shall be used.

(a) Unless otherwise specified in the Standard Requirement or approved Outline of Production for the product, a 0.5 ml dose shall be injected intraperitoneally into eight mice and the animals observed for 7 days.

(b) If unfavorable reactions attributable to the product occur in either of the guinea pigs during the observation period, the serial or subserial is unsatisfactory. If unfavorable reactions which are not attributable to the product occur, the test shall be declared inconclusive and may be repeated; *Provided*, That, if the test is not repeated, the serial or subserial shall be declared unsatisfactory.

NOTE.—Sections 113.50-113.64 appeared in notice of proposed rulemaking in the FEDERAL REGISTER, Volume 38, No. 112, June 12, 1973, pages 15450-15456.

DIAGNOSTICS AND REAGENTS

### § 113.65 Tuberculin, Intradermic.

Tuberculin, Intradermic, is a filtrate produced from cultures of Pn, C, and Dt strains of *Mycobacterium tuberculosis* which have been rendered sterile and nonpathogenic. Each serial shall be tested for purity, safety, potency, and special chemical tests in accordance with the conditions prescribed for each test. A serial found unsatisfactory by any prescribed test shall not be released.

(a) *Purity test.* Each serial shall be tested for purity as provided in this paragraph.

(1) Final container samples of completed product shall be tested for viable bacteria and fungi as prescribed in § 113.26.

(2) A 20 ml sample shall be centrifuged and the sediment examined microscopically for the presence of acidfast (Ziehl-Nielsen stain) or other microorganisms (Gram stain). A serial which contains microorganisms is unsatisfactory for release.

(b) *Safety test.* Final container samples of completed product from each serial shall be tested for safety. Two mature guinea pigs shall be injected subcutaneously with 1 ml and observed for 10 days. If unfavorable reactions attributable to the product occur during the observation period, the serial is unsatisfactory. If unfavorable reactions occur which are not attributable to the product, the test shall be declared inconclusive and repeated; *Provided*, That if the test is not repeated, the serial shall be declared unsatisfactory.

(c) *Potency test.* Final container samples of completed product from each serial shall be subjected to a comparison test using a Reference Tuberculin supplied by Veterinary Services. Test animals shall be 10 sensitized white female guinea pigs from one source which weigh 500-700 grams at the beginning of the test and which have not been used in a previous test. The comparison test shall be conducted in accordance with the procedures prescribed in paragraph (c) (1), (2), (3), (4), (5), (6), (7), and (8) of this section.

(1) The guinea pigs shall be sensitized with a sterile heat-killed suspension of equal amounts of strains Pn, C, and Dt of *Mycobacterium tuberculosis*. The heat-killed sensitizing agent shall be injected intramuscularly into the medial side of both thighs in dosages of 0.25 ml per injection site for a total of 0.5 ml per guinea pig. The guinea pigs shall be sufficiently sensitized for testing not less than 30 days nor more than 120 days post-injection.,

(2) The guinea pigs shall be prepared for sensitivity testing at least 4 hours prior to the injection of tuberculin. The entire abdominal and flank areas shall be clipped, a depilatory agent applied for 5-10 minutes, the area rinsed with warm water, and dried.

(3) Dilutions of 1:100, 1:200, and 1:400 shall be prepared with the Reference Tuberculin and the unknown tuberculin. Three test sites on each side of and equidistant from the abdominal midline shall be chosen on each guinea pig. Using a tuberculin syringe and needle, 0.05 ml of each dilution shall be injected intradermally at one of the test sites which has been randomly selected for the dilution.

(4) The sensitivity of the tuberculins shall be determined 24 hours after injection by measuring the area of swelling and erythema. Measurements in millimeters shall be made anterior of the greatest diameter and perpendicular to the first measurement. The square millimeter shall be calculated by multiplying the two measurements.

(5) The total area of response for each tuberculin tested shall be determined by adding the areas of each dilution of each of the test animals in a group. The sums for all three dilutions of each tuberculin shall be added to give the total area of tuberculin response.

(6) The total tuberculin response area of the serial being tested shall be expressed as a percentage of the total tuberculin response area of the Reference Tuberculin. (The total response area of the serial divided by the total response area of the Reference Tuberculin times 100.)

(7) If the total tuberculin response area of the serial being tested does not fall between 75 percent and 125 percent of the total tuberculin response area of the Reference Tuberculin, the serial is unsatisfactory.

(8) "No Test"—Two unsensitized guinea pigs are given intradermal injections of 0.05 ml dilutions of 1:4 and 1:10 of both the serial being tested and the Reference Tuberculin as a control for false positive reactions. If false positive reactions are observed, the test shall be considered a "No Test" and the serial shall be retested.

(d) *Special chemical tests and requirements.* Final container samples of completed product from each serial shall be tested as follows:

(1) *Hydrogen ion concentration.* The hydrogen ion concentration shall be determined with a pH meter which has been standardized with a pH 7.0 buffer just prior to use. The pH of the product shall be 7.0±0.3.

(2) *Total nitrogen determination.* The nitrogen content shall be determined by the Kjeldahl method on duplicate 15 ml samples consisting of 5 ml from each of three vials. The total nitrogen content of the product shall be 0.18 percent±0.06 percent.

(3) *Trichloroacetic acid precipitable nitrogen.* The determination of precipitable nitrogen by a final concentration of 4 percent trichloroacetic acid shall be made by the Kjeldahl method on duplicate 15 ml samples, consisting of 5 ml from each of three vials. The trichloroacetic acid precipitable nitrogen content shall be 0.047 percent±0.01 percent.

(4) *Phenol determination.* The phenol content shall be determined by direct titration with a standardized bromide-bromate solution. (A correction factor of 0.04 should be subtracted from the final value in the determination of phenol in tuberculin.) The phenol content shall be 0.54 percent±0.04 percent.

(5) *Clarity.* The product shall be optically clear and free from any extraneous particles.

### § 113.66 Pullorum antigen.

Pullorum Antigen shall be produced from a culture of representative strains of *S. pullorum* which are of known antigenic composition, high agglutinability, but are not sensitive to negative and nonspecific serum. Each serial shall be tested for purity, density, preservative content, sensitivity, homogeneity, and hydrogen ion concentration. A serial found unsatisfactory by any prescribed test shall not be released.

(a) *Purity test.* Final container samples of completed product shall be tested for viable bacteria and fungi as prescribed in § 113.26. In addition, each serial shall be free from extraneous organisms as determined by Gram staining and microscopic examination.

(b) *Nephelometric determination of bacterial density.* The bacterial density shall be 80±15 times McFarland No. 1 standard for stained antigen K's and 50±10 times McFarland No. 1 standard for tube antigen.

(c) *Preservative requirements.* (1) The formalin content of Pullorum Stained Antigen K shall be 1.0±0.2 percent as determined by a colorimetric method.

(2) The phenol content for Pullorum Tube Antigen shall be 0.55±0.05 percent as determined by direct titration with a standardized bromide-bromate solution.

(d) *Sensitivity requirements.* (1) Each serial of antigen shall be compared with a reference antigen of known sensitivity using positive and negative chicken serum. The manufacturers' recommendations for use on the accompanying label or package insert shall be followed. The recommended time limit specified for each antigen shall be carefully observed in the test.

(2) A total of at least 12 serums shall be used. This shall include at least three definitely positive, at least three weakly positive, and at least six negative serums. At least three positive chicken serums diluted with negative chicken serum shall be used to further assay comparative sensitivity between test and reference plate antigens. All test antigens shall agree closely with the reference antigen. Tests in which variation of readings between the reference and test antigen would result in a different National Poultry Improvement Plan classification shall be regarded as unsatisfactory. No unsatisfactory tests among the six or more negative serums and not more than one unsatisfactory test among the six or more positive serums shall be permitted. All tests performed shall be included for evaluation of the sensitivity assay. In the event of an unsatisfactory test using positive serums, at least three additional definitely positive and three additional weakly positive serums shall be tested. If not more than one unsatisfactory test is obtained with the additional serums, the antigen shall be acceptable.

(e) *Homogeneity requirement.* Antigens shall show no evidence of autoagglutination or unusual appearance such as the presence of flakes, specks, or a preponderance of filament forms. Microscopic examination may aid in this determination.

(f) *Hydrogen ion concentration requirements.* Each serial of all Pullorum Antigens shall be tested for hydrogen ion concentration. Use of a standard pH meter, calibrated with Standard pH 4.0 buffer solution, is recommended. Such test shall indicate a hydrogen ion concentration of pH 4.6 ± 0.4 for the Pullorum Stained Antigen K's. No pH level is specified for Pullorum Tube Antigen, but after dilution as recommended for use, it shall have a pH of 8.2-8.5.

### § 113.67 Avian mycoplasma antigen.

Mycoplasma antigens shall be prepared from organisms grown in broth cultures that are inactivated and standardized. Plate antigens shall be stained with an acceptable dye, but tube antigens shall be unstained. Final container samples of completed product from each serial shall be tested for density, preservative content, homogeneity, hydrogen ion concentration, purity, sensitivity, and specificity in accordance with the conditions prescribed for each test. A serial found unsatisfactory by any prescribed test shall not be released.

(a) *Density requirements.* A 2.5 ml sample of completed antigen shall be diluted with 2.5 ml of Sorenson's buffer solution (use buffer solution at pH 6.0 for Mycoplasma Gallisepticum Plate Antigen and at pH 7.0 for Mycoplasma Gallisepticum Tube Antigen and Mycoplasma Synoviae Plate Antigen) in a

V 38-180
SEP 18 73
XUM

modified Hopkins tube and sedimented at 1,000 × g in a refrigerated centrifuge at 20° C for 90 minutes. If the packed cell volume of the completed antigen is not 1.0 percent (± 0.2 percent), the serial is unsatisfactory.

(b) *Preservative requirements.* Only preservatives written in an approved Outline of Production shall be used. If phenol is used, a direct titration with a standardized bromide-bromate solution shall be made; *Provided,* That if the final concentration of phenol is not 0.25 percent (± 0.05 percent), the serial is unsatisfactory.

(c) *Homogeneity requirements.* (1) Plate antigen shall be checked on a plate for homogeneity. If plate antigen is not homogeneous and free of visible particles and clumps, the serial is unsatisfactory.

(2) Tube antigen shall be checked for homogeneity and autoagglutination. If tube antigen is not homogeneous and free of large visible particles and clumps, or if it autoagglutinates, the serial is unsatisfactory.

(3) Stereo-microscopic examination shall be used when necessary to evaluate a granular appearing antigen.

(d) *Hydrogen ion concentration requirements.* If the antigen does not have a pH of 6.0 ± 0.2 unit for Mycoplasma Gallisepticum Plate Antigen, or 7.0 ± 0.2 unit for Mycoplasma Gallisepticum Tube Antigen and Mycoplasma Synoviae Plate Antigen, the serial is unsatisfactory.

(e) *Purity requirements.* The antigen shall be tested for viable bacteria and fungi as prescribed in § 113.26.

(f) *Sensitivity requirements.* (1) Mycoplasma Gallisepticum Antigen—Plate or Tube Test reactions of the serial shall be compared with a reference antigen using both known negative chicken and turkey serums (the positive serums shall have varying degrees of reactivity from weakly positive to strongly positive). Five positive serums shall be tested against plate antigen in the 1:4 dilution or tube antigen in the 1:20 dilution; five negative serums shall be tested against plate antigen undiluted or tube antigen in the 1:20 dilution. If negative serums do not have negative reactions in this test or the test antigen and the reference antigen do not have the same reactions with the positive serums or both, the serial is unsatisfactory; *Provided,* That a variation is permitted with one of the five serums in each set used.

(2) Mycoplasma Synoviae Antigen, Plate—Test reactions of the serial shall be compared with a reference antigen using both known negative chicken serum and positive chicken serums. The five negative serums shall be tested against the antigen undiluted and the positive serums shall be tested against the antigen in the 1:4 dilution. If negative serums do not have negative reactions in this test or the test antigen and the reference antigen do not have the same reactions with the positive serums or both, the serial is unsatisfactory; *Provided,* That a variation is permitted with one of the five serums in each set used.

(g) *Specificity requirements.* Mycoplasma Synoviae Antigen shall be examined for cross-agglutination with Mycoplasma gallisepticum antiserum. If cross-agglutination occurs, the serial is unsatisfactory.

**§ 113.68–§ 113.74 [Reserved]**

**§ 113.75 General requirements for biological products of animal blood origin.**

Each serial of biological product prepared from the blood of animals shall comply with the general requirements prescribed in this section unless otherwise provided for in a Standard Requirement or approved Outline of Production for such product. Any serial found unsatisfactory by a prescribed test shall not be released.

(a) *Purity requirements.* Biological products of animal blood origin shall contain only serum constituents, preservatives, and safe amounts of chemicals used in the manufacturing procedures. Final container samples of completed product shall be tested for viable microorganisms as provided in § 113.26.

(b) *Safety requirements.* Bulk or final container samples of completed product from each serial shall be tested for safety as provided in § 113.39.

(c) If no label claim for specific antibody content can be substantiated by the licensee, the product shall be considered a normal serum; *Provided,* That, if the serum does contain demonstrable antibodies which have been produced in response to specific antigens injected into the blood producing animals, the product shall be considered an antiserum, except that:

(1) An antiserum concentrated at least twofold by the removal of water may be considered an antibody concentrate; and

(2) An antiserum fractionated by suitable means to remove most of the nonglobulin material and concentrated to increase the amount of globulin at least twofold over the amount in the original antiserum may be considered a globulin concentrate.

(d) Normal serum, antiserum, and antiserum derivatives shall contain at least one preservative in the following table. The amount shall be within the range of concentration set forth and the type used shall be indicated on the label.

(1) Phenol 0.25 to 0.55 percent, or

(2) Cresol 0.10 to 0.30 percent, and/or

(3) Thimerosal 0.01 to 0.03 percent, or

(4) Other preservative(s) specified in the approved Outline of Production for the product.

(e) If a potency test has been issued in a Standard Requirement or is written in an approved Outline of Production for an antiserum, an antiserum concentrate, or a globulin concentrate, the potency shall be sufficient for the product to satisfactorily meet the requirements of such test. Unless otherwise specified in the test procedure, the test sample of antiserum concentrate or globulin concentrate shall be diluted with 1 percent peptone solution to a volume equal to the contents of the sample times the concentration factor specified in such approved Outline of Production prior to conducting the test.

(f) If a potency test has not been issued in a Standard Requirement or is not written into an approved Outline of Production for an antiserum, an antiserum concentrate, or a globulin concentrate, such product shall meet the requirements in this paragraph.

(1) The globulin content of antiserum, normal serum, and globulin concentrate shall be determined by electrophoretic mobility or other equally acceptable tests.

(i) The globulin content of antiserum and normal serum shall equal or exceed the amounts per ml listed according to the species of origin as follows:

| Species: | *Globulin (mg/ml)* |
|---|---|
| Bovine | 45 |
| Equine | 50 |
| Porcine | 35 |
| Canine | 25 |
| Feline | 25 |

(ii) The globulin content of globulin concentrate shall exceed the value given for the antiserum from a particular species by the multiple of the concentration factor prescribed in the approved Outline of Production.

(iii) Globulin concentrates shall be fractionated in such a manner that the protein content shall contain greater than 90 percent globulin as determined by electrophoretic mobility or other acceptable tests.

(2) The level of protein content for antiserum and normal serum shall equal or exceed the amounts per ml listed according to the species of origin as follows:

| Species: | *Protein (mg/ml)* |
|---|---|
| Bovine | 60 |
| Equine | 60 |
| Porcine | 55 |
| Canine | 45 |
| Feline | 45 |

(3) The protein content of an antiserum concentrate shall exceed the value given in the table for the antiserum from a particular species in paragraph (f)(2) of this section by the multiple of the concentration factor prescribed in the approved Outline of Production.

**§ 113.76 Tetanus Antitoxin.**

Tetanus Antitoxin is a specific antibody obtained from the blood of healthy horses hyperimmunized with an antigen prepared with a good toxin-producing strain of *Clostridium tetani.* Each serial shall meet the general requirements provided in paragraph (a) of this section and shall be tested for purity, safety, and potency as provided in paragraphs (b), (c), and (d) of this section. Any serial found unsatisfactory by a prescribed test shall not be released.

(a) *General requirements.* The amount of antitoxin in a final container shall be the amount which is delivered from such container when opened and inverted until the flow stops. A graduated volumetric

cylinder which conforms to the National Bureau of Standards requirements shall be used. The reading shall be made at the bottom of the meniscus and recorded to the nearest 0.1 ml.

(1) All final containers of Tetanus Antitoxin shall yield not less than the labeled unitage of antitoxin throughout the dating period. The minimum package size permitted for marketing in the United States shall be a 1,500 unit vial.

(2) The expiration date of Tetanus Antitoxin shall be not more than 3 years after the date of a potency test demonstrating that the recoverable volume of the final container provides a 20 percent excess over the labeled unitage.

(b) *Purity test.* Final container samples of completed product from each serial shall be tested for viable bacteria and fungi as prescribed in § 113.26.

(c) *Safety test.* Final container samples of completed product from each serial shall be tested for safety as provided in § 113.39.

(d) *Potency test.* Final container samples of completed product from each serial shall be assayed to determine the units of tetanus antitoxin in each final container. A comparative toxin-antitoxin neutralization test shall be conducted using a standard antitoxin and a standard toxin. All dilutions shall be made with a M 15 phosphate buffered (pH 7.4) physiological saline with 0.2 percent gelatin.

(1) One ml of the standard antitoxin shall be diluted before use so the final volume contains 0.1 unit per ml.

(2) The standard toxin test dose is that amount which when mixed with 0.1 unit of standard antitoxin, incubated at room temperature for 1 hour, and injected subcutaneously into a 350 gram guinea pig, results in death of that guinea pig within approximately 96 hours with clinical signs of tetanus. The toxin shall be diluted so the test dose shall be in 2.0 ml.

(3) A mixture of diluted standard toxin and diluted standard antitoxin shall be made so 0.1 unit of antitoxin is combined with a test dose of toxin. This standard toxin-antitoxin mixture shall be held at room temperature for 1 hour before injections are made.

(4) Each serial of antitoxin shall be prepared as was the standard toxin-antitoxin mixture, except the amount of antitoxin shall be based on an estimation of the expected potency. The final titration shall include a test at the expected unit value, one dilution above and one below.

(5) Normal guinea pigs weighing within a range of 340–380 grams shall be used. Pregnant guinea pigs must not be used.

(i) Each of two guinea pigs (controls) shall be injected subcutaneously with a 3.0 ml dose of the standard toxin-antitoxin mixture. These shall be observed parallel with the titration of one or more unknown antitoxins.

(ii) Two guinea pigs shall be used as test animals for each of three dilutions of the unknown antitoxin. A 3.0 ml dose shall be injected subcutaneously into each animal.

(6) Controls shall be observed until all are dead, or for 6 days, the time of death being recorded in hours. To be a satisfactory test, the controls must die with clinical signs of tetanus in 60–120 hours, the mean time of death being approximately 96 hours. The clinical signs to be observed are increased muscle tonus, curvature of the spine, asymmetry of the body outline when the resting animal is viewed from above, generalized spastic paralysis, particularly of the extensor muscles, inability to rise from a smooth flat surface when the animal is placed on its side, or any combination of these signs.

(7) Potency of a new antitoxin is determined by finding the mixture which will protect the test animal the same as the standard toxin-antitoxin mixture. Test animals dying sooner than the controls indicate the unit value selected in that dilution was not present, whereas those living longer indicate a greater unit value.

**§ 113.77 Swine erysipelas antiserum.**

Swine Erysipelas Antiserum shall be prepared from the blood of horses hyperimmunized with antigenic strains of *Erysipelothrix insidiosa.* Each serial shall be tested for purity, safety, and potency as provided in this section. Any serial found unsatisfactory by a prescribed test shall not be released.

(a) *Purity test.* Final container samples of completed product from each serial and subserial shall be tested for viable bacteria and fungi as prescribed in § 113.26.

(b) *Safety test.* Bulk or final container samples of completed product from each serial shall be tested for safety as provided in § 113.39.

(c) *Potency test.* Bulk or final container samples of completed product from each serial shall be tested using the following two-stage test:

(1) In the first stage, each of 40 Swiss albino mice, each weighing 16–20 grams, shall be injected subcutaneously with 0.1 ml of antiserum. Twenty-four hours postinjection, the injected mice and 10 additional mice designated as controls shall be challenged subcutaneously with the same culture of *Erysipelothrix insidiosa.*

(2) If the controls do not die from erysipelas within 7 days post-challenge, the test is invalid. All dead mice shall be examined to determine if the cause of death was the erysipelas organism.

(3) The antiserum injected mice shall be observed for 14 days post-challenge and all deaths recorded. The second stage shall be required when 7–10 of the antiserum injected mice die in the first stage. The second stage shall be conducted in a manner identical to the first stage.

(4) The results of the test shall be evaluated according to the following table:

| Stage | Number of vaccinates | Cumulative number of vaccinates | Cumulative total number of deaths for a satisfactory test | Cumulative total number of deaths giving an unsatisfactory test |
|---|---|---|---|---|
| 1 | 40 | 40 | 6 or less | 11 or more. |
| 2 | 40 | 80 | 12 or less | 13 or more. |

**§ 113.78 Canine Distemper-Hepatitis-Leptospira Antiserum.**

The antiserum shall be prepared from blood of dogs hyperimmunized with canine distemper virus, canine hepatitis virus, and one or more leptospira species until the final product shall provide passive immunity against the disease agents named on the label. Each serial and subserial shall be tested for purity, safety, and potency as provided in this section. A serial or subserial found unsatisfactory by any prescribed test shall not be released.

(a) *Purity test.* Final container samples of completed product from each serial and subserial shall be tested for viable bacteria and fungi as prescribed in § 113.26.

(b) *Safety test.* Bulk or final container samples of completed product from each serial shall be tested for safety as provided in § 113.39. Also, each of two healthy dogs shall be injected subcutaneously with the maximum dose recommended on the label for 1 pound body weight of a dog and each shall be injected intravenously with the maximum dose recommended on the label for 1 pound body weight of a dog. The injected dogs shall be observed for 14 days for unfavorable reactions. If unfavorable reactions attributable to the product occur in one or both of the dogs, the serial or subserial is unsatisfactory. If unfavorable reactions which are not attributable to the product occur, the test shall be declared inconclusive and may be repeated; *Provided,* That, if the test is not repeated, the serial shall be declared unsatisfactory.

(c) *Potency tests.* Bulk or final container samples of completed product from each serial shall be tested for potency as provided in this paragraph. Concentrated products shall be diluted with 1 percent peptone solution to the equivalence of regular serum before testing. Standard antiserums and standard viruses, available upon request to Veterinary Services, shall be used.

(1) *Distemper fraction.* A virus neutralization test using chick embryo inoculation technique shall be conducted.

(i) Serial threefold dilutions shall be made of the serum under test and the standard antiserum. A volume of each serial dilution of serum shall be mixed with an equal volume of standard virus. For use in the test, the standard virus shall be diluted to contain 100–1,000 $EID_{50}$ per 0.1 ml.

(ii) A 1:2 dilution of the standard virus, as prepared for use in the test, shall be titrated in tenfold dilutions to determine the actual amount of virus used in the neutralization test. These dilutions shall be incubated along with serum/virus mixtures.

(iii) After 1 hour incubation at room temperature, 0.2 ml of each serum/virus mixture shall be inoculated onto the chorioallantoic membrane of at least five chicken embryos 6–8 days old. The inoculated embryos shall be incubated at 35–37° C for 6–7 days and the chorioallantoic membranes examined. Calculate the 50 percent end point of neutralization ($ND_{50}$) by the Reed and Muench or other acceptable statistical method.

V 38-180
SEP 18 73
XUM

(iv) The $ND_{50}$ dilution of the test serum divided by the $ND_{50}$ dilution of the standard serum is the test serum to standard ratio. A serial is unsatisfactory unless the average ratio of two tests is 0.67 or more.

(2) *Hepatitis fraction.* A virus neutralization test using canine kidney cell culture as the indicator system shall be conducted.

(i) Serial threefold dilutions shall be made of the antiserum under test and the standard antiserum. A volume of each serial dilution of serum shall be mixed with an equal volume of standard virus. The standard virus shall contain 100–1,000 $TCID_{50}$ per 0.1 ml.

(ii) A 1:2 dilution of the standard virus, as prepared for use in the test, shall be titrated in tenfold dilutions to determine the actual amount of virus used in the neutralization test. These dilutions shall be incubated along with serum/virus mixtures before inoculation of culture tubes.

(iii) After 1 hour incubation at room temperature, 0.2 ml of each serum/virus mixture shall be inoculated into five culture tubes containing dog kidney cell monolayers. The inoculated tubes shall be incubated at 35–37° C.

(iv) The tubes shall be observed daily for specific cytophathogenic changes from the 4th to 10th day postinoculation. The test shall be terminated before the 10th day if additional cytopathogenic changes do not occur in virus titration tubes over a 48 hour period.

(v) Results shall be recorded and the 50 percent end point of neutralization ($ND_{50}$) calculated by the Reed and Muench or other acceptable statistical method.

(vi) The $ND_{50}$ dilution of the test serum divided by the $ND_{50}$ dilution of the standard serum is the test serum to standard ratio. A serial is unsatisfactory unless the average ratio of two tests is 0.67 or more.

(3) *Leptospira fraction.* Young adult hamsters, each weighing 40–50 grams, shall be used as test animals. For each species of leptospira antibody included in the product, each of at least five hamsters shall be injected with 60 percent of the minimum dose recommended on the label for 1 pound body weight of a dog and at least five additional hamsters shall be used as controls.

(i) Within 24 hours following injection, the five injected hamsters and the five control hamsters for each species of leptospira shall be challenged intraperitoneally with a suspension of virulent leptospira organisms representative of the species. A dose of 10–1,000 hamster $LD_{50}$ shall be used. Both groups shall be observed for 14 days post-challenge and the results noted.

(ii) The test shall be conclusive if at least 80 percent of the controls in each group die from leptospirosis as demonstrated by acceptable cultural methods.

(iii) If the test is considered conclusive as provided in paragraph (c) (3) (ii) of this section, and less than 80 percent of the injected hamsters in a group remain normal during the observation period, the serial is unsatisfactory.

**§ 113.79 Clostridium Perfringens Type C Antitoxin.**

Clostridium Perfringens Type C Antitoxin shall be prepared from the blood of horses hyperimmunized with Clostridium Perfringens Type C toxin. Each serial shall be tested for purity, safety, and potency as provided in this section. A serial found unsatisfactory by any prescribed test shall not be released.

(a) *Purity test.* Final container samples of completed product from each serial and each subserial shall be tested for viable bacteria and fungi as provided in § 113.26.

(b) *Safety test.* Bulk or final container samples of completed product from each serial shall be tested for safety as provided in § 113.39.

(c) *Potency test.* Bulk or final container samples of completed product from each serial shall be tested using the toxin-neutralization test for Beta Antitoxin provided in this paragraph.

(1) When used in this test, the following words and terms shall mean:

(i) *International antitoxin unit.* (I.U.) That quantity of Beta Antitoxin which reacts with $L_0$ and $L_+$ doses of Standard Toxin according to their definitions.

(ii) *$L_+$ dose.* The largest quantity of toxin which can be mixed with one unit of Standard Antitoxin and not cause sickness or death in injected mice.

(iii) *$L_+$ dose.* The smallest quantity of toxin which can be mixed with one unit of Standard Antitoxin and cause death in at least 80 percent of injected mice.

(iv) *Standard antitoxin.* The Beta Antitoxin preparation which has been standardized as to antitoxin unitage on the basis of the International *Clostridium perfringens* Beta Antitoxin Standard and which is either supplied by or acceptable to Veterinary Services. The antitoxin unit value shall be stated on the label.

(v) *Standard toxin.* The Beta toxin preparation which is supplied by or is acceptable to Veterinary Services.

(vi) *Diluent.* The solution used to make proper dilutions prescribed in this test. Such solution shall be made by dissolving 1 gram of peptone and 0.25 gram of sodium chloride in each 100 ml of distilled water; adjusting the pH to 7.2; autoclaving at 250° F for 25 minutes; and storing at 4° C until used.

(2) The antitoxin content of the test sample shall be determined as follows:

(i) Make a dilution of Standard Antitoxin to contain 10 International Units of antitoxin per ml.

(ii) Make one dilution of Standard Toxin to contain 10 $L_0$ doses per ml and make a second dilution of Standard Toxin to contain 10 $L_+$ doses per ml.

(iii) Dilute 1 ml of the test sample with 49 ml of diluent and combine with 1 ml of the Standard Toxin diluted to contain 10 $L_+$ doses.

(iv) Combine 10 International Units of Standard Antitoxin with 10 $L_0$ doses of diluted Standard Toxin and combine 10 International Units of Standard Antitoxin with 10 $L_+$ doses of diluted Standard Toxin.

(v) Neutralize all toxin-antitoxin mixtures at room temperature for 1 hour and hold in ice water until injections of mice can be made.

(vi) Five Swiss white mice, each weighing 16–20 grams, shall be used for each toxin-antitoxin mixture. A dose of 0.2 ml shall be injected intravenously into each mouse. Conclude the test 24 hours post-injection and record all deaths.

(3) Test Interpretation. (i) If any mice inoculated with the mixture of 10 International Units of Standard Antitoxin and 10 $L_0$ doses of Standard Toxin die, the results of the test are inconclusive and shall be repeated; *Provided*, That, if the test is not repeated, the serial shall be declared unsatisfactory.

(ii) If less than 80 percent of the mice inoculated with the mixture of 10 International Units of Standard Antitoxin and 100 $L_+$ doses of Standard Toxin die, the results of the test are inconclusive and shall be repeated; *Provided*, That, if the test is not repeated, the serial shall be declared unsatisfactory.

(iii) If any mice inoculated with the mixture of Clostridium Perfringens Type C Antitoxin diluted 1:50 and 10 $L_0$ doses of Standard Toxin die, the antitoxin is considered to contain less than 500 International Unit per ml and the serial is unsatisfactory.

**§ 113.80 Clostridium Perfringens Type D Antitoxin.**

Clostridium Perfringens Type D Antitoxin shall be prepared from the blood of horses hyperimmunized with Clostridium Perfringens Type D toxin. Each serial shall be tested for purity, safety, and potency as provided in this section. A serial found unsatisfactory by any prescribed test shall not be released.

(a) *Purity test.* Final container samples of completed product from each serial and each subserial shall be tested for viable bacteria and fungi as provided in § 113.26.

(b) *Safety test.* Bulk or final container samples of completed product from each serial shall be tested for safety as provided in § 113.39.

(c) *Potency test.* Bulk or final container samples of completed product from each serial shall be tested using the toxin-neutralization test for Epsilon Antitoxin provided in this paragraph.

(1) When used in this test, the following words and terms shall mean:

(i) *International antitoxin unit.* (I.U.) That quantity of Epsilon Antitoxin which reacts with $L_0$ and $L_+$ doses of Standard Toxin according to their definitions.

(ii) *$L_0$ dose.* The largest quantity of toxin which can be mixed with one-tenth unit of Standard Antitoxin and not cause sickness or death in injected mice.

(iii) *$L_+$ dose.* The smallest quantity of toxin which can be mixed with one-tenth unit of Standard Antitoxin and cause death in at least 80 percent of injected mice.

(iv) *Standard antitoxin.* The Epsilon Antitoxin preparation which has been standardized as to antitoxin unitage on the basis of the International *Clostridium perfringens* Epsilon Antitoxin Standard and which is either supplied by or

acceptable to Veterinary Services. The antitoxin unit value shall be stated on the label.

(v) *Standard toxin.* The Epsilon toxin preparation which is supplied by or is acceptable to Veterinary Services.

(vi) *Diluent.* The solution used to make proper dilutions prescribed in this test. Such solution shall be made by dissolving 1 gram of peptone and 0.25 gram of sodium chloride in each 100 ml of distilled water; adjusting the pH to 7.2; autoclaving at 250° F for 25 minutes; and storing at 4° C until used.

(2) The antitoxin content of the test sample shall be determined as follows:

(i) Make a dilution of Standard Antitoxin to contain 1 International Unit of antitoxin per ml.

(ii) Make one dilution of Standard Toxin to contain 10 $L_0$ doses per ml and make a second dilution of Standard Toxin to contain 10 $L_+$ doses per ml.

(iii) Dilute 1 ml of the test sample with 33 ml of diluent and combine with 1 ml of the Standard Toxin diluted to contain 10 $L_0$ doses.

(iv) Combine 1 International Unit of Standard Antitoxin with 10 $L_0$ doses of Standard Toxin and combine 1 International Unit of Standard Antitoxin with 10 $L_+$ doses of Standard Toxin.

(v) Neutralize all toxin-antitoxin mixtures at room temperature for 1 hour, and hold in ice water until injections of mice can be made.

(vi) Five Swiss white mice, each weighing 16–20 grams, shall be used for each toxin-antitoxin mixture. A dose of 0.2 ml shall be injected intravenously into each mouse. Conclude the test 24 hours post-injection and record all deaths.

(3) Test Interpretation. (i) If any mice inoculated with the mixture of 1 International Unit of Standard Antitoxin and 10 $L_0$ doses of Standard Toxin die, the results of the test are inconclusive and shall be repeated; *Provided*, That, if the test is not repeated, the serial shall be declared unsatisfactory.

(ii) If less than 80 percent of the mice inoculated with mixture of 1 International Unit of Standard Antitoxin and 10 $L_+$ doses of Standard Toxin die, the results of the test are inconclusive and shall be repeated; *Provided, That*, if the test is not repeated, the serial shall be declared unsatisfactory.

(iii) If any mice inoculated with the mixture of Clostridium Perfringens Type D Antitixin diluted 1:34 and 10 $L_0$ doses of Standard Toxin die, the antitoxin is considered to contain less than 34 International Unit per ml and the serial is unsatisfactory.

**§ 113.81–§ 113.84 [Reserved]**

INACTIVATED BACTERIAL PRODUCTS

**§ 113.85 Bacterins, toxoids, and bacterin-toxoids.**

Basic requirements for bacterins, toxoids, and bacterin-toxoids are provided in this section.

(a) *A bacterin* shall be a suspension of organisms, or their particulate components with or without their unevaluated growth products, which have been inactivated by chemical or physical means; and the basic immunizing antigens are believed to be primarily cellular. When a bacterin is combined with one or more inactivated bacterial products, the combination shall also be considered as a bacterin.

(b) *A toxoid* shall be a sterile, aqueous filtrate resulting from growth of bacterial organisms in a suitable culture medium and which has subsequently been rendered nontoxic without appreciable loss of antigenic value as measured by suitable animal tests. Toxoid shall not be applied to a product which has not had the bacterial cells removed during process. When a toxoid is combined with one or more toxoids, the combination shall be considered as a toxoid.

(c) *A bacterin-toxoid* shall be the toxic growth products of bacterial organisms propogated in suitable medium, containing all or part of the cells or their particulate components from the original culture or in a combination of such fractions which have been rendered nontoxic and inactivated without appreciable loss of antigenic value as measured by suitable animal tests. Bacterin-toxoid shall contain cellular antigens and shall stimulate development of antitoxin. When a bacterin-toxoid is combined with one or more bacterin-toxoids or toxoids, the combination shall be considered as a bacterin-toxoid.

(d) Bacterins used as diluents. Bacterins authorized for use as diluents in combination packages include Leptospira Pomona Bacterin, Leptospira Canicola Bacterin, Leptospira Icterohaemorrhagiae Bacterin, and Pasteurella Bacterin. All serials and subserials of these bacterins shall be subject to the special requirements in this paragraph.

(1) Only serials tested for viricidal activity in accordance with the test provided in § 113.35 as set out in the notice of proposed rulemaking published in the FEDERAL REGISTER, Volume 38, No. 112, on June 12, 1973, page 15453, and found satisfactory by such test shall be packaged as diluent for desiccated fractions in combination packages.

(2) The carton labels and enclosures used with serials not found satisfactory by the viricidal activity test shall contain the statement: "CAUTION: DO NOT USE AS DILUENT FOR LIVE VIRUS VACCINES."

(e) If formaldehyde is used as the inactivating agent and the serial has not been found satisfactory by the viricidal activity test, bulk or final container samples of completed product from each serial shall be tested for residual free formaldehyde content using the Basic Fuchsin Test.

(1) The residual free formaldehyde content of biological products containing Clostridial antigens shall not exceed the equivalent of 0.5 percent formaldehyde solution (1,850 parts per million).

(2) The residual free formaldehyde content of bacterins, bacterin-toxoids, and toxoids other than those containing Clostridial antigens, shall not exceed the equivalent of 0.2 percent formaldehyde solution (740 parts per million).

**§ 113.86 Leptospira pomona bacterin.**

Leptospira Pomona Bacterin shall be produced from a culture of *Leptospira pomona* which has been rendered sterile and nontoxic. Each serial of biological product containing *Leptospira pomona* fraction shall be tested for purity, safety, potency, viricidal activity and/or residual formaldehyde. A serial found unsatisfactory by any prescribed test shall not be released.

(a) *Purity test.* Final container samples of completed product from each serial and each subserial shall be tested for viable bacteria and fungi as provided in § 113.26.

(b) *Safety test.* Bulk or final container samples of completed product from each serial shall be tested for safety as provided in § 113.38.

(c) *Potency test.* Bulk or final container samples of completed product shall be diluted with physiological saline so that each 0.25 ml contains not more than 1/800th of the dose recommended on the label for cattle and shall be tested for potency, using the two-stage test provided in this paragraph.

(1) *Vaccinates.* Inject each of 10 young adult hamsters, each weighing 50–90 grams, with 0.25 ml of the diluted bacterin either subcutaneously or intramuscularly in accordance with the label recommendations for use in cattle.

(2) *Controls.* Retain 10 additional hamsters from the same group as unvaccinated controls.

(3) *Challenge.* From 14–18 days postvaccination, challenge each vaccinate and each control intraperitoneally with a suspension of virulent *Leptospira pomona* organisms, using a dose of 10–1,000 hamster $LD_{50}$.

(4) *Post-challenge period.* Observe the vaccinates and controls for 14 days postchallenge and record all deaths. If eight or more controls die, the test is valid and the results shall be evaluated according to the following table:

| Stage | Number of vaccinates | Cumulative number of vaccinates | Cumulative total dead hamsters for satisfactory serial | Cumulative total dead hamsters for unsatisfactory serial |
|---|---|---|---|---|
| 1 | 10 | 10 | 2 or less | 5 or more. |
| 2 | 10 | 20 | 5 or less | 6 or more. |

(5) If three or four vaccinates die in the first stage, the second stage shall be conducted in a manner identical to the first stage.

(6) If the second stage is used, each serial shall be evaluated according to the second part of the table. On the basis of cumulative results, each serial shall either pass or fail.

**§ 113.87 Leptospira Icterohaemorrhagiae Bacterin.**

Leptospira Icterohaemorrhagiae Bacterin shall be produced from a culture of *Leptospira icterohaemorrhagiae* which

V 38-180 SEP 18 73 XUM

has been rendered sterile and nontoxic. Each serial of biological product containing *Leptospira icterohaemorrhagiae* fraction shall be tested for purity, safety, potency, viricidal activity and/or residual formaldehyde. A serial found unsatisfactory by any prescribed test shall not be released.

(a) *Purity test.* Final container samples of completed product from each serial and each subserial shall be tested for viable bacteria and fungi as provided in § 113.26.

(b) *Safety test.* Bulk or final container samples of completed product from each serial shall be tested for safety as provided in § 113.38.

(c) *Potency test.* Bulk or final container samples of completed product shall be diluted with physiological saline so that each 0.25 ml contains not more than 1/80th of the dose recommended on the label for dogs and shall be tested for potency, using the two-stage test provided in this paragraph.

(1) *Vaccinates.* Inject each of 10 young adult hamsters, each weighing 50–90 grams, with 0.25 ml of the diluted bacterin either subcutaneously or intramuscularly in accordance with the label recommendations for use in dogs.

(2) *Controls.* Retain 10 additional hamsters from the same group as unvaccinated controls.

(3) *Challenge.* From 14-18 days postvaccination, challenge each vaccinate and each control intraperitoneally with a suspension of virulent *Leptospira icterohaemorrhagiae* organisms using a dose of 10–1,000 hamster $LD_{50}$.

(4) *Post-challenge period.* Observe the vaccinates and controls for 14 days postchallenge and record all deaths. If eight or more controls die, the test is valid and the results shall be evaluated according to the following table:

| Stage | Number of vaccinates | Cumulative number of vaccinates | Cumulative total dead hamsters for satisfactory serial | Cumulative total dead hamsters for unsatisfactory serial |
|---|---|---|---|---|
| 1..... | 10 | 10 | 2 or less..... | 5 or more. |
| 2..... | 10 | 20 | 5 or less..... | 6 or more. |

(5) If three or four vaccinates die in the first stage, the second stage shall be used. The second stage shall be conducted in a manner identical to the first stage.

(6) If the second stage is used, each serial shall be evaluated according to the second part of the table. On the basis of cumulative results, each serial shall either pass or fail.

**§ 113.88 Leptospira Canicola Bacterin.**

Leptospira Canicola Bacterin shall be produced from a culture of *Leptospira canicola* which has been rendered sterile and nontoxic. Each serial of biological product containing *Leptospira canicola* fraction shall be tested for purity, safety, potency, viricidal activity, and/or residual formaldehyde. Serials found unsatisfactory by any prescribed test shall not be released.

(a) *Purity test.* Final container samples of completed product from each serial and each subserial shall be tested for viable bacteria and fungi as provided in § 113.26.

(b) *Safety test.* Bulk or final container samples of completed product from each serial shall be tested for safety as provided in § 113.38.

(c) *Potency test.* Bulk or final container samples of completed product shall be diluted with physiological saline so that each 0.25 ml contains not more than 1/80th of the dose recommended on the label for dogs and shall be tested for potency, using the two-stage test provided in this paragraph.

(1) Vaccinates. Inject each of 10 young adult hamsters, each weighing 50–90 grams, with 0.25 ml of the diluted bacterin either subcutaneously or intramuscularly in accordance with the label recommendations for use in dogs.

(2) Controls. Retain 10 additional hamsters from the same group as unvaccinated controls.

(3) Challenge. From 14–18 days postvaccination, challenge each vaccinate and each control intraperitoneally with a suspension of virulent *Leptospira canicola* organisms using a dose of 10–1,000 hamster $LD_{50}$.

(4) Post-challenge period. Observe the vaccinates and controls for 14 days postchallenge and record all deaths. If eight or more controls die, the test is valid and the results shall be evaluated according to the following table:

| Stage | Number of vaccinates | Cumulative number of vaccinates | Cumulative total dead | Cumulative total dead |
|---|---|---|---|---|
| 1..... | 10 | 10 | 2 or less..... | 5 or more. |
| 2..... | 10 | 20 | 5 or less..... | 6 or more. |

(5) If three or four vaccinates die in the first stage, the second stage shall be used. The second stage shall be conducted in a manner identical to the first stage.

(6) If the second stage is used, each serial shall be evaluated according to the second part of the table. On the basis of cumulative results, each serial shall either pass or fail.

**§ 113.89–§ 113.90 [Reserved]**

**§ 113.91 Clostridium Chauvoei Bacterin.**

Clostridium Chauvoei Bacterin shall be produced from a culture of *Clostridium chauvoei* which has been rendered sterile and nontoxic. Each serial of biological product containing *Clostridium chauvoei* fraction shall be tested for purity, safety, potency, and formaldehyde content. Serials found unsatisfactory by any prescribed test shall not be released.

(a) *Purity test.* Final container samples of completed product from each serial and each subserial shall be tested for viable bacteria and fungi as provided in § 113.26.

(b) *Safety test.* Bulk or final container samples of completed product from each serial shall be tested for safety as provided in § 113.38.

(c) *Potency test.* Bulk or final container samples of completed product from each serial shall be tested for potency using the two-stage test provided in this paragraph.

(1) In the first stage, each of not less than eight guinea pigs, each weighing 300–500 grams, shall be injected with not more than two guinea pig doses subcutaneously at 7–10 day intervals. Each guinea pig dose shall be one-fifth of the dose recommended on the label for a calf.

(2) *Clostridium chauvoei* challenge material, available upon request from Veterinary Services, shall be used for challenge 7–14 days following the last injection of the product. Each of the eight vaccinates and each of five additional nonvaccinated guinea pigs for controls shall be injected with approximately 100 $LD_{50}$ of challenge material. The vaccinates and controls shall be observed for 3 days post-challenge and all deaths recorded.

(3) For a valid test, at least 80 percent of the controls shall die within the 3 day post-challenge observation period. If this requirement is met, the results of the potency test shall be evaluated according to the following table:

| Stage | Number of vaccinates | Cumulative number of vaccinates | Cumulative total number of deaths for a satisfactory test | Cumulative total number of deaths giving an unsatisfactory test |
|---|---|---|---|---|
| 1..... | 8 | 8 | 1 or less..... | 3 or more. |
| 2..... | 8 | 16 | 4 or less..... | 5 or more. |

The second stage shall be required only when exactly two animals die in the first stage. The second stage shall be conducted in a manner identical to the first stage.

**§ 113.92 Clostridium Hemolyticum Bacterin.**

Clostridium Hemolyticum Bacterin shall be produced from a culture of *Clostridium hemolyticum* which has been rendered sterile and nontoxic. Each serial of biological product containing *Clostridium hemolyticum* fraction shall be tested for purity, safety, potency, and formaldehyde content. A serial found unsatisfactory by any prescribed test shall not be released.

(a) *Purity test.* Final container samples of completed product from each serial and each subserial shall be tested for viable bacteria and fungi as provided in § 113.26.

(b) *Safety test.* Bulk or final container samples of completed product from each serial shall be tested for safety as provided in § 113.38.

(c) *Potency test.* Bulk or final container samples of completed product from each serial shall be tested for potency using the two-stage test provided in this paragraph.

(1) In the first stage, each of not less than eight guinea pigs, each weighing 300–500 grams, shall be injected with not more than two guinea pig doses subcutaneously at 7–10 day intervals. Each guinea pig dose shall be one-fifth of the dose recommended on the label for a calf.

(2) *Clostridium hemolyticum* challenge material, available upon request from Veterinary Services, shall be used for challenge 7–4 days following the last injection of the product. Each of the eight vaccinates and each of five additional nonvaccinated guinea pigs for controls shall be injected with approximately 100 $LD_{50}$ of challenge material. This dose shall be determined by statistical analysis of results of titrations of the challenge material. The vaccinates and controls shall be observed for 3 days post-challenge and all deaths recorded.

(3) For a valid test, at least 80 percent of the controls shall die within the 3 day post-challenge observation period. If this requirement is met, the results of the potency test shall be evaluated according to the following table:

| Stage | Number of vaccinates | Cumulative number of vaccinates | Cumulative total number of deaths for a satisfactory test | Cumulative total number of deaths giving an unsatisfactory test |
|---|---|---|---|---|
| 1..... | 8 | 8 | 1 or less..... | 3 or more. |
| 2..... | 8 | 16 | 4 or less..... | 5 or more. |

The second stage shall be required only when exactly two animals die in the first stage. The second stage shall be conducted in a manner identical to the first stage.

**§ 113.93 Clostridium Novyi Bacterin-Toxoid.**

Clostridium Novyi Bacterin-Toxoid shall be produced from a culture of *Clostridium novyi* which has been rendered sterile and nontoxic. Each serial of biological product containing *Clostridium novyi* fraction shall be tested for purity, safety, potency, and formaldehyde content. A serial found unsatisfactory by any prescribed test shall not be released.

(a) *Purity test.* Final container samples of completed product from each serial and each subserial shall be tested for viable bacteria and fungi as provided in § 113.26.

(b) *Safety test.* Bulk or final container samples of completed product from each serial shall be tested for safety as provided in § 113.38.

(c) *Potency test.* Bulk or final container samples of completed product from each serial shall be tested for potency using the two-stage test provided in this paragraph.

(1) In the first stage, each of not less than eight guinea pigs, each weighing 300–500 grams, shall be injected with not more than two guinea pig doses subcutaneously at 7–10 day intervals. Each guinea pig dose shall be one-fifth of the dose recommended on the label for a calf.

(2) *Clostridium novyi* challenge material, available upon request from Veterinary Services, shall be used for challenge 7–14 days following the last injection of the product. Each of the eight vaccinates and each of five additional nonvaccinated guinea pigs for controls shall be injected with approximately 100 $LD_{50}$ of challenge material. This dose shall be determined by statistical analysis of results of titrations of the challenge material. The vaccinates and controls shall be observed for 3 days post-challenge and all deaths recorded.

(3) For a valid test, at least 80 percent of the controls shall die within the 3 day post-challenge observation period. If this requirement is met, the results of the potency test shall be evaluated according to the following table:

| Stage | Number of vaccinates | Cumulative number of vaccinates | Cumulative total number of deaths for a satisfactory test | Cumulative total number of deaths giving an unsatisfactory test |
|---|---|---|---|---|
| 1..... | 8 | 8 | 1 or less..... | 3 or more. |
| 2..... | 8 | 16 | 4 or less..... | 5 or more. |

The second stage shall be required only when exactly two animals die in the first stage. The second stage shall be conducted in a manner identical to the first stage.

**§ 113.94 Clostridium Sordellii Bacterin-Toxoid.**

Clostridium Sordellii Bacterin-Toxoid shall be produced from a culture of *Clostridium sordellii* which has been rendered sterile and nontoxic. Each serial of biological product containing *Clostridium sordellii* fraction shall be tested for purity, safety, potency, and formaldehyde content. A serial found unsatisfactory by any prescribed test shall not be released.

(a) *Purity test.* Final container samples of completed product from each serial and each subserial shall be tested for viable bacteria and fungi as provided in § 113.26.

(b) *Safety test.* Bulk or final container samples of completed product from each serial shall be tested for safety as provided in § 113.38.

(c) *Potency test.* Bulk or final container samples of completed product from each serial shall be tested for potency using the following two-stage test provided in this paragraph.

(1) In the first stage, each of not less than eight guinea pigs, each weighing 300–500 grams, shall be injected with not more than two guinea pig doses subcutaneously at 7–10 day intervals. Each guinea pig dose shall be one-fifth of the dose recommended on the label for cattle.

(2) *Clostridium sordellii* challenge material, available upon request from Veterinary Services, shall be used for challenge 20–21 days after the first injection of the product. Each of the eight vaccinates and each of five additional nonvaccinated guinea pigs for controls shall be injected with approximately 100 $LD_{50}$ of challenge material. This dose shall be determined by statistical analysis of results of titrations of the challenge material. The vaccinates and controls shall be observed for 3 days post-challenge and all deaths recorded.

(3) For a valid test, at least 80 percent of the controls shall die within the 3 day post-challenge observation period. If this requirement is met, the results of the potency test shall be evaluated according to the following table:

| Stage | Number of vaccinates | Cumulative number of vaccinates | Cumulative total number of deaths for a satisfactory test | Cumulative total number of deaths giving an unsatisfactory test |
|---|---|---|---|---|
| 1..... | 8 | 8 | 1 or less..... | 3 or more. |
| 2..... | 8 | 16 | 4 or less..... | 5 or more. |

The second stage shall be required only when exactly two animals die in the first stage. The second stage shall be conducted in a manner identical to the first stage.

**§ 113.95 Clostridium Botulinum Type C Bacterin-Toxoid.**

Clostridium Botulinum Type C Bacterin-Toxoid shall be produced from a culture of *Clostridium botulinum Type C* which has been rendered sterile and nontoxic. Each serial of biological product containing *Clostridium botulinum Type C* fraction shall be tested for purity, safety, potency, and formaldehyde content. A serial found unsatisfactory by any prescribed test shall not be released.

(a) *Purity test.* Final container samples of completed product from each serial and each subserial shall be tested for viable bacteria and fungi as provided in § 113.26.

(b) *Safety test.* Bulk or final container samples of completed product from each serial shall be tested for safety as provided in § 113.39.

(c) *Potency test.* Bulk or final container samples of completed product from each serial shall be tested for potency, using susceptible mink as test animals. At least five vaccinates and three unvaccinated controls of approximately the same age and source shall be used.

(1) Each of the vaccinates shall be injected subcutaneously with the dose recommended on the label for mink. Twenty-one to twenty-eight days postinjection, the vaccinates and the controls shall be challenged orally with botulinum Type C toxin which has been titrated in mice to provide for a $10^{4.5}$ mouse $MLD_{50}$ dose. The titration technique shall include inoculation of the mice intraperitoneally.

(2) The vaccinates and controls shall be observed for 7 days post-challenge and signs of botulism and deaths noted. For a valid test, the controls shall die of botulism. If the test is valid and 80 percent of the vaccinates do not remain free of botulism, the serial is unsatisfactory.

**§ 113.96 Clostridium Perfringens Type C Toxoid and Bacterin-Toxoid.**

Clostridium Perfringens Type C Toxoid and Clostridium Perfringens Type C Bacterin-Toxoid shall be produced from a culture of *Clostridium Perfringens Type C* which have been rendered sterile

V 38-180 SEP 18 73 XUM

and nontoxic. Clostridium Perfringens Type C Toxoid shall be rendered free of bacteria. Each serial shall be tested for purity, safety, potency, and formaldehyde content. Any serial found unsatisfactory by a prescribed test shall not be released.

(a) *Purity test.* Final container samples of completed product from each serial and each subserial shall be tested for viable bacteria and fungi as provided in § 113.26.

(b) *Safety test.* Bulk or final container samples of completed product from each serial shall be tested for safety as provided in § 113.39.

(c) *Potency test.* Bulk or final container samples of completed product from each serial shall be tested for potency using the Beta toxin-neutralization test provided in this paragraph.

(1) When used in this test, the following words and terms shall mean:

(i) *International antitoxin unit.* (I.U.) That quantity of Beta Antitoxin which reacts with $L_0$ and $L_+$ doses of Standard Toxin according to their definitions.

(ii) *$L_+$ dose.* The largest quantity of toxin which can be mixed with one unit of Standard Antitoxin and not cause sickness or death in injected mice.

(iii) *$L_+$ dose.* The smallest quantity of toxin which can be mixed with one unit of Standard Antitoxin and cause death in at least 80 percent of injected mice.

(iv) *Standard antitoxin.* The Beta Antitoxin preparation which has been standardized as to antitoxin unitage on the basis of the International *Clostridium perfringens* Beta Antitoxin Standard and which is either supplied by or acceptable to Veterinary Services. The antitoxin unit value shall be stated on the label.

(v) *Standard toxin.* The Beta toxin preparation which is supplied by or is acceptable to Veterinary Services.

(vi) *Diluent.* The solution used to make proper dilutions prescribed in this test. Such solutions shall be made by dissolving 1 gram of peptone and 0.25 grams of sodium chloride in each 100 ml of distilled water; adjusting the pH to 7.2; autoclaving at 250° F for 25 minutes; and storing at 4° C until used.

(2) Each of at least eight rabbits, each weighing 4–8 pounds, shall be injected subcutaneously with not more than half of the recommended cattle dose. The dose for a combination product having both Type C and Type D fractions shall be half of the recommended cattle dose; *Provided,* That if the product is recommended only for sheep, half of the recommended sheep dose shall be used. A second dose shall be given not less than 20 days nor more than 23 days after the first dose.

(3) Fourteen to seventeen days after the second dose, all surviving rabbits shall be bled and the serum tested for antitoxin content.

(i) When eight or more rabbits are bled, equal quantities of serum from each shall be combined and tested as a single pooled serum.

(ii) When only five to seven rabbits are bled, the serum shall be individually tested.

(iii) If less than five rabbits are bled, the test is invalid and shall be repeated; *Provided,* That, if the test is not repeated, the serial shall be declared unsatisfactory.

(4) The antitoxin content of the rabbit serums shall be determined as follows:

(i) Make a dilution of Standard Antitoxin to contain 10 International Units of antitoxin per ml.

(ii) Make one dilution of Standard Toxin to contain 10 $L_+$ doses per ml and make a second dilution of Standard Toxin to contain 10 $L_+$ doses per ml.

(iii) Combine 10 International Units of Standard Antitoxin with 10 $L_+$ doses of diluted Standard Toxin and combine 10 International Units of Standard Antitoxin with 10 $L_+$ doses of diluted Standard Toxin.

(iv) Combine 1 ml of undiluted serum with 10 $L_+$ doses of diluted Standard Toxin.

(v) Neutralize all toxin-antitoxin mixtures at room temperature for 1 hour and hold in ice water until injections of mice can be made.

(vi) Five Swiss white mice, each weighing 16–20 grams, shall be used for each toxin-antitoxin mixture. A dose of 0.2 ml shall be injected intravenously into each mouse. Conclude the test 24 hours post-injection and record all deaths.

(5) Test Interpretation shall be as follows:

(i) If any mice inoculated with the mixture of 10 International Units of Standard Antitoxin and 10 $L_+$ doses of Standard Toxin die, the results of the test are inconclusive and shall be repeated; *Provided,* That, if the test is not repeated, the serial shall be declared unsatisfactory.

(ii) If less than 80 percent of the mice inoculated with mixture of 10 International Units of Standard Antitoxin and 10 $L_+$ doses of Standard Toxin die, the results of the test are inconclusive and shall be repeated; *Provided,* That, if the test is not repeated, the serial shall be declared unsatisfactory.

(iii) If any mice inoculated with the mixture of serum with 10 $L_+$ doses of Standard Toxin die, the serum is considered to contain less than 10 International Units per ml.

(iv) If less than 80 percent of individual serums from at least five to seven rabbits or if the single pooled serum from eight or more rabbits contain(s) less than 10 International Units per ml, the serial is unsatisfactory.

### § 113.97 Clostridium Perfringens Type D Toxoid and Bacterin-Toxoid.

Clostridium Perfringens Type D Toxoid and Clostridium Perfringens Type D Bacterin-Toxoid shall be produced from a culture of *Clostridium Perfringens Type D* which have been rendered sterile and nontoxic. Clostridium Perfringens Type D Toxoid shall be rendered free of bacteria. Each serial shall be tested for purity, safety, potency, and formaldehyde content. Any serial found unsatisfactory by a prescribed test shall not be released.

(a) *Purity test.* Final container samples of completed product from each serial and each subserial shall be tested for viable bacteria and fungi as provided in § 113.26.

(b) *Safety test.* Bulk or final container samples of completed product from each serial shall be tested for safety as provided in § 113.39.

(c) *Potency test.* Bulk or final container samples of completed product from each serial shall be tested for potency using the Epsilon toxin-neutralization test provided in this paragraph.

(1) When used in this test, the following words and terms shall mean:

(i) *International antitoxin unit.* (I.U.) That quantity of Epsilon Antitoxin which reacts with $L_0$ and $L_+$ doses of Standard Toxin according to their definitions.

(ii) *$L_0$ dose.* The largest quantity of toxin which can be mixed with one-tenth unit of Standard Antitoxin and not cause sickness or death in injected mice.

(iii) *$L_+$ dose.* The smallest quantity of toxin which can be mixed with one-tenth unit of Standard Antitoxin and cause death in at least 80 percent of injected mice.

(iv) *Standard antitoxin.* The Epsilon Antitoxin preparation which has been standardized as to antitoxin unitage on the basis of the International *Clostridium perfringens* Epsilon Antitoxin Standard and which is either supplied by or acceptable to Veterinary Services. The antitoxin unit value shall be stated on the label.

(v) *Standard toxin.* The Epsilon toxin preparation which is supplied by or is acceptable to Veterinary Services.

(vi) *Diluent.* The solution used to make proper dilutions prescribed in this test. Such solutions shall be made by dissolving 1 gram of peptone at 0.25 grams of sodium chloride in each 100 ml of distilled water; adjusting the pH to 7.2; autoclaving at 250° F for 25 minutes; and storing at 4° C until used.

(2) Each of at least eight rabbits, each weighing 4–8 pounds, shall be injected subcutaneously with not more than half of the recommended sheep dose. The dose for a combination product having both Type C and Type D fractions shall be half of the recommended cattle dose; *Provided,* That, if the product is recommended only for sheep, half of the recommended sheep dose shall be used. A second dose shall be given not less than 20 days nor more than 23 days after the first dose

(3) Fourteen to seventeen days after the second dose, all surviving rabbits shall be bled, and the serum tested for antitoxin content.

(i) When eight or more rabbits are bled, equal quantities of serum from each shall be combined and tested as a single pooled serum.

(ii) When only five to seven rabbits are bled, the serums shall be individually tested.

(iii) If less than five rabbits are bled, the test is invalid and shall be repeated; *Provided,* That, if the test is not repeated, the serial shall be declared unsatisfactory.

(4) The antitoxin content of the rabbit serums shall be determined as follows:

(i) Make a dilution of Standard Antitoxin to contain 1 International Unit of antitoxin per ml.

(ii) Make one dilution of Standard Toxin to contain 10 $L_0$ doses per ml and make a second dilution of Standard Toxin to contain 10 $L_+$ doses per ml.

(iii) Combine 1 International Unit of Standard Antitoxin with 10 $L_0$ doses of diluted Standard Toxin and Combine 1 International Unit of Standard Antitoxin with 10 $L_+$ doses of diluted Standard Toxin.

(iv) Dilute 1 ml of serum with 1 ml of dilute (1:2) and combine with 10 $L_0$ doses of diluted Standard Toxin.

(v) Neutralize all toxin-antitoxin mixtures at room temperature for 1 hour and hold in ice water until injections of mice can be made.

(vi) Five Swiss white mice, each weighing 16–20 grams, shall be used for each toxin-antitoxin mixture. A dose of 0.2 ml shall be injected intravenously into each mouse. Conclude the test 24 hours post-injection and record all deaths.

(5) Test Interpretation shall be as follows:

(i) If any mice inoculated with the mixture of 1 International Unit of Standard Antitoxin and 10 $L_0$ doses of Standard Toxin die, the results of the test are inconclusive and shall be repeated; *Provided,* That, if the test is not repeated, the serial shall be declared unsatisfactory.

(ii) If less than 80 percent of the mice inoculated with mixture of 1 International Unit of Standard Antitoxin and 10 $L_+$ doses of Standard Toxin die, the results of the test are inconclusive and shall be repeated; *Provided,* That, if the test is not repeated, the serial shall be declared unsatisfactory.

(iii) If any mice inoculated with the mixture of serum with 10 $L_0$ does of Standard Toxin die, the serum is considered to contain less than 2 International Units per ml.

(iv) If less than 80 percent of individual serums from at least five to seven rabbits or if the single pooled serum from eight or more rabbits contain(s) less than 2 International Units per ml. the serial is unsatisfactory.

### § 113.98 [Reserved]

### § 113.99 Tetanus Toxoid.

Tetanus Toxoid shall be produced from a culture of *Clostridium tetani* which has been rendered free of bacteria and subsequently detoxified. The toxoid may be either adsorbed, precipitated, or purified and concentrated. Each serial and subserial of biological product containing *tetanus toxoid* fraction shall be tested for purity, safety, potency, and formaldehyde content. A serial or subserial found unsatisfactory by any prescribed test shall not be released.

(a) *Purity test.* Final container samples of completed product from each serial and subserial shall be tested for viable bacteria and fungi as provided in § 113.26.

(b) *Safety test.* Bulk or final container samples of completed product from each serial shall be tested for safety as provided in § 113.38. Intraperitoneal injection shall be made.

(c) *Potency test.* Bulk or final container samples of completed product from each serial shall be tested for potency. Each of at least 10 guinea pigs, each weighing 500 grams±10 percent, shall be injected subcutaneously with 0.4 of the dose recommended on the label for a horse.

(1) Six weeks after injection, all surviving guinea pigs shall be bled, and equal portions of serum from each shall be pooled. Serum from not less than eight animals shall be used.

(2) The pooled serum shall contain at least two antitoxin units per ml as determined by titrating it in the manner prescribed for tetanus antitoxin in § 113.76. A 1:20 dilution of the pooled serum shall be made so that the final dilution contains 0.1 antitoxin unit per ml. The test dose of standard toxin shall be mixed in proper proportion with the diluted pooled serum, incubated at room temperature for 1 hour and inoculated subcutaneously into two guinea pigs.

(3) The test dose of the standard toxin shall be verified against 0.1 of a unit of standard antitoxin in two guinea pigs which serve as the control animals.

(4) If the control animals do not die of tetanus within 60–120 hours, the test is not valid and must be repeated. In a valid test, if the vaccinated animals do not survive as long as the control animals, the serial is unsatisfactory.

### § 113.100 Staphylococcus Aureus Toxoid.

Staphylococcus Aureus Toxoid shall be prepared from toxoided broth cultures of selected toxogenic strains of *Staphylococcus aureus.* Each serial of biological product containing *Staphylococcus aureus* fraction shall be tested for purity, safety, potency, and formaldehyde content. A serial found unsatisfactory by any prescribed test shall not be released.

(a) *Purity test.* Final container samples of completed product from each serial shall be tested for viable bacteria and fungi as provided in § 113.26.

(b) *Safety test.* Bulk or final container samples of completed product shall be tested for safety as provided in § 113.39. Also, the rabbits used in the potency test provided in paragraph (c) of this section shall constitute an additional safety test. If unfavorable reactions attributable to the product occur in any of the rabbits during the observation period, the serial is unsatisfactory.

(c) *Potency test.* Rabbits, each weighing 2000–3000 grams, shall be used as test animals. Either a five rabbit individual serum test or an eight rabbit pooled serum test shall be conducted. At the start of the test, individual serums from the five rabbits or pooled serums from the eight rabbits shall contain less than 0.2 alpha antitoxin units per ml.

(1) Each rabbit shall be given a series of not more than three intramuscular injections at 7 day intervals (1.0 ml, 2.0 ml, 3.0 ml) and observed from 7–14 days following the third injection. At the end of the observation period, a blood sample shall be taken from each rabbit.

(2) The sample of serum from each rabbit, if the five rabbit individual test is conducted or the pooled sample of serum from all the rabbits if the eight rabbit pooled serum test is conducted, shall be tested to determine the staphylococcus alpha antitoxin units per ml as provided in paragraph (c) (3), (4), (5), (6), (7), and (8) of this section.

(3) Inactivate rabbit serum 56° C for 30 minutes.

(4) Make serial twofold dilutions of the serum samples and conduct the test, usng 1 ml of the serial dilutions. Appropriate controls should be included for accurate interpretations.

(5) Add 1 ml of the standardized toxin containing the established "Lh" dose. The "Lh" dose is the amount of toxin which when mixed with one unit of standard antitoxin produces a 50 percent hemolysis of rabbit red blood cells.

(6) Incubate toxin-antitoxin mixture at room temperature for 30 minutes and add 1 ml of a 1.5 percent suspension of washed freshly drawn rabbit red blood cells suspended in normal saline to each tube. Mix and incubate the combined product in a 37° C water bath for 1 hour. Refrigerate at 5° C overnight.

(7) Read the hemolysis produced and establish the 50 percent end point. The 50 percent end point of hemolysis should be established by determining the size of the button produced by the unlysed red blood cells.

(8) Determine the units of antitoxin per 1 ml of serum.

(9) If the individual samples from four of the five rabbits in the individual serum test or the pooled samples from the eight rabbits in the pooled serum test do not contain three alpha antitoxin units per ml, the serial is unsatisfactory.

### § 113.101 General Requirements for Pasteurella Avicida Bacterin.

Pasteurella Avicida Bacterin shall be prepared from cultures of *Pasteurella multocida,* Avian Strains, Type 1 and Type 3 or both (Little and Lyons Classification) which have been rendered sterile and nontoxic; *Provided,* That, avian strains of types other than Types 1 and 3 may be added if written into the approved Outline of Production for the product.

(a) Each serial containing Type 1 strains shall be tested as provided in § 113.102 and each serial containing Type

V 381 80 SEP 18 73 XUM

3 strains shall be tested as provided in § 113.103. Serials containing Types 1 and 3 shall be tested as provided in § 113.102 and § 113.103.

(b) If avian strains of types other than Types 1 and 3 have been added, each serial shall also be tested for such strains as provided in the approved Outline of Production.

**§ 113.102 Pasteurella Avicida Bacterin, Type 1.**

Each serial of Pasteurella Avicida Bacterin containing Type 1 strains shall be tested as prescribed in this section. A serial found unsatisfactory by any prescribed test shall not be released.

(a) *Purity test.* Final container samples of completed product shall be tested for viable bacteria and fungi as provided in § 113.26.

(b) *Safety test.* Observation of the vaccinated chickens in the potency test provided in paragraph (c) of this section shall constitute a safety test. If unfavorable reactions attributable to the product occur in the chickens during the prechallenge period, the serial is unsatisfactory. If unfavorable reactions occur which are not attributable to the product, the test shall be declared inconclusive and repeated; *Provided*, That if the test is not repeated, the serial shall be declared unsatisfactory.

(c) *Potency test.* Bulk or final container samples of completed product shall be tested for potency of the Type 1 strain, using the two-stage test provided in this paragraph. Chickens, at least 12 weeks of age, obtained from the same source and hatch, shall be properly identified and used as provided in this paragraph.

(1) *Vaccinates.* Each of not more than 21 chickens shall be injected with the dose and by the route recommended on the label. A second dose shall be injected after 3 weeks and the chickens observed for an additional 2 week prechallenge period.

(2) *Positive controls.* Each of not more than 21 chickens shall be injected with two doses of a reference bacterin available from Veterinary Services upon request. The dose, route of administration, and time of injection shall be the same as the vaccinates.

(3) *Unvaccinated controls.* Each of not more than 21 chickens shall be held as controls.

(4) *Challenge.* Fourteen days after the second injection, each of 20 vaccinates, each of 20 positive controls, and each of 20 unvaccinated controls shall be challenged intramuscularly with a minimum of 250 colony-forming units of virulent *Pasteurella multocida*, Strain X–73, Type 1 (Little and Lyons Classification) and observed daily for a 14 day post-challenge period. Only dead birds shall be considered in evaluating the product.

(5) If nine or more positive controls die, the test may be declared inconclusive and repeated.

(6) If 16 or more unvaccinated controls die, the test is valid and stage one potency test results shall be evaluated according to stage one of the following table:

| Stage | Number of vaccinates | Cumulative number of vaccinates | Cumulative total number of dead vaccinates for satisfactory serial | Cumulative total number of dead vaccinates for unsatisfactory serial |
|---|---|---|---|---|
| 1 | 20 | 20 | 6 or less | 9 or more. |
| 2 | 20 | 40 | 15 or less | 16 or more. |

(7) The serial shall pass or fail based on the stage one results of the potency test; *Provided*, That, if seven or eight vaccinates die in the first stage, the second stage shall be required.

(8) The second stage shall be conducted in a manner identical to the first stage. The serial shall be evaluated according to stage two of the table. On the basis of accumulated results, a serial shall either pass or fail the second stage.

**§ 113.103 Pasteurella Avicida Bacterin, Type 3.**

Each serial of Pasteurella Avicida Bacterin containing Type 3 strains shall be tested as prescribed in this section. A serial found unsatisfactory by any prescribed test shall not be released.

(a) *Purity test.* Final container samples of completed product shall be tested for viable bacteria and fungi as provided in § 113.26.

(b) *Safety test.* Observation of the vaccinated turkeys in the potency test provided in paragraph (c) of this section shall constitute a safety test. If unfavorable reactions attributable to the product occur in the turkeys during the prechallenge period, the serial is unsatisfactory. If unfavorable reactions occur which are not attributable to the product, the test shall be declared inconclusive and repeated; *Provided*, That if the test is not repeated, the serial shall be declared unsatisfactory.

(c) *Potency test.* Bulk or final container samples of completed product shall be tested for potency of the Type 3 strain, using the two-stage test provided in this paragraph. Turkeys, at least 12 weeks of age, obtained from the same source and hatch, shall be properly identified and used as provided in this paragraph.

(1) *Vaccinates.* Each of not more than 21 turkeys shall be injected with the dose and by the route recommended on the label. A second dose shall be injected after 3 weeks and the turkeys observed for an additional 2 week prechallenge period.

(2) *Positive controls.* Each of not more than 21 turkeys shall be injected with two doses of a reference bacterin available from Veterinary Services upon request. The dose, route of administration, and time of injection shall be the same as the vaccinates.

(3) *Unvaccinated controls.* Each of not more than 21 turkeys shall be held as controls.

(4) *Challenge.* Fourteen days after the second injection, each of 20 vaccinates, each of 20 postitive controls, and each of 20 unvaccinated controls shall be challenged intramuscularly with a minimum of 150 colony-forming units of virulent *Pasteurella multocida*, Strain P–1059, Type 3 (Little and Lyons Classification) and observed daily for a 14 day post-challenge period. Only dead birds shall be considered in evaluating the product.

(5) If nine or more positive controls die, the test may be declared inconclusive and repeated.

(6) If 16 or more unvaccinated controls die, the test is valid and stage one potency test results shall be evaluated according to stage one of the following table:

| Stage | Number of vaccinates | Cumulative number of vaccinates | Cumulative total number of dead vaccinates for satisfactory serial | Cumulative total number of dead vaccinates for unsatisfactory serial |
|---|---|---|---|---|
| 1 | 20 | 20 | 6 or less | 9 or more. |
| 2 | 20 | 40 | 15 or less | 16 or more. |

(7) The serial shall pass or fail based on the stage one results of the potency test; *Provided*, That, if seven or eight vaccinates die in the first stage, the second stage shall be required.

(8) The second stage shall be conducted in a manner identical to the first stage. The serial shall be evaluated according to stage two of the table. On the basis of accumulated results, a serial shall either pass or fail the second stage.

**§ 113.104 Erysipelas Bacterin.**

Erysipelas Bacterin shall be produced from a culture of *Erysipelothrix insidiosa* which has been rendered sterile and nontoxic. Each serial of biological product containing erysipelas bacterin shall be tested for purity, safety, potency, and residual formaldehyde. A serial found unsatisfactory by any prescribed test shall not be released.

(a) *Purity test.* Final container samples of completed product from each serial and each subserial shall be tested for viable bacteria and fungi as provided in § 113.26.

(b) *Safety test.* Bulk or final container samples of completed product from each serial shall be tested for safety as provided in § 113.38, except the injections shall be made subcutaneously.

(c) *Potency tests.* Bulk or final container samples of completed product shall be tested by either the swine protection test provided in § 113.112 or the mouse protection test provided in this section. When the mouse protection test is conducted, the ability of the bacterin to be tested (Unknown) to protect mice shall be compared with a standard bacterin (Standard) which is either supplied by or is acceptable to Veterinary Services.

(1) Bacterins with a 2 ml recommended dose for swine shall be diluted 1:2.5 with physiological saline solution and tested the same as bacterin with a 5 ml recommended dose. At least three threefold dilutions shall be made with the Standard and comparable threefold

dilutions for the Unknown. The dilution series 1:30, 1:90, and 1:270 is suggested.

(2) For each dilution of the Standard and each dilution of the Unknown, a group of at least 16 mice, each weighing 16–20 grams, shall be used. Each mouse in a group shall be injected subcutaneously with 0.5 ml from the appropriate dilution.

(3) Each injected mouse shall be challenged subcutaneously 14–21 days after being injected with the diluted bacterin. A 0.5 ml dose containing 100 mouse $LD_{50}$ of a suitable culture of *Erysipelothrix insidiosa* shall be used. All survivors in each group of mice shall be recorded 10 days post-challenge.

(4) *Test for valid assay.* The same consecutive dilutions of the Standard and Unknown need not to be used in the test for valid assay, but the following requirements shall be met:

(i) At least two dilutions of the Standard and two dilutions of the Unknown shall protect more than 0 percent and less than 100 percent of the mice inoculated. The smallest dilution of the Standard shall protect more than 50 percent and the largest dilution less than 50 percent.

(ii) Subtract the numbers of surviving mice injected with the lower dilution, middle dilution, and higher dilution of the Unknown from the numbers of surviving mice injected with the corresponding dilutions of the Standard. Designate the differences as No. 1, No. 2, and No. 3.

(iii) Adjust difference No. 2 to zero by adding the proper figure using a plus or minus sign as needed. Add the same figure to Difference No. 1 and to Difference No. 3.

(iv) Consult this table to see if the results obtained are included.

| *Difference 1* | *Range of Difference 3* |
|---|---|
| −9 | −7 to −2 inclusive |
| −8 | −8 to 0 |
| −7 | −9 to +2 |
| −6 | −9 to +3 |
| −5 | −9 to +4 |
| −4 | −9 to +5 |
| −3 | −9 to +6 |
| −2 | −9 to +7 |
| −1 | −8 to +7 |
| 0 | −8 to +8 |
| 1 | −7 to +8 |
| 2 | −7 to +9 |
| 3 | −6 to +9 |
| 4 | −5 to +9 |
| 5 | −4 to +9 |
| 6 | −3 to +9 |
| 7 | −2 to +9 |
| 8 | 0 to +8 |
| 9 | 2 to +7 |

(v) If the results do not appear, the test is invalid. If the results do appear, the test is valid and the potency of the Unknown can be compared with the Standard.

(5) Using the same dilutions used to determine validity, obtain the total survivors of the Unknown and the total survivors of the Standard. If the total number of survivors for the Standard exceeds the total number of survivors for the Unknown by a number greater than six, the Unknown is unsatisfactory.

**§ 113.105–§ 113.109 [Reserved]**

LIVE BACTERIAL VACCINES

**§ 113.110 Brucella Abortus Vaccine.**

Brucella Abortus Vaccine shall be prepared as a desiccated live culture bacterial vaccine from smooth colonial forms of the *Brucella abortus* organism, identified as Strain 19. Each serial and subserial shall be tested for purity, potency, and moisture content. A serial or subserial found unsatisfactory by a prescribed test shall not be released.

(a) *Purity tests.* Each serial and subserial shall be tested for purity as provided in this paragraph.

(1) Macroscopic or microscopic examination shall be made on bulk samples from production containers. If organisms not typical of *Brucella abortus* organisms are evident, the serial or subserial is unsatisfactory.

(2) To meet the requirements prescribed in § 113.27(b), at least four single-dose or two multiple-dose final container samples of completed product shall be tested by inoculating one potato agar slant, one tube of Dextrose Andrades broth with gas tube (or equivalent) and one tube of thioglycollate broth from each sample.

(3) Bacterial dissociation test. Final container samples of completed product from each serial and subserial shall be tested for bacterial dissociation. Smooth colonies are the desired form. Rough colonies are undesirable terminal dissociation forms. Intermediate and intermediate-to-rough are also undesirable.

(i) The sample shall be rehydrated and streaked on one potato agar plate for each container in such a manner as to produce confluent colonies. Artificial reflected light shall be used so that the rays pass through the plate at a 45° angle.

(ii) If the vaccine contains more than 5 percent rough colonies or more than 15 percent total undesirable colonies, the serial or subserial is unsatisfactory. If organisms or growth not characteristic of *Brucella abortus* are found, the serial or subserial is unsatisfactory. The test may be repeated one time using double the number of samples; *Provided*, That, if the test is not repeated, the serial or subserial is unsatisfactory.

(b) *Potency test.* Each serial and each subserial shall be tested for potency.

(1) At least four single-dose or two multiple-dose final container samples of completed product shall be tested for the number of viable organisms per cubic centimeter of rehydrated vaccine. A bacterial count shall be made on tryptose agar plates using suitable dilutions and peptone water diluent.

(2) The desirable concentration shall be within the range of 10–20 billion viable *Brucella abortus* organisms per cubic centimeters of rehydrated vaccine to assure sufficient antigen throughout the dating period.

(i) If freshly prepared *Brucella abortus* vaccine contains less than 10 billion viable *Brucella abortus* organisms per cubic centimeter of rehydrated vaccine, the serial or subserial is unsatisfactory.

(ii) If tested at any time within the expiration period, each cubic centimeter of rehydrated vaccine does not contain 5 billion viable *Brucella abortus* organisms, the serial or subserial is unsatisfactory.

**§ 113.111 Anthrax Spore Vaccine—Nonencapsulated.**

Anthrax Spore Vaccine—Nonencapsulated shall be a live spore suspension prepared for nonencapsulated variants of *Bacillus anthracis* which has been proven to be immunogenic and relatively nonpathogenic. Each serial and subserial shall be tested for purity, safety, and potency. A serial or subserial found unsatisfactory by any prescribed test shall not be released.

(a) *Purity test.* Each serial or first subserial shall be tested for purity as provided in this paragraph to meet the requirements prescribed in § 113.27(b).

(1) Bulk samples of spore suspension or completed product shall be tested for microorganisms other than *Bacillus anthracis*. One ml shall be inoculated onto each of five plates of nutrient agar, incubated at 35–37° C and examined macroscopically and microscopically daily for 7 days. If growth not characteristic of *Bacillus anthracis* is detected, the serial or subserial is unsatisfactory.

(2) Each of five final container samples of completed product shall be tested as follows:

(i) One ml shall be inoculated into one tube of either thioglycollate or nutrient broth, incubated at 37° C for 7 days and examined for microorganisms other than *Bacillus anthracis*. If microorganisms other than *Bacillus anthracis* are detected, the serial or subserial is unsatisfactory.

(ii) One ml shall be inoculated into one vessel of Soybean Casein Digest Medium, incubated at 20–25° C for 14 days, and examined for fungi. If fungi are detected, the serial is unsatisfactory.

(3) Bacterial dissociation test. Vaccine from each bulk container shall be streaked onto the surface of two serum agar plates (50 percent bovine serum with nutrient agar) in such a manner so to produce isolated colonies over a major portion of the plates. The plates shall be incubated under an atmosphere of 30 percent $CO_2$ at 37° C and examined under a dissection-type microscope using obliquely transmitted light daily for at least 3 days. If the colonies are not of the rough opaque type, the serial is unsatisfactory. Questionable colonies shall be subcultured and the organisms inoculated into guinea pigs to check for undesirable reactions. If undesirable reactions occur, the serial is unsatisfactory.

(b) *Safety test.* The prechallenge period of the potency test provided in paragraph (c)(1) of this section constitutes a safety test. If 80 percent of the vaccinates survive the prechallenge period, the serial is satisfactory for safety; *Provided*, That

(1) If less than 80 percent of the vaccinates survive the prechallenge period, each of five young sheep or goats shall be inoculated subcutaneously with a total

V 38 1 80 SEP 18 73 XUM

of two cattle doses which may be fractionally administered in two sites and the animals observed for 14 days; and

(2) If any sheep or goat shows evidence of persistent or progressive edema (does not subside in 4 or 5 days) or does not survive the observation period, the serial or subserial is unsatisfactory.

(c) *Potency tests.* The spore count test and the vaccination challenge test provided in this paragraph shall be conducted on each serial and subserial.

(1) Sport count. Final container samples of completed product shall be diluted in tenfold steps. Each dilution that may be significant shall be plated in triplicate on nutrient or tryptose agar, inverted, and incubated at 35–37° C for 24–48 hours. The plates showing proper dispersion of colonies shall be counted and averaged. If the spore count average is less than 2,000,000 spores per bovine dose, the serial or subserial is unsatisfactory.

(2) Bulk or final container samples of completed product shall be tested for potency in healthy guinea pigs weighting 400–500 grams each.

(i) Each of at least 10 guinea pigs shall be vaccinated subcutaneously on the abdominal area with one-half the dose recommended for cattle and observed for 14 days. The vaccinated guinea pigs and six unvaccinated control guinea pigs shall be challenged with a suspension of anthrax spores virulent to guinea pigs and observed an additional 10 days.

(ii) If five of the six unvaccinated controls do not die during the 10 day post-challenge observation period, the test is inconclusive and may be repeated.

(iii) If at least five of the six unvaccinated controls die and less than 80 percent of the vaccinates remain well during the post-challenge observation period, the serial or subserial is unsatisfactory.

**§ 113.112 Erysipelas Vaccine.**

Erysipelas Vaccine shall be prepared as a desiccated live culture of an avirulent or modified strain of *Erysipelothrix insidiosa* which has been proven to be nonpathogenic and nontoxic. Each serial and subserial shall be tested for purity, safety, potency, and moisture content. A serial or subserial found unsatisfactory by any prescribed test shall not be released.

(a) *Purity test.* Bulk or final container samples of completed product from each serial shall be tested by colonial observation and gram stain of organisms plated on a suitable solid media to meet the requirements prescribed in § 113.27(b).

(b) *Safety test.* Final container samples of completed product from each serial and subserial shall be tested as provided in § 113.39. Injections shall be made subcutaneously.

(c) *Potency tests.* Final container samples of completed product from each serial and subserial shall be tested for potency as provided in this paragraph.

(1) A plate count shall be made to determine the number of viable *Erysipelothrix insidiosa* in each dose. Those serials or subserials which do not meet the requirements written into the licensee's approved Outline of Production are unsatisfactory.

(2) A swine protection test using susceptible pigs as test animals shall be conducted. Each of four pigs (vaccinates) shall be injected with one pig dose as recommended on the label. Four additional pigs shall be held as unvaccinated controls. Fourteen to twenty-one days post-vaccination, the vaccinates and the controls shall be challenged with a virulent *Erysipelothrix insidiosa* culture by the percutaneous, or intradermal, or intramuscular route and observed for 7 days. The test shall be interpreted in accordance with the criteria provided in paragraph (c) (2) (i), (ii), and (iii) of this section.

(i) A satisfactory challenge shall be evidenced in the controls by a bacteremia, a high body temperature, and clinical signs of sickness, including but not limited to acute illness with hyperemia of the abdomen and ears possibly terminating in suddent death; moribund and anorexia, with or without metastatic skin lesions; slowness with variable anorexia, stiffness, and/or joint involvement; and any combination of these symptoms and lesions.

(ii) If at least 75 percent of the controls do not show characteristic symptoms of swine erysipelas during the observation period, including but not limited to a body temperature of 105.6° F or higher on at least 2 days or 107° F or higher for at least 16 hours, the test shall be considered inconclusive; *Provided*, That control pigs which meet the criteria requirements for susceptibility except for high body temperature shall be considered susceptible if sacrificed and organisms identified as *Erysipelothrix insidiosa* can be isolated from the blood, spleen, or other organs.

(iii) To demonstrate immunity after challenge, the vaccinates shall remain free of lesions or symptoms or erysipelas and the body temperature shall not exceed 104.6° F for longer than 1 day. If at least 75 percent of the vaccinates do not demonstrate immunity to erysipelas throughout the observation period, the serial or subserial is unsatisfactory.

Interested parties are invited to submit written data, views, or arguments regarding the proposed regulations to Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250. All comments received on or before November 16, 1973, will be considered.

All written submissions made pursuant to this notice will be made available for public inspection at Biologics Staff, Veterinary Services, Animal and Plant Health Inspection Service, Room 828–A, Federal Center Building #1, Hyattsville, Maryland, at such times and places and in a manner convenient to the public business (7 CFR 1.27(b)).

Done at Washington, D.C., this 11th day of September 1973.

F. J. MULHERN,
*Administrator, Animal and Plant Health Inspection Service.*

## DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### Food and Drug Administration

### [ 21 CFR Part 273 ]

### LIMULUS AMEBOCYTE LYSATE

### Additional Standards

On January 12, 1973, the Commissioner of Food and Drugs published a notice in the FEDERAL REGISTER (38 FR 1404) informing all interested persons of the applicability of section 351 of the Public Health Service Act to the preparation Limulus Amebocyte Lysate. The Limulus preparation, prepared from the circulating blood cells (amebocytes) of the horseshoe crab (*Limulus polyphemus*), has been shown to be a sensitive indicator of the presence of bacterial endotoxins. Such a product can be employed as an *in vitro* test in detecting clinical endotoxemia and for the detection of bacterial endotoxins (pyrogens) in biological products and other drugs or fluids for parenteral administration to man. It is well known that the administration of fluids containing bacterial endotoxins can produce shock, fever and death. The Commissioner also announced in this notice that licenses for Limulus Amebocyte Lysate would not be issued until specific standards for safety, purity and potency were established.

Subsequently, the Commissioner published in the FEDERAL REGISTER of March 15, 1973 (38 FR 7096), a final order establishing a new part 167 containing labeling requirements and procedures for the development of standards for all *in vitro* diagnostic products for human use. Section 167.6 (21 CFR 167.6) of these regulations exempts an *in vitro* biological product from the requirements of section 505 of the Federal Food, Drug, and Cosmetic Act (which prohibits interstate shipment of a new drug without Food and Drug Administration approval) and section 351 of the Public Health Service Act (which prohibits the sale, barter, or exchange in interstate or foreign commerce or within the District of Columbia, of any such product without a license) if it meets all the requirements of Part 167, unless the Commissioner finds that additional requirements should be imposed pursuant to section 505 or 351 in order to protect the public health.

Endotoxemia is pathogenic to man. *In vitro* detection of clinical endotoxemia and detection of endotoxins in fluid to be administered parenterally to man are critical determinations. Since a Limulus preparation will be used in making these determinations, the degree of sensitivity

of the product is crucial. In addition, this Limulus test is very valuable in detecting pyrogens in radio-pharmaceuticals prepared by hospital pharmacies on a prescription basis. In view of these critical uses, the Commissioner has concluded that rigid production controls are necessary to give maximum assurance that this potent diagnostic product will prevent unexpected and harmful pyrogenic reactions in man. Therefore, the Commissioner finds that the public health requires that the product be marketed only under the strict regulatory controls of section 351 of the Public Health Service Act and section 505 of the Federal Food, Drug, and Cosmetic Act. Pursuant to § 130.3(g) (21 CFR 130.3), current investigation of these products requires a "Notice of Claimed Investigational Exemption for a New Drug" to be submitted to the Bureau of Biologics, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852. Such products may not be lawfully marketed until they are licensed pursuant to section 351 of the Public Health Service Act. Such licenses will not be issued until such time as sufficient information is submitted, as required by section 505 of the Federal Food, Drug, and Cosmetic Act, to ensure that the products do in fact perform effectively as an *in vitro* indicator of the presence of endotoxins.

In conjunction with the license requirement for this product, the Commissioner is publishing proposed additional standards for Limulus Amebocyte Lysate, to assure the safety, purity and potency of the licensed product.

Therefore, pursuant to provisions of the Public Health Service Act (sec. 351, 58 Stat. 702 as amended; 42 U.S.C. 262) and the Administrative Procedure Act (sec. 4, 10, 60 Stat. 238 and 243, as amended; 5 U.S.C. 553, 702, 703, 704) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes to amend Part 273 as follows:

1. In Subpart A, by alphabetically adding to the list of dating periods in § 273.870 the following product:

**§ 273.870 Dating periods for specific products.**

• • • • •

Limulus Amebocyte Lysate—Eighteen months.

• • • • •

2. In Subpart F by adding a new center heading and the following new sections:

LIMULUS AMEBOCYTE LYSATE

Sec.
273.5020 The product.
273.5021 Reference Endotoxin.
273.5022 Potency test.
273.5023 General requirements.
273.5024 Samples; protocols; official release.

LIMULUS AMEBOCYTE LYSATE

**§ 273.5020 The product.**

The proper name of this product shall be Limulus Amebocyte Lysate whch shall consist of a sterile, freeze-dried preparation derived from the blood of *Limulus polyphemus* and which is capable of detecting bacterial endotoxins.

**§ 273.5021 Reference Endotoxin.**

A Reference Endotoxin shall be obtained from the Bureau of Biologics Food and Drug Administration, 5600 Fishers Lane, BI–300, Rockville, MD 20852, and shall be used for determining the potency of Limulus Amebocyte Lysate.

**§ 273.5022 Potency test.**

Limulus Amebocyte Lysate shall not be issued unless filling is tested against the Reference Endotoxin and the potency shall be such as to produce a positive reaction with 0.1 nanogram of Reference Endotoxin and a negative reaction with 0.0125 nanogram of Reference Endotoxin. The assay shall be performed with consecutive two-fold dilutions from 0.2 nanograms to 0.00625 nanogram. The test shall be incubated at 37° C. for one hour in a tube with an inside diameter not greater than 10 millimeters. A positive test shall be one in which a solid gel, capable of holding when the tube is inverted, is formed within the one hour incubation period. The procedures for rehydrating and mixing the lysate for the potency test shall be those detailed in the manufacturer's package enclosure.

**§ 273.5023 General requirements.**

(a) *Processing.* The processing methods shall be those which have been shown to consistently yield a potent and detection-specific final product free of properties which would adversely affect the accuracy of the diagnostic test results when the Limulus Amebocyte Lysate is used by the methods recommended by the manufacturer in the package enclosure.

(b) *Ancillary reagents and materials.* All ancillary reagents and materials accompanying the product that are used in the performance of the test as described by the manufacturer's recommended test procedures, shall not affect the performance of the Limulus Amebocyte Lystate within the prescribed dating period. Each package of the Limulus Amebocyte Lysate shall include positive and negative control preparations that shall be used to establish the specificity and sensitivity of each test performed with the product.

(c) *Labeling.* In addition to the applicable information required by §§ 273.600, 273.601, and 273.602:

(1) Instructions on the package label and on the final container label, if of a size requiring a full label, shall include:

(i) A reference to the package enclosure for test method(s) to be employed when using Limulus Amebocyte Lysate;

(ii) A statement that the diluent used to rehydrate the lysate must be tested, without addition of the test material, in parallel with the test material;

(iii) A warning statement that the tubes of material on test should not be removed from incubation or disturbed prior to the time specified for reading the test.

(2) If the final container holds multiple tests, (i) the final container label shall include the statement "Reconstitution date: ------"; and, (ii) the final container label, the package label, and the package enclosure, shall include a statement indicating the period within which the product may be used after reconstitution, and the statement, "Store below 5° C".

(3) If the final container holds a single test, the package label and the package enclosure shall include a statement that the product shall not be rehydrated until immediately prior to use.

(d) *Final container.* Final containers shall be sterile, colorless, and transparent.

(e) *Test for residual moisture.* If the weight of the contents of each final container is less than 15 milligrams, the product is exempt from the general test for residual moisture required by § 273.740(a). However, throughout the dating period, the manufacturer of such exempt product shall perform the potency test described in § 273.5022 at four month intervals on representative samples from each filling. Upon the completion of each test, the results shall be submitted to the Director, Bureau of Biologics, Food and Drug Administration, 5600 Fishers Lane, BI–1, Rockville, MD 20852.

**§ 273.5024 Samples; protocols; official release.**

For each filling of the product:

(a) A sample, consisting of at least three complete market packages and not less than the equivalent of 0.5 milliliter of lysate packaged for distribution, including all ancillary reagents and materials, shall be submitted to the Director, Bureau of Biologics, Food and Drug Administration, Building 29A, 9000 Rockville Pike, Bethesda, MD 20014.

(b) A protocol, consisting of a complete summary of the history of manufacture of each filling, including all results of each test for which test results are required, shall be submitted to the Director, Bureau of Biologics, Food and Drug Administration, 5600 Fishers Lane, BI–1, Rockville, MD 20852. If the protocol is included in the shipment of the sample as specified in paragraph (a) of this section, it need not be mailed again as required by this section.

No filling of the finished Limulus Amebocyte Lysate shall be issued by the manufacturer until notification of official release of the filling is received from the Director, Bureau of Biologics, Food and Drug Administration.

Interested persons, may, on or before November 19, 1973, file with the Hearing Clerk, Food and Drug Administration, Rm. 6–86, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may

## Social Security Administration

### [ 20 CFR Part 405 ]

[Reg. 5]

### FEDERAL HEALTH INSURANCE FOR THE AGED

#### Supplementary Medical Insurance Enrollment

Notice is hereby given pursuant to the Administrative Procedure Act, as amended (5 U.S.C. 553) that the amendments to the regulations (20 CFR 405.214 and 405.226) set forth below in tentative form are proposed by the Acting Commissioner of Social Security with the approval of the Secretary of Health, Education, and Welfare. The proposed amendments implement section 260 of the Social Security Amendments of 1972 (P.L. 92-603) which eliminates the restrictions preventing enrollment in the supplementary medical insurance program more than 3 years after an individual's initial enrollment period, and preventing reenrollment more than 3 years after termination of a prior period of coverage; and section 259, which authorizes the Secretary to provide equitable relief where an individual's enrollment or nonenrollment was unintentional, inadvertent, or erroneous and was caused by administrative misrepresentation, inaction, or error.

Prior to the final adoption of the proposed regulations, consideration will be given to any comments, views, or objections relating thereto which are submitted in writing in triplicate to the Commissioner of Social Security, Department of Health, Education, and Welfare Building, Fourth and Independence Avenue SW., Washington, D.C. 20201, on or before October 18, 1973.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Public Affairs, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 4146, 330 Independence Avenue SW., Washington, D.C. 20201.

The proposed amendments are to be issued under the authority contained in sections 1102, 1837, 1871, 49 Stat. 647, as amended, 79 Stat. 331, as amended; 42 U.S.C. 1302, 1395 et seq.

(Catalog of Federal Domestic Assistance Program No. 13.801, Health Insurance for the Aged—Supplementary Medical Insurance.)

Dated July 31, 1973.

ARTHUR E. HESS,
*Acting Commissioner of Social Security.*

Approved September 12, 1973.

CASPAR W. WEINBERGER,
*Secretary of Health, Education, and Welfare.*

Subpart B of Regulations No. 5 of the Social Security Administration (20 CFR 405) is amended as follows:

1. Paragraphs (a) and (b) of § 405.214 are revised to read as follows:

**§ 405.214 Individual enrollment; limitation on enrollment and reenrollment.**

(a) *Delayed enrollment, or reenrollment, prior to October 30, 1972.* An individual who failed to enroll in the supplementary medical insurance plan during his initial enrollment period (see § 405.212) could enroll thereafter prior to October 30, 1972, only during a general enrollment period (see § 405.213) which began no later than 3 years after the close of his initial enrollment period. An individual whose enrollment had terminated (see § 405.223) could, subject to the provisions of paragraph (c) of this section, reenroll prior to October 30, 1972, only during a general enrollment period which began no later than 3 years after the last day of his prior period of coverage. An individual who did not enroll or reenroll during this 3-year period was precluded from enrollment.

*Example 1.* An individual first meets the eligibility requirements for entitlement in October 1968 but fails to enroll during his initial enrollment period—July 1968 through January 1969. Under the law applicable before October 30, 1972, he could later enroll only during the remaining 2 months of the general enrollment period then in progress, i.e., February and March 1969, or during one of the three general enrollment periods which began no later than 3 years after the close of his initial enrollment period, i.e., January through March of the calender years 1970, 1971, or 1972. He could not enroll after March 31, 1972, the close of the last general enrollment period which began no later than 3 years after the close of his initial enrollment period.

*Example 2.* An individual notified the Administration in writing during May 1969 that he no longer wished to participate in the supplementary medical insurance plan and, accordingly, his enrollment terminated on September 30, 1969. He could reenroll under the law applicable before October 30, 1972, only within the periods January through March of the calendar years 1970, 1971, or 1972, the three general enrollment periods which began no later than 3 years after the termination date of his prior enrollment.

(b) *Delayed enrollment or reenrollment after October 29, 1972.* Effective October 30, 1972, an individual who did not enroll during his initial enrollment period or whose enrollment has terminated may enroll or reenroll, thereafter, subject to the provisions of paragraph (c) of this section only during a general enrollment period (whether or not such general enrollment period begins within 3 years after the last day of his initial enrollment perior or of his prior period of coverage).

* * * * *

2. The following new section is added:

**§ 405.226 Equitable relief for individual whose enrollment rights have been prejudiced by government misrepresentation, inaction or error.**

Notwithstanding any other provision of this subpart or Subpart I of this Part, in any case where it is established that an individual's enrollment or nonenrollment in the supplementary medical insurance plan or in the hospital insurance plan pursuant to section 1818 of the Social Security Act, is unintentional, inadvertent, or erroneous and is the result of the error, misrepresentation or inaction of an officer, employee, or agent of the Federal Government or its instrumentalities, the Social Security Administration may provide equitable relief to correct or eliminate the effects of such prejudicial misrepresentation, inaction, or error. Such equitable relief may include, but is not limited to, designation of a special initial or subsequent enrollment period or coverage period, or adjustment in premiums, or any combination of these measures.

## DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

### Office of Assistant Secretary for Housing Production and Mortgage Credit

### [ 24 CFR Parts 205, 242, 244 ]

[Docket No. R-73-240]

### NATIONAL HOUSING MORTGAGE AND LOAN INSURANCE PROGRAMS

#### Waiver of Eligibility Requirements for Mortgage Insurance

The Department proposes to amend Parts 205, 242, and 244 to eliminate certain normally applicable eligibility requirements, particularly fees, relating to processing for mortgage insurance when the Secretary needs the added flexibility to dispose of property interests he holds. Such property interests are most commonly acquired by the Secretary as a result of defaults on project obligations related to various departmental programs of mortgage insurance.

Accordingly, pursuant to sections 211, 242, 1002, 1011, 1101, and 1104 of the National Housing Act, as amended (12 U.S.C. 1715b, 1715z-7, 1749bb, 1749jj, 1749aaa, 1749aaa-3), sec. 7(d) of the Department of Housing and Urban Development Act (42 U.S.C. 3535(d)), and the Secretary's delegation of authority (36 FR 5006, March 16, 1971) notice is hereby given that it is proposed to amend Parts 205 (Land Development, Title X), 242 (Hospitals), and 244 (Group Practice Facilities, Title XI) of the FHA regulations governing payment of fees and mortgage eligibility in respect to mortgage insurance for land development, hospitals, and group practice facilities.

All interested persons are invited to submit written comments or suggestions in triplicate with respect to this proposal by October 19, 1973. Such comments shall be addressed to the Rules Docket Clerk, Office of the General Counsel, Room 10256, Department of Housing and Urban Development, 451 Seventh Street, SW, Washington, D.C. 20410. All relevant material will be considered before adoption of a final rule. A copy of each communication will be available for public inspection during regular business hours at the above address.

Parts 205, 242 and 244 are each proposed to be amended by adding the following language to be inserted in the appropriate sequence of each Part by new sections numbered respectively § 205.138, § 242.88 and § 244.168.

### PART 205—MORTGAGE INSURANCE FOR LAND DEVELOPMENT (TITLE X)

In Part 205 a new § 205.138 is added as follows:

**§ 205.138 Waiver of Eligibility Requirements for Mortgage Insurance.**

The Secretary may insure under this part, without regard to any limitation upon eligibility contained in this subpart, any mortgage assigned to him in connection with payment under a contract of mortgage insurance, or executed in connection with a sale by him of any property acquired under any section or title of the Act.

### PART 242—MORTGAGE INSURANCE FOR HOSPITAL

In Part 242 a new § 242.88 is added as follows:

**§ 242.88 Waiver of Eligibility Requirements for Mortgage Insurance.**

The Secretary may insure under this part, without regard to any limitation upon eligibility contained in this subpart, any mortgage assigned to him in connection with payment under a contract of mortgage insurance, or executed in connection with a sale by him of any property acquired under any section or title of the Act.

### PART 244—MORTGAGE INSURANCE FOR GROUP PRACTICE FACILITIES (TITLE XI)

In Part 244 a new § 244.168 is added as follows:

**§ 244.168 Waiver of Eligibility Requirements for Mortgage Insurance.**

The Secretary may insure under this part, without regard to any limitation upon eligibility contained in this subpart, any mortgage assigned to him in connection with payment under a contract of mortgage insurance, or executed in connection with a sale by him of any property acquired under any section or title of the Act.

Issued at Washington, D.C., Sept. 12, 1973.

SHELDON B. LUBAR,
*Assistant Secretary for Housing Production and Mortgage Credit.*

## FEDERAL HOME LOAN BANK BOARD

[No. 73-1155]

### [ 12 CFR Part 545 ]

### FEDERAL SAVINGS AND LOAN SYSTEM

#### Service Corporation Joint Ventures; Withdrawal of Proposal

AUGUST 15, 1973.

Whereas, the Federal Home Loan Bank Board by Resolution No. 72-1375, dated November 22, 1972, and duly published in the FEDERAL REGISTER on December 16, 1972 (37 FR 26837) proposed to amend Part 545 of the Rules and Regulations for the Federal Savings and Loan System (12 CFR Part 545), as set out in said publication, for the purpose of limiting service corporation joint ventures to single undertakings or series of related undertakings of limited duration; and

Whereas, careful consideration has been given to such proposed amendment:

It is hereby resolved, That the Board determines not to adopt the amendment proposed by said Resolution No. 72-1375.

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943-48 Comp., p. 1071.)

By the Federal Home Loan Bank Board.

[SEAL] EUGENE M. HERRIN,
*Assistant Secretary.*

## SECURITIES AND EXCHANGE COMMISSION

### [ 17 CFR, Part 270 ]

[Release IC-7980, File No. S7-435]

### FIDELITY BONDS OF OFFICERS AND EMPLOYEES OF REGISTERED INVESTMENT COMPANIES

#### Supplemental Notice of Proposed Rulemaking

On April 5, 1972, the Securities and Exchange Commission published notice (Investment Company Act Release No. 7107) and in the FEDERAL REGISTER issue of April 22, 1972, 37 FR 7993 that it had under consideration the adoption of amendments to Rule 17g-1 [17 CFR 270.17g-1] under the Investment Company Act of 1940 ("Act") [15 U.S.C. 80a-1 et seq.] and invited all interested persons to submit their views and comments on the proposal. The Commission has considered all the comments and suggestions received and has substantially revised the proposed Rule. In view of the important nature of certain of these revisions, the Commission deems it appropriate to hereby give notice of the revision of the proposal to amend Rule 17g-1.

Section 17(g) of the Act [15 U.S.C. 80a-17(g)] authorizes the Commission to require by rules and regulations, for the protection of investors, that any officer and any employee of a registered management investment company be bonded by a reputable fidelity insurance company against larceny and embezzlement if such officer or employee has access, singly or jointly with others, to securities or funds of any registered investment company, either directly or through authority to draw upon such funds, or to direct generally the disposition of such securities.

Rule 17g-1, now in effect, in general, requires that there shall be fidelity bonds in such reasonable amount as a majority of the board of directors who are not covered persons may determine, subject to modification by the Commission as to the amount, type, form and coverage of such bonds. It also requires, among other things, that a copy of the bond be filed with the Commission, and that the investment company notify the Commission immediately upon cancellation or termination of such bond.

The amendment to the rule, as originally proposed, would, primarily, set forth minimum required amounts of coverage and permit a registered management investment company to be named as an insured in a single or joint insured bond. A single insured bond names the registered management investment company as the only insured. A joint insured bond, pursuant to the Rule, as originally proposed, could name as insured the investment company and one or more other parties, provided that such parties shall be limited to (i) persons engaged in the management or distribution of the shares of the registered management investment company, (ii) other registered management investment companies which are managed and/or whose shares are distributed by the same persons (or affiliates of such persons), or (iii) persons who are engaged in the management and/or distribution of shares of companies included in (ii) above. Reference is made to Investment Company Act Release No. 7107 for a more detailed discussion of the amendments to Rule 17g-1 proposed therein.

As a result of comments and suggestions received from interested persons, and after further consideration of the provisions of the proposed amendment to Rule 17g-1, the Commission has found it appropriate to revised the proposed amended Rule. Many of the revisions are intended to clarify certain provisions of the Rule and require no further discussion in this release. Certain other revisions, however, are more substantive in nature.

Paragraph (a) of the proposed rule has been revised to except from the definition of "covered persons" any officer or employee of the investment company who has access to its securities or funds solely through his position as an officer or employee of a bank. This exception appears in Section 17(g) of the

V 38-180 SEP 18 73 XUM

Act and, for clarification, has been added to the proposed Rule.

Paragraph (b) has been expanded to permit persons engaged in the administration of registered investment companies to be covered by a joint insured bond. Such persons may include any persons who perform services for the investment company or are involved in the distribution of its shares, including in-house service agents, depositors, sponsors and others. The Commission has also added a fourth category of perons who may be named in a joint insured bond together with an investment company. This category includes any trust, pension, profit-sharing or other benefit plan for employees of persons named in the bond. It should be emphasized that this provision is permissive and not mandatory. In this regard, the Commission has also added paragraph (j) to the proposed rule in order to remove any question as to the status of joint insured bonds and the participants therein under section 17(d) of the Act [15 U.S.C. 80a–17(d)] and Rule 17d–1 [17 CFR 270.17d–1] thereunder. Section 17(d) and Rule 17d–1(a), in pertinent part, prohibit any affiliated person of a registered investment company, or any affiliated person of such person, from participating in any joint transaction, enterprise or other arrangement in which such registered investment company is also a participant unless an application regarding such joint transaction, enterprise or other arrangement has been filed with, and approved by, the Commission. In view of the possibility that joint insured bonds may constitute joint arrangements as contemplated by section 17(d) and rule 17d–1(a), paragraph (j) has been added to the proposed Rule to exempt from the provisions of section 17(d) and the rules thereunder any joint insured bonding arrangement which complies with the provisions of the proposed Rule 17g–1.

The principal revisions in the proposed Rule 17g–1 appear in paragraph (c). Existing Rule 17g–1 provides, as here relevant, that the bond "shall provide that it shall not be cancelled, terminated or modified except after written notice shall have been given by the acting party to the affected party and to the Commission not less than 30 days prior to the effective date of cancellation, termination or modification." The existing rule, however, contemplates that an investment company would only be named as the sole insured in a single insured bond and, therefore, that such investment company would either send or receive all notices of cancellation or termination. The present rule does not specifically provide for the possibility that an investment company would maintain coverage as a party to a joint insured bond. Proposed new Rule 17g–1 essentially incorporated the existing provision into paragraph (c) and extended the notice to sixty days. However, under the present and proposed Rules, an investment company named in a joint insured bond would not receive notice of cancellation, termination or modification if it were not the acting party or the first named insured. Further, the provision in proposed paragraph (d) requiring, in effect, that each of the other named insureds under a joint insured bond shall notify the investment company of the filing and settlement of any claim under the bond by such other named insured, did not adequately protect jointly insured investment companies in the event that another named insured would fail to comply with this requirement. Therefore, in order to provide the protections for jointly insured investment companies which presently exist for solely insured investment companies, the Commission has revised proposed paragraph (c) to provide, generally, that a joint insured bond shall provide that the fidelity insurance company shall furnish to each named investment company under the bond: notice of cancellation, termination or modification of the bond; a copy of the bond and any amendment thereto; a copy of each formal filing of a claim under the bond by another named insured; and notification of the terms of the settlement of each such claim prior to the execution of such settlement.

Paragraph (d) and new paragraph (e) have been revised to emphasize that the factors to be considered by the directors of investment companies who are not "interested persons" thereof in deciding whether to approve a particular bond, or the premium to be paid therefor, are not limited to the factors specified in these paragraphs. The directors should consider all factors relevant to these matters in the course of their deliberations. With respect to the factors to be considered in approving the portion of the premium for a joint insured bond to be paid by an investment company, the board of directors of such company should make certain that the company shares in the economies resulting from the fact that more than one insured will be covered by the bond.

Paragraph (k) formerly designated as paragraph (h), has been revised to require compliance with the provisions of the amended Rule within six months of the effective date of the Rule, rather than three months as originally proposed.

*Commission action.* Accordingly, the Securities and Exchange Commission, pursuant to the authority granted to it in sections 6(c), 17(d), 17(g) and 38(a) of the Investment Company Act of 1940, hereby proposes to amend section 270.17g–1 of Chapter II of Title 17 of the Code of Federal Regulations by revising a previous proposal [37 FR 7993] as indicated below. As so revised § 270.17g–1 would read as follows:

**§ 270.17g–1 Bonding of officers and employees of registered management investment companies.**

(a) Each registered management investment company shall provide and maintain a bond which shall be issued by a reputable fidelity insurance company, authorized to do business in the place where the bond is issued, against larceny and embezzlement, covering each officer and employee of the investment company, who may singly, or jointly with others, have access to securities or funds of the investment company, either direct or through authority to draw upon such funds or to direct generally the disposition of such securities, unless the officer or employee has such access solely through his position as an officer or employee of a bank (hereinafter referred to as "covered persons").

(b) The bond may be in the form of (1) an individual bond for each covered person or a schedule or blanket bond covering such persons, (2) a blanket bond which names the registered management investment company as the only insured (hereinafter referred to as "single insured bond") or (3) a blanket bond which names the registered management investment company and one or more other parties as insureds (hereinafter referred to as a "joint insured bond"), such other insured parties being limited to (i) persons engaged in the management or distribution of the shares of the registered management investment company, (ii) other registered investment companies which are managed and/or whose shares are distributed by the same persons (or affiliates of such persons), (iii) persons who are engaged in the management and/or distribution of shares of companies included in paragraph (b)(3)(ii) of this section, (iv) affiliated persons of any registered management investment company named in the bond or of any person included in paragraph (b)(3)(i) or (b)(3)(iii) of this section who are engaged in the administration of any registered management investment company named as insured in the bond and (v) any trust, pension, profit-sharing or other benefit plan for employees of persons named in the bond.

(c) A bond of the type described in paragraph (b)(1) or (b)(2) of this section shall provide that it shall not be cancelled, terminated or modified except after written notice shall have been given by the acting party to the affected party and to the Commission not less than sixty days prior to the effective date of cancellation, termination or modification. A joint insured bond described in paragraph (b)(3) of this section shall provide that (1) it shall not be cancelled, terminated or modified except after written notice shall have been given by the acting party to the affected party, and by the fidelity insurance company to all registered investment companies named as insureds and to the Commission, not less sixty days prior to the effective date of cancellation, termination or modification and (2) the fidelity insurance company shall furnish each registered management investment company named as an insured with (i) a copy of the bond and any amendment thereto promptly after the execution thereof, (ii) a copy of each formal filing of a claim under the bond by any other named insured promptly after the receipt thereof, and (iii) notification of the terms of the settlement of each such claim not less than five days prior to the execution of the settlement.

(d) The bond shall be in such reasonable form and amount as a majority of the board of directors of the registered management investment company who are not "interested persons" of such investment company as defined by section 2(a)(19) of the Act [15 U.S.C. 80a–2(a)(19)] shall approve as often as their fiduciary duties require, but not less than once every twelve months, with due consideration to all relevant factors including, but not limited to, the value of the aggregate assets of the registered management investment company to which any covered person may have access, the type and terms of the arrangements made for the custody and safekeeping of such assets, and the nature of the securities in the company's portfolio; provided, however, that (1) the amount of a single insured bond shall be at least equal to an amount computed in accordance with the following schedule:

| Amount of registered management investment company gross assets—at the end of the most recent fiscal quarter prior to date of determination (in dollars): | *Minimum amount of bond (in dollars)* |
|---|---|
| Up to 500,000 | 50,000 |
| 500,000 to 1,000,000 | 75,000 |
| 1,000,000 to 2,500,000 | 100,000 |
| 2,500,000 to 5,000,000 | 125,000 |
| 5,000,000 to 7,500,000 | 150,000 |
| 7,500,000 to 10,000,000 | 175,000 |
| 10,000,000 to 15,000,000 | 200,000 |
| 15,000,000 to 20,000,000 | 225,000 |
| 20,000,000 to 25,000,000 | 250,000 |
| 25,000,000 to 35,000,000 | 300,000 |
| 35,000,000 to 50,000,000 | 350,000 |
| 50,000,000 to 75,000,000 | 400,000 |
| 75,000,000 to 100,000,000 | 450,000 |
| 100,000,000 to 150,000,000 | 525,000 |
| 150,000,000 to 250,000,000 | 600,000 |
| 250,000,000 to 500,000,000 | 750,000 |
| 500,000,000 to 750,000,000 | 900,000 |
| 750,000,000 to 1,000,000,000 | 1,000,000 |
| 1,000,000,000 to 1,500,000,000 | 1,250,000 |
| 1,500,000,000 to 2,000,000,000 | 1,500,000 |
| Over 2,000,000,000 | 1,500,000 plus 200,000 for each 500,000,000 of gross assets up to a maximum bond of 2,500,000 |

(2) A joint insured bond shall be in an amount at least equal to the sum of (i) the total amount of coverage which each registered management investment company named as an insured would have been required to provide and maintain individually pursuant to the schedule hereinabove had each such registered management investment company not been named under a joint insured bond, plus (ii) the amount of each bond which each named insured other than a registered management investment company would have been required to provide and maintain pursuant to federal statutes or regulations had it not been named as an insured under a joint insured bond.

(e) No premium may be paid for any joint insured bond or any amendment thereto unless a majority of the board of directors of each registered management investment company named as an insured therein who are not "interested persons" of such company shall approve the portion of the premium to be paid by such company, taking all relevant factors into consideration including, but not limited to, the number of the other parties named as insureds, the nature of the business activities of such other parties, the amount of the joint insured bond, and the amount of the premium for such bond, the ratable allocation of the premium among all parties named as insureds, and the extent to which the share of the premium allocated to the investment company is less than the premium such company would have had to pay if it had provided and maintained a single insured bond.

(f) Each registered management investment company named as an insured in a joint insured bond shall enter into an agreement with all of the other named insureds providing that in the event recovery is received under the bond as a result of a loss sustained by the registered management investment company and one or more other named insureds, the registered management investment company shall receive an equitable and proportionate share of the recovery, but at least equal to the amount which it would have received had it provided and maintained a single insured bond with the minimum coverage required by paragraph (d)(1) of this section.

(g) Each registered management investment company shall:

(1) File with the Commission (i) within 10 days after the execution of a bond of the type described in paragraphs (b)(1) or (b)(2) of this section, or any amendment thereof, (A) a copy of the bond, (B) a copy of the resolution of a majority of the board of directors who are not "interested persons" of the registered management investment company approving the form and amount of the bond, and (C) a statement as to the period for which premiums have been paid; (ii) within 10 days after the execution of a joint insured bond, or any amendment thereof, (A) a copy of the bond, (B) a copy of the resolution of a majority of the board of directors who are not "interested persons" of the registered management investment company approving the amount, type, form and coverage of the bond and the portion of the premium to be paid by such company, (C) a statement showing the amount of the single insured bond which the investment company would have provided and maintained had it not been named as an insured under a joint insured bond, (D) a statement as to the period for which premiums have been paid, and (E) a copy of each agreement between the investment company and all of the other named insureds entered into pursuant to paragraph (f) of this section; and (iii) a copy of any amendment to the agreement entered into pursuant to paragraph (f) of this section within 10 days after the execution of such amendment.

(2) File with the Commission, in writing, within five days after the making of any claim under the bond by the investment company, a statement of the nature and amount of the claim.

(3) File with the Commission, within five days of the receipt thereof, a copy of the terms of the settlement of any claim made under the bond by the investment company, and

(4) Notify by registered mail each member of the board of directors of the investment company at his last known residence address of (i) any cancellation, termination or modification of the bond, not less than forty-five days prior to the effective date of the cancellation or termination or modification, (ii) the filing and of the settlement of any claim under the bond by the investment company, at the time the filings required by paragraphs (g)(2) and (3) of this section are made with the Commission, and (iii) the filing and of the proposed terms of settlement of any claim under the bond by any other named insured, within five days of the receipt of a notice from the fidelity insurance company.

(h) Each registered management investment company shall designate an officer thereof who shall make the filings and give the notices required by paragraph (g) of this section.

(i) Where the registered management investment company is an unincorporated company managed by a depositor, trustee or investment adviser, the terms "officer" and "employee" shall include, for the purposes of this rule, the officers and employees of the depositor, trustee, or investment adviser.

(j) Any joint insured bond provided and maintained by a registered management investment company and one or more other parties shall be a transaction exempt from the provisions of section 17(d) of this Act and the rules thereunder, provided that the terms and provisions of such bond comply with the provisions of this rule, and further provided that the terms and provisions of any agreement required by paragraph (f) of this section comply with the provisions of that paragraph.

V 38-180 SEP 18 73 XUM

(k) Not later than six months from the effective date of this rule, arrangements between registered management investment companies and fidelity insurance companies and arrangements between registered management investment companies and other parties named as insureds under joint insured bonds which would not permit compliance with the provisions of this rule shall be modified by the parties so as to effect such compliance.

The amendments to Rule 17g–1 are proposed under the authority granted to the Commission by sections 6(c), 17(d), 17(g) and 38(a) of the Act.

All interested persons are invited to submit their written views and comments on the proposed amendment, as revised, to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, Washington, D.C. 20549, on or before October 17, 1973. All communications in this regard should refer to File No. S7–435, and will be available for public inspection.

(Secs. 6(c), 17(d), 17(g), 38(a); 54 Stat. 800, 815, 841 (15 U.S.C. 80a–6c, 80a–17(d), 80a–17(g), 80a–37(a)).)

By the Commission, September 7, 1973.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

# Notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

## DEPARTMENT OF THE TREASURY

### Bureau of Alcohol, Tobacco and Firearms

### GRANTING OF RELIEF

Notice is hereby given that pursuant to 18 U.S.C., section 925(c), the following named persons have been granted relief from disabilities imposed by Federal laws with respect to the acquisition, transfer, receipt, shipment, or possession of firearms incurred by reason of their convictions of crimes punishable by imprisonment for a term exceeding one year.

It has been established to my satisfaction that the circumstances regarding the convictions and each applicant's record and reputation are such that the applicants will not be likely to act in a manner dangerous to public safety, and that the granting of the relief will not be contrary to the public interest.

Boddington, David, 140–18 158th Street, Rochdale Queens, New York, convicted on October 4, 1937, in the Supreme Court, Kings County, New York.

Cottone, Vincent C., 545–B Greenleaf Road, Rochester, New York, convicted on February 9, 1954, in Monroe County Court, Rochester, New York.

Dundas, Nelson D., 2617 W. Earll Drive, Phoenix, Arizona, convicted on August 12, 1946, in the Park County District Court, Wyoming.

Fair, Edgar LeRoy, 213 W. Walnut Street, Butler, Pennsylvania, convicted on April 29, 1950, and on July 20, 1951, in the Court of Quarter Sessions of Butler County, Pennsylvania.

Pike, John Earl, Box 161, Pine Island, Minnesota, convicted on May 26, 1961, in the First District Court, Goodhue County, Red Wing, Minnesota.

Reed, Robert J., P.O. Box 177, Hollywood, Alabama, convicted on May 6, 1970, in the United States District Court for the Northern District of Alabama.

Reese, John Levi, 728 Waverly Drive, Arlington, Texas, convicted on March 11, 1952, in the 35th Criminal District Court of Brown County, Texas.

Turner, Roy, 898 Webb, Detroit, Michigan, convicted on November 16, 1956, in the Detroit Recorder's Court, Michigan.

Signed at Washington, D.C., this 7th day of September, 1973.

## DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### Center for Disease Control

### TUBERCULOSIS CONTROL ADVISORY COMMITTEE AND VENEREAL DISEASE CONTROL ADVISORY COMMITTEE

### Notice of Renewals

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Public Law 92–463, 86 Stat. 770–776), the Center for Disease Control announces the approval of renewals by the Secretary, DHEW, on June 30, 1973, with concurrence by the Office of Management and Budget Committee Management Secretariat, of the following public advisory committees.

*Designation.* Tuberculosis Control Advisory Committee.

*Purpose.* The Committee consults with and advises the Chief, Tuberculosis Branch, Bureau of State Services, Center for disease Control, on policies and programs in tuberculosis control.

*Designation.* Venereal Disease Control Advisory Committee.

*Purpose.* The Committee advises the Chief, Venereal Disease Branch, Bureau of State Services, Center for Disease Control, on means and methods of implementing its program in assisting states to carry on activities in the field of venereal disease control, and reviews program operations and suggests new areas of emphasis.

Authority for these committees will expire July 1, 1975, unless the Secretary, DHEW, with the concurrence by the Office of Management and Budget Committee Management Secretariat, formally determines that continuance is in the public interest.

Dated August 29, 1973.

DAVID J. SENCER, *Director, Center for Disease Control.*

### Food and Drug Administration

[DESI 607]

### AZURESIN WITH CAFFEINE AND SODIUM BENZOATE

### Follow-up Notice

In a notice (DESI 607) published in the FEDERAL REGISTER of October 14, 1971 (36 FR 19987), the Commissioner of Food and Drugs announced his conclusions pursuant to evaluation of a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group on Diagnex Blue containing azuresin granules with caffeine and sodium benzoate tablets; E. R. Squibb and Sons, Inc., Box 4000, Princeton, N.J. 08540 (NDA 10–764).

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application reviewed and are subject to this notice. See 21 CFR 130.40 (37 FR 23185, October 31, 1972). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD–300), 5600 Fishers Lane, Rockville, Maryland 20852.

The notice stated that the drug was regarded as possibly effective for the tubeless determination of the presence or absence of free hydrochloric acid in the stomach.

Based upon review of new data which demonstrate the safety and effectiveness of the drug for such use, the Commissioner concludes that the drug is effective for the previously possibly effective indication, as set forth in the Labeling conditions below.

Accordingly, the previous notice is amended to read as follows, insofar as it pertains to azuresin granules with caffeine and sodium benzoate tablets.

A. *Effectiveness classification.* The Food and Drug Administration has considered the Academy's report as well as other available evidence, and concludes that azuresin granules with caffeine and sodium benzoate tablets are effective for the tubeless determination of the presence or absence of free hydrochloric acid in the stomach.

V 38 I 180 S
SEP 18 73
XUM

B. *Conditions for approval and marketing.* The Food and Drug Administration is prepared to approve abbreviated new drug applications and abbreviated supplements to previously approved new drug applications under conditions described herein.

1. *Form of drug.* Azuresin diagnostic test consists of azuresin granules and caffeine and sodium benzoate tablets, suitable for oral administration.

2. *Labeling conditions.* (a). The label bears the statement, "Caution: Federal law prohibits dispensing without prescription."

(b) The drug is labeled to comply with all requirements of the Act and regulations and the labeling bears adequate information for safe and effective use of the drug. The indication, contraindications and warnings sections of the labeling are as follows:

INDICATION

Azuresin diagnostic test is designed for the tubeless determination of the presence or absence of free hydrochloric acid in the stomach.

CONTRAINDICATIONS

The test results may not be valid in the presence of pyloric obstruction, severe hepatic or renal disease, abnormalities that impair intestinal absorption, severe diarrhea, vomiting, marked dehydration, urinary bladder retention, partial or total gastrectomy, gastroenterostomy or pyloroplasty.

WARNINGS

The test cannot be used to demonstrate quantitative variations in the amount of free gastric hydrochloric acid known to occur clinically.

3. *Marketing status.* Marketing of such drugs may be continued under the conditions described in the notice entitled *"Conditions for Marketing New Drugs Evaluated in Drug Efficacy Study,"* published in the FEDERAL REGISTER July 14, 1970 (35 FR 11273), as follows:

a. For holders of "deemed approved" new drug applications (i.e., an application which became effective on the basis of safety prior to October 10, 1962), the submission of a supplement for revised labeling and an abbreviated supplement for updating information as described in paragraphs (a) (1) (i) and (iii) of the notice of July 14, 1970.

b. For any person who does not hold an approved or effective new drug application, the submission of an abbreviated new drug application as described in paragraph (a) (3) (i) of that notice.

c. For any distributor of the drug, the use of labeling in accord with this announcement for any such drug shipped within the jurisdiction of the Act as described in paragraph (b) of that notice.

Communications forwarded in response to this notice should be identified with the reference number DESI 607, directed to the attention of the appropriate office listed below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, Maryland 20852:

Supplements (Identify with NDA number): Office of Scientific Evaluation (BD-100), Bureau of Drugs.

Original abbreviated new drug applications (identify as such): Generic Drug Staff (BD-69), Office of Scientific Evaluation, Bureau of Drugs.

Requests for the Academy's report: Drug Efficacy Study Information Control (BD-66), Bureau of Drugs.

All other communications regarding this announcement: Drug Efficacy Study Implementation, Project Manager (BD-101), Bureau of Drugs.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–53, as amended; 21 U.S.C. 352, 355), and the Administrative Procedure Act (5 U.S.C. 554), and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated September 11, 1973.

SAM D. FINE,
*Associate Commissioner for Compliance.*

[FR Doc.73-19787 Filed 9-17-73;8:45 am]

[DESI 9489]

## CERTAIN DRUG CONTAINING TRIDIHEXETHYL CHLORIDE WITH PHENOBARBITAL

### Drugs for Human Use; Drug Efficacy Study Implementation

In the FEDERAL REGISTER of July 27, 1972 (37 FR 15026) (DESI 597), the Food and Drug Administration published conclusions regarding the effectiveness classification for certain drugs containing an anticholinergic with a barbiturate. The drug described below intended by the NDA holder for review by the Academy was not reviewed, and, thus, not included in that notice. The available evidence having been reviewed by the Food and Drug Administration, the Commissioner of Food and Drugs finds it appropriate to publish the findings concerning the drug.

Pathilon with Phenobarbital Tablets containing tridihexethyl chloride and phenobarbital; Lederle Laboratories Division, American Cyanamid Co., Pearl River, N.Y. 10965 (NDA 9-489).

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). The effectiveness classification and marketing status are described below.

A. *Effectiveness Classification.* The Food and Drug Administration has considered the evidence available and concludes that:

1. The drug lacks substantial evidence of effectiveness for gastritis.

2. It is less than effective (possibly effective) for its other labeled indications.

B. *Marketing status.* 1. Within 60 days of the date of publication of this announcement in the FEDERAL REGISTER, the holder of any approved new drug application for a drug classified in paragraph A. above as lacking substantial evidence of effectiveness shall submit a supplement to his application, as needed, to provide for revised labeling which deletes those indications for which substantial evidence of effectiveness is lacking as described in paragraph A.1. Such a supplement should be submitted under the provisions of § 130.9(d) and (e) of the new drug regulations (21 CFR 130.9(d) and (e)) which permit certain changes to be put into effect at the earliest possible time, and the revised labeling should be put into use within the 60-day period. Failure to do so will cause the product to be subject to a proposal to withdraw approval of the new drug application.

2. If any identical, similar, or related product is on the market without an approved new drug application, its labeling shall be revised to delete those claims for which substantial evidence of effectiveness is lacking as described in paragraph A.1. above. Failure to delete such indications and to put the revised labeling into use within 60 days after the date of publication hereof in the FEDERAL REGISTER will cause the product to be subject to regulatory proceedings.

C. *Submission of data.* Any data submitted in response to this notice to support indications for which the drug is classified as other than effective must be previously unsubmitted and include data from adequate and well-controlled clinical investigations (identified for ready review) as described in § 130.12 (a)(5) of the regulations published in the FEDERAL REGISTER of May 8, 1970 (35 FR 7250). Carefully conducted and documented clinical studies obtained under uncontrolled or partially controlled situations are not acceptable as a sole basis for approval of claims of effectiveness, but such studies may be considered on their merits for corroborative support of efficacy and evidence of safety.

Communications forwarded in response to this announcement should be identified with the reference number DESI 9489, directed to the attention of the appropriate office listed below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, Maryland 20852:

Supplements (identify with NDA number): Office of Scientific Evaluation (BD-100), Bureau of Drugs.

All other communications regarding this announcement: Drug Efficacy Study Implementation Project Office (BD-60), Bureau of Drugs.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application(s) reviewed and are subject to this notice. See 21 CFR 130.40 (37 FR 23185, October 31, 1972). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, Maryland 20852.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–53, as amended; (21 U.S.C. 352, 355)) and the Administrative Procedure Act (5 U.S.C. 554), and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated September 11, 1973.

## Office of the Secretary

### IMPLEMENTATION OF THE NATIONAL BLOOD POLICY

#### Notice of Public Meeting

Notice is hereby given that the public is invited to attend the Secretary's Conference on the Implementation of the National Blood Policy, Monday, September 24, 1973. The meeting is to be held on the sixth floor of "C" Wing, Building 31, National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20014. Vehicular parking will be available but attendees of the Conference should check with the NIH parking authorities for directions to the reserved parking area.

Attendees should plan to arrive at 9:00 a.m. for registration prior to commencement of the meeting at 9:30 a.m. Registration is intended to facilitate provision of additional information to interested parties.

The agenda for the Conference will be provided in advance of the meeting upon receipt of request by either mail or telephone. To facilitate the planning of the Conference it will be appreciated if those who believe they will attend the Conference will provide notice of same, by mail or by telephone, as soon as possible, to Dr. Ian Mitchell, Office of the Assistant Secretary for Health, Department of Health, Education, and Welfare, Room 4619, 330 Independence Avenue SW., Washington, D.C. 20201, telephone 202–962–6976. However, we seek the fullest possible participation by the public, whether or not attendees can provide prior notification.

IAN A. MITCHELL,
*Acting Director, Office of Special Health Projects, Office of the Assistant Secretary for Health.*

### NATIONAL PROFESSIONAL STANDARDS REVIEW COUNCIL SUBCOMMITTEE ON DATA AND NORMS

#### Notice of Meeting

The National Professional Standards Review Council Subcommittee on Data and Norms will meet on September 26–27, 1973. This Subcommittee was formed to review issues of importance in the implementation of Title XI, Part B, Social Security Act with respect to PSRO data and norms of care. The meeting will be held at the Rodeway Inn, Salt Lake City, Utah from 9 a.m. to 5 p.m. on September 26 and 9 a.m. to 3 p.m. on September 27. Professional standards review is the procedure to assure that the services for which payment may be made under the Social Security Act are medically necessary and conform to appropriate professional standards for the provision of quality care. The Subcommittee's agenda will consist of issues relating to uniform data and the coding of medical information. The meeting is open to the public.

Dated September 11, 1973.

WILLIAM I. BAUER,
*Executive Secretary, National Professional Standards Review Council.*

[FR Doc.73–19809 Filed 9–17–73;8:45 am]

### NATIONAL PROFESSIONAL STANDARDS REVIEW COUNCIL SUBCOMMITTEE ON POLICY DEVELOPMENT

#### Notice of Meeting

The National Professional Standards Review Council Subcommittee on Policy Development will meet on Saturday, October 6, 1973. This Subcommittee was formed to review policy issues of importance in the implementation of Title XI, Part B, Social Security Act. The meeting will be held at the Chicago Marriott Motor Hotel, 8535 W. Higgins Road, Chicago, Illinois, 9 a.m. to 3 p.m. Professional standards review is the procedure to assure that the services for which payment may be made under the Social Security Act are medically necessary and conform to appropriate professional standards for the provision of quality care. The Subcommittee's agenda will include timely policy issues. The meeting is open to the public.

Dated September 11, 1973.

WILLIAM I. BAUER,
*Executive Secretary, National Professional Standards Review Council.*

## DEPARTMENT OF TRANSPORTATION

### Coast Guard

[CGD 73–211N]

### BOATING SAFETY ADVISORY COUNCIL

#### Notice of Open Meeting

This is to give notice pursuant to the Federal Advisory Committee Act, section 10(a)(2) dated October 6, 1972, that the Boating Safety Advisory Council, U.S. Coast Guard will conduct an open meeting on Tuesday and Wednesday, October 30 and 31, 1973, in Room 3201, Buzzards Point Building, 2100 2nd Street SW., Washington, D.C. beginning at 9 a.m.

The Boating Safety Advisory Council is a 21-member Council authorized by Section 33 of the Federal Boat Safety Act of 1971. The Council must be consulted by the Coast Guard in establishing a need for formulating and prescribing regulations which establish minimum safety standards for boats and associated equipment. In addition, the Coast Guard is required to consult with the Council on any other major boat safety matters related to the Act.

The agenda for the October 30 and 31 meeting consists of the following:

Beginning at 9 a.m. on Tuesday, October 30, there will be a report on the status of proposed regulations followed by an update on the Standards Compliance and Defect Notification Programs; a briefing on the proposed Fuel and Electrical Standard; a boating education and promotion activities presentation; and a report on the Visual Distress Signals Study. Items of interest suggested by the membership will also be discussed.

Any member of the public who wishes to do so may file a written statement with the committee, before or after the meeting, or may present an oral statement with the advance approval of the Chairman.

Interested persons may request additional information concerning the October 30 and 31 meeting and other matters relating to the Boating Safety Advisory Council (pursuant to the Federal Advisory Committee Act, Section 10(b) dated October 6, 1972) from the Executive Director, Boating Safety Advisory Council, U.S. Coast Guard Headquarters (GBR/62) Washington, D.C. 20590 or by calling 202/426–4176.

Dated September 7, 1973.

JOHN F. THOMPSON,
*Chief, Office of Boating Safety.*

### EQUIPMENT, CONSTRUCTION, AND MATERIALS

#### Approval Notice

1. Certain laws and regulations (46 CFR Chapter I) require that various items of lifesaving, firefighting and miscellaneous equipment, construction, and materials used on board vessels subject to Coast Guard inspection, on certain motorboats and other recreational vessels, and on the artificial islands and fixed structures on the outer Continental Shelf be of types approved by the Commandant, U.S. Coast Guard. The purpose of this document is to notify all interested persons that certain approvals have been granted as herein described during the period from April 25, 1973 to June 4, 1973 (List No. 14–73). These actions were taken in accordance with the procedures set forth in 46 CFR 2.75–1 to 2.75–50.

2. The statutory authority for equipment, construction, and material approvals is generally set forth in sections 367, 375, 390b, 416, 481, 489, 526p, and 1333 of Title 46, United States Code, section 1333 of Title 43, United States Code, and section 198 of Title 50, United States Code. The Secretary of Transportation has delegated authority to the Commandant, U.S. Coast Guard with respect to these approvals (49 CFR 1.46(b)). The specifications prescribed by the Commandant, U.S. Coast Guard are set forth in 46 CFR Parts 160 to 164.

3. The approvals listed in this document shall be in effect for a period of 5 years from the date of issuance, unless sooner cancelled or suspended by proper authority.

LADDERS, EMBARKATION-DEBARKATION (FLEXIBLE), FOR MERCHANT VESSELS

Approval No. 160.017/46/0, Type I, embarkation-debarkation ladder, rope suspension, wooden ears and rungs, Sea Jay Type I Pilot Ladder, identified by dwg. Nos. CJH/PL/T1 and CJH/PL/F, dated April 18, 1972, this ladder has an optional fender section using molded rubber steps, in accordance with dwg. No. CJH/PL/F, manufactured by C. J. Hendry Company, 139 Townsend Street, San Francisco, California 94107, effective May 25, 1973.

LIFEBOATS

Approval No. 160.035/428/1, 24.0′ x 8.0′ x 3.58′ fibrous glass reinforced plastic (FRP) motor-propelled Class 1, lifeboat, 37-person capacity identified by construction and arrangement dwg. No. WBA–9029 Rev. "B" dated February 13, 1973, 46 CFR 160.035–13(c) Marking. Weights: Condition "A"=3,690 pounds; Condition "B"=10,637 pounds, manufactured by Welin Davit and Boat Division, Lake Shore, Inc., 3614 Kennedy Road, South Plainfield, New Jersey 07080, effective June 4, 1973. (It reinstates and supersedes Approval No. 160.035/428/0 terminated February 16, 1967.)

PRESSURE VACUUM RELIEF VALVES AND SPILL VALVES FOR TANK VESSELS

Approval No. 162.017/47/1, figure No. 37 duplex pressure vacuum relief valve, enclosed pattern, without unloader, weight-loaded poppets, all bronze construction, dwg. No. C–495–D, revision D dated April 16, 1953, approved for 4" tank connection and 6" victaulic vent header connection (4" x 6"), manufactured by Varec, Inc., 2820 North Alameda Street, P.O. Box 4429, Compton, California 90223, effective May 21, 1973. (It is an extension of Approval No. 162.017/47/1 dated June 6, 1968.)

Approval No. 162.017/48/1, figure No. 37A duplex pressure vacuum relief valve, enclosed pattern fitted with vacuum valve unloader, weight-loaded poppets, all bronze construction, dwg. No. C–495–D, revision D dated April 16, 1953, approved for 4" tank connection and 6" victaulic vent header connection (4" x 6"), manufactured by Varec, Inc., 2820 North Alameda Street, P.O. Box 4429, Compton, California 90223, effective May 21, 1973. (It is an extension of Approval No. 162.017/48/1 dated June 6, 1968.)

Approval No. 162.017/49/1, figure No. 37B duplex pressure vacuum relief valve, enclosed pattern, fitted with pressure valve unloader, weight-loaded poppets, all bronze construction, dwg. No. C–495–D, revision D dated April 16, 1953, approved for 4" tank connection and 6" victaulic vent header connection (4" x 6"), manufactured by Varec, Inc., 2820 North Alameda Street, Compton, California 90223, effective May 21, 1973. (It is an extension of Approval No. 162.017/49/1 dated June 6, 1968.)

Approval No. 162.017/50/1, figure No. 73 pressure only relief and spill valve, atmospheric pattern, flanged connection, weight-loaded poppet, all bronze construction, dwg. No. C–503–C, revision C dated October 2, 1952, approved for 3" and 6" pipe sizes, manufactured by Varec, Inc., 2820 North Alameda Street, P.O. Box 4429, Compton, California 90223, effective May 21, 1973. (It is an extension of Approval No. 162.017/50/1 dated June 6, 1968.)

Approval No. 162.017/51/1, figure No. 73A, pressure only relief and spill valve, atmospheric pattern, screwed connection, weight-loaded poppet, all bronze construction, dwg. No. C–503–C, revision C dated October 2, 1952, approved for 3" and 6" pipe sizes, manufactured by Varec, Inc., 2820 North Alameda Street, P.O. Box 4429, Compton, California 90223, effective May 21, 1973. (It is an extension of Approval No. 162.017/51/1 dated June 6, 1968.)

Approval No. 162.017/71/0, figure No. 732 pressure vacuum relief valve, atmospheric pattern, screwed connection, weight-loaded poppets, all bronze construction, dwg. No. C–1809 dated April 2, 1952, approved for 2½", 3", and 4" pipe sizes, manufactured by Varec, Inc., 2820 North Alameda Street, P.O. Box 4429, Compton, California 90223, effective May 21, 1973. (It is an extension of Approval No. 162.017/71/0 dated June 6, 1968.)

Approval No. 162.017/72/0, figure No. 734 pressure vacuum relief valve, enclosed pattern, without unloader, weight-loaded poppets, all bronze construction, dwg. No. C–1801–A, revision A dated May 13, 1952, approved for 4" pipe size, manufactured by Varec, Inc., 2820 North Alameda Street, P.O. Box 4429, Compton, California 90223, effective May 21, 1973. (It is an extension of Approval No. 162.017/72/0 dated June 11, 1968.)

Approval No. 162.017/73/0, figure No. 734A pressure vacuum relief valve, enclosed pattern, fitted with vacuum valve unloader, weight-loaded poppets, all bronze construction, dwg. No. C–1807–A, revision A dated May 13, 1952, approved for 4" pipe, manufactured by Varec, Inc., 2820 North Alameda Street, P.O. Box 4429, Compton, California 90223, effective May 21, 1973. (It is an extension of Approval No. 162.017/73/0 dated June 11, 1968.)

Approval No. 162.017/74/0, figure No. 734B pressure vacuum relief valve, enclosed pattern, fitted with pressure valve unloader, weight-loaded poppets, all bronze construction, dwg. No. C–1808–A, revision A dated May 13, 1952, approved for 4" pipe size, manufactured by Varec, Inc., 2820 North Alameda Street, P.O. Box 4429, Compton, California 90223, effective May 21, 1973. (It is an extension of Approval No. 162.017/74/0 dated June 11, 1968.)

Approval No. 162.017/75/1, figure No. 735 pressure vacuum relief valve, atmospheric pattern, flanged inlet, weight-loaded poppets, all bronze construction, dwg. No. C–1810, dated April 3, 1952, approved for 2½", 3" and 4" pipe sizes, manufactured by Varec, Inc., 2820 North Alameda Street, P.O. Box 4429, Compton, California 90223, effective May 21, 1973. (It is an extension of Approval No. 162.017/75/1 dated June 11, 1968.)

Approval No. 162.017/76/2, figure No. 735A pressure vacuum relief valve, atmospheric pattern, screwed connection, weight-loaded poppets, all bronze construction, dwg. No. C–1810 dated April 3, 1952, approved for 2½", 3" and 4" pipe sizes, manufactured by Varec, Inc., 2820 North Alameda Street, P.O. Box 4429, Compton, California 90223, effective May 21, 1973. (It supersedes Approval No. 162.017/76/1 dated June 11, 1968 to show approval of 3" size.)

Approval No. 162.017/102/0, figure 360G Vacuum Relief Valve, weight-loaded poppet, ASTM A–351 Grade CF–8 Stainless Steel, is approved for use as a Vacuum Relief Valve only (4" size), manufactured by Varec, Inc., 301 East Alondra Boulevard, Gardena, California 90247, effective May 22, 1973. (It supersedes Approval No. 162.017/102/0 dated May 23, 1968.)

Approval No. 162.017/114/0, 4" pressure only relief valve, Model No. X94030–04–01/SPR 9403–3 body material, ASTM B–62 bronze, stainless steel trim, lead weight loaded pallet, maximum pressure 2 5 p.s.i.g., capacities as shown on dwg. No. 9403–00450, Rev. B, also approved for use in inerted spaces aboard Todd Houston, Hull 587 (Massachusetts), (see GMMT–2 letter of 4–4–73), manufactured by GPE Controls, Inc., 6511 Oakton Street, Morton Grove, Illinois 60053, effective April 25, 1973.

INCOMBUSTIBLE MATERIALS FOR MERCHANT VESSELS

Approval No. 164.009/169/0, U.S. Gypsum's "Thermafiber Number 10 Granulated Wool" identical to that described in U.S. Gypsum's letter dated May 10, 1973, manufactured by United States Gypsum Company, 1000 East Northwest Highway, Des Plaines, Illinois 60016, plant locations: Wabash, Indiana; Torrance, California; Corsicana, Texas; South Plainfield, New Jersey, effective June 1, 1973.

Dated September 11, 1973.

D. H. CLIFTON,
*Captain, U.S. Coast Guard, Acting Chief, Office of Merchant Marine Safety.*

## EQUIPMENT, CONSTRUCTION, AND MATERIALS

### Termination of Approval Notice

1. Certain laws and regulations (46 CFR Chapter I) require that various items of lifesaving, firefighting and miscellaneous equipment, construction, and materials used on board vessels subject to Coast Guard inspection, on certain motorboats and other recreational vessels, and on the artificial islands and fixed structures on the outer Continental Shelf be of types approved by the Commandant, U.S. Coast Guard. The purpose of this document is to notify all interested persons that certain approvals have been terminated as herein described during the period from May 25, 1973 to June 18, 1973 (List No. 15–73). These actions were taken in accordance with the procedures set forth in 46 CFR 2.75–1 to 2.75–50.

2. The statutory authority for equipment, construction, and material approvals is generally set forth in sections 367, 375, 390b, 416, 481, 489, 526p, and 1333 of Title 46, United States Code, section 1333 of Title 43, United States Code, and section 198 of Title 50, United States Code. The Secretary of Transportation has delegated authority to the Commandant, U.S. Coast Guard with respect to these approvals (49 CFR 1.46(b)). The specifications prescribed by the Commandant, U.S. Coast Guard for certain types of equipment, construction, and materials are set forth in 46 CFR Parts 160 to 164.

3. Notwithstanding the termination of approval listed in this document, the equipment affected may be used as long as it remains in good and serviceable condition.

LADDERS, EMBARKATION — DEBARKATION (FLEXIBILE), FOR MERCHANT VESSELS

The Maryatt, Lane & Company, Inc. And it's Division, Great Bend Manufacturing Corporation, 234 Godwin Avenue, Paterson, New Jersey 07501, Approval No. 160.017/11/2 expired and was terminated effective June 18, 1973.

LIFEBOATS

The Whittaker Corporation, 5159 Baltimore Drive, La Mesa, California 92042, no longer manufactures certain lifeboats and Approval No. 160.035/454/0 was therefore terminated effective June 15, 1973.

The Lane Lifeboat & Davit Corporation, 150 Sullivan Street, Brooklyn, New York 11231, Approval No. 160.035/456/0 expired and was terminated effective June 18, 1973.

BUOYANT CUSHIONS, KAPOK, OR FIBEROUS GLASS

The Outdoor Supply Company, Inc., Oxford, North Carolina 27565, no longer manufactures certain kapok bouyant cushions for J. C. Penney Company, Inc., 1301 Avenue of the Americas, New York, New York 10019 and Approval No. 160.048 255/0 was therefore terminated effective May 25, 1973.

BUOYS, LIFE, RING, UNICELLULAR PLASTIC

The Outdoor Supply Company, Inc., 8 Industry Drive, Oxford, North Carolina 27565, no longer manufactures certain unicellular plastic ring life buoys and Approval Nos. 160.050/65/0, 160.050/66/0 and 160.050/67/0 were therefore terminated effective June 18, 1973.

The Outdoor Supply Company, Inc., 8 Industry Drive, Oxford, North Carolina 27565, no longer manufactures certain unicellular plastic ring life buoys for Campco Ventures, Inc., P.O. Box 49, 1891 Woolner Avenue, Fairfield, California 94533 and Approval Nos. 160.050/68/0, 160.050/69/0 and 160.050/70/0 were therefore terminated effective June 18, 1973.

Dated September 11, 1973.

D. H. CLIFTON,
*Captain, U.S. Coast Guard, Acting Chief, Office of Merchant Marine Safety.*

3. The approvals listed in this document shall be in effect for a period of 5 years from the date of issuance, unless sooner cancelled or suspended by proper authority.

SIGNALS, DISTRESS, HAND RED FLARE, FOR MERCHANT VESSELS

Approval No. 160.021/15/0, Bristol Marine hand red flare distress signal, 500 candlepower, 2 minutes burning time, dwg. No. 506, revised May 14, 1958, manufactured by Bristol Flare Corporation, P.O. Box 540, State Road, Bristol, Pennsylvania 19007, for Dolphin Paint & Chemical Company, 922 Locust Street, Toledo, Ohio 43403, effective June 26 1973.

LIFEBOATS

Approval No. 160.035/439/5, 12.0', x 4.42' x 1.75' oar-propelled F.R.P. lifeboat, 4-person capacity, identified by construction and arrangement drawing 12–5, Rev. C dated March 23, 1970, alternate arrangement identified by general arrangement drawing No. 12–5–SL, Rev. B dated May 25, 1973, 46 CFR 160.035–13(c) Marking, Weights: Condition "A"=319 pounds; Condition "B"=1,071 pounds, approved for use on vessels in bays, sounds, and lakes; and river service, if mechanical disengaging apparatus is fitted, it shall be of an approved type and installed in accordance with drawings approved by the Commandant, approved for 6-person capacity as replacement lifeboat, manfactured by Marine Safety Equipment Corporation, Foot of Wycoff Road, Farmingdale, New Jersey 07727, effective June 21, 1973. (It supersedes Approval No. 160.035/439/4 dated March 31, 1970 to show alternate construction.)

SIGNALS, DISTRESS, HAND, ORANGE SMOKE FOR MERCHANT VESSELS

Approval No. 160.037/10/0, Bristol Marine hand held orange smoke signal, Bristol dwg. No. 600, revised June 2, 1958, manufactured by Bristol Flare Corporation, P.O. Box 540, State Road, Bristol, Pennsylvania 19007, for Dolphin Paint & Chemical Company, 922 Locust Street, Toledo, Ohio 43603, effective June 26, 1973.

SPECIAL PURPOSE WATER SAFETY BUOYANT DEVICES

Approval No. 160.064/25/1, Model No. 8404, vinyl dipped unicellular plastic foam "Man Overboard Buoy", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL report file No. MQ 7, manufactured by Atlantic-Pacific Manufacturing Corporation, 124 Atlantic Avenue, Brooklyn, New York 11201, effective June 19, 1973. (It supersedes Approval No. 160.064/25/0 dated June 22, 1972.)

Approval No. 160.064/394/0, adult S/M, Model No. 100D, cloth covered unicellular plastic foam "Sailor's Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective June 19, 1973. (It supersedes Approval No. 160.064/394/0 dated December 7, 1972 to show modification of intended use.)

Approval No. 160.064/396/0, adult L/XL, Model No. 100F, cloth covered unicellular plastic foam "Sailor's Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective June 19, 1973. (It supersedes Approval No. 160.064/396/0 dated December 7, 1972 to show modification of intended use.)

Approval No. 160.064/424/0, adult S/M, Model No. 100DM, vinyl dipped unicellular plastic foam "Sailor's Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 32, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, for Mermatec, Inc., 11525 Sorrento Valley Road, San Diego, California 92121 effective June 19, 1973. (It supersedes Approval No. 160.064/424/0 dated December 22, 1972 to show modification of intended use.)

Approval No. 160.064/425/0, adult L/XL, Model 100FM, vinyl dipped unicellular plastic foam "Sailor's Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 32, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, for Mermatec, Inc., 11525 Sorrento Valley Road, San Diego, California 92121 effective June 19, 1973. (It supersedes Approval No. 160.064/425/0 dated December, 22, 1972 to show modification of intended use.)

Approval No. 160.064/477/0, adult medium, Model No. YVS/M, cloth covered unicellular plastic foam "Sailor's Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 31, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation , 11525 Sorrento Valley Road, San Diego, California 92121, for Taperflex of America, 558 Library Street, San Fernando, California 91341, effective June 19, 1973.

Approval No. 160.064/478/0, adult X-large, Model No. YVL/XL, cloth covered unicellular plastic foam "Sailor's Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 31, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, for Taperflex of America, 558 Library Street, San Fernando, California 91341, effective June 19, 1973.

Approval No. 160.064/479/0, adult medium, Model No. SVS/M, cloth covered unicellular plastic foam "Sportsman Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 31, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, for Taperflex of America, 558 Library Street, San Fernando, California 91341, effective June 19, 1973.

Approval No. 160.064/480/0, adult X-large, Model No. SVL/XL, cloth covered unicellular plastic foam "Sportsman Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 31, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, for Taperflex of America, 558 Library Street, San Fernando, California 91341, effective June 19, 1973.

RELIEF VALVES (HOT WATER HEATING BOILERS)

Approval No. 162.013/35/0, Type No. 174A relief valve for hot water heating boilers, approved for sizes and relieving capacities shown below:

| Inlet size (male or female) inches | Relieving capacity (Btu per hour at 30 p.s.i.) | Inlet size (male or female) inches | Relieving capacity (Btu per hour at 30 p.s.i.) |
|---|---|---|---|
| ¾ | 650,000 | 1½ | 2,020,000 |
| 1 | 1,005,000 | 2 | 3,815,000 |
| 1¼ | 1,865,000 | | |

manufactured by Watts Regulator Company, Lawrence, Massachusetts 01842, effective June 12, 1973. (It supersedes Approval No. 162.013/35/0 dated July 23, 1968.)

Approval No. 162.013/37/0, type No. 740 relief valve for hot water heating boilers, approved for sizes and relieving capacities shown below:

| Inlet size (male or female) inches | Relieving capacity (Btu per hour at 30 p.s.i.) | Inlet size (male or female) inches | Relieving capacity (Btu per hour at 30 p.s.i.) |
|---|---|---|---|
| ¾ | 895,000 | 1½ | 2,900,000 |
| 1 | 1,300,000 | 2 | 5,250,000 |
| 1¼ | 2,105,000 | | |

manufactured by Watts Regulator Company, Lawrence, Massachusetts 01842, effective June 14, 1973.

GAUGING DEVICES, LIQUID LEVEL, LIQUEFIED COMPRESSED GAS

Approval No. 162.019/35/0, magnetic gaging device, stainless steel components, Dwg. No. B–630 dated June 16, 1968 and accompanying Bill of Materials B–630, low temperature applications (below 0°F) shall be constructed of suitable materials in accordance with 46 CFR Part 56, impact test results when required shall be available to the cognizant Officer in Charge, Marine Inspection, manufactured by Midland Manufacturing Corporation, 7733 Gross Point Road, Skokie, Illinois 60076, effective June 20, 1973. (It is an extension of Approval No. 162.019/35/0 dated July 9, 1968.)

BACKFIRE FLAME CONTROL, GASOLINE ENGINES; FLAME ARRESTERS; FOR MERCHANT VESSELS AND MOTORBOATS

Approval No. 162.041/170/0, Kawasaki Model Y73 backfire flame arrester, cast aluminum housing, stainless steel arrester cover, brass flame arresting grid, manufactured by Kawasaki Motors Corporation, 1062 McGaw Avenue, P.O. Box 11447, Santa Ana, California 92711, effective June 12, 1973.

BACKFIRE FLAME CONTROL, GASOLINE ENGINES; ENGINE AIR AND FUEL INDUCTION SYSTEMS; FOR MERCHANT VESSELS AND MOTORBOATS

Approval No. 162.042 5/0, OMC 9½ H.P. powerhead, OMC Model MV–10S, fuel induction arrangement provides backfire flame protection equivalent to that of an effective backfire flame arrester, uses Reed Valve Air Induction, manufactured by Outboard Marine Corporation, 300 Sea-Horse Drive, Waukegan, Illinois 60085, effective June 12, 1973. (It is an extension of Approval No. 162.042/5/0 dated July 24, 1968 and change of address of manufacturer.)

Dated September 11, 1973.

D. H. CLIFTON,
*Captain, U.S. Coast Guard, Acting Chief, Office of Merchant Marine Safety.*

## EQUIPMENT, CONSTRUCTION, AND MATERIALS

### Approval Notice

1. Certain laws and regulations (46 CFR Chapter I) require that various items of lifesaving, firefighting and miscellaneous equipment, construction, and materials used on board vessels subject to Coast Guard inspection, on certain motorboats and other recreational vessels, and on the artificial islands and fixed structures on the outer Continental Shelf be of types approved by the Commandant, U.S. Coast Guard. The purpose of this document is to notify all interested persons that certain approvals have been granted as herein described during the period from June 28, 1973 to July 11, 1973 (List No. 17–73). These actions were taken in accordance with the procedures set forth in 46 CFR 2.75–1 to 2.75–50.

2. The statutory authority for equipment, construction, and material approvals is generally set forth in sections 367, 375, 390b, 416, 481, 489, 526p, and 1333 of Title 46, United States Code, section 1333 of Title 43, United States Code, and section 198 of Title 50, United States Code. The Secretary of Transportation has delegated authority to the Commandant, U.S. Coast Guard with respect to these approvals (49 CFR 1.46(b)). The specifications prescribed by the Commandant, U.S. Coast Guard for certain types of equipment, construction, and materials are set forth in 46 CFR Parts 160 to 164.

3. The approvals listed in this document shall be in effect for a period of 5 years from the date of issuance, unless sooner cancelled or suspended by proper authority.

SIGNALS, DISTRESS, HAND RED FLARE, FOR MERCHANT VESSELS

Approval No. 160.021/4/2, Bristol Marine hand red flare distress signal, 500 candlepower, 2 minutes burning time,

V 38-180 SEP 18 73 XUM

dwg. No. 506 revised May 14, 1958, manufactured by Bristol Flare Corporation, State Road, Bristol, Pennsylvania 19007, effective July 3, 1973. (It is an extension of Approval No. 160.021/4/2 dated September 3, 1968.)

LIFE PRESERVERS, UNICELLULAR PLASTIC FOAM ADULT AND CHILD FOR MERCHANT VESSELS

Approval No. 160.055/85/0, Type IA, Model 62, adult vinyl dip coated unicellular plastic foam life preserver, U.S.C.G. Specification Subpart 160.055 and dwg. No. 160.055-IA (sheets 1 and 2), Type I PFD, manufactured by Goodenow Manufacturing, 1301 West 18th Street, Erie, Pennsylvania 16501, effective July 3, 1973. (It is an extension of Approval No. 160.055/85/0 dated September 18, 1968.)

Approval No. 160.055/86/0, Type IA, Model 66, child vinyl dip coated unicellular plastic foam life preserver, U.S.C.G. Specification Subpart 160.055 and dwg. No. 160.055-IA (sheets 1 and 2, Type I PFD, manufactured by Goodenow Manufacturing, 1301 West 18th Street, Erie, Pennsylvania 16501, effective July 3, 1973. (It is an extension of Approval No. 160.055/86/0 dated September 18, 1968.)

SPECIAL PURPOSE WATER SAFETY BUOYANT DEVICES

Approval No. 160.064/485/0, adult X-large, Model No. 12.06.70.6, cloth covered unicellular plastic foam "Buoyant Sports Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 172, Type III Personal Flotation Device, manufactured by Plastimo S.A., 15, Rue Ingenieur Verrieae 56100, Lorient, France, effective July 11, 1973.

Approval No. 160.064/486/0, adult large, Model 12.06.60.9, cloth covered unicellular plastic foam "Buoyant Sports Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 172, Type III Personal Flotation Device, manufactured by Plastimo S.A., 15, Rue Ingenieur Verrieae 56100, Lorient, France, effective July 11, 1973.

Approval No. 160.064/487/0, adult medium, Model No. 12.06.50.9, cloth covered unicellular plastic foam "Buoyant Sports Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 172, Type III Personal Flotation Device, manufactured by Plastimo S.A., 15, Rue Ingenieur Verrieae 56100, Lorient, France, effective July 11, 1973.

Approval No. 160.064/488/0, child medium, Model No. 12.06.40.5, cloth covered unicellular plastic foam "Buoyant Sports Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 172, Type III Personal Flotation Device, manufactured by Plastimo S.A., 15, Rue Ingenieur Verrieae 56100, Lorient, France, effective July 11, 1973.

Approval No. 160.064/489/0, child medium, Model No. 12.06.30.8, cloth covered unicellular plastic foam "Buoyant Sports Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 172, Type III Personal Flotation Device, manufactured by Plastimo S.A., 15, Rue Ingenieur Verrieae 56100, Lorient, France, effective July 11, 1973.

Approval No. 160.064/490/0, adult X-large, Model No. F-70, cloth covered unicellular plastic foam "Buoyant Sport Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 172, Type III Personal Flotation Device, manufactured by Plastimo S. A., 15, Rue Ingenieur Verrieae 56100, Lorient, France for Omega Marketing, Inc., 203 Pleasant Street, Marblehead, Massachusetts 01945, effective July 11, 1973.

Approval No. 160.064/491/0, adult large, Model No. F-60, cloth covered unicellular plastic foam "Buoyant Sport Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 172, Type III Personal Flotation Device, manufactured by Plastimo S. A., 15, Rue Ingenieur Verrieae 56100, Lorient, France for Omega Marketing, Inc., 203 Pleasant Street, Marblehead, Massachusetts 01945, effective July 11, 1973.

Approval No. 160.064/492/0, adult medium, Model No. F-50, cloth covered unicellular plastic foam "Buoyant Sport Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 172, Type III Personal Flotation Device, manufactured by Plastimo S. A., 15, Rue Ingenieur Verrieae 56100, Lorient, France for Omega Marketing, Inc., 203 Pleasant Street, Marblehead, Massachusetts 01945, effective July 11, 1973.

Approval No. 160.064/493/0, child medium, Model No. F-4, cloth covered unicellular plastic foam "Buoyant Sport Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 172, Type III Personal Flotation Device, manufactured by Plastimo S. A., 15, Rue Ingenieur Verrieae 56100, Lorient, France for Omega Marketing, Inc., 203 Pleasant Street, Marblehead, Massachusetts 01945, effective July 11, 1973.

Approval No. 160.064/494/0, child medium, Model No. F-30, cloth covered unicellular plastic foam "Buoyant Sport Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 172, Type III Personal Flotation Device, manufactured by Plastimo S. A., 15, Rue Ingenieur Verrieae 56100, Lorient, France for Omega Marketing, Inc., 203 Pleasant Street, Marblehead, Massachusetts 01945, effective July 11, 1973.

Approval No. 160.064/511/0, child medium, Model No. CGVA-S, cloth covered unicellular plastic foam "Water Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 185, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121 for Compo-Tek, Eden Prairie, Minnesota 55343, effective July 11, 1973.

Approval No. 160.064/512/0, adult, Model No. CGVA-M, cloth covered unicellular plastic foam "Water Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 185, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121 for Compo-Tek, Eden Prairie, Minnesota 55343, effective July 11, 1973.

Approval No. 160.064/513/0, adult, Model No. CGVA-L, cloth covered unicellular plastic foam "Water Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 185, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121 for Compo-Tek, Eden Prairie, Minnesota 55343, effective July 11, 1973.

Approval No. 160.064/514/0, adult, Model No. CGVA-XL, cloth covered unicellular plastic foam "Water Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 185, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121 for Compo-Tek, Eden Prairie, Minnesota 55343, effective July 11, 1973.

Approval No. 160.064/515/0, adult, Model No. CGVB-M, cloth covered unicellular plastic foam "Water Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 185, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121 for Compo-Tel, Eden Prairie, Minnesota 55343, effective July 11, 1973.

PRESSURE VACUUM RELIEF VALVES AND SPILL VALVES FOR TANK VESSELS

Approval No. 162.017/64/4, figure, No. 100 pressure-vaccum relief valve, atmospheric pattern, weight-loaded poppets, bronze, nickel cast iron or stainless steel body, dwg. No. 100-A, revised September 10, 1970, approved sizes 2½", 3", 4", 5", 6", 8", 10", and 12", an optional manual lifting gear may be provided, manufactured by Mechanical Marine Company, Inc., 45-15 37th Street, Long Island City, New York 11101, effective July 10, 1973. (It supersedes Approval No. 162.017/64/4 dated November 3, 1969.)

SAFETY RELIEF VALVES, LIQUEFIED COMPRESSED GAS

Approval No. 162.018/35/3, 4" Style JQ safety relief valve for liquefied chlorine service (corrosive), approved for a maximum set pressure of 300 p.s.i., discharge capacity 15,350 cubic feet per minute of air measured at 60° F and 14.7 p.s.i.a., manufactured by Crosby Valve & Gage Company, Wrentham, Massachusetts 02093, effective June 28, 1973. (It is an extension of Approval No. 162.018/35/3 dated August 28, 1968.)

BACKFIRE FLAME CONTROL, GASOLINE ENGINES; FLAME ARRESTERS; FOR MERCHANT VESSELS AND MOTORBOATS

Approval No. 162.041/9/2, Barbron backfire flame arrester, part No. 5724B, brass element, cover, and base, also part No. 5724A, having brass element, anodized aluminum base and cover, opening in base is 2.68" diameter, flame arrester may have a fuel/fume feedback tube, formerly series 400-11, part No. A5381, manufactured by Barbron Corporation, 14580 Lesure Avenue, Detroit, Michigan 48227, effective June 29, 1973. (It supersedes Approval No. 162.041/9/1 dated August 28, 1970 to show modification in base of flame arrester.)

INCOMBUSTIBLE MATERIALS FOR MERCHANT VESSELS

Approval No. 164.009/163/0, "Thermo-12" pipe and block insulation, identical to that described in Johns-Manville's letter of March 28, 1973 and in National Bureau of Standards Test Report FR 3844 dated May 24, 1973, manufactured by Johns-Mansville Sales Corporation, Denver, Colorado 80217, Plant: Manville, New Jersey, effective July 2, 1973.

Dated September 11, 1973.

D. H. CLIFTON,
*Captain, U.S. Coast Guard, Acting Chief, Office of Merchant Marine Safety.*

These actions were taken in accordance with the procedures set forth in 46 CFR 2.75-1 to 2.75-50.

2. The statutory authority for equipment, construction, and material approvals is generally set forth in sections 367, 375, 390b, 416, 481, 489, 526p, and 1333 of Title 46, United States Code, section 1333 of Title 43, United States Code, and section 198 of Title 50, United States Code. The Secretary of Transportation has delegated authority to the Commandant, U.S. Coast Guard with respect to these approvals (49 CFR 1.46 (b)). The specifications prescribed by the Commandant, U.S. Coast Guard for certain types of equipment, construction, and materials are set forth in 46 CFR Parts 160 to 164.

3. The approvals listed in this document shall be in effect for a period of 5 years from the date of issuance, unless sooner cancelled or suspended by proper authority.

SEA ANCHORS, LIFEBOAT

Approval No. 160.019/16/0, Model RSC-3 Sea Anchor, U.S.C.G. Drawing No. MMI-562 and Specification dated November 1, 1943, revised August 24, 1944 and Revere dwg. No. B-733-3 dated July 12, 1973, made with cloth and strip laminated vinyl-nylon high strength, flexible, conforming to MIL-C-43006D, Type I, Class 1, yellow, webbing is 2" nylon, conforming to MIL-C-20696, manufactured by Revere Supply Company, Inc., 603-607 West 29 Street, New York, New York 10001, effective July 26, 1973.

LINE-THROWING APPLIANCE, IMPULSE-PROJECTED ROCKET TYPE (AND EQUIPMENT), FOR MERCHANT VESSELS

Approval No. 160.040/4/0, Kilgore's assembly and arrangement dwg. Nos. BP-4159-1-1 dated March 9, 1973; CP-4099-1-1 revised June 14, 1973; CP-4095-1-1 revised June 14, 1973; CP-4140-1-1 dated December 21, 1971, and CP-4053-1-1 dated December 21, 1971, rockets made to dwg. Nos. BP-4137-1-1; BP-4136-1-1; CP-4153-1-1 and CP-4140-1-1 with Approval No. 160.040/4/0 may be used with Kilgore's Launcher Model GR-52-A1, manufactured by Kilgore Corporation, Toone, Tennessee 38381, effective July 25, 1973.

SPECIAL PURPOSE WATER SAFETY BUOYANT DEVICES

Approval No. 160.064/527/0, adult small, Model No. SSV-160, cloth covered unicellular plastic foam "Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 29, Type III PFD, manufactured by Stearns Manufacturing Company, 30th and Division Streets, St. Cloud, Minnesota 56301, effective July 20, 1973.

Approval No. 160.064/528/0, adult medium, Model No. SSV-160, cloth covered unicellular plastic foam "Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 29, Type III PFD, manufactured by Stearns Manufacturing Company, 30th and Division Streets, St. Cloud, Minnesota 56301, effective July 20, 1973.

Approval No. 160.064/529/0, adult large, Model No. SSV-160, cloth covered unicellular plastic foam "Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 29, Type III PFD, manufactured by Stearns Manufacturing Company, 30th and Division Streets, St. Cloud, Minnesota 56301, effective July 20, 1973.

Approval No. 160.064/530/0, adult X-large, Model No. SSV-160, cloth covered unicellular plastic foam "Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 29, Type III PFD, manufactured by Stearns Manufacturing Company, 30th and Division Streets, St. Cloud, Minnesota 56301, effective July 20, 1973.

Approval No. 160.064/531/0, adult small, Model No. SSV-165, cloth covered unicellular plastic foam "Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 29, Type III PFD, manufactured by Stearns Manufacturing Company, 30th and Division Streets, St. Cloud, Minnesota 56301, effective July 20, 1973.

Approval No. 160.064/532/0, adult medium, Model No. SSV-165, cloth covered unicellular plastic foam "Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 29, Type III PFD, manufactured by Stearns Manufacturing Company, 30th and Division Streets, St. Cloud, Minnesota 56301, effective July 20, 1973.

Approval No. 160.064/533/0, adult large, Model No. SSV-165, cloth covered unicellular plastic foam "Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 29, Type III PFD, manufactured by Stearns Manufacturing Company, 30th and Division Streets, St. Cloud, Minnesota 56301, effective July 20, 1973.

Approval No. 160.064/534/0, adult X-large, Model No. SSV-165, cloth covered unicellular plastic foam "Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 29, Type III PFD, manufactured by Stearns Manufacturing Company, 30th and Division Streets, St. Cloud, Minnesota 56301, effective July 20, 1973.

Approval No. 160.064/535/0, child medium, Model No. SSV-162-Youth, cloth covered unicellular plastic foam "Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 29, Type III PFD, manufactured by Stearns Manufacturing Company, 30th and Division Streets, St. Cloud, Minnesota 56301, effective July 20, 1973.

Approval No. 160.064/536/0, child small, Model No. SSV-163-Child, cloth covered unicellular plastic foam "Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 29, Type III PFD, manufactured by Stearns Manufacturing Company, 30th and Division Streets, St. Cloud, Minnesota 56301, effective July 20, 1973.

BACKFIRE FLAME CONTROL, GASOLINE ENGINES; FLAME ARRESTERS; FOR MERCHANT VESSELS AND MOTORBOATS

Approval No. 162.041/171/0, Barbron backfire flame arrester, part No. 5714-B, brass element, base, and cover, alternate material for base and cover is anodized aluminum (5714A), opening in base is 2.68" in diameter, manufactured by Barbron Corporation, 14580 Lesure Avenue, Detroit, Michigan 48227, effective July 25, 1973.

V 38-180 SEP 18 73 XUM

Approval No. 162.041/172/0, Barbron backfire flame arrester, part No. 57154–B, brass element, base, and cover, alternate material for base and cover is anodized aluminum (57154A), opening in base is 2.68" in diameter, manufactured by Barbron Corporation, 14580 Lesure Avenue, Detroit, Michigan 48227, effective July 25, 1973.

Approval No. 162.041/173/0, Barbron backfire flame arrester, part No. 38115–B, brass element, base, and cover, alternate material for base and cover is anodized aluminum (38115A), opening in base is 2.68" in diameter, manufactured by Barbron Corporation, 14580 Lesure Avenue, Detroit, Michigan 48227, effective July 25, 1973.

Approval No. 162.041/174/0, Barbron backfire flame arrester, part No. 381515–B, brass element, base, and cover, alternate material for base and cover is anodized aluminum (381515A), opening in base is 2.68" in diameter, manufactured by Barbron Corporation, 14580 Lesure Avenue, Detroit, Michigan 48227, effective July 25, 1973.

Approval No. 162.041/175/0, Barbron backfire flame arrester, part No. 38215–B, brass element, base, and cover, alternate material for base and cover is anodized aluminum (38215A), opening in base is 2.68" in diameter, manufactured by Barbron Corporation, 14580 Lesure Avenue, Detroit, Michigan 48227, effective July 25, 1973.

INCOMBUSTIBLE MATERIALS FOR MERCHANT VESSELS

Approval No. 164.009/47/0, "Superfine HTB Fiber Glass", glass wool insulation type incombustible material identical to that described in National Bureau of Standards Test Report No. TG10210–2022:FP3449 dated May 7, 1958, approved in a $1/2$ to $1\ 1/2$ pounds per cubic foot density, manufactured by Certain-teed Products Corporation, CSG Group, Old Route 202, Eagle School Road, Valley Forge, Pennsylvania 19481, plant located Shelbyville, Indiana, formerly PPG Industries, Inc., effective July 18, 1973. (It supersedes Approval No. 164.009/47/0 dated February 2, 1973 to show change of name and address of manufacturer.)

Approval No. 164.009/75/0, "PPG Textrafine" fibrous glass insulation type incombustible material identical to that described in National Bureau of Standards Test Report No. TG10210–2096: FR3620 dated December 10, 1962, approved in a density of $1/2$-pound per cubic foot, manufactured by Certain-teed Products Corporation, CSG Group, Old Route 202, Eagle School Road, Valley Forge, Pennsylvania 19481, plant located Shelbyville, Indiana, formerly PPG Industries, Inc., effective July 18, 1973. (It supersedes Approval No. 164.009/75/0 dated February 2, 1973 to show change of name and address of manufacturer.)

Approval No. 164.009/130/0, "Textrafine Blanket Insulation", fibrous glass type incombustible material identical to that described in National Bureau of Standards Test Report No. TG10210–2186:FR3723 and PPG Industries, Inc. letters dated June 24, 1969 and July 16, 1969, approved in a density of 0.75 pounds per cubic foot, manufactured by Certain-teed Products Corporation, CSG Group, Old Route 202, Eagle School Road, Valley Forge, Pennsylvania 19481, plant located Shelbyville, Indiana, formerly PPG Industries, Inc., effective July 18, 1973. (It supersedes Approval No. 164.009/130/0 dated December 29, 1969 to show change of name and address of manufacturer.)

Approval No. 164.009/147/0, "Navy Hull Board Type C", fibrous glass insulation board identical to that described in National Bureau of Standards Test Report No. FR3758 dated May 25, 1971 and PPG Industries, Inc. letter dated March 10, 1971, approved in a density of 2.75 pounds per cubic foot, manufactured by Certain-teed Products Corporation, CSG Group, Old Route 202, Eagle School Road, Valley Forge, Pennsylvania 19481, plant located Shelbyville, Indiana, formerly PPG Industries, Inc., effective July 18, 1973. (It supersedes Approval No. 164.009/147/0 dated June 21, 1971 to show change of name and address of manufacturer.)

Dated September 11, 1973.

D. H. CLIFTON,
*Captain, U.S. Coast Guard, Acting Chief, Officer of Merchant Marine Safety.*

## SCIENCE ADVISORY COMMITTEE

### Notice of Open Meeting

Pursuant to the Federal Advisory Committee Act (Public Law 92-463), notice is hereby given that the Seventh Meeting of the Science Advisory Committee will be held on October 10–11, 1973 in Building 28B at the U.S. Coast Guard Yard, Curtis Bay (near Baltimore), Maryland. Members of the public will be admitted to the meeting beginning at 0830 a.m. each day on the agenda listed below according to a first-come-first-served basis up to the seating capacity of the room, which is about 100 persons.

The agenda consists of the following topics:

Current highlights of the ongoing USCG program in research, development, test and evaluation; current status and concepts in designing and staffing the permanent USCG R&D Center; review of research into non-electronic means of marine survival and of target enhancement for survivors in the water; review of the proposed 5-year RDT&E program plan related to marine safety and environmental protection; discussion of the Commandant's response to recommendations made by the Committee at its sixth meeting; "brainstorming" ideas as to where the biggest pay-offs may lie in the Coast Guard RDT&E effort, particularly in use of in-house capabilities; and optimal interfacing of Coast Guard research and development with Coast Guard engineering efforts.

The Coast Guard Science Advisory Committee serves in an advisory capacity only. It was first established on May 11, 1969, to provide a broad external and neutral view for review of the Coast Guard's effort in the area of research, development, test and evaluation. The Acting Secretary of Transportation on November 8, 1972, formally extended the Committee for an additional 2-year period ending December 31, 1974 and charged the committee with rendering advisory services relative to an ongoing broad external review of the Coast Guard's RDT&E effort; making recommendations concerning development of new technologies for accomplishing Coast Guard missions, and interfacing Coast Guard scientific and technological programs with those of other agencies, particularly the Departments of Navy and Transportation. The Committee is now chaired by Dr. Ralph D. Bennett, Consultant, of Belvedere, California.

For further information concerning this meeting, contact Captain W. R. Bleakley, Jr., USCG, executive secretary of the Committee, at the Office of Research and Development, U.S. Coast Guard Headquarters, Seventh and D Streets SW., Washington, D.C. 20590. Telephone contact may be made at 202–426–1031. Summary minutes of this meeting may also be obtained by contacting the same office.

Dated September 4, 1973.

A. H. SIEMENS, Jr.,
*Rear Admiral, U.S. Coast Guard, Chief, Office of Research and Development.*

[FR Doc.73-19756 Filed 9-17-73;8:45 am]

### Office of the Secretary

## COMMANDANT OF THE COAST GUARD

### Delegation of Authority

By Federal Property Management Temporary Regulation F–187, effective June 12, 1973, the Administrator of General Services delegated to the Secretary of Transportation authority to represent the consumer interests of the Executive agencies of the Federal Government before the Public Utilities Commission of the State of Connecticut in a proceeding involving the application of the Hartford Electric Light Company for abolition of Rate 31, for all-electric buildings. That regulation further authorized the Secretary of Transportation to redelegate this authority to any officer, official, or employee of the Department of Transportation.

Pursuant thereto, effective June 13, 1973, I hereby delegate all authority vested in me by Federal Property Management Temporary Regulation F–187 to the Commandant of the Coast Guard, with authority to redelegate.

This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and, further, shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

Issued in Washington, D.C., on August 29, 1973.

CLAUDE S. BRINEGAR,
*Secretary of Transportation.*

## ATOMIC ENERGY COMMISSION

[Docket No. 50-309]

## MAINE YANKEE ATOMIC POWER CO.

### Notice of Oral Argument

In the matter of Maine Yankee Atomic Power Station.

Notice is hereby given that oral argument in this proceeding, calendared for Thursday, October 11, 1973, at 9:15 a.m., in accordance with the Atomic Safety and Licensing Appeal Board's Orders of August 30, 1973 and September 7, 1973, will be held in the Appeal Panel Hearing Room located on the 5th floor of the East-West Tower Building, 4350 East-West Highway, Bethesda, Maryland.

For the Atomic Safety & Licensing Appeal Board.

Dated September 12, 1973.

MARGARET E. DU FLO,
*Secretary to the Appeal Board.*

## CIVIL AERONAUTICS BOARD

[Docket No. 23045; Order 73-9-48]

## BUSINESS JETS, PTY., LTD.

### Order

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 12th day of September, 1973.

By Order 73-8-32, dated August 7, 1973, the Board directed all interested persons to show cause why the Board should not issue a notice that the foreign air carrier permit now held by Business Jets, Pty., Ltd. has terminated. The order required that all interested persons having objections to the issuance of an order making final the tentative findings and conclusions set forth therein file such objections within 20 days after service.

No objection to Order 73-8-32 has been filed.

Accordingly, we conclude that the tentative findings and conclusions contained in Order, 73-8-32 should be made final.

Accordingly, *it is ordered* That:

1. The tentative findings and conclusions set forth in Order 73-8-32 be and they hereby are made final; and

2. Notice is hereby given that the foreign air carrier permit held by Business Jets, Pty., Ltd. has terminated.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
*Secretary.*

[FR Doc.73-19814 Filed 9-17-73;8:45 am]

## INTERNATIONAL AIR TRANSPORT ASSOCIATION

[Docket No. 23333; Order 73-9-45]

### Order Relating to Reduced Fares for Cargo Sales Agents

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 11th day of September, 1973.

Recently, the Board, by Order 73-7-28 of July 10, 1973, approved, subject to conditions, an agreement of the International Air Transport Association (IATA) dealing with the revision of the basis upon which reduced-fare concessions for United States-based IATA cargo agents are allocated.[1] The general effect of the revision was to establish an incentive program geared to agent productivity in place of the present system of allocation of a fixed number of tickets for each agency location.

On August 7, 1973, the members of the Air Freight Forwarders Association (AFFA) filed a petition with the Board for reconsideration of Order 73-7-28. In general, AFFA maintains the Board made its decision without full examination of the facts and issues pertinent to the case, and specifically erred in concluding that forwarder consolidation revenues should be excluded from the productivity base upon which the number of reduced-fare tickets to be allocated is determined.

Pan American World Airways, Inc. (Pan American) in an August 13, 1973, answer to AFFA's petition states that under the resolution in question it had always assumed that such non-commissionable forwarder revenue would be included in computing total sales productivity for the purpose of allocating such reduced-fare transportation.

Trans World Airlines, Inc. (TWA) has advised IATA[2] that because of the Board's disallowance of forwarder consolidations in the productivity base and its conditioning of the resolution with respect to the discount level offered, the resolution will not become effective since it is a type "A" resolution.[3] Further, TWA believes it necessary to extend the validity of the previous resolution governing reduced-fare privileges for U.S.-based cargo agents by cable mail vote until a solution to the problems raised can be found.

Accordingly, IATA has submited for Board approval a mail vote agreement, which has been designated Agreement C.A.B. 23891, extending the validity of the previous resolution to December 31, 1973.

We believe that such extension is warranted in order to allow time for the IATA member carriers to reach an equitable and reasonable solution to the problem—one that is acceptable to all parties and in conformance with Board policy. Additionally, we shall dismiss the petition of AFFA as moot.

The Board, acting pursuant to sections 102, 204(a), and 412 of the Act, makes the following findings:

1. It is not found that the following resolution, incorporated in Agreement C.A.B. 23891, is adverse to the public interest or in violation of the Act provided that approval is subject to conditions previously imposed by the Board; and

100(Mail 931)203a
200(Mail 188)203a
300(Mail 413)203a
JT12(Mail 817)203a
JT23(Mail 320)203a
JT31(Mail 244)203a
JT123(Mail 712)203a

2. It is found that the petition of the members of the Air Freight Forwarders Association for reconsideration of Board Order 73-7-28 is moot and should be dismissed.

*Accordingly, it is ordered* that:

1. Agreement C.A.B. 23891 be and hereby is approved subject to conditions previously imposed by the Board;

2. The petition of the Air Freight Forwarders Association for reconsideration of Order 73-7-28 be dismissed; and

3. Copies of this order be served upon the Air Freight Forwarders Association, Pan American World Airways, Inc. and Trans World Airlines, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
*Secretary.*

[FR Doc.73-19813 Filed 9-17-73;8:45 am]

[Docket No. 24488; Order 73-9-39]

## INTERNATIONAL AIR TRANSPORT ASSOCIATION

### Order Relating to Passenger Fare Matters

Issued under delegated authority September 10, 1973.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers and other carriers embodied in the resolutions of Traffic Conference 1 of the International Air Transport Association (IATA).

The agreement would implement a filing with IATA by Aeronaves de Mexico, S.A. (Aeromexico) under the provisions of Resolution 072, governing creative fares within the Western Hemisphere, to continue to apply 5/21 day excursion fares between Phoenix and Tucson, on the one hand, and Ciudad Obregon and Culiacan, on the other

[1] In the same Order the Board also approved an IATA resolution governing allocation of reduced-fare concessions for foreign-based IATA cargo agents.

[2] By cable dated August 3, 1973.

[3] Under IATA conference machinery rules, resolutions are given a "type" letter indicating the possible effect of government actions in terms of conditions or amendments. In a type "A" resolution, should a government disapprove or condition on a part of the resolution, then the whole resolution may be considered void, if this action is requested by a Member airline. In this case TWA, an IATA member, has so requested; therefore, the new resolution 203a governing reduced-fare concessions for U.S.-based IATA cargo agents will not become effective.

V 38 I 180 SEP 18 73 XUM

hand. We will herein approve the agreement, but will require that implementing tariffs carry an expiry date of March 31, 1974, consistent with a similar requirement imposed in connection with our approvals of the general Western Hemisphere fare structures.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.14, it is not found that the subject agreement is adverse to the public interest or in violation of the Act, provided that approval is subject to the condition hereinafter ordered.

*Accordingly, it is ordered* That:

1. Agreement C.A.B. 23923 be and hereby is approved; and

2. Tariffs implementing the agreement shall be marked to expire on March 31, 1974.

Persons entitled to petition the Board for review of this order pursuant to the Board's regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

By James L. Deegan, Chief, Passenger and Cargo Rates Division, Bureau of Economics.

[SEAL] EDWIN Z. HOLLAND,
*Secretary.*

## PRIORITY AND NONPRIORITY DOMESTIC SERVICE MAIL RATES INVESTIGATION

### Postponement of Hearing

Notice is hereby given that the hearing currently scheduled for September 18, 1973 (38 FR 20116, July 26, 1973) in the above-entitled proceeding, dealing with rates from December 12, 1970, through March 27, 1973, is hereby postponed pending further developments with regard to Board Order to Show Cause 73-8-144, August 30, 1973, dealing with final rates for the certificated air carriers for the period covered by this proceeding.

Dated at Washington, D.C., September 14, 1973.

[SEAL] HARRY H. SCHNEIDER,
*Administrative Law Judge.*

[FR Doc.73-19931 Filed 9-17-73;8:45 am]

## ENVIRONMENTAL PROTECTION AGENCY

### ENVIRONMENTAL IMPACT STATEMENTS AND OTHER ACTIONS AFFECTING THE ENVIRONMENT

### Availability of EPA Comments

Pursuant to the requirements of section 102(2) (C) of the National Environmental Policy Act of 1969 and section 309 of the Clean Air Act, as amended, the Environmental Protection Agency (EPA) has reviewed and commented in writing on Federal agency actions impacting the environment contained in the following appendices during the period of August 1, 1973 to August 31, 1973.

Appendix I contains a listing of draft environmental impact statements reviewed and commented upon in writing during this review period. The list includes the Federal agency responsible for the statement, the number and title of the statement, the classification of the nature of EPA's comments as defined in Appendix II, and the EPA source for copies of the comments as set forth in Appendix V.

Appendix II contains the definitions of the classifications of EPA's comments on the draft environmental impact statements as set forth in Appendix I.

Appendix III contains a listing of final environmental impact statements reviewed and commented upon in writing during this reviewing period. The listing will include the Federal agency responsible for the statement, the number and title of the statement, a summary of the nature of EPA's comments, and the EPA source for copies of the comments as set forth in Appendix V.

Appendix IV contains a listing of proposed Federal agency regulations, legislation proposed by Federal agencies, and any other proposed actions reviewed and commented upon in writing pursuant to section 309(a) of the Clean Air Act, as amended, during the referenced reviewing period. The listing includes the Federal agency responsible for the proposed action, the title of the action, a summary of the nature of EPA's comments, and the EPA source for copies of the comments as set forth in Appendix V.

Appendix V contains a listing of the names and addresses of the sources for copies of EPA comments listed in Appendices I, III, and IV.

Copies of the EPA Manual, setting forth the policies and procedures for EPA's review of agency actions, may be obtained by writing the Public Inquiries Branch, Office of Public Affairs, Environmental Protection Agency, Washington, D.C. 20460. Copies of the draft and final environmental impact statements referenced herein are available from the originating Federal department or agency or from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151.

Dated September 10, 1973.

REBECCA W. HAMMER,
*Acting Director,*
*Office of Federal Activities.*

### APPENDIX II

**study of suggested alternatives or modifications is required and has asked the originating Federal agency to reassess these aspects.**

DEFINITION OF CODES FOR THE GENERAL NATURE OF EPA COMMENTS

EU—ENVIRONMENTALLY UNSATISFACTORY

ENVIRONMENTAL IMPACT OF THE ACTION

EPA believes that the proposed action is unsatisfactory because of its potentially harmful effect on the environment. Furthermore, the Agency believes that the potential safeguards which might be utilized may not adequately protect the environment from hazards arising from this action. The Agency recommends that alternatives to the action be analyzed further (including the possibility of no action at all).

LO—LACK OF OBJECTION

EPA has no objections to the proposed action as described in the draft impact statement; or suggests only minor changes in the proposed action.

ER—ENVIRONMENTAL RESERVATIONS

EPA has reservations concerning the environmental effects of certain aspects of the proposed action. EPA believes that further

V 38 I 180 SEP 18 73 XUM

APPENDIX IV

REGULATIONS, LEGISLATION AND OTHER FEDERAL AGENCY ACTIONS FOR WHICH COMMENTS WERE ISSUED BETWEEN AUG. 1, 1973, AND AUG. 31, 1973

| Agency | Title | General nature of comments | Source for copies of comments |
|---|---|---|---|
| *Atomic Energy Commission* R-AEC-3003-00. | 10 CFR Part 20, Standards for Protection Against Radiation, Personnel Monitoring Reports. | EPA generally considers this amendment to the standard to be desirable considering it will provide a data base from which occupational exposure trends can be evaluated and estimates of integrated dose (MAN-REM) can be made. | A |
| *Department of Agriculture* R-AFH-5037-00 | 7 CFR Part 1823, Community Facility Loans. | EPA's comments suggested that this regulation be modified to incorporate EPA's regulations implementing Executive Order 11602 entitled "Administration of the Clean Air Act With Respect to Federal Contracts, Grants, or Loans." | A |
| R-AFH-5038-00. | 7 CFR Part 1823, Grants for Facilitating Development of Private Business Enterprises. | EPA recommended that this regulation be modified to incorporate EPA's proposed regulations implementing section 306 of the Clean Air Act and that the regulation require applicants for federal grant agencies to amend their regulations to insure that grants are not made to facilities whose facilities are in violation of the Clean Air Act. | A |
| R-IOA-5039-00 | 7 CFR Part 23, Guidelines for Programs, Title V, Rural Development Act of 1972. | EPA's comments on these guidelines suggested that they be modified to emphasize consistency with environmental protection standards, planning, and programs. | A |
| R-IOA-9941-00 | 9 CFR Parts 318, 381, Procedure for Handling Product Misbranded by Privileged Water. | EPA comments reflect that the proposed rule-making will not have a significant impact on the environment. | A |
| *Department of Commerce* R-IOC-0006-00 | 15 CFR Part 9, Voluntary Labelling Program for Major Household Appliances to Effect Energy Conservation. | EPA generally agrees with the proposed rule-making aid offered several specific comments. | A |
| R-NOA-5011-00. | 15 CFR Part 920, Coastal Zone Management Program Development grants. | EPA generally has no objection to the proposed regulations but suggests certain changes to strengthen the relationship of the coastal zone management program to Federal-State environmental programs and to add environmental amends adding to the list of critical areas, areas needed to protect, maintain, or replenish coastal lands or resources, such as coastal flood plains, aquifer recharge areas, beaches, dunes, coral and other reefs, beaches, offshore sand deposits, and mangrove stands. | A |
| *Department of Health, Education, and Welfare* R-HEW-9040-00 | 21 CFR Part 176, Penuliuie Deodorant Sprays. | EPA generally agrees with the proposed regulation. | A |
| *Department of the Interior* R-NPS-0135-00. | 36 CFR Part 13, St. Croix National Scenic Riverway, Minnesota-Wisconsin. | EPA generally believes this regulation will protect the resources of the area from development that are incompatible with the "Scenic Riverway" status. | A |

ADEQUACY OF THE IMPACT STATEMENT

CATEGORY 1—ADEQUATE

The draft impact statement adequately sets forth the environmental impact of the proposed project or action as well as alternatives reasonable available to the project or action.

CATEGORY 2—INSUFFICIENT INFORMATION

EPA believes that the draft impact statement does not contain sufficient information to assess fully the environmental impact of the proposed project or action. However, from the information submitted, the Agency is able to make a preliminary determination of the impact on the environment. EPA has requested that the originator provide the information that was not included in the draft statement.

CATEGORY 3—INADEQUATE

EPA believes that the draft impact statement does not adequately assess the environmental impact of the proposed project or action, or that the statement inadequately analyzes reasonable available alternatives. The Agency has requested more information and analysis concerning the potential environmental hazards and has asked that substantial revision be made to the impact statement.

APPENDIX III

FINAL ENVIRONMENTAL IMPACT STATEMENTS FOR WHICH COMMENTS WERE ISSUED BETWEEN AUG. 1, 1973, AND AUG. 31, 1973

| Identifying number | Title | General nature of comments | Source for copies of comments |
|---|---|---|---|
| *Department of Defense* F-NAV-11035-DC. | Bolling-Anacostia Development Concept, Washington, D.C. | EPA believes the Bolling-Anacostia Development Concept poses difficult environmental problems, but feels that each of the specific problems can be resolved provided the plan's implementation is carried out with environmental sensitivity: (1) Waste-water treatment, (2) transportation and air quality and (3) flood plains and wetlands. Also, EPA recommended that the Navy continue to consult with the Agency during the development period. | A |
| F-USN-11036-MS. | Multi-Purpose Target, Range Naval Air Station, Miss. | EPA generally agreed with the proposed project. EPA brought to the attention of the Navy that an increase in the turbidity and silting of adjacent streams should be expected. | E |
| *National Capital Planning Commission* F-NCP-11034-DC. | Proposed Modifications to the Comprehensive Plan for the National Capital to conform to the master plans for parts of the Bolling-Anacostia tract. | EPA finds that the environmental problems which will result from implementation of the base development concept can be significantly reduced if the Navy continues to coordinate the timing of Bolling-Anacostia's development program and maintains close coordination with the various concerned agencies within the Washington metropolitan area. | A |
| *Department of Transportation* F-FAA-51160-AL. | Birmingham Municipal Airport, Birmingham, Ala. | EPA generally agrees with the proposed project. However, we recommended that further consideration be given to noise abatement programs and air sampling to determine existing conditions. | E |
| F-FHW-41037-NJ. | Route I-295 from Route I-95 in Bucks County, Pa., to I-295 in New Jersey. | The comments made by EPA on the draft statement were generally satisfied in the final statement. EPA believes the final statement represents a thorough and objective analysis of the environmental effects of the proposed project. | C |

APPENDIX IV—continued

REGULATIONS, LEGISLATION AND OTHER FEDERAL AGENCY ACTIONS FOR WHICH COMMENTS WERE ISSUED BETWEEN AUG. 1, 1973, AND AUG. 31, 1973

| Agency | Title | General nature of comments | Source for copies of comments |
|---|---|---|---|
| *Interstate Commerce Commission* R-ICC-52064-00. | Ex Parte No. 55 (Sub-No. 8) Motor Common Carriers of Property, Routes, and Services Petition for the Elimination of Gateways by Rulemaking. | The Environmental Protection Agency has recommended to the Interstate Commerce Commission that motor common carriers be allowed to operate directly between any two points they are authorized to serve. EPA's comments, submitted in response to an ICC notice of rulemaking proceeding, emphasized that direct-line service would result in reduction of air pollution and energy consumption. | A |
| *Department of Transportation* R-FHW-99036-00. | 23 CFR Part 1, Policy and Procedure Memorandum (PPM) 90-1, Environmental Impact Statements for Federal-Aid Highway Projects. | EPA in review of two alternative amendments to ppm 90-1 proposed by FHWA, recommended that the FHWA adopt procedures under which an EIS would be prepared on any major Federal-aid highway projects significantly affecting the environment if a request for approval of advertisement for bids on that project is submitted on or after Jan. 1, 1974. | A |

## METROPOLITAN BALTIMORE STATE INTRASTATE REGION PLANS

### Opportunity for Public Comment on Plans To Achieve Secondary Standards

On May 31, 1972 (37 FR 10842), pursuant to section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator granted an 18-month extension for submission of a plan to attain and maintain the secondary standard for sulfur oxides in the Metropolitan Baltimore Intrastate Region. On July 31, 1973, the Governor of Maryland submitted the plan as required.

This notice is issued to advise the public that comments may be submitted on whether the control strategy should be approved or disapproved as required by section 110 of the Clean Air Act. Only comments received on or before October 18, 1973, will be considered. The Administrator's decision to approve or disapprove the plan is based on whether it meets the requirements of section 110 (a)(2)(A)–(H) and EPA regulations in 40 CFR, Part 51.

The proposed plan does not alter or supplement the present Maryland regulations for sulfur dioxide. Rather, the plan is submitted to demonstrate that implementation and enforcement of existing Maryland Regulations in the Metropolitan Baltimore Intrastate Region will be sufficient to achieve the secondary standards for sulfur dioxide by 1975.

Copies of the Maryland plan are available for public inspection during normal business hours at the Offices of EPA, Region II, Curtis Building, 2nd Floor, 6th and Walnut Streets, Philadelphia, Pennsylvania 19106, and in the Office of the Maryland State Department of Health and Mental Hygiene, 601 N. Howard Street, Baltimore, Maryland 21201, and at the Freedom of Information Center, EPA, 401 M Street SW., Washington, D.C. 20460. All comments should be addressed to the Regional Administrator, Environmental Protection Agency, Region III, Curtis Building, 6th and Walnut Streets, Philadelphia, Pennsylvania 19106.

ROBERT L. SANSOM,
*Assistant Administrator for Air and Water Programs.*

## NATIONAL AIR POLLUTION MANPOWER DEVELOPMENT ADVISORY COMMITTEE

### Notice of Meeting

Pursuant to P.L. 92-463, notice is hereby given that the Training Priorities Subcommittee Meeting will be held at 9 a.m., September 27, 1973, to prepare a paper on "Goals and Training Priorities" to be reviewed at the regular National Air Pollution Manpower Development Advisory Committee Meeting.

The National Air Pollution Manpower Development Advisory Committee Meeting will be held at 8 p.m., September 27, 1973 and at 9 a.m., September 28–29, 1973. Both meetings will be held in Conference Room 219, Law Building, University of Illinois, Urbana, Illinois.

This is the regular quarterly meeting of the Advisory Committee. Primarily the meeting will be devoted to Committee review of fellowship applications, the Training Priorities Subcommittee Report and presentations from the University of Illinois.

The meeting will be open to the public. Any member of the public wishing to attend or participate should contact Mr. Ronnie E. Townsend, Executive Secretary, National Air Pollution Manpower Development Advisory Committee, Research Triangle Park, North Carolina, (919) 549-8411, extension 2492.

ROBERT L. SANSOM,
*Assistant Administrator for Air and Water Programs.*

## FEDERAL RESERVE SYSTEM

### ATLANTIC BANCORPORATION

#### Order Approving Acquisition of Bank

Atlantic Bancorporation, Jacksonville, Florida, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a) of the Act (12 U.S.C. 1842(a)(3)) of the acquisition of 90 percent or more of the voting shares of the Peninsula State Bank, Tampa, Florida ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, the Florida Commissioner of Banking has expressed his approval, and no other comments have been received. The application has been considered in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant is the seventh largest banking organization in Florida and controls 23 banks with aggregate deposits of $855.9 million, or 4.33 percent of the commercial bank deposits in the state. (Banking data are as of December 31, 1972, and reflect holding company formations and acquisitions approved by the Board through July 11, 1973.) Acquisition of Bank with deposits of $40.4 million would increase Applicant's share of state deposits by two-tenths of one percent and would make Applicant the sixth largest banking organization. The effect on statewide concentration would not be significant.

Applicant is seeking initial entry into the Hillsborough County (Tampa) banking market. Bank is the seventh largest of 34 banks in the market and has 2.79 percent of total market deposits. The three largest banking organizations in the market control 69 percent of deposits in the area; thus, Applicant will not obtain by this acquisition a dominant position in the market. Applicant's nearest subsidiary bank is the Lake Wales Bank and Trust Company, Lake Wales, Florida, 55 miles east of Tampa. Since Bank does not compete with Applicant's subsidiaries, no existing competition would be eliminated by the proposed acquisition. In view of the distances involved and Florida's restrictive branching laws, consummation of this proposal would not appear to have an adverse effect on future competition between Bank and any of Applicant's subsidiaries. Consummation of the proposal would have no adverse competitive effects in any relevant area.

Considerations relating to the financial and managerial resources and future prospects of Applicant, its subsidiary banks, and Bank are generally satisfactory and consistent with approval of the application, particularly in view of Applicant's commitment to supply additional capital to certain of its subsidiary banks. Applicant does not indicate that it will change Bank's present services; considerations of the convenience and needs of the community to be served are consistent with approval of the application. It is this Federal Reserve Bank's judgement that the proposed transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board or by this Federal Reserve Bank pursuant to delegated authority.

By order of the Federal Reserve Bank of Atlanta, acting for the Board of Governors of the Federal Reserve System under delegated authority, effective September 5, 1973.

[SEAL] MONROE KIMBREL,
*President.*

[FR Doc.73-19770 Filed 9-17-73;8:45 am]

### CENTRAL BANCOMPANY

#### Proposed Acquisition of Voting Shares

Central Bancompany, Jefferson City, Missouri, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of The Guaranty Trust Company of Missouri, Clayton, Missouri, and to acquire the assets of Harrison L. Winter and Associates, Clayton, Missouri. Notice of the application was published on August 10, 1973, in The St. Louis Countian, a newspaper circulated in St. Louis, Missouri.

Applicant states that the proposed subsidiary would engage in the activities of a trust company, including activities of a fiduciary, agency or custodian nature, in the manner authorized by State law but not to accept demand deposits and make commercial loans. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of St. Louis.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than October 8, 1973.

Board of Governors of the Federal Reserve System, September 11, 1973.

[SEAL] THEODORE E. ALLISON,
*Assistant Secretary of the Board.*

[FR Doc.73-19781 Filed 9-17-73;8:45 am]

### CONTINENTAL ILLINOIS CORP.

#### Proposed Retention of Republic Realty Mortgage Corp.

Continental Illinois Corporation, Chicago, Illinois, has applied pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to retain voting shares of Republic Realty Mortgage Corporation, Chicago, Illinois. Such shares were

acquired by Continental Illinois Corporation on June 16, 1970, and, under the provisions of section 4(a)(2) of the Bank Holding Company Act (12 U.S.C. 1843(a)(2)), may not be retained beyond December 31, 1980, without Board approval. Notice of the application was published in newspapers of general circulation in communities where Republic Realty Mortgage Corporation has an office as follows:

| Date | Newspaper | City and State |
|---|---|---|
| July 13, 1973 | Chicago Tribune | Chicago, Ill. |
| July 12, 1973 | St. Louis Post-Dispatch. | St. Louis, Mo. |
| July 13, 1973 | The Atlanta Constitution. | Atlanta, Ga. |
| July 14, 1973 | Milwaukee Journal | Milwaukee, Wis. |

Applicant states that Republic Realty Mortgage Corporation would continue to engage in the following mortgage banking activities: (1) the origination and acquisition of real estate loans (including construction lending) both FHA-insured and conventional as principal or agent; (2) sale of real estate loans to investors; (3) servicing of real estate loans; (4) acting as agent or broker in connection with the placement of credit life and credit disability insurance incidental to real estate loans originated or serviced; and (5) other incidental activities related to the mortgage banking business. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than October 8, 1973.

Board of Governors of the Federal Reserve System, September 11, 1973.

[SEAL] CHESTER B. FELDBERG,
*Secretary of the Board.*

[FR Doc.73-19766 Filed 9-17-73;8:45 am]

### FIDELITY CORPORATION OF OKLAHOMA

#### Formation of Bank Holding Company

Fidelity Corporation of Oklahoma, Oklahoma City, Oklahoma, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to Fidelity Bank, N.A., Oklahoma City, Oklahoma. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit his views in writing to the Reserve Bank, to be received not later than October 8, 1973.

Board of Governors of the Federal Reserve System, September 11, 1973.

[SEAL] THEODORE E. ALLISON,
*Assistant Secretary of the Board.*

[FR Doc.73-19772 Filed 9-17-73;8:45 am]

### FINANCIAL DATA SYSTEMS, INC.

#### Order Approving Formation of Bank Holding Company

Financial Data Systems, Inc., Detroit, Michigan, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 38 percent of the common shares and 54 percent of the cumulative preferred shares, of Bank of the Commonwealth, Detroit, Michigan ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered those received and the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, recently organized for the purpose of becoming a bank holding company and engaging in the provision of financial data processing services, has engaged in no business activities and has no subsidiaries. Bank (deposits of $886.7 million) is the fifth largest of 47 banking organizations in the Detroit area, accounting for six percent of the aggregate deposits held by those organizations. (All data are as of December 31, 1972, unless otherwise indicated). The transaction is merely a reorganization whereby James T. Barnes who controls Bank directly at the present time will control Bank indirectly through Applicant. Accordingly, the Board concludes that consummation of the proposal will not eliminate any existing or potential competition in banking, increase concentration of banking resources, or have an undue adverse effect on the other banks in the relevant area. Mr. Barnes has controlling interests in several local or locally-based mortgage banking, and other financial concerns, but consummation of the proposed transaction per se would not affect the competitive relationships between Bank and those concerns since Bank will be affiliated with those concerns irrespective of Board action on this application. The Board in considering this application has considered the competitive effects of Mr. Barnes' common interests in Bank and other Detroit-based institutions and found them to be not significantly adverse.

As has been widely reported in the press and otherwise, Bank suffered serious financial reversals under its previous management. These financial difficulties necessitated an assistance program from the Federal Deposit Insurance Corporation ("the FDIC"), whereby the FDIC in an agreement dated January 18, 1972 with Bank, agreed to provide capital to Bank up to a maximum amount of $60 million. As of July 31, 1973, $35.5 million of capital notes had been issued pursuant to that agreement.

The purpose of the capital assistance program was to enable Bank to realize certain losses, principally market losses from the sale of long-term investment securities. Bank has disposed of the major portion of these securities and, as a result, is in a much improved liquidity position.

As a result of foreclosure on loans then outstanding, The Chase Manhattan Bank, N.A., New York, New York, ("Chase") acquired control of Bank in February, 1971, but, in accordance with the provisions of section 3 of the Bank Holding Company Act, was required to divest itself of its interests in Bank within two years. In 1972, Chase's interests in Bank were sold to Mr. Barnes. Under the Chase and Barnes ownership, new policies designed to improve Bank's condition, were instituted.

In summary, Bank is in the process of attempting to regain its posture as a viable and competitive institution. The Board believes that it is in the public interest to maintain control of Bank in the hands of local interests of good repute and that approval of this application would aid present management in this regard.

The management, financial condition, and prospects of Applicant are all consistent with approval of the application. Applicant would incur substantial debt in order to make the proposed acquisition. However, as the Board has previously noted, acquisition debt must be considered in light of an applicant's ability to service that debt without adversely affecting the capital structure of its subsidiary bank.

Since Bank is presently prohibited from declaring dividends without approval of supervisory agencies and, under agreement with the FDIC referred to above, is prohibited from entering into transactions with its directors, officers, or principal stockholders, there is no likelihood that Applicant will utilize Bank's resources to service its acquisition debt. Instead, Applicant expects to retire that debt by utilizing its own earnings from the provision of data processing services and from advances from its shareholders.

In the Board's view, consummation of the proposed transaction would serve to reinforce efforts to restore Bank to a sound and firm financial and competitive condition. To the extent such efforts succeed, the convenience and needs of the community to be served would be promoted by the renewed presence of Bank as both a ready source of banking services and a competitive force in the Detroit area. The Board finds that any anticompetitive effects of the proposed transaction are clearly outweighed in the public interest by the probable effect of the transaction in meeting the convenience and needs of the community to be served. It is the Board's judgment that the proposed transaction would be in the public interest, and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order, or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Chicago pursuant to delegated authority.

By order of the Board of Governors,[1] effective September 11, 1973.

[SEAL] CHESTER B. FELDBERG,
*Secretary of the Board.*

[FR Doc.73-19767 Filed 9-17-73;8:45 am]

## FIRST NATIONAL BOSTON CORP.

### Order Approving Acquisition of Banks

First National Boston Corporation, Boston, Massachusetts, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares of the following banks located in Massachusetts: (1) First Bank and Trust Company of Wellesley, Wellesley ("Wellesley Bank"); and (2) Burlington Bank and Trust Company, Burlington ("Burlington Bank").

Notice of the applications, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received. The Board has considered the applications in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the largest banking organization and bank holding company in Massachusetts, controls one bank with aggregate deposits of $2.7 billion, representing about 23 percent of total deposits in commercial banks in the State.[1] Consummation of the two proposals would increase Applicant's share of commercial bank deposits by .2 percentage points,[2] and this would not result in a significant increase in the concentration of banking resources in the State.

Wellesley Bank (deposits of $8.6 million) and Burlington Bank (deposits of $12.8 million) are the 58th and 46th largest of 69 commercial banks in the Boston banking market, which is approximated by the Boston SMSA, and control, respectively, 0.1 and 0.2 percent of market deposits. Applicant's present subsidiary bank, the First National Bank of Boston ("First National"), is located in the Boston banking market, where it controls 32.7 percent of deposits in commercial banks. First National is located 10 miles from Wellesley Bank and 13 miles from Burlington Bank. Although Wellesley Bank and Burlington Bank are located in the same market as First National, it does not appear that a significant amount of existing competition would be eliminated upon consummation of these proposals. This conclusion is based, in part, upon the fact that First National's banking business is largely wholesale in nature while the business of Wellesley Bank and Burlington Bank, both single-office banks, is a retail business. First National derives 74 percent of its total deposits and 64 percent of its IPC demand deposits from accounts in excess of $100,000. First National derives less than 3.0 percent, or approximately $48 million, of its total demand and savings deposits from Wellesley Bank's primary service area. Similarly, First National derives 1.3 percent, or about $24 million, of its total demand and savings deposits from Burlington Bank's primary service area. Neither Wellesley Bank nor Burlington Bank derives a significant amount of their loans or deposits from First National's primary service area.

Although First National is located in the same market as Wellesley Bank and Burlington Bank, First National is restricted by State law from branching into the County in which each Bank is located. Several other independent banks are located in both Wellesley Bank's and Burlington Bank's service area and County, and it does not appear that Applicant's acquisition of either Bank would result in barriers to entry into those areas by other banking organizations. Further, it does not appear that Applicant's entry into either Bank's market by an alternative acquisition of a small independent bank would present significantly different competitive considerations. Although Applicant has the financial and managerial resources to enter either Wellesley Bank's or Burlington Bank's service area de novo, the Board views the proposed acquisitions as "foothold" entries that are tantamount to de novo entry in view of the small size of each Bank, both absolutely and relatively. In addition, since Wellesley Bank is the smallest bank in a service area where three banks that are holding company subsidiaries control in excess of 56 percent of deposits, Applicant's acquisition of Wellesley Bank would likely increase that Bank's competitive effectiveness. Similarly, Burlington Bank controls less than 7 percent of deposits in an area where two banks that are holding company subsidiaries control more than 60 percent of area deposits. Accordingly, Applicant's acquisition of Burlington Bank would likely increase that Bank's ability to compete with the larger banks located in its area, particularly in view of considerations relating to its financial and managerial resources, discussed hereinafter. On the balance, therefore, the Board finds that no significant potential competition would be eliminated upon consummation of these proposals.

The financial and managerial resources and future prospects of Applicant and First National are satisfactory and consistent with approval of the application. Wellseley Bank has experienced a significant growth in deposits in the past four years, yet its capital has declined. Accordingly, Applicant's assurance to provide Wellesley Bank with additional capital will enhance that Bank's financial resources and future prospects, and this consideration lends some weight toward approval. The financial and managerial resources and future prospects of Burlington Bank are considered to be poor. Bank has experienced substantial loan losses since 1970, its capital-to-assets ratio has declined and it is presently in need of capital. Further, in view of Bank's difficulties, management is in need of strengthening. Applicant proposes to increase Burlington Bank's capital by a minimum of $300,000 within six months of consummation and to provide managerial strength to Burlington Bank. The future prospects of Burlington Bank with Applicant's assistance appear to be favorable, and these considerations provide strong weight toward approval of the application.

There is no evidence that any major banking needs of the areas served by Wellesley Bank or Burlington Bank are currently going unserved. However, Applicant proposes to offer, through Wellesley Bank, investment management

[1] Voting for this action: Vice Chairman Mitchell and Governors Daane, Brimmer, Sheehan, Bucher, and Holland. Absent and not voting: Chairman Burns.

[1] Banking data are as of June 30, 1972, adjusted to reflect holding company formations and acquisitions approved through July 13, 1973.

[2] By Order of this date, the Board approved Applicant's acquisition of the successor by merger to the Holyoke National Bank, Holyoke, Massachusetts, which controls 0.2 percentage points of Statewide deposits.

services for the small investor and revolving 48-month car loans which are new services not currently provided in the area. Convenience and needs factors with respect to Wellesley Bank are consistent with and lend some weight toward approval. Applicant proposes to increase and improve the services currently offered by Burlington Bank in providing overdraft checking, revolving 48-month car loans, credit card and trust services. Updating Burlington Bank's services should make it more competitive and more responsive to the needs of its customers. These considerations provide weight toward approval of the acquisition of Burlington Bank. It is the Board's judgment that the proposed transactions are in the public interest and should be approved.

On the basis of the record,[3a] the applications are approved for the reasons summarized above. The transactions shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Boston pursuant to delegated authority.

By order of the Board of Governors,[3] effective September 4, 1973.

[SEAL] THEODORE E. ALLISON,
*Assistant Secretary of the Board.*

## FIRST STEUBEN BANCORP, INC.

### Acquisition of Bank

First Steuben Bancorp, Inc., Steubenville, Ohio, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to The Farmers National Bank of Salem, Salem, Ohio. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Cleveland. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than October 8, 1973.

Board of Governors of the Federal Reserve System, September 10, 1973.

[SEAL] THEODORE E. ALLISON,
*Assistant Secretary of the Board.*

[3a] Dissenting Statement of Governor Brimmer filed as part of the original document. Copies available on request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551, or to the Federal Reserve Bank of Boston.

[3] Voting for this action: Chairman Burns and Governors Sheehan, Bucher, and Holland. Voting against this action: Governor Brimmer. Absent and not voting: Governors Mitchell and Daane.

## LLOYDS BANK LTD.

### Formation of Bank Holding Company

Lloyds Bank Limited, London, England, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of up to 100 percent of the voting shares of First Western Bank and Trust Company, Los Angeles, California, either directly or indirectly through the formation of a wholly-owned subsidiary corporation to be formed under the laws of one of the United States. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of San Francisco. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than October 8, 1973.

Board of Governors of the Federal Reserve System, September 11, 1973.

## MARINE MIDLAND BANKS, INC.

### Proposed Acquisition of American Dimensions, Inc.

Marine Midland Banks, Inc., Buffalo, New York has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of American Dimensions, Inc., Irvine, California, which wholly owns The Meairs Co., Riverside, which in turn, wholly owns The Meairs Insurance Agency, Riverside, and Ideal Escrow Service, Riverside, all located in California. (The proposed transaction contemplates that American Dimensions, Inc. will divest itself of The Meairs Insurance Agency on or before January 1, 1974.) Notices of the application were published between July 19 and 25, 1973, inclusive, in newspapers of general circulation in the following locations: Irvine, Cerritos, Covina, Riverside, San Bernardino, Pomona and Reseda, California; Phoenix, Arizona; Las Vegas, Nevada; and Buffalo, New York.

Applicant states that upon consummation of the proposed transaction and after divestiture of The Meairs Insurance Agency, the proposed subsidiary through the above two companies would engage in the following activities: (1) make or acquire real estate loans for its own account or for the account of others; (2) service real estate loans for its own account or for the account of others; and (3) provide escrow service in connection with real estate loans made, acquired, or serviced for its own account or the account of others. One or a combination of these activities will be conducted at the aforementioned locations in California, Arizona, and Nevada.

Applicant states that such activities have been specified by the Board in § 255.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the the offices of the Board of Governors or at the Federal Reserve Bank of New York.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than October 8, 1973.

Board of Governors of the Federal Reserve System, September 11, 1973.

[SEAL] THEODORE E. ALLISON,
*Assistant Secretary of the Board.*

## PERPETUAL CORP. AND PIERCE NATIONAL LIFE INSURANCE CO.

### Order Granting Determination Under Bank Holding Company Act

In the matter of the request by Perpetual Corporation ("Perpetual") and its wholly-owned subsidiary, Pierce National Life Insurance Company ("Pierce"), both of Los Angeles, California, for a determination pursuant to section 2(g)(3) of the Bank Holding Company Act of 1956, as amended.

Perpetual and Pierce are considered to be bank holding companies within the meaning of section 2(a) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(a)), by virtue of Perpetual's ownership of 63.3 percent of the voting stock of Houston Citizens Bank & Truck Company ("Houston-Citizens"), Houston, Texas, of which amount 18.8 percent was directly held and 44.5 percent was owned by Pierce. Perpetual and Pierce seek to terminate said status as bank holding companies as a result of having transferred all of their shares of Houston-Citizen to First International Bancshares, Inc. ("First International"), Dallas, Texas.[1]

[1] First International became a multi-bank holding company on December 31, 1972, through its acquisition of 100 percent of both First National Bank in Dallas and Houston-Citizens.

V 38-180
SEP 18 73
XUM

Perpetual and Pierce seek a determination pursuant to section 2(g)(3) of the Bank Holding Company Act of 1956, as amended, that notwithstanding an interlocking director relationship among Perpetual, Pierce, and First International, Perpetual and Pierce will not be capable of controlling the transferee of the shares of the aforementioned Houston-Citizens. Mr. Joe L. Allbritton is a director of Perpetual and of Pierce, and also serves as a director of First International.

Under the provision of section 2(g)(3) of the Act (12 U.S.C. 1841(g)(3)), shares transferred after January 1, 1966, by any bank holding company to a transferee that has one or more officers, directors, trustees, or beneficiaries in common with or subject to control by the transferor, are deemed to be indirectly owned or controlled by the transferor unless the Board of Governors of the Federal Reserve System, after opportunity for hearing, determines that the transferor is not in fact capable of controlling the transferee.

Perpetual and Pierce have submitted to the Board documentary evidence to support their contention that they do not in fact control First International.

Notice of an opportunity for hearing with respect to the request of Perpetual and Pierce for a determination under section 2(g)(3) was published in the FEDERAL REGISTER on February 8, 1973 (38 FR 3628). The time provided for requesting a hearing expired on March 12, 1973. No such request has been received by the Board, nor has any evidence been received to show that Perpetual or Pierce, either jointly or severally, is in fact capable of controlling First International.

It is hereby determined that neither Perpetual nor Pierce, acting jointly or severally, is in fact capable of controlling First International. This determination is based upon the evidence of record in this matter, including (1) certified copies of resolutions passed by the Boards of Directors of Perpetual, Pierce, First International, and Houston-Citizens, all of which are to the effect that there is no understanding or agreement whereby First International or any of its subsidiaries is under the control of Perpetual or Pierce or any stockholders or officers or representatives thereof; and that there is no arrangement whereby any interlocking directors are given any greater power or authority on the Board of Directors of First International or any subsidiary thereof, than such interlocking directors would otherwise have; (2) an affidavit by Mr. Joe L. Allbritton stating, in essence, that he is not acting pursuant to any contracts, written or oral, or other agreement or understanding, express or implied, with Perpetual, Pierce, or any other person or corporation, to attempt to control First International or any subsidiary thereof; and (3) letters of January 17, 1973 and August 24, 1973, from Counsel for Perpetual and Pierce containing analyses of the legal and factual implications of potential corporate control arising from the subject interlocking directorate.

*Accordingly, it is ordered*, That the request of Perpetual and Pierce for a determination pursuant to section 2(g)(3) be and hereby is granted.

By order of the Board of Governors, acting through its General Counsel pursuant to delegated authority (12 CFR 265.2), September 11, 1973.

[SEAL] THEODORE E. ALLISON,
*Assistant Secretary of the Board.*

[FR Doc.73-19764 Filed 9-14-73;8:45 am]

## PHILADELPHIA NATIONAL CORP.

### Order Approving Retention of Congress Factors Corp.

Philadelphia National Corporation (formerly PNB Corporation), Philadelphia, Pennsylvania, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to retain 80 percent of the common stock of Congress Factors Corporation, Philadelphia, Pennsylvania ("Factors"), a company that engages directly in the activities of purchasing of accounts receivable, principally on a non-recourse basis ("factoring"), and of making loans to commercial customers, secured by accounts receivable, inventory, equipment, and/or real estate ("commercial lending"). Congress Financial Corporation ("Financial") and Congress Credit Corporation ("Credit"), both of Philadelphia, Pennsylvania, are wholly-owned subsidiaries of Factors and engage solely in commercial lending. Such activities have been determined by the Board to be closely related to banking (12 CFR 225.4(a)(1)). The shares of Factors are presently held by the Philadelphia National Bank, Philadelphia, Pennsylvania ("Bank"), a wholly-owned (except for directors' qualifying shares) subsidiary of Applicant. Applicant, besides seeking approval of its retention of these shares, seeks approval to transfer those shares from Bank to itself.

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (38 FR 18495). The time for filing comments and views has expired, and none has been received.

Applicant, the fourth largest banking organization in Pennsylvania, controls one bank with total domestic deposits of $2.0 billion, representing 5.6 percent of the total domestic deposits in commercial banks in Pennsylvania.[1] Applicant's direct nonbanking subsidiaries include a commercial finance company, a consumer finance holding company, a residential mortgage origination company, and an internal financing company.

Factors is engaged in both maturity and discount factoring,[2] as well as commercial lending. Factors, Financial, and Credit conduct business from their principal operating office in New York, New York, although headquartered in Philadelphia. Financial also operates a sales referral office in Miami, Florida, and Credit principally operates from an office in Hato Rey, Puerto Rico. Factors engages in factoring primarily in the New York area. During 1972, it had annual factoring volume of $210 million, representing 1.5 percent of total commercial factored accounts held by the 25 largest factoring firms. It is estimated that Factors is thereby the 22nd largest of such firms.

Neither Applicant nor any of its subsidiaries (other than Factors) are presently, nor have ever been, engaged in factoring other than to a limited degree. Accordingly, no significant existing competition in that line of commerce would be eliminated upon consummation of the proposed transaction nor was any significant existing competition eliminated by Bank's acquisition of shares of Factors in 1967. There is a considerable number of potential entrants into that line of commerce, and Applicant is not considered one of the most likely such entrants. Accordingly, no future competition would be foreclosed in that line of commerce upon approval of this application.

Applicant's commercial finance subsidiary, PNB Commercial Finance Corporation ("CFC") held loans of approximately $2 million outstanding at year-end 1972 and primarily serves the Philadelphia metropolitan area. Factors, Financial, and Credit, holding aggregate commercial loans amounting to $28.5 million outstanding at year-end 1972, engage in the same line of commerce as does CFC. However, they primarily serve borrowers in New York, New Jersey, Florida, and Puerto Rico, and do not significantly compete in the Philadelphia area. As of December 31, 1972, Financial had outstanding commercial loans of $0.8 million derived from the Philadelphia area. Credit and Factors had none. Bank itself neither engages in a factoring business nor in making the type of high-risk commercial loans made by Financial and Credit. Further, Applicant's retention and intra-corporate transfer of the Congress companies are not expected to adversely affect the availability of credit to competitors of those companies. In fact, Bank has increased its lines of credit to those competitors since the acquisition of Factors in 1967. The Board concludes that the retention and intra-corporate transfer of Congress and its subsidiaries would have no significant adverse effect on existing or future competition.

[1] Banking data are as of December 31, 1972.

[2] In maturity factoring, payment to the seller of the accounts receivable is not made until the receivables are expected to have been collected by Factors. In discount factoring, funds are advanced to the seller prior to the collection of the receivables.

There is no evidence in the record to indicate that the proposed retention would lead to an undue concentration of resources, conflicts of interests, or unsound banking practices. Applicant's retention and intra-corporate transfer of Factors should result in benefits to the public by indirectly increasing the amount of financial resources available to Factors and its subsidiaries. Since its acquisition by Bank in 1967, Factors has experienced significant growth and has enhanced its competitive strength, partially as a result of its ability, as a subsidiary of a bank holding company, to secure funds through the commercial paper market at a lower cost than through bank financing, and thereby to maintain aggressive competitive pricing.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. The intra-corporate transfer shall not be consummated later than three months after the effective date of this Order, unless such period is extended for good cause by the Federal Reserve Bank of Philadelphia pursuant to authority delegated hereby. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[3] effective September 11, 1973.

[SEAL] CHESTER B. FELDBERG,
*Secretary of the Board.*

[FR Doc.73-19769 Filed 9-17-73;8:45 am]

## REPUBLIC NATIONAL BANK OF DALLAS

### Determination Regarding "Grandfather" Privileges Under Bank Holding Company Act

Section 4 of the Bank Holding Company Act (12 U.S.C. 1843) provides certain privileges ("grandfather" privileges) with respect to nonbanking activities of a company that, by virtue of the 1970 Amendments to the Bank Holding Company Act, became subject to the Bank Holding Company Act. Pursuant to section 4(a)(2) of the Act, a "company covered in 1970" may continue to engage, either directly or through a subsidiary, in nonbanking activities that such a company was lawfully engaged in on June 30, 1968 (or on a date subsequent to June 30, 1968, in the case of activities carried on as a result of the acquisition by such company or subsidiary, pursuant to a binding written contract entered into on or before June 30, 1968, of another company engaged in such activities at the time of the acquisition), and has been continuously engaged in since June 30, 1968 (or such subsequent date).

Section 4(a)(2) of the Act provides, inter alia, that the Board of Governors of the Federal Reserve System may terminate such grandfather privileges if, having due regard to the purposes of the Act, the Board determines that such action is necessary to prevent an undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices. With respect to a company that controls a bank with assets in excess of $60 million on or after December 31, 1970, the Board is required to make such a determination within a two year period.

Notice of the Board's proposed review of grandfather privileges of The Republic National Bank of Dallas, Dallas, Texas, and an opportunity for interested persons to submit comments and views or request a hearing, has been given (37 FR 22414, 25204). The time for filing comments, views, and requests has expired, and all those received have been considered by the Board in light of the factors set forth in section 4(a)(2) of the Act.

The Republic National Bank of Dallas ("Registrant"), Dallas, Texas, became a bank holding company on December 31, 1970, as a result of the 1970 Amendments to the Act by virtue of Registrant's indirect control of approximately 30 percent of the voting shares of Oak Cliff Bank and Trust Company, Dallas, Texas (assets of about $96 million, as of December 31, 1970). On July 13, 1973, the Board announced its finding that Registrant, a national bank, had authority to continue the activities of its six direct subsidiaries. The Board noted in its announcement that it was considering the question of Registrant's entitlement to grandfather privileges with respect to activities conduced by the Howard Corporation, et al., a group of corporations all the shares of which are held for the benefit of the shareholders of Registrant and, by virtue of section 2(g)(2) of the Act, are deemed to be controlled by Registrant.

On the evidence before it, the Board makes the following findings. Since 1928 the shareholders of Registrant have been the beneficiaries of an affiliated group of corporations under a trusteeship. These organizations, now known as "The Howard Corporation", a Texas trust which will terminate in 1978, was established in 1928. The trusteeship was the outgrowth of a consolidation in which assets ineligible for retention by a national bank were set aside in a separate trust for the benefit of the shareholders of Registrant. The trusteed corporations also have stock interests in 21 other Texas banks.[1] The net income for the Howard Corporation in 1971 amounted to over $3 million, which includes $1.4 million received as the result of equity interests in the earnings of Registrant and other companies. The consolidated assets for all the companies in the group amounted to $153 million as of December 31, 1971.

Registrant claims grandfather privileges for various activities. Republic Commerce Company,[2] Dallas (assets of $24 million as of December 31, 1971), holds 100 percent of the voting shares of Republic Money Orders, Inc., Dallas, the shares of which were received from the Savings and Profit Sharing Retirement Fund for the employees of Registrant, which fund had held the stock from 1959 to 1971. Republic Money Orders owns 100 percent of the stock of Republic Money Orders of California, Inc., Dallas, and each of these firms is engaged in the business of selling and servicing money orders and travelers check. The combined assets of the two companies as of December 31, 1971 amounted to about $33 million. It appears that Registrant may continue its interests in these companies on the basis of grandfather privileges.

Republic National Bank Building Corporation[3] (assets of $706,000 as of December 31, 1971), which was acquired in 1951, operates and manages two buildings occupied by Registrant. Registrant need not rely on grandfather privileges for the continuation of its interest in this company inasmuch as it appears that the activities of the company are permissible on the basis of section 4(c)(1)(A).[4]

[3] Voting for this action: Vice Chairman Mitchell and Governors Sheehan, Bucher and Holland. Absent and not voting: Chairman Burns and Governors Daane and Brimmer.

[1] The Board's action herein is based on Registrant's claim that it controlled only one bank on June 30, 1968, and therefore became a bank holding company covered by the Bank Holding Company Act as a result of the enactment of the 1970 Amendments to the Act. The record shows that Registrant has interests in each of 21 other banks ("minority" banks), interests ranging from 6 to 24.98 percent. The action herein does not constitute a determination by the Board that any of the minority banks is or is not, or may become a subsidiary of Registrant. Nor does the action herein indicate that the Board would in the future permit Registrant to acquire, directly or indirectly, any additional shares of any of said minority banks. Moreover the action herein does not preclude the Board from determining that Applicant exercises control of, or a controlling influence over the management or policies of, any of said banks within the meaning of section 2(a) of the Act.

[2] All the shares of Republic Commerce Company are held for the benefit of the shareholders of Registrant.

[3] All the shares of Republic National Bank Building Corporation are held for the benefit of the shareholders of Registrant.

[4] Section 4(c)(1)(A) of the Act permits a bank holding company (without the approval of the Board) to hold shares of any company engaged in "• • • holding or operating properties used wholly or substantially by any banking subsidiary of such bank holding company in the operations of such banking subsidiary or acquired for such future use;".

V 38 1 80 SEP 18 73 XUM

Exchange Security & Investment Co.[5] (assets of $160,000 as of December 31, 1971) was formed in June, 1970 for the purpose of acquiring Exchange National Life Insurance Company (admitted assets of $638,000 as of December 31, 1971), which was acquired subsequently in November 1970, and reinsures credit life and disability insurance policies. Since these interests were acquired after June 30, 1968, Registrant is not entitled to indefinite grandfather privileges and must reduce its interest to 5 per cent or less of the voting shares by December 31, 1980, unless Registrant obtains Board approval under section 4(c)(8) to retain the interest.

Except for the activities engaged in by the above corporations, the principal activities of the Howard Corporation[6] and its subsidiaries are in the areas of oil, gas, minerals; real estate; lending and/or guaranteeing money and acting as a financial advisor; and owning and holding stocks and bonds in various companies.

The Howard Corporation itself engages directly in managing all the affiliated corporations and, in connection with the management of the affiliated corporations, engages in borrowing and lending money, acting as investment counselor, and furnishing management and financial advisory services. It appears that these activities are eligible for, and may be continually on the basis of, grandfather privileges. The Howard Corporation also holds investments in (1) securities, (2) oil, gas, mineral properties, and (3) real estate activities.

The securities investments of the Howard Corporation appear to be generally permissible for a bank holding company so long as the share holdings in each company do not exceed 5 percent of the outstanding voting shares of the company.[7] Shareholdings of more than 5 percent of the shares of any company (but less than 25 percent of the outstanding shares) which have been held continuously since June 30, 1968, are eligible for grandfather benefits as an investment. However, this determination is not authority to increase that investment interest; nor to make investments in other companies, unless the investment interest in each additional company amounts to not more than 5 percent of the outstanding voting shares of such company.

With respect to oil, gas, and mineral interests, the Howard Corporation and its subsidiaries have investments in approximately 600 interests principally in Texas and Louisiana. Neither the Howard Corporation nor its subsidiaries engage in the developing, mining, drilling, etc., of oil, gas, or other minerals, nor in acting as an operator, servicer, or producer in connection with oil, gas, or mineral activities. On a grandfather basis, Registrant may continue, through the Howard Corporation, the investments in the oil, gas, and mineral properties held on June 30, 1968, and, to the extent necessary to preserve and develop those interests, may continue activities related to the wells, refineries, pipe lines, joint ventures, and land exploration with respect to which the Howard Corporation had investments on June 30, 1968.

United Petroleum Corporation, Dallas (assets of $173,000 as of December 31, 1971), and Walker Properties, Dallas, each of which is 50 percent owned by the Howard Corporation, hold title to and participate as investors in oil, gas, and mineral interests, and participate as investors in drilling and operating oil and gas wells. Pine Island Oil Company (assets of $44,000 as of December 31, 1971), Lake Charles, Louisiana, which is 50 percent owned by the Howard Corporation, owns certain oil, gas, and mineral interests. Walker Louisiana Properties, Louisiana, a joint venture 50 percent owned by the Howard Corporation, owns certain oil, gas and mineral interests, as well as farm and timber land, and participates as an investor in drilling and operating oil and gas wells. Prairie Canal Company (assets of $718,000 as of December 31, 1971), Lake Charles, Louisiana, 32.9 percent of which is owned by the Howard Corporation, owns and holds title to oil, gas and mineral interests. In varying degrees as described below, each of the five entities named above, owns real estate properties as an adjunct to the oil, gas, and mineral interests. To the extent that the oil, gas, and mineral interests described above were held on June 30, 1968, Registrant is entitled to grandfather benefits to retain such investments.

In addition to the above activities of the Howard Corporation and its subsidiaries, Registrant is deemed to control, by virtue of section 2(g)(2) of the Act, MacMor Oil Company, Boyce Oil Company, and MacBean Oil Company, all located in Dallas and owned 100 percent by the Savings and Profit Sharing Retirement Fund for the employees of Registrant. These companies were formed, all prior to June 30, 1968, for the sole purpose of holding title to oil and gas production payments. When all the production payments are paid out, the three organizations will be nothing more than corporate shells. At the present time, only MacMor Oil and MacBean Oil are active, and Registrant may continue its interests in these companies on the basis of grandfather privileges.

In connection with oil, gas, and mineral interests, Registrant, through the Howard Corporation, has made acquisitions of additional mineral interests after June 30, 1968. To the extent that those additional acquisitions were related to and necessary to protect oil, gas, and mineral investments held on June 30, 1968, they may be retained on the basis of grandfather privileges. Investments made during the period from June 30, 1968, to December 31, 1970, that were not so related may be retained until December 31, 1980. Any other investments made after December 31, 1970, and in excess of a 5 percent interest are required by the Act to be reduced to 5 percent or less and this should be effected at the earliest practicable date.

The Howard Corporation acts as a financing partner or investor in real estate. As noted above, Pine Island Oil, Walker Louisiana Properties, Prairie Canal, United Petroleum Company and Walker Properties are each engaged in holding real estate principally as an adjunct to oil, gas, and mineral interests but used also for commercial, residential, and agricultural purposes. The property is not a contiguous tract but scattered acreage throughout southern Louisiana, Texas, and other states.

Three wholly-owned subsidiaries of The Howard Corporation were organized to acquire, hold, manage, operate, and sell real and personal property acquired by Registrant through loan foreclosures. The three subsidiaries, namely, Rheims Corporation (assets of $408,000 as of December 31, 1971), which was acquired in 1958; Fairfax Investment Corporation (assets of $3,300 as of December 31, 1971), which was acquired in 1959; and Westside Investment Corporation (assets of about $100 as of December 31, 1971), which was acquired in 1959); appear to be eligible for retention without reference to grandfather benefits by virtue of section 4(c)(1)(D) of the Act.[8]

The Howard Corporation owns six shopping centers, two in California, three in Texas, and one in Louisiana, all of which were acquired prior to June 30, 1968. Registrant is entitled to retain these properties on the basis of grandfather privileges.

Three other subsidiaries of the Howard Corporation are engaged in real estate ventures. The Oxford Corporation (assets of $1 million as of December 31, 1971), which was acquired in 1969, acts as an investing partner in acquisition, development, operation and sale of realty. The Oxford Corporation has a 50 percent interest in each of two other companies, namely, Westgate Company and Polk Wheatland Company, which engage in activities similar to Oxford's. Inasmuch as Registrant's interest in these corporations was made after June 30, 1968, but before December 31, 1970, the companies do not appear to be entitled to grandfather privileges, and Registrant must reduce its interest to 5 percent or less of the voting shares by December 31, 1980, unless it obtains Board approval to retain its interests.

[5] All the shares of Exchange Security & Investment Co. are held for the benefit of the shareholders of Registrant.

[6] All the shares of the Howard Corporation are held for the benefit of the shareholders of Registrant.

[7] Section 4(c)(6) of the Act permits a bank holding company (without the approval of the Board) to hold "shares of any company which do not include more than 5 per centum of the outstanding voting shares of such company;".

[8] Section 4(c)(1)(D) of the Act permits a bank holding company (withou the approval of the Board) to hold shares of any company engaged in "• • • liquidating assets acquired from such bank holding or its banking subsidiaries • • •."

The Westminister Corporation (assets of $21,000 as of December 31, 1971), a wholly-owned subsidiary of the Howard Corporation, was acquired in 1969 and has as its only assets an option on an oil refinery. Registrant may continue to hold this interest until December 31, 1980.

Since June 30, 1968, Registrant, through the Howard Corporation and its subsidiaries, has purchased real estate or has become a partner and invested in several joint ventures engaged in buying real estate for further development and/or appreciation in value. In many instances, the acquisition was made after December 31, 1970, the date of the 1970 Amendments to the Act, and, on the basis of the prohibitions in section 4 of the Act, impermissible unless Registrant had grandfather privileges for such investments. Registrant should reduce its interest in each joint venture or real estate (acquired after December 31, 1970) to 5 percent or less at the earliest practicable date. With respect to investments in joint ventures or real estate made between June 30, 1970, Registrant had grandfather privileges for such investments. Registrant should reduce its interest in each joint venture or real estate (acquired after December 31, 1970) to 5 percent or less at the earliest practicable date. With respect to investments in joint ventures or real estate made between June 30, 1968, and December 31, 1970, Registrant has until December 31, 1980, to reduce its interest to 5 percent or less. Any interest in a joint venture for real estate or real estate acquired prior to June 30, 1968, may be retained indefinitely together with investments related to or necessary to protect real estate investments held on June 30, 1968.

On the basis of the foregoing and all the facts before the Board, it appears that the volume, scope, and nature of the activities of Registrant described herein and of the Howard Corporation, do not demonstrate an undue concentration of resources, decreased or unfair competition, conflicts of interest, nor unsound banking practices.

There appears to be no reason to require Registrant to terminate its grandfathered interests. It is the Board's judgment that, at this time, termination of the grandfather privileges of Registrant described herein is not necessary in order to prevent an undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices. Except as indicated herein, this determination is not authority to enter into any new activity, or product extension that was not engaged in on June 30, 1968 and continuously thereafter, or any activity that is not the subject of this determination.

A significant alteration in the nature or extension of Registrant's activities or a change in location thereof (significantly different from any described in this determination) will be cause for a reevaluation by the Board of Registrant's activities under the provisions of section 4(a)(2) of the Act, that is, whenever the alteration or change is such that the Board finds that a termination of the grandfather privileges is necessary to prevent an undue concentration of resources or any of the other evils at which the Act is directed. No merger, consolidation, acquisition of assets other than in the ordinary course of business, nor acquisition of any interest in a going concern, to which the Registrant or any nonbank subsidiary thereof is a party, may be consummated without prior approval of the Board. Further, the provision of any credit, property, or service by the Registrant or any subsidiary thereof shall not be subject to any condition which, if imposed by a bank, would constitute an unlawful tie-in arrangement under section 106 of the Bank Holding Company Act Amendments of 1970.

The determination herein does not preclude a later review, by the Board, of Registrant's nonbank activities and a future determination by the Board in favor of termination of grandfather benefits of Registrant. The determination herein is subject to the Board's authority to require modification or termination of the activities of Registrant or any of its nonbanking subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By determination of the Board of Governors,[9] effective September 10, 1973.

[SEAL] CHESTER B. FELDBERG,
*Secretary of the Board.*

## SOUTHEAST BANKING CORP.

### Order Denying Request for Reconsideration

Southeast Banking Corporation, Miami, Florida, has requested reconsideration of the Order of the Board of Governors dated May 29, 1973 whereby the Board denied the application of Southeast Banking Corporation to acquire 80 percent or more of the voting shares of Deland State Bank, Deland, Florida, pursuant to section 3(a)(3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(3)).

Pursuant to § 262.3(g)(5) of the Board's Rules, Applicant requests reconsideration of its original proposal. The Board finds that the request for reconsideration does not present substantially new facts or issues which would appear appropriate in the public interest for the Board to consider. Accordingly, the Board concludes that the request for reconsideration is hereby denied.

[9] Voting for this action: Vice Chairman Mitchell and Governors Daane, Brimmer, Sheehan, Bucher, and Holland. Absent and not voting: Chairman Burns.

By order of the Board of Governors,[1] effective September 10, 1973.

[SEAL] CHESTER B. FELDBERG,
*Secretary of the Board.*

[FR Doc.73-19768 Filed 9-17-73;8:45 am]

## SOUTHWEST FLORIDA BANKS, INC.

### Acquisition of Banks

Southwest Florida Banks, Inc., Fort Myers, Florida, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 80 percent or more of the voting shares of South First Bank, Fort Myers, Florida, and North First Bank, North Fort Myers, Florida, both proposed new banks. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The applications may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Atlanta. Any person wishing to comment on the applications should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than October 8, 1973.

Board of Governors of the Federal Reserve System, September 11, 1973.

[SEAL] THEODORE E. ALLISON,
*Assistant Secretary of the Board.*

## STANDARD AND CHARTERED BANKING GROUP LTD.

### Proposed Acquisition of Mocatta Metals Corp.

Standard and Chartered Banking Group Limited, London, England, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of Mocatta Metals Corporation, New York, New York, a corporation to be formed under the laws of Delaware, which would be a successor corporation to Mocatta Metals Corporation of New York and thereby to indirectly acquire voting shares of the following corporations, which are wholly-owned subsidiaries of Mocatta Metals Corporation of New York: Iron Mountain Depository Corporation, New York, New York; Mocatta Commodities Corporation, New York, New York; Brody, White & Company, Inc., New York, New York; Mocatta Clearing Corporation, New York, New York; and I.M.D. Chicago, Inc., Chicago, Illinois. Notice of the application was published on August 8, 1973 in the New York Post, a newspaper circulated in New York, New York.

[1] Voting for this action: Chairman Burns and Governors Mitchell, Brimmer, Sheehan, Bucher and Holland. Absent and not voting: Governor Daane.

V 38 180 SEP 18 73 XUM

Mocatta metals corporation would directly, and indirectly through its subsidiaries, engage in the activities of trading and arbitraging gold and silver bullion on various exchanges and in the open market, and also in activities related thereto.

Interested persons may express their views on whether such activities are so closely related to banking or managing or controlling banks as to be a proper incident thereto. Interested persons may also express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any requests for a hearing on this question, or on the issue of whether trading and arbitraging gold and silver bullion is closely related to banking or managing or controlling banks as to be a proper incident thereto, should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of San Francisco.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than September 24, 1973.

Board of Governors of the Federal Reserve System, September 10, 1973.

[SEAL] THEODORE E. ALLISON,
*Assistant Secretary of the Board.*

[FR Doc.73-19773 Filed 9-17-73;8:45 am]

## WYOMING BANCORPORATION

### Order Approving Acquisition of Bank

Wyoming Bancorporation, Cheyenne Wyoming, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire indirectly at least 75 percent of the voting shares of Security Bank and Trust Company, Casper, Wyoming ("Bank"), through the direct acquisition of at least 80 percent of the voting shares of Security Bankshares, Inc., Casper, Wyoming ("Corporation"). Corporation owns 95 percent of the voting shares of Bank and no other assets except the land on which Bank's building is located. The proposed acquisition of Corporation is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls 12 banks with aggregate deposits of $160 million, representing 14.4 percent of the total commercial bank deposits held by Wyoming banks and is the largest banking organization in the State. (All banking data are as of December 31, 1972, and reflect acquisitions and formations approved through August 31, 1973.) The acquisition of Bank ($17 million deposits) would increase Applicant's share of State deposits by 1.6 percentage points.

Applicant is the largest and only Wyoming based bank holding company. However, the second and third largest bank holding companies operating in Wyoming are based in California and Utah, with total deposits of $12 billion and $1.3 billion, respectively. The five largest banking organizations in Wyoming control 18 banks and 45 percent of total State deposits. The concentration of deposits within the State is viewed as moderately high considering the small number of banks (71) presently in operation. Only three Wyoming banks hold deposits in excess of $40 million, two of which are subsidiaries of multi-bank holding companies.

Bank, the third largest of five banks located in the City of Casper, controls approximately 7 percent of commercial deposits in the Natrona County market. The two largest banks in the market hold deposits of $110 million and $97 million, respectively, and together control approximately 87 percent of market deposits. Consummation of this proposal would represent Applicant's initial entry into the Natrona County market.

Applicant's nearest subsidiaries to Bank are located 106 miles and 97 miles from Casper. There is no significant present competition between any of Applicant's subsidiaries and Bank. Although Applicant could enter the area de novo (and indeed, has already applied for such a charter) or through the acquisition of a smaller bank, the proposed acquisition would appear to have no net anticompetitive effect on area banking in view of the presence of the two significantly larger banking organizations in the Natrona County market. Consummation of the proposal will undoubtedly enhance Bank's ability to compete in the market area, as well as assist toward some deconcentration of banking resources in this highly concentrated market. The Board concludes that the competitive effects of the proposal are consistent with approval of the application.

The financial condition of Applicant and its subsidiary banks are considered to be satisfactory, and their managements are deemed capable. These same factors are also satisfactory with regard to Bank especially in view of Applicant's commitment to increase Bank's capital accounts. Banking factors are therefor deemed consistent with approval of the application. The record indicates that the major banking needs of the area are being served at the present time. However, the proposed affiliation would enable Bank to compete for larger loans, become more active in the agricultural loan market, and expand its trust services. Accordingly, considerations relating to the convenience and needs of the area are consistent with approval of the application. It is the Board's judgment that consummation of the proposed transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Kansas City pursuant to delegated authority.

By order of the Board of Governors,[1] effective September 11, 1973.

[SEAL] CHESTER B. FELDBERG,
*Secretary of the Board.*

[FR Doc.73-19765 Filed 9-17-73;8:45 am]

## FIRST NATIONAL BOSTON CORP.

### Order Approving Acquisition of Bank

First National Boston Corporation, Boston, Massachusetts, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (exclusive of directors' qualifying shares) of the successor by merger to the Holyoke National Bank, Holyoke, Massachusetts ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with § 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the largest banking organization and bank holding company in Massachusetts, controls one bank with aggregate deposits of $2.7 billion representing about 23 percent of total deposits in commercial banks in the State.[1] Applicant's acquisition of Bank (deposits of $26.9 million) would increase its share of Statewide deposits by .2 percentage points and would not result in any significant increase in the concentration of banking resources in Massachusetts.[2]

Bank is the fourth largest of fifteen commercial banking organizations competing in the Springfield-Chicopee-Holyoke banking market (which is approximated by the Springfield SMSA), controlling 4 percent of market deposits. Applicant's closest existing subsidiary banking office is located more than 90 miles from Bank, and it appears that there is no significant existing competition between Bank and any of Applicant's subsidiary banking offices. Due to the distance separating bank and Applicant's existing subsidiary banking offices and Massachusetts' restrictive branching laws, it appears unlikely that any significant competition would develop between the institutions in the future. Additionally, the three largest banks in the market control more than 76 percent of such deposits and consummation of the proposal would have a procompetitive effect by enhancing Bank's ability to compete with the larger institutions.

The financial and managerial resources and future prospects of Applicant and its subsidiary bank are satisfactory and consistent with approval. Bank faces a management succession problem. It is expected that Applicant will take steps to resolve Bank's management succession problem and this factor lends some weight toward approval of the application. Other considerations with respect to the financial and managerial resources and future prospects of Bank are consistent with approval.

Applicant proposes to offer through Bank new and improved services, including increased interest rates on savings deposits, additional types of consumer installment loans, and automated payroll services. Since some of the proposed new services are not currently available in Holyoke, consummation of this proposal will increase the convenience of Holyoke residents. Accordingly, considerations relating to the convenience and needs of the communities to be served are consistent with and lend some weight toward approval of the application. It is the Board's judgment that the transaction is in the public interest and should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Boston pursuant to delegated authority.

By order of the Board of Governors,[3] effective September 4, 1973.

[SEAL] THEODORE E. ALLISON,
*Assistant Secretary of the Board.*

[FR Doc.73-19760 Filed 9-17-73;8:45 am]

[1] Voting for this action: Chairman Burns and Governors Mitchell, Sheehan, Bucher and Daane. Absent and not voting: Governor Brimmer.

[1] Banking data are as of June 30, 1972, adjusted to reflect holding company formations and acquisitions approved through July 31, 1973.

[2] By Order of this date, the Board approved Applicant's acquisition of both First Bank and Trust Company of Wellesley and Burlington Bank and Trust Company, which together control 0.2 percentage points of Statewide deposits.

[3] Voting for this action: Chairman Burns and Governors Brimmer, Sheehan, Bucher and Holland. Absent and not voting: Governors Mitchell and Daane.

## FEDERAL TRADE COMMISSION

### CIGARETTE TESTING

### Tar and Nicotine Content

The Federal Trade Commission's laboratory has determined the "tar" (dry particulate matter) and total alkaloid (reported as nicotine) content of 130 varieties of domestic cigarettes. The laboratory utilized the Cambridge filter method with the specifications set forth in the Commission's announcement dated July 31, 1967 (32 FR 11178). The varieties are arranged in alphabetical order with tar values rounded to the nearest whole milligram and nicotine values rounded to the nearest tenth of a milligram.

## QUARTERLY FINANCIAL STATISTICS PROGRAM

### Confidential Individual Company Data

Notice is hereby given that the Federal Trade Commission has amended Paragraphs 3, 7 and 8 of the rules and procedures as heretofore published (July 13, 1973, 38 FR 18720) to read as follows:

1. The third paragraph, Authorized access and use, is amended as follows:

*Authorized access and use.* Access to and use of individual company data within the FTC is restricted to members of the Division of Financial Statistics and the Statistical Reports Unit of the Economic Research and Services Section, both of which are part of the Bureau of Economics and both of which have no involvement in any investigative or regulatory functions of the Federal Trade Commission. Access by members of the Division of Management is authorized only during and for the purpose of electronic processing of such data. Access to these data by other government agencies may be granted by specific approval of the Commission with the understanding that the same confidentiality structures apply with respect to the individual company data. Any angency which is granted access will be responsible for disclosure analysis consistent with these guidelines.

2. The seventh paragraph is amended as follows:

Under no conditions may the individual company data reported on the QFR schedule be used for, or in the course of, any enforcement action or enforcement investigation. Therefore, all persons not on the staffs of the Statistical Report Unit or Division of Financial Statistics, unless from another government agency under conditions described above, will not be granted access to individual company information in the QFR files or data records; nor will personnel from either of these two units engage in any activity of the Commission which involves regulation or investigation, nor prepared any reports utilizing QFR data for such purposes while assigned to those units. Any employee who transfers into or out of either of the units will be formally notified in writing that he is subject to Section 10 of the Federal Trade Commission Act, the above-cited Commission Resolution, and these Rules, which prohibit disclosure, discussion, or release of these data to any unauthorized person.

3. The eighth paragraph is amended as follows:

Security of individual company QFR data. All individual company QFR schedules and data records at the Federal Trade Commission must at all times be under the security and superivsion of the staff of either the Statistical Reports Unit or the Division of Financial Statistics, except during electronic data processing when the Chief, Division of Management, shall be responsible for their security, and except when the Commission has approved their use by another government agency under conditions described above.

By direction of the Commission dated September 12, 1973.

[SEAL] CHARLES A. TOBIN,
*Secretary.*

## GENERAL SERVICES ADMINISTRATION

### Public Buildings Service

[Wildlife Order 110]

### NATIONAL GUARD TRAINING AREA, FORT CROWDER, NEWTON COUNTY, MO.

### Transfer of Property

Pursuant to section 2 of Public Law 537, Eightieth Congress, approved May 19, 1948 (16 U.S.C. 667c), notice is hereby given that:

1. By a deed from the United States of America dated July 17, 1973, the property known as a portion of the National Guard, Training Area, Fort Crowder Missouri, consisting of approximately 150 acres of unimproved land, and more particularly described in said deed, has been conveyed to the State of Missouri.

2. The above described property was transferred for wildlife purposes in accordance with the provisions of section 1 of said Public Law 537 (16 U.S.C. 667b).

Dated September 10, 1973.

L. F. ROUSH,
*Commissioner,*
*Public Buildings Service.*

## NATIONAL ADVISORY COMMITTEE ON OCEANS AND ATMOSPHERE

### NOTICE OF PARTIALLY CLOSED MEETING

SEPTEMBER 13, 1973.

The National Advisory Committee on Oceans and Atmosphere (NACOA) will hold a 3-day meeting on September 27–29. The first session, Thursday the 27th, will be closed to the public under authorization of the Assistant Secretary of Commerce for Administration, in a determination dated September 7, 1973, and cosigned by the General Counsel, which finds that the session is concerned with matters listed in section 552(b) of title 5, United States Code. The other two sessions will be open to the public. All sessions will be held in room 6802 of the U.S. Department of Commerce Building, 15th and Constitution NW., Washington, D.C. The Thursday session will commence at 10 a.m., the others will begin at 9 a.m.

The Committee, consisting of 25 non-Federal members appointed by the President from State and local governments, industry, science, and other appropriate areas, was established by Congress by Public Law 92–125, on August 16, 1971. Its duties are to: (1) Undertake a continuing review of the progress of the marine and atmospheric science and service programs of the United States, (2) submit a comprehensive annual report to the President and to the Congress setting forth an overall assessment of the status of the Nation's marine and atmospheric activities on or before June 30 of each year, and (3) advise the Secretary of Commerce with respect to the carrying out of the purposes of the National Oceanic and Atmospheric Administration.

A general agenda consists of the following topics:

Thursday the 27th—discussion of pending legislation affecting the organization of oceanic and atmospheric affairs and congressional testimony by various NACOA members.

Friday the 28th—development of a committee work plan for the coming year and presentation of agency briefings on marine pollution.

Saturday the 29th—further agency briefings on marine pollution.

At open sessions, the public will be admitted to the extent of the very limited seating available on a first come, first served basis. Questions from the public will be permitted during specific periods announced by the Chairman. Persons wishing to make formal statements must notify the Chairman in advance of the meeting. The Chairman retains the prerogative to place limits on the duration of oral statements and discussions. Written statements may be submitted before or after each session.

Additional information concerning this meeting may be obtained through the Committee's Executive Director, Dr. Douglas L. Brooks, whose mailing address is: National Advisory Committee on Oceans and Atmosphere, Department of Commerce Building, Room 5225, Washington, D.C. 20230. The telephone number is 967–3343.

DOUGLAS L. BROOKS,
*Executive Director.*

## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 73-73]

### NASA INFRARED TELESCOPE SITE EVALUATION ADVISORY COMMITTEE

### Notice of Meeting

The NASA Infrared Telescope Site Evaluation Advisory Committee will meet at the Headquarters of the National Aeronautics and Space Administration on September 17 and 18, 1973. The meeting will be held in Room 6004 of Federal Office Building 6, located at 400 Maryland Avenue, SW., Washington, DC 20546. The meeting will be closed to members of the public on both days.

The NASA Infrared Telescope Site Evaluation Advisory Committee serves in a consultative capacity to the National Aeronautics and Space Administration to advise NASA on the evaluation of alternative sites for a large aperture ground-based infrared telescope in anticipation of approval of the project. For further information regarding the meeting, please contact Dr. Arthur L. Lane at 202–755–3760.

The Committee will hear presentations on, discuss, compare and evaluate proposed sites and concepts for the large aperture ground-based infrared telescope. The meeting will be closed as the information to be reviewed is proprietary in nature, containing data on proposed operations and confidential statistical data of universities and industrial concerns. The Committee will discuss the strengths and weaknesses of the individual sites and associated sponsoring organizations.

HOMER E. NEWELL,
*Associate Administrator, National Aeronautics and Space Administration.*

## SECURITIES AND EXCHANGE COMMISSION

### FIRST INTERNATIONAL BANCSHARES, INC., ET AL.

### Applications for Unlisted Trading Privileges and of Opportunity for Hearing

SEPTEMBER 10, 1973.

The PBW Stock Exchange, Inc., has filed applications with the Securities and Exchange Commission pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f–1 thereunder, for unlisted trading privileges in the common stocks of the following companies, which securities are listed and registered on one or more other national securities exchanges:

| | File No. |
|---|---|
| First International Bankshares, Inc. | 7–4450 |
| Houston Oil & Minerals Corporation | 7–4451 |
| International Systems & Controls Corporation | 7–4452 |
| King Radio Corporation | 7–4453 |
| MGIC Investment Corporation | 7–4454 |
| Reserve Oil & Gas Company | 7–4455 |

Upon receipt of a request, on or before September 26, 1973, from any interested person, the Commission will determine whether the application with respect to any of the companies named shall be set down for hearing. Any such request should state briefly the title of the security in which he is interested, the nature of the interest of the person making the request, and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on any of the said applications by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549 not later than the date specified. If no one requests a hearing with respect to any particular application, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
*Secretary.*

### MOTOROLA, INC.

### Application for Unlisted Trading Privileges and of Opportunity for Hearing

SEPTEMBER 10, 1973.

The Boston Stock Exchange has filed an application with the Securities and Exchange Commission pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f–1 thereunder, for unlisted trading privileges in the common stock of the following company, which security is listed and registered on one or more other national securities exchange:

Motorola, Inc. ----------File No. 7–4445

Upon receipt of a request, on or before September 26, 1973 from any interested person, the Commission will determine whether the application shall be set down for hearing. Any such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on the said application by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549 not later than the date specified. If no one requests a hearing, this application will be determined by order of the Commission on the

V38-180 SEP 18 73 XUM

basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
*Secretary.*

## COST OF LIVING COUNCIL

[Order 41]

### ADMINISTRATOR, OFFICE OF PRICE STABILIZATION

#### Delegation of Authority

Pursuant to the authority vested in me as Director of the Cost of Living Council by Cost of Living Council Order Nos. 14 and 29, it is hereby ordered as follows:

1. There is delegated to the Administrator, Office of Price Stabilization, subject to the general policy guidance of and in coordination with the Director of the Cost of Living Council, or his delegate, authority to:

(a) Make decisions and issue orders with respect to prenotified price increases and all other filings requiring decisions except in those cases for which specific authority to do so is delegated to the Commissioner of Internal Revenue, the Administrator, Office of Health, or the Administrator, Office of Food.

(b) Make decisions and issue orders with respect to individual requests for exceptions from firms or for class exceptions, except in those cases for which specific authority to do so is delegated to the Commissioner of Internal Revenue, the Administrator, Office of Health, or the Administrator, Office of Food.

(c) Make decisions and issue order with respect to all requests for reconsideration of adverse actions taken by the Cost of Living Council or the Internal Revenue Service except with respect to those cases for which specific authority to do so is delegated to the Commissioner of Internal Revenue, the Administrator, Office of Health, or the Administrator, Office of Food.

(d) Request information and conduct hearings with respect to functions delegated in this paragraph.

2. Paragraphs 1 and 2 of Cost of Living Council Order No. 25 are hereby revoked.

3. The Administrator, Office of Price Stabilization may redelegate to personnel within the Office of Price Stabilization any authority delegated to him by this order.

4. In exercising the authority delegated by this order or redelegated pursuant thereto officials of the Cost of Living Council shall be governed by the regulations and rulings of the Cost of Living Council and by the policies, procedures, and controls prescribed by the Director of the Cost of Living Council, or his delegate.

5. Actions taken by the Administrator, Office of Price Stabilization, under paragraph 1(c) of this order, are administratively final. Review of these actions may be sought in the appropriate Federal district court pursuant to section 211 of the Economic Stabilization Act of 1970, as amended (Public Law 92-210, 85 Stat. 744).

6. This order is effective August 13, 1973.

JOHN T. DUNLOP,
*Director,*
*Cost of Living Council.*

[FR Doc.73-19977 Filed 9-17-73;8:45 am]

## INTERSTATE COMMERCE COMMISSION

[Ex Parte 299 (Sub-No. 1)]

### FREIGHT RATES AND CHARGES—1973

#### Increase to Offset Retirement Tax; Long Island Rail Road Co.

*It is ordered,* That the petition in Ex Parte No. 299 be, and it is hereby, granted to the extent indicated in the report[1] and it is denied in all other respects; that the petitioners therein be, and they are hereby, permitted to establish an interim increase in their rates and charges of 1.9 percent to become effective on October 1, 1973, and an interim increase of 2.6 percent to become effective, in lieu of the 1.9-percent increase, on January 1, 1974, upon not less than 15 days' notice to the general public and to this Commission, subject to the refund rule in the proposed tariff.

*It is further ordered,* That in the hearing to be hereafter held herein in Ex Parte No. 299, in accordance with section 15a(4)(c) of the Interstate Commerce Act, the carrier petitioners shall submit for the record any productivity gains experienced in the third quarter of 1973, and the effect on 1974 projections, including evidence to substantiate those projections, as required by the statute and Ex Parte No. 298.

*It is further ordered,* That at the subsequent hearing in Ex Parte No. 299, the railroads shall submit for the record an explanation of why the excepted rates and charges shall not be increased without awaiting renewal of individual arrangements, and of the amount of the additional revenue which would be obtained therefrom.

*It is further ordered,* That in the hearing to be hereafter held herein in Ex Parte No. 299, the carriers shall submit for the record a plan to correct the variations among individual railroads in the amount of increased retirement taxes offset by the additional revenues, as exemplified in the report.

*It is further ordered,* That any person interested in this proceeding, in Ex Parte No. 299, shall notify this Commission, by filing with the interstate Commerce Commission, Office of Proceedings, Room 5354, Washington, D.C. 20423, on or before October 10, 1973, the original and one copy of a statement of his interest. Inasmuch as the Commission desires wherever possible (a) to conserve time, (b) to avoid unnecessary expense to the public, and (c) the service of pleadings by parties in proceedings of the type only upon those who intend to take an active part in the proceeding, the statement of intention to participate shall include a specification of the extent of such person's interest, including (1) whether such interest extends merely to receiving Commission releases in this proceeding, (2) whether he genuinely wishes to participate in the formal proceeding, (3) if he so desires to participate as described in (2), whether he will consolidate or is capable of consolidating his interests with those of other interest parties by filing joint statements in order to limit the number of copies of pleadings that need be served, such consolidation of interest being strongly urged by the Commission, and (4) any other pertinent information which will aid in limiting the service list to be used in this proceeding; and that this Commission shall then prepare and make available to all such persons a list containing the names and addresses of all parties desiring to participate in this proceeding, and shall designate the nature of further proceedings.

*It is further ordered,* That the petition in Ex Parte No. 299 (Sub-No. 1) be, and it is hereby, denied, without prejudice to refiling in conformity with the statute and with the requirements of Ex Parte No. 298.

*It is further ordered,* That notice of the entry of this report and order shall be given to the general public by depositing a copy in the office of the Secretary of the Commission, and by filing a copy with the Director, Office of the Federal Register, for publication therein.

By the Commission.

[SEAL] ROBERT L. OSWALD,
*Secretary.*

[FR Doc.73-19818 Filed 9-17-73;8:45 am]

[1] Report and statements of Commissioners Harden and O'Neal are filed as part of the original document.

### MOTOR COMMON CARRIERS OF HOUSEHOLD GOODS

#### Extension of Time

SEPTEMBER 11, 1973.

At the request of Mrs. Grace Polk Stern and other parties, the time for filing representations in this proceeding has been further extended to October 1, 1973 (37 FR 15466, 24799 and 38 FR 19946).

[SEAL] ROBERT L. OSWALD,
*Secretary.*

[FR Doc.73-19815 Filed 9-17-73;8:45 am]

[Notice 353]

### MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before October 8, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74554. By order of September 11, 1973, the Motor Carrier Board approved the transfer to R-C Transfer, Inc., Coos Bay, Oreg., of Certificate No. MC-112740 issued December 21, 1960, to Gene Dagostini, doing business as Gene Dagostini Wholesale Produce, Coos Bay, Oreg., authorizing the transportation of lumber from Glendale, Oreg., to points in a described part of California—Mr. Earle V. White, Attorney at Law, White & Southwell, 2400 SW. Fourth Avenue, Portland, Oreg. 97201.

No. MC-FC-74617. By order entered September 11, 1973, the Motor Carrier Board approved the transfer to E. I. Brandt Trucking Co., Inc., Yuba City, Calif., of the operating rights set forth in Certificate No. MC-52323, issued April 11, 1942, to E. I. Brandt, Yuba City, Calif., authorizing the transportation of beans, dried fruits, nails, corrugated iron, honey, and grain, from, to, and between specified points in California—Robert M. Cole, 219 E Street, P.O. Box 250, Davis, Calif. 95616, attorney for applicants.

No. MC-FC-74623. By order entered September 12, 1973, the Motor Carrier Board approving the transfer to Ackerman Motor Lines, Inc., Hackettstown, N.J., of that portion of the operating rights set forth in Certificate No. MC-134221, issued July 23, 1970, to C. B. L. Trucking & Leasing, Inc., authorizing the transportation of general commodities, with the usual exceptions, between New York, N.Y., points in Essex, Union, Hudson, Berger, Passaic, Morris, and Middlesex Counties, N.J., on the one hand, and, on the other, points in a defined area in Pennsylvania—Herbert Burstein, One World Trade Center, New York, N.Y. 10048, attorney for applicants.

No. MC-FC-74625. By order entered September 12, 1973, the Motor Carrier Board approved the transfer to C. B. L. Trucking & Leasing, Inc., Delanco, N.J., that portion of the operating rights set forth in Certificate No. MC-135648, issued November 18, 1971, to Ackerman Motor Lines, Inc., Hackettstown, N.J., authorizing the transportation of general commodities, with specified exceptions, between New York, N.Y., on the one hand, and, on the other, points in Hunterdon and Warren Counties, N.J.—Herbert Burstein, One World Trade Center, New York, N.Y. 10048, attorney for applicants.

No. MC-FC-74647. By order entered September 13, 1973, the Motor Carrier Board approved the transfer to Nooney Bus Lines, Inc., Roanoke Rapids, N.C., of the operating rights set forth in Certificate No. MC-103734 (Sub-No. 2), issued by the Commission May 9, 1947, to J. H. Hammack, Gasburg, Va., authorizing the transportation of passengers and their baggage, and express, newspapers and mail, in the same vehicle with passengers, over specified routes, between Lawrenceville, Va., and Roanoke Rapids, N.C.; and between South Hill, Va., and junction Virginia Highways 46 and 626, serving specified intermediate points—J. Ruffin Bailey, P.O. Box 2246, Raleigh, N.C. 27602, attorney for applicants.

*Secretary.*

[FR Doc.73-19817 Filed 9-17-73;8:45 am]

[Notice No. 124]

### MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

SEPTEMBER 12, 1973.

The following are notices of filing of application (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 27500 (Sub-No. 8 TA), filed August 28, 1973. Applicant: MISHAK TRUCK LINE, INC., 320 7th Avenue North, Clear Lake, Iowa 50428. Applicant's representative: Larry D. Knox, 9th Floor, Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, from the plantsite of Keystone Steel & Wire at or near Peoria, Ill., to points in Iowa, Minnesota, South Dakota, and North Dakota, for 180 days. SUPPORTING SHIPPER: Keystone Steel & Wire, Highway 24 South, Peoria, Ill. 61607. SEND PROTESTS TO: Herbert W. Allen, Transportation Specialist, Interstate Commerce Commission, Bureau of Operations, 875 Federal Building, Des Moines, Iowa 50309.

No. MC 44913 (Sub-No. 11 TA), filed August 31, 1973. Applicant: E. ROSCOE WILLEY, INC., Post Office Box 116, Secretary, Md. 21664. Applicant's representative: Daniel B. Johnson, 716 Perpetual Building, 1111 E Street NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal Cans and closures*, from Cambridge, Md., to Suffolk, Va., for 180 days. SUPPORTING SHIPPER: National Can Corporation, 727 South Wolf Street, Baltimore, Md. 21231. SEND PROTESTS TO: Robert D. Caldwell, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 12th Street and Constitution Avenue NW., Washington, D.C. 20423.

No. MC 50069 (Sub-No. 463 TA), filed September 4, 1973. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sulphur acid*, in bulk, from Oregon, Ohio, to Elkhart, Ind., for 180 days. SUPPORTING SHIPPER: Coulton Chemical Corporation, 1400 Otter Creek Road, Oregon, Ohio. SEND PROTESTS TO: Keith D. Warner, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 313 Federal Office Bldg., 234 Summit Street, Toledo, Ohio 43604.

federal register
Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

# List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

## Title 3—The President

PROCLAMATION 4244

## Child Health Day, 1973

*By the President of the United States of America*

### A Proclamation

There are few things in life more delightful than the sight of healthy children—enjoying their youth and looking forward to a long and fulfilling life. One of our most important national responsibilities is the assurance of full and healthy development for the children of America.

Parents, of course, have the primary responsibility for the health of their children and the home is the greatest single influence on child development. But the responsibility for child health is also shared by a wide range of the institutions which help meet children's needs. In a sense, almost everything we do as a people to foster better social, economic and environmental conditions can have an impact for good on the health of the American child.

Each year since 1928, we have set aside one day as Child Health Day to recognize the enormity of our individual and national responsibility and to reaffirm our commitment to child health.

By joint resolution of May 18, 1928, as amended (36 U.S.C. 143), the Congress requested the President to issue annually a proclamation declaring the first Monday in October as Child Health Day.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby proclaim Monday, October 1, 1973, as Child Health Day. I invite all citizens, agencies and organizations concerned with child health to join in such activities as will help alert all Americans to the vital importance of improving child health.

IN WITNESS WHEREOF, I have hereunto set my hand this seventeenth day of September, in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred ninety-eighth.

Richard Nixon

# Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

## Title 5—Administrative Personnel

### CHAPTER I—CIVIL SERVICE COMMISSION

### PART 213—EXCEPTED SERVICE

#### Department of Housing and Urban Development

Section 213.3384 is amended to show that one position of Director, Urban Program Coordination, is no longer excepted under Schedule C, and that one position of Assistant to the Secretary (Public Affairs) is excepted under Schedule C.

Effective on September 19, 1973, § 213.3384(a)(43) is revoked and § 213.3384(a)(53) is added as set out below.

**§ 213.3384 Department of Housing and Urban Development.**

(a) *Office of the Secretary.* • • •

(43) [Revoked]

• • • • • •

(53) Assistant to the Secretary (Public Affairs).

• • • • • •

((5 U.S.C. secs. 3301, 3302), E.O. 10577, 3 CFR 1954–58 Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
*Executive Assistant to the Commissioners.*

[FR Doc.73–19954 Filed 9–18–73;8:45 am]

## Title 6—Economic Stabilization

### CHAPTER I—COST OF LIVING COUNCIL

### PART 150—COST OF LIVING COUNCIL PHASE IV PRICE REGULATIONS

#### Certain Exemption Relating to the Sale of Petroleum Products

The purpose of these amendments is to clarify which exemptions the Cost of Living Council intends to apply to a seller of "covered products" of petroleum as defined in Subpart L of Part 150.

Under the prior regulations, the small business exemption was not applicable to a firm which was engaged in the business of selling covered products. Thus, any seller of covered products who would otherwise qualify for the small business exemption was disqualified entirely due to the sale of the petroleum products. The amendment makes it clear that it is the intent of the Council to regulate only the sale of the covered products. Sales of products other than covered products are exempt if the seller otherwise meets the requirements of the exemption.

The small retailer exemption is also amended to conform with the same policy expressed in the amended small business exemption provisions. The small retailing or restaurant exemption had inadvertently not been restricted in the same manner as the small business exemption in regard to sales of covered products. This amendment now provides that price adjustments to petroleum products are not covered by the small retailing exemption although all other activities of the small retailer remain exempt.

Because the purpose of these amendments is to provide immediate guidance as to Cost of Living Council decisions, I find that publication in accordance with normal rulemaking procedures is impracticable and that good cause exists for making this amendment effective in less than 30 days. Interested persons may submit comments regarding these amendments. Communications should be addressed to the Office of General Counsel, Cost of Living Council, Washington, D.C. 20508.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92-210, 85 Stat. 743; Pub. L. 93-28, 87 Stat. 27; E.O. 11695, 38 FR 1473; E.O. 11730, 38 FR 19345; Cost of Living Council Order No. 14, 38 FR 1489.)

In consideration of the foregoing, Chapter I of Title 6 of the Code of Federal Regulations is amended as follows, effective immediately.

Issued in Washington, D.C., on September 17, 1973.

JOHN T. DUNLOP,
*Director,*
*Cost of Living Council.*

1. Section 150.54(1) is amended to read as follows:

**§ 150.54 Certain Price Adjustments.**

• • • • • •

(1) *Small retailing or restaurant activities.* Price adjustments, except price adjustments to "covered products" as defined in Subpart L, of firms with annual sales or revenues of less than $100,000 which are primarily engaged in retailing or restaurant activities are exempt.

2. Section 150.60(a)(2)(v) is amended to read as follows:

**§ 150.60 Small Business: Exemption of firms with 60 or fewer employees.**

(a) *Applicability to firms existing on or before March 31, 1973.*

• • • • • •

(2) *Exemption not applicable.* The exemption provided for in paragraph (a)(1) of this section shall not be applicable to:

• • • • • •

(v) The sale of any "covered products" as defined in Subpart L.

3. Section 150.60(b)(2)(vi) is amended to read as follows:

**§ 150.60 Small business: Exemption of firms with 60 or fewer employees.**

• • • • • •

(b) *Applicability to firms coming into existence on or after April 1, 1973.*

• • • • • •

(2) *Exemption not applicable.* The exemption provided for in paragraph (b)(1) of this section shall not be applicable to:

• • • • • •

(vi) The sale of any "covered products" as defined in Subpart L.

## Title 7—Agriculture

### CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

### PART 981—HANDLING OF ALMONDS GROWN IN CALIFORNIA

#### Salable and Reserve Percentages for the 1973–74 Crop Year

Notice of proposed salable and reserve percentages of 100 and 0 percent, respectively, for California almonds for the 1973–74 crop year was published in the August 28, 1973, issue of the FEDERAL REGISTER (38 FR 22966). The 1973–74 crop year began July 1, 1973.

The proposal was unanimously recommended by the Almond Control Board pursuant to the provisions of the marketing agreement, as amended, and Order No. 981, as amended (7 CFR Part 981), regulating the handling of almonds grown in California. The marketing agreement and order program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). No export percentage for reserve almonds was recommended by the Board because of its recommendation for a reserve percentage of 0 percent.

The notice afforded interested persons opportunity to submit written data, views, or arguments with respect to the proposal. No comments were received within the prescribed time. One comment was received after the prescribed time concurring with the proposal.

V 38-181 SEP 1973 XUM

The proposal was partly based on the following estimates (kernel weight basis) made by the Board for the crop year beginning July 1, 1973:

(1) Production of 155 million pounds;

(2) Trade demand for domestic almonds of 75 million pounds;

(3) Handler carryover of 16 million pounds on July 1, 1973;

(4) Desirable handler carryover of 21 million pounds on June 30, 1974;

(5) Trade demand and desirable handler carryover requirements for 1973 crop almonds of 80 million pounds (item 2 plus 4 minus 3); and

(6) Export requirements of 75.0 million pounds.

The Board also considered the strong world demand for almonds and the estimated shortage in available world supplies. The resulting demand for California almonds is very strong in all markets, and buyers are actively bidding for California almonds. The Board concluded that handlers may find difficulty meeting the needs of all their customers. The percentages for the 1973–74 crop year of 100 percent salable and 0 percent reserve should provide handlers maximum flexibility in the disposition of their almonds.

The estimated season average price to producers for 1973 crop almonds is likely to exceed parity. Trade information indicates that much of the 1973 crop has been sold in advance at f.o.b. California prices which would return to growers prices well in excess of the parity level.

After consideration of the Board's recommendation and supporting information and other available information, it is found that to establish salable and reserve percentages as hereinafter set forth will tend to effectuate the declared policy of the act.

It is further found that good cause exists for not postponing the effective time until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) because: (1) This action is applicable to operations under the order during the 1973–74 crop year, which began July 1, 1973; (2) this action will require no advance preparation by handlers; (3) this action places no restrictions on handlers; and (4) no useful purpose would be served by delaying this action.

Therefore, the salable and reserve percentages for almonds received by handlers for their own accounts during the 1973–74 crop year are established as follows:

**§ 981.223 Salable and reserve percentages for almonds during the crop year beginning July 1, 1973.**

The salable and reserve percentages during the crop year beginning July 1, 1973, shall be 100 and 0 percent, respectively.

(Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674).)

Dated September 14, 1973.

CHARLES R. BRADER,
*Acting Deputy Director,*
*Fruit and Vegetable Division.*

## CHAPTER X—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; MILK), DEPARTMENT OF AGRICULTURE

[Milk Order No. 50]

### PART 1050—MILK IN THE CENTRAL ILLINOIS MARKETING AREA

#### Order Suspending a Certain Provision

This order of suspension is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Central Illinois marketing area.

It is hereby found and determined that for the months of September and October 1973 the following provision of the order does not tend to effectuate the declared policy of the Act:

In § 1050.12, paragraph (a)(2).

*Statement of consideration.* This suspension will continue for the months of September and October 1973 the effect of a current suspension order which removed the total route sales percentage requirement for distributing plants. The action thereby will enable a distributing plant that meets only the in-area route sales requirement specified in the order to qualify as a pool plant during those months.

The suspension action was requested by Prairie Farms Dairy, Inc., a cooperative association that operates a pool distributing plant under the order. The association bases its request on the record of a hearing held in Bridgeton, Missouri, on May 23, 1973, and on a recommended decision in this matter issued on July 23, 1973, which would modify the pool distributing plant performance standards. Cooperatives representing a majority of the producers on the market supported the suspension at the hearing.

Without this suspension, proponent's plant will not be able to qualify as a pool plant during the months of September and October. As a result, a substantial number of dairy farmers supplying the market will lose their producer status.

It is hereby found and determined that notice of proposed rulemaking, public procedure thereon, and thirty days' notice of the effective date hereof is impractical, unnecessary and contrary to the public interest in that:

(a) This suspension is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area;

(b) This suspension order does not require of persons affected substantial or extensive preparation prior to the effective date; and

(c) This suspension continues the effect of a previous suspension of the same provision. The modification of the pooling provisions was considered at a hearing at Bridgeton, Missouri, on May 23, 1973. The recommended decision issued on July 23, 1973, recommended a modification of the present pooling provisions. There is no indication of any opposition to this suspension.

Therefore, good cause exists for making this order effective with respect to producer milk deliveries during September and October 1973.

*It is therefore ordered,* That the aforesaid provision of the order is hereby suspended for the months September and October 1973.

(Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674.)

Effective date.—September 19, 1973.

Signed at Washington, D.C., on September 14, 1973.

CLAYTON YEUTTER,
*Assistant Secretary.*

## CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

[CCC Grain Price Support Regulations, 1973 Crop Corn Supplement]

### PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

#### Subpart—1973 Crop Loan and Purchase Program

*Correction*

In FR Doc. 73-18516 appearing at page 23935 for the issue of Wednesday, September 5, 1973, make the following changes:

1. In the introductory paragraph of § 1421.116, in the fifteenth line, add "(1)" after the word "based"; and in the seventeenth line, add "(2)" between the words "and" and "on."

2. a. In paragraph (a) of § 1421.116, under the *"Rate per bushel"* headings make the following changes: (1) For "Mills" county in Iowa change "1.03" to read "1.05", (2) for "Ellis" county in Kansas change "1.14" to read "1.107", and (3) for "Kent" county in Michigan change "1.09" to read "1.10."

b. Under the entry for "Oregon", add the following:

| | |
|---|---|
| All counties | $1.23 |

## Title 17—Commodity and Securities Exchanges

## CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release Nos. 33-5418, 34-10370, 35-18079, 40-7973]

### PART 210—FORM AND CONTENT OF FINANCIAL STATEMENTS, SECURITIES ACT OF 1933, SECURITIES EXCHANGE ACT OF 1934, PUBLIC UTILITY HOLDING COMPANY ACT OF 1935, AND INVESTMENT COMPANY ACT OF 1940

#### Disclosure of Compensating Balances; Extension of Effective Date

This release amends Rule 5-02-1 (paragraph 1 of § 210.5-02 of 17 CFR Part 210) as it relates to the disclosure of compensating balances to defer for sixty days the date after which disclosure will be required on interim balance sheets while the Commission continues to consider comments received on proposed changes in rules and guidelines for compensating balances. Paragraph 1 of § 210.5-02 is hereby amended by changing August 31, 1973 in the last line to October 31, 1973, as given below:

**§ 210.5-02 Balance sheets.**

* * * * *

1. Cash and cash items.—State separately (a) cash on hand and demand deposits; (b) funds subject to repayment on call or immediately after the date of the balance sheet required to be filed; (c) time deposits; and (d) other funds, the amounts of which are known to be subject to withdrawal or usage restrictions, e.g. as compensating balances or special purpose funds. The general terms and nature of such repayment provisions and withdrawal or usage restrictions shall be described in a note referred to herein. Funds subject to withdrawal or usage restrictions shall not be included under this caption unless they are reasonably expected to become available for current operations within one year. The requirement of this paragraph relating to disclosure of compensating balances is effective for financial statements covering periods beginning on or after December 30, 1972, but in no event shall such disclosure be required for financial statements filed prior to October 31, 1973.

* * * * *

The amendment to Rule 5-02-1 of Regulation S-X is adopted pursuant to the authority conferred on the Commission by the Securities Act of 1933, particularly sections 6, 7, 8, 10, and 19(a) thereof; the Securities Exchange Act of 1934, particularly section 12, 13, 15(d), and 23(a) thereof; the Public Utility Holding Company Act of 1935, particularly sections 5(b), 14, and 20(a) thereof; and the Investment Company Act of 1949, particularly sections 8, 30, 31(c) and 38(a) thereof.

(Secs. 6, 7, 8, 10, 19(a), 48 Stat. 78, 79, 81, 85, secs. 205, 209, 48 Stat. 906, 908, sec. 8, 68 Stat. 685, (15 U.S.C. 77f, 77g, 77h, 77j, 77s); secs. 12, 13, 15(d), 23(a), 48 Stat. 892, 894, 895, 901, secs. 3, 8, 49 Stat. 1377, 1379, secs. 3, 4, 6, 10, 78 Stat. 565, 569, 570, 580, secs. 1, 2, 84 Stat. 1497, (15 U.S.C. 78l, 78m, 78o(d), 78w); secs. 5(b), 14, 20(a), 49 Stat. 812, 827, 833, (15 U.S.C. 79e, 79n, 79t); secs. 8, 30, 31(c), 38(a), 54 Stat. 803, 836, 838, 841, sec. 3(c), 84 Stat. 1415 (15 U.S.C. 80a-8, 80a-29, 80a-30(c), 80a-37(a).)

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
*Secretary.*

## Title 21—Food and Drugs

## CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### SUBCHAPTER C—DRUGS

### PART 135b—NEW ANIMAL DRUGS FOR IMPLANTATION OR INJECTION

#### Sodium Thiopental, Sodium Pentobarbital; Correction

In FR Doc. 73-17927 appearing at page 22791 of the FEDERAL REGISTER of Friday, August 24, 1973, the reference in the preamble to Amdal Co., Div. of Abbott Laboratories should be changed to Agricultural and Veterinary Products Div., Abbott Laboratories, and in § 135b.54(b) reference to code No. 003 should be changed to code no. 068.

Dated September 12, 1973.

C. D. VAN HOUWELING,
*Director, Bureau of Veterinary Medicine.*

[FR Doc.73-19873 Filed 9-18-73;8:45 am]

### PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

#### Doxylamine Succinate Tablets

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (6-602V) filed by Jensen-Salsbery Laboratories, Division of Richardson-Merrell, Inc., Kansas City, MO 64141, proposing revised labeling for the safe and effective use of doxylamine succinate tablets for treatment of dogs, cats, and horses. The supplemental application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner (21 CFR 2.120), part 135c is amended by adding a new section as follows:

**§ 135c.115 Doxylamine succinate tablets.**

(a) *Specifications.* The drug is in tablet form and contains doxylamine succinate as the active drug ingredient.

(b) *Sponsor.* See code No. 062 in § 135.501(c) of this chapter.

(c) *Conditions of use.* (1) The drug is used in conditions in which antihistaminic therapy may be expected to alleviate some signs of disease in horses, dogs, and cats.

(2) It is administered orally to horses at a dosage level of 1 to 2 milligrams per pound of body weight per day divided into 3 or 4 equal doses. It is administered orally to dogs and cats at a dosage level of 2 to 3 milligrams per pound of body weight per day divided into 3 or 4 equal doses.

(3) Not for use in horses intended for food.

(4) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

*Effective date.*—This order shall be effective on September 19, 1973.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)).)

Dated September 12, 1973.

C. D. VAN HOUWELING,
*Director, Bureau of Veterinary Medicine.*

[FR Doc.73-19874 Filed 9-18-73;8:45 am]

### PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

### PART 149b—AMPICILLIN

#### Ampicillin Trihydrate Boluses, Veterinary

The Commissioner of Food and Drugs has evaluated a new animal drug application (55-056V) filed by E. R. Squibb & Sons, Georges Road, New Brunswick, NJ 08902, proposing the safe and effective use of ampicillin trihydrate boluses for the treatment of calves. The application is approved.

Because the drug is subject to batch certification under provisions of section 512(n) of the Federal Food, Drug, and Cosmetic Act, this order provides for appropriate amendments to the antibiotic drug certification regulations.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512 (i) and (n), 82 Stat. 347, 350–351 (21 U.S.C. 360b (i) and (n))); and under authority delegated to the Commissioner (21 CFR 2.120), Parts 135c and 149b are amended as follows:

1. Part 135c is amended by adding the following new section:

**§ 135c.107 Ampicillin trihydrate boluses, veterinary.**

(a) *Specifications.*—The drug is in bolus form and conforms to the certification requirements of § 149b.23 of this chapter.

(b) *Sponsor.*—See code No. 035 in § 135.501(c) of this chapter.

(c) *Related tolerances.*—See § 135g.83 of this part.

(d) *Conditions of use.*—(1) It is administered orally to non-ruminating calves for the treatment of colibacillosis caused by *E. coli*, bacterial enteritis caused by *Salmonella spp.* and bacterial pneumonia caused by *Pasteurella spp.*

(2) It is administered at a dosage level of 5 milligrams per pound of body weight twice daily.

(3) For use in non-ruminating calves only. Not for use in other animals which are raised for food production.

(4) Treated calves must not be slaughtered for food during treatment and for 15 days after the last treatment.

(5) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

2. Part 149b is amended by adding the following new section:

**§ 149b.23 Ampicillin trihydrate boluses, veterinary.**

(a) *Requirements for certification—*(1) *Standards of identity, strength, quality and purity.*—Ampicillin trihydrate boluses are composed of ampicillin trihydrate with or without one or more suitable and harmless diluent buffers, preservatives, stabilizing agents and lubricants. Each bolus contains the equivalent of 400 milligrams of ampicillin. Its potency is satisfactory if it is not less than 90 and not more than 120 percent of the number of milligrams of ampicillin that it is represented to contain. Its moisture

V 38 I 181 SEP 19 73 XUM

content is not more than 5 percent. The ampicillin trihydrate used conforms to the standards prescribed in § 146a.6(a).

(2) *Labeling.*—It shall be labeled in accordance with the requirements of § 148.3 of this chapter, except that in lieu of the requirements of § 148.3(a)(1), it shall be labeled in accordance with the requirements prescribed by § 1.106(c) of this chapter.

(3) *Requests for certification; samples.*—In addition to complying with the requirements of § 146.2 of this chapter, each such request shall contain:

(i) Results of tests and assays on:

(*a*) The ampicillin trihydrate, used in making the batch, for potency, safety, loss on drying, pH, ampicillin content, crystallinity, and identity.

(*b*) The batch for potency and loss on drying.

(ii) Samples required:

(*a*) The ampicillin trihydrate used in making the batch: 10 packages, each containing approximately 300 milligrams.

(*b*) The batch: A minimum of 36 boluses.

(b) *Test and methods of assay*—(1) *Potency.*—Use *either* of the following methods, however, the results obtained from the microbiological agar diffusion assay shall be conclusive:

(i) *Microbiological agar diffusion assay.*—Proceed as directed in § 141.110 of this chapter, preparing the sample for assay as follows: Place a representative number of boluses into a high-speed glass blending jar with sufficient 0.1*M* potassium phosphate buffer pH 8.0 (solution 3) to give a stock solution of convenient concentration. Blend for 3 to 5 minutes. Remove an aliquot and further dilute with solution 3 to the reference concentration of 0.1 microgram ampicillin per milliliter (estimated).

(ii) *Iodometric assay.*—Proceed as directed in § 141.506 of this chapter, preparing the sample as follows: Place a representative number of boluses in a high-speed glass blender jar and add sufficient distilled water to give a convenient concentration. Blend for 3 to 5 minutes. Further dilute an aliquot with distilled water to the prescribed concentration.

(2) *Loss on drying.*—Proceed as directed in § 141.501(a) of this chapter.

*Effective date.*—This order shall be effective September 19, 1973.

(Secs. 512 (i) and (n), 82 Stat. 347, 350–351 (21 U.S.C. 360b (i) and (n)).)

Dated September 12, 1973.

C. D. VAN HOUWELING,
*Director, Bureau of Veterinary Medicine.*

## Title 26—Internal Revenue

## CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

### SUBCHAPTER A—INCOME TAX

[T.D. 7285]

### PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

### Use of the Full Absorption Method of Inventory Costing

By a notice of proposed rulemaking appearing in the FEDERAL REGISTER for Tuesday, February 13, 1973 (38 FR 4337), amendments to the Income Tax Regulations (26 CFR Part 1) were proposed in order to revise the rules relating to inventory costing. After consideration of all such relevant matter as was presented by interested persons, by way of written comments and a public hearing, regarding the rules proposed, certain changes were made, and the proposed amendments of the regulations, subject to the changes indicated below, are adopted by this document.

The regulations require the use of a "full absorption" method of inventory costing for all taxpayers engaged in manufacturing or production operations. Such rule should simplify the tax reporting for many businesses and eliminate the uncertainty and controversy of past practices.

To provide guidance to taxpayers as to which costs are includable or excludable in the computation of inventoriable costs, the regulations establish three cost categories. Under this approach certain costs are always required to be included in the computation of inventoriable costs and certain other costs are not required to be included in the computation of inventoriable costs. The final regulations contain some modifications and clarifications of costs contained in these categories.

The proposed regulations and final regulations also contain a third category of costs which are includable in or excludable from the computation of inventoriable costs in accordance with the taxpayer's financial reporting treatment for such costs, but only if such treatment is not inconsistent with generally accepted accounting principles.

If a taxpayer's financial accounting method is not comparable to his tax accounting method, the regulations provide only two categories of costs, costs which must be included and costs which may be excluded.

The liberal transition rules provide in the proposed regulations are continued in the final regulations to encourage taxpayers to adopt the full absorption method.

*Adoption of Amendments to the Regulations.* In view of the foregoing and after consideration of all such relevant matter as was presented by interested persons regarding the notice of proposed rule making dated February 13, 1973, the Income Tax Regulations (26 CFR Part 1) are amended as follows.

PARAGRAPH 1. Paragraph (a) of § 1.61–3 is revised to read as follows:

**§ 1.61–3 Gross income derived from business.**

(a) *In general.* In a manufacturing, merchandising, or mining business, "gross income" means the total sales, less the cost of goods sold, plus any income from investments and from incidental or outside operations or sources. Gross income is determined without subtraction of depletion allowances based on a percentage of income to the extent that it exceeds cost depletion which may be required to be included in the amount of inventoriable costs as provided in § 1.471–11 and without subtraction of selling expenses, losses or other items not ordinarily used in computing costs of goods sold or amounts which are of a type for which a deduction would be disallowed under section 162 (c), (f), or (g) in the case of a business expense. The cost of goods sold should be determined in accordance with the method of accounting consistently used by the taxpayer.

* * * * * *

PAR. 2. Section 1.446–1(c)(1)(ii) is amended to read as follows:

**§ 1.446–1 General rule for methods of accounting.**

* * * * * *

(c) *Permissible methods.* * * *

(1) *In general.* * * *

(ii) *Accrual method.* Generally, under an accrual method, income is to be included for the taxable year when all the events have occurred which fix the right to receive such income and the amount thereof can be determined with reasonable accuracy. Under such a method, deductions are allowable for the taxable year in which all the events have occurred which establish the fact of the liability giving rise to such deduction and the amount thereof can be determined with reasonable accuracy. The method used by the taxpayer in determining when income is to be accounted for will be acceptable if it accords with generally accepted accounting principles, is consistently used by the taxpayer from year to year, and is consistent with the Income Tax Regulations. For example, a taxpayer engaged in a manufacturing business may account for sales of his product when the goods are shipped, when the product is delivered or accepted, or when title to the goods passes to the customer, whether or not billed, depending upon the method regularly employed in keeping his books.

* * * * * *

PAR. 3. Section 1.471–2 is amended by revising the cross references in paragraph (b), deleting the last sentence in paragraph (b), and by adding subparagraphs (6) and (7) to paragraph (f), to read as follows:

**§ 1.471–2 Valuation of inventories.**

* * * * * *

(b) It follows, therefore, that inventory rules cannot be uniform but must give effect to trade customs which come within the scope of the best accounting practice in the particular trade or business. In order to clearly reflect income, the inventory practice of a taxpayer should be consistent from year to year, and greater weight is to be given to consistency than to any particular method of inventorying or basis of valuation so long as the method or basis used is in accord with §§ 1.471–1 through 1.471–11.

* * * * * *

(f) * * *

(6) Segregating indirect production costs into fixed and variable production cost classifications (as defined in § 1.471–11(b)(3)(ii)) and allocating only the variable costs to the cost of goods produced while treating fixed costs as period costs which are currently deductible. This method is commonly referred to as the "direct cost" method.

(7) Treating all or substantially all indirect production costs (whether classified as fixed or variable) as period costs which are currently deductible. This method is generally referred to as the "prime cost" method.

PAR. 4. Paragraph (c) of § 1.471–3 is amended by adding a cross reference at the end to read as follows:

**§ 1.471–3 Inventories at cost.**

* * * * * *

(c) In the case of merchandise produced by the taxpayer since the beginning of the taxable year, (1) the cost of raw materials and supplies entering into or consumed in connection with the product, (2) expenditures for direct labor, and (3) indirect production costs incident to and necessary for the production of the particular article, including in such indirect production costs an appropriate portion of management expenses, but not including any cost of selling or return on capital, whether by way of interest or profit. See § 1.471–11 for more specific rules regarding the treatment of indirect production costs.

* * * * * *

PAR. 5. Section 1.471–11 is added immediately following § 1.471–9 to read as follows:

**§ 1.471–11 Inventories of manufacturers.**

(a) *Use of full absorption method of inventory costing.*—In order to conform as nearly as may be possible to the best accounting practices and to clearly reflect income (as required by section 471 of the Code), both direct and indirect production costs must be taken into account in the computation of inventoriable costs in accordance with the "full absorption" method of inventory costing. Under the full absorption method of inventory costing production costs must be allocated to goods produced during the taxable year, whether sold during the taxable year or in inventory at the close of the taxable year determined in accordance with the taxpayer's method of identifying goods in inventory. Thus, the taxpayer must include as inventoriable costs all direct production costs and, to the extent provided by paragraphs (c) and (d) of this section, all indirect production costs. For purposes of this section, the term "financial reports" means financial reports (including consolidated financial statements) to shareholders, partners, beneficiaries or other proprietors and for credit purposes.

(b) *Production costs*—(1) *In General.* Costs are considered to be production costs to the extent that they are incident to and necessary for production or manufacturing operations or processes. Production costs include direct production costs and fixed and variable indirect production costs.

(2) *Direct production costs.* (i) Costs classified as "direct production costs" are generally those costs which are incident to and necessary for production or manufacturing operations or processes and are components of the cost of either direct material or direct labor. Direct material costs include the cost of those materials which become an integral part of the specific product and those materials which are consumed in the ordinary course of manufacturing and can be identified or associated with particular units or groups of units of that product. See § 1.471–3 for the elements of direct material costs. Direct labor costs include the cost of labor which can be identified or associated with particular units or groups of units of a specific product. The elements of direct labor costs include such items as basic compensation, overtime pay, vacation and holiday pay, sick leave pay (other than payments pursuant to a wage continuation plan under section 105 (d)), shift differential, payroll taxes and payments to a supplemental unemployment benefit plan paid or incurred on behalf of employees engaged in direct labor. For the treatment of rework labor, scrap, spoilage costs, and any other costs not specifically described as direct production costs see § 1.471–11(c)(2).

(ii) Under the full absorption method, a taxpayer must take into account all items of direct production cost in his inventoriable costs. Nevertheless, a taxpayer will not be treated as using an incorrect method of inventory costing if he treats any direct production costs as indirect production costs, provided such costs are allocated to the taxpayer's ending inventory to the extent provided by paragraph (d) of this section. Thus, for example, a taxpayer may treat direct labor costs as part of indirect production costs (for example, by use of the conversion cost method), provided all such costs are allocated to ending inventory to the extent provided by paragraph (d) of this section.

(3) *Indirect production costs*—(i) *In general.* The term "indirect production costs" includes all costs which are incident to and necessary for production or manufacturing operations or processes other than direct production costs (as defined in subparagraph (2) of this paragraph). Indirect production costs may be classified as to kind or type in accordance with acceptable accounting principles so as to enable convenient identification with various production or manufacturing activities or functions and to facilitate reasonable groupings of such costs for purposes of determining unit product costs.

(ii) *Fixed and variable classifications.* For purposes of this section, fixed indirect production costs are generally those costs which do not vary significantly with changes in the amount of goods produced at any given level of production capacity. These fixed costs may include, among other costs, rent and property taxes on buildings and machinery incident to and necessary for manufacturing operations or processes. On the other hand, variable indirect production costs are generally those costs which do vary significantly with changes in the amount of goods produced at any given level of production capacity. These variable costs may include, among other costs, indirect materials, factory janitorial supplies, and utilities. Where a particular cost contains both fixed and variable elements, these elements should be segregated into fixed and variable classifications to the extent necessary under the taxpayer's method of allocation, such as for the application of the practical capacity concept (as described in paragraph (d)(4) of this section).

(c) *Certain indirect production costs*—(1) *General rule.* Except as provided in subparagraph (3) of this paragraph, in order to determine whether indirect production costs referred to in paragraph (b) of this section must be included in a taxpayer's computation of the amount of inventoriable costs, three categories of costs have been provided in subparagraph (2) of this paragraph. Costs described in subparagraph (2)(i) of this paragraph must be included in the taxpayer's computation of the amount of inventoriable costs, regardless of their treatment by the taxpayer in his financial reports. Costs described in subparagraph (2)(ii) of this paragraph need not enter into the taxpayer's computation of the amount of inventoriable costs, regardless of their treatment by the taxpayer in his financial reports. Costs described in subparagraph (2)(iii) of this paragraph must be included in or excluded from the taxpayer's computation of the amount of inventoriable costs in accordance with the treatment of such costs by the taxpayer in his financial reports and generally accepted accounting principles. For the treatment

V 38 I 181 SEP 19 73 XUM

of indirect production costs described in subparagraph (2) of this paragraph in the case of a taxpayer who is not using comparable methods of accounting for such costs for tax and financial reporting, see subparagraph (3) of this paragraph. After a taxpayer has determined which costs must be treated as indirect production costs includible in the computation of the amount of inventoriable costs, such costs must be allocated to a taxpayer's ending inventory in a manner prescribed by paragraph (d) of this section.

(2) *Includibility of certain indirect production costs*—(i) *Indirect production costs included in inventoriable costs.* Indirect production costs which must enter into the computation of the amount of inventoriable costs (regardless of their treatment by a taxpayer in his financial reports) include:

(*a*) Repair expenses,
(*b*) Maintenance,
(*c*) Utilities, such as heat, power and light,
(*d*) Rent,
(*e*) Indirect labor and production supervisory wages, including basic compensation, overtime pay, vacation and holiday pay, sick leave pay (other than payments pursuant to a wage continuation plan under section 105(d), shift differential, payroll taxes and contributions to a supplemental unemployment benefit plan.
(*f*) Indirect materials and supplies,
(*g*) Tools and equipment not capitalized, and
(*h*) Costs of quality control and inspection,

to the extent, and only to the extent, such costs are incident to and necessary for production or manufacturing operations or processes.

(ii) *Costs not included in inventoriable costs.* Costs which are not required to be included for tax purposes in the computation of the amount of inventoriable costs (regardless of their treatment by a taxpayer in his financial reports) include:

(*a*) Marketing expenses,
(*b*) Advertising expenses,
(*c*) Selling expenses,
(*d*) Other distribution expenses.
(*e*) Interest,
(*f*) *Research and experimental expenses* including engineering and product development expenses,
(*g*) Losses under section 165 and the regulations thereunder,
(*h*) Percentage depletion in excess of cost depletion,
(*i*) Depreciation and amortization reported for Federal income tax purposes in excess of depreciation reported by the taxpayer in his financial reports,
(*j*) Income taxes attributable to income received on the sale of inventory,
(*k*) Pension contributions to the extent that they represent past services cost,
(*l*) General and administrative expenses incident to and nesessary for the taxpayer's activities as a whole rather than to production or manufacturing operations or processes, and
(*m*) Salaries paid to officers attributable to the performance of services which are incident to and necessary for the taxpayer's activities taken as a whole rather than to production or manufacturing operations or processes.

Notwithstanding the preceding sentence, if a taxpayer consistently includes in his computation of the amount of inventoriable costs any of the costs described in the preceding sentence, a change in such method of inclusion shall be considered a change in method of accounting within the meaning of sections 446, 481, and paragraph (e)(4) of this section.

(iii) *Indirect production costs includible in inventoriable costs depending upon treatment in taxpayer's financial reports.* In the case of costs listed in this subdivision, the inclusion or exclusion of such costs from the amount of inventoriable costs for purposes of a taxpayer's financial reports shall determine whether such costs must be included in or excluded from the computation of inventoriable costs for tax purposes, but only if such treatment is not inconsistent with generally accepted accounting principles. In the case of costs which are not included in subdivision (i) or (ii) of this subparagraph, nor listed in this subdivision, whether such costs must be included in or excluded from the computation of inventoriable costs for tax purposes depends upon the extent to which such costs are similar to costs included in subdivision (i) or (ii), and if such costs are dissimilar to costs included in subdivision (i) or (ii), such costs shall be treated as included in or excludable from the amount of inventoriable costs in accordance with this subdivision.

The costs listed in this subdivision are:

(*a*) *Taxes.* Taxes otherwise allowable as a deduction under section 164 (other than State and local and foreign income taxes) attributable to assets incident to and necessary for production or manufacturing operations or processes. Thus, for example, the cost of State and local property taxes imposed on a factory or other production facility and any State and local taxes imposed on inventory must be included in or excluded from the computation of the amount of inventoriable costs for tax purposes depending upon their treatment by a taxpayer in his financial reports.

(*b*) *Depreciation and depletion.* Depreciation reported in financial reports and cost depletion on assets incident to and necessary for production or manufacturing operations or processes. In computing cost depletion under this section, the adjusted basis of such assets shall be reduced by cost depletion and not by percentage depletion taken thereon.

(*c*) *Employee benefits.* Pension and profit-sharing contributions representing current service costs otherwise allowable as a deduction under section 404, and other employee benefits incurred on behalf of labor incident to and necessary for production or manufacturing operations or processes. These other benefits include workmen's compensation expenses, payments under a wage continuation plan described in section 105(d), amounts of a type which would be includible in the gross income of employees under non-qualified pension, profit-sharing and stock bonus plans, premiums on life and health insurance and miscellaneous benefits provided for employees such as safety, medical treatment, cafeteria, recreational facilities, membership dues, etc., which are otherwise allowable as deductions under chapter 1 of the Code.

(*d*) *Costs attributable to strikes, rework labor, scrap and spoilage.* Costs attributable to rework labor, scrap and spoilage which are incident to and necessary for production or manufacturing operations or processes and costs attributable to strikes incident to production or manufacturing operation or processes.

(*e*) *Factory administrative expenses.* Administrative costs of production (but not including any cost of selling or any return on capital) incident to and necessary for production or manufacturing operations or processes.

(*f*) *Officers' salaries.* Salaries paid to officers attributable to services performed incident to and necessary for production or manufacturing operations or processes.

(*g*) *Insurance costs.* Insurance costs incident to and necessary for production or manufacturing operations or processes such as insurance on production machinery and equipment.

A change in the taxpayer's treatment in his financial reports of costs described in this subdivision which results in a change in treatment of such costs for tax purposes shall constitute a change in method of accounting within the meaning of sections 446 and 481 to which paragraph (e) applies.

(3) *Exception.* In the case of a taxpayer whose method of accounting for production costs in his financial reports is not comparable to his method of accounting for such costs for tax purposes (such as a taxpayer using the prime cost method for purposes of financial reports), the following rules apply:

(i) *Indirect production costs included in inventoriable costs.* Indirect production costs which must enter into the computation of the amount of inventoriable costs (to the extent, and only to the extent, such costs are incident to and necessary for production or manufacturing operations or processes) include:

(*a*) Repair expenses,
(*b*) Maintenance,
(*c*) Utilities, such as heat, power and light,
(*d*) Rent,
(*e*) Indirect labor and production supervisory wages, including basic compensation, overtime pay, vacation and holiday pay, sick leave pay (other than payments pursuant to a wage continuation plan under section 105(d)), shift differential, payroll taxes and contribtuions to a supplemental unemployment benefit plan,
(*f*) Indirect materials and supplies,
(*g*) Tools and equipment not capitalized,
(*h*) Costs of quality control and inspection,
(*i*) Taxes otherwise allowable as a deduction under section 164 (other than State and local and foreign income taxes),
(*j*) Depreciation and amortization reported for financial purposes and cost depletion,
(*k*) Administrative costs of production (but not including any cost of selling or any return on capital) incident to and necessary for production or manufacturing operations or processes,
(*l*) Salaries paid to officers attributable to services performed incident to and necessary for production or manufacturing operations or processes, and
(*m*) Insurance costs incident to and necessary for production or manufacturing operations or processes such as insurance on production machinery and equipment.

(ii) *Costs not included in inventoriable costs.* Costs which are not required to be included in the computation of the amount of inventoriable costs include:

(*a*) Marketing expenses,
(*b*) Advertising expenses,
(*c*) Selling expenses,
(*d*) Other distribution expenses,
(*e*) Interest,
(*f*) Research and experimental expenses including engineering and product development expenses,
(*g*) Losses under section 165 and the regulations thereunder,
(*h*) Percentage depletion in excess of cost depletion,
(*i*) Depreciation reported for Federal income tax purposes in excess of depreciation reported by the taxpayer in his financial reports,
(*j*) Income taxes attributable to income received on the sale of inventory,
(*k*) Pension and profit-sharing contributions representing either past service costs or representing current service costs otherwise allowable as a deduction under section 404, and other employee benefits incurred on behalf of labor. These other benefits include workmen's compensation expenses, payments under a wage continuation plan described in section 105(d), amounts of a type which would be includible in the gross income of employees under nonqualified pension, profit-sharing and stock bonus plans, premiums on life and health insurance and miscellaneous benefits provided for employees such as safety, medical treatment, cafeteria, recreational facilities, membership dues, etc., which are otherwise allowable as deductions under chapter 1 of the Code.
(*l*) Cost attributable to strikes, rework labor, scrap and spoilage,
(*m*) General and administrative expenses incident to and necessary for the taxpayer's activities as a whole rather than to production or manufacturing operations or processes, and
(*n*) Salaries paid to officers attributable to the performance of services which are incident to and necessary for the taxpayer's activities as a whole rather than to production or manufacturing operations or processes.

(d) *Allocation methods*—(1) *In general.* Indirect production costs required to be included in the computation of the amount of inventoriable costs pursuant to paragraphs (b) and (c) of this paragraph must be allocated to goods in a taxpayer's ending inventory (determined in accordance with the taxpayer's method of identification) by the use of a method of allocation which fairly apportions such costs among the various items produced. Acceptable methods for allocating indirect production costs to the cost of goods in the ending inventory include the manufacturing burden rate method and the standard cost method. In addition, the practical capacity concept can be used in conjunction with either the manufacturing burden rate or standard cost method.

(2) *Manufacturing burden rate method*—(i) *In general.* Manufacturing burden rates may be developed in accordance with acceptable accounting principles and applied in a reasonable manner. In developing a manufacturing burden rate, the factors described in paragraph (d)(2)(ii) of this section may be taken into account. Furthermore, if the taxpayer chooses, he may allocate different indirect production costs on the basis of different manufacturing burden rates. Thus, for example, the taxpayer may use one burden rate for allocating rent and another burden rate for allocating utilities. The method used by the taxpayer in allocating such costs in his financial reports shall be given great weight in determining whether the taxpayer's method employed for tax purposes fairly allocates indirect production costs to the ending inventory. Any change in a manufacturing burden rate which is merely a periodic adjustment to reflect current operating conditions, such as increases in automation or or changes in operation, does not constitute a change in method of accounting under section 446. However, a change in the concept upon which such rates are developed does constitute a change in method of accounting requiring the consent of the Commissioner. The taxpayer shall maintain adequate records and working papers to support all manufacturing burden rate calculations.

(ii) *Development of manufacturing burden rate.* The following factors, among others, may be taken into account in developing manufacturing burden rates:

(*a*) The selection of an appropriate level of activity and period of time upon which to base the calculation of rates which will reflect operating conditions for purposes of the unit costs being determined;

(*b*) The selection of an appropriate statistical base such as direct labor hours, direct labor dollars, or machine hours, or a combination thereof, upon which to apply the overhead rate to determine production costs; and

(*c*) The appropriate budgeting, classification and analysis of expenses (for example, the analysis of fixed and variable costs).

(iii) *Operation of the manufacturing burden rate method.* (*a*) The purpose of the manufacturing burden rate method used in conjunction with the full absorption method of inventory costing is to allocate an appropriate amount of indirect production costs to a taxpayer's goods in ending inventory by the use of predetermined rates intended to approximate the actual amount of indirect production costs incurred. Accordingly, the proper use of the manufacturing burden rate method under this section requires that any net negative or net positive difference between the total predetermined amount of indirect production costs allocated to the goods in ending inventory and the total amount of indirect production costs actually incurred and required to be allocated to such goods (i.e., the under or over-applied burden) must be treated as an adjustment to the taxpayer's ending inventory in the taxable year in which such difference arises. However, if such adjustment is not significant in amount in relation to the taxpayer's total actual indirect production costs for the year then such adjustment need not be allocated to the taxpayer's goods in ending inventory unless such allocation is made in the taxpayer's financial reports. The taxpayer must treat both positive and negative adjustments consistently.

(*b*) Notwithstanding subdivision (*a*), the practical capacity concept may be used to determine the total amount of fixed indirect production costs which must be allocated to goods in ending inventory. See subparagraph (4) of this paragraph.

(3) *Standard cost method*—(i) *In general.* A taxpayer may use the so-called "standard cost" method of allocating inventoriable costs to the goods in ending inventory, provided he treats variances in accordance with the procedures prescribed in paragraph (d)(3)(ii) of this section. The method used by the taxpayer in allocating such costs in his financial reports shall be given great weight in determining whether the taxpayer's method employed for tax purposes fairly allocates indirect production costs to the ending inventory. For purposes of this subparagraph, a "net positive overhead variance" shall mean the excess of total standard (or estimated) indirect production costs over total actual indirect production costs and a "net negative overhead variance" shall mean the excess of total actual indirect production costs over total standard (or estimated) indirect production costs.

(ii) *Treatment of variances.* (*a*) The proper use of the standard cost method pursuant to this subparagraph requires that a taxpayer must reallocate to the goods in ending inventory a pro rata portion of any net negative or net positive overhead variances and any net negative or net positive direct production cost variances. The taxpayer must

V 38 I 181 SEP 19 73 XUM

apportion such variances among his various items in ending inventory. However, if such variances are not significant in amount in relation to the taxpayer's total actual indirect production costs for the year then such variances need not be allocated to the taxpayer's goods in ending inventory unless such allocation is made in the taxpayer's financial reports. The taxpayer must treat both positive and negative variances consistently.

(b) Notwithstanding subdivision (a), the practical capacity concept may be used to determine the total amount of fixed indirect production costs which must be allocated to goods in ending inventory. See subparagraph (4) of this paragraph.

(4) *Practical capacity concept*—(i) *In general.* Under the practical capacity concept, the percentage of practical capacity represented by actual production (not greater than 100 percent), as calculated under subdivision (ii) of this subparagraph, is used to determine the total amount of fixed indirect production costs which must be included in the taxpayer's computation of the amount of inventoriable costs. The portion of such costs to be included in the taxpayer's computation of the amount of inventoriable costs is then combined with variable indirect production costs and both are allocated to the goods in ending inventory in accordance with this paragraph. See the example in subdivision (ii) (d) of this subparagraph. The difference (if any) between the amount of all fixed indirect production costs and the fixed indirect production costs which are included in the computation of the amount of inventoriable costs under the practical capacity concept is allowable as a deduction for the taxable year in which such difference occurs.

(ii) *Calculation of practical capacity*—(a) *In general.* Practical capacity and theoretical capacity (as described in (c) of this subdivision) may be computed in terms of tons, pounds, yards, labor hours, machine hours, or any other unit of production appropriate to the cost accounting system used by a particular taxpayer. The determination of practical capacity and theoretical capacity should be modified from time to time to reflect a change in underlying facts and conditions such as increased output due to automation or other changes in plant operation. Such a change does not constitute a change in method of accounting under sections 446 and 481.

(b) *Based upon taxpayer's experience.* In selecting an appropriate level of production activity upon which to base the calculation of practical capacity, the taxpayer shall establish the production operating conditions expected during the period for which the costs are being determined, assuming that the utilization of production facilities during operations will be approximately at capacity. This level of production activity is frequently described as practical capacity for the period and is ordinarily based upon the historical experience of the taxpayer. For example, a taxpayer operating on a 5-day, 8-hour basis may have a "normal" production of 100,000 units a year based upon three years of experience.

(c) *Based upon theoretical capacity.* Practical capacity may also be established by the use of "theoretical" capacity, adjusted for allowances for estimated inability to achieve maximum production, such as machine breakdown, idle time, and other normal work stoppages. Theoretical capacity is the level of production the manufacturer could reach if all machines and departments were operated continously at peak efficiency.

(d) *Example.* The provisions of (c) of this subdivision may be illustrated by the following example:

Corporation X operates a stamping plant with a theoretical capacity of 50 units per hour. The plant actually operates 1960 hours per year based on an 8-hour day, 5 day week basis and 15 shutdown days for vacations and holidays. A reasonable allowance for down time (the time allowed for ordinary and necessary repairs and maintenance) is 5 percent of practical capacity before reduction for down time. Assuming no loss of production during starting up, closing down, or employee work breaks, under these facts and circumstances X may properly make a practical capacity computation as follows:

| | |
|---|---|
| Practical capacity without allowance for down time based on theoretical capacity per hour is (1960×50) | 98,000 |
| Reduction for down time (98,000×5 percent) | 4,900 |
| Practical capacity | 93,100 |

The 93,100 unit level of activity (i.e., practical capacity) would, therefore, constitute an appropriate base for calculating the amount of fixed indirect production costs to be included in the computation of the amount of inventoriable costs for the period under review. On this basis if only 76,000 units were produced for the period, the effect would be that approximately 81.6 percent (76,000, the actual number of units produced, divided by 93,100, the maximum number of units producible at practical capacity) of the fixed indirect production costs would be included in the computation of the amount of inventoriable costs during the year. The portion of the fixed indirect production costs not so included in the computation of the amount of inventoriable costs would be deductible in the year in which paid or incurred. Assume further that 7,600 units were on hand at the end of the taxable year and the 7,600 units were in the same proportion to the total units produced. Thus, 10 percent (7,600 units in inventory at the end of the taxable year, divided by 76,000, the actual number of units produced) of the fixed indirect production costs included in the computation of the amount of inventoriable costs (the above-mentioned 81.6 percent) and 10 percent of the variable indirect production costs would be included in the cost of the goods in the ending inventory, in accordance with a method of allocation provided by this paragraph.

(e) *Transition to full absorption method of inventory costing*—(1) *In general*—(i) *Mandatory requirement.* A taxpayer not using the full absorption method of inventory costing, as prescribed by paragraph (a) of this section, must change to that method. Any change to the full absorption method must be made by the taxpayer with respect to all trades or businesses of the taxpayer to which this section applies. A taxpayer not using the full absorption method of inventory costing, as prescribed by paragraph (a) of this section, who makes the special election provided in subdivision (ii) of this subparagraph during the transition period described in subdivision (ii) of this subparagraph need not change to the full absorption method of inventory costing for taxable years prior to the year for which such election is made. In determining whether the taxpayer is changing to a more or less inclusive method of inventory costing, all positive and negative adjustments for all items and all trades or businesses of the taxpayer shall be aggregated. If the net adjustment is positive, paragraph (e) (3) shall apply, and if the net adjustment is negative, paragraph (e) (4) shall apply to the change. The rules otherwise prescribed in sections 446 and 481 and the regulations thereunder shall apply to any taxpayer who fails to make the special election in subdivision (ii) of this subparagraph. The transition rules of this paragraph are available only to those taxpayers who change their method of inventory costing.

(ii) *Special election during two-year transition period.* If a taxpayer elects to change to the full absorption method of inventory costing during the transition period provided herein, he may elect on Form 3115 to change to such full absorption method of inventory costing and, in so doing, employ the transition procedures and adopt any of the transition methods prescribed in subparagraph (3) of this paragraph. Such election shall be made during the first 180 days of any taxable year beginning on or after September 19, 1973 and before September 19, 1975 (i.e., the "transition period") and the change in inventory costing method shall be made for the taxable year in which the election is made. Notwithstanding the preceding sentence if the taxpayer's prior returns have been examined by the Service prior to [the date of adoption of these regulations as a Treasury decision], and there is a pending issue involving the taxpayer's method of inventory costing, the taxpayer may request the application of this regulation by agreeing and filing a letter to that effect with the district director, within 90 days after September 19, 1973 to change to the full absorption method for the first taxable year of the taxpayer beginning after [the date of adoption of the regulations as a Treasury decision] and subsequently filing Form 3115 within the first 180 days of such taxable year of change.

(iii) *Change initiated by the Commissioner.* A taxpayer who properly makes an election under subdivision (ii) of this subparagraph shall be considered to have made a change in method of accounting not initiated by the taxpayer, notwithstanding the provisions of

§ 1.481–1(c)(5). Thus, any of the taxpayer's "pre-1954 inventory balances" with respect to such inventory shall not be taken into account as an adjustment under section 481. For purposes of this paragraph, a "pre-1954 inventory balance" is the net amount of the adjustments which would have been required if the taxpayer had made such change in his method of accounting with respect to his inventory in his first taxable year which began after December 31, 1953, and ended after August 16, 1954. See section 481(a)(2) and § 1.481–3.

(2) *Procedural rules for change.* If a taxpayer makes an election pursuant to subparagraph (1)(ii) of this paragraph, the Commissioner's consent will be evidenced by a letter of consent to the taxpayer, setting forth the values of inventory, as provided by the taxpayer, determined under the full absorption method of inventory costing, except to the extent that no determination of such values is necessary under subparagraph (3)(ii)(B) of this paragraph (the cut off method), the amount of the adjustments (if any) required to be taken into account by section 481, and the treatment to be accorded to any such adjustments. Such full absorption values shall be subject to verification on examination by the district director. The taxpayer shall preserve at his principal place of business all records, data, and other evidence relating to the full absorption values of inventory.

(3) *Transition methods.* In the case of a taxpayer who properly makes an election under subparagraph (1)(ii) of this paragraph during the transition period—

(i) *10-year adjustment period.* Such taxpayer may elect to take any adjustment required by section 481 with respect to any inventory being revalued under the full absorption method into account ratably over a period designated by the taxpayer at the time of such election, not to exceed the lesser of 10 taxable years commencing with the year of transition or the number of years the taxpayer has been on the inventory method from which he is changing. If the taxpayer dies or ceases to exist in a transaction other than one to which section 381(a) of the Code applies or if the taxpayer's inventory (determined under the full absorption method) on the last day of any taxable year is reduced (by other than a strike or involuntary conversion) by more than an amount equal to 33⅓ percent of the taxpayer's inventory (determined under the full absorption method) as of the beginning of the year of change, the entire amount of the section 481 adjustment not previously taken into account in computing income shall be taken into account in computing income for the taxable year in which such taxpayer so ceases to exist or such taxpayer's inventory is so reduced.

(ii) *Additional rules for LIFO taxpayers.* A taxpayer who uses the LIFO method of inventory identification may either—

(a) Employ the special transition rules described in subdivision (i) of this subparagraph. Accordingly, all LIFO layers must be revalued under the full absorption method and the section 481 adjustment must be computed for all items in all layers in inventory, but no pre-1954 inventory balances shall be taken into account as adjustments under section 481; or

(b) (1) Employ a cut-off method whereby the full absorption method is only applied in costing layers of inventory acquired during all taxable years beginning with the year for which an election is made under subparagraph (e)(1)(ii).

(2) In the case of a taxpayer using dollar value LIFO, employ a cut-off method whereby the taxpayer must use, for the year of change, the full absorption method in computing the base year cost and current cost of a dollar value inventory pool for the beginning of such year. The taxpayer shall not be required to recompute his LIFO inventories based on the full absorption method for a taxable year beginning prior to the year of change to the full absorption method. The base cost and layers of increment previously computed shall be retained and treated as if such base cost and layers of increment had been computed under the method authorized by this section. The taxpayer shall use the year of change as the base year in applying the double extension method or other method approved by the Commissioner, instead of the earliest year for which he adopted the LIFO method for any items in the pool.

(4) *Transition to full absorption method of inventory costing from a method more inclusive of indirect production costs*—(i) *Taxpayer has not previously changed to his present method pursuant to subparagraphs (1), (2), and (3) of this paragraph.* If a taxpayer wishes to change to the full absorption method of inventory costing (as prescribed by paragraph (a) of this section) from a method of inventory costing which is more inclusive of indirect production costs and he has not previously changed to his present method by use of the special transition rules provided by subparagraphs (1), (2) and (3) of this paragraph, he may elect on Form 3115 to change to the full absorption method of inventory costing and, in so doing, take into account any resulting section 481 adjustment generally over 10 taxable years commencing with the year of transition. The Commissioner's consent to such election will be evidenced by a letter of consent to the taxpayer setting forth the values of inventory, as provided by the taxpayer determined under the full absorption method of inventory costing, except to the extent that no determination of such values is necessary under subparagraph (3)(ii)(b) of this paragraph, the amount of the adjustments (if any) required to be taken into account by section 481, and the treatment to be accorded such adjustments, subject to terms and conditions specified by the Commissioner to prevent distortions of income. Such election must be made within the transition period described in subparagraph (1)(ii) of this paragraph. A change pursuant to this subparagraph shall be a change initiated by the taxpayer as provided by § 1.481–1(c)(5). Thus, any of the taxpayers "pre-1954 inventory balances" will be taken into account as an adjustment under section 481.

(ii) *Taxpayer has previously changed to his present method pursuant to subparagraphs (1), (2), and (3) of this paragraph or would satisfy all the requirements of subdivision (i) of this subparagraph but fails to elect within the transition period.* If a taxpayer wishes to change to the full absorption method of inventory costing (as prescribed by paragraph (a) of this section) from a method of inventory costing which is more inclusive of indirect production costs and he has previously changed to his present method pursuant to subparagraphs (1), (2), and (3) of this paragraph or he would satisfy the requirements of subdivision (i) of this subparagraph but he fails to elect within the transition period, he must secure the consent of the Commissioner prior to making such change.

(Sec. 7805 of the Internal Revenue Code of 1954, 68A Stat. 917 (26 U.S.C. 7805).)

[SEAL] DONALD C. ALEXANDER,
*Commissioner of Internal Revenue.*

Approved September 13, 1973.

FREDERIC W. HICKMAN,

PART 17—MEDICAL

Grants and Assistance for Medical and Allied Health Education

On page 16917 of the FEDERAL REGISTER of June 27, 1973, there was published a notice of proposed regulatory development to implement the Veterans' Administration Medical School Assistance and Health Manpower Training Act of 1972 (86 Stat. 1100), which provides for assistance in establishment of new State medical schools, and for grants and other assistance to existing medical schools and other health manpower training institutions which are affiliated with Veterans Administration hospitals. Interested persons were given 30 days in which to submit comments, suggestions, or objections regarding the proposed regulations.

As a result of the notice of proposed regulatory development, sixteen written communications were received. There were none which objected to the provisions of the regulations generally, but raised questions of interpretation and offered comments on specific items. Changes which have been made in response to these communications are in § 17.402(f) which broadens the definition of "colleges and universities", eligible applicants for purposes of 38 U.S.C. 5071–5074, to include state university systems which may or may not include four-year undergraduate colleges; in § 17.404, requiring coordination of applications with all health planning agencies in the state; and in § 17.410, limiting the payment of indirect costs to programs authorized in 38 U.S.C. Chapter 82, Subchapters II and III. The majority of the questions and comments related to issues beyond the scope of the regulations, others related to the program guidelines which appeared on page 16937 of the "Notices" section of the same issue of the FEDERAL REGISTER.

The program guidelines will be rewritten to reflect the changed regulations, and to be otherwise clarified and expanded. They will be published separately and will be available, along with application materials, to eligible applicants from the Department of Medicine and Surgery (152J), Veterans Administration, 810 Vermont Avenue, NW., Washington, D.C. 20420.

*Effective date.*—The regulations set forth below shall become effective September 19, 1973.

Approved September 14, 1973.

DONALD E. JOHNSON,
*Administrator.*

Sections 17.400 through 17.416 are added to read as follows:

GRANTS AND ASSISTANCE FOR DEVELOPMENT, EXPANSION AND IMPROVEMENT OF MEDICAL AND ALLIED HEALTH EDUCATION

GRANTS AND ASSISTANCE FOR DEVELOPMENT, EXPANSION AND IMPROVEMENT OF MEDICAL AND ALLIED HEALTH EDUCATION

**§ 17.400 Purpose and scope of the program.**

The provisions of §§ 17.400 through 17.416 are applicable to a program of grants and other forms of assistance under the "Veterans' Administration Medical School Assistance and Health Manpower Training Act of 1972" (38 U.S.C. Chapter 82). This Act authorizes the Administrator of Veterans' Affairs to provide certain assistance in the establishment of new State medical schools and the improvement of existing medical schools affiliated with the Veterans Administration; to develop cooperative arrangements between institutions of higher education, hospitals, and other nonprofit health service institutions affiliated with the Veterans Administration to coordinate, improve, and expand the training of professional and allied health and paramedical personnel; to develop and evaluate new health careers, interdisciplinary approaches and career advancement opportunities; to improve and expand allied and other health manpower utilization; and for other purposes.

**§ 17.401 Administration.**

Programs of grants and other forms of assistance which are established under the provisions of 38 U.S.C. Chapter 82 will be administered in accordance with §§ 17.400 through 17.416 and with program guides which will be issued and updated periodically by the Administrator.

**§ 17.402 Definitions.**

For the purpose of §§ 17.400 through 17.416 the term:

(a) The "Administrator" means the Administrator of Veterans Affairs.

(b) The "Special Medical Advisory Group" means the group of representatives of medical, dental and allied professions, appointed and functioning under 38 U.S.C. 4112(a).

(c) "Program period" means the time (not exceeding 7 years) for which the grant assistance has been approved as specified in the agreement or grant document.

(d) An "award period" means the interval of time into which an approved activity is divided for budgetary purposes, as specified in the agreement or grant document.

(e) "Extension, expansion, alteration, remodeling, improvement, or repair" as used in 38 U.S.C. 5073 and 5096 relate to existing buildings and structures. None of these is synonymous with "construction" as used in 38 U.S.C. 5083(a) which relates to the construction of new free-standing structures. Both provisions are limited to facilities and property under the control and jurisdiction of the Administrator.

(f) For the purposes of 38 U.S.C. 5071–5074: (1) "Colleges" means nonprofit institutions of higher learning, which are primarily supported by the State, and are authorized to offer, and are offering, a formal program of college level studies leading to the baccalaureate degree and are accredited or approved by an accrediting body or bodies recognized for such purposes by the Commissioner of Education of the Department of Health, Education, and Welfare.

(2) "Universities" means educational institutions, which are primarily supported by the State; which are comprised of one or more undergraduate colleges or professional schools, each appropriately accredited or approved by an accrediting body or bodies recognized for such purposes by the Commissioner of Education of the Department of Health, Education, and Welfare; and which are authorized to confer degrees.

(3) "Medical school" means a nonprofit school of medicine or osteopathy which provides a complete course of study which culminates in a degree of doctor of medicine or doctor of osteopathy; and with regard to which there has been a finding made of reasonable assurance that such a school can proceed to full accreditation as determined by the body or bodies recognized for such purposes by the Commissioner of Education of the Department of Health, Education, and Welfare.

(4) "Faculty" means those individuals who have as their principal duties the instruction of students in the new medical school or the administration of the academic program of such a school.

(g) For the purposes of 38 U.S.C. 5081–5083: (1) "Medical school" means a nonprofit school of medicine or osteopathy which provides a course of study of not less than 2 years, which forms a part or whole of the necessary requirements leading to a degree of doctor of medicine or doctor or osteopathy, and which has been reviewed and accredited for its stage of development by an appropriate accediting agency recognized for such purpose by the Commissioner of Education of the Department of Health, Education, and Welfare.

(2) "Full-time student" means a student who is enrolled or is expected to be enrolled in a medical school on a full-time basis as determined by the medical school and is pursuing a course of study leading to the degree of doctor of medicine or doctor of osteopathy.

(h) For the purposes of 38 U.S.C. 5091–5093, an "eligible institution" means any nonprofit educational facility or other public or nonprofit institution, including universities, colleges, junior colleges, community colleges, schools of allied health professions, State and local systems of education, hospitals, and other nonprofit health manpower institutions for the training or education of allied health or other health personnel affiliated with the Veterans Administration for the conduct of or the providing of guidance for education and training programs for health manpower.

**§ 17.403 Eligibility.**

(a) To be eligible to receive assistance under 38 U.S.C. 5071–5074, the applicant must:

(1) Be a college or university as defined in § 17.402(f)(1) and (2);

(2) Be located within a reasonable distance of an existing Veterans Administration medical facility; and

(3) Furnish the Administrator with such evidence as he may require that the college or university has prepared and presented a plan for the proposed new school of medicine or osteopathy; and that in a letter dated not earlier than October 24, 1972, has received reasonable assurance of accreditation of the new school as defined in § 17.402(f)(3).

(b) To be eligible to receive assistance under 38 U.S.C. 5081–5083, the applicant must:

(1) Be a medical school as defined in § 17.402(g)(1); and

(2) Have been affiliated with the Veterans Administration under an agreement entered into pursuant to 38 U.S.C. 5051 for at least 12 months prior to the date of the application for a grant under this subchapter II.

(c) To be eligible to receive assistance under 38 U.S.C. 5091–5093, the applicant must:

(1) Be an "eligible institution" as defined in § 17.402(h); and

(2) Be affiliated with the Veterans Administration under an agreement entered into pursuant to 38 U.S.C. 5051, at the time of the award of a grant under this subchapter III.

**§ 17.404 Application.**

(a) Each eligible applicant desiring assistance shall submit an application in such form and at such time as the Administrator shall prescribe.

(b) Such application shall be executed by an individual authorized to act for the applicant and to assume on behalf of the applicant the obligations imposed by the terms and conditions of any agreement or award of funds.

(c) Such application shall state the purpose for which the application is made and shall contain a budget and a narrative plan by means of which the applicant intends to conduct the project or program and carry out the requirements of §§ 17.400 through 17.416.

(d) Such application shall include a statement from the appropriate state comprehensive health planning agency indicating the compatibility and relationship of the proposed program or projects to the overall health care and training plans of the state, region, or locality, as required in the Office of Management and Budget Circular No. A-95.

(e) For purposes of 38 U.S.C. 5071–5074: (1) Such application shall be executed by an individual authorized to act for the applicant and to assume in behalf of the applicant, the obligations imposed by the terms and conditions of any award of funds or of any formally executed agreement, including §§ 17.400 through 17.416. When the applicant is a school or college which is not controlled by the State, the application must be countersigned by an official similarly authorized by the State agency responsible for administering the State's contribution to its support.

(2) In addition to the information required in paragraph (c) of this section, such application shall include any proposed agreement for lease of land, buildings and structures under the control of the Administrator.

(3) Such application shall be accompanied by a statement assuring that adequate financial support for the new medical school will be provided by the State or by other sources. This statement must be executed by an appropriate official of the State in which the new school is to be located.

**§ 17.405 Agreements and grant awards.**

(a) For the purposes of 38 U.S.C. 5071–5074: (1) Within the limits of funds available each year for such purposes, the Administrator, upon recommendation of the Chief Medical Director and after consultation with the Special Medical Advisory Group, may enter into, or continue with, agreements to provide assistance to a total of not more than eight applicants whose proposals in his judgment best achieve the purposes of 38 U.S.C. 5071, taking into consideration:

(i) The relative merit of the applicant's overall plan for the establishment of the medical school;

(ii) The suitability of the Veterans Administration medical facility for development as medical school facilities; and the terms of any lease agreement;

(iii) The other facilities and resources available to the applicant to assure the sound establishment and continuing maintenance of the programs of the new medical school;

(iv) The arrangements to be maintained by the school with the Veterans Administration medical facility with which it is to be associated, and the extent to which they will be mutually beneficial to the mission of both; and

(v) The extent of the commitment of the State in which the new school is to be located to the provision of adequate financial support in the establishment of the school and in its continuing operation beyond the end of the program period.

(vi) The presence of existing or developing schools of medicine or osteopathy in the region to be served by the applicant.

(2) The terms of any agreement and the amount of any funds to be granted shall be determined by the Administrator on the basis of:

(i) The considerations and understandings involved in the lease;

(ii) His estimate of the sums necessary to accomplish the adequate extension, alteration, remodeling, improvement, or repair of the building or structures to be leased; and to adequately equip such buildings or structures for the purposes proposed; and

(iii) His estimate of the amounts necessary to assist in the payment of the cost of the salaries of faculty, the proportion will not exceed 90 percent of the salaries for the first year of operation, and a like percentage for the second and third years; 80 percent for the fourth year; 70 percent for the fifth year; 60 percent for the sixth year; and 50 percent for the seventh year.

(3) No recipient should anticipate receiving assistance in any one award year totaling more than one-eighth of the funds available for awards pursuant to 38 U.S.C. 5072 for that year.

(b) For the purposes of 38 U.S.C. 5081–5083: (1) Within the limits of funds available for such purposes, the Administrator, upon recommendation of the Chief Medical Director, after consultation with the Special Medical Advisory Group, may award grants and other assistance to those applicants whose projects or programs will in his judgment best promote the purposes of 38 U.S.C. 5081, taking into consideration:

(i) The relative merit of the project or program proposed by the applicant;

(ii) The other resources available to the applicant to supplement and complement the proposed program or project;

(iii) The capability of the applicant to carry out the proposed program or project, including the accomplishment of the

V 38 181 SEP 19 73 XUM

increased enrollment of full-time students without threat to its accreditation as required in § 17.402(g)(1);

(iv) The extent to which the plan for program or project has been coordinated with Veterans Administration facility(s) with which the applicant is affiliated for purposes of the program or project.

(2) The amount of any award shall be determined by the Administrator on the basis of his estimate of the sum necessary for the cost of the applicant's approved program or project.

(c) For the purpose of 38 U.S.C. 5091–5093: (1) Within the limits of funds available for such purpose, the Administrator, upon recommendation of the Chief Medical Director, after consultation with the Special Medical Advisory Group, may award grants to those applicants whose projects or programs will in his judgment best promote the purposes of 38 U.S.C. 5091, taking into consideration:

(i) The relative merit of the program or project proposed by the applicant;

(ii) The other resources available to the applicant to supplement and complement the proposed program or project;

(iii) The capability of the applicant to carry out the proposed program or project, including the increase in enrollment of students, under circumstances which will not compromise the quality of education at the institution nor jeopardize the accreditation of the training program by the appropriate body or bodies recognized for such purposes by the Commissioner of Education of the Department of Health, Education, and Welfare.

(iv) The extent to which the plan for the program or project has been coordinated with Veterans Administration facility(s) with which the applicant is or proposes to become affiliated for purposes of the program or project.

(2) The amount of any award shall be determined by the Administrator on the basis of his estimate of the sum necessary for the cost of the applicant's approved program or project.

(d) For the purposes of any grant program of 38 U.S.C. Chapter 82: (1) All grant awards shall be in writing, shall set forth the total amount of assistance awarded and the total period for which it will be available for obligation by the grantee (not to exceed 7 years).

(2) Neither the approval of any project nor the award of any grant shall commit or obligate the United States in any way to make any additional supplemental, continuation, or other award with respect to the approved project or to a portion thereof. For continuation support, grantees must make a separate application annually including an annual budget and report of balances remaining from previous award periods and at such time and in such form as the Administrator may require.

(3) The adequacy of a plan for assuring priority for admission of qualified veterans in all of the health manpower education and training programs, as provided in 38 U.S.C. 5070(e) shall be considered.

**§ 17.406 Payments.**

Payments made pursuant to grant awards may be made in installments, and either in advance or by way or reimbursement, with necessary adjustments on account of overpayments or underpayments as the Administrator may determine.

**§ 17.407 Expenditure of grant funds.**

(a) For the purposes of 38 U.S.C. 5071–5074, any funds awarded shall be expended solely for the costs of assistance in the establishment of new State medical schools in accordance with the applicable provision of 38 U.S.C., Chapter 82, §§ 17.400 through 17.416, and then the terms and conditions of the grant award.

(b) For the purposes of 38 U.S.C. 5081–5083, any funds granted shall be expended solely for the expansion and improvement of the training capacities of medical schools affiliated with the Veterans Administration and to permit such schools to cooperate with other public and nonprofit institutions of higher learning, hospitals and other health manpower institutions affiliated with the Veterans Administration to increase the production of professional and other health personnel in accordance with the applicable provisions of 38 U.S.C. Chapter 82, §§ 17.400 through 17.416, and the terms and conditions of the grant award.

(c) For the purposes of 38 U.S.C. 5091–5093, any funds granted shall be expended solely for the costs of assistance in the establishment of cooperative arrangements among universities, colleges, junior colleges, community colleges, schools of allied health professions, State and local systems of education, hospitals, and other nonprofit health manpower institutions affiliated with the Veterans Administration for educational and clinical projects and programs involving allied and other health manpower in accordance with applicable provisions of 38 U.S.C. Chapter 82, §§ 17.400 through 17.416, and the terms and conditions of the grant award.

(d) For the purposes of the entire chapter, 38 U.S.C., Chapter 82, any unobligated funds remaining in a grant account at the close of the award period may be carried forward and will be available during a subsequent award period within the approved program period. The amount of any subsequent award will take into consideration any unobligated balance in the grant account. At the end of the last award period of the approved program period, any unobligated funds remaining must be refunded to the Federal Government.

**§ 17.408 Nondiscrimination.**

(a) Grants made under 33 U.S.C. Chapter 82 shall be subject to Title IX of the "Education Amendments Act of 1972" (effective July 1, 1972) and regulations promulgated by the Department of Health, Education, and Welfare. Such title prohibits sex discrimination in all federally assisted education programs.

(b) Grants made under Public Law 92–541 (86 Stat. 1100) shall be subject to Title VI of the Civil Rights Act of 1964 (78 Stat. 252) which provides that no person in the United States shall on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subject to discrimination under any program or activity receiving Federal financial assistance. Regulations implementing such Title VI have been issued as §§ 18.1 through 18.4 of this chapter.

(c) Grant funds used for remodeling, alteration, or repairs shall be subject to the condition that the grantee shall comply with the requirements of Executive Order 11246, 30 FR 12319 (September 24, 1965), as amended, and with the applicable rules, regulations, and procedures pursuant thereto.

**§ 17.409 Publications and copyright.**

Except as may otherwise be provided under the terms and conditions of the award, the grantee may copyright without prior approval any publications, films, or similar materials developed or resulting from a project supported by a grant under §§ 17.400 through 17.416, subject, however, to a royalty free, nonexclusive, and irrevocable license or right in the Government to reproduce, translate, publish, use, disseminate, and dispose of such materials and to authorize others to do so.

**§ 17.410 Accountability.**

The recipient shall allocate expenditures from the grant award between direct and indirect costs according to generally accepted accounting procedures.

(a) For the purpose of 38 U.S.C. 5071–5074, direct grant costs are limited to the Veterans Administration's contribution to the payment of faculty salaries. (§ 17.405(a)(2)(iii).)

(b) For the purposes of 38 U.S.C. 5081–5083 and 5091–5093, direct costs may include in proportion to time and effort spent, but are not limited to, fees and costs directly paid to personnel or for fringe benefits, publications, educational programs, training, or demonstration activities carried out in connection with projects and programs by grantee institutions. In addition, grants made pursuant to 38 U.S.C. 5081–5083 may include costs of construction, provided that such construction is located on land under the jurisdiction of the Administrator and leased to the grantee.

(c) For the purposes of 38 U.S.C. 5081–5083 and 5091–5093, indirect costs may be computed on a percentage basis or on the basis of a negotiated lump-sum allowance in accordance with the principles set forth in the Office of Management and Budget Circulars No. A–88, No. A–87, and No. A–21. In the method of computation used, only indirect costs shall be included which bear a reasonable relationship to the program funded by the grant and shall not exceed a percentage greater than the total institutional indirect cost is of the total direct salaries and wages paid by the institution.

**§ 17.411 Records, reports, and audit.**

(a) *Records.* Each recipient of assistance shall keep records which fully disclose the amount and disposition by the recipient of the proceeds of the assistance, the total cost of the project or undertaking in connection with which the assistance is made and used, the portion of the costs supplied by other public or private sources, and such other records prescribed by the Administrator as will facilitate an effective audit.

(b) *Reports.* Each recipient of assistance will furnish such periodic progress reports as the Administrator may find necessary.

(c) *Audit.* Any application for assistance shall constitute the consent of the applicant that the Administrator and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to any books, documents, papers and records which are pertinent to such assistance for the purposes of audit and examination.

**§ 17.412 Additional conditions.**

The Administrator may with respect to any grant award impose additional conditions prior to or at the time of any award when in his judgment such conditions are necessary to assure or protect advancement of the grant purposes, the interest of the Veterans Administration or the conservation of grant funds. All construction, and alterations of buildings and structures, related to the award of a grant or other assistance will be subject to section 102(2)(C) of the National Environmental Policy Act.

**§ 17.413 Early termination and withholding of payments.**

Whenever the Administrator finds that a grantee has failed in a material respect to comply with the applicable provisions of 38 U.S.C. Chapter 82, §§ 17.400 through 17.416, or the terms of the grant, he may, on reasonable notice to the grantee withhold further payments and take such other action, including the termination of the grant, as he finds appropriate to carry out the purposes of 38 U.S.C. Chapter 82 and §§ 17.400 through 17.416. Noncancelable obligations of the grantee properly incurred prior to the receipt of the notice of termination will be honored. The grantee shall be promptly notified of such termination in writing and given the reasons therefor.

**§ 17.414 Recapture provision.**

If the Administrator determines that any school established with assistance under §§ 17.400 through 17.416

(1) Is not accredited and fails to gain appropriate accreditation within a reasonable period of time;

(2) Is accredited but fails substantially to carry out the terms of the agreement entered into under 38 U.S.C. Chapter 82; or

(3) Is no longer operated for the purpose for which such assistance was granted,

he shall be entitled to recover from the recipient of assistance the facilities of such school which were established with assistance under §§ 17.400 through 17.416. In order to recover such facilities the Administrator may bring an action in the district court of the United States for the district in which such facilities are situated.

**§ 17.415 Right to hearing.**

The actions contemplated in §§ 17.413 and 17.414 shall not be taken until the grantee has been afforded an opportunity for a hearing. Whenever a hearing is held under this section the procedures shall be in accord with the provisions of §§ 18.9 and 18.10 of this chapter. Failure of a grantee to request a hearing or to appear at a scheduled hearing shall be deemed a waiver of the right to be heard and constitutes consent to the administrator's decision made on the basis of available information.

**§ 17.416 Expansion of hospital education and training capacity.**

Expenditures, not to exceed 30 percent of the funds appropriated under 38 U.S.C. 5082 for grants to affiliated medical and other schools, may be made for the extension, expansion, alteration, improvement, remodeling, or repair of Veterans Administration buildings and structures to make them suitable for use for health manpower education and training. In addition, such expenditures may be made to Veterans Administration hospitals and facilities for the development or initiation of improved methods of education and training.

## Title 39—Postal Service

## CHAPTER I—U.S. POSTAL SERVICE

### SUBCHAPTER D—ORGANIZATION AND ADMINISTRATION

### PART 235—DEFENSE DEPARTMENT LIAISON

### Civil Preparedness

This document changes the section heading in § 235.2 from Civil Defense to Civil Preparedness, changes the title of Defense Coordinator in § 235.2(b) to Emergency Coordinator, and makes several other related changes in terminology.

Accordingly, in Subchapter D, Part 235 is amended as set forth below and is effective on September 19, 1973.

Sec.
235.1 Postal Service to the Armed Forces.
235.2 Civil preparedness.

AUTHORITY.—39 U.S.C. 401(2), 402, 403, 404, as enacted by Pub. L. 91-375, 84 Stat. 719.

**§ 235.1 Postal Service to the Armed Forces.**

(a) Publication 38, Postal Agreement with the Department of Defense, defines the Postal Service's responsibilities for providing postal service to the Armed Forces.

(b) The Chief Inspector is responsible for military liaison.

(c) Postal inspectors provide liaison between postmasters and military commanders, visit military installations as required, and make any necessary recommendations.

**§ 235.2 Civil preparedness.**

(a) *Mission.* The prime objective of postal emergency preparedness planning is to maintain or restore essential postal service in a national emergency, natural disaster, or disruptive domestic crisis.

(b) *Emergency Coordinator.* The Chief Inspector is designated Emergency Coordinator for the Postal Service. As Emergency Coordinator, he provides general direction and coordination of the following programs:

(1) National Civil Preparedness and Defense Mobilization;

(2) Natural Disaster Preparedness;

(3) Emergency Response to Disruptive Domestic Crisis.

(c) *Regional Emergency Coordinator.* The Chief Inspector may delegate authority to Regional Chief Postal Inspectors, or others, for the function of Regional Emergency Coordinator and the general direction and coordination of all such programs within the Postal Regions, as are conducted by him at the National level.

(d) *Postmaster General emergency line of succession.* (1) Deputy Postmaster General; (2) Senior Assistant Postmaster General, Administration; (3) Senior Assistant Postmaster General, Operations.

(e) *Headquarters and field lines of succession.* Each Headquarters organizational unit shall establish its own internal line of succession to provide for continuity under emergency conditions. Each Regional Postmaster General, Regional Chief Inspector, Postal Data Center Director, Inspector in Charge, and postmaster at first-class post offices shall prepare a succession list of officials who will act in his stead in the event he is incapacitated or absent in an emergency. Orders of succession shall be shown by position titles, except those of the Inspection Service may be shown by names.

(f) *Field responsibilities.* Postmasters and heads of other installations shall:

(1) Carry out civil preparedness assignments, programs, etc., as directed by regional officials.

(2) Comply with, and cooperate in community civil preparedness plans (including exercise) for evacuation, take cover and other survival measures prescribed for local populations.

(3) Designate representatives for continuing liaison with local civil preparedness organizations where such activity will not interfere with normal duties.

(4) Endeavor to serve (at their own option) as members on the staff of the local civil preparedness director, provided such service will not interfere with their primary postal responsibility in an emergency.

(5) Authorize and encourage their employees to participate voluntarily in nonpostal pre-emergency training programs

V 38 I 181 SEP 19 73 XUM

and exercises in cooperation with States and localities.

ROGER P. CRAIG,
*Deputy General Counsel.*

SEPTEMBER 11, 1973.

[FR Doc.73-19856 Filed 9-18-73;8:45 am]

## Title 42—Public Health

### CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### MISCELLANEOUS AMENDMENTS

*Amendments to Public Health Service Grant Regulations to conform with 45 CFR Part 74.*—The following amendments bring into conformity with 45 CFR Part 74 those Public Health Service grant program regulations in 42 CFR Chapter I which Part 74 affects. 45 CFR Part 74, which is a new Department of Health, Education, and Welfare (DHEW) regulation published in this issue of the FEDERAL REGISTER, provides a regulatory umbrella for DHEW implementation of Office of Management and Budget (OMB) Circular No. A-102 "Uniform Administrative Requirements for Grants-in-Aid to State and Local Governments." 45 CFR Part 74 also establishes (in Subpart Q) principles for determining allowable costs under DHEW grants to the various types of grantee organizations. These principles have hitherto been published by DHEW only in manual and brochure format.

*Effect on grants to State and local governments.* 45 CFR Part 74 is mandatorily applicable to DHEW grants to State and local governments (as defined in Subpart A of Part 74). For such grants, these amendments add, in the appropriate places, blanket cross-references to Part 74.

*Effect on grants to other recipients.* Those subparts of 45 CFR Part 74 which are derived from OMB Circular No. A-102 have been designed so that, where determined to be appropriate, they may be made applicable to DHEW grants to recipients which are not State or local governments. Subject to certain exceptions which are identified below, the following subparts of 45 CFR Part 74 have been determined to be appropriate for application to such grants under the affected programs covered by this Chapter I, and are specifically made so applicable by these amendments:

45 CFR PART 74

Subpart
- A General.
- B Cash Depositories.
- C Bonding and Insurance.
- D Retention and Custodial Requirements for Records.
- F Grant-Related Income.
- G Matching and Cost Sharing.
- K Grant Payment Requirements.
- L Budget Revision Procedures.
- M Grant Closeout, Suspension, and Termination.
- O Property.

With respect to Part 52 and Subpart B of Part 59a, Subpart L of 45 CFR Part 74 is not at this time made applicable to grants to recipients which are not State or local governments. Further study will be required before a determination can be made as to whether Subpart L of 45 CFR Part 74 should be made applicable to such grants.

The regulations in Part 57 are, for the most part, not affected by the issuance of 45 CFR Part 74. However, it has been determined that certain provisions of Subpart O "Property" of Part 74 shall apply to grants under Subparts L and Q of Part 57. Consequently, these amendments substitute a cross-reference to those provisions of Part 74 in place of the previous provisions of §§ 57.1109(b) and 57.1611(b).

*Cost principles.* Cross-references to Subpart Q "Cost Principles" of 45 CFR Part 74 are also added by these amendments where appropriate.

*Conflicting provisions.* These amendments also revoke or modify, as appropriate, specific provisions of Chapter I which would have conflicted with 45 CFR Part 74.

*Omission of notice of proposed rulemaking.* Notice of proposed rulemaking procedures and delay in effective date have been omitted as unnecessary in the issuance of these amendments which relate solely to the administrative requirements of Public Health Service grants.

*Opportunity to comment.* Written comments concerning these amendments are invited from interested persons. Comments may be addressed to the Assistant Secretary for Administration and Management, Department of Health, Education, and Welfare, 330 Independence Avenue SW., Washington, D.C. 20201. All comments received in response to this invitation will be available for public inspection and copying at room 4829, 400 Sixth Street SW., Washington, D.C., between the hours of 9 a.m. and 5:30 p.m. weekdays, Federal holidays excepted.

*Effective date.*—These amendments shall become effective on September 19, 1973.

Dated September 7, 1973.

FRANK CARLUCCI,
*Acting Secretary of Health, Education, and Welfare.*

Chapter I of Title 42 of the Code of Federal Regulations is amended as follows:

### PART 51—GRANTS TO STATES FOR COMPREHENSIVE HEALTH PLANNING AND PUBLIC HEALTH SERVICES

**§ 51.4 [Amended]**

1. Section 51.4 is amended by revoking the words "within 60 days" in paragraph (g)(1)(iv), by deleting the footnote to the second sentence of paragraph (j), and by revoking the words in the second sentence of paragraph (j) reading "Chapter 5-60 of the Department of Health, Education, and Welfare Grants Administration Manual" and substituting in their place the words "Subpart Q of 45 CFR Part 74."

**§ 51.6 [Amended]**

2. The third sentence of § 51.6 is revoked.

3. Subpart A of Part 51 is amended by adding a new § 51.9, reading as follows:

**§ 51.9 Applicability of 45 CFR Part 74.**

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants made under this subpart.

**§ 51.104 [Amended]**

4. Section 51.104 is amended by deleting the footnote to paragraph (o)(1), by revoking the words in paragraph (o)(1) reading "Chapter 5-60 of the Department of Health, Education, and Welfare Grants Administration Manual" and substituting in their place the words "Subpart Q of 45 CFR Part 74," and by revoking paragraphs (o)(4) and (o)(5).

**§ 51.104 [Amended]**

**§ 51.108 [Amended]**

5. The last sentence in § 51.108(a) is revoked.

6. Subpart B of Part 51 is amended by adding a new § 51.111, reading as follows:

**§ 51.111 Applicability of 45 CFR Part 74.**

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants made under this subpart.

7. Section 51.406 is amended by deleting the footnote to paragraph (b)(2), by revising the last sentence in paragraph (b)(2), and by revising paragraph (c). As amended, § 51.406 reads as follows:

**§ 51.406 Grant evaluation and award.**

* * * * * *

(b) * * *

(2) * * * In determining the grantee's share of project costs, costs borne by Federal grants, or costs used to match other Federal grants, may not be included except as may be otherwise provided by law.

(c) Allowability of costs shall be in conformance with the applicable principles prescribed by Subpart Q of 45 CFR Part 74.

* * * * * *

**§ 51.408 [Amended]**

8. Section 51.408(a) is amended by revoking the words "cost principles set forth in the Department of Health, Education, and Welfare Grants Administration Manual." and substituting in their place the words "applicable cost principles prescribed by Subpart Q of 45 CFR Part 74."

**§ 51.411 [Amended]**

9. Section 51.411 is amended by inserting after the work "Manual" a footnote 2 reference. The text of the footnote is as follows:

* The Department of Health, Education, and Welfare Grants Administration Manual is available for inspection at the Public Information Office of the several Department Regional Offices and available for purchase at the Government Printing Office, GPO document No. 894-523.

10. Section 51.414 is amended by revoking paragraphs (b), (c)(2), and (c)(3), and by revising paragraph (d)(2). As amended, § 51.414 reads as follows:

**§ 51.414 Grantee accountability.**

* * * * * *

(b) [Revoked]
(c) * * *
(2) [Revoked]
(3) [Revoked]
(d) * * *

(2) *Final settlement.* There shall be payable to the Federal Government as final settlement with respect to each approved project the total sum of:

(i) Any amount not accounted for pursuant to paragraph (a) of this section;

(ii) Any credits for earned interest pursuant to paragraph (c)(1) of this section;

(iii) Any other amounts due pursuant to Subparts F, M, and O of 45 CFR Part 74.

Such total sum shall constitute a debt owed by the grantee to the Federal government and shall be recovered from the grantee or its successors or assignees by setoff or other action as provided by law.

**§ 51.415 [Revoked]**

11. Section 51.415 is revoked.

12. The heading and text of § 51.417 are revised to read as follows:

**§ 51.417 Applicability of 45 CFR Part 74.**

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants under this subpart to State and local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to grants to all other grantee organizations under this subpart:

45 CFR PART 74

Subpart
- A General.
- B Cash Depositories.
- C Bonding and Insurance.
- D Retention and Custodial Requirements for Records.
- F Grant-Related Income.
- G Matching and Cost Sharing.
- K Grant Payment Requirements.
- L Budget Revision Procedures.
- M Grant Closeout, Suspension, and Termination.
- O Property.
- Q Cost Principles.

### PART 51a—GRANTS FOR MATERNAL AND CHILD HEALTH AND CRIPPLED CHILDREN SERVICES

**§ 51a.205 [Amended]**

13. The third sentence of § 51a.205 is revoked.

**§ 51a.212 [Amended]**

**§§ 51a.215 and 51a.216 [Revoked]**

14. Sections 51a.212(b), 51a.213, and 51a.216 are revoked.

15. The heading and text of § 51a. 217 are revised to read as follows:

**§ 51a.217 Applicability of 45 CFR Part 74.**

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants under this subpart to State and local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to grants to all other grantee organizations under this subpart:

45 CFR PART 74

Subpart
- A General.
- B Cash Depositories.
- C Bonding and Insurance.
- D Retention and Custodial Requirements for Records.
- F Grant-Related Income.
- G Matching and Cost Sharing.
- K Grant Payment Requirements.
- L Budget Revision Procedures.
- M Grant Closeout, Suspension, and Termination.
- O Property.
- Q Cost Principles.

16. Section 51a.307(b) is amended by deleting the footnote and by revising the last sentence. As amended, § 51a.307(b) reads as follows:

**§ 51a.307 Evaluation and grant award.**

* * * * * *

(b) The amount of any award shall be determined by the Secretary on the basis of his estimate of the sum necessary for the proper performance of the project: *Provided, however,* That no grant shall be made for an amount equal to more than 75 percent of the cost of the project. In determining the grantee's share of project costs, costs borne by Federal funds, or costs used to match other Federal grants, may not be included except as may be otherwise provided by law.

* * * * * *

17. Section 51a.309 is amended by deleting footnote 3 to paragraph (a), and by revising paragraph (a) to read as follows:

**§ 51a.309 Use of project funds.**

(a) Any funds granted pursuant to this subpart, as well as other funds to be used in the performance of the approved project shall be expended solely for carrying out the approved project in accordance with the statute, the regulations in this subpart, the terms and conditions of the award, and the applicable cost principles prescribed by Subpart Q of 45 CFR Part 74: *Provided, however,* That with respect to grants awarded prior to July 1, 1972, funds may not be used for the payment of indirect costs.

* * * * * *

18. Section 51a.314 is amended by revoking paragraphs (b), (c)(2), and (c)(3), and by revising paragraph (d)(2). As amended, § 51a.314 reads as follows:

**§ 51a.314 Grantee accountability.**

* * * * * *

(b) [Revoked]
(c) * * *
(2) [Revoked]
(3) [Revoked]
(d) * * *

(2) *Final settlement.* There shall be payable to the Federal Government as final settlement with respect to each approved project the total sum of:

(i) Any amount not accounted for pursuant to paragraph (a) of this section;

(ii) Any credits for earned interest pursuant to paragraph (c)(1) of this section;

(iii) Any other amounts due pursuant to Subparts F, M, and O of 45 CFR Part 74.

Such total sum shall constitute a debt owed by the grantee to the Federal Government and shall be recovered from the grantee or its successors or assignees by setoff or other action as provided by law.

**§ 51a.315 [Revoked]**

19. Section 51a.315 is revoked.

20. The heading and text of § 51a.317 are revised to read as follows:

**§ 51a.317 Applicability of 45 CFR Part 74.**

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants under this subpart to State and local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to grants to all other grantee organizations under this subpart:

45 CFR PART 74

Subpart
- A General.
- B Cash Depositories.
- C Bonding and Insurance.
- D Retention and Custodial Requirements for Records.
- F Grant-Related Income.
- G Matching and Cost Sharing.
- K Grant Payment Requirements.
- L Budget Revision Procedures.
- M Grant Closeout, Suspension, and Termination.
- O Property.
- Q Cost Principles.

V 38 1 181 SEP 19 73 XUM

## PART 51b—GRANTS FOR COMMUNICABLE DISEASE CONTROL

21. Section 51b.6 is amended by deleting the footnote to paragraph (b), by revising the last sentence in paragraph (b), and by revising paragraph (c). As amended, § 51b.6 reads as follows:

**§ 51b.6 Grant evaluation and award.**

* * * * *

(b) * * * In determining the grantee's share of project costs, costs borne by Federal grants, or costs used to match other Federal grants, may not be included except as may be otherwise provided by law.

(c) Allowability of costs shall be in conformance with the applicable cost principles prescribed by Subpart Q of 45 CFR Part 74.

* * * * *

22. Section 51b.8(a) is revised to read as follows:

**§ 51b.8 Use of project funds.**

(a) Any funds granted pursuant to these regulations may be expended solely for carrying out the approved project in accordance with section 317 of the Act, these regulations, and the applicable cost principles prescribed by Subpart Q of 45 CFR Part 74.

* * * * *

23. Section 51b.13 is amended by revoking paragraphs (b), (c)(2), and (c)(3), and by revising paragraph (d)(2). As amended, § 51b.13 reads as follows:

**§ 51b.13 Grantee accountability.**

* * * * *

(b) [Revoked]
(c) * * *
(2) [Revoked]
(3) [Revoked]
(d) * * *

(2) *Final settlement.* There shall be payable to the Federal Government as final settlement with respect to each approved project the total sum of:

(i) Any amount not accounted for pursuant to paragraph (a) of this section;

(ii) Any credits for earned interest pursuant to paragraph (c)(1) of this section;

(iii) Any other amounts due pursuant to Subparts F, M, and O of 45 CFR Part 74.

Such total sum shall constitute a debt owed by the grantee to the Federal Government and shall be recovered from the grantee or its successors or assignees by setoff or other action as provided by law.

**§ 51b.14 [Revoked]**

24. Section 51b.14 is revoked.

25. The heading and text of § 51b.16 are revised to read as follows:

**§ 51b.16 Applicability of 45 CFR Part 74.**

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants under this part to State and local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to grants to all other grantee organizations under this part:

45 CFR PART 74

Subpart
A General.
B Cash Depositories.
C Bonding and Insurance.
D Retention and Custodial Requirements for Records.
F Grant-Related Income.
G Matching and Cost Sharing.
K Grant Payment Requirements.
L Budget Revision Procedures.
M Grant Closeout, Suspension, and Termination.
O Property.
Q Cost Principles.

## PART 52—GRANTS FOR RESEARCH PROJECTS

**§ 52.15 [Revoked]**

26. Section 52.15 is revoked.

**§ 52.21 [Amended]**

27. Section 52.21 is amended by revoking the words "as provided in § 52.15" in the second sentence, and substituting in their place the words "pursuant to Subpart M of 45 CFR Part 74."

**§ 52.24 [Revoked]**

28. Section 52.24 is revoked.

**§ 52.33 [Amended]**

29. Section 52.33(b) is amended by revoking the words "subject to accounting as provided in § 52.42" in the second sentence, and substituting in their place the words "subject to the provisions of Subpart O of 45 CFR Part 74."

**§ 52.40 [Amended]**

30. Section 52.40 is amended by revoking the words "as provided in § 52.15," and substituting in their place the words "pursuant to Subpart M of 45 CFR Part 74."

**§§ 52.42, 52.43 and 52.44 [Revoked]**

31. Sections 52.42, 52.43, and 52.44 are revoked.

32. Section 52.45 is revised to read as follows:

**§ 52.45 Final settlement.**

There shall be payable to the United States as final settlement with respect to each approved project the total sum of (a) any amount not accounted for pursuant to § 52.41 and (b) any other amounts due pursuant to Subparts F, M, and O of 45 CFR Part 74. Such total sum shall constitute a debt owed by the grantee to the United States and shall be recovered from the grantee or its successors or assignees by setoff or other action as provided by law.

33. Part 52 is amended by adding a new Subpart F, to read as follows:

**Subpart F—Applicability of 45 CFR Part 74—HEW Administrative Requirements and Cost Principles**

Sec.
52.50 Grants to State and local governments.
52.51 Grants to other organizations.
52.52 Grants to individuals.

AUTHORITY.—(5 U.S.C. 301; sec. 215, 58 Stat. 690, as amended (42 U.S.C. 216). Reorg. Plan No. 3 of 1966, 31 FR 8855, 3 CFR 1966–1970 comp. office of Management and Budget Circulars A–102, A–87 and A–21.

**Subpart F—Applicability of 45 CFR Part 74—HEW Administrative Requirements and Cost Principles**

**§ 52.50 Grants to State and local governments.**

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants under this part to State and local governments as those terms are defined in Subpart A of 45 CFR Part 74.

**§ 52.51 Grants to other organizations.**

The relevant provisions of the following subparts of 45 CFR Part 74 shall apply to all grants under this part to organizations other than State and local governments as those terms are defined in Subpart A of 45 CFR Part 74:

45 CFR PART 74

Subpart
A General.
B Cash Depositories.
C Bonding and Insurance.
D Retention and Custodial Requirements for Records.
F Grant-Related Income.
G Matching and Cost Sharing.
K Grant Payment Requirements.
M Grant Closeout, Suspension, and Termination.
O Property.
Q Cost Principles.

**§ 52.52 Grants to individuals.**

The relevant provisions of Subparts A, B, C, D, F, G, K, and M of 45 CFR Part 74 shall apply to grants under this part to individuals.

## PART 53—GRANTS, LOANS AND LOAN GUARANTEES FOR CONSTRUCTION AND MODERNIZATION OF HOSPITALS AND MEDICAL FACILITIES

34. Section 53.128 is amended by revoking paragraph (g), by revoking paragraph (*l*)(2)(ii), and by adding a new paragraph (*l*)(3). As amended, § 53.128 reads as follows:

**§ 53.128 Assurances from applicant.**

* * * * *

(g) [Revoked]

* * * * *

(*l*) * * *
(2) * * *
(ii) [Revoked]

* * * * *

(3) That the applicant will comply with the bonding and insurance requirements set forth in Subpart C of 45 CFR Part 74.

35. Subpart M of Part 53 is amended by adding a new § 53.136, to read as follows:

**§ 53.136 Applicability of 45 CFR Part 74.**

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants under this part to State and local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to grants to all other grantee organizations under this part:

45 CFR PART 74

Subpart
A General.
B Cash Depositories.
C Bonding and Insurance.
D Retention and Custodial Requirements for Records.
F Grant-Related Income.
G Matching and Cost Sharing.
K Grant Payment Requirements.
L Budget Revision Procedures.
M Grant Closeout, Suspension, and Termination.
O Property.
Q Cost Principles.

## PART 54—GRANTS FOR SPECIALIZED SERVICE FACILITIES

36. Section 54.209 is amended by revoking paragraph (*l*)(2)(ii) and by adding a new paragraph (*l*)(3). As amended, § 54.209 reads as follows:

**§ 54.209 State plan; assurances from applicant.**

* * * * *

(*l*) * * *
(2) * * *
(ii) [Revoked]
(iii) * * *

(3) That the applicant will comply with the bonding and insurance requirements set forth in Subpart C of 45 CFR Part 74.

* * * * *

37. Subpart C of Part 54 is amended by adding between existing §§ 54.214 and 54.215, a new § 54.214a, reading as follows:

**§ 54.214a Applicability of 45 CFR Part 74.**

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants under this subpart to State and local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to grants to all other grantee organizations under this subpart:

45 CFR PART 74

Subpart
A General.
B Cash Depositories.
C Bonding and Insurance.
D Retention and Custodial Requirements for Records.
F Grant-Related Income.
G Matching and Cost Sharing.
K Grant Payment Requirements.
L Budget Revision Procedures.
M Grant Closeout, Suspension, and Termination.
O Property.
Q Cost Principles.

38. Subpart D of Part 54 is amended by adding a new § 54.309, to read as follows:

**§ 54.309 Applicability of 45 CFR Part 74.**

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants under this subpart to State and local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to grants to all other grantee organizations under this subpart:

45 CFR PART 74

Subpart
A General.
B Cash Depositories.
C Bonding and Insurance.
D Retention and Custodial Requirements for Records.
F Grant-Related Income.
G Matching and Cost Sharing.
K Grant Payment Requirements.
L Budget Revision Procedures.
M Grant Closeout, Suspension, and Termination.
Q Cost Principles.

## PART 55—GRANTS FOR ADVANCEMENT OF HEALTH IN COAL MINING

39. Section 55.20 is amended by deleting the footnote to paragraph (b), by revising the last sentence in paragraph (b), and by revising paragraph (c). As amended, § 55.20 reads as follows:

**§ 55.20 Grant awards and payment.**

* * * * *

(b) * * * In determining the grantee's share of project costs, costs borne by Federal grants, or costs used to match other Federal grants may not be included except as may be otherwise provided by law.

(c) Allowability of costs shall be in conformance with the applicable principles prescribed by Subpart Q of 45 CFR Part 74.

* * * * *

**§§ 55.22, 55.40 and 55.41 [Revoked]**

40. Sections 55.22, 55.40, and 55.41 are revoked.

**§ 55.51 [Amended]**

41. In § 55.51, paragraph (b) is amended by revoking the words "subject to accounting as provided in § 55.61." in the second sentence, and substituting in their place the words "subject to the applicable provisions of Subpart O of 45 CFR Part 74.", and paragraph (d) is amended by revoking the parenthetical clause "(see Chapter 1–44 of the Department of Health, Education, and Welfare Grants Administration Manual)" in the first sentence.

**§ 55.60 [Amended]**

42. Section 55.60 is amended by revoking the words "as provided in § 55.22" in the last sentence, and substituting in their place the words "pursuant to Subpart M of 45 CFR Part 74".

**§ 55.61 [Revoked]**

**§ 55.62 [Amended]**

43. Sections 55.61 and 55.62(b) and (c) are revoked.

44. Section 55.63 is revised to read as follows:

**§ 55.63 Final settlement.**

There shall be payable to the Federal Government as final settlement with respect to each approved project the total sum of (a) any amount not accounted for pursuant to § 55.60 and (b) any other amounts due pursuant to Subparts, F, M, and O of 45 CFR Part 74. Such total sum shall constitute a debt owed by the grantee to the Federal Government and shall be recovered from the grantee or its successors or assignees by setoff or other action as provided by law.

45. Part 55 is amended by adding a new Subpart H, to read as follows:

**Subpart H—Applicability of 45 CFR Part 74—HEW Administrative Requirements and Cost Principles**

Sec.
55.70 Grants to State and local governments.
55.71 Grants to other organizations.

AUTHORITY.—(5 U.S.C. 301); sec. 215, 58 Stat. 690, as amended (42 U.S.C. 216). Reorg. Plan No. 3 of 1966, 31 FR 8855, 3 CFR 1966–1970 Comp. Office of Management and Budget Circulars A–102, A–87 and A–21.

**Subpart H—Applicability of 45 CFR Part 74—HEW Administrative Requirements and Cost Principles**

**§ 55.70 Grants to State and local governments.**

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants under this part to State and local governments as those terms are defined in Subpart A of that Part 74.

**§ 55.71 Grants to other organizations.**

The relevant provisions of the following subparts of 45 CFR Part 74 shall also apply to all grants under this part to organizations other than State and local governments as defined in Subpart A of 45 CFR Part 74:

45 CFR PART 74

Subpart
A General.
B Cash Depositories.
C Bonding and Insurance.
D Retention and Custodial Requirements for Records.
F Grant-Related Income.
G Matching and Cost Sharing.
K Grant Payment Requirements.
L Budget Revision Procedures.
M Grant Closeout, Suspension, and Termination.
O Property.
Q Cost Principles.

## PART 56—GRANTS FOR MIGRANT HEALTH SERVICE

46. Section 56.107 is amended by deleting the footnote to paragraph (b), by revising the last sentence in paragraph (b), and by revising paragraph (c). As amended, § 56.107 reads as follows:

**§ 56.107 Grant evaluation and award.**

* * * * *

(b) * * * In determining the grantee's share of project costs, costs borne by other Federal grants or costs used to match other Federal grants may not be included except as may be otherwise provided by law.

(c) Allowability of costs shall be in conformance with the applicable principles prescribed by Subpart Q of 45 CFR Part 74.

* * * * *

V 38 I 181 SEP 19 73 XUM

§ 56.109 [Amended]

47. Section 56.109(a) is amended by revoking the words "cost principles set forth in the Department of Health, Education, and Welfare Grants Administration Manual." and substituting in their place the words "the applicable cost principles prescribed by Subpart Q of 45 CFR Part 74."

48. Section 56.114 is amended by revoking paragraphs (b), (c)(2), and (c)(3), and by revising paragraph (d)(2). As amended, § 56.114 reads as follows:

§ 56.114 Grantee accountability.

• • • • • •

(b) [Revoked]
(c) • • •
(2) [Revoked]
(3) [Revoked]
(d) • • •

(2) *Final settlement.* There shall be payable to the Federal Government as final settlement with respect to each approved project the total sum of:

(i) Any amount not accounted for pursuant to paragraph (a) of this section;

(ii) Any credits for earned interest purusant to paragraph (c)(1) of this section;

(iii) Any other amounts due pursuant to Subparts, F, M, and O of 45 CFR Part 74.

Such total sum shall constitute a debt owed by the grantee to the Federal Government and shall be recovered from the grantee or its successors or assignees by setoff or other action as provided by law.

§ 56.115 [Revoked]

49. Section 56.115 is revoked.

50. The heading and text of § 56.117 are revised to read as follows:

§ 56.117 Applicability of 45 CFR Part 74.

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants under this part to State and local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to all other grantee organizations under this part:

45 CFR PART 74

Subpart
A General.
B Cash Depositories.
C Bonding and Insurance.
D Retention and Custodial Requirements for Records.
F Grant-Related Income.
G Matching and Cost Sharing.
K Grant Payment Requirements.
L Budget Revision Procedures.
M Grant Closeout, Suspension, and Termination.
O Property.
Q Cost Principles.

## PART 57—GRANTS FOR CONSTRUCTION OF HEALTH RESEARCH FACILITIES (INCLUDING MENTAL RETARDATION RESEARCH FACILITIES), TEACHING FACILITIES, STUDENT LOANS, EDUCATIONAL IMPROVEMENT AND SCHOLARSHIPS

51. Section 57.1109 is amended by revising paragraphs (b) and (d)(2), and by transferring the footnote from paragraph (b) to paragraph (c)(2). As amended, § 57.1109 reads as follows:

§ 57.1109 Accountability.

• • • • • •

(b) *Accounting for equipment.* Equipment acquired with grant funds awarded under this subpart shall be subject to accountability and related polices and procedures governing the title, use, and disposition of property acquired with grant funds as prescribed in §§ 74.131, 74.132, 74.135, 74.136, 74.137, and 74.141 of Subpart O of 45 CFR Part 74.

(c) • • •

(2) Other income earned by the grantee shall be disposed of in accordance with one of the alternatives specified in Chapter 1-420 of the Department of Health, Education, and Welfare Grants Administration Manual[1] as determined by the Secretary in the grant award

(d) • • •

(2) *Final settlement.* There shall be payable to the Federal Government as final settlement with respect to each approved project the total sum of (i) any amount not accounted for pursuant to paragraph (a) of this section; (ii) any amounts due pursuant to Subpart O of 45 CFR Part 74; (iii) any other settlements required pursuant to paragraph (c)(1) and (2) of this section. Such total sum shall constitute a debt owed by the grantee to the Federal Government and shall be recovered from the grantee or its successors or assignees by setoff or other action provided as by law.

52. Section 57.1611 is amended by revising paragraphs (b) and (d)(2). As amended, § 57.1611 reads as follows:

§ 57.1611 Grantee accountability.

• • • • • •

(b) *Accounting for equipment.* Equipment acquired with grant funds awarded under this subpart shall be subject to accountability and related policies and procedures governing the title, use, and disposition of property acquired with grant funds as prescribed in §§ 74.131, 74.132, 74.135, 74.136, 74.137, and 74.141 of Subpart O of 45 CFR Part 74.

• • • • • •

[1] The Department of Health, Education, and Welfare Grants Administration Manual is available for public inspection and copying at the Department's and Regional Offices' information centers listed in 45 CFR 5.31 and may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

(d) • • •

(2) *Final settlement.* There shall be payable to the Federal Government as final settlement with respect to each approved project the total sum of (i) any amount not accounted for pursuant to paragraph (a) of this section; (ii) any amounts due pursuant to Subpart O of 45 CFR Part 74; (iii) any other settlements required pursuant to paragraph (c)(1) and (2) of this section. Such total sum shall constitute a debt owed by the grantee to the Federal Government and shall be recovered from the grantee or its successors or assignees by setoff or other action as provided by law.

## PART 59—GRANTS FOR FAMILY PLANNING SERVICES

53. Section 59.6(b) is amended by deleting the footnote and by revising the last sentence. As amended, § 59.6(b) reads as follows:

§ 59.6 Evaluation and grant award.

• • • • • •

(b) • • • In determining the grantee's share of project costs, costs borne by Federal funds or costs used to match other Federal grants may not be included except as may be otherwise provided by law.

• • • • • •

§ 59.8 [Amended]

54. Section 59.8(a) is amended by revoking the words "cost principles set forth in the Department of Health, Education, and Welfare Grants Administration Manual." and substituting in their place the words "the applicable cost principles prescribed by Subpart Q of 45 CFR Part 74."

55. Section 59.13 is amended by revoking paragraphs (b), (c)(2), and (c)(3), and by revising paragraph (d)(2). As amended, § 59.13 reads as follows:

§ 59.13 Grantee accountability.

• • • • • •

(b) [Revoked]
(c) • • •
(2) [Revoked]
(3) [Revoked]
(d) • • •

(2) *Final settlement.* There shall be payable to the Federal Government as final settlement with respect to each approved project the total sum of:

(i) Any amount not accounted for pursuant to paragraph (a) of this section;

(ii) Any credits for earned interest pursuant to paragraph (c)(1) of this section;

(iii) Any other amounts due pursuant to Subparts F, M, and O of 45 CFR Part 74.

Such total sum shall constitute a debt owed by the grantee to the Federal Government and shall be recovered from the grantee or its successors or assignees by setoff or other action as provided by law.

§ 59.14 [Revoked]

56. Section 59.14 is revoked.

57. The heading and text of § 59.16 are revised to read as follows:

§ 59.16 Applicability of 45 CFR Part 74.

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants under this subpart to State and local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to all other grantee organizations under this subpart:

45 CFR PART 74

Subpart
A General.
B Cash Depositories.
C Bonding and Insurance.
D Retention and Custodial Requirements for Records.
F Grant-Related Income.
G Matching and Cost Sharing.
K Grant Payment Requirements.
L Budget Revision Procedures.
M Grant Closeout, Suspension, and Termination.
O Property.
Q Cost Principles.

58. The footnote to § 59.206(c) is deleted, and § 59.906(c) is revised to read as follows:

§ 59.206 Evaluation and grant award.

• • • • • •

(c) Allowability of costs shall be in conformance with the applicable cost principles prescribed by Subpart Q of 35 CFR Part 74.

• • • • • •

§ 59.208 [Amended]

59. Section 59.208(a) is amended by revoking the words "cost principles set forth in the Department of Health, Education, and Welfare Grants Administration Manual." and substituting in their place the words "applicable cost principles prescribed by Subpart Q of 45 CFR Part 74."

60. Section 59.212 is amended by revoking paragraphs (b), (c)(2) and (c)(3), and by revising paragraph (d)(2). As amended, § 59.212 reads as follows:

§ 59.212 Grantee accountability.

• • • • • •

(b) [Revoked]
(c) • • •
(2) [Revoked]
(3) [Revoked]
(d) • • •

(2) *Final settlement.* There shall be payable to the Federal Government as final settlement with respect to each approved project the total sum of:

(i) Any amount not accounted for pursuant to paragraph (a) of this section;

(ii) Any credits for earned interest pursuant to paragraph (c)(1) of this section;

(iii) Any other amounts due pursuant to Subparts F, M, and O of 45 CFR Part 74.

Such total sum shall constitute a debt owed by the grantee to the Federal Government and shall be recovered from the grantee or its successors or assignees by setoff or other action as provided by law.

§ 59.213 [Revoked]

61. Section 59.213 is revoked.

62. The heading and text of § 59.215 are revised to read as follows:

§ 59.215 Applicability of 45 CFR Part 74.

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants under this subpart to State and local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to grants to all other grantee organizations under this subpart.

45 CFR PART 74

Subpart
A General.
B Cash Depositories.
C Bonding and Insurance.
D Retention and Custodial Requirements for Records.
F Grant-Related Income.
G Matching and Cost Sharing.
K Grant Payment Requirements.
L Budget Revision Procedures.
M Grant Closeout, Suspension, and Termination.
O Property.
Q Cost Principles.

## PART 59a—NATIONAL LIBRARY OF MEDICINE GRANTS

§§ 59a.16, 59a.20, 59a.23, 59a.24 and 59a.25 [Revoked]

63. Sections 59a.16, 59a.20, 59a.23, 59a.24, and 59a.25 are revoked.

64. Section 59a.26 is revised to read as follows:

§ 59a.26 Final settlement.

There shall be payable to the United States as final settlement the total of any amounts due pursuant to Subparts F, M, and O of 45 CFR Part 74. Such total sum shall constitute a debt owed by the grantee to the United States and shall be recovered from the grantee or its successors or assignees by setoff or other action as provided by law.

65. Subpart B of Part 59a is amended by adding a new § 59a.27, to read as follows:

§ 59a.27 Applicability of 45 CFR Part 74.

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants under this subpart to State and local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to grants to all other grantee organizations under this subpart.

45 CFR PART 74

Subpart
A General.
B Cash Depositories.
C Bonding and Insurance.
D Retention and Custodial Requirements for Records.
F Grant-Related Income.
G Matching and Cost Sharing.
K Grant Payment Requirements.
M Grant Closeout, Suspension, and Termination.
O Property.
Q Cost Principles.

## PART 87—GRANTS FOR RESEARCH AND DEMONSTRATIONS RELATING TO OCCUPATIONAL SAFETY AND HEALTH

66. Section 87.14 is amended by deleting the footnote to paragraph (b), by revising the last sentence in paragraph (b), and by revising paragraph (c). As amended, § 87.14 reads as follows:

§ 87.14 Grant awards.

• • • • • •

(b) • • • In determining the grantee's share of the project costs, costs borne by Federal grants, or costs used to match other Federal grants, may not be included except as may be otherwise provided by law.

(c) Allowability of costs shall be in conformance with the applicable principles prescribed by Subpart Q of 45 CFR Part 74.

• • • • • •

§ 87.15 [Revoked]

67. Section 87.15 is revoked.

§ 87.20 [Amended]

68. Section 87.20(a) is amended by revoking the words "set forth in the Department of Health, Education, and Welfare Grants Administration Manual." and substituting in their place the words "prescribed by Subpart Q of 45 CFR Part 74."

§ 87.30 [Amended]

69. Section 87.30 is amended by revoking the words "as provided in § 87.15," and substituting in their place the words "pursuant to Subpart M of 45 CFR Part 74,".

§§ 87.32 and 87.33 [Revoked]

70. Sections 87.32 and 87.33 are revoked.

71. Section 87.34 is revised to read as follows:

§ 87.34 Final settlement.

There shall be payable to the Federal Government as final settlement with respect to each approved project the total sum of (a) any amount not accounted for pursuant to § 87.31, and (b) any other amounts due pursuant to Subparts F, M, and O of 45 CFR Part 74. Such total sum shall constitute a debt owed by the grantee to the Federal Government and shall be recovered from the grantee or its successors or assignees by setoff or other action as provided by law.

72. Part 87 is amended by adding a new Subpart E, to read as follows:

V 38 I 181 S
SEP 19 73
XUM

Subpart E—Applicability of 45 CFR Part 74—HEW Administrative Requirements and Cost Principles

Sec.
87.40 Grants to State and local governments.
87.41 Grants to other organizations.

AUTHORITY.—5 U.S.C. 301; sec. 215, 58 Stat. 690, as amended (42 U.S.C. 216). Reorg. Plan No. 3 of 1966, 31 FR 8855, 3 CFR 1966–1970 Comp. Office of Management and Budget Circular A–102, A–87 and A–21.

## Subpart E—Applicability of 45 CFR Part 74—HEW Administrative Requirements and Cost Principles

### § 87.40 Grants to State and local governments.

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants under this part to State and local governments as those terms are defined in Subpart A of that Part 74.

### § 87.41 Grants to other organizations.

The following provisions of 45 CFR Part 74 shall also apply to all grants under this part to organizations other than State and local governments as those terms are defined in Subpart A of 45 CFR Part 74:

45 CFR PART 74

Subpart
A General.
B Cash Depositories.
C Bonding and Insurance.
D Retention and Custodial Requirements for Records.
F Grant-Related Income.
G Matching and Cost Sharing.
K Grant Payment Requirements.
L Budget Revision Procedures.
M Grant Closeout, Suspension, and Termination.
O Property.
Q Cost Principles.

---

## PART 91—GRANTS FOR PREVENTION OF LEAD BASED PAINT POISONING

73. Section 91.6 is amended by deleting the footnote to paragraph (b), by revising the last sentence in paragraph (b), and by revising paragraph (c). As amended, § 91.6 reads as follows:

### § 91.6 Evaluation and grant award.

* * * * *

(b) * * * In determining the grantee's share of the project costs, costs borne by Federal grants, or costs used to match other Federal grants, may not be included except as may be otherwise provided by law.

(c) Allowability of costs shall be in conformance with the applicable principles prescribed by Subpart Q of 45 CFR Part 74.

* * * * *

### § 91.8 [Amended]

74. Section 91.8(a) is amended by revoking the words "cost principles set forth in the Department of Health, Education, and Welfare Grants Administration Manual." and substituting in their place the words "the applicable cost principles prescribed by Subpart Q of 45 CFR Part 74."

### § 91.13 [Amended]

75. Section 91.13 is amended by revoking the words in the second sentence reading "as set forth in the Department's Grants Administration Manual." and substituting in their place the words "prescribed by Subpart Q of 45 CFR Part 74." and by inserting a footnote 1 reference after the word "Manual" in the fourth sentence. The text of the footnote is as follows:

[1] The Department of Health, Education, and Welfare Grants Administration Manual is available for inspection at the Public Information Office of the several department regional offices and available for purchase at the Government Printing Office, GPO document No. 894–523.

76. Section 91.14 is amended by revoking paragraphs (b), (c)(2) and (c)(3), and by revising paragraph (d)(2). As amended, § 91.14 reads as follows:

### § 91.14 Grantee accountability.

* * * * *

(b) [Revoked]
(c) * * *
(2) [Revoked]
(3) [Revoked]
(d) * * *

(2) *Final settlement.* There shall be payable to the Federal Government as final settlement with respect to each approved project the total sum of:

(i) Any amount not accounted for pursuant to paragraph (a) of this section;

(ii) Any credits for earned interest pursuant to paragraph (c)(1) of this section;

(iii) Any other amounts due pursuant to Subparts F, M, and O of 45 CFR 74.

Such total sum shall constitute a debt owed by the grantee to the Federal Government and shall be recovered from the grantee or its successors or assignees by setoff or other action as provided by law.

### § 91.15 [Revoked]

77. Section 91.15 is revoked.

78. The heading and text of § 91.17 are revised to read as follows:

### § 91.17 Applicability of 45 CFR Part 74.

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants under this part to State and local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of Part 74 shall apply also to grants to all other grantee organizations under this part:

45 CFR PART 74

Subpart
A General.
B Cash Depositories.
C Bonding and Insurance.
D Retention and Custodial Requirements for Records.
F Grant-Related Income.
G Matching and Cost Sharing.
K Grant Payment Requirements.
L Budget Revision Procedures.
M Grant Closeout, Suspension, and Termination.
O Property.
Q Cost Principles.

In addition, new § 205.18 cross-references Subpart Q "Cost Principles" of 45 CFR Part 74, since that subpart is mandatorily applicable to all DHEW grants.

*Conflicting provisions.* These amendments revoke or modify, as appropriate, those specific provisions of Part 205 which conflicted with 45 CFR Part 74.

*Omission of notice of proposed rule making.* Notice of proposed rule making procedures and delay in effective date have been omitted as unnecessary in the issuance of these amendments which relate to the administrative requirements of grants under Part 205 and the deletion of obsolete material.

*Opportunity to comment.* Written comments concerning these amendments are invited from interested persons. Comments may be addressed to the Assistant Secretary for Administration and Management, Department of Health, Education, and Welfare, 330 Independence Avenue SW., Washington, D.C. 20201. All comments received in response to this invitation will be available for public inspection at room 4829, 400 Sixth Street SW., Washington, D.C., between the hours of 9 a.m. and 5:30 p.m. weekdays, Federal holidays excepted.

*Effective date.*—These amendments shall become effective on September 19, 1973.

Dated September 7, 1973.

FRANK CARLUCCI,
*Acting Secretary of Health, Education, and Welfare.*

Chapter II of Title 42 of the Code of Federal Regulations is amended as follows:

## PART 205—RESEARCH PROJECTS RELATING TO MATERNAL AND CHILD HEALTH SERVICES AND CRIPPLED CHILDREN'S SERVICES, AND RESEARCH OR DEMONSTRATION PROJECTS RELATING TO CHILD WELFARE SERVICES

1. Section 205.4 is amended by revoking the last sentence in paragraph (b) and by revising paragraph (d). As amended, § 205.4 reads as follows:

### § 205.4 Application.

* * * * *

(b) The application shall be executed by an individual authorized to act for the applicant, and to assume for the applicant the obligations imposed by the terms and conditions of any grant, including these regulations.

* * * * *

(d) After a project is approved, the grantee shall submit in writing to the Bureau, for prior approval, information as to any substantial alteration in scope or purpose of the project, any change in project director, or any other change for which prior approval is required by the terms and conditions of the grant.

2. The heading and text of § 205.6 are revised to read as follows:

### § 205.6 Use of funds and allowability of costs.

Grants under this part will be available only for the Federal share of the allowable costs of approved projects. Allowability of costs shall be determined in accordance with the applicable cost principles prescribed by Subpart Q of 45 CFR Part 74.

### § 205.7 [Amended]

3. The last sentence of § 205.7 is revoked.

### §§ 205.8 and 205.9 [Revoked]

4. Sections 205.8 and 205.9 are revoked.

5. Section 205.10 is amended by revising the second sentence of paragraph (a), by revoking the last sentence of paragraph (a), by revoking paragraph (b), and by revising the second sentence of paragraph (c). As amended, § 205.10 reads as follows:

### § 205.10 Records and reports.

(a) The grantee shall establish and follow such accounting, budgetary, and other fiscal procedures as are necessary for the proper and efficient administration of the project, and shall maintain fiscal records. Such records shall show for each period of the grant the amount and disposition by the grantee of Federal and cost sharing funds, the total cost for the period, and such other records as will facilitate an effective audit.

(b) [Revoked]

(c) The grantee shall provide a progress report with each submission of an application for continuation support. A final project report shall be submitted for each project on or before the date specified by the terms and conditions of the grant. * * *

* * * * *

### §§ 205.13 and 205.14 [Revoked]

6. Sections 205.13 and 205.14 are revoked.

7. Section 205.15 is revised to read as follows:

### § 205.15 Final accounting and settlement.

(a) In addition to such other accounting as the Bureau may require, the grantee shall render with respect to each approved project a full account as provided herein, as of the termination date which shall be either (1) the end of the project period, or (2) the date of termination of grant support under Subpart M of 45 CFR Part 74, whichever occurs first.

(b) There shall be payable to the United States as final settlement with respect to each approved project the total sum of (1) any amount not accounted for under § 205.10(e), and (2) any other amounts due pursuant to Subparts F, M, and O of 45 CFR Part 74.

### § 205.16 [Amended]

8. Section 205.16(b) is revoked.

9. A new § 205.18 is added as follows:

### § 205.18 Applicability of 45 CFR Part 74.

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants under this part to State and local governments as those terms are defined in Subpart A of 45 CFR Part 74. The relevant provisions of the following subparts of 45 CFR Part 74 shall apply also to grants to all other grantee organizations under this part:

45 CFR PART 74

Subpart
A General.
B Cash Depositories.
C Bonding and Insurance.
D Retention and Custodial Requirements for Records.
F Grant-Related Income.
G Matching and Cost Sharing.
K Grant Payment Requirements.
M Grant Closeout, Suspension, and Termination.
O Property.
Q Cost Principles.

---

## PART 206—ADMINISTRATIVE PROCEDURE

### Subpart B—Grants to States

### §§ 206.5 through 206.7 [Revoked]

10. Subpart B of Part 206 is deleted.

---

## PART 208—SPECIAL PROJECT GRANTS FOR FAMILY PLANNING SERVICES [DELETED]

11. Part 208 is deleted.

(5 U.S.C. 301), Office of Management and Budget Circulars A–102, A–87, and A–21.)

[FR Doc.73–19606 Filed 9–18–73;8:45 am]

## Title 45—Public Welfare

## CHAPTER IX—ADMINISTRATION ON AGING, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

## PART 901—GENERAL

## PART 903—GRANTS FOR STATE AND COMMUNITY PROGRAMS FOR THE AGING

## PART 904—RESEARCH AND DEVELOPMENT PROJECTS

## PART 905—TRAINING PROJECTS

## PART 909—NUTRITION PROGRAM FOR THE ELDERLY

### Miscellaneous Amendments

The following amendments conform the HEW-administered grant program regulations in Chapter IX with 45 CFR Part 74, which is a new Department of Health, Education, and Welfare (DHEW) regulation published in this issue of the FEDERAL REGISTER. 45 CFR Part 74 provides a regulatory umbrella for DHEW implementation of Office of Management and Budget (OMB) Circular No. A–102 "Uniform Administrative Requirements for Grants-in-Aid to State and Local Governments." Part 74 also establishes (in Subpart Q) principles for determining allowable costs under DHEW grants to the various types of grantee organizations. These principles have hitherto been published by DHEW only in manual and brochure format.

*Effect on grants to State and local governments.* Part 74 is mandatorily applicable to DHEW grants to State or local governments (as those terms are defined

V 38 I 181 SEP 19 73 XUM

in Subpart A of Part 74). For such grants, these amendments add (in new § 901.5) a blanket cross-reference to Part 74.

*Effect on grants to other organizations.* Those subparts of Part 74 which are derived from OMB Circular No. A-102 have been designed so that, where appropriate, they be made applicable to DHEW grants to recipients which are not State or local governments. The following subparts of Part 74 have been determined to be appropriate for application to such grants under this Chapter IX and are specifically made so applicable (in new § 901.5) by these amendments:

45 CFR PART 74

A General.
B Cash Depositories.
C Bonding and Insurance.
D Retention and Custodial Requirements for Records.
F Grant-Related Income.
G Matching and Cost Sharing.
H Standards for Grantee Financial Management Systems.
K Grant Payment Requirements.
M Grant Closeout, Suspension, and Termination.
O Property.

*Cost principles.* Subpart Q "Cost Principles" of 45 CFR Part 74 is also cross-referenced by these amendments, since that subpart is applicable to all DHEW grants.

*Revocation of conflicting provisions.* These amendments revoke those specific provisions in Chapter IX which would have conflicted with 45 CFR Part 74.

*Effect on programs administered by ACTION.* Parts 906 and 907 of this Chapter IX govern programs formerly administered by DHEW but now administered by ACTION, an independent agency. ACTION, like DHEW, is obligated to implement OMB Circular No. A-102. However, ACTION's programs are not covered by DHEW's implementation of the Circular in 45 CFR Part 74. Therefore (with one minor exception as explained below) these amendments have no effect on Parts 906 and 907.

Section 901.4 contained provisions on retention of records inconsistent with Attachment C of OMB Circular No. A-102 and Subpart D of 45 CFR Part 74. Section 901.4 was applicable to all the grant programs in this Chapter IX, including those covered by Parts 906 and 907. By agreement with ACTION, these amendments revise § 901.4 to (a) make it applicable only to Parts 906 and 907, and (b) apply the provisions of Attachment C of OMB Circular No. A-102 to grants made under those two parts. Records retention requirements (derived from Attachment C of OMB Circular No. A-102) for the DHEW-administered grant programs in this Chapter IX are set forth in Subpart D of 45 CFR Part 74 and are linked to this Chapter by new § 901.5 as described above.

*Omission of notice of proposed rulemaking.* Notice of proposed rulemaking and delay in effective date have been omitted as unnecessary in the issuance of these amendments which relate solely to the administrative requirements of grants for aging programs.

*Opportunity to comment.* Written comments concerning these amendments are invited from interested persons. Comments may be addressed to the Assistant Secretary for Administration and Management, Department of Health, Education, and Welfare, 330 Independence Avenue SW., Washington, D.C. 20201. All comments received in response to this invitation will be available for public inspection at room 4829, 400 Sixth Street SW., Washington, D.C., between the hours of 9 a.m. and 5:30 p.m. weekdays, Federal holidays excepted.

*Effective date.*—These amendments shall become effective September 19, 1973.

Dated September 7, 1973.

FRANK CARLUCCI,
*Acting Secretary of Health, Education, and Welfare.*

Chapter IX of Title 45 of the Code of Federal Regulations is amended as set forth below:

1. Section 901.4 is revised to read as follows:

**§ 901.4 Retention of records.**

The provisions of Attachment C of Office of Management and Budget Circular No. A-102 apply to all grants made under parts 906 and 907 of this chapter.

2. A new § 901.5 is added as follows:

**§ 901.5 General administrative requirements.**

The provisions of Part 74 of this title, establishing uniform administrative requirements and cost principles, shall apply to all grants under Parts 903, 904, 905, and 909 of this chapter to State or local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to awards made to all other grantees under Parts 903, 904, 905, and 909 of this chapter:

45 CFR PART 74

Subpart
A General.
B Cash Depositories.
C Bonding and Insurance.
D Retention and Custodial Requirements for Records.
F Grant-Related Income.
G Matching and Cost Sharing.
H Standards for Grantee Financial Management Systems.
K Grant Payment Requirements.
M Grant Closeout, Suspension, and Termination.
O Property.
Q Cost Principles.

**§ 903.35 [Amended]**

3. Section 903.35 is amended by revoking the words "and limited to the extent that actual costs are incurred to the community project." at the end of the last sentence.

**§§ 903.79, 904.7, 904.10, 905.7, 905.10 [Revoked]**

4. Sections 903.79, 904.7, 904.10, 905.7, and 905.10 are revoked.

((5 U.S.C. 301), Office of Management and Budget Circulars A-102, A-87, and A-21.)

[FR Doc.73-19607 Filed 9-18-73;8:45 am]

## Title 47—Telecommunication

## CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

## PART 1—PRACTICE AND PROCEDURE

### Cut-off Dates for Filing of Certain Mutually Exclusive Applications

*Order.*—In the matter of amendment of § 1.227 of the rules concerning cut-off dates for the filing of certain mutually exclusive applications.

1. On July 11, 1972, the Commission released a Report and Order in Docket No. 19484 (37 FR 13982, July 15, 1972) and amended the rules to establish cut-off dates relating to the time in which applications, and amendments thereto, or petitions to deny applications may be filed in the Safety and Special Radio Services. One of the rule sections amended was § 1.227. Subparagraphs (1), (2), and (3) of paragraph (b) of that section specified what applications would be designated for hearing in consolidated proceedings, and subparagraph (4) provided, in essence, that mutually exclusive applications not meeting the requirements of subparagraphs (1), (2), and (3) of paragraph (b) would be dismissed without prejudice. In the subject rule making proceeding, a new subparagraph (4) was added to paragraph (b) concerning applications in the Safety and Special Radio Services, and the old subparagraph (4) was renumbered (5). The language in the newly renumbered subparagraph (5), however, was not amended to show that the subparagraph also applied to the new subparagraph (4). This oversight needs to be corrected by rule amendment as shown below.

2. The amendment herein is editorial in nature and hence the prior notice, procedure and effective date provisions of (5 U.S.C. 553) do not apply. Authority to promulgate the amendment is contained in sections 4(i) and 303(r) of the Communications Act of 1934, as amended, and in § 0.231(d) of the Commission's rules.

3. Accordingly, Part 1 of the Commission's rules is amended as shown below, effective September 21, 1973.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; (47 U.S.C. 154, 303).)

Adopted September 11, 1973.

Released September 12, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] JOHN M. TORBET,
*Executive Director.*

Part 1 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

Section 1.227(b)(5) is amended to read as follows:

**§ 1.227 Consolidations.**

* * * * *

(b) * * *

(5) Any mutually exclusive application filed after the date prescribed in subparagraphs (1), (2), (3), or (4) of this paragraph will be dismissed without prejudice and will be eligible for refiling only after a final decision is rendered by

the Commission with respect to the prior application or applications or after such application or applications are dismissed or removed from the hearing docket.

[Docket No. 19762; FCC 73-915]

## PART 73—RADIO BROADCAST SERVICES

### Table of Assignments in East Moline, Ill.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (East Moline, Illinois); RM-1973.

1. The Commission has before it a notice of proposed rulemaking adopted June 6, 1973 (FCC 73-606, 38 FR 15739) in the above-captioned proceeding, inviting comments on a proposal to assign Class B Channel 267 to either Moline or East Moline, Illinois [38 FR 21651]. The proceeding was instituted on the basis of a petition filed by Upper Rock Island Holding Company, Inc. (petitioner), proposing to assign Channel 267 to East Moline, Illinois.

2. East Moline (population 20,832),[1] located in Rock Island County (population 166,734), is part of the Davenport-Rock Island-Moline Urbanized Area (population 266,199). It presently has one daytime-only AM station (WDLM) and no FM assignments. In addition to the AM station at East Moline, there are 5 AM stations and 4 FM stations in the urbanized area, which are as follows: Davenport (pop. 98,469) has 3 AM stations and 2 FM stations (Channels 279, 293); Rock Island (pop. 50,166) has 1 AM station and 1 FM station (Channel 255); and Moline (pop. 46,237) has 1 AM station and 1 FM station (Channel 245).

3. Interested parties were invited to comment on the Commission's proposal on or before July 20, 1973, and could reply to such comments on or before August 10, 1973. Supporting comments were filed by petitioner and by the Moody Bible Institute (Moody), licensee of daytime-only AM station WDLM, East Moline, Illinois. There were no opposing comments filed.

4. In the Notice, we stated that the petitioner's engineering statement had indicated the proposed assignment would not foreclose future assignments on any of the six adjacent channels and that preclusion on Channel 267 would occur in a very limited area some nine miles northeast of East Moline, the only area where a station on Channel 267 could be located. Petitioner further had indicated that a station operating from this site with a maximum Class B facility would be able to place a 70 dBu signal or greater over the principal cities of the urbanized area. We stated that it appeared the channel could be assigned to any one of these cities, and if assigned to Davenport, Rock Island, or Moline it could be used at East Moline under the provisions of § 73.203(b). We also pointed out that in view of their populations and present channel assignments, and in view of the fact that Moline is located immediately adjacent to East Moline we were proposing assignment of the channel to either of the latter two communities.[2]

5. Petitioner points out in his supporting comments that there is a significantly greater need for an FM assignment at East Moline than there is in Moline. It states that there is only one daytime-only AM station (WDLM) and no FM outlet and that by way of contrast, there are an AM and an FM station in Moline. Moreover, it avers that there is a clear disparity in FM assignments to the various Quad Cities, since each of the other Quad Cities (Davenport, Rock Island and Moline) has at least one FM assignment and East Moline has none. Petitioner contends that a separate FM assignment in East Moline would be a definite plus factor and would increase the stature of the community and could well stimulate additional economic growth. It states that it intends to apply for the channel if assigned, and, if authorized, will promptly build the station.

6. The Moody Bible Institute (Moody), in its supporting comments, states that it would be inequitable to deprive East Moline of a single FM channel in order to assign a third channel to Davenport, or a second channel to Rock Island or to Moline. It contends that if Channel 267 were assigned to Davenport, Rock Island, or Moline, an East Moline applicant for this channel would have to compete with other applicants for this frequency who may specify the larger community of the assignment as their station location, whereas if the assignment is made to East Moline, applicants cannot specify Davenport, Rock Island or Moline as their station's location. Moody states that if the assignment is made to East Moline, it intends to file an application for a construction permit and if such permit is granted, it will promptly build the station.

7. We have given careful consideration to the proposal and comments filed in this proceeding, and believe that Channel 267 should be assigned to East Moline, Illinois. An interest has been shown for its use in East Moline whereas no interest has been shown in having it assigned to Moline or to any other community. The assignment of Channel 267 to East Moline would be in the public interest because it would provide for a first local FM service to a community of 20,832 persons. Further, since the preclusionary effect of the proposed assignment is limited to Channel 267 and the use of the channel is confined to a small area northeast of East Moline, this assignment would result in the efficient use of FM frequencies.

8. Authority for the adoption of the amendment contained herein appears in sections 4(i), 303, and 307(b) of the Communications Act of 1934, as amended.

9. In view of the foregoing, *It is ordered*, That effective October 23, 1973, § 73.202(b) of the Commission's rules, the FM Table of Assignments is amended to read as follows:

| City: | Channel No. |
|---|---|
| East Moline, Illinois | 267 |

10. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083 (47 U.S.C. 154, 303, 307))

Adopted September 6, 1973.

Released September 12, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[3]
[SEAL] VINCENT J. MULLINS,
*Acting Secretary.*

[FR Doc.73-19913 Filed 9-18-73;8:45 am]

[Docket No. 19698; FCC 73-914]

## PART 73—RADIO BROADCAST SERVICES

### FM Broadcast Stations; Table of Assignments

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Yorktown, Virginia); RM-1941.

1. The Commission has before it the notice of proposed rulemaking adopted in this proceeding on March 2, 1973, comments filed by the proponents, the Messrs. Eacho and Swartz ("E&S"), and reply comments filed by Hampton Roads Broadcasting Corporation ("Roads") licensee of Newport News, Virginia, Stations WGH(AM) and WGH-FM.

2. Roads has opposed the E&S petition which sought Channel 231 as a first assignment for Yorktown, Virginia, even before the Commission issued its notice of proposed rulemaking. One of the issues raised by Roads was resolved by the Commission when it adopted the Notice; others were deferred for later resolution. The issue that was resolved was the contention by Roads that Yorktown was not a community within the meaning of our rules. We held otherwise, finding that it had the requisite community of interests on the part of an identifiable population grouping. E&S have provided further support for this conclusion in their comments, and even Roads apparently has acquiesced in this view to which we continue to adhere.

3. E&S had submitted sufficient data to allay our concern on the matter of preclusionary effect stemming from the proposed assignment, so that question is no longer before us. What remains before us are a series of questions relating to the assigning of a Class B channel to Yorktown in the absence of a Class A channel to use instead. As we pointed out in the notice, where the facts of the case

[1] All population figures cited are from the 1970 U.S. Census unless otherwise specified.

[2] The notice set forth information furnished by petitioner concerning the economy, government, and other aspects of East Moline which will not be repeated here.

[3] Commissioner Robert E. Lee absent.

V 38 N 181 SEP 19 73 XUM

warrant, we have assigned Class B channels to various smaller communities even though such was not our usual practice. To help us evaluate the situation presented by the case, we called for more data on the approximate boundaries of Yorktown, as well as its population. From the information we have received it appears that Yorktown is generally considered to encompass the Grafton and Nelson census districts, with a total population of 14,593. In a number of cases we have made Class B assignments to communities in Virginia smaller than Yorktown, and in fact in two cases have provided two channels each to communities of Yorktown's size. Here, a Class A channel is unavailable to bring Yorktown a first local service, a matter of high priority, so that this channel represents Yorktown's only possible channel. Further support for making the assignment is found in the fact that it would make it possible to bring a first FM service to 5,371 persons and a second FM service to 7,628 additional persons.[1]

4. Roads questions the need for a local service in Yorktown, alleging that various area stations cover matters of local interest. Such coverage is not a substitute for a local transmission service, as a station whose principal obligation is to serve another community cannot be expected to provide the same service as would a local station. At most, the attention to Yorktown's needs by outside stations could indicate that the need for a local station was somewhat reduced; it does not provide any basis in itself for finding that the assignment should not be made. Finally, Roads questions the ability of the area to support a station unless it tapped advertising support from outside the county. Needless to say, there is never a guarantee that a station would be able to turn a profit or be able to survive, but that is not the question before us. E&S are willing to undertake the risk and nothing now before us suggests that Yorktown and the rest of the coverage area could not provide enough advertising support to sustain a station. There is nothing improper about obtaining advertising from outside the principal community, and if Roads is suggesting a detrimental impact on its own operation, it has failed to provide a meaningful basis for concern.

5. From the information before us, we have concluded that the public interest would be served by making the proposed assignment. From all indications, the assignment would have no significant negative impact. It would bring about important benefits by providing a first local service to a community of some size[2] and by providing significant numbers of people a first or second FM service.

[1] These figures were obtained from Commission study of the situation and not from the E&S showing that listed a higher figure for first service.

[2] Even though the transmitter would have to be located about 11 miles north of Yorktown, the station would still be able to provide city-grade coverage to the community.

6. Accordingly, *It is ordered*, That pursuant to authority found in sections 4(i), 303, and 307(b) of the Communications Act of 1934, as amended, the FM Table of Assignments (§ 73.202(b) of the Commission's rules and regulations) is amended effective October 23, 1973, insofar as the community named below is concerned, to read as follows:

| City: | Channel No. |
|---|---|
| Yorktown, Virginia | 231 |

7. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083 (47 U.S.C. 154, 303, 307).)

Adopted September 6, 1973.

Released September 11, 1973.

[Docket No. 19718; FCC 73-913]

## PART 73—RADIO BROADCAST SERVICES

### Television Broadcast Stations; Table of Assignments

In the matter of amendment of § 73.606(b), Table of Assignments, Television Broadcast Stations. (Ann Arbor, Flint, Mount Clemens, Port Huron, and Saginaw, Michigan); RM-1854.

1. The Commission here considers the notice of proposed rulemaking in this docket, adopted April 4, 1973 (FCC 73-368; 38 FR 9315), proposing amendment of the TV Table of Assignments (§ 73.606 (b) of the Commission's rules and regulations) as concerns Ann Arbor and other communities in Michigan.

2. The notice was based on the petition of Wolverine-Morningstar Broadcasting, Inc. (Wolverine-Morningstar), seeking the assignment of a first commercial television channel to Ann Arbor, Michigan. The notice described Wolverine-Morningstar,[1] and adduced certain basic information. Ann Arbor has a population of 99,797,[2] and it is the seat of Washtenaw County, population 234,133 (which constitutes the Ann Arbor Standard Metropolitan Statistical Area). Wolverine-Morningstar indicated that it would promptly file an application for a construction permit if the channel was assigned, and it affirmed this intention in its comments. The petitioner had asserted that while service was received from six television stations (five Detroit and one at Windsor), it felt that Ann Arbor merits a commercial channel of its own.[3] We need not repeat other information.

[4] Commissioner Robert E. Lee absent.

[1] It is a Michigan corporation, consisting of nine stockholders seven of whom reside in Ann Arbor and represent a cross-section of economic, social, and civic life of that community and the area.

[2] All population information is from the 1970 Census unless otherwise stated.

[3] Channel *68 is already assigned to that community.

3. As the notice stated, the Wolverine-Morningstar proposal was altered because of a conflict with a major reallocation plan for lower Ontario submitted by Canada for Commission approval on March 6, 1973. In the circumstances, the Commission proposed to assign Channel 31 to Ann Arbor in lieu of the original proposal, and this required changes elsewhere. As particularly relevant, Channel 31 must operate from a transmitter site at least 18 miles west-northwest of the Ann Arbor reference point to meet mileage separations to stations and assignments and a station with a transmitter so situated may provide Ann Arbor with the requisite principal community signal (§ 73.685(a)). However, Wolverine-Morningstar's original proposal had the same limitation and, as already noted, it has affirmed its willingness to proceed to apply for the channel if assigned.

4. The parties commenting are the petitioner, Wolverine-Morningstar; Rust Craft Broadcasting Company (Rust Craft), licensee of Station WEYI-TV, operating on Saginaw Channel 25 with identification as Saginaw-Flint-Bay City, Michigan; and the Association of Maximum Service Telecasters, Inc. (AMST). As already noted, Wolverine-Morningstar supports the assignment and represents that if it is made it will promptly seek authority to construct and operate a commercial broadcast station on Channel 31.

5. Both AMST and Rust Craft oppose the petition. AMST's objections concern two matters. Its first objection is a general one bottomed on short spacing of Channel 31 from the Ann Arbor reference point to the transmitter sites of Stations WDHO-TV, Channel 24, Toledo, Ohio (13 miles), and WGTE-TV, Channel 30, Toledo, Ohio (8.9 miles) and to the reference points for Channel 38 at Mount Clemens, Michigan (10.9 miles), and Channel 32 at Windsor, Ontario (9.5 miles). AMST, however, recognizes that these short spacings are not material considering the fact that the transmitter site for Channel 31 at Ann Arbor must be 18 miles west-northwest of the reference point and, thus, all the spacings would be met. The other AMST objection concerns the short spacing from Station WEYI-TV to the proposed Channel *28 assignment at Flint. Since this also serves as the basis for Rust Craft's objection, we discuss the two together in Para. 6.

6. Both Rust Craft and AMST point out that the Flint reference point is only about 14 miles from the new transmitter site of Station WEYI-TV, while our rules (§§ 73.610 and 73.698) require a 20 mile spacing to protect against harmful intermodulation interference. In this respect, it appears that Channel *28 could be located in a substantial area southeast of Flint and, thus, there would appear to be no problem. AMST, in anticipation of this fact, states that it is not sufficient to merely show that there is an area where a transmitter may be located consistent with mileage requirements and that a showing must be made of specific availability taking into account zoning, FAA considerations, economic factors including coverage, topography, and the area to be served.

7. The Commission in proposing Channel *28 at Flint was cognizant of the potential interference to Station WEYI-TV if a station were located near the Flint reference point. However, it is evident that there is a large area within which a transmitter site for operation on Channel *28 could be selected which meets all spacing requirements. In the circumstances, we do not feel that the matter is of as great a concern as AMST wishes us to believe. Our examination shows site availability as near as six miles to Flint and others toward Pontiac.[4] In our view, the appropriate balance of interests require the assignment of Channel 31 to Ann Arbor and making the other changes in the other communities in Michigan accordingly. Accordingly, we find that the public interest, convenience and necessity would be served by assigning Channel 31 to Ann Arbor, substituting Channel *28 for *31 at Flint, and making changes in assignments at Mount Clemens, Port Huron, and Saginaw. All the changes are of bare assignments.

8. Authority for this action taken here is found in sections 4(i), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended.

9. Accordingly *It is ordered*, That the Television Table of Assignments (§ 73.606 (b) of the Commission's rules and regulations) is amended effective October 23, 1973, as concerns the following communities in Michigan:

| City: | Channel No. |
|---|---|
| Ann Arbor, Michigan | 31+, *58+ |
| Flint, Michigan | 12−, *28−, 66− |
| Mount Clemens, Michigan | 38+ |
| Port Huron, Michigan | 46+ |
| Saginaw, Michigan | 25−, 45− |

10. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083 (47 U.S.C. 154, 303, 307).)

Adopted September 6, 1973.

Released September 12, 1973.

## Title 50—Wildlife and Fisheries

## CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

## PART 32—HUNTING

### Sand Lake National Wildlife Refuge; South Dakota

The following special regulation is issued and is effective September 19, 1973.

§ 32.12 Special regulations: migratory game birds; for individual wildlife refuge areas.

SOUTH DAKOTA

SAND LAKE NATIONAL WILDLIFE REFUGE

Public hunting of waterfowl on the Sand Lake National Wildlife Refuge is permitted only on the areas designated by signs as open to hunting. These open areas, totaling 165 acres, are designated on a map available from the refuge headquarters and from the Area Manager, Bureau of Sport Fisheries and Wildlife, P.O. Box 250, Pierre, South Dakota 57501.

Hunting shall be in accordance with all applicable State regulations concerning the hunting of waterfowl subject to the following conditions:

(1) The open season for hunting geese on the refuge is from October 6, 1973, through December 2, 1973, inclusive. The open season for hunting ducks and coots on the refuge is from October 6, 1973, through December 4, 1973, inclusive.

(2) Hunting will be from established blind sites only, without cost, with each site restricted to not to exceed two hunters, and on a first-come, first-served basis. Blind sites and their use are more specifically described on a map and a list of regulations available at each of the hunting sites.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32.

[4] The area of availability centers on a point roughly midway between Ann Arbor and Pontiac and covers at least 250 square miles.

[4] Commissioner Robert E. Lee absent.

## Title 15—Commerce and Foreign Trade

### CHAPTER III—DOMESTIC AND INTERNATIONAL BUSINESS ADMINISTRATION, DEPARTMENT OF COMMERCE

### SUBCHAPTER B—EXPORT REGULATIONS

[13th Gen. Rev., Export Regs.]

### PART 377—SHORT SUPPLY CONTROLS

### Ferrous Scrap

The FEDERAL REGISTER issuance of July 2, 1973, announced a policy of licensing exports of ferrous scrap against accepted orders for less than 500 short tons, regardless of the date on which such an order was accepted. The purpose of this Bulletin is to suspend (except in the case of stainless steel scrap (Schedule B No. 282.0060)) licensing against such orders in the case of applications which were received in the Office of Export Control after September 10, 1973. Applications received after that time will be returned to the applicant without action.

This action has been taken because of a substantial increase in licensing activity for orders of less than 500 short tons. At the time the licensing controls were imposed, exporters were placed on notice that "in the event the volume of exports under this licensing procedure reaches an unacceptable level, further restrictions may be imposed on exports against orders of less than 500 short tons."

Licensing policy for exports in October of ferrous scrap, covering orders of 500 short tons or more, as well as those of less than 500 short tons, will be announced in a forthcoming Export Control Bulletin.

Accordingly, paragraph (c) of § 377.4 of the Export Control Regulations is revised to read as follows:

§ 377.4 Ferrous scrap.

* * * * *

(c) *Licensing system against orders of less than 500 short tons.* An application for a license to export ferrous scrap against an accepted order for less than 500 short tons, which is submitted on Forms FC-419 and FC-420, will be considered by the Office of Export Control, irrespective of the date on which the order was accepted, if accompanied by a photocopy or certified copy of the contract of sale for export to a foreign buyer, and a sworn affidavit by the applicant as to the amount previously exported against each such contract, if any. Provided, however, that applications for licenses to export ferrous scrap other than stainless steel scrap (Schedule B No. 282.-0060) will not be processed, if received in the Office of Export Control after September 10, 1973. The copy of the contract will serve in lieu of Form FC-842, Single Transaction Statement by Consignee and Purchaser, that would be otherwise required pursuant to § 375.2 of this chapter. After verification of the authenticity of the documentation submitted by the applicant, a license will be issued for export during the month specified in the contract for the total amount of the contract or the unfilled balance, whichever is the lesser amount. Such licenses shall expire 30 days after the date of issuance. Any cancellation of the contract automatically revokes the license that was issued against it. In the event of the cancellation of a contract, the applicant shall file a report of such cancellation with the Office of Export Control no later than five days from the date of cancellation. If a license has been issued against such a contract, the license shall be returned to the Office of Export Control with the notice of cancellation.

* * * * *

Effective date of action.—September 12, 1973.

RAUER H. MEYER,
*Director,*
*Office of Export Control.*

[FR Doc 73-20066 Filed 9-18-73;8:45 am]

# Proposed Rules

**This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.**

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

### [ 7 CFR Part 46 ]

### LICENSE FEES

### Notice of Proposed Rule Making

Notice is hereby given that the United States Department of Agriculture is considering a revision of § 46.6 of the regulations (other than rules of practice) (7 CFR 46.1-46.44) effective under the Perishable Agricultural Commodities Act, 1930 (46 Stat. 531, et seq., as amended; 7 U.S.C. 499a et seq.).

*Statement of considerations leading to the proposed revision.* This Act is designed to prevent unfair and fraudulent practices of persons engaged in the business of marketing fresh or frozen fruits and vegetables or cherries in brine in interstate or foreign commerce. All persons engaged in business subject to the Act are required to be licensed.

The cost of administering this Act, except for the cost of legal services, is financed entirely by the annual license fees. The Act authorizes the Secretary of Agriculture to fix the license fee at such amount, not to exceed $100, as he deems necessary to meet reasonably anticipated expenses for administering the Act.

The source of funds for administering the Act has been shrinking steadily for more than a decade due to the decline in the number of firms handling fruits and vegetables subject to the Act. For example, the number of produce firms licensed under the Act declined from an all-time high of over 27,000 in 1956 to 16,878 on July 1, 1973. Mergers and acquisitions have been common among produce firms of all sizes, and have been one of the major factors attributing to this decline in the number of firms licensed under the Act. This trend is expected to continue.

The caseload of complaints handled under the Act, however, has remained relatively stable, while operating costs have increased, even though there has been no increase in the number of employees engaged in the administration of the Act.

The steady decline of the number of firms operating subject to the Act, and the gradually increasing operating costs has resulted in depleting the PACA Fund.

Because the present license fee of $75 per year is not producing sufficient revenue to meet current administrative expenses, it is proposed, in order to assure continued effective administration of the Act, to increase the annual license fee to $100, effective January 1, 1974.

All persons who desire to submit written data, views, or comments concerning the proposed increase in the fee should file the same in duplicate, with the Hearing Clerk, Room 112, Administration Building, U.S. Department of Agriculture, Washington, DC 20250, not later than November 1, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposed revision of § 46.6 reads as follows:

§ 46.6 License fee.

The annual license fee is one hundred dollars ($100). The Director may require the fee be submitted in the form of a money order, bank draft, cashier's check or certified check made payable to Agricultural Marketing Service. Authorized representatives of the Division may accept fees and issue receipts therefor.

Done at Washington, DC, this 17th day of September 1973.

JOHN C. BLUM,
*Deputy Administrator, Regulatory Programs, Agricultural Marketing Service.*

### [ 29 CFR Part 1910 ]

### STANDARD FOR OCCUPATIONAL EXPOSURE TO COKE OVEN EMISSIONS

### Notice of Proposed Rulemaking

The National Institute for Occupational Safety and Health (NIOSH), U.S. Department of Health, Education, and Welfare has submitted to the Secretary of Labor, pursuant to the Williams-Steiger Occupational Safety and Health Act of 1970, criteria for a recommended standard on the occupational exposure to coke oven emissions. The Office of Standards, Occupational Safety and Health Administration, U.S. Department of Labor is studying the criteria and would appreciate public participation on the issues of whether a new standard for coke oven emissions should be issued on the basis of the criteria or any other information, and, if so, what should be the contents of a proposed standard for coke oven emissions. The issues are set forth with greater particularity below.

Accordingly, interested persons are invited to submit written data, views and arguments concerning a standard on occupational exposure to coke oven emissions. Comments are specifically requested concerning:

(1) Whether a new standard on occupational exposure to coke oven emissions should be issued;

(2) Each section of the standard recommended by NIOSH;

(3) Suitable alternatives to the recommendations of NIOSH;

(4) Work injury and illness experience with coke oven emissions;

(5) Supported cost data of the estimated costs of coming into compliance with the standard recommended by NIOSH;

(6) Supported data on any possible environmental impact of the recommended standard, and specifically (a) any adverse environmental effects which cannot be avoided should the standard be adopted, (b) alternatives to such standard, (c) the relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity, and (d) any irreversible commitments of resources which would be involved if the standard should be implemented; and

(7) Any other related issues.

Communications should be submitted to the Office of Standards, Occupational Safety and Health Administration, U.S. Department of Labor, Room 504 Railway Labor Building, 400 First Street, NW., Washington, D.C. 20210, before November 19, 1973. The communications will be available for public inspection and copying at the Office of Standards.

The NIOSH document containing the criteria and the recommended standard on occupational exposure to coke oven emissions will be available for inspection and copying, upon request, at the Office of Standards in Washington, D.C. and at any of the following regional or area offices.

## ENVIRONMENTAL PROTECTION AGENCY

### [ 40 CFR Part 120 ]

### NAVIGABLE WATERS OF STATE OF WEST VIRGINIA

#### Proposed Water Quality Standards

Notice is hereby given that pursuant to the authority of section 303(b) of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, 1313(b); 86 Stat. 816 et seq.: Pub. L. 92-500) (the Act), regulations setting forth standards of water quality to be applicable to the navigable waters of the State of West Virginia are proposed.

Under section 303(a) of the Act, the Administrator of the Environmental Protection Agency is required to review water quality standards for interstate and intrastate waters adopted and submitted by the States. When he determines that changes in such standards are required to meet the requirements of the Act as in effect prior to October 18, 1972 (the date of enactment of the 1972 Amendments to the Act, Pub. L. 92-500), he must notify the State. If the State does not adopt the required revisions, or if the revisions submitted by the State do not meet the requirements of the Act, the Administrator is to publish proposed revised water quality standards in accordance with such requirements.

The State of West Virginia, prior to October 18, 1972, adopted water quality standards for both interstate and intrastate waters. After the enactment of the 1972 Amendments, EPA reviewed both the interstate and intrastate standards pursuant to section 303(a) of the Act. (A notice concerning EPA review of all interstate and intrastate water quality standards was published in the FEDERAL REGISTER on December 29, 1972, 37 FR 28775-28780). The interstate standards for West Virginia are identified in 40 CFR Part 120 (37 FR 6087, March 24, 1972). The intrastate standards are contained in the same document which sets forth the standards for interstate waters. The standards document is available for inspection and copying at the West Virginia Department of Natural Resources, Division of Water Resources, 1201 Greenbriar Street, Charleston, West Virginia 25311 and the EPA Regional Office, Curtis Building, 6th and Walnut Streets, Philadelphia, Pennsylvania 19106. EPA's information regulations, 40 CFR Part 2, provide that a fee may be charged for making copies.

On January 18, 1973, the Regional Administrator notified West Virginia that certain revisions to its interstate water quality standards were necessary to make the standards consistent with the applicable requirements of the Act. On March 8, 1973, a similar notification was made for intrastate water quality standards. The State has not formally submitted the required revisions within the 90-day period allowed by sections 303(a)(1) and 303(a)(2) of the Act. Accordingly, pursuant to section 303(b)(1), EPA is now proposing regulations setting forth standards required to comply with the Act as in effect prior to October 18, 1972.

Section 303(b)(2) of the Act requires the Administrator to promulgate standards no later than 190 days after the date of publication of this notice, unless by such time the State shall have adopted a water quality standard which the Administrator determines to be in accordance with the requirements of section 303(a) of the Act. However, the Administrator is not required to await State action for the entire 190 day period prior to promulgation. Thus, these standards may be promulgated by the Administrator at any time following the expiration of time for public comment.

Except as provided in the attached proposed regulations, the interstate and intrastate standards previously adopted by the State of West Virginia, as referenced above, are the effective water quality standards under section 303 of the Act for interstate and intrastate navigable waters within that State. Where the

V 38 181
SEP 19 73
XUM

proposed regulations set forth below are inconsistent with the referenced standards, these regulations, if promulgated, will supersede such standards to the extent of the inconsistency.

Interested persons may submit written data, views, or arguments, in triplicate, in regard to the proposed regulations to the Regional Administrator, Curtis Building, 6th and Walnut Streets, Philadelphia, Pennsylvania, 19106. All relevant material received on or before December 18, 1973, will be considered.

Dated September 12, 1973.

JOHN QUARLES,
*Acting Administrator.*

The regulations in Chapter I of Title 40, Code of Federal Regulations, are amended as follows:

**§ 120.12 West Virginia water quality standards.**

(a) Uses. The assigned uses for West Virginia navigable waters will be the "future" uses designated in Chapter 20, Articles 5 and 5A, Code of West Virginia.

Zone Two of the Kanawha River will have an assigned use of Category C, Propagation of Fish and Other Aquatic Life. The Youghiogheny River and its tributaries will have an assigned use of Category C, Propagation of Fish and Other Aquatic Life.

(b) Stream flow. Water quality criteria shall apply in Zone One of the main stem of the Kanawha River whenever stream flow is greater than or equal to 1,800 c.f.s. at the Kanawha Falls gauge. This flow is considered the modified minimum mean 7-consecutive-day drought flow with a 10-year return frequency due to existing water control projects in the Kanawha Basin.

Water quality criteria shall apply in Zone Two of the main stem of the Kanawha River whenever stream flow is greater than or equal to 1,930 c.f.s. at the Charleston gauge. This flow is considered the modified minimum mean 7-consecutive-day drought flow with a 10-year return frequency due to existing water control projects in the Kanawha basin.

(c) Temperature. For all bodies of water temperature rise shall be limited to 5° F above natural in addition to other maximums.

Temperature for Zone Two of the Kanawha River is not to exceed 90° F in any case.

(d) Zone Two of the Kanawha River shall have a dissolved oxygen level of no less than 5 mg/l except that dissolved oxygen may range between 5 mg/l and 4 mg/l for short periods of time under extreme conditions: *Provided*, That the water quality is favorable in all other respects.

(e) For all bodies of water in the State, the fecal coliform content (either MPN or MF count) shall not exceed 200 per 100 ml as a 30-day geometric mean based on not less than five (5) samples during any 30-day period nor exceed 400 per 100 ml in more than ten percent (10%) of all samples during any 30-day period.

(f) Definitions. "Natural" or "natural occurring" values shall mean for all of the waters of the State:

(1) Those water quality values which exist unaffected by—or unaffected as a consequence of—any water use by any person;

(2) Those water quality values which exist unaffected by the discharge, or direct or indirect deposit of, any solid, liquid or gaseous substance by any person.

(g) pH. For all bodies of water, pH shall be not less than 6.5 nor more than 8.5 except streams carrying significant quantities of acid mine drainage.

(h) Section 16—Trout Waters—is expanded to include the following streams, stream stretches, lakes, reservoirs and ponds:

| *Stream* | *County* |
|---|---|
| Abes Run | Pocahontas. |
| Anglins Creek | Nicholas. |

## FEDERAL COMMUNICATIONS COMMISSION

**[ 47 CFR Part 73 ]**

[Docket No. 19811; FCC 73-912]

**FM BROADCAST STATIONS**

**Notice of Proposed Rule Making**

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Melbourne, Florida), RM-2013.

1. Notice of Proposed Rule Making is hereby given concerning proposed amendment of the FM Table of Assignments (§ 73.202(b) of the Commission's rules and regulations) with respect to the petition of Radio Melbourne, Inc. (Radio Melbourne), licensee of AM Station WMEL, Melbourne, Florida, proposing the assignment of Channel 292A as a third assignment to that community.

2. Melbourne, population 40,236,[1] is the largest community in Brevard County, population 230,006. There are presently five aural broadcast services at Melbourne; FM Stations WYRL, Channel 272A, WTAI-FM, Channel 296A, and AM Stations WTAI (daytime-only), WMEL, and WMMB.

3. Radio Melbourne, in support of its petition, contends that another FM channel assignment is necessary at Melbourne in order to meet the needs of the community. From a technical viewpoint, the assignment may be made without other changes in the FM Table of Assignments and in full compliance with all mileage separations if a transmitter site is selected 0.8 miles north of Melbourne (in order to meet spacing to the Channel 292A assignment at Avon Park) but there is no problem in providing a community-grade signal over the city. As Radio Melbourne contends, preclusion is minimal; of the four cities with over 2,500 population Vero Beach has three aural services (one FM station and 2 AM stations), and the other three are contiguous to Melbourne. Channel 288A could be assigned to Vero Beach (as proposed in Docket No. 19772 (FCC 73-642)); and, as to the other three communities, one could apply for the channel if assigned to Melbourne under the "10 mile" rule (§ 73.203(b)). In other respects, petitioner asserts that Melbourne is a thriving community with a full array of schools, businesses, government facilities, and industry, and the site of Florida Institute of Technology, Melbourne, it is claimed, is the heart of the southern part of Brevard County, an expanding area. Petitioner asserts that if the assignment is made it will promptly file an application for the channel and proceed to build and operate a station on it if the application is granted.

4. The petition is opposed by Broadcast Enterprises, Inc., the licensee of Stations WMMB and WYRL(FM), Melbourne, principally on the grounds that a third assignment to Melbourne would be a deviation from the population guideline for assigning only two FM channels to a city of 50,000 or less population. (See para. 4 of the Further Notice of Proposed Rule Making in Docket No. 14185, adopted June 25, 1962 (FCC 62-867), and incorporated by reference in para. 25 of the Third Report, Memorandum Opinion and Order (40 F.C.C. 747, 758 (1968)).)[2] Broadcast Enterprises states that this criterion has consistently been reaffirmed. Petitioner in its reply states that the population criteria are not determinative, citing our Hattiesburg decision, 37 F.C.C. 2d 54 (1972).

5. Oliva Broadcasting Company, licensee of daytime-only AM Station WIPC, Lake Wales, Florida, filed informal comments opposing the petition because of the asserted need for nighttime service at Lake Wales, population 8,240, which is located in Polk County, population 227,222. It apparently intends to petition for the reassignment of Channel 292A from Avon Park, population 6,717, which is located in Highlands County, population 29,507. Reassignment of Channel 292A from Avon Park to Lake Wales might be foreclosed by the assignment of Channel 292A to Melbourne, since the distance between the communities is 60 miles while the requisite mileage separation is 65 miles.

6. Despite the contentions of Broadcast Enterprises to the contrary, the population criteria for FM channel assignments are merely a guide with deviation permitted depending on demand and availability of an FM channel for assignment to the community; see, e.g., Fresno, 38 F.C.C. 2d 525, 526 (1972); Yakima (73-837), — F.C.C. 2d —— (1973). In this instance, there is a demand as evidenced by the petition of Radio Melbourne for a city (and county) with a rapidly increasing population[3] and from the technical viewpoint assignment of Channel 292A to Melbourne may be made without affecting the FM Table of Assignments in any other respect and with minimal preclusion. In the circumstances, we believe that the public interest, convenience, and necessity would be served by our adopting a Notice of Proposed Rule Making proposing assignment of 292A to Melbourne. While, as already noted, the proposal to assign Channel 292A to Melbourne might prohibit assignment of that same channel to Lake Wales, Oliva Broadcasting Co. has not petitioned for such a change, and we cannot presume that it will (it still may under the cut-off precodure set forth below).[4]

[1] All population information is from the 1970 Census

[2] Actually Radio Melbourne has petitioned for a "second" channel, but Melbourne has had two channels since Eau Gallie was merged with Melbourne (see Report and Order in Docket No. 19254 (FCC 71-988)).

[3] Melbourne's population increase between 1960 and 1970 was 235.8 percent and that of Brevard County was 106.4 percent.

[4] On August 15, 1973, the application of Tri-County Stereo, Inc. for a construction permit to construct on Channel 292A at Avon Park was accepted (BPH-8523).

V 38 I 181 SEP 19 73 XUM

7. In view of the foregoing and pursuant to authority found in sections 4(i), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, it is proposed to amend § 73.202(b) of the Commission's rules and regulations, the FM Table of Assignments, as concerns Melbourne, Florida, as follows:

| City | Channel No. | |
|---|---|---|
| | Present | Proposed |
| Melbourne, Fla | 272A, 296A | 272A, 292A, 296A |

8. *Showings required.* Comments are invited upon the proposal referred to above. Radio Melbourne should affirm its intention to promptly apply for the channel if assigned and to construct if its application is granted. Failure to file comments or address the issues raised may result in dismissal.

9. *Cut-off procedure.* The following procedures will govern:

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments.

(b) With respect to petitions for rule making which conflict with the proposal in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given, as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision herein.

10. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules and regulations, interested parties may file comments on or before October 23, 1973, and reply comments on or before November 1, 1973. All submissions by parties to this proceeding, or parties acting on behalf of such parties, must be made in written comments, reply comments, or other appropriate pleadings.

11. In accordance with the provisions of § 1.419 of the rules and regulations, an original and 14 copies of all comments, reply comments, pleadings, briefs, and other documents shall be furnished the Commission. These will be available for public inspection during regular business hours in the Commission's Public Reference Room at its Headquarters, 1919 M Street, NW., Washington, D.C.

Adopted September 6, 1973.

Released September 12, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[3]
[SEAL] VINCENT J. MULLINS,
*Acting Secretary.*

## [ 47 CFR Part 73 ]

[Docket No. 19816; FCC 73-930]

## EDUCATIONAL BROADCAST

### Notice of Inquiry and Notice of Proposed Rulemaking

In the matter of ascertainment of community problems by educational broadcast applicants; amendment of section IV (Statement of Program Service) of FCC Broadcast Application Forms 340 and 342 (Noncommercial Educational Broadcast Applications); and formulation of rules and policies relating to the renewal of educational broadcast licenses.

1. The Commission hereby gives notice of inquiry and proposed rule making concerning its requirements and policies with respect to the ascertainment of community problems, needs and interests by educational broadcast applicants and licensees and the renewal of educational broadcast licenses.

2. In petitions for rule making (RM–1851 and RM–1874), the National Association of Black Adult Educators, the National Black American Law Student Association, the National Association of Black Students and Hollis H. Larkins, Jr. (the "Black Associations"),[1] jointly, and Sandra W. Bennett, Ph. D.,[2] individually, have requested revision of FCC Forms 340 and 342[3] to require all applicants for noncommercial educational broadcast licenses, including applicants for renewal of station authorizations, to ascertain community problems, needs and interests and to propose programming in response thereto.[4] A statement in support of each petition has been filed by the National Association of Educational Broadcasters (NAEB), which has also referred to its comments submitted in Docket No. 19153, the Commission's rule making inquiry into the renewal process in the commercial broadcast field. Also, the Corporation for Public Broadcasting (CPB) has filed a petition for rule making (RM–1974), which requests certain changes in the noncommercial educational FM rules dealing with channel allocations, station licensing and operation and technical requirements. In its petition, CPB states that noncommercial FM applicants should be required to show that their stations will be used to serve ascertained community needs. The CPB petition has relevance to the inquiry herein. However, we are not attempting to dispose of the petition and its various requests concerning the educational FM rules in the context of this proceeding.

3. The Black Associations contend that noncommercial educational broadcasting has witnessed a shift in emphasis from "instructional" programming directed towards the student to "public" programming, which attempts to present news, public affairs and cultural offerings to the community at large. As a result, petitioners assert that educational broadcasters should be charged with the duty of ascertaining the educational and cultural needs of their communities under the same guidelines imposed on commercial broadcasters by the Commission's Primer on Ascertainment of Community Problems by Broadcast Applicants." See Report and Order in Docket No. 18774, 27 FCC 2d 650 (1971). Although petitioners concede that the Commission may have been correct in paying deference to the instructional programming expertise of educational broadcasters during the advent of the noncommercial service, they stress that the evident change in emphasis to public programming demonstrates the need to impose formal ascertainment requirements on educational broadcasters to insure programming responsive to the general educational and cultural interests of communities and to the special problems of minority groups. The Black Associations emphasize the need for diversified ideas if educational stations are to contribute to the educational process and to the development of cultural awareness. In this regard, petitioners note that some educational television stations have refused to carry certain programs even though the need for such programming was apparent from expressions of interest by the public. In addition, petitioners refer to an independent study of educational television viewing which apparently reveals that educational television is perceived not as a medium for community dialogue but rather as a communications vehicle for the better-educated segments of the population, which usually provide substantial financial support for the service.

4. The Black Associations maintain that even though the ascertainment process is no substitute for media access by the disadvantaged, it does provide broadcasters with the opportunity to program in response to community problems. They point out that several parties, in response to the Notice of Inquiry in Docket No. 18774, 20 FCC 2d 880 (1969), urged that educational applicants should not be exempted from the Primer's ascertainment requirements and that they would profit as much as commercial broadcast applicants from the information obtained through community surveys. As petitioners note, the Commission declined to apply the Primer guidelines to applicants for educational broadcast licenses because of the specialized programming presented by educational stations. See 27 FCC 2d at 651. In spite of this determination by the Commission, the Black Associations contend that an educational broadcast applicant must become familiarized with local concerns by surveying his community and by soliciting ideas for relevant programming. Therefore, petitioners request the Commission to amend its rules (§§ 73.503(a) and 73.621(a)) and application forms (FCC Forms 340 and 342) to require educational broadcast applicants to ascertain community problems, needs and interests and to propose programming in response thereto, consistent with existing Primer guidelines and with the following recommended requirements:

(a) The applicant will conduct his ascertainment survey by consulting with students, young people, women and ethnic, economic and political minorities;

(b) The applicant will demonstrate the criteria used to determine community leaders;

(c) The applicant will demonstrate that the leaders selected for consultation are recognized by the groups for which they are selected;

(d) The applicant will conduct his ascertainment survey on a continuing basis and will submit specific evidence semi-annually to the Commission to demonstrate that community problems, needs and interests are being served; and

(e) The applicant will demonstrate what steps he has taken to assure continuing contact with his community.

5. Sandra W. Bennett also asks that formal ascertainment requirements be imposed on educational broadcasters. She stresses that there is no sound reason to differentiate an educational broadcaster's obligations in this regard from those attached to a commercial broadcaster. Referring to an NAEB survey, petitioner asserts that local minority programming is virtually non-existent in public broadcasting, and she contends that ascertainment procedures which require an accounting of minority needs and interests should be instituted for educational broadcast applicants. Petitioner suggests that the ascertainment process must be on-going and that educational licensees must be able to show evidence of more than a six-month thrust every three years. She also recommends that every educational broadcaster be required to form a citizens' advisory council, whose membership would reflect diverse segments of the community and whose purpose would be to assist the educational station in identifying community problems and in formulating programming in response thereto.

6. The NAEB, in its statements in support of the rule making petitions, urges the Commission to initiate an inquiry to explore ascertainment criteria for public broadcasters. According to the NAEB, educational broadcasters must be attuned to the needs, interests and problems of their communities, and reasonable survey and reporting procedures, devised with the unique operations and objectives of noncommercial stations in mind, will assure their responsiveness to the primary needs of their service areas in the form of a continuing dialogue between station and community. Referring to its comments submitted in Docket No. 19153, the NAEB submits that the nature of materials to be included in renewal applications by educational broadcasters should await the outcome of an ascertainment inquiry when the Commission can make a more informed judgment on the content of renewal applications and the announcements to be aired by educational broadcasters.

7. No extended discussion of the basic responsibilities of educational broadcasters is required. Commission regulations provide that noncommercial educational stations are to be licensed upon a showing that the station will be used to advance educational programs (§ 73.503(a)) and to serve the educational needs of the community (§ 73.621 (a)). Congress has also recognized the significant contribution which noncommercial broadcasting can make in serving national and local needs, particularly in the areas of instructional and public affairs programming. In providing funding for public broadcasting through the Corporation for Public Broadcasting, Congress specifically declared that one of its purposes was "to encourage noncommercial educational radio and television broadcast programming which will be responsive to the interests of people both in particular localities and throughout the United States * * *" (section 396(a)(4) of the Communications Act of 1934, as amended). The House Report, in commenting on the initial financial assistance to CPB, stated (H. Rept. No. 572, 90th Cong., 1st Sess., p. 10):

> * * * the rewards which are reasonably to be expected from this seed program cannot be measured in money alone. Who can estimate the value to a democracy of a citizenry that is kept fully and fairly informed as to the important issues of our times and whose children have access to programs which make learning a pleasure?

Similarly, the Senate Report of the next year points out that "* * * public broadcasting can be * * * a vital public affairs medium—bringing in depth many aspects of community and political life; * * * a means of examining and solving the social and economic problems of American life today." (Sen. Rept. No. 91–167, 91st Cong., 1st Sess., p. 7). Moreover, the efforts of Congress[5] and the Commission[6] have been directed to insuring that those licensed to operate broadcast facilities do so in a manner that reflects an awareness and responsiveness to the problems, needs and interests of the public. And the Supreme Court has described the broadcaster as a proxy or fiduciary for the public, who is required to make a good faith effort to choose a program service that is responsive to community needs. See Red Lion Broadcasting Co., Inc. v. F.C.C., 395 U.S. 367 (1969).

8. In view of the foregoing, even though formal ascertainment requirements have not been imposed on noncommercial broadcasters, there appears to be no question concerning their obligations in this regard—they, like commercial broadcasters, have an affirmative duty to determine the needs and interests of their communities and to program in such a way as to meet those ascertained needs. See, for example, Report and Statement of Policy re: Commission En Banc Programming Inquiry, supra, which attempted to define the scope of a broadcaster's obligation in the following terms:

> The confines of the licensee's duty are set by the general standard "the public interest, convenience or necessity." The initial and principal execution of that standard, in terms of the area he is licensed to serve, is the obligation of the licensee. The principal ingredient of such obligation consists of a diligent, positive and continuing effort by the licensee to discover and fulfill the tastes, needs and desires of his service area. If he has accomplished this, he has met his public responsibility. (Footnote omitted) 20 RR at 1912.

And noncommercial broadcasters have increasingly recognized their duty to serve, to a significant extent, as outlets for local expression. When noncommercial frequencies were first allocated, applications by educational institutions seeking to meet their own institutional needs predominated. The present profile of noncommercial educational stations, however, is quite different, as petitioners have pointed out.[7] Although many stations still devote a portion of their broadcast day to instructional programming, the major part of that day, particularly evening hours and weekends, is occupied by programming which is aimed at a broad spectrum of community problems, needs and interests.

---

[1] The Black Associations consist of organizations whose memberships include black law students, student government and black student union groups and black adult educators and whose primary purpose is to secure educational opportunities for the disadvantaged. Hollis H. Larkins, Jr. is a graduate of the School of Education of California State College at San Diego and is active in community educational affairs in the Los Angeles area.

[2] Sandra W. Bennett, Ph. D., a former director of research and development for the Center for Continuing Medical Education at the Ohio State University College of Medicine, has filed a rule making petition (RM–1874) on her own behalf as a concerned citizen, educator, broadcaster and researcher in educational broadcasting.

[3] FCC Form 340 is the application form for authority to construct or make changes in a noncommercial educational AM, FM or TV broadcast station. FCC Form 342 is the application form for renewal of a noncommercial broadcast station license (AM, FM or TV).

[4] The Bennett petition only refers to educational television stations whereas the Black Associations' request applies to all applicants for educational station licenses.

[5] See Sections 307 (b) and (d), 309 and 315(a) of the Communications Act of 1934, as amended.

[6] See *Report and Order in Docket No. 18774, supra; Notice of Inquiry in Docket No. 18774, supra; Ascertainment of Community Needs by Broadcast Applicants*, 33 FR 12113 (1968); and *Report and Statement of Policy re: Commission En Banc Programming Inquiry*, 20 RR 1901 (1960).

[7] In terms of expanded service, for example, authorizations for noncommercial educational UHF–VHF stations have increased from 56 in 1961 to 236 in 1973. In addition, the average hours broadcast by each station have increased to 70.9, and approximately one-half of all stations are operating seven days a week. It is also estimated that about 63 percent of all broadcast hours are programmed in color. See *One Week of Public Broadcasting*, April, 1972, a survey conducted by Dr. Nathaniel Katzman for the Corporation for Public Broadcasting.

[8] About one-third of educational television programming is instructional in nature. This figure does not include transmissions over Instructional Television Fixed Service (ITFS), which was established on 2500–2690 MHz in 1963 as a supplemental service for the transmission of instructional and cultural materials to schools and other selected receiving locations. As of August, 1973, 500 ITFS channels were in use and another 100 such channels had been requested. It should be pointed out that this Notice does not pertain to the ITFS.

[9] Commissioner Robert E. Lee absent.

V 38 181 SEP 19 73 XUM

In this regard, it is recognized that many educational stations conduct regular assessments of community needs to develop responsive programming even though they are not bound by the formal requirements imposed on commercial broadcast applicants and licensees.

9. The noncommercial broadcast service, by definition, differs markedly from the commercial service. It is designed to serve the educational needs of the community, and it is intended to meet cultural and informational interests often given minimal attention by commercial broadcasters who normally program to reach a large mass audience. This is not to say that noncommercial broadcasting is somehow missing the mark if its programming attracts large audiences. But, quite obviously, noncommercial service can tolerate audiences that would spell immediate disaster in the commercial area. Its strength, in fact, may derive from its ability to be innovative and to serve significant minority tastes, needs and interests. Nevertheless, it is a mistake to regard the noncommercial service as something apart from, and outside of, the basic structure of the Communications Act and Commission policies. The Act and its legislative history and our own pronouncements make clear the obligations imposed on educational broadcasters and the authority of the Commission to examine whether educational broadcasters have sought to ascertain and to meet community needs and to contribute to the goal of an informed electorate through controversial issue programming.[9]

10. Therefore, the Commission agrees with the petitioners that noncommercial educational broadcasters should be attuned to the problems, needs and interests of their service areas and should present programming in response thereto. We do realize that many noncommercial stations currently assess community needs as a matter of policy in order to stimulate a continuing dialogue with the public and to serve as effective outlets for local expression. We also note that as noncommercial broadcasting has developed, the emphasis has shifted from instructional to public programming and that such a shift magnifies the need for educational broadcasters to be aware of, and responsive to, community needs. In the past, the Commission has not imposed formal ascertainment requirements on educational broadcasters because of the unique character of the noncommercial service. In our Report and Order in Docket No. 18774, supra, we stated that the Primer would not be applied to educational broadcast applicants even though several parties had contended that the ascertainment process would profit educational applicants as much as commercial applicants. Since the issuance of the Primer, we have been urged by several parties, including the petitioners, to impose formal ascertainment requirements on educational applicants, and we are now persuaded to reexamine our prior position in light of the apparent shift in programming emphasis with the growth of educational stations and of the increased awareness of the role to be served by educational broadcasting on the local, state and national levels.

11. We therefore invite comments from interested parties on the question of whether formal ascertainment requirements should be imposed on educational broadcast applicants, including applicants for renewal of station authorization, and, if so, what specific obligations should be assessed. We request comments on how educational radio and television stations, given their unique character and the special nature of their program service, can best ascertain community problems, needs and interests and whether there should be special procedures imposed in regard to the ascertainment of educational and instructional needs[10] as opposed to general community needs. We also ask parties to address themselves to the following questions: whether a distinction should be drawn between educational radio and television stations in terms of ascertainment requirements (see paragraph 12, infra.); whether a distinction should be drawn between classes of radio stations (for example, between a class D ten-watt FM station and a higher-powered educational radio station); whether the existence of a state-wide educational broadcast system should have any effect on ascertainment requirements imposed on member stations; and whether formal ascertainment procedures will impose substantial financial burdens on educational applicants and licensees. Since we have gained some experience with the Primer guidelines, which could be applied in most respects to educational broadcast applicants, we propose to offer the 1971 Primer as a reference point for this part of the inquiry. Therefore, we invite specific comments on whether the Primer guidelines can and should be applied to educational applicants, whether for new or modified facilities or for renewal of license. Parties commenting on this question who feel that the Primer should be applied to educational applicants, but with certain modifications, should set forth their proposed modifications and reasons therefor. In this regard, we note that the Primer for commercial applicants, at Question and Answer (18), suggests that applicants should not elicit program preferences, but should focus on community problems. In the educational area, it may be appropriate to permit educational stations to sound out program preferences or suggestions since their service offering is so specialized in nature. In any event, we request commenting parties to address such questions. We also ask for discussion on the additional requirements proposed by the Black Associations (see paragraph 4, supra), especially the requirement for a continuing ascertainment process, and on Sandra Bennett's proposal that every educational broadcaster be required to form a citizens' advisory council (see paragraph 5, supra).

12. In addition, commenting parties should be aware of the Commission's pending Notice of Inquiry in Docket No. 19715, 40 FCC 2d 379 (1973), which is a proceeding to investigate the ascertainment process applicable to commercial broadcast applicants and which was initiated, in part, because of complaints that various ascertainment requirements are unnecessary, impractical or unduly burdensome. Part I of the inquiry is designed to explore the alleged differences between radio and television relative to the role of each in discharging its public interest responsibilities under the Act and the effect of certain variables, such as market size, number of stations in a market, number of employees, specialized formats, etc., on those roles and the ascertainment process. Part II deals specifically with the ascertainment process for both radio and television in light of the differences elicited in Part I and raises numerous questions concerning certain ascertainment requirements. Parties commenting in this proceeding should feel free to address themselves to any question raised in Docket No. 19715 which they consider to have impact on our inquiry into ascertainment by educational applicants. It is quite conceivable that revisions or modifications in the Primer guidelines for commercial applicants could have a significant effect on our consideration of formal ascertainment requirements for educational broadcast applicants, and, for that reason, we ask commenting parties to assess the relevance of matters raised in Docket No. 19715.

[9] Even though section 399 of the Communications Act prevents educational stations from editorializing, the obligation that a licensee devote a reasonable amount of time to the discussion of controversial issues of public importance is applicable to noncommercial as well as commercial broadcast stations. The Senate Commerce Committee emphasized this obligation in its Report on S. 1090 (Authorization for Public Broadcasting, April 17, 1973) when it stated, "Public affairs programming, at the local and national levels, belongs in public broadcasting. Presented objectively these programs can enlighten their audiences, and bring increased understanding and added dimensions to the problems and issues which beset our society." Of course, the licensee's coverage of issues must be effected in full compliance with the "equal opportunities" and fairness requirements of Section 315 of the Act and Commission rules and policies.

[10] In addition to the obligation to serve local needs, particularly in the public affairs area, educational stations are encouraged to provide instructional services in an effort to fulfill the educational needs of the community. Congress, itself, has declared that it is in the public interest to use educational broadcast media for instructional purposes. See Section 396(a)(1) of the Communications Act of 1934, as amended. Therefore, comments are invited on whether educational applicants should also ascertain the *instructional* needs of the community (whether formal in-school or informal out-of-school) and, if so, what specific requirements should be imposed.

13. At present, applicants for authority to construct or make certain changes in a noncommercial educational AM, FM or TV station are required to file Form 340, Section IV of which consists of a statement of program service. Section IV requires information concerning the applicant's purpose and objective in establishing the proposed station, proposed program policies and program schedule, available facilities, staff and equipment, proposed network affiliation, etc. Section IV of Form 342 (educational station renewal application) requires the submission of program logs for a full week of operation and information concerning operating hours, sources of programming, types of programs (instructional, general educational, performing arts, public affairs, light entertainment and other), and whether the applicant contemplates any material changes in future program service and any network affiliation. Unlike similar sections in FCC Forms 301, 303, 314 and 315 (commercial broadcast application forms), there is no requirement in Forms 340 and 342 for the ascertainment of community problems, needs and interests by the educational applicant and for his program proposals in response thereto.

14. In the event that the Commission determines herein that formal ascertainment requirements should be imposed on educational broadcasters, then it is proposed to amend section IV of Forms 340 and 342 to require educational applicants and licensees to indicate the methods used to ascertain the needs and interests of the public to be served by the station; the significant needs and interests of the public which the applicant will serve during the coming license period; and typical and illustrative programs or program series that applicant plans to broadcast to meet ascertained needs and interests. See Appendix. In addition, it is proposed that section IV of Form 342 (renewal application) be amended to require information from educational licensees as to what programs or program series were presented during the year preceding the filing of the renewal application to meet the most significant needs and interests of the community. In this way, the Commission will be better able to evaluate an educational licensee's responsiveness to community needs and his performance in light of past proposals. Persons commenting on the proposed revisions in Forms 340 and 342 are also invited to suggest other modifications that would be consistent with the imposition of ascertainment requirements on educational applicants. The Commission believes that an effective public broadcasting system must be rooted in an awareness of, and responsiveness to, important community needs. Our proposals herein are not meant to place an undue or unnecessary burden upon the resources of educational applicants and licensees.[11] Our proposals are intended to enable educational broadcasters to develop the information necessary to make informed programming judgments.[12]

15. In our Notice of Inquiry and Notice of Proposed Rulemaking in Docket No. 19153, 27 FCC 2d 697 (1971), we indicated our intent to simplify the broadcast renewal process by concentrating on the essential elements of broadcast service to the public, by encouraging a continuing dialogue between a licensee and his community throughout the license period and by providing for more orderly procedures in the consideration of petitions to deny renewal applications and related pleadings. In paragraph 3 of the Notice, we indicated that Parts II and III of the inquiry concerning proposed revisions of our rules relating to the time for filing renewal applications, petitions to deny and related pleadings and to announcements of the filing of renewal applications would be applicable to broadcasting generally, including the noncommercial educational service. However, we also noted that Part I, which proposed requirements for the broadcast of notices to the public about the manner in which to comment on station performance and for the maintenance of a complaints and suggestions file, would exclude educational broadcasters; and that Part IV, which proposed revisions in Section IV–B (Statement of Television Program Service) of FCC Form 303 (renewal application) and the adoption of an annual reporting form, would apply only to commercial television stations.

16. On May 4, 1973, the Commission released an Interim Report and Order in Docket No. 19153,[13] FCC 73–451, 27 RR 2d 553, in which the proposals mentioned above were adopted with certain modifications. In regard to Parts II and III, which are applicable to *all* broadcast station licensees, Commission rules would be revised to change the filing dates for renewal applications (from 90 days prior to expiration of station license to four months) and for petitions to deny and related pleadings and to require the broadcasting of announcements both before and after the filing of a renewal application, which would apprise the public of the application's filing and of the appropriate time for submitting comments thereon. Pursuant to Part I, all commercial broadcast licensees would be required to broadcast announcements every 15 days during the license period, informing the public of licensee obligations and of the proper method for expressing opinions on station operation. All commercial broadcasters would also be required to retain in their public files written comments and suggestions received about station operation.[14] With respect to Part IV, which is applicable to commercial television stations only, we would require stations to prepare an annual listing of the significant problems and needs of their communities and of typical and illustrative programming aired during the year directed to those problems and needs. The listings are to be placed in the local public inspection file, and the three annual listings for the current license period are to be forwarded to the Commission upon the filing of the renewal application. Television licensees would also be required to compile composite week programming statistics in an annual programming report to be sent to the Commission each year and to be considered at renewal time. Moreover, certain revisions in Section

[11] The information which would be required under the proposed modification of FCC Forms 340 and 342 is in many instances already being developed by noncommercial educational applicants. Federal funds have been made available by Congress for assistance in the construction and expansion of educational stations under regulations promulgated by the Secretary of Health, Education, and Welfare. HEW regulations require, inter alia, that an applicant ascertain the broadcast needs of the area to be served, including an evaluation of the general or special educational and cultural needs for the establishment or improvement of educational broadcasting services which the project is designed to fulfill. Applicants are also asked to indicate the manner in which needs were determined, to identify the sources of information, to include appropriate supporting evidence, if relevant, to submit population and enrollment data of the area to be served, and to document and justify the proposed program service. Thus, any applicant seeking federal funds would have available much, if not all, of the information we propose to require.

[12] Parties are also invited to comment on the need for revisions in Commission regulations dealing with educational broadcast stations (§§ 73.503(a) and 73.621(a)) in the event ascertainment requirements are imposed herein. In this regard, we note that the Black Associations have suggested the addition of the following language at the end of the respective subparagraphs cited above:

All applicants for educational broadcast licenses, including applicants for the renewal of temporary educational station broadcast licenses, will ascertain the educational and cultural interests, needs and problems of the community, and make proposals for programs based on such ascertainment.

The Commission is not now proposing specific rule modifications in this regard. However, we do note that our Docket No. 19715 inquiry asks whether ascertainment requirements should be incorporated in regulations or should be left, as now, in policy statements and application forms.

[13] In paragraph 214 of the Interim Report, we explained that the report will not be published in the FEDERAL REGISTER until the annual programming report (see infra.) and revised Section IV–B of FCC Form 303 are cleared by the Office of Management and Budget. Therefore, the revised rules contained in the report will not become effective until 30 days after Federal Register publication, and the time for filing petitions for reconsideration will also run from the date of publication.

[14] The retention requirement for radio stations will be on an experimental basis and will be evaluated for usefulness by our reregulation task force in due course. See paragraph 51 of Interim Report, supra.

V 38 N 181 SEP 19 1973 XUM

IV-B of FCC Form 303 were made in an attempt to refine the information required of television licensees, which would be helpful in evaluating station performance.

17. Since we have issued our Interim Report and Order in Docket No. 19153 and since the questions raised in this proceeding concerning ascertainment by educational broadcasters have relevance to Parts I and IV of Docket No. 19153, we hereby invite comments on whether the requirements adopted in Parts I and IV should be applied to educational licensees and, if so, what modifications are called for in light of the unique nature of the noncommercial service. It would appear that the requirements to be imposed on commercial broadcasters concerning the airing of announcements about public comment on station operation and the maintenance of a local complaints and suggestions file would not be unduly burdensome on educational licensees and would serve to implement a continuing dialogue between station and community. In fact, in the Interim Report, we specifically noted that the public comment announcements were intended to supplement existing ascertainment procedures and that the complaints and suggestions file was a valuable device to test the nature of a station's response to community feedback. In regard to Part IV proposals concerning commercial television licensees, we request comments on whether a similar approach should be taken with educational television broadcasters and, if so, what modifications are appropriate to accommodate the specialized nature of educational broadcasting. While we do recognize that the Part IV proposals of Docket No. 19153 contain a modified approach to ascertainment by commercial television licensees, we do not intend to propose similar requirements for educational television licensees on the basis of this general notice. Rather, we prefer to solicit the suggestions of interested parties and to consider those comments in light of the final disposition of Docket No. 19153. We shall then be in a better position to assess the desirability of a further notice delineating specific proposals for the renewal process in the educational broadcast area. In the meantime, we offer the modifications of Section IV of FCC Forms 340 and 342 contained in the Appendix, which conform with existing ascertainment requirements for commercial applicants with the exception of proposed Question 7 of Form 342.

18. Authority for the institution of this proceeding and for the revisions of FCC Forms 340 and 342 is contained in Sections 4(i), 303, 307, 308 and 309 of the Communications Act of 1934, as amended.

19 In accordance with the procedures set forth in § 1.415 of the Commission's rules, interested persons may file comments on or before December 14, 1973, and reply comments on or before January 14, 1974. It is hoped that comments, either formal or informal, will be submitted by interested parties from all segments of the public and the various public broadcasting entities, particularly the individual licensees. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken in the proceeding. In reaching its decision in this proceeding, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by these notices.

20. In accordance with the provisions of § 1.419 of the Commission's rules, an original and 14 copies of all statements, briefs, and comments filed shall be furnished to the Commission. However, in an effort to obtain the widest possible response in this proceeding from licensees and members of the public, informal comments (without extra copies) will be accepted. Copies of all pleadings filed in this matter will be available for public inspection during regular business hours in the Commission's Public Reference Room at its headquarters in Washington, D.C.

Adopted September 6, 1973.

Released September 11, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
*Acting Secretary.*

FCC FORM 340

Section IV—Statement of Program Service of Broadcast Applicant.

Add the following questions:

6. State in Exhibit No. ------ the methods used by the applicant to ascertain the problems, needs and interests of the public served by the station. Such information shall include: (1) identification of representative groups, interests and organizations which were consulted and (2) the major communities or areas which applicant principally undertakes to serve.

7. Describe in Exhibit No. ------ the significant problems, needs and interests of the public which the applicant believes his station will serve during the coming license period, including those with respect to national and international matters.

8 List in Exhibit No. ------ typical and illustrative programs or program series that applicant plans to broadcast during the coming license period to meet those problems, needs and interests.

NOTE.—Sufficient records shall be kept on file by the applicant, open for inspection by the Commission, for a period of 3 years from the date of filing of this statement (unless requested to be kept longer by the Commission) to support the representations required in answer to Questions 6, 7 and 8. These records should *not* be submitted with this application and need not be available for public inspection.

FCC FORM 342

Section IV—Statement of Program Service of Broadcast Applicant.

Add the following questions:

4. State in Exhibit No. ------ the methods used by the applicant to ascertain the problems, needs and interests of the public served by the station. Such information shall include: (1) identification of representative groups, interests and organizations which were consulted and (2) the major communities or areas which applicant principally undertakes to serve.

5. Describes in Exhibit No. ------ the significant problems, needs and interests of the public which the applicant believes his station will serve during the coming license period, including those with respect to national and international matters.

6. List in Exhibit No. ------ typical and illustrative programs or program series that applicant plans to broadcast during the coming license period to meet those problems, needs and interests.

NOTE.—Sufficient records shall be kept on file by the applicant, open for inspection by the Commission, for a period of 3 years from the date of filing of this statement (unless requested to be kept longer by the Commission) to support the representations required in answer to Questions 4, 5 and 6. These records should *not* be submitted with this application and need not be available for public inspection.

7. Describe in Exhibit No. ------ the specific programs or program series that applicant broadcast during the 12 months preceding the filing of this application to meet significant problems, needs and interests of the public.

## NATIONAL CREDIT UNION ADMINISTRATION

[ 12 CFR Part 702 ]

### RESERVES

### Mandatory Charge-offs

On May 1, 1973, notice of proposed rule making regarding the addition of a new § 702.4 (12 CFR 702.4), the repeal of § 702.3 (12 CFR 702.3), and the revision of certain sections of Chapter VII of title 12 was published in the FEDERAL REGISTER (38 FR 10743).

After consideration of all such relevant matter as was presented by interested persons, notice is hereby given that the Administrator of the National Credit Union Administration, pursuant to the authority conferred in section 120, 73 Stat. 635 (12 U.S.C. 1766), is considering the revision of paragraph (b) of the proposed § 702.4 as set forth below.

The purpose of the revision is to further delineate the responsibilities and obligations of the board of directors of a Federal credit union.

Interested persons are invited to submit written comments, suggestions, or objections regarding the revision to the Administrator, National Credit Union Administration, Washington, D.C. 20456, to be received not later than November 23, 1973.

HERMAN NICKERSON, Jr.,
*Administrator.*

SEPTEMBER 12, 1973.

§ 702.4 Mandatory charge-offs.

* * * * * *

(b) The matter contained in paragraph (a) in this section is not intended to: (1) Prevent a Federal credit union's board of directors from exercising its responsibility to charge off any other loans that are known losses; or (2) prevent a Federal credit union's credit committee or loan officer from refinancing or extending a delinquent loan to preclude mandatory charge-off, provided such refinancing or extension is granted in accordance with Article IX, sections 6, 7, and 8 of the bylaws.

# Notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

## DEPARTMENT OF THE TREASURY

### Office of the Secretary

[Treasury Dept. Order No. 226]

### OFFICE OF ANALYSIS AND SPECIAL STUDIES OF NATURAL RESOURCES AND ENERGY

### Creation

By virtue of the authority vested in the Secretary of the Treasury by Reorganization Plan No. 26 of 1950, there is hereby created in the Department of the Treasury an office of Analysis and Special Studies of Natural Resources and Energy. This office will report directly to the Deputy Secretary and be headed by a Special Assistant to the Deputy Secretary. The office will perform ongoing analyses and special studies of the international economic implications of the United States' position in selected natural resources, including coal, oil, natural gas, copper, and other minerals of importance to the U.S. balance of payments. The office will also advise the Deputy Secretary on related tax policies including depletion allowances, accelerated amortization, investment credits, and production incentives, as well as tariffs and quotas, financial and investment policies, price controls, and loans and guarantees as they affect U.S. natural resource and energy needs. Its work will complement the ongoing work in the natural resource field in the Office of the Assistant Secretary for International Affairs, the Assistant Secretary for Tax Policy, and other areas in the Office of the Secretary.

The work of the office will include contact with other Government agencies concerned with resources and energy, on the one hand; and the various parts of the Treasury concerned with tax policy, trade policy, economic policy, international affairs, and monetary affairs, on the other hand.

The office will concern itself with the supply and demand needs for significant energy resources of the U.S. economy and make recommendations to the Deputy Secretary about the most appropriate policies which will produce a favorable U.S. supply-demand balance for energy and other selected natural resources.

For reference purposes this office will be known as the Office of Natural Resources and Energy.

Dated September 1, 1973.

[SEAL] WILLIAM E. SIMON,
*Acting Secretary of the Treasury.*

## DEPARTMENT OF DEFENSE

### Department of the Army

### JUNIOR SCIENCE AND HUMANITIES SYMPOSIA ADVISORY COMMITTEE

### Notice of Meeting

In accordance with Pub. L. 92-463 dated 6 October 1972, notice is given of a meeting of the Junior Science and Humanities Symposia (JSHS) Advisory Committee, as follows:

Date: 12 October 1973.
Time: 1330 hours.
Place: US Army Research Office, Box CM, Duke Station, Durham, North Carolina.

Agenda subjects will be as follows:

Action on Summary of 25th Meeting held 9 May 1973.
Status of Regional Program and Funding, FY 74.
Other Army Support of JSHSP, FY 74.
European Regional JSHS.
1974 National JSHS.
Judging of Student Papers, '74 National.
JSHS Contributions as Tax Exemptions.
Report of Sub-Committee on Expansion and Financial Support.
JSHS Policy on Animal Experimentation.

The meeting will be open to the public. For specific rules concerning participation contact Miss Patsy Ashe, Executive Secretary, JSHS Advisory Committee, U.S. Army Research Office, Box CM Duke Station, Durham, North Carolina 27706 AV 935-3331; AC 919 286-2285.

## DEPARTMENT OF THE INTERIOR

### Bureau of Indian Affairs

### ALASKA

### Final Eligibility of Native Villages

This notice is published in exercise of authority delegated by the Secretary of

V 38 181 SEP 19 73 XUM

the Interior to the Director, Juneau Area Office, Bureau of Indian Affairs by Subpart 2651.2(a)(2) of Subchapter B of Chapter II of Title 43 of the Code of Federal Regulations published on Pages 14222 and 14223 of the May 30, 1973, issue of FEDERAL REGISTER.

The Alaska Native Claims Settlement Act of December 18, 1971 (Public Law 92-203, 92nd Congress, 85 Stat. 688-716), provides for the settlement of certain land claims of Alaska Natives and for other purposes.

Accordingly, pursuant to the authority contained in said Act of December 18, 1971, and Subpart 2651.2 of said regulations, notice is hereby given that the following is a final decision determining the eligibility of certain Native villages in Alaska listed in sections 11(b)(1) and 16(a) of said Act. Notice of Proposed Eligibility was published on pages 19255, 19256 and 19257 of the July 19, 1973, issue of the FEDERAL REGISTER. Said notice was also published in one or more newspapers of general circulation in Alaska and a copy was mailed to each affected village; all villages located in the Native region in which the affected village is located; all Native regional corporations within the State of Alaska; and the State of Alaska. Interested parties were allowed until August 20, 1973, to file protests to the proposed decisions.

No protests having been received as a result of the notice published in the FEDERAL REGISTER on July 19, 1973, the proposed decisions now become final.

The Director, Juneau Area Office, Bureau of Indian Affairs will provide certification as to the eligibility of each of the following villages listed for land benefits under the Act:

| Name of listed native village: | Bureau of Land Management Serial Number |
|---|---|
| Akhlok | AA-6645 |

The Director, Juneau Area Office, Bureau of Indian Affairs will issue certificates of eligibility for land benefits under the act to the above named villages and will certify the record and the final decisions to the Secretary. A copy of this final decision and a certification of eligibility will be mailed to each eligible village; each other village located in the same region as the eligible village; all regional corporations within the State of Alaska; and the State of Alaska.

This is the first of several notices that final decisions have been made as to the eligibility of listed villages. Future notices will be issued as to the final eligibility of villages when and if such eligibility becomes established.

MORRIS THOMPSON,
*Director.*

## DEPARTMENT OF AGRICULTURE

### Forest Service

### CALIFORNIA ADVISORY COMMITTEE TO THE U.S. FOREST SERVICE

#### Notice of Meeting

The California Advisory Committee to the U.S. Forest Service will hold a field meeting on October 10-12, 1973, on the Eldorado National Forest and vicinity.

The group will assemble at the Sacramento Airport at approximately 10:00 a.m. on October 10. They will travel over Forest roads in the vicinity of Georgetown, Blodgett Forest of the University of California Forestry School, Placerville and the Institute of Forest Genetics. Discussions will consider intensive management practices for production of timber, including research and development work by Forest Service and University specialists, and the infrared imagery use and rehabilitation work programmed for recent Eldorado fires. The group will conclude its meeting with a closing luncheon at the Sportsman's Hall in Pollock Pines at noon on October 12 and an open conference after lunch.

Public participation is invited, and written statements are welcome, before or after the meeting, by contacting the Forest Supervisor, Eldorado National Forest, 100 Forni Road, Placerville, California 95667—Telephone 916-622-5061. Oral statements can be made by making arrangements with the chairman in advance.

DOUGLAS R. LEISZ,
*Regional Forester.*

### NORTH SHORE OF HUNTINGTON LAKE TIMBER SALES

#### Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the North Shore of Huntington Lake Timber Sales, Sierra National Forest, USDA-FS-DES (Adm) 74-28.

The environmental statement concerns a proposal to continue with the preparation and eventual sale of the Home Camp, Line Creek, Billy Creek and Bear Creek Timber Sales. These proposed timber sales are north of Huntington Lake on the Pineridge District, Sierra National Forest, Fresno County, California. The total area under study comprises 8,115 acres of National Forest lands within the 23,020-acre Kaiser Inventoried Roadless Area. Roughly 2,150 acres within the Study Area would be scheduled for various types of timber harvest at the first entry into the area. The remaining acreage would be logged at varying intervals during the next 100 years. The ultimate goal of this proposal is to place the Study Area under long-term multiple use management which includes the production of timber resources.

This draft environmental statement was filed with CEQ September 13, 1973.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Bldg., Room 3230
12th St. & Independence Ave. S.W.
Washington, D.C. 20250

Sierra National Forest
Federal Building
1130 O Street
Fresno, Calif. 93721

USDA, Forest Service
California Region
630 Sansome St., Room 531
San Francisco, Ca. 94111

Pineridge Ranger District
Big Creek Ranger Station
P.O. Box 38
Big Creek, Calif. 93605

A limited number of single copies are available upon request to Sotero Muniz, Forest Supervisor, Sierra National Forest, Federal Building, 1130 O Street, Fresno, California 93721.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151. Please refer to the name and number of the above named environmental statement when ordering.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ guidelines.

Comments are invited from the public and from State and local agencies which are authorized to develop and enforce environmental standards and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Sotero Muniz, Sierra Forest Supervisor, Federal Building, 1130 O Street, Fresno, California 93721.

Comments must be received within 45 days after the date of filing with CEQ in order to be considered in the preparation of the final environmental statement.

PHILIP L. THORNTON,
*Deputy Chief, Forest Service.*

### Office of the Secretary

### MIDAMERICA COMMODITY EXCHANGE

#### Order Designating a Contract Market for Live Hogs Under the Commodity Exchange Act

Pursuant to the authorization and direction contained in the Commodity Exchange Act as amended (7 U.S.C. 1 et seq.), I hereby designate the Mid-America Commodity Exchange of Chicago, Illinois, as a contract market for live hogs effective on this date, as shown below. The said exchange has applied for, and has otherwise complied with the requirements imposed by the said Act as a condition precedent to, such designation.

The designation is subject to suspension or revocation in accordance with the provisions of the said Act. For the purpose of any such suspension or revocation, this designation and the orders issued by the Secretary of Agriculture on October 24, 1922, and December 8, 1940, designating the said exchange as a contract market for the commodities specified in such orders, may constitute either a single designation or several designations.

Issued this 14th day of September 1973.

CLAYTON YEUTTER,
*Assistant Secretary.*

[FR Doc.73-19880 Filed 9-18-73;8:45 am]

### ADVISORY COMMITTEE ON HOG CHOLERA ERADICATION

#### Notice of Meeting

A meeting of the Advisory Committee on Hog Cholera Eradication will be held at 9:00 a.m., on October 15, 1973, at the Sheraton-Jefferson Hotel, St. Louis, Missouri.

The purpose of the committee is to advise and counsel the Secretary of Agriculture regarding program operations or measures to eradicate hog cholera from this country.

Topics of discussion will include a review of program progress, problems, and recommended actions.

The meeting is open to the public, however, space and facilities are limited. Comments of interested persons may be filed with the committee before or after the meeting.

Dated September 13, 1973.

F. J. MULHERN,
*Chairman.*

[FR Doc.73-19926 Filed 9-18-73;8:45 am]

## DEPARTMENT OF COMMERCE

### Domestic and International Business Administration

### SEMICONDUCTOR TECHNICAL ADVISORY COMMITTEE

#### Notice of Meeting

The Semiconductor Technical Advisory Committee of the U.S. Department of Commerce will meet on September 28, 1973, at 9:30 a.m. in Room

V 38 I 181 SEP 19 73 XUM

4833 of the Main Commerce Building, 14th and Constitution Avenue, NW., Washington, D.C.

Members advise the Office of Export Control, Bureau of East-West Trade, with respect to questions involving technical matters, worldwide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to semiconductor products, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls.

Agenda items are as follows:

1. Comments on minutes of previous meeting.
2. Presentation of papers or comments by the public.
3. Review of work program.
4. Executive session:
a. Review of levels of control.
b. Discussion of further work on the review.
c. Discussion of information on foreign availability.
d. Problems related to export of technology.
5. Adjournment.

The public will be permitted to attend the discussion of agenda items 1–3, and a limited number of seats—approximately 15—will be available to the public for these agenda items. To the extent time permits, members of the public may present oral statements to the committee. Interested persons are also invited to file written statements with the committee.

With respect to agenda item (4), "Executive session," the Assistant Secretary of Commerce for Administration, on August 9, 1973, determined, pursuant to section 10(d) of Public Law 92–463, that this agenda item should be exempt from the provision of sections 10(a)(1) and (a)(3), relating to open meetings and public participation therein, because the meeting will be concerned with matters listed in (5 U.S.C. 552(b)(1)).

Further information may be obtained from Rauer H. Meyer, Director, Office of Export Control, Room 1886C, U.S. Department of Commerce, Washington, D.C. 20230 (A/C 202+967–4293).

Minutes of those portions of the meeting which are open to the public will be available 30 days from the date of the meeting upon written request addressed to: Central Reference and Records Facility, U.S. Department of Commerce Washington, D.C. 20230.

Dated September 14, 1973.

STEVEN LAZARUS,
*Deputy Assistant Secretary for East-West Trade, U.S. Department of Commerce.*

[FR Doc.73–19942 Filed 9–18–73;8:45 am]

## TELECOMMUNICATIONS EQUIPMENT TECHNICAL ADVISORY COMMITTEE

### Notice of Meeting

The Telecommunications Equipment Technical Advisory Committee of the U.S. Department of Commerce will meet September 26, 1973 at 9:30 a.m. in Room 4833 of the Main Commerce Building, 14th and Constitution Avenue, NW, Washington, D.C.

Members advise the Office of Export Control, Bureau of East-West Trade, with respect to questions involving technical matters, world-wide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to telecommunications equipment, including technical data related thereto, and including those whose export is subject to multilatral (COCOM) controls.

Agenda items are as follows:

1. Opening remarks by the Chairman.
2. Presentation of papers or comments by the public.
3. Technical problems relating to export control coverage of telecommunications equipment and related technology.
4. Licensing procedures relating to telecommunications equipment and technology.
5. Foreign availability of telecommunications equipment currently under licensing control, including extent of U.S. participation and use of U.S. technology—specific reports by members serving as task leaders:
a. Radio transmitting equipment.
b. PCM transmission equipment.
c. Computers, peripherals and other controlled components used in telecommunications switching equipment.
d. Frequency division multiplexed transmission equipment.
6. Methodology for selecting topics and setting priorities for panel study.
7. Selection of task leaders and assignments for next panel study period.
8. Executive Session:
a. Foreign availability, including state of the art in the USSR, Eastern Europe, and People's Republic of China.
b. Significant technical parameters from the strategic standpoint, including adequacy of present control definition or coverage.
9. Adjournment.

The public will be permitted to attend the discussion of agenda items 1–7, and a limited number of seats—approximately 15—will be available to the public for these agenda items. To the extent time permits, members of the public may present oral statements to the committee. Interested persons are also invited to file written statements with the committee.

With respect to agenda item (8), "Executive session," the Assistant Secretary of Commerce for Administration, on September 7, 1973, determined, pursuant to section 10(d) of Public Law 92–463, that this agenda item should be exempt from the provision of sections 10(a)(1) and (a)(3), relating to open meetings and public participation therein, because the meeting will be concerned with matters listed in 5 U.S.C. 552(b)(1).

Further information may be obtained from Rauer H. Meyer, Director, Office of Export Control, Room 1886C, U.S. Department of Commerce, Washington, D.C. 20230 (A/C 202 + 967–4293).

Minutes of those portions of the meeting which are open to the public will be available 30 days from the date of the meeting upon written request addressed to: Central Reference and Records Facility, U.S. Department of Commerce, Washington, D.C. 20230.

Dated September 14, 1973.

STEVEN LAZARUS,
*Deputy Assistant Secretary for East-West Trade, U.S. Department of Commerce.*

## Maritime Administration

[Docket No. S–391]

## ATLANTIC RICHFIELD CO.

### Notice of Amended Application

Notice is hereby given that Atlantic Richfield Company has amended its application with respect to the carriage of bulk cargoes, notice of which was published in the FEDERAL REGISTER issue of June 27, 1973 (FR Doc. 73–12946, 38 FR 16924). Under said application as amended, application is being made for operating-differential subsidy on the following listed vessels for the carriage of bulk cargoes and in the trades as described hereinbelow:

| Applicant's name and address | Name of vessel | Type of vessel |
|---|---|---|
| Atlantic Richfield Co., 515 South Flower St., Los Angeles, Calif. 90071. | Atlantic Communicator. | Tanker. |
| | Sinclair Texas | Do. |
| | Arco Prudhoe Bay | Do. |
| | Arco Anchorage | Do. |

The foregoing application may be inspected in the Office of the Secretary, Maritime Subsidy Board, Maritime Administration, U.S. Department of Commerce, Washington, D.C., during regular working hours.

These vessels are to engage in the carriage of export bulk raw and processed agricultural commodities in the foreign commerce of the United States (U.S.) from ports in the U.S. to ports in the Union of Soviet Socialist Republics (U.S.S.R.), or other permissible ports of discharge. Liquid and dry bulk cargoes may be carried from U.S.S.R. and other foreign ports inbound to U.S. ports during voyages subsidized for carriage of export bulk raw and processed agricultural commodities to the U.S.S.R.

Full details concerning the U.S.-U.S.S.R. export bulk raw and processed agricultural commodities subsidy program, including terms, conditions and restrictions upon both the subsidized operators and vessels, appear in the regulations published in the FEDERAL REGISTER of August 3, 1973 (38 FR 20807).

For purposes of section 605(c), Merchant Marine Act, 1936, as amended (Act), it should be assumed that each vessel named will engage in the trades described on a full-time basis. Each voyage must be approved for subsidy before commencement of the voyage. The Maritime Subsidy Board (Board) will act on each request for a subsidized voyage as an administrative matter under the terms of the individual operating-differential subsidy contract for which

there is no requirement for further notices under section 605(c) of the Act.

Any person having an interest in the granting of such application and who would contest a finding of the Board that the service now provided by vessels of U.S. registry for the carriage of cargoes as previously specified is inadequate, must, on or before September 26, 1973, notify the Board's Secretary, in writing, of his interest and of his position, and file a petition for leave to intervene in accordance with the Board's rules of practice and procedure (46 CFR Part 201). Each such statement of interest and petition to intervene shall state whether a hearing is requested under section 605(c) of the Act and with as much specificity as possible the facts that the intervenor would undertake to prove at such hearing.

In the event a hearing under section 605(c) of the Act is ordered to be held with respect to said application, the purpose of such hearing will be to receive evidence relevant to (1) whether the application hereinabove described is one with respect to vessels to be operated in an essential service, served by citizens of the U.S. which would be in addition to the existing service, or services, and if so, whether the service already provided by vessels of U.S. registry is inadequate and (2) whether in the accomplishment of the purposes and policy of the Act additional vessels should be operated thereon.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Board determines that petitions for leave to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing, the Board will take such action as may be deemed appropriate.

(Catalogue of Federal Domestic Assistance Program No. 11.504, Operating-Differential Subsidies.)

Dated September 17, 1973.

By Order of the Maritime Subsidy Board.

JAMES S. DAWSON, Jr.,
*Secretary.*

[FR Doc.73–20051 Filed 9–18–73;8:45 am]

[Docket No. S–302]

## PRUDENTIAL-GRACE LINES, INC.

### Notice of Application

Notice is hereby given that Prudential-Grace Lines, Inc. (PGL) has filed an application under the Merchant Marine Act, 1936, as amended (the Act), requesting permission, for a period of three years, for the SS BARBARA JANE to be chartered to United States citizen charterers for use in carrying petroleum and petroleum products in bulk in the domestic intercoastal and coastwise trades. The BARBARA JANE is a tank vessel owned by World Wide Tankers, Inc., an affiliate of PGL.

Inasmuch as PGL is a subsidized U.S. flag operator, written permission of the Maritime Administration under section 805(a) of the Act will be required for the chartering of the SS BARBARA JANE for operation in the domestic intercoastal and coastwise trade.

Interested parties may inspect this application in the Office of The Secretary, Maritime Administration, Department of Commerce Building, Fourteenth & E Streets NW., Washington, D.C. 20230.

Any person, firm or corporation having any interest (within the meaning of section 805(a)) in the application and desiring to be heard on issues pertinent to section 805(a) or desiring to submit comments or views concerning the application must, by the close of business on Oct. 1, 1973, file same with the Maritime Administration, in writing, in triplicate, together with petition for leave to intervene which shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief.

If no petitions for leave to intervene are received within the specified time or if it is determined that petitions filed do not demonstrate sufficient interest to warrant a hearing, the Maritime Administration will take such action as may be deemed appropriate.

In the event petitions regarding the relevant section 805(a) issues are received from parties with standing to be heard, a hearing has been tentatively scheduled for 10 a.m. on Oct. 3, 1973, in Room 4896, Department of Commerce Building, Fourteenth & E Streets NW., Washington, D.C. 20230. The purpose of the hearing will be to receive evidence under section 805(a) relative to whether the proposed operation (a) could result in unfair competition to any person, firm or corporation operating exclusively in the coastwise or intercoastal services, or (b) would be prejudicial to the objects and policy of the Act.

By Order of the Maritime Administration.

Dated September 17, 1973.

JAMES S. DAWSON, Jr.,
*Secretary.*

[FR Doc.73–20052 Filed 9–18–73;8:45 am]

## National Oceanic and Atmospheric Administration

## MARINE MAMMAL PROTECTION ACT

### Notice of Granting of Exemption on Grounds of Undue Economic Hardship

Notice is hereby given that, on September 11, 1973, as authorized by section 101(c) of the Marine Mammal Protection Act of 1972 ((16 U.S.C. 1361) 86 Stat. 1027 (1972)) and § 216.13 of the Regulations Governing the Taking and Importing of Marine Mammals and Marine Mammal Products (37 FR 28177, December 21, 1972), an exemption from the provisions of the Act on grounds of undue economic hardship was issued to the following named person, authorizing him to engage in the following described activity, subject to the conditions specified in the Letter of Exemption:

The Fouke Company, Route 1, P.O. Box 168, Whitehorse Road, Greenville, South Carolina 29611 (Mr. George H. Heinz, President), to import into the United States 50,500 skins of South African Cape fur seals (*Arctocephalus pusillus pusillus*) from the Republic of South Africa by no later than midnight EDT October 20, 1973, for the purpose of processing these skins and selling them in accordance with the usual business practices of the Company.

There was a finding of undue economic hardship if an exemption were not granted. Granting of the exemption would not result in a measurable adverse effect on the stocks of seals involved or the associated ecosystem.

Copies of the application for the exemption, of the Letter of Exemption and of all supporting documents except documents containing information exempt from public disclosure pursuant to the Freedom of Information Act (5 U.S.C. 522(b)), are available for inspection at the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235; copies of the application and the Letter of Exemption are also at the National Marine Fisheries Service Regional Offices. The Regional Offices are located at the following addresses: Southwest Region, 300 South Ferry Street, Terminal Island, California 90731, telephone 213–831–9281; Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930, telephone 617–281–0640; Southeast Region, Duval Building, 9450 Gandy Boulevard, St. Petersburg, Florida 33701, telephone 813–893–3141; Northwest Region, Lake Union Building, 1700 Westlake Avenue North, Seattle, Washington 98109, telephone 206–442–7575; Alaska Region, P.O. Box 1668, Juneau, Alaska 99801, telephone 907–586–7221.

The exemption has been granted to allow the company a grace period to adjust its business activities to the requirements of the Act and it shall not constitute a precedent for any request that the Company may submit with respect to a waiver of the moratorium.

ROBERT W. SCHONING,
*Director, National Marine Fisheries Service.*

## GOVERNMENT-OWNED INVENTIONS

### Notice of Availability for Licensing

The inventions listed below are owned by the U.S. Government and are available for licensing in accordance with the GSA Patent Licensing Regulations.

Copies of Patent applications, either paper copy (PC) or microfiche (MF), can be purchased from the National Technical Information Service (NTIS), Springfield, Virginia 22151, at the prices cited. Requests for copies of patent applications must include the PAT–APPL

V 381181 SEP 19 73 XUM

number and the title. Requests for licensing information should be directed to the address cited with each copy of the patent application.

Paper copies of patents cannot be purchased from NTIS but are available from the Commissioner of Patents, Washington, D.C. 20231, at $0.50 each. Requests for licensing information should be directed to the address cited below for each agency.

DOUGLAS J. CAMPION,
*Patent Program Coordinator, National Technical Information Service.*

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION, Assistant General Counsel for Patent Matters; NASA—Code GP-2, Washington, D.C. 20546.

Patent Application 306,980: Telemetry Processor; filed November 15, 1972; PC $6.00/MF $1.45.
Patent Application 361, 666: Integrable Power Gyrator; filed May 18, 1973; PC $3.25/MF $1.45.
Patent 3,728,861: Ion Thruster with A Combination Keeper Electrode and Electron Baffle; filed April 24, 1973; not available NTIS.

## United States Travel Service

### TRAVEL ADVISORY BOARD

#### Notice of Meeting

The Travel Advisory Board of the U.S. Department of Commerce will meet September 25 at 9:30 a.m. in Room 4830 of the Main Commerce Building, 14th Street and Constitution Avenue NW., Washington, D.C. 20230.

Members advise the Secretary of Commerce and the Assistant Secretary of Commerce for Tourism on policies and programs designed to accomplish the purposes of the International Travel Act of 1961, as amended.

Agenda items are as follows:

GENERAL SESSION

(1) Opening remarks by Assistant Secretary of Commerce for Tourism, C. Langhorne Washburn.

(2) Remarks by Under Secretary of Commerce, John K. Tabor.

(3) Review and discussion of USTS programs and activities.

EXECUTIVE SESSION

A closed Executive Session will be convened following the general session to discuss internal memoranda which relate to proposed revisions of USTS' future programs, objectives, and plans. Pursuant to section 10(d) of the Federal Advisory Committee Act, Pub. L. 92-463, it has been formally determined by the Assistant Secretary of Commerce for Administration, with the concurrence of the General Counsel, that these matters fall within section 552(b)(5) of Title 5 of the United States Code, and the public interest requires such matters to be withheld from disclosure. The specific exemption is the intra-agency communications exemption set forth in subsection (5) of section 552(b) of Title 5. Accordingly, the Executive Session shall be closed to the public and shall be exempt from the provisions of sections 10(a)(1) and 10(a)(3) of the Federal Advisory Committee Act, relating to public attendance and participation.

Established in July 1968, the Travel Advisory Board consists of senior representatives of 15 U.S. travel industry segments who are appointed by the Secretary of Commerce to serve two year terms.

A limited number of seats—approximately 14—will be available to observers from the public and the press for the General Session. The public will be permitted to file written statements with the Committee before or after the meeting. To the extent time is available after the General Session the presentation of oral statements will be allowed.

Robert Jackson, Director of Information Services of the United States Travel Service, Room 1525, U.S. Department of Commerce, Washington, D.C. 20230, telephone 202-967-4987 will respond to public requests for information about the meeting.

C. LANGHORNE WASHBURN,
*Assistant Secretary for Tourism U.S. Department of Commerce.*

### OCCUPATIONAL SAFETY AND HEALTH

#### Applications for Certification of Certain Gas Detector Tube Units

In the FEDERAL REGISTER of May 8, 1973 (38 FR 11458), the Department adopted regulations which set forth the requirements and procedures for the evaluation and certification of gas detector tube units (42 CFR Part 84). In accordance with § 84.3(a) of the regulations, notice is hereby given that the National Institute for Occupational Safety and Health will accept applications for certification of gas detector tube units pursuant to the following schedule:

| Gas | Dates for submittal | Test standard (ppm) |
|---|---|---|
| 1. Sulfur Dioxide ($SO_2$) | Oct. 1-31, 1973 | 5.0 |
| 2. Hydrogen Sulfide ($H_2S$) | Nov. 1-31, 1973 | 10.0 |
| 3. Carbon Dioxide ($CO_2$) | Dec. 1-31, 1973 | 5000.0 |

All applications and any questions concerning the certification program should be submitted to the Institute's Testing and Certification Laboratory, 944 Chestnut Ridge Road, Morgantown, W. Va. 26505.

Dated September 10, 1973.

MARCUS M. KEY,
*Director, National Institute for Occupational Safety and Health.*

### Office of the Secretary

### OFFICE OF THE ASSISTANT SECRETARY FOR ADMINISTRATION AND MANAGEMENT

#### Statement of Organization, Functions, and Delegations of Authority

Part 1 of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health, Education, and Welfare is amended to add a new section 1T300101 to reflect the establishment of the Operations Staff responsible directly to the Deputy Assistant Secretary for Administration. The new Section reads as follows:

1T300101.00 *Mission.* Formulates recommendations for plans and policies to the Deputy Assistant Secretary for Administration. Implements or oversees the implementation of the internal management policies and procedures for the organizational elements that comprise the Office of Administration. Prepares management studies on organizational effectiveness, suggests methods for improvement, and develops and monitors an operational planning system.

1T300101.10 *Organization.* The Operations Staff is under the direction of a Director who reports directly to the Deputy Assistant Secretary for Administration. The Staff consists of:

Internal Management Section
Budget and Finance Section

1T300101.20 *Functions.* Internal Management Section.

1. Develops policy and procedures on administrative matters.

2. Prepares, coordinates, and distributes DHEW FEDERAL REGISTER documents. Prepares internal manuals and directives as necessary.

3. Maintains staff files and implements paperwork management policy and procedures.

4. Maintains committee participation roster.

5. Coordinates requests for personal actions with DPO.

6. Performs staff duties for the Collective Bargaining Official.

7. Maintains liaison with DHEW Safety Program.

8. Coordinates on-the-job and other training activities.

9. Coordinates facilities (space) requirements.

10. Maintains equipment and furniture inventory and controls.

11. Conducts reviews of organizations, functions, and delegations of authority.

12. Conducts analyses of operations and management practices and procedures.

13. Develops and maintains the Office of Administration Operational Planning System and the Office's applications of the Manpower Utilization program.

14. Prepares reports pertinent to the Office of Administration participation in DHEW Management Improvement Program.

15. Develops performance indices and standards data for management review of effectiveness of the Office of Administration operations.

B. Budget and Finance Section

1. Formulates budget estimates and oversees the preparation of the operating budget and other aspects of budget execution.

2. Maintains or keeps in touch with those who maintain funds control and coordination of accounting and reporting.

3. Coordinates the budgetary and fiscal activities of the Working Capital Fund in cooperation with the Assistant Secretary, Comptroller.

4. Produces statistics to review Management's posture relative to program objectives and budget constraints.

5. Maintains position control data.

6. Develops and publishes periodic status of funds reports for organizational units and top management.

Dated September 13, 1973.

S. H. CLARKE,
*Acting Assistant Secretary for Administration and Management.*

## DEPARTMENT OF TRANSPORTATION

### National Highway Traffic Safety Administration

[Docket No. EX73-7; Notice 1]

### ALBANY MOTOR CARRIAGE COMPANY

#### Petition for Temporary Exemption From Motor Vehicle Safety Standards

The Albany Motor Carriage Company Ltd. of Christchurch, Hampshire, England has applied for temporary exemptions for its Vintage Car Type A passenger car from certain safety standards on

V38I181
SEP 19 73
XUM

grounds of substantial economic hardship.

Albany manufactured 28 vehicles between July 1972, and July 1973. It intends to manufacture no more than 300 units for sale in the United States before terminating production, and therefore does not intend to achieve conformance with exempted standards. All exemptions requested are for the statutory maximum, 3 years. The vehicle is an open two-seater replica of vehicles manufactured in Great Britain in the first decade of the 20th century. Although it is powered by a contemporary Triumph Spitfire engine its top speed is limited to 40 mph. The company requests exemption from all or part of the following standards, for the reasons stated: Nos. 103 (the vehicle has no doors or sides), 104 (the vehicle does not need two wiping speeds due to the low top speed), 109 and 110 (the tires and rims are larger than those covered by the standards), 201 (the standard is intended for closed vehicles), 202, 208, 209, and 210 (compliance would involve substantial costs and destroy the character and hence the sales appeal of the vehicle).

In support of its petition Albany states that the total planned production of the Model A is 600 units, half of which are destined for the American market, and that "all costings have been based on this production run." There are no alternative markets capable of absorbing the planned USA sales of 300 units, and if the car cannot be sold in the USA "the product is not a viable commercial proposition and must be abandoned and the company wound up with a consequent loss of dollars already invested." Albany has made certain modifications to the vehicle which it briefly describes, so that it will conform with Standards Nos. 101, 102, 105, 108, 114, 204, and portions of 104. The company has submitted financial information from the date of incorporation, April 22, 1971, forward, together with a projected balance sheet as of March 31, 1974.

This notice of receipt of a petition for a temporary exemption is published in accordance with the NHTSA regulations on this subject (49 CFR 555.7), and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Interested persons are invited to submit comments on the petition of Albany described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5221, 400 Seventh Street, SW., Washington, D.C. 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered. The application and supporting materials, and all comments received, are available for examination in the docket both before and after the closing date. Comments received after the closing date will also be filed and will be considered to the extent possible. If the petition is granted, notice will be published in the FEDERAL REGISTER pursuant to the authority indicated below.

Comment closing date.—October 18, 1973.

Proposed effective date.—Date of issuance of exemption.

(Sec. 3, Pub. L. 92-548, 86 Stat. 1159 (15 U.S.C. 1410), delegations of authority at 49 CFR 1.51 and 49 CFR 501.8.)

Issued on September 12, 1973.

ROBERT L. CARTER,
*Associate Administrator,*
*Motor Vehicle Programs.*

## ATOMIC ENERGY COMMISSION

### ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUBCOMMITTEE ON INDIAN POINT NUCLEAR STATION UNIT 3

#### Notice of Meeting

SEPTEMBER 17, 1973.

In accordance with the purposes of section 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safeguards Subcommittee on Indian Point Nuclear Station Unit 3 will hold a meeting on October 10, 1973, in Room 1046, at 1717 H Street NW., Washington, D.C. The purpose of this meeting will be to continue the Committee's formal Operating License review of Indian Point Unit 3. This facility is located at Buchanan, New York.

The following constitutes that portion of the Subcommittee's agenda for the above meeting which will be open to the public.

WEDNESDAY, OCTOBER 10, 9:30 A.M.–3:30 P.M.

The Subcommittee will hear presentations by Regulatory Staff and representatives of Consolidated Edison Company of New York and their representatives and hold discussions with these groups pertinent to issuance of an Operating License for Indian Point Unit 3.

In connection with the above agenda item, the Subcommittee will hold an executive session beginning at 8:30 a.m. which will involve a discussion of its preliminary views, and an executive session at the end of the day, consisting of an exchange of opinions of the Subcommittee members present and internal deliberations for the purpose of formulation of recommendations to the ACRS. In addition, prior to the executive session at the end of the day, the Subcommittee may hold a closed session with the Regulatory Staff and applicant to discuss privileged information relating to plant security and fuel design, if necessary.

I have determined, in accordance with subsection 10(d) of Pub. L. 92-463, that the executive session at the beginning and end of the meeting will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b) and that a closed session may be held, if necessary, to discuss certain information relating to plant security and fuel design which is privileged and falls within exemption (4) of 5 U.S.C. 552(b). It is essential to close such portions of the meeting to protect such privileged information and protect the free interchange of internal views and to avoid undue interference with agency or Committee operation.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda items may do so by mailing 25 copies thereof, postmarked no later than October 3, 1973, to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Such comments shall be based upon the Preliminary Safety Analysis Report and related documents on file and available for public inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545, and the Hendrick Hudson Free Library, 31 Albany Post Road, Montrose, New York 10548.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statements and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of not more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee, between the hours of 1:30 p.m. and 3:00 p.m. on the day of the meeting.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee, who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on October 9, 1973, to the Office of the Executive Secretary of the Committee, telephone: 301-973-5651, between 8:30 a.m. and 5:15 p.m., Eastern Daylight Time.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) A copy of the transcript of the open portions of the meeting will be available for inspection during the following workday at the Atomic Energy Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545, and within approximately nine days at the Hendrick Hudson Free Library, 31 Albany Post Road, Montrose, New York 10548. On request, copies of the minutes of the meeting will be made available for inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545, on or after December 10, 1973. Copies may be obtained upon payment of appropriate charges.

JOHN C. RYAN,
*Advisory Committee*
*Management Officer.*

## CIVIL AERONAUTICS BOARD

[Order 73-9-53]

### DEPARTMENT OF DEFENSE

#### Order Granting Extension of Temporary Relief Granted to Certain Unauthorized Indirect Air Carriers to Transport Household Goods

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 13th day of September 1973.

From time to time, at the request of the Department of Defense (DOD) the Board has granted relief from provisions of the Federal Aviation Act of 1958 (the Act) to permit 40 unauthorized indirect air carriers to transport used household goods[1] of Department of Defense personnel. A condition for obtaining such relief was that the firm seeking it have on file with the Board an application for air freight forwarder authority. The relief was to expire 180 days after the Board's decision in the Household Goods Air Freight Forwarder Investigation, Docket 20812, became final[2] or, as to each individual company, upon Board disposition of such company's application for interstate and/or international air freight forwarder authority, whichever event shall occur first.[3]

Since the processing of a number of the applications could not be concluded prior to the expiration of the temporary relief and the Department of the Army, acting in behalf of DOD, requested extension of such relief, the Board extended the temporary relief for 90 days.[4] A supplemental extension of 60 days was granted[5] and such relief is to expire on September 16, 1973.

Delays have been encountered in resolving control and/or interlocking relationship matters, some of which are complex. As a result, the applications of the eight applicants named in the appendix will not be completed prior to expiration of the extended deadline. Furthermore, in its July 6 letter, the Department of the Army requested an extension of the temporary relief for a reasonable period in those cases where processing could not be completed by the time limit previously set. We construe that letter to be a request for whatever additional extension of the temporary relief is necessary to complete the processing.

In view of these circumstances and DOD's request, the Board finds that further extension of the temporary relief to those carriers named in the appendix hereto[6] is in the public interest, and has decided to extend such relief for a period of 90 days to December 16, 1973.

*Accordingly, it is ordered:*

1. That pursuant to sections 101(3) and 204 of the Federal Aviation Act of 1958, as amended, the carriers listed in the appendix hereto are hereby relieved from the provisions of Title IV of the Act to the extent necessary to transport by air used household goods of personnel of DOD upon tender by that Department;

2. That the relief granted herein shall become effective September 17, 1973 and terminate on December 16, 1973, or as to each individual company named in the appendix hereto, upon Board disposition of such company's application for interstate and/or international air freight forwarded authority, whichever event shall occur first;

3. That this order may be amended or revoked at any time in the discretion of the Board without hearing; and

4. That copies of this order shall be served on the Military Traffic Management and Terminal Service, U.S. Army, and the companies listed in the appendix below.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
*Secretary.*

[FR Doc.73-19932 Filed 9-18-73;8:45 am]

[1] The term "used household goods" means personal effects (including unaccompanied baggage) and property used or to be used in a dwelling, when a part of the equipment or the supply of such dwelling, but specifically excludes (1) furniture, fixtures, equipment and the property of stores, offices, museums, institutions, hospitals, or other establishments, when a part of the stock, equipment or supply of such stores, offices, museums, institutions, hospitals or other establishments, and (2) objects of art (other than personal effects), displays and exhibits.

[2] Order on reconsideration issued October 16, 1972. Temporary relief was to expire April 16, 1973.

[3] Order 71-10-56, dated October 13, 1971.

[4] Order 73-4-57, dated April 12, 1973.

[5] Order 73-7-56, dated July 13, 1973.

[6] Filed as part of the original document.

[Order No. 42]

### ADMINISTRATOR, OFFICE OF FOOD

#### Delegation of Authority

Pursuant to the authority vested in me as Director of the Cost of Living Council by Cost of Living Council Order Nos. 14 and 29, it is hereby ordered as follows:

1. There is delegated to the Administrator, Office of Food, subject to the general policy guidance of and in coordination with the Director of the Cost of Living Council, or his delegate, authority to:

(a) Make decisions and issue orders with respect to prenotified price increases and all other filings from firms engaged in food manufacturing, food service activities, food wholesaling, or food retailing requiring decisions;

(b) Make decisions and issue orders with respect to individual requests for exceptions from firms engaged in food manufacturing, food service activities, food wholesaling, or food retailing or for class exceptions pertaining thereto;

(c) Make decisions and issue orders with respect to all requests for reconsideration of adverse actions taken by the Cost of Living Council or the Internal Revenue Service with respect to firms engaged in food manufacturing, food service activities, food wholesaling, or food retailing; and

(d) Request information and conduct hearings with respect to functions delegated in this paragraph.

2. The Administrator, Office of Food, may redelegate to personnel within the Office of Food any authority delegated to him by this order.

3. In exercising the authority delegated by this order or redelegated pursuant thereto officials of the Cost of Living Council shall be governed by the regulations and rulings of the Cost of Living Council and by the policies, procedures, and controls prescribed by the Director of the Cost of Living Council, or his delegate.

4. Actions taken by the Administrator, Office of Food, under paragraph 1(c) of this order, are administratively final. Review of these actions may be sought in the appropriate Federal district court pursuant to section 211 of the Economic Stabilization Act of 1970, as amended (Public Law 92-210, 85 Stat. 744).

5. This order is effective August 13, 1973.

### ANTIMICROBIAL PROGRAM ADVISORY COMMITTEE

#### Notice of Meeting

Pursuant to Pub. L. 92-463, notice is hereby given that a meeting of the Antimicrobial Program Advisory Committee will be held at 10:00 a.m., September 25, 1973, in Room E412, East Tower, Waterside Mall, 401 M Street SW., Washington, D.C.

This will be the first meeting of this Committee, which will be organizational, essentially, and may extend into the second day. The agenda includes brief addresses to the membership from Dr. Henry Korp, Deputy Assistant Administrator for Pesticide Programs; Dr. Leonard R. Axelrod, Director, Criteria and Evaluation Division; Mr. John Ritch, Sr., Director, Registration Division; Dr. William Murray, Director, Technical Services Division; and Dr. John V. Osmun, Director, Operations Division. The rules and regulations under which the Committee must function will be reviewed with the members, and some of the most pressing problems confronting Registration Division will be discussed.

The meeting will be open to the public. Any member of the public wishing to participate or present written or oral views should contact Dr. William G. Roessler, Executive Secretary, Antimicrobial Program Advisory Committee, 202-755-2562.

### PESTICIDE CONTROL ACT IMPLEMENTATION

#### Notice of Hearing

On January 9, 1973, the Environmental Protection Agency published in the FEDERAL REGISTER (38 FR 1142) an Implementation Plan for the Federal Environmental Pesticide Control Act of 1972. That document set forth the Agency's general plan for implementing the Act, informed the public as to the dates when the different sections became or become effective, and invited preliminary views as to form and content of the regulations.

A further statement was published in the FEDERAL REGISTER (38 FR 3002) on January 31, 1973. This statement explained in detail the procedures to be followed by the Agency in supplementing those major sections of the Act which become fully effective in from 1 to 4 years, and solicited comments from interested persons on specific questions and issues. The statement also designated six subgroups to consider in detail procedures for the implementation of sections 3, 4, 5, 7, 8, and 24 of the Act, and listed the subgroups, their membership, and the issue areas to be considered by each group.

After further consideration of the issues listed under these subgroups, it was concluded that certain of these issues should be discussed in a public meeting to afford interested parties an additional opportunity to participate in the rule making process. Such meetings were held in several locations around the country earlier this year.

In response to the great interest shown by Region V, notice is hereby given that an additional one-day meeting open to the general public will be held as follows:

9:00 a.m., September 20, 1973, in the Mayfair Room, Sheraton-Blackstone Hotel, S. Michigan Avenue and E. Balboa Street, Chicago, Illinois.

Suggestions and comments are invited from all interested parties on how the subgroup should treat the following issues:

1. Section 3(d)—Classification of Pesticides.

The Act provides that within two years of enactment, all pesticides shall be classified for either general or restricted use. Comments are invited regarding the criteria and procedure which should be followed in implementing this provision.

2. Section 4—Certification of Applicators.

The Act provides that the pesticides designated as restricted shall be applied by or under the direct supervision of certified applicators or shall be subject to such other restrictions that the Administrator may provide by regulations. The certification of applicators is expected to be conducted by the States in accordance with plans approved by the Administrator. Comments are invited regarding the certification procedure pertaining especially to State responsibilities.

3. Section 24(c)—State registration of Pesticides to meet "Special Local Needs."

The Act provides for delegation of authority to State agencies to issue limited registrations of intrastate products to meet special local needs. The State agency must be certified by the Administrator as capable of exercising the necessary control to insure that such registrations will be in accord with the purposes of the Act. Comments are invited regarding the requirements for State certification to register products under this provision.

Persons wishing to make their views known to this Agency are invited to attend this meeting. Oral statements will be limited; however, written statements may be filed for the record. Four copies will be required, and may be presented to the receptionist at the hearing. Those who desire to make comments but are unable to attend the hearing may send written comments to Dr. A. Charles Lincoln, Chief, Pesticides Branch, EPA Region V, 1 North Wacker Drive, Chicago, Illinois 60606.

Done this 12th day of September 1973.

DAVID D. DOMINICK,
*Assistant Administrator for*
*Hazardous Materials Control.*

[FR Doc.73-19858 Filed 9-18-73;8:45 am]

## FEDERAL COMMUNICATIONS COMMISSION

[FCC 73-899]

### ALABASTER CARPHONE CO. AND TELPAGE, INC.

#### Memorandum Opinion and Order; Designating Applications for Consolidated Hearing on Stated Issues

In regard applications of Alabaster Carphone Company, Helena, Alabama, Docket No. 19806 File No. 811-C2-P-72, and Telpage, Inc., Tuscaloosa, Alabama, Docket No. 19807 File No. 1468-C2-P-72; for construction permits for new facilities in the Domestic Public Land Mobile Radio Service.

1. Before the Commission for consideration are the captioned applications to establish new two-way radiotelephone stations to operate on the 152.12-158.58 MHz frequency pair at Alabaster and Tuscaloosa, Alabama in the Domestic Public Land Mobile Radio Service (DPLMRS). Alabaster and Tuscaloosa, Alabama are only about 45 miles apart, and the applications are mutually exclusive, because the grant to both to operate on the same radio channels in the same locality would result in mutually harmful

V 381181 SEP 1973 XUM

electrical interference. Since both applicants appear to be legally, financially, and otherwise qualified to construct and operate the proposed facilities, the applications must be designated for comparative hearing to determine which applicant is better qualified to operate the proposed facilities in the public interest. Ashbacker Radio Corp. v. FCC, 326 U.S. 327 (1945).

2. The application of Alabaster Carphone Co. (Carphone) was filed on August 12, 1971. It appears from the application that Carphone was at the time of filing the original application a partnership of W. Rene Hill and Wallace Glasscock. Each partner had a 50 percent financial interest in the partnership; however, by letter dated February 8, 1972, the Carphone application was amended to show Mr. W. E. Glasscock to be the sole owner of Carphone, having purchased the partnership interest formerly held by W. Rene Hill. Mr. Glasscock is also the sole owner of Radio Dispatch Service, which is the licensee of Radio Station KIJ 352 operating in the DPLMRS in the Birmingham, Alabama, area. Prior to February 15, 1971, Mr. Glasscock was also the owner of Radio Dispatch Service which was the licensee of DPLMRS Radio Station KIY 733 in the Huntsville, Alabama, area. However, this station was sold for $13,000 pursuant to FCC consent dated January 1971.

3. The cost estimated by Carphone to establish its proposed facilities, as disclosed by its application, is $4,500. (Carphone Application, filed August 12, 1971, p. 5). A balance sheet submitted as Exhibit 8 to the same application discloses Mr. Glasscock's Current Assets to be $30,448.42 out of Total Assets of $120,848.44. Although Current Liabilities were stated to be $39,208.77, Deferred Liabilities were $10,318.43 with a Net Worth of $71,321.74.

4. Technically, Carphone proposes to operate its base station from a transmitter location in Helena, Shelby County, Alabama at a point 3 miles west of Highway 31 South at Alabaster, with 15F2 and 16F3 emissions and Input/Output powers of 220 and 120 watts. A Motorola Type CC 3040 C transmitter is also proposed, as well as a Decibel Products DB 224 E antenna and a Belden RG-8 transmission line. Carphone's antenna is to be located on top of a watertank mast, with the top of the antenna to be 130.5 feet above ground level. Appropriate frequency measuring equipment will be used to insure frequency stability. Mr. Glasscock will be in control of the proposed station, but installation and maintenance will be performed by Mr. Joe Cameron who holds First Class Radio Operator's License P 1613097.

5. The Carphone application was the subject of an informal protest filed February 18, 1972 by Telpage, Inc. (Telpage), the other competing applicant in this proceeding. The grounds of the informal protest are two: first, that Carphone did not have a proper certificate of Public Convenience and Necessity from the State of Alabama, as required by § 21.15(C)(4) of our rules, and, second, that the change in identity from a partnership to a proprietorship by Carphone amounted to a major amendment of the Carphone application, and thereby constituted grounds for its dismissal. We are of the view that the protest ought to be denied because, first, Carphone does have a proper certificate from the State of Alabama to serve the Alabaster area; and, second, the change in the business organization of Carphone does not constitute a major amendment of its application. The original Carphone application (Item #42, Exhibit 6) stated that the applicant did not intend to interconnect its station with the telephone company landline system "at that time", but if and when it did it would obtain appropriate state approval.

6. It appears that this state approval was sought, and obtained in PSC orders of April 26, 1972 and May 5, 1972. In its April 26, action[1] the Alabama Public Service Commission (PSC) found that Mr. Glasscock had been issued an Alabama Certificate of Public Convenience and Necessity on March 16, 1964 to operate a "Miscellaneous Common Carrier Service", and that he had requested recertification as required by the Alabama Radio Utility Act, No. 1595, enacted September 28, 1971. The Alabama Commission's opinion further recited that Mr. Glasscock had entered into an interconnection agreement with the South Central Bell Telephone Company, and it found that there would be in the future a public need and necessity for the service offered or proposed by Mr. Glasscock. It further found that the applicant has the "facilities, experience, personnel and financial ability to provide the public with the service contemplated", and that the contemplated service to the general public within its service area would be at rates which are "reasonable, uniform, and non-discriminatory" (PSC Op. & Order, p. 2). Mr. Glasscock was issued a certificate, therefore, authorizing him, subject to the licensing requirements of the FCC, to operate as a miscellaneous common carrier in intrastate communications, furnishing both interconnected two-way service and one-way radio service on a secondary basis within 40 miles of its base station in Birmingham, Alabama. The appropriate tariffs and rates on file by Mr. Glasscock with the FCC were considered to be the appropriate tariffs and rates for furnishing Mr. Glasscock's portion of the service being authorized by the Alabama Commission.

7. On May 5, 1972, the Alabama PSC in its Docket No. 16513, held that Carphone did not need a new certificate to serve Alabaster since Mr. Glasscock, its owner, already held a Certificate of Public Convenience and Necessity. The PSC held, however, that the certificated area already defined in the certificate was not to be enlarged. Alabaster is approximately 20 miles south of Birmingham; and Carphone, by letter dated May 6, 1972 to the Commission stated that the contour of its proposed station would be wholly confined within a circle of 40-mile radius of Birmingham. We conclude, based upon the foregoing, that Carphone has the requisite certificate of Public Convenience and Necessity, as required by Alabama law and our rules (§ 21.5(c)(4)).

8. The Telpage contention that the change of Carphone's business organization from a two-person partnership in which each partner has a 50 percent investment, to a proprietorship constitutes a major change in Carphone's application requiring its rejection, must be overruled. First, under § 21.23(c) of the rules, the amendment of the Carphone application does not fall within the category of examples described; it does not change a frequency; improve operating characteristics, enlarge service contours or materially alter the nature of its proposed service; nor do we consider it to be otherwise a major amendment of the Carphone application. Mr. Glasscock, prior to dissolution of the partnership, had a 50 percent ownership interest (or negative control) of Carphone. After the amendment Mr. Glasscock has sole control; but his prior responsibilities for the day-to-day operation of the station remain unaffected. Likewise, the responsibility for maintenance of the transmitter appears unaffected. Considering all the circumstances, we deem the change in ownership in Carphone to be one which does not materially alter the nature of the proposed service within the meaning of § 21.23(d) of our rules,[2] and we therefore, do not consider it to be a major change in its application.

9. Telpage is an Alabama Corporation, with its principal office located in Birmingham, Alabama, and was formerly known as Paresco, Inc. The principals of Telpage are Mr. Charles L. Escue, President, and Mr. James T. Parsons, Vice President. Both are 49 percent stockholders, whose wives each own 1 percent of Telpage stock. Mr. and Mrs. Escue are the sole stockholders and officers of Birmingham Communications, Inc., of Birmingham, Alabama, which employs approximately 12 persons in the installation and maintenance of communications equipment.

10. Telpage's financial qualifications are demonstrated in a balance sheet dated July 31, 1971 showing Total Current Assets of $3,958.86 and Total Stockholder's Equity of $4,712.76. Construction costs, estimated to be $8,000 for base station construction and $15,000 for 15

[1] *W. E. Glasscock d.b.a. Carphone Radio Telephone Dispatch Service* (Informal Docket No. U-2493).

[2] Section 21.23(d) states: "Amendments other than major amendments within the meaning of paragraph (c) of this section, will be considered on a case-by-case basis, and if found to materially alter an existing or proposed station, will be deemed to be a major change and will thereafter be listed in a public notice and subject to the provisions of section 21.27."

mobile units, are to be met under the terms of a standard Motorola lease-purchase agreement requiring 10 percent down and the balance payable in 60 months. Under terms of the Agreement, Telpage would pay $2,300 down, with the balance spread over 60 months.

11. Telpage proposes to erect its antenna at a point approximately 4 miles southeast of the Tuscaloosa County Court House, at a point 900 feet southwest of 2715 Skyland Boulevard. A Motorola Type CC 3040 C base station transmitter with 15F2/16F3 emission, with transmitter Input/Output powers of 220 and 120 watts, respectively, is proposed; and the mobile units will be FCC Type-Accepted. The Telpage antenna will be mounted on top of a 180-foot tower, and the top of the antenna will be 199 feet above ground. Maintenance of the Telpage transmitter will be provided by Chism Communications Service, Tuscaloosa, Alabama. Mr. Taylor Chism holds FCC Radio Telephone License Number P1-6-11089.

12. Telpage has a certificate issued by the Alabama Public Service Commission (PSC) on May 1, 1972, permitting it to offer to the general public in its service area within a 40-mile radius of Tuscaloosa, Alabama, two-way mobile radio communication service interconnected with the facilities of South Central Bell Telephone Company ("Bell"). The PSC found that the services offered by Telpage are essentially different from the service that Bell is presently authorized to offer in the same area, in that Telpage will provide message relay service and will transmit and relay messages as a secretarial service to its customers. The PSC found that there is presently and there would be in the future, a public need and necessity for the service proposed by Telpage, and that Telpage has the facilities, experience, personnel, and financial ability to provide the service contemplated. The PSC certificate issued to Telpage is subject to the licensing requirements of the FCC, and the requirement that the tariffs and rates filed by Telpage with the FCC are the appropriate tariffs and rates for furnishing Telpage's portion of the service authorized by the PSC.

13. Since it appears that both applicants are legally, financially, and otherwise qualified to construct and operate their proposed stations, *It is ordered*, Pursuant to sections 309 (d) and (e) of the Communications Act of 1934, as amended (47 U.S.C. § 309 (d) and (e)), that the captioned applications of Alabaster Carphone Company and Telpage, Inc., are designated for hearing in a consolidated proceeding upon the following issues:

1. To determine the nature and extent of services proposed by each applicant, including the rates, charges, personnel, practices, classifications, regulations, and facilities pertaining thereto.

2. To determine the total area and population to be served by Alabaster Carphone, Inc. within the 37 dbu contour of its proposed station, based upon the standards set forth in Section 21.504 of the FCC Rules and Regulations; and to determine the need for its proposed service in that area.[3]

3. To determine the total area and population to be served by Telpage, Inc., within the 37 dbu contour of its proposed station, based upon the standards set forth in Section 21.504 of the FCC Rules and Regulations; and to determine the need for the proposed service in that area.[3]

4. To determine, in light of the evidence adduced pursuant to the foregoing issues, which, if either, of the above-captioned applicants would better serve the public interest, convenience, and necessity.

14. *It is further ordered*, That the hearing shall be held at the Commission offices in Washington, D.C., at a time and place, and before an Administrative Law Judge, to be specified in a subsequent order.

15. *It is further ordered*, That the Burden of proof upon Issue 2 is upon Alabaster Carphone Company; the burden of proof upon Issue 3 is upon Telpage, Inc.; and the burden of proof upon Issues 1 and 4 is upon both applicants.

16. *It is further ordered*, That the Chief, Common Carrier Bureau, is made a party to the proceeding.

17. *It is further ordered*, That applicants and party respondent may avail themselves an opportunity to be heard by filing with the Commission pursuant to § 1.221(c) of the Commission's rules within twenty days of the release date hereof, a written notice stating an intention to appear on the date set for the hearing and present evidence on the issues specified in this Memorandum Opinion and Order.

By the Commission.

Adopted September 6, 1973.

Released September 12, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[4]
[SEAL] VINCENT J. MULLINS,
*Acting Secretary.*

[FR Doc.73-19912 Filed 9-18-73;8:45 am]

[3] Section 21.504(a) of the Commission's Rules and Regulations describes a field strength contour of 37 decibels above one microvolt per meter as the limit of the reliable service area for base stations engaged in the one-way communications service. Propagation data set forth in § 21.504(b) are a proper basis for establishing both the location of the service contours and the areas of harmful interference for the facilities involved in this proceeding.

[4] Commissioner Robert E. Lee absent. Commissioner Johnson concurring in the result.

## PANEL 5 OF CABLE TV TECHNICAL ADVISORY COMMITTEE

### Notice of Meeting

SEPTEMBER 12, 1973.

Panel 5 of the Cable Television Technical Advisory Committee will hold an open meeting on Friday, September 28, 1973, at 10 a.m. The meeting will be held at the FCC Cable Bureau, 6th Floor Conference Room, 2025 M Street NW., Washington, D.C. The agenda of the meeting will include:

(1) Approval of minutes of last meeting.
(2) Review of interaction with other organizations and committees.
(3) Review of Panel 5 objectives and timetable.
(4) Task assignments.
(5) Other business.
(6) Next meeting date.
(7) Adjournment.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
*Acting Secretary.*

[FR Doc.73-19921 Filed 9-18-73;8:45 am]

## RADIO TECHNICAL COMMISSION FOR MARINE SERVICES

### Notice of Meetings

SEPTEMBER 12, 1973.

In accordance with Pub. L. 92-463, "Federal Advisory Committee Act," the following is a listing of September meetings of the Radio Technical Commission for Marine Services (RTCM):

SPECIAL COMMITTEE No. 67

"Vessel Traffic Systems", 5th meeting, Thursday, September 13, 1973—10:00 a.m. (All day meeting), Conference Room A-110, 1229 20th Street NW., Washington, D.C.

PRINCIPAL AGENDA ITEMS

a. Report on Executive Committee action re Terms of Reference.
b. Discussion of U.S. Coast Guard Vessel Traffic Systems Study.
c. Discussion on Proposed Rules for Puget Sound Vessel Traffic System.
d. Status Reports on Work Assignments.

SPECIAL COMMITTEE No. 64

"MF, HF, and VHF Maritime Radioteleprinter and Data Systems and Operations", 39th Meeting. Tuesday, September 18, 1973—9:30 a.m. (All day meeting), Conference Room 205, 1229 20th Street NW., Washington, D.C.

PRINCIPAL AGENDA ITEMS

a. Report on MarAd developmental program for a Digital Selective Calling System.
b. Discussion of Comments on FCC Notice of Inquiry for 1974 Maritime Conference. (FCC Docket No. 19325)
c. Discussion of Direct Printing and Data Systems.

Chairman, SC-64, H. T. Blaker, Collins Radio Company, Arlington, Va. 22209 (Phone: (703) 524-9503).

SPECIAL COMMITTEE No. 66

"Receiver Standards for the Maritime Mobile Service", 14th Meeting, Wednesday, September 19, 1973—9:00 a.m. (All day meeting), Conference Room 205, 1229 20th Street NW., Washington, D.C.

PRINCIPAL AGENDA ITEM

a. Preparation of "Minimum Standards for Portable VHF Receivers in the Maritime Mobile Service".

Chairman, SC-67, Capt. B. Smith, Gulf Oil Corporation, Philadelphia, Pa. 19101 (Phone: (215) 839-6111).

RTCM EXECUTIVE COMMITTEE

Thursday, September 20, 1973, 1:45 p.m., Conference Room 847, 1919 M Street NW., Washington, D.C.

V 38 I 181 SEP 19 73 XUM

PRINCIPAL AGENDA ITEMS

a. Progress Reports on currently active committees.
b. Status Reports on other committees.
c. Approval of New Membership Applications.
d. Appointment of Budget Committee.
e. Discussion on 1974 St. Petersburg Assembly Meeting.
f. Discussion on application of "Federal Advisory Committee Act" (Pub. L. 92-463) as relating to RTCM.
g. Approval of SC-66 Report: "Minimum Standards for VHF Receivers in the Maritime Mobile Service." April 24, 1973.
h. Reports on recent developments relating to satellite communications for the Maritime service.

Agendas, working papers, and other appropriate documentation for each committee meeting are available at that meeting. Those desiring more specific information may contact either the designated Committee Chairman or the RTCM Secretariat. (Phone: (202) 632-6490)

The RTCM has acted as a coordinator for maritime telecommunications since its establishment in 1947. Problems are studied by Special Committees and the final reports are approved by the RTCM Executive Committee. All RTCM meetings are open to the public.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
*Acting Secretary.*

[FCC 73-950]

## SPORTS EVENTS BY CBS AND NBC

### Memorandum Opinion and Order Regarding Prime Time Waiver

In the matter of requests for waiver of the prime time access rule (§ 73.658(k) of the Commission's rules) in connection with sports events, by Columbia Broadcasting System and National Broadcasting Company.

1. The Commission here considers certain requests for waiver of the prime time access rule (§ 73.658(k) of the Commission's rules) with respect to various sports events to be televised on networks during the fall and early winter of 1973. These requests were filed by Columbia Broadcasting System, Inc. (CBS) on August 24, 1973 and by National Broadcasting Company, Inc. (NBC) on August 7, 1973, with additional requests and information submitted August 23 and August 31. Since a general decision in the overall prime time access rule proceeding, Docket 19622, is expected fairly early this fall, we do not here consider the post-season pro football games included in these requests, occurring after December 16, 1973, which present some circumstances different from regular-season games.

2. Aside from the post-season football games mentioned, CBS requests a blanket waiver to cover its Sunday fall NFL National Football Conference football telecasts, tentatively scheduled to include 21 games on 13 dates between September 16 and December 9. All of these games, and whatever others may be included in the schedule, will start no later than about 4 p.m. e.t. (3 p.m. c.t., etc.), and waiver is sought only in the event of a "runover" beyond three hours, or after 7 p.m. e.t., to permit stations to carry the games to completion plus the usual three hours of evening CBS programs.

3. NBC's request is somewhat more elaborate. It asks for a similar blanket "runover" waiver for national or regional coverage of regular season NFL American Football Conference games scheduled to begin no later than 4 p.m., e.t. and which are expected to conclude no later than 7 p.m., e.t. (6 p.m., c.t.). The request also includes various post-season baseball game telecasts in October, the American and National League playoff games and then the World Series. These may be summarized as follows:

(a) "Runover" waivers for afternoon playoff and World Series games (the latter, at least, preceded by pre-game shows) where the telecast, or the second game of a playoff doubleheader, will start about 4 p.m., e.t., or where two playoff games will start at about 2 and about 3:30 e.t. and NBC will switch back and forth during the latter part of the afternoon;

(b) Two or three weekday evening World Series games starting with a pre-game show at 8 p.m., e.t.:

(1) "Runover" waiver is sought for the Mountain time zone stations, where the program will start at 6 p.m. e.t. and could run later than 9 p.m., m.t. (prime time in the Mountain zone is 6-10 p.m.).

(2) For Pacific time zone owned and affiliated stations, where prime time is 7-11 p.m., p.t. and the World Series telecast (evening in the East) will occur from about 5 to 8 p.m., p.t., it is requested that stations be permitted to schedule programs on the assumption that the World Series telecast will occupy only one hour of prime time, so that stations may follow it with two hours of material such as a special West Coast "network" schedule for NBC affiliates, or movies which are "off-network" and recently shown in the market.[1]

(3) Extension of the "network news following an hour of local news" waiver concept, which has prevailed under the rule,[2] to permit presentation of the NBC evening news by West Coast stations immediately after the World Series, about 8 p.m. p.t., if they have preceded the World Series with an hour of local news or public affairs programs.

4. CBS and NBC make essentially the same arguments. It is asserted that "runover" waivers were specifically contemplated in the original Report and Order in Docket No. 12782[3] and have been granted for the past two seasons; and, for that matter, all policy questions presented by these requests have been previously acted on.[4] Both networks argue that we should reach a decision now, and not wait until the overall proceeding concerning the prime time access rule, Docket No. 19622 is decided. That decision is not expected before late September and the parties here must make scheduling and sales plans which cannot wait until that time. They also point out that a decision now would be in accordance with the Commission policy of maintaining the status quo, which, in these instances, would include waivers of types previously granted.[5] The networks say that all of the events, including pre-game shows, if there are to be any, have been scheduled in such a way so as to minimize the possibility of intrusion into the access period by runovers, or to limit such intrusions to the less populous time zones. They also state that although there have been numerous requests for these runover type waivers, they are, for these events at least, seldom used (none for CBS regular season football games in 1972). Finally, both networks argue that the full presentation of the events under consideration to their conclusion is in the public interest.

*Discussion and conclusions.* 5. Upon consideration of the above, we are of the view that, except as noted below, these requested waivers should be granted. With respect to the CBS and NBC regular-season professional football games, waiver for these has been granted on the same basis in two previous years. It appears from past experience unlikely that they will last longer than three hours in the normal course of events, so that a 4 p.m., e.t. starting time appears appropriate and within the principle of "footnote 35", noted above. The same appears true of NBC's afternoon playoff and World Series baseball games, with one qualification: That where a pre-game show is involved, the game itself should start by 4:15 p.m., e.t. (in other words, we are prepared to assume that these games themselves will last no longer than 2:45 in the absence of extra inning play, but not that they will be completed in 2:30 or less).

6. As to the evening World Series requests, as has been mentioned before these present no problem in the Eastern and Central time zones, which is where the bulk of the top 50 markets and their TV homes are located, provided they start no earlier than 8 p.m., e.t. As was the case last year (see 37 FCC 2d 573), we believe that waiver is warranted, to take care of possible "runovers" beyond three hours for the game telecasts themselves, in the Mountain time zone, and, on the West Coast, to permit the carriage of the game itself at the beginning of prime time, plus two additional hours of material which is not eligible for unrestricted presentation during prime time under the rule (e.g., recently shown movies). We have noted in previous decisions the problems involved in these zones, when special live "simultaneous" material such as sports must be fitted into the usual pattern of delayed broadcasting; and we believe a similar approach is appropriate here. With respect to permitting Mountain and Pacific zone stations to carry the NBC nightly news on these evenings after the World Series (provided the station has presented an hour of local news just before the World Series), we granted this waiver last year (see 37 FCC 573), and see no reason to change our conclusions. However, it appears that this waiver should be subject to the same conditions imposed in our 1972 action: that these stations regularly carry on the same day of the week (in the absence of live, simultaneous network programming) an hour of local news or public affairs followed by network news; that they in fact carry on this particular day an hour of local news or public affairs immediately before the World Series; and that (taking into account the fact that two waivers apply to these situations) a half-hour of prime time on these stations remain free for the presentation of non-network material not restricted by the rule.

7. As to the arguments concerning the status quo, pending the overall decision, this policy was adopted late last year and early in 1973, when it appeared that decision in Docket 19622 would be reached by May or June of this year. This has not occurred; moreover, while decision is expected rather shortly, it does not appear likely that any substantial change in the rule will be put into effect before fall 1974. Therefore, as stated in another recent decision, we have, to some extent, modified this principle. However, in connection with the present matters, there is nothing in the comments filed in Docket 19622, or other circumstances, which indicate an approach different from that which has been adopted in the past, and therefore we are continuing the waiver policies adopted last year and before.

8. In view of the foregoing: *It is ordered,* That: notwithstanding the limitations contained in § 73.658(k), during the period ending December 16, 1973:

(a) Stations affiliated with (or owned commonly with) CBS and NBC networks may carry to completion professional baseball or regular-season football games (but not including any post-game material), without any of the time counting toward the permissible three hours of network prime-time programming, provided the game itself starts no later than about 4 p.m. e.t., or where it is a playoff or championship baseball game preceded by a "pre-game show" and the game itself starts no later than about 4:15 p.m., e.t.;

(b) Stations affiliated or under common ownership with the NBC network in the Mountain and Pacific time zones may schedule and present NBC evening World Series telecasts, and other NBC or off-network or recently shown movie programming the same evening, on the assumption that the World Series telecast occupies no more than three hours of prime time in the Mountain time zone and no more than one hour of prime time in the Pacific time zone; and

(c) Stations affiliated or under common ownership with the NBC network in the Mountain and Pacific time zones may present the NBC Nightly News following the World Series telecasts, without its counting toward the permissible three hours of network, off-network or recently shown movie programming, where all of the following conditions are met:

(1) At least a half-hour of prime time on the evening involved shall be devoted to material which is not network programming, off-network material, nor feature film shown in the market within the past two years;

(2) the station presents, immediately before the World Series, a full hour of local news or public affairs (except for commercial announcements or PSA's); and

(3) the station's regular schedule, when live simultaneous network programming is not involved, for the same day of the week as that involved in the waiver, includes an hour of local news or public affairs and a half-hour of network news between the hours of 5 and 7:30 p.m. local time.

Adopted September 11, 1973.

Released September 14, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[6]

[FCC 73-893]

## SALEM BROADCASTING CO., INC., ET AL.

### Memorandum Opinion and Order Modifying Issues

In regard applications of Salem Broadcasting Co., Inc., Salem, New Hampshire, Docket No. 19434, File No. BP-18325; New Hampshire Broadcasting Corp., Salem, New Hampshire, Docket No. 19435, File No. BP-18479; Spacetown Broadcasting Corp., Derry, New Hampshire, Docket No. 19436, File No. BP-18492; for construction permits (38 FR 7358).

1. This proceeding, involving the above-captioned mutually exclusive applications for new daytime only Class II-D stations on 1110 kilohertz, was designated for hearing on various issues by our Memorandum Opinion and Order, FCC 72-136, 33 FCC 2d 672, released February 15, 1972.

2. Presently before us are the following matters: (a) A joint petition for waiver, filed March 20, 1973, by Salem Broadcasting Co., Inc. (Salem), and New Hampshire Broadcasting Corp. (New Hampshire); (b) oppositions filed March 29 and 30, 1973, by the Chief, Broadcast Bureau and by Spacetown Broadcasting Corp. (Spacetown), respectively; and (c) a joint reply filed April 12, 1973, by Salem and New Hampshire. In order to place the above matters in their proper perspective, it is necessary to recount briefly herein some recent developments which have substantially altered the posture of this proceeding since it was last before us.

3. After we designated this proceeding for hearing Spacetown filed a motion to enlarge issues based upon information contained in the 1970 U.S. Census Report, contending that the most recent information now available for Salem, New Hampshire, raises substantial and material questions of fact regarding whether or not the proposals of Salem and New Hampshire still fall within the exceptions to the Commission's prohibited overlap rule, § 73.37.[1] In its Memorandum Opinion and Order, FCC 72R-333, 38 FCC 2d 1970, released November 22, 1972, the Review Board generally agreed with Spacetown's contentions in this respect and, accordingly, added hearing issues to this proceeding to determine whether petitioners' applications violate § 73.37 (a), and if so, whether the proposals still fall within the exceptions to the overlap rule as contained in § 73.37(b) or whether they should be dismissed.[2]

4. In view of the above developments, Salem and New Hampshire (hereafter petitioners) have filed the instant joint petition for waiver of § 73.37 of the Rules. Essentially, they contend that they should not have been penalized because the town of Salem has increased in population; that they have prosecuted their applications in good faith and had no control over these new developments which now call into question their prior eligibility under the exceptions to the Commission's overlap rule; that, in any event, their proposals conform to the spirit of the Commission's pronouncements set forth in the Report and Order [Docket No. 15084, 29 FR 9492 at 9495, 2 RR 2d 1658 at 1668 (1964)] adopting this particular rule and the exceptions thereto;[3] and that, consequently, a waiver is justified in this case.

5. We believe that it would be premature to consider the merits of the petitioners' request for waiver at this juncture of the proceeding and on the basis of the information before us.[4] To adopt such a procedure now would undermine the orderliness of the Commission's processes. We do not, however, believe that the events described above should foreclose development at the evidentiary hearing of the parties' arguments for and against waiver, if it is determined that the petitioners' applications do not qualify for an exception to the rule.[5] The actions taken herein should not be construed as indicating how the waiver request should be disposed of, if indeed such a disposition is eventually required.

6. In view of the foregoing, we are convinced that both the public interest and the Commission's processes will be better served by dismissing the petitioners' request for waiver on the grounds that it is prematurely before us, and by modifying, of our own motion, the appropriate hearing issues in this proceeding in accordance with the above determinations. Also on our own motion, we shall delete hearing Issues (a) and (d), which were added by the Review Board (38 FCC 2d 170 at page 182). In our opinion, the matters to be explored under those hearing issues were acknowledged by the petitioners upon the filing of their applications and were appropriately considered prior to the Commission's acceptance of such applications; the recent developments in this proceeding have not raised any substantial or material questions of fact regarding these matters; and consequently, no useful purpose would be served by further delving into these matters in the evidentiary hearing.

7. Accordingly, *It is ordered*, That the joint petition for waiver, filed March 20, 1973, by New Hampshire Broadcasting Corp. and Salem Broadcasting Co., Inc., is dismissed without prejudice.

8. *It is further ordered*, That the hearing issues added in this proceeding by the Review Board (38 FCC 2d 170 at 182) are modified as follows:

(1) Hearing Issues (a) and (d) are deleted in their entirety;

(2) Hearing Issue (b) is amended to read: "to determine whether the application of Salem Broadcasting Co., Inc., still falls within any of the exceptions contained in § 73.37(b) of the Commission's rules and, if not, whether a waiver of § 73.37 should be granted or the application dismissed"; and

(3) Hearing Issue (e) is amended to read: "To determine whether the application of New Hampshire Broadcasting Corp. still falls within any of the exceptions contained in § 73.37(b) of the Commission's rules and, if not, whether a waiver of § 73.37 should be granted or the application dismissed."

Adopted September 6, 1973.

Released September 11, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[7]
VINCENT J. MULLINS,
*Acting Secretary.*

[FR Doc.73-19918 Filed 9-18-73;8:45 am]

[1] At the time of designation and based upon the most recent information then available to the Commission (1960 U.S. Census Report), we concluded that even though these two proposals violated § 73.37(a), they were nevertheless acceptable for filing and could be granted, if otherwise appropriate, because they qualified under an exception to the overlap rule [§ 73.37(b)], which provides that a first standard broadcast station in a community of any size wholly outside of an urbanized area may be authorized notwithstanding prohibited overlap.

[2] The Review Board also refused to consider both a request for waiver of § 73.37 by Salem and New Hampshire and a request to consider proffered information submitted by these two applicants which attempted to show their eligibility under another exception to the overlap rule.

[3] Petitioners contend that their proposals will achieve the results stated by the Commission in that rulemaking proceeding; i.e., to provide at least one local broadcast station to as many communities as possible, except where relatively small communities (under 25,000 population) "largely of a suburban character" are involved, because such communities may be served by stations in nearby urban areas.

[4] Any determinations by us with respect to a waiver of the rule at this stage of the proceeding may very well be academic, since petitioners have contended in these pleadings, as well as in pleadings before the Review Board, that their proposals in fact qualify under a different exception contained in § 73.37(b) when tested against the most recent population figures for the town of Salem.

[5] As we construe the Review Board's Memorandum Opinion and Order (*supra*, at paragraph 3) adding hearing issues [Issues (b) and (e)] to this proceeding, in the event it is determined in the evidentiary hearing that the petitioners do not now qualify under the exceptions contained in § 73.37(b), their applications could be summarily dismissed without the opportunity to present their cases for waiver of the rule.

[7] Commissioner Robert E. Lee absent; Commissioner Wiley concurring in the result.

## FEDERAL POWER COMMISSION

### ALGONQUIN GAS TRANSMISSION CORP.

### Notice of Rate Change Pursuant to Purchased Gas Cost Adjustment Provision; Correction

AUGUST 21, 1973.

In the Notice of Rate Change Pursuant to Purchased Gas Cost Adjustment Provision, issued July 30, 1973 and published in the FEDERAL REGISTER August 7, 1973, 38 FR 21298: First paragraph, change the filing date July 24, 1973 to July 17, 1973.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-19831 Filed 9-18-73;8:45 am]

[Docket No. RP71-122]

### ARKANSAS LOUISIANA GAS CO.

### Notice of Tariff Filing

SEPTEMBER 11, 1973.

Take notice that on July 6, 1973, Arkansas Louisiana Gas Company (Arkla), in purported compliance with ordering paragraph (C) of Opinion No. 643-A and order issued April 10, 1973, and ordering paragraph (B) of Opinion No. 643-B and order issued on June 8, 1973, filed Substitute First Revised Sheets Nos. 3A, 3B, 3C, and Substitute Original Sheet No. 3D superseding respectively Original Sheets Nos. 3A, 3B, and 3C of Arkla's FPC Gas Tariff First Revised Volume No. 1.

In its filing Arkla states that the curtailment plan reflected in the tariff sheets submitted therewith, "although including subcategories within Priorities 1, 2, and 3 and several other refinements, is fully consistent with the principles and intent of the Commission's orders in Docket No. RP71-122."

Arkla includes within Priority 1 three subcategories, namely, P-1.1 residential; P-1.2 vital facilities such as hospitals, nursing homes, police, fire, schools and churches; and P-1.3 small commercial. Arkla states that the only practical method for classifying small commercial customers is on a monthly basis, therefore, Arkla has utilized 1,500 Mcf per month as the volumetric break point for determining small commercial customers instead of 50 Mcf per day. Arkla states that this is necessary since no peak-day data is obtainable for customers of this size. Arkla has also included within P-1.3 industrial customers whose use is as small as the small commercial users.

Arkla has subdivided Priority 2 into P-2.1 which includes large commercials, industrials using up to 9,000 Mcf per month and plant protection requirements; and P-2.2 containing feedstock and process uses. Arkla states that this differentiation is primarily based on logistical problems associated with curtailing large numbers of small customers. Therefore, small industrials (up to 9,000 Mcf per month) as well as large commercials and plant protection volumes were included in P-2.1. The relatively small number of large volume feedstock and process gas users were given P-2.2 status.

Arkla also subdivided Priority 3 into P-3.1 including 109 customers using less than 1,500 Mcf per day, whose total daily use is 62,579 Mcf and P-3.2 including 12 customers using 1,500 Mcf per day or more whose total daily use is 42,182 Mcf. Arkla states that this refinement is required for practical administration of its curtailment plan.

Any person, not already a party to this proceeding, desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20425, in accordance with sections 1.8, 1.10). All such petitions or protests should be filed on or before September 24, 1973. Additionally, persons who have heretofore been granted status as intervenors in Docket No. RP71-122, should file their comments, if any, on or before September 24, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-19850 Filed 9-18-73;8:45 am]

[Project No. 271]

### ARKANSAS POWER AND LIGHT CO.

### Order Providing for Hearing

SEPTEMBER 10, 1973.

Arkansas Power and Light Company is the Licensee for the Carpenter and Remmel Project No. 271, located on the Ouachita River in Hot Springs and Garland Counties, Arkansas, near the town of Malvern and the City of Hot Springs, Arkansas, Lake Hamilton, the Project reservoir created by Carpenter Dam, has a shoreline of approximately 65 miles and a surface area of 72,000 acres. Lake Catherine, the Project reservoir created by Remmel Dam, has a shoreline of approximately 25 miles and a surface area 1,940 acres.

On September 10, 1973, we issued orders granting easements for effluent discharge lines into Lake Hamilton to LA-DU Enterprises, Inc., Gram Motel, Inc., and Quadrant Corporation and Fairwood Homes Association, all docketed under Project No. 271. In those orders we stated:

> • • • this Commission is concerned with the practice of allowing increased use of project lands and waters on a piecemeal basis rather than being related to a comprehensive consideration of the capacity of the project lands and waters to serve known and foreseeable proposed public uses which might be imposed upon them. Future applications, and those currently on file with the Commission, which might result in intensified use of this project's resources should be accompanied by a comprehensive plan defining present and potential development of the project. Where necessary, a hearing will be conducted to build a record upon which a decision can be made.

On October 30, 1972, an application for a change in land rights was filed for Project No. 271 by Arkansas Power and Light Company (Licensee). The application proposes to convey in fee to the City of Hot Springs, Arkansas, 100 acres of the 118 acre Electric Island and 16.2 acres of Little Goat Island, both located off shore of Point Lookout, one and one half miles west of Carpenter Dam in Lake Hamilton: The land would be leased to a private developer who would construct a recreation-amusement park area. The proposed facilities would include the construction of causeways between the mainland and islands and the construction of adequate water and sewage facilities on each island.

In our orders issued September 10, 1973, in Project No. 516 and September 10, 1973, in Project No. 271, we expressed our concern for a closer examination of the consequences of intensified use of project resources. Therefore, we are referring this application to hearing so that it may be considered together with other applications that may be on file and any future applications of a similar nature which may impose additional public use on project lands and waters, in particular, Lake Hamilton and Lake Catherine.

The hearing, or at least a portion of it, is to be held at or near Project No. 271 so that all interested parties could come before the Administrative Law Judge and submit comments pursuant to § 1.10 of our rules of practice and procedure without the requirement that they formally intervene. Such comment may be directed to present and foreseeable future developments which may impose additional public uses on project lands and waters and comments on present and future public use to be made of project lands and waters. Such comments may be offered in writing at any time, for incorporation into the record as though read, before closing of the record or orally at the public hearing without the need of a representative, need not be sworn to, will not be subject to cross examination, and are not probative evidence. However, the Administrative Law Judge may direct such clarifying questions as he deems necessary to achieve a complete record. This type of an examination into the intensified use of a project is in conformity with the public and recreational considerations required under section 10(a) of the Federal Power Act and also the requirement that we assess secondary impact under the National Environmental Policy Act and its established guidelines.

*The Commission finds:*

It is appropriate and in the public interest as provided herein to hold a public hearing respecting matters involved and issues presented in this proceeding on the application by Arkansas Power and Light Company, and such other purposes set forth in this Order.

*The Commission orders:*

(A)(1) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by the Federal Power Act, particularly section 4(g), 10(a), 10(c) and 309 thereof, and the Commission's rules of practice and procedure, a public hearing shall be held in the vicinity of Lake Hamilton and Lake Catherine and such other places deemed necessary by the assigned Administrative Law Judge upon notice fixing such place and time.

V 38 I 181 SEP 19 73 XUM

(2) The purpose of the hearing shall be to consider existing applications for further easements or other permission to utilize project lands and waters in light of a comprehensive analysis of the project lands and waters as a whole to be accumulated by developing a formal record pertaining to:

(a) Present utilization of Lake Hamilton and Lake Catherine and project lands.

(b) Anticipated future utilization of Lake Hamilton and Lake Catherine and project lands including proposed developments and easements.

(c) The present and reasonably foreseeable intensity of public use in relation to the capacity of project lands and waters to serve these multiple uses without further impairment of the natural resources they represent.

(d) Issues raised in any complaint not covered by the foregoing.

(3) Formal parties submitting evidence for admission to the record shall insofar as practicable submit their exhibits and testimony to be sworn to and to be subject to cross examination in writing in accordance with a schedule to be fixed by the Administrative Law Judge.

(4) In addition to the evidence presented by Commission Staff, formal parties and intervenors, the Administrative Law Judge shall receive from persons other than intervenors, oral or written statements of position and other comments not to be considered probative evidence which need not be sworn to and shall not be subject to cross examination.

(B) This order shall become final 30 days from the date of its issuance unless application for rehearing shall be filed as provided in section 313(a) of the Federal Power Act, and failure to file such an application shall constitute acceptance of the foregoing order. In acknowledgement of the acceptance of this order, it shall be signed for the Licensee and returned to the Commission within 60 days from the date of issuance of this order.

By the Commission.[1]

[Docket No. CP70-258]

## CITIES SERVICE GAS CO.

### Notice of Petition To Amend

SEPTEMBER 11, 1973.

Take notice that on August 30, 1973, Cities Service Gas Company (Petitioner), P.O. Box 25128, Oklahoma City, Oklahoma 73125, filed in Docket No. CP70-258 a petition to amend the Commission's order issued in said docket on July 22, 1970 (44 FPC 149), as amended on June 30, 1972 (47 FPC 1747), pursuant to section 7(c) of the Natural Gas Act by authorizing Petitioner to construct and operate certain facilities as an additional point of delivery between Petitioner and Kansas-Nebraska Natural Gas Company, Inc. (Kansas-Nebraska), all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner is authorized among other things, to exchange natural gas with Kansas-Nebraska pursuant to the terms of an exchange agreement under which Petitioner delivers gas to Kansas-Nebraska at the discharge of its Hugoton Compressor Station in Grant County, Kansas, and Kansas-Nebraska delivers equivalent volumes to Petitioner at a point on Petitioner's Hugoton-Kansas City 26-inch pipeline near the town of Haven in Reno County, Kansas. In Docket No. CP74-23 Petitioner has filed for authorization to effectuate an amendment dated June 26, 1973, to its exchange agreement to provide for a further exchange point on its Hugoton-Kansas City 26-inch pipeline in Edwards County, Kansas, to be designated as the Unruh Exchange Point. In the instant petition to amend Petitioner proposes to construct and operate measuring, regulating and appurtenant facilities at the Unruh Exchange Point to deliver exchange volumes to Kansas-Nebraska.

Petitioner estimates the cost of the proposed facilities to be $9,800, which will be financed with cash on hand.

Petitioner states that these facilities, pursuant to the hereinbefore-mentioned exchange agreement, will provide Kansas-Nebraska's customers in the Pawnee Rock Unruh gas supply area with a greater assurance of supply with minimal capital expenditures. Deliveries through the Unruh Exchange Point are estimated to average up to 3,000 Mcf per day of natural gas.

Any person desiring to be heard or to make any protest with reference to said petition should on or before October 5, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNTH F. PLUMB,
*Secretary.*

[FR Doc.73-19839 Filed 9-18-73;8:45 am]

[Docket No. CI74-149]

## DAGGER DRAW TRANSMISSION CORP.

### Petition for a Declaratory Order

SEPTEMBER 10, 1973.

Take notice that on August 20, 1973, Dagger Draw Transmission Corporation (Petitioner), P.O. Box 1180, Roswell, New Mexico 88201, filed in Docket No. CI74-149, a petition for a declaratory order to determine whether it is a "natural-gas company" within the meaning of the Natural Gas Act, all as more fully set forth in the petition which is on file with the Commission and open to public inspection.

Petitioner states that it is constructing a field gas gathering system to transport casinghead gas from various wells in Eddy County, New Mexico, to a terminal point in a presently installed field gathering system operated by Marathon Oil Company (Marathon). Petitioner states further that it is informed that Marathon will transport the gas to its liquid extraction plant in Eddy County, New Mexico, where the producers of such gas will sell the gas to Natural Gas Pipeline Company of America at the tailgate of the Marathon Plant. Petitioner's transportation service to the producers of the gas will be on a fee basis (calculated on volume and distance). Petitioner will not have any ownership, legal or beneficial, in the gas or in the products therefrom transported. Petitioner states that its facilities are all in Eddy County, New Mexico, and that the current capacity of the gathering system is 1,660 Mcf of gas per day and the estimated peak daily capacity will be 6,000 Mcf of gas.

Any person desiring to be heard or to make any protest with reference to said petition should on or before October 5, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

## EL PASO NATURAL GAS CO.

### Notice Denying Motion To Omit Intermediate Decision Procedure

SEPTEMBER 10, 1973.

On August 28, 1973, at the close of the hearing in the above-designated matter, El Paso Natural Gas Company filed a motion to omit the intermediate decision. On August 30, 1973, the Presiding Administrative Law Judge referred the motion to the Commission and stated that all participating parties, including the Commission Staff, support the motion.

There has been no showing that the due and timely execution of the Commission's functions imperatively and unavoidably requires the omission of the intermediate decision procedure in the above-designated matter and the motion is denied.

By direction of the Commission.

[Docket No. CI74-129]

## GAS MARKETING, INC.

### Petition for Special Relief or, in the Alternative, for Permission and Approval To Abandon

SEPTEMBER 10, 1973.

Take notice that on August 20, 1973, Gas Marketing, Inc. (Gas-Mark) P.O. Box 748, Salina, Kansas 67202, filed in Docket No. CI74-129 a petition for special relief pursuant to section 7(c) of the Natural Gas Act[1] by requesting authorization to continue the sale of natural gas to Panhandle Eastern Pipe Line Company from the Fruit Field, Kiowa County, Kansas, at a higher price so as to avoid abandonment of the subject sale or, in the alternative, if such relief is not granted, permission and approval pursuant to section 7(b) of the Natural Gas Act to abandon the aforesaid sale and facilities used therefor, all as more fully set forth in the petition which is on file with the Commission and open to public inspection.

Gas-Mark proposes to continue a sale of natural gas to Panhandle from the Fruit Field at a new rate of 35.0 cents per Mcf at 14.65 psia pursuant to the terms of a contracted amendment dated September 25, 1972. Gas-Mark states that the subject gas originates from gas gathered and compressed from oil wells producing casinghead gas. Gas-Mark asserts that considering the volumes of gas now available from this acreage and the present price of such gas, its continued gathering, compressing and sale of such gas is no longer warranted from an economical standpoint. The application indicates that 113,117 Mcf of gas were sold from this acreage during the period from August 1971 through July 1972, at a gross profit of $9,978.77, with operating expenses of $8,226.78 and Depreciation of $3,542.54, for a net loss of $1,790.55. The aforesaid contract amendment states that Gas-Mark has discontinued operating its compressor equipment and is now flaring this gas.

If this special relief is not granted Gas-Mark requests authorization to abandon its facilities and cease the gathering, compression and sale of gas from the Fruit Field.

Any person desiring to be heard or to make any protest with reference to said petition should on or before October 5, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this petition if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Gas-Mark to appear or be represented at the hearing.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-19843 Filed 9-18-73;8:45 am]

[1] It is assumed that Gas-Mark is filing this petition pursuant to Section 2.76 of our General Policy and Interpretations (18 CFR 2.76), as established by Commission Order No. 481, *Policy With Respect To Sales Where Reduced Pressures, Need For Reconditioning, Deeper Drilling, Or Other Factors Make Further Production Uneconomical At Existing Prices*, order issued April 12, 1973 (49 FPC ——).

[Project No. 2090]

## GREEN MOUNTAIN POWER CORP.

### Application for Amendment of License

SEPTEMBER 12, 1973.

Public notice is hereby given that application has been filed under the Federal Power Act (16 U.S.C. 791a–825r) by the Green Mountain Power Corporation (Correspondence to: Mr. Elliot G. Whitney, Vice President, Green Mountain Power Corporation, P.O. Box 486, Montpelier, Vermont 05602) for amendment of license of Waterbury Project No. 2090 located on the Waterbury River, in Washington County, Vermont.

The application seeks to remove from the license the 33 kv transmission line 4 miles long that extends from the project to the applicant's Waterbury switching station. The applicant states that due to changes in its system, the line is now part of its interconnected transmission system.

Any person desiring to be heard or to make protest with reference to said application should on or before October 23, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

V 38 181 SEP 19 73 XUM

[Docket No. E-7740]

## INDIANA AND MICHIGAN ELECTRIC CO.

### Proposed Changes in Rates and Charges

SEPTEMBER 11, 1973.

Take notice that the Indiana and Michigan Electric Company (I&M) on August 30, 1973, tendered for filing proposed changes in its FPC Electric Rate Schedule Nos. 27 and 58. The proposed changes will increase I&M's revenues based on test year 1971 by approximately $380,000 annually from the City of Anderson, Indiana (Anderson) and by approximately $190,000 annually from the City of Richmond, Indiana (Richmond). The proposed effective date is March 29, 1972, the date on which I&M's revised tariff I.P. became effective with respect to I&M's customers in the State of Indiana, or upon the first next succeeding date on which the proposed changes may be made effective under law, statute, or rule. I&M requests waiver of the requirements of §§ 35.0, 35.3, 35.11, and 35.13 of the Commission's rules and regulations to the extent that they are inconsistent with this tendered filing.

In support of its filing, I&M states that the proposed changes incorporate the revisions in I&M's tariff I.P. on file with, and approved by, the Public Service Commission of Indiana and which become effective on March 29, 1973. Further, I&M states that this filing is made to effectuate the respective contractual obligations between I&M and the cities of Anderson and Richmond. In addition, I&M asserts that there is no bona fide dispute as to the reasonableness of the proposed increases in the record in Docket No. E-7740 to date.

In support of its requested effective date, I&M asserts that it is necessary, in the public interest, and in the interest of I&M's other municipal wholesale customers. Further, I&M avers that it is necessary to effectuate the express contractual obligations of Anderson and Richmond and to avoid a wholly unjustified windfall for those cities.

I&M states that copies of this filing were served on each of the affected customers and the Public Service Commission of Indiana.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8, 1.10 of the Commission's rules of practice and procedures (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 19, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

## NATURAL GAS PIPELINE CO. OF AMERICA

### Amendment to Application

SEPTEMBER 10, 1973.

Take notice that on August 31, 1973, Natural Gas Pipeline Company of America (Applicant), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP73-289 an amendment to its application filed in said docket on April 25, 1973, pursuant to section 7(c) of the Natural Gas Act to request authorization to construct and operate facilities to transport natural gas proposed to be exchanged with Texas Eastern Transmission Corporation (Texas Eastern), all as more fully set forth in the amendment which is on file with the Commission and open to public inspection.

In its application of April 25, 1973, Applicant seeks a certificate of public convenience and necessity authorizing the delivery to Texas Eastern of 5,000 Mcf of gas per day purchased in Lavaca County, Texas, and 10,000 Mcf of gas per day purchased in Harris County, Texas, in return for equivalent volumes of gas to be delivered by Texas Eastern in Brazoria County, Texas. In the instant amendment Applicant requests certificate authorization to construct and operate 1.7 miles of 6-inch pipeline in Lavaca County and 5.3 miles of 6-inch pipeline and a gas measuring facility in Harris County to receive gas from the producers thereof. The estimated cost of the subject facilities is $997,513.00, which would be financed with funds on hand.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before October 5, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

## OHIO POWER CO.

### Extension of Time and Postponement of Prehearing Conference and Hearing

SEPTEMBER 11, 1973.

On August 28, 1973, Allied Chemical Corporation, Blaw Knox Company, Mobay Chemical Company and the Triangle Conduit & Cable Company filed a motion for a six-week postponement of the procedural dates set by the order issued August 1, 1973, in the above-designated matter. Counsel states that Commission Staff, Ohio Power Company, and the West Virginia Public Service Commission have no objection to the motion.

Upon consideration, notice is hereby given that the procedural dates are modified as follows:

Service of Testimony and Exhibits by Staff, October 2, 1973.
Service of Testimony and Exhibits by Interveners, October 16, 1973.
Rebuttal evidence by Ohio Power Company, October 31, 1973.
Prehearing Conference, November 6, 1973 (10:00 a.m., E.S.T.).
Cross-Examination, November 13, 1973 (10:00 a.m., E.S.T.).

## PACIFIC GAS AND ELECTRIC CO.

### Notice of Application for Change in Land Rights

SEPTEMBER 12, 1973.

Public notice is hereby given that application has been filed January 14, 1972, under the Federal Power Act (16 U.S.C. 791a-825r) by Pacific Gas and Electric Company (Correspondence to: Mr. J. F. Roberts, Jr., Vice President, Rates and Valuation, 77 Beale Street, San Francisco, California 94106) for change in land rights for Project No. 1988, known as Kings River Project, located on the North Fork of Kings River in Fresno County, California.

Applicant requests Commission approval of the grant of an easement to the United States of America for a road right-of-way for the reconstruction, maintenance, and use of an existing road across Wishon Dam and adjacent property of Project No. 1988. The project lies within the boundaries of Sierra National Forest and the Forest Service, U.S. Department of Agriculture has assumed the maintenance and supervision of the road.

Any person desiring to be heard or to make protest with reference to said application should on or before October 10, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

[Docket No. E-8369]

## SOUTHWESTERN ELECTRIC POWER CO.

### Proposed Changes in Rates and Charges

SEPTEMBER 12, 1973.

Take notice that Southwestern Electric Power Company (SWEPCO) on August 20, 1973, tendered for filing a proposed contract for electric service dated July 31, 1973, providing for SWEPCO to furnish the entire electric power and energy requirements of the City of Bentonville, Arkansas (City) for 10 years beginning September 1, 1973. Also submitted was an agreement between the City and SWEPCO dated July 31, 1973, providing for the City to sell and deliver to SWEPCO certain hydroelectric peaking power and energy that is sold and delivered to the City by the Southwestern Power Administration. The Company states that service will be furnished according to Rate Schedule No. W, Wholesale Electric Service for Resale to Municipalities, which is, according to SWEPCO, its standard established rate for this class of service. SWEPCO requests waiver of the Commission's requirements to permit an effective date of September 1, 1973.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 25, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-19849 Filed 9-18-73;8:45 am]

[Docket No. CP70-7 (Phase II)]

## SOUTHERN NATURAL GAS CO.

### Petition To Amend

SEPTEMBER 11, 1973.

Take notice that on August 23, 1973, Southern Natural Gas Company (Petitioner), P.O. Box 2563, Birmingham, Alabama 35202, filed in Docket No. CP70-7 (Phase II) a petition to amend the Commission's order issued October 29, 1969 (42 FPC 944), in the subject docket pursuant to Section 7(c) of the Natural Gas Act by authorizing certain changes and reallocations in the contract quantities of natural gas to be delivered to Alabama Gas Corporation (Alagasco) among individual delivery points, all as more fully set forth in the petition which is on file with the Commission and open to public inspection.

By the Commission's order of October 20, 1969, Petitioner was authorized, inter alia, to sell and deliver to Alagasco at certain specified delivery points a contract demand of 408,725 Mcf. By order issued in the subject docket on October 20, 1971, this contract demand was reduced to 408,475 Mcf. On December 1, 1972, and December 8, 1972, Petitioner tendered for filing under section 4 of the Natural Gas Act a fifth revised Exhibit A and a sixth revised Exhibit A to its presently effective firm service agreement with Alagasco. By order issued March 20, 1973, in Docket No. RP73-73, the Commission rejected these filings because they were inconsistent with the outstanding certificate authorization in the subject docket.

Petitioner seeks authorization herein to make changes and reallocations in the contract quantities delivered to Alagasco among individual delivery points, pursuant to its fifth and sixth revised Exhibit A's. The fifth revised Exhibit A reallocates Alagasco's contract demand among several delivery points, and while the sixth revised Exhibit A includes the same revisions, it also includes a proposed integration of Alagasco's delivery points at Fairfax and Shawmut and a proposed integration of the Harbison-Walker and Birmingham delivery points.

In an affidavit filed with the petition to amend, an executive-vice president of Alagasco states that these changes and reallocations are needed:

1. To enable Alagasco to meet its firm gas load under design day conditions at other delivery points and to permit the utilization of a recently constructed LNG facility near Montgomery, Alabama, to assist in meeting these loads;

2. To restore contract demands at its Leeds and Tuscaloosa delivery points to the level which had existed previously and which would assure that the firm load serviced from these points could be met without curtailment in the event of low mean temperatures during the summer period; and

3. To recognize physical connections previously made, tying the Harbison-Walker (1971) delivery point to the Birmingham delivery point and interconnecting the Fairfax-Shawmut (1955) delivery points.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before October 5, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene with the Commission's rules.

KENNETH F. PLUMB,
*Secretary.*

[Docket No. CP74-60]

## TENNESSEE GAS PIPELINE CO.

### Notice of Application

SEPTEMBER 10, 1973.

Take notice that on August 31, 1973, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Applicant), P.O.

V 38 I 181 SEP 19 73 XUM

Box 2511, Houston, Texas 77001, filed in Docket No. CP74-60 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas in interstate commerce for The Greenwich Gas Company (Greenwich), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to transport up to 4,000 Mcf of natural gas per day for Greenwich until October 31, 1974. Applicant states that to enable Greenwich to meet its peak shaving requirements, Greenwich has arranged to purchase 100,000 Mcf of vaporous gas equivalent of liquefied natural gas (LNG) from The Southern Connecticut Gas Company (Southern Connecticut). Southern Connecticut will vaporize the LNG and make equivalent volumes available to Applicant for transportation to Greenwich by reducing Southern Connecticut's takes from Applicant. Applicant proposes to collect a transportation charge comprised of a demand charge of 29.41 cents per Mcf per month plus a volume charge of 4.90 cents per Mcf. Applicant states that the proposed service would be rendered by means of existing facilities.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 5, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

## VIRGINIA ELECTRIC AND POWER CO. AND DAN RIVER, INC.

### Proposed Determination of Headwater Benefits Payments in the Roanoke River Basin

SEPTEMBER 13, 1973.

Public notice is hereby given that the Commission Staff proposes a determination pursuant to the provisions of Section 10(f) of the Federal Power Act (16 U.S.C. 803), of certain payments for benefits provided by the Federal Philpott and John H. Kerr headwater improvements in the Roanoke River basin to downstream hydroelectric plants owned by the Virginia Electric and Power Company (VEPCO) and Dan River Inc. (Dan River) during the period January 1, 1963, through December 31, 1968. The proposed payments, based on a report by the Commission's Bureau of Power, dated December 1972, amount to: $846,667 for benefits plus $83,975 for a share of the costs of the investigations, assigned to VEPCO; and $6,403 for benefits plus $635 for a share of the costs of the investigations, assigned to Dan River.

Copies of the December 1972 Bureau of Power report were sent to all parties to the investigation on January 17, 1973, with requests for comments or suggestions. The Commission Staff reviewed the comments received and, by letter of July 24, 1973, advised the parties that it did not propose to change its proposed determination. In that letter, the Staff also offered each party the opportunity to comment further on the report or to request a conference among the parties, requesting that any responses be made by August 15, 1973. No responses to that letter have been received.

Any person desiring to be heard or to make protest with reference to the proposed headwater benefits payments to be made by VEPCO and Dan River, should on or before October 15, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceedings. Persons wishing to become parties to the proceeding or to participate as a party therein must file a petition to intervene in accordance with the Commission's rules of practice and procedure.

## JERSEY CENTRAL POWER & LIGHT CO.

### Notice of Proposed Issue and Sale of Short-Term Notes to Banks

SEPTEMBER 11, 1973.

Notice is hereby given that Jersey Central Power & Light Company (Jersey Central), Madison Avenue at Punch Bowl Road, Morristown, New Jersey 07960, an electric utility subsidiary company of General Public Utilities, a registered holding company, has filed a declaration and amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6(a) and 7 of the Act and Rule 50 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

Jersey Central requests that, for the period ending on December 31, 1974, it be permitted from time to time to issue or renew notes of a maturity of nine months or less evidencing short-term bank borrowings provided that the aggregate principal amount of such notes outstanding at any one time shall not be more than $96,000,000.

The new notes will bear interest at the prime interest rate for commercial borrowing of the bank from which the borrowing is made at the date of the issue of such note, will mature not more than nine months from date of issue, will be prepayable at any time without premium, and will not be issued as part of a public offering. Although no commitments or agreements for such borrowings have been made, if this declaration is granted by the Commission, Jersey Central expects that, as and to the extent that its cash needs require, borrowings will be effected from among the following banks, the maximum to be borrowed and outstanding at any one time from each such bank being as follows:

| | |
|---|---|
| Bankers Trust Company, New York, N.Y. | $3,000,000 |
| The Chase Manhattan Bank NA, New York, N.Y. | 15,000,000 |
| Chemical Bank, New York, N.Y. | 5,000,000 |
| Irving Trust Company, New York, N.Y. | 16,800,000 |
| Fidelity Union Trust Company, Newark, N.J. | 6,000,000 |
| First National State Bank of New Jersey, Newark, N.J. | 2,500,000 |
| National Newark & Essex Bank, Newark, N.J. | 5,000,000 |
| First Jersey National Bank, Jersey City, N.J. | 3,000,000 |
| American National Bank & Trust, Morristown, N.J. | 4,000,000 |
| Belmar-Wall National Bank, West Belmar, N.J. | 300,000 |
| The Central Jersey Bank and Trust Company, Freehold, N.J. | 1,500,000 |
| Colonial First National Bank, Red Bank, N.J. | 2,000,000 |
| First Merchants National Bank, Asbury Park, N.J. | 1,000,000 |
| First National Bank of New Jersey, Passaic, N.J. | 1,000,000 |
| First National Bank of South Jersey, Pleasantville, N.J. | 1,500,000 |
| First National State Bank of Northwest Jersey, Succasunna, N.J. | 500,000 |
| The First National Bank of Toms River, Toms River, N.J. | 1,200,000 |
| The First National Iron Bank of New Jersey, Morristown, N.J. | 3,000,000 |
| The Hunterdon County National Bank, Lambertville, N.J. | 700,000 |
| Mechanics National Bank of Burlington County, Burlington, N.J. | 400,000 |
| National Community Bank, Franklin, N.J. | 3,000,000 |
| The National State Bank, Elizabeth, N.J. | 2,000,000 |
| New Jersey Bank NA, Haledon, N.J. | 4,000,000 |
| Ocean County National Bank, Point Pleasant, N.J. | 400,000 |
| New Jersey National Bank, Asbury Park, N.J. | 4,000,000 |
| Peoples Trust Company of New Jersey, Hackensack, N.J. | 6,000,000 |
| Somerset Hills & County National Bank, Bernardsville, N.J. | 1,000,000 |
| Summit and Elizabeth Trust Company, Summit, N.J. | 1,200,000 |
| United Counties Trust Company, Summit, N.J. | 1,000,000 |
| | $96,000,000 |

It is stated that Jersey Central is required to maintain compensating balances with each of the banks equal to 10 percent of the lines of credit or 20 percent of the amounts actually borrowed, whichever is higher, except for the First National Bank of South Jersey, Pleasantville, N.J., which presently requires 10 percent of the amount of the line of credit as a compensating balance. Assuming a 9¼ percent prime rate and a 20 percent compensating balance, the effective rate of interest to be paid by Jersey Central is 11.56 percent (10.28 percent for borrowing from the First National Bank of New Jersey).

Jersey Central proposes to utilize the proceeds of the contemplated borrowings for the purpose of financing its business as a public utility company, including provisions for construction expenditures, the repayment of other short-term borrowings, and the temporary reimbursement of its treasury for construction expenditures provided thereon. The estimated cost of Jersey Central's 1973 construction program is approximately $205,000,000 (including allowance for funds used during construction).

The declaration states that Jersey Central's expenses incident to the proposed issuance of notes will be approximately $5,000, including legal fees of $4,200, and that no state commission or federal commission, other than this Commission, has jurisdiction over the proposed transaction.

## BENEFICIAL LABORATORIES, INC.

### Order Suspending Trading

SEPTEMBER 10, 1973.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, warrants, units and all other securities of Beneficial Laboratories, Inc., being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

*It is ordered*, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this

V 38 I 181 SEP 19 73 XUM

Notice is further given that any interested person may, not later than October 4, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as amended or as it may be further amended, may be granted as provided in rule 23 of the general rules and regulations promulgated under the Act or the Commission may grant exemption from such rules as provided in rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

## OHIO EDISON CO.

### Notice of Filing of Application Regarding Proposed Acquisition of Utility Assets

SEPTEMBER 12, 1973.

Notice is hereby given that Ohio Edison Company (Ohio Edison), 47 North Main Street, Akron, Ohio 44308, a registered holding company and a public-utility company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 9(a)(1) and 10 of the Act as applicable to the proposed transaction. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transaction.

Ohio Edison proposes to acquire from the City of Akron, Ohio (the City), an underground electric distribution system (the System) being installed for the City as part of its development of the so-called Grant-Washington Urban Renewal District, Project No. Ohio R-18. By a Lease Agreement dated September 5, 1968, between the City and Ohio Edison, Ohio Edison leased the System from the City and has been providing through such System, electric service to the residences, businesses and other establishments in the District at the same rates and on the same terms as those applicable to like service throughout other portions of the City served by Ohio Edison. Following arms length bargaining, the Council of the City, on June 20, 1972, adopted an ordinance authorizing the sale of the System to Ohio Edison for $768,851 and pursuant thereto Ohio Edison and the City have entered into an Agreement, dated March 12, 1973, providing for the purchase by Ohio Edison from the City of the System for said amount. The Agreement provides, in effect, that the closing of the purchase and sale shall take place as soon as practicable after receipt by Ohio Edison, in form satisfactory to its counsel, of the last of any necessary orders of any regulatory authorities. Although the original cost of the System is not presently known, Ohio Edison estimates that such cost would approximate the amount of the successful bid for construction of the System, which amount was $572,441.04, plus capitalizable administrative costs, if any, incurred by the City.

The Grant-Washington Urban Renewal District lies within the City of Akron, which is the largest city within the service area of Ohio Edison, and the System is directly connected with other facilities of Ohio Edison and is supplied with electric energy provided by Ohio Edison. The System is therefore fully integrated with the electric facilities of Ohio Edison. Upon completion of the acquisition, Ohio Edison will continue to operate the System to serve electric customers connected and to be connected thereto. As of June 30, 1973, there were 60 residential customers, 41 commercial customers and 3 industrial customers served by the System, and the gross revenues derived from such customers during the twelve-month period ended that date aggregated $201,867.51.

Ohio Edison is subject to the accounting jurisdiction of The Public Utilities Commission of Ohio and the Federal Power Commission, pursuant to which it is required to keep its accounts in accordance with the Uniform System of Accounts prescribed by the Federal Power Commission. Except to the extent of such accounting jurisdiction by said two regulatory agencies, no state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

The fees, commissions, and expenses paid or incurred or to be paid or incurred, directly or indirectly, in connection with the proposed transaction by Ohio Edison, are estimated at $7,500.

Notice is further given that any interested person may not later than October 9, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be permitted to become effective as provided in rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

## BROKER-DEALER MODEL COMPLIANCE PROGRAM ADVISORY COMMITTEE

### Notice of Public Meetings

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, Pub. L. 92-463, 86 Stat. 770, the Securities and Exchange Commission announces the following public advisory committee meetings.

The Commission's Advisory Committee on a Model Compliance Program for Broker-Dealers, established on October 25, 1972 (Securities Exchange Act Release No. 9835), will hold meetings October 3-4, 1973 at the Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. The meetings will commence at 9:00 a.m., local time.

This Advisory Committee was formed to assist the Commission in developing a model compliance program to serve as an industry guide for the broker-dealer community. Assisted by this Committee's work, the Commission plans to publish a guide to broker-dealer compliance under the securities acts in order to advise broker-dealers of the standards to which they should adhere if investor confidence in the fairness of the market place is to be warranted and sustained. The Committee's recommendations are not intended to result in the expansion of Commission rules governing broker-dealers, but to inform broker-dealers as to the existing requirements and how they may comply with them.

The Committee's scheduled meetings will be for the purpose of reviewing drafts and proposals concerning the Committee's proposed report to the Commission on these compliance guidelines for broker-dealers.

These meetings are open to the public. Any interested person may attend and appear before or file statements with the Advisory Committee—which statements, if in written form, may be filed before or after the meeting or, if oral, at the time and in the manner and extent permitted by the Advisory Committee.

## METROPOLITAN EDISON CO.

### Notice of Proposed Issue and Sale of Cumulative Preferred Stock

SEPTEMBER 12, 1973.

Notice is hereby given that Metropolitan Edison Company (Met-Ed), 2800 Pottsville Pike, Mulhenberg Township, Berks County, Pennsylvania 19605, an electric utility subsidiary company of General Public Utilities Corporation, a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating section 6(b) of the Act and Rule 50 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transaction.

Met-Ed proposes to issue and sell for cash, subject to the competitive bidding requirements of Rule 50 under the Act, 150,000 additional shares of its cumulative preferred stock (the New Preferred Stock). The New Preferred Stock will constitute a further series of Met-Ed's cumulative preferred stock of which there are outstanding 1,243,912 shares issued in nine series. The dividend rate and redemption prices of the New Preferred Stock will be determined by competitive bidding. In all other respects the New Preferred Stock will be similar to the outstanding series. The bidding procedures which Met-Ed will use with respect to the New Preferred Stock will require that (1) the price per share specified in the bids shall not be not less than $100 (the par value of the New Preferred Stock) or more than $102.75 and (2) the dividend rate for the New Preferred Stock, which shall be specified in such bids, shall be a multiple of 1/25th of 1 percent. Prior to October 1, 1978, none of the shares of the New Preferred Stock may be redeemed at the option of Met-Ed if the moneys for such redemption are obtained by Met-Ed directly or indirectly from or in anticipation of borrowings by or for the account of Met-Ed or the proceeds of any issue of any stock ranking prior to or on a parity with the New Preferred Stock at an interest or dividend cost less than the dividend cost of this issue, subject to certain exceptions.

The proceeds ($15,000,000, exclusive of premium and accrued dividends, if any) from the sale of the New Preferred Stock will be used for the payment of all or a portion of Met-Ed's short-term bank loans expected to be outstanding at the time of sale of the New Preferred Stock or for construction purposes or to reimburse Met-Ed's treasury for funds previously expended therefrom for construction purposes. The presently estimated cost of Met-Ed's 1973 construction program is approximately $145,000,000 (including allowance for funds used during construction).

The fees and expenses to be paid by Met-Ed in connection with the issue and sale of the New Preferred Stock are estimated to total $100,000, including legal fees of $26,500. The fees and expenses of counsel for the underwriters, to be paid by the successful bidders, will be supplied by amendment. It is stated that the Pennsylvania Public Utility Commission has jurisdiction over the proposed issuance and sale of the New Preferred Stock by Met-Ed and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than October 5, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

## PBW STOCK EXCHANGE, INC.

### Notice of Application for Unlisted Trading Privileges and of Opportunity for Hearing

SEPTEMBER 13, 1973.

The above named national securities exchange has filed an application with the Securities and Exchange Commission pursuant to Section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the American Depositary Receipt for American Units of the following company, which security is listed and registered on one or more other national securities exchange:

Plessey Company Limited (The) — File No. 7-4443

Upon receipt of a request, on or before September 29, 1973, from any interested person, the Commission will determine whether the application shall be set down for hearing. Any such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on the said application by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, not later than the date specified. If no one requests a hearing, this application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

## TELEPROMPTER CORP.

### Order Suspending Trading

SEPTEMBER 7, 1973.

The common stock, $1 par value, of TelePrompTer Corporation being traded on the New York Stock Exchange pursuant to provisions of the Securities Exchange Act of 1934 and all other securities of TelePrompTer Corporation, being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such exchanges and otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

*It is ordered*, Pursuant to section 19(a)(4) and 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities on the above mentioned exchange and otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from 6:50 p.m., e.d.t., on September 7, 1973, and continuing through September 16, 1973.

By the Commission.

# TARIFF COMMISSION

[337-33]

## CERTAIN DISPOSABLE CATHETERS AND CUFFS THEREFOR

### Notice of Postponement of Hearing

On September 7, 1973, the U.S. Tariff Commission postponed indefinitely the public hearing scheduled for October 9, 1973, in connection with investigation No. 337-33, Certain Disposable Catheters and Cuffs Therefor. Notice of institution of the investigation and the ordering of the hearing was published in the FEDERAL REGISTER on August 15, 1973 (38 FR 22083). Notice of the rescheduling of the hearing will be published when a new hearing date is set.

Issued on September 14, 1973.

By order of the Commission.

[SEAL] KENNETH R. MASON, *Secretary.*

[FR Doc.73-19886 Filed 9-18-73;8:45 am]

# DEPARTMENT OF LABOR

### Office of the Secretary

## BUFFALO, N.Y. PLANT OF GENERAL ELECTRIC CO.

### Certification of Eligibility of Workers To Apply for Adjustment Assistance

Under date of June 22, 1973, the U.S. Tariff Commission made a report of the results of its investigation (TEA-W-196) under section 301(c)(2) of the Trade Expansion Act of 1962 (76 Stat. 884) in response to a petition for determination of eligibility to apply for adjustment assistance on behalf of workers of the Buffalo, N.Y. plant of General Electric Co., New York, N.Y. In this report, the Commission, being equally divided, made no finding with respect to whether articles like or directly competitive with transistors and diodes produced by the Buffalo plant of General Electric Co. are, as a result in major part of concessions granted under trade agreements, being imported into the United States in such increased quantities as to cause, or threaten to cause unemployment or underemployment of a significant number or proportion of the workers of such firm, or an appropriate subdivision thereof. The President subsequently decided, under the authority of section 330(d)(1) of the Tariff Act of 1930, as amended, to consider the findings of those Commissioners who found in the affirmative as the finding of the Commission.

Upon receipt of the President's authorization, the Department, through the Director of the Office of Foreign Economic Policy, Bureau of International Labor Affairs on August 8, 1973 instituted an investigation.

Following this, the Director made a recommendation to me relating to the matter of certification (Notice of Delegation of Authority and Notice of Investigation, 34 FR 18342; 37 FR 2472; 38 FR 22083; 29 FR Part 90). In the recommendation she noted that imports like or directly competitive with transistors and diodes (semiconductors) produced by the Buffalo plant of General Electric Co. increased substantially. In 1970 the General Electric Co. began importing low-current silicon rectifiers and in 1971 began importing unijunction transistors—the semiconductor products that had constituted the major portion of production at the Buffalo plant. The concessions generated increased imports of semiconductors from foreign sources were the major factor in causing the decline in production and employment levels at the Buffalo plant during the period 1970-1972. Unemployment and underemployment of a significant number of workers began in September 1970, and the plant ceased operation in December 1972. After due consideration I make the following certification:

All hourly and salaried employees of the Buffalo, N.Y. plant of the General Electric Co., who became unemployed or underemployed after August 30, 1970, are eligible to apply for adjustment assistance under Title III, Chapter 3, of the Trade Expansion Act of 1962.

Signed at Washington, D.C. this 12th day of September 1973.

JOEL SEGALL, *Deputy Under Secretary for International Labor Affairs.*

## FOURTH SECTION APPLICATION FOR RELIEF

SEPTEMBER 14, 1973.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with § 1100.40 of the general rules of practice (49 CFR 1100.40) and filed an or before October 4, 1973.

FSA No. 42747—*Commodity Rates—Texas Export Railroad Company.* Filed by Southwestern Freight Bureau, Agent (No. B-438), for interested rail carriers. Rates on property moving on point-to-point commodity rates, between Texas Export Railroad Company stations, Bridgeport to Graham, Texas, on the one hand, and points in the United States and Canada, on the other.

Grounds for relief—New station.

By the Commission

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice 21]

## MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

SEPTEMBER 14, 1973.

The following letter-notices of proposals to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules-Motor Carriers of Passengers, 1969 (49 CFR 1042.2(c)(9)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.2(c)(9)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.2(c)(9)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules-Motor Carriers of property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

### MOTOR CARRIERS OF PASSENGERS

No. MC-1515 (Deviation No. 663) (Cancels Deviation No. 351), GREYHOUND LINES, INC. (Eastern Division), 1400 West Third St., Cleveland, Ohio 44113, filed September 5, 1973. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, and *express* and *newspapers* in the same vehicle with passengers, over deviation routes as follows: (1) From Chattanooga, Tenn., over Interstate Highway 75 to junction U.S. Highway 411, thence over U.S. Highway 411 to junction U.S. Highway 41, thence over U.S. Highway 41 to junction Georgia Highway 293, with the following access routes: (a) from Ringgold, Ga., over Georgia Highway 151 to junction Interstate Highway 75, (b) from Dalton, Ga., over U.S. Highway 41 to junction Interstate Highway 75, (c) from Dalton, Ga., over Georgia Highway 71 to junction Interstate Highway 75, (d) from Calhoun, Ga., over U.S. Highway 41 to junction Interstate Highway 75, (e) from Calhoun, Ga., over U.S. Highway 41 to junction Georgia Highway 156, thence over Georgia Highway 156 to junction Interstate Highway 75, (f) from Adairsville, Ga., over Georgia Highway 140 to junction Interstate Highway 75, and (g) from Cartersville, Ga., over U.S. Highway 411 to junction Interstate Highway 75, and (2) from Atlanta, Ga., over Interstate Highway 75 to junction Georgia Highway 5, thence over Georgia Highway 5 to junction U.S. Highway 41, with the following access routes: (a) from Marietta, Ga., over Georgia Highway 5 to junction Interstate Highway 75, and (b) from Marietta, Ga., over Georgia Highway 120 to junction Interstate Highway 75, and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property over a pertinent service route as follows: From Chattanooga, Tenn., over U.S. Highway 41 to junction Georgia Highway 293, thence over Georgia Highway 293 via Cartersville, Ga., to junction U.S. Highway 41, thence over U.S. Highway 41 to junction U.S. Highway 3 north of Marietta, Ga., thence over U.S. Highway 3 to Marietta, Ga., thence over Georgia Highway 120 to junction U.S. Highway 41, thence over U.S. Highway 41 to Atlanta, Ga., and return over the same route.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc.73-19934 Filed 9-18-73;8:45 am]

## NOTICE OF FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

SEPTEMBER 14, 1973.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by § 1.245 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State Commission with which the application is filed and shall *not* be addressed to or filed with the Interstate Commerce Commission.

California Docket No. 53996, filed April 26, 1973. Applicant: WEBSTER DELIVERY SERVICE, INC., 886 North Mission Road, Los Angeles, Calif. Applicant's representative: Levin & Oberman, Incorporated, 3550 Wilshire Boulevard, Suite 1420, Los Angeles, Calif. 90010. Certificate of public convenience and necessity sought to operate a freight service as follows: APPENDIX A—Transportation of *general commodities:* (1) Abrasives, as listed under that heading in Items Nos. 5 through 45 of Western Classification No. 75, Cal. P.U.C. No. 8, George H Dumas, Agent, on the issue date thereof; (2) Adverstising matter, as listed under that heading in Items Nos. 225 through 330 of Western Classification No. 75, Cal. P.U.C. No. 8, George H. Dumas, Agent, on the issue date thereof and Supplements Nos. 41 and 46 thereto; (3) Cloth, dry goods or fabrics, as listed under that hearing in Items Nos. 12550 through 12885 of Western Classification No. 75, Cal. P.U.C. No. 8, George H. Dumas, Agent, on the issue date thereof and Supplements Nos. 41, 46, 48 and 50 thereto; (4) Drugs, medicines or toilet preparations, viz: perfumery; (5) Electrical appliances or equipment, or parts named, as listed under that heading in Items Nos. 15605 through 16250 of Western Classification, No. 75, Cal. P.U.C. No. 8, George H. Dumas, Agent, on the issue date thereof and Supplements Nos. 41, 46, 48, and 50 thereto; (6) Floor coverings, as listed under that heading in Items Nos. 17865 through 17965 of Western Classification No. 75, Cal. P.U.C. No. 8, George H. Dumas, Agent, on the issue date thereof and Supplements Nos. 46, 48, and 50

V 38 I 181 SEP 19 73 XUM

thereto; (7) Furniture, as listed under that heading in Items Nos. 19495 through 20494 of Western Classification No. 75, Cal. P.U.C. No. 8, George H. Dumas, Agent, on the issue date thereof, and Supplements Nos. 41, 46, 48, and 50 thereto; (8) Games or toys, as listed under that heading in Items Nos. 20670 through 20870 of Western Classification No. 75, Cal. P.U.C. No. 8, George H. Dumas, Agent, on the issue date thereof, and Supplements Nos. 41, 46, 48, and 50 thereto; (9) Glassware, as listed under that heading in Items Nos. 21265 through 21585 of Western Classification No. 75, Cal. P.U.C. No. 8, George H. Dumas, Agent, on the issue date thereof and Supplements Nos. 41, 46, 48, and 50 thereto; (10) Hardware, as listed under that heading in Items Nos. 22455 through 23660 of Western Classification No. 75, Cal. P.U.C. No. 8, George H. Dumas, Agent, on the issue date thereof and Supplements Nos. 41, 46, 48, and 50 thereto; (11) Machinery or machines, or parts named, as listed under that heading in Items Nos. 27145 through 391920 of Western Classification No. 75, Cal. P.U.C. No. 8, George H. Dumas, Agent, on the issue date thereof and Supplements Nos. 41, 46, 48, and 50 thereto; (12) Pads or padding, as listed under that heading in Items Nos. 35125 through 35155 of Western Classification No. 75, Cal. P.U.C. No. 8, George H. Dumas, Agent, on the issue date thereof, and Supplements Nos. 46 and 48 thereto; (13) Sheet steel ware, as listed under that heading in Items Nos. 40245 through 40490 of Western Classification No. 75, Cal. P.U.C. No. 8, George H. Dumas, Agent, on the issue date thereof and Supplements Nos. 41, 46, 48, and 50 thereto; (14) Stationery, as listed under that heading in Items Nos. 41203 through 41290 of Western Classification No. 75, Cal P.U.C. No. 8, George H. Dumas, Agent, on the issue date thereof and Supplements Nos. 46 and 50 thereto; (15) Trunks or traveling bags, as listed under that heading in Items Nos. 43240 through 43280 of Western Classification No. 75, Cal. P.U.C. No. 8, George H. Dumas, Agent, on the issue date thereof and Supplements Nos. 41 and 46 thereto; and (16) Miscellaneous commoditles, viz: boots or shoes, buckles, clothing, clocks, clothing, hosiery, notions, pillows, rubber, foam, silver plated ware, not on silver, synthetic resin articles, towels, or toweling, paper, watches.

APPENDIX B—LOS ANGELES BASIN TERRITORY includes that area embraced by the following boundary: Beginning at the point Ventura County-Los Angeles County boundary line intersects the Pacific Ocean; thence northeasterly along said county line to the point it intersects State Highway No. 118 approximately two miles west of Chatsworth; easterly along State Highway No. 118 to Sepulveda Boulevard; northerly along Sepulveda Boulevard to Chatsworth Drive; northeasterly along Chatsworth Drive to the corporate boundary of the City of San Fernando; westerly and northerly along said corporate boundary to McClay Avenue; northeasterly along McClay Avenue and its prolongation to the Angeles National Forest Boundary; southeasterly and easterly along the Angeles National Forest and San Bernardino National Forest boundary to the county road known as Mill Creek Road; westerly along Mill Creek Road to the county road 3.8 miles north of Yucapia; southerly along said county road to and including the unincorporated community of Yucapia; westerly along Redlands Boulevard to U.S. Highway No. 99; northwesterly along U.S. Highway No. 99 to the corporate boundary of the City of Redlands; westerly and northerly along said corporate boundary to Brookside Avenue; westerly along Brookside Avenue to Barton Avenue; westerly along Barton Avenue and its prolongation to Palm Avenue; westerly along Palm Avenue to La Cadena Drive; southwesterly along La Cadena Drive to Iowa Avenue; southerly along Iowa Avenue to U.S. Highway No. 60; southwesterly along U.S. Highways Nos. 60 and 395 to the county road approximately one mile north of Perris; easterly along said county road via Nuevo and Lakeview to the corporate boundary of the City of San Jacinto; easterly, southerly and westerly along said corporate boundary to San Jacinto Avenue; southerly along San Jacinto Avenue to State Highway No. 74; westerly along State Highway No. 74 to the corporate boundary of the City of Hemet; southerly, westerly and northerly along said corporate boundary to the right of way of the Atchison, Topeka & Santa Fe Railway Company; southwesterly along said right of way to Washington Avenue; southerly along Washington Avenue, through and including the unincorporated community of Winchester to Benton Road; westerly along Benton Road to the County road intersecting U.S. Highway No. 395, 2.1 miles north of the unincorporated community of Temecula; southerly along said County road to U.S. Highway No. 395; southeasterly along U.S. Highway No. 395 to the Riverside County-San Diego County boundary line, westerly along said boundary line to the Orange County-San Diego County boundary line; southerly along said Boundary line to the Pacific Ocean; northwesterly along the shore line of the Pacific Ocean to point of beginning; and to extend in a generally northeasterly direction along California Highway No. 14 via the cities of Newhall and Palmdale to the City of Lancaster, California and return; and to extend from the intersection of highways California No. 14 and California No. 126, westerly to the City of Saugus.

HEARING: Date, time, and place not shown. Request for procedural information should be addressed to the California Public Utilities Commission, State Building, Civic Center, 455 Golden Gate Avenue, San Francisco, Calif. 94102, and should *not* be directed to the Interstate Commerce Commission.

California Docket No. 54277, filed August 27, 1973. Applicant: CITY DRAYAGE CO., INC., P.O. Box 156, San Leandro, Calif. 94577. Applicant's representative: William D. Taylor, Handler, Baker & Greene, 100 Pine Street, Suite 2550, San Francisco, Calif. 94111. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *general commodities*, except the following: (a) Used household goods and personal effects not packed in accordance with the crated property requirements; (b) Livestock; (c) Liquids, compressed gases, commodities in semiplastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semi-trailers or a combination of such highway vehicles; (d) Commodities when transported in bulk in dump trucks or in hopper-type trucks; (e) Commodities when transported in motor vehicles equipped for mechanical mixing in transit; (f) Logs; (g) Fresh fruits and vegetables; (h) Articles of extra ordinary value; and (i) Automobiles, trucks, buses, and trailer coaches and campers. Between all points on or within 25 miles of points on the following routes: (1) U.S. Highway 101, between Santa Rosa and Salinas, inclusive; (2) State Highway 17, between San Rafael and Santa Cruz, inclusive; (3) State Highway 1, between Santa Cruz and Monterey, inclusive; (4) Interstate Highway 80, between San Francisco and Sacramento, inclusive; (5) State Highway 4, between junction with Interstate Highway 80, near Pinole, and Stockton, inclusive; (6) Interstate Highway 580, and U.S. Highway 50, between Oakland and Stockton, inclusive; (7) Interstate Highways 580 and 5, between junction with Interstate Highway 50, near Tracy, and State Highway 152, near Los Banos; (8) State Highway 99, between Sacramento and Tulare, inclusive; and (9) State Highway 152, between junction with Interstate Highway 5, near Los Banos, and State Highway 99, near Chowchilla. In performing the service herein authorized, applicant may make use of any and all streets, roads, highways and bridges necessary or convenient for the performance of said service.

HEARING: DATE, time, and place not shown. Requests for procedural information should be addressed to the California Public Utilities Commission, State Building, Civic Center, 455 Golden Gate Avenue, San Francisco, Calif. 94102, and should not be directed to the Interstate Commerce Commission.

California Docket No. 54300, filed September 4, 1973. Applicant: HARRY LOUX, doing business as LOUX & SON DRAYAGE, 3138 Sheffield Avenue, Oakland, Calif. 94602. Applicant's representative: Daniel W. Baker, Handler, Baker & Greene, 100 Pine Street, Suite 2550, San Francisco, Calif. 94111. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *general commodities*, except the following: (a) Used household goods and personal effects not packed in accordance with the crated property requirements; (b) Livestock; (c) Liquids, compressed gases, commodities in semi-plastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semi-trailers or a combination of such highway vehicles; (d) Commodities when transported in bulk in dump trucks or in hopper-type trucks; (e) Commodities when transported in motor vehicles equipped for mechanical mixing in transit; (f) Logs; (g) Fresh fruits and vegetables; (h) Articles of extraordinary value; and (i) Automobiles, trucks and buses. Between all points and places in the San Francisco Territory, as described hereafter, and all points within ten miles of any point therein; Between all points on or within ten miles of the following routes: (a) Interstate Highway 580, between Hayward and Livermore, inclusive; (b) Interstate Highway 680, between Mission San Jose and Vallejo, inclusive; (c) State Highway 24, between Oakland and Walnut Creek, inclusive; (d) Interstate Highway 80, between Richmond and Vallejo, inclusive; (e) State Highway, 4, between Pinole and Antioch, inclusive. In performing the service herein authorized, applicant may make use of any and all streets, roads, highways and bridges necessary or convenient for the performance of said service.

NOTE.—SAN FRANCISCO TERRITORY includes all the City of San Jose and that area embraced by the following boundary: Beginning at the point the San Francisco-San Mateo County Boundary Line meets the Pacific Ocean; thence easterly along said boundary line to a point 1 mile west of U.S. Highway 101; southerly along an imaginary line 1 mile west of and paralleling U.S. Highway 101 to its intersection with Southern Pacific Company right of way at Arastradero Road; southeasterly along the Southern Pacific Company right of way to Pollard Road, including industries served by the Southern Pacific Company spur line extending approximately 2 miles southwest from Simla to Permanente; easterly along Pollard Road to W. Parr Avenue; easterly along W. Parr Avenue to Capri Drive; southerly along Capri Drive to E. Parr Avenue; easterly along E. Parr Avenue to the Southern Pacific Company right of way; southerly along the Southern Pacific Company right of way to the Campbell-Los Gatos city limits; easterly along said limits and the prolongation thereof to the San Jose-Los Gatos Road; northeasterly along San Jose-Los Gatos Road to Foxworthy Avenue; easterly along Foxworthy Avenue to Almaden Road; southerly along Almaden Road to Hillsdale Avenue; easterly along Hillsdale Avenue to U.S. Highway 101; northwesterly along U.S. Highway 101 to Tully Road; northeasterly along Tully Road to Wite Road; northwesterly along White Road to McKee Road; southwesterly along McKee Road to Capitol Avenue; northwesterly along Capitol Avenue to State Highway 17 (Oakland Road); northerly along State Highway 17 to Warm Springs; northerly along the unnumbered highway via Mission San Jose and Niles to Hayward; northerly along Foothill Boulevard to Seminary Avenue; easterly along Seminary Avenue to Mountain Boulevard; northerly along Mountain Boulevard and Moraga Avenue to Estates Drive; westerly along Estates Drive, Harbord Drive and Broadway Terrace to College Avenue; northerly along College Avenue to Dwight Way; easterly along Dwight Way to the Berkeley-Oakland boundary line; northerly along said boundary line to the campus boundary of the University of California; northerly and westerly along the campus boundary of the University of California to Euclid Avenue; northerly along Euclid Avenue to Marin Avenue; westerly along Marin Avenue to Arlington Avenue; northerly along Arlington Avenue to U.S. Highway 40 (San Pablo Avenue); northerly along U.S. Highway 40 to and including the City of Richmond; southwesterly along the highway extending from the City of Richmond to Point Richmond; southerly along an imaginary line from Point Richmond to the San Francisco Waterfront at the foot of Market Street; westerly along said waterfront and shore line to the Pacific Ocean; southerly along the shore line of the Pacific Ocean to the point of beginning.

HEARING: Date, time, and place not shown. Requests for procedural information should be addressed to the California Public Utilities Commission, State Building, Civic Center, 455 Golden Gate Avenue, San Francisco, Calif. 94102, and should *not* be directed to the Interstate Commerce Commission.

Texas Docket No. 4398, filed July 26, 1973. Applicant: BURK MOTOR FREIGHT, INC., 512 Magnolia Street, Burkburnett, Tex. 76354. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *general commodities*, from Wichita Falls to Burkburnett, Texas, over U.S. Highway 277–281, and return over the same route, serving all intermediate points.

HEARING: Date, time, and place not shown. Requests for procedural information should be addressed to the Texas Railroad Commission, P.O. Drawer 12976, Austin, Tex. 78711, and should *not* be directed to the Interstate Commerce Commission.

Utah Docket No. 4599-Sub 2, filed March 26, 1973. Applicant: BILL'S MOVING, INC., doing business as PIONEER MOVING AND STORAGE, 471 West 5th South Street, Salt Lake City, Utah 84101. Applicant's representative: Irene Warr, 430 Judge Building, Salt Lake City, Utah 84111. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of new furniture, new office fixtures, new commercial and institutional fixtures, new household fixtures and appliances, and new household and office furnishings, pianos and piano benches, over irregular routes between all points in the State of Utah. Further, Applicant seeks to remove from its present Certificate of Convenience and Necessity No. 1276 the last phrase, which reads as follows: "• • • and an operation in the transportation of items of household goods and baggage not requiring the use of numerous trucks or of vans and not operated in connection with, or as a part of, any interstate carrier service."

HEARING: October 23, 1973, at the Commission Hearing Room, 330 East 4th South Street, Salt Lake City, Utah, at 10:00 A.M.. Requests for procedural information should be addressed to the Utah Public Service Commission, 330 East 4th South Street, Salt Lake City, Utah 84111, and should *not* be directed to the Interstate Commerce Commission.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

## MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

The following publications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application) are governed by the new Special Rule 1100.247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964

The publications hereinafter set forth reflect the scope of the applications *as filed* by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable by the Commission.

MOTOR CARRIER OF PROPERTY

No. MC 2229 (Sub-Nos. 67, 106, 111, 116, 118, 122, 126, 130, and 149) (NOTICE OF FILING OF PETITION TO RENEW OR EXTEND AUTHORITY TO TRANSPORT EXPLOSIVES), filed July 9, 1973. Petitioner: RED BALL MOTOR FREIGHT, INC., 3177 Irving Boulevard, P.O. Box 47407, Dallas, Tex. 75247. Petitioner's representative: Gary L. Johnson (same address as petitioner). Petitioner presently holds *motor carrier* certificates in No. MC 2229 (Sub-Nos. 67, 106, 111, 116, 118, 122, 126, 130, and 149) issued March 23, 1956, January 11, 1962, November 23, 1962, October 5, 1964, April 14, 1969, February 11, 1966, July 30, 1965, April 14, 1966, and August 26, 1969, respectively, authorizing transportation, over regular routes, of: (1) in Sub-No. 67, general commodities, including Classes A, B, and C explosives, (a) Between Lone Star, Tex., and Hugh Springs, Tex.; and (B) Between Daingerfield, Tex., and Naples, Tex.; (2) in Sub-No. 106, general commodities, including Classes A and B explosives, (A) Between Naples, Tex., and the plantsite of the Shell Oil Company Gas Plant located approximately four miles east of Bryans Mills, Tex.; (B) Between Mard, Tex., and the plantsite of the Shell Oil Company Gas Plant located approximately four miles east of Bryans Mills, Tex.; (c) Between Junction Farm to Market Road 2065 and Texas Highway 77 and the plantsite of

V 38 181
SEP 19 73
XUM

the Shell Oil Company Gas Plant located approximately four miles east of Bryans Mills, Tex.; and (D) Between Junction Farm to Market Road 1766 and Texas Highway 77, approximately five miles east of Naples, Tex., and the plantsite of the Shell Oil Company Gas Plant located approximately four miles east of Bryans Mills, Tex.; (3) in Sub-No. 111, general commodities, including Classes A and B explosives, Between Winnsboro, Tex., and Quitman, Tex.; (4) in Sub-No. 116, general commodities, including Classes A and B explosives, (A) Between Jasper, Tex., and the site of McGee Bend Reservoir located approximately 15 miles northwest of Jasper; and (b) Between Junction Texas Highways 63 and 255, located approximately 12 miles northwest of Jasper, Tex., and the site of McGee Bend Reservoir, located approximately 15 miles northwest of Jasper, Tex.; (5) in Sub-No. 118, general commodities, including Classes A and B explosives, (A) Between Bernice, La., and Monroe, La.; (B) Between Junction Louisiana Highways 2 and 143 (west of Sterlington, La.) and Sterlington, La.; (C) Between Sterlington, La., and Monroe, La.; (D) Between El Dorado, Ark., and Marion, La.; (E) Between Marion, La., and junction Louisiana Highways 143 and 2; and (F) Between Monroe, La., and West Monroe, La.; (6) in Sub-No. 122, general commodities, including Classes A and B explosives, (A) Between Anacoco, La., and Hemphill, Tex.; and (B) Between Burkeville, Tex., and Anacoco, La.; (7) in Sub-No. 126, general commodities, including Classes A and B explosives, Between Haynesville, La., and Sarepta, La.; (8) in Sub-No. 130, general commodities, including Classes A and B explosives, (A) Between Ruston, La., and Dubach, La.; and (B) Between Crossett, Ark., and Strong, Ark.; and (9) in Sub-No. 149, Classes A and B explosives, (A) Between Shreveport, La., and the Louisiana Army Ammunition Plant at or near Douline, La.; and (B) Between Shreveport, La., and Leesville, La. By the instant petition, petitioner seeks to (1) renew its explosives authority contained in Sub-Nos. 67, 106, 111, 116, 122, 126, and 130 for a period of 5 years; and (2) extend the time period for its explosives authority contained in Sub-Nos. 118 and 149 for an additional 5 years. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition on or before October 19, 1973.

No. MC 29800 (NOTICE OF FILING OF PETITION FOR MODIFICATION OF CERTIFICATE), filed August 31, 1973. Petitioner: JOHN M. ANDERSON CO., a Corporation, 31 Badlong Road, Cranston 9, R.I. 02910. Petitioner's representative: Paul F. Sullivan, 711 Washington Building, Washington, D.C. 20005. Petitioner presently holds a motor *common carrier* certificate in No. MC-29800, issued December 1, 1937, authorizing transportation, by motor vehicle, over irregular routes, of *heavy industrial and commercial machinery and equipment*, between points in Rhode Island, on the one hand, and on the other, Newark, N.J., and points in New Jersey within 15 miles thereof, points in Massachusetts and Connecticut, and those in the New York, N.Y., Commercial Zone, as defined by the Commssion in 1 M.C.C. 665. By the instant petition, petitioner seeks to modify its commodity description to read: "*Commodities*, the transportation of which because of size or weight, requires the use of special equipment or special handling and *self-propelled articles*, each weighing 15,000 pounds or more, and *related machinery, tools, parts and supplies* moving in connection therewith (restricted to commodities which are transported on trailers)". Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition on or before October 19, 1973.

No. MC-124567 (Sub-No. 4) (NOTICE OF FILING OF PETITION FOR REOPENING OF A "GRANDFATHER PROCEEDING" AND FOR CORRECTION OF THE REISSUED CERTIFICATE), filed August 23, 1973. Petitioners: PETRUZELLO TRANSPORT, INC., Woodbridge, Conn. Petitioner's representative: Thomas W. Murrett, 342 North Main Street, West Hartford, Conn. 06117. Petitioner holds a certificate in No. MC-124567 (Sub-No. 4) which, in part, authorizes it to perform service, in interstate or foreign commerce, transporting: *General commodities*, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, over described regular routes between New Haven and Bridgeport, Conn., serving the intermediate and off-route points of Berlin, Wallingford, Meriden, Stratford, Shelton, Derby, Seymour, Beacon Falls, Naugatuck, Waterbury, West Hartford, Trumbell, Ansonia, Bristol, New Britain, Milford, Devon, Woodmont, Orange, West Haven, East Haven, Branford, Hamden, and East Hartford, Conn. This authority was originally issued on March 29, 1941, in a "grandfather proceeding" in No. MC-8990; and it was subsequently reissued to petitioner on April 5, 1972. By the instant petition, petitioner requests that the original proceeding be reopened to correct its authority by deleting the service point of "West Hartford" and substituting in place thereof the point of "Hartford." Petitioner contends that it and its predecessors in interest have been serving Hartford since before the enactment of the Motor Carrier Act and that it was only through inadvertent error that this point was omitted from the original certificate. Petitioner also asserts that it is authorized to serve Hartford as a point within the commercial zone of New Britain, Conn., under the population-mileage formula established in *Commercial Zones and Terminal Areas*, 46 M.C.C. 665, 699 (1946), as set forth at (49 CFR 1048.101.). Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition on or before October 19, 1973.

APPLICATION(S) FOR CERTIFICATES OR PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATIONS UNDER SECTION 5 GOVERNED BY SPECIAL RULE 240 TO THE EXTENT APPLICABLE

No. MC 52110 (Sub-No. 137) filed July 3, 1973. Applicant: BRADY MOTORFRATE, INC., % Smith's Transfer Corporation, P.O. Box 1000, Staunton, Va. 24401. Applicant's representative: David G. Macdonald, 100 16th Street NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, livestock, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment), (A) REGULAR ROUTES: (1) Between Hobart, Ind., and Chicago, Ill., serving all intermediate points, and off-route points within 25 miles of Chicago: From Hobart over Indiana Highway 130 to junction U.S. Highway 6, thence over U.S. Highway 6 to junction Indiana Highway 53, thence over Indiana Highway 53 to Gary, Ind., thence over city streets via Whiting, Ind., to Chicago, and return over the same route; (2) Between Chicago, Ill., and junction U.S. Highway 41 and U.S. Highway 30 serving no intermediate points, and serving the junction for joinder only: From Chicago over U.S. Highway 41 to junction U.S. Highway 52, and thence over U.S. Highway 52 to Indianapolis and return over the same route; (3) Between Elkhart, Ind., and South Bend, Ind., serving all intermediate points: From Elkhart over U.S. Highway 20, South Bend, and return over the same route; (4) Between South Bend, Ind., and Chicago, Ill., serving all intermediate points and off-route points in the Chicago, Ill., Commercial Zone, as defined by the Commission: From South Bend over U.S. Highway 20 to junction U.S. Highway 35, thence over U.S. Highway 35 to Michigan City, Ind., and thence over U.S. Highway 12 to Chicago, and return over the same route; (5) Between junction U.S. Highways 6 and 33 near Ligonier, Ind., and the Indiana-Ohio State line, serving all intermediate points: From junction U.S. Highway 33 and U.S. Highway 6 over U.S. Highway 6 to the Indiana-Ohio State line, and return over the same route; and (6) Between Elkhart, Ind., and Angola, Ind., serving no intermediate points and serving Angola, for joinder only: From Elkhart over U.S. Highway 20 to Angola, Ind., and return over the same route.

(B) ALTERNATE ROUTES FOR OPERATING CONVENIENCE ONLY: *General commodities*, (except those of unusual value, livestock, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk,

and those requiring special equipment, in connection with carriers' regular-route operations authorized herein between points in the Chicago, Ill., Commercial Zone, as defined by the Commission, and Fort Wayne, Ind., (1) Between points in the Chicago, Ill., Commercial Zone, as defined by the Commission and Fort Wayne, Ind., serving no intermediate points: From points in the Chicago commercial zone over U.S. Highway 41 to junction U.S. Highway 6 (also from points in the Chicago commercial zone over U.S. Highway 6 to junction U.S. Highway 41), thence over U.S. Highway 6 to junction Indiana Highway 130 north of Hobart, Ind., thence over Indiana Highway 130 to Valparaiso, Ind., (also over U.S. Highway 41 from junction U.S. Highway 6 to junction U.S. Highway 30, thence over U.S. Highway 30 to Valparaiso), and thence over U.S. Highway 30 to Fort Wayne, Ind., and return over the same routes; and (2) Between junction U.S. Highway 6 and Indiana Highway 130 north of Hobart, Ind., and junction U.S. Highways 6 and 33 south of Ligonier, Ind., serving no intermediate points and serving the junction of U.S. Highway 6 and Indiana Highway 130 for purpose of joinder only: From junction U.S. Highway 6 and Indiana Highway 130 over U.S. Highway 6 to junction U.S. Highway 33, and return over the same route.

NOTE.—Carrier presently holds authority co-extensive with each of the routes requested. The present authorities appear in MC-52110 (Route 10), and in MC 52110, Sub 84 (all others). This is a matter directly related to a Section 5 proceeding in No. MC-F-11876 published in the FEDERAL REGISTER issue of May 31, 1973. The purpose of the application is to insure carrier's authority to retain those highway segments as continued parts of its retained routes rather than have them canceled upon consummation of the described sale. If a hearing is deemed necessary, applicant does not specify a location.

No. MC 123389 (Sub-No. 16) (CORRECTION), filed June 28, 1973, and published in the FEDERAL REGISTER issue of August 15, 1973, and republished, as corrected this issue. Applicant: CROUSE CARTAGE COMPANY, a Corporation, P.O. Box 151, Carroll, Iowa 51401. Applicant's representative: William S. Rosen, 630 Osborn Building, St. Paul, Minn. 55102. Authority sought to operate as a *common carrier*, by motor vehicle, over regular and irregular routes, transporting: *General commodities* (except commodities in bulk, household goods as defined by the Commission, Classes A and B explosives, and commodities of unusual value): REGULAR ROUTES: (A) (1) Between Kansas City, Mo., and Grant City, Mo., serving the intermediate and off-route points of North Kansas City, Avenue City, Rochester, Union Star, King City, Stanberry, Carmack Corners, Gentry, Worth, Allendale, Sheridan, Ford City, Albany, and Denver; (a) From Kansas City over U.S. Highway 169 to Grant City, and return over the same route; (b) From Kansas City over U.S. Highway 169 to junction Missouri State Highway 31; thence over Missouri State Highway 31 to junction U.S. Highway 169; thence over U.S. Highway 169 to Grant City, and return over the same route; (2) Between St. Joseph, Mo., and Grant City, Mo., serving the intermediate and off-route points of Avenue City, Rochester, Union Star, King City, Carmack Corners, Gentry, Worth, Allendale, Sheridan, Ford City, Albany, and Denver; From St. Joseph Mo., over U.S. Highway 169 to Grant City, and return over the same route. IRREGULAR ROUTES: (B) (1) between King City, Mo., and points in Missouri; (2) between Albany, Mo., and points in that part of Missouri on and north of U.S. Highway 50 and on and west of U.S. Highway 65; and (3) between Carmack Corners, Gentry, Worth, Denver, Grant City, and Allendale, Mo., and points in Missouri.

NOTE.—Applicant states that it will tack this requested authority with the authority held in Certificate No. MC 69036, Sub-No. 8, at common points in northwestern Missouri, if the purchase proceeding in MC-F-11869 is granted. The instant application is a matter directly related to the Section 5 purchase proceeding in MC-F-11923, published in the FEDERAL REGISTER issue of July 11, 1973. The purpose of this republication is to: (1) correct the territorial description under (A)(1) of the application; and (2) correctly reference the MC-F proceeding that this application is directly related to, which was inadvertently omitted in the previous publication. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr., or Kansas City, Mo.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 CFR 1.240).

MOTOR CARRIERS OF PROPERTY

MC-F-11981. Authority sought for control by DIRECT WINTERS TRANSPORT, LIMITED, 890 Caledonia Road, Toronto 19, Ontario, Canada, of LEAMINGTON TRANSPORT (WESTERN), LIMITED, 971 Dugald Road, Winnipeg, Manitoba, Canada, and for acquisition by INTERSTATE MOTOR FREIGHT SYSTEM OF CANADA, LIMITED, 890 Caledonia Road, Toronto 19, Ontario, INTERSTATE MOTOR FREIGHT SYSTEM, 134 Grandville SW. Grand Rapids, Michigan 49502, and FUQUA INDUSTRIES, INC., 3800 First National Bank Bldg., Atlanta, Ga. 30303, of control of LEAMINGTON TRANSPORT (WESTERN), LIMITED, through the acquisition by DIRECT WINTERS TRANSPORT, LIMITED. Applicants' attorneys: EDWARD K. WHEELER, RICHARD H. STRODEL, and CHANDLER L. van ORMAN, 704 Southern Building, 15th and H Streets NW., Washington, D.C. 20005. Operating rights sought to be controlled: *Meats*, fresh, frozen, salted, cooked, cured, and preserved, as a *common carrier* over irregular routes, from the port of entry on the United States-Canada Boundary line at or near Noyes, Minn., to the port of entry on the United States-Canada Boundary line at or near Detroit, Mich., serving neither Noyes, Minn., nor Detroit, Mich., nor any intermediate point, *Meats* from the ports of entry on the United States-Canada Boundary line located at or near Noyes, Minn., and Pembina, N. Dak., to points in Minnesota and Wisconsin and points in those parts of North Dakota, South Dakota, Iowa, Missouri, and Illinois lying on, east, and north of a line extending southward from Pembina over interstate Highway 29 to points in North Dakota, South Dakota, Iowa, Missouri, and Illinois, *Meat* and *dairy products*, from points in the above named destination States, to the ports of entry on the United States-Canada Boundary line at Detroit and Port Huron, Mich., Noyes, Minn., and Pembina, N. Dak., *Meats, meat products*, and *meat by-products*, and etc., from the plant site and storage facilities of Wilson & Co., Inc., at Logansport, Ind., and the storage facilities of Wilson & Co., Inc., Lafayette, Ind., to ports of entry in the United States-Canada boundary line located near Noyes, Minn., Pembina, N. Dak., and Detroit and Port Huron, Mich. DIRECT WINTERS TRANSPORT LIMITED is authorized to operate as a *common carrier* in New York and Michigan. Application has been filed for temporary authority under section 210a(b).

MC-F-11982. Authority sought for control by ROY M. McNAIR, 408 Burr-Duval, San Antonia, Tex., 78209 of SHAMROCK VAN LINES, INC., 39 NE. 29th Street, Oklahoma City, Okla. Applicants' attorney: HERBERT BURSTEIN, One World Trade Center, New York, N.Y. 10048. Operating rights sought to be controlled; *Houserold goods*, as a *common carrier* over irregular routes, between certain specified points in Texas, on the one hand, and, on the other, points in Arkansas, Colorado, Kansas, Louisiana, Missouri, New Mexico, and Oklahoma, between Wichita, Falls, Tex., on the one hand, and, on the other, points in Oklahoma, between points in Oklahoma and certain specified points in Texas, between points in those parts of North Carolina, South Carolina, and Virginia within 450 miles of Charlotte, N.C., *Household goods* and emigrant movables, between certain specified points in Texas, on the one hand, and, on the other, points in Arkansas, Louisiana, New Mexico, Oklahoma, and Texas, between points in Saline County, Ark., on the one hand, and, on the other, points in Louisiana, Mississippi, Oklahoma, Tennessee, and Texas, between points in Montana, Idaho, Oregon, Washington, California, and Nevada, between points in Montana on and west of U.S. Highway 89, on the one hand, and, on the other, points in Wyoming, Colorado, Utah, Arizona, and North Dakota, between points in Oklahoma, on the one

V 38 181 SEP 19 1973 XUM

hand, and, on the other, points in Arkansas, *Used household goods* and *used office fixtures*, between points in Arkansas, on the one hand, and, on the other, points in Alabama, Georgia, Illinois, Indiana, Kansas, Kentucky, Louisiana, Michigan, Mississippi, Missouri, Nebraska, Ohio, Oklahoma, Tennessee, Texas, North Carolina, and South Carolina, *Household goods*, between points in Texas, on the one hand, and, on the other, points in Arkansas, between points in Cuyahoga County, Ohio, on the one hand, and, on the other, points in Ohio, Pennsylvania, and New York, between points in Cuyahoga County, Ohio, on the one hand, and, on the other, points in Connecticut, Delaware, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, Missouri, New Jersey, New York, Pennsylvania, Rhode Island, Tennessee, Virginia, West Virginia, Wisconsin, and the District of Columbia, between points in Arkansas, Louisiana, Oklahoma, and Texas. *Household goods* as defined by the Commission, as a *broker*, between points in Montana, on the one hand, and, on the other, points in the United States, except Alaska and Hawaii. ROY M. McNAIR holds no authority from this Commission, however, he controls TOWNE SERVICES HOUSEHOLD GOODS TRANSPORTATION CO., INC., P.O. Box 16091, San Antonio, Tex. 78246, and Empire Moving & Storage, Inc., 408 Burr-Duval, San Antonio, Texas 78209, which is authorized to operate as a *common carrier* in Texas, Illinois, Louisiana, Missouri, New Mexico, Oklahoma, Kansas, Colorado, Wyoming, Arkansas, Mississippi, Alabama, Florida, Georgia, Delaware, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

MC-F-11983. Authority sought for purchase by McLEAN TRUCKING COMPANY, P.O. Box No. 213, 617 Waughtown Street, Winston-Salem, North Carolina 27102, of a portion of the operating rights of VALLEY EXPRESS, INC., 116 Lake View Drive, Wausau, Wis. 54401, and for acquisition by AMORY MELLEN, JR., 617 Waughtown Street, Winston-Salem, N.C., of control of such rights through the purchase. Applicants' attorney: FRANCIS W. McINERNY, 1000 Sixteenth Street NW., Washington, D.C. 20036. TRANSFER APPLICATIONS TO BE ASSIGNED FOR ORAL HEARING

No. MC-FC-74226. Authority sought by transferee, TAYLOR FREIGHT SYSTEM, INC., 1615 N. Delaware Avenue, Philadelphia, Pa. 19106, to acquire the operating rights of transferor, DEPENDABLE CONTAINER SERVICE, INC., Foot of 23rd Street, Brooklyn, N.Y. 11232. Transferee's attorney: Ronald N. Cobert, 1730 M Street NW., Washington, D.C. 20036. Transferor's attorney: Daniel McKinnon, c/o Dependable Container Service, Inc., Foot of 23rd Street, Brooklyn, N.Y. 11232. Operating rights in certificate No. MC-133704 (Sub-No. 1) sought to be transferred: *general commodities*, except commodities in bulk, classes A and B explosives, household goods as defined by the Commission, and commodities which because of size or weight require special equipment, from Philadelphia, Pa., to New York, N.Y., and from points in New Jersey, Delaware, and Maryland to Philadelphia; *electric fixtures and supplies*, from New York, N.Y., to Philadelphia, Pa., and from Philadelphia to points in New Jersey; *equipment, materials*, and *supplies* used in connection with dog shows, excluding animals, between points in Maryland, New York, New Jersey, Pennsylvania, Delaware, Virginia, Connecticut, and Massachusetts; *teletype machines and equipment*, between Philadelphia, Pa., on the one hand, and, on the other, New York, N.Y., and points in Maryland, New Jersey, and Delaware; and *glassware*, from New York, N.Y., to Philadelphia, Pa.

No. MC-FC-74488. Authority sought by transferee, JETEX FREIGHT SYSTEMS, INC., Windy Hill Farm, Newtown, Pa. 18940, to acquire a portion of the operating rights of transferor, JAMES H. RUSSELL, Washington Highway, Smithfield, R.I. 02917. Transferee's attorney: Ronald N. Cobert, 1730 M Street NW., Washington, D.C. 20036. Transferor's attorney: Daniel McKinnon, same address as transferor. Operating rights to be transferred in certificate No. MC-11727: *general commodities*, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between points in Gloucester, Atlantic, and Cape May Counties, N.J., on the one hand, and, on the other, Providence, R.I., Corning, N.Y., and points in that part of Pennsylvania east of the Susquehanna River, points in that part of New York within 150 miles of Newark, N.J., points in that part of Massachusetts on and east of U.S. Highway 5, and points in that part of Connecticut on and east of U.S. Highway 5 and those on U.S. Highway 1 between the New York-Connecticut State line and New Haven, Conn.

Pursuant to an order of the Commission, Division 3, dated August 31, 1973, the above-indicated transfer applications under section 212(b) of the Interstate Commerce Act are to be assigned for hearing at a time and place hereafter to be fixed for the purpose of determining whether said applications are exempt from the provisions of Section 5 of the act and, if so, whether the transferees are fit and the applications otherwise conform to the Rules and Regulations Governing Transfers of Rights to Operate as a Motor Carrier in Interstate or Foreign Commerce (49 CFR Part 1132). Interested parties have on or before October 19, 1973, in which to file petitions for leave to intervene. Such petitions should state the reason or reasons for the sought intervention, the place where petitioner wishes the hearing to be held, the number of witnesses it expects to present, and the estimated time required for presentation of its evidence.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice 125]

## MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

SEPTEMBER 13, 1973.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

[Notice 126]

## MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

SEPTEMBER 14, 1973.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR, Part 1131)

V 38 I 181 SEP 19 73 XUM

published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 488 (Sub-No. 9 TA), filed September 7, 1973. Applicant: BREMAN'S EXPRESS COMPANY, 300 Canal Street, Leechburg, Pa. 15656. ## Office of the Secretary

■

## ADMINISTRATION OF GRANTS

No. 181—Pt. II——1

V 38-181 SEP 1973 XUM

Title 45—Public Welfare

## SUBTITLE A—DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, GENERAL ADMINISTRATION

## PART 74—ADMINISTRATION OF GRANTS

The following Part 74 establishes a regulatory umbrella for Department of Health, Educaton, and Welfare (DHEW) implementation of Office of Management and Budget (OMB) Circular No. A–102 "Uniform administrative requirements for grants-in-aid to State and local governments." In addition, Part 74 establishes (in Subpart Q and Appendices C, D, E, and F) principles for determining allowable costs under DHEW grants to the various types of grantee organizations.

*Relation to OMB Circular No. A–102.* Subparts B through P, inclusive, are derived from OMB Circular No. A–102, which is binding on DHEW and all other Federal agencies making grants to State and local governments. The Circular was one of the major results of the Federal Assistance Review (FAR) program, a three-year effort ordered by the President on March 29, 1969, to simplify, standardize, decentralize, and otherwise modernize the Federal grant machinery. Inherent in the FAR program and in the development of the standards in Circular A–102 was the concept of placing greater reliance on State and local governments.

Circular No. A–102 consists of a basic document, setting forth the Circular's purpose, background, certain definitions, coverage, etc., and a series of attachments, each of which covers a more or less discrete area of grant administration. The Circular's attachments are as follows:

| Attachment: | *Subject* |
|---|---|
| A | Cash Depositories. |
| B | Bonding and Insurance. |
| C | Retention and Custodial Requirements for Records. |
| D | Waiver of "Single" State Agency Requirements. |
| E | Program Income. |
| F | Matching Share. |
| G | Standards for Grantee Financial Management Systems. |
| H | Financial Reporting Requirements. |
| I | Monitoring and Reporting of Program Performance. |
| J | Grant Payment Requirements. |
| K | Budget Revision Procedures. |
| L | Grant Closeout Procedures. |
| M | Standard Forms for Applying for Federal Assistance. |
| N | Property Management Standards. |
| O | Procurement Standards. |

Subpart A of Part 74 provides general requirements applicable to Part 74 as a whole, and is roughtly analogous in function to the basic A–102 circular document. Subparts B through P of Part 74 correspond on a one-to-one basis with Attachments A through O of the Circular.

*Cost principles.* The four sets of cost principles prescribed by Subpart Q (and set forth in full text in Appendices C, D, E, and F) have been in use by DHEW for several years but have hitherto been published by DHEW only in staff manual and brochure formats.

Appendix C covers grants to State and local governments, and is taken essentially verbatim from OMB Circular No. A–87 "Principles for determining costs applicable to grants and contracts with State and local governments" which is binding on all Federal agencies. Appendix D covers grants to institutions of higher education; it is taken essentially verbatim from OMB Circular No. A–21, which is also Government-wide in applicability. Part I of Circular A–21 (and of Appendix D) is entitled "Principles for determining costs applicable to research and development under grants and contracts with educational institutions." Part II is entitled "Principles for determining costs applicable to training and other educational service under grants and contracts with educational institutions."

Appendices E and F respectively cover grants to hospitals and grants to all other nonprofit organizations. These two sets of cost principles were developed by DHEW several years ago because there are no Government-wide cost principles for these two kinds of grantee organizations. The DHEW principles are basically translations into the hospital and nonprofit organization context of the precedents established by the preexisting Government-wide cost principles that have been applicable to other types of grantee organizations. In the hospital cost principles, the provisions dealing with research patient care costs (for clinical research grants) were adapted from the principles used by the Social Security Administration for reimbursement of (hospital) provider costs under the Medicare program.

*Applicability of Subparts B through P.* Since OMB Circular No. A–102 is applicable to all Federal grants to State or local governments, Subparts B through P of Part 74 are of necessity applicable to all DHEW grants to State or local governments. For this purpose, the terms "State" and "local government" are (as in Circular A–102) defined in Part 74 (§ 74.3) so as not to include any institutions of higher education or hospitals.

Circular A–102 is not by its terms required to be applied to Federal grants to school districts. However, DHEW has elected to apply the Circular to its school district grantees as if such application had been made mandatory by OMB; the Department can find no basis for denying school districts the benefits of the new standardization of administrative requirements. DHEW has traditionally made grants to school districts on essentially the same terms and conditions as grants to other governmental entities; nor can the Department find any provisions in Circular A–102 which appear to be unsuitable for school districts. To reflect this decision, the definition of "local government" in § 74.3 expressly includes school districts, so that they are covered by Subparts B through P.

DHEW also had to consider the question of whether to apply the provisions of Circular A–102 to the nongovernmental sector, i.e., institutions of higher education, hospitals, and other nonprofit grantees. Although the Circular was designed only for grants to State and local governments, a substantial number of its provisions are equally appropriate for grants to nongovernmental grantees. Additionally, the General Services Administration is expected in the not too distant future to issue a Federal policy statement (binding on HEW) which in effect will extend the applicability of many of Circular A–102's provisions to nongovernmental grantees.

In keeping with the traditional DHEW practice of using similar terms and conditions for all eligible recipients, it would be clearly desirable for many DHEW grant programs to adopt these A–102 provisions, to the extent feasible, for all grantee types at the same time.

Consequently, Subparts B through P of Part 74 are designed so that the granting agencies of DHEW may, where determined to be appropriate, make them applicable to institutions of higher education, hospitals, and other types of grantees which are not State or local governments. This is reflected in §§ 74.1(b) and 74.4(a)(2) of Part 74.

Within certain attachments to Circular A–102 there are a few provisions which are suitable only for State and local governments (including school districts). The corresponding provisions in Subparts B through P of Part 74 expressly limit their applicability to only such grantees. Therefore a DHEW granting agency can make the appropriate provisions within a given subpart of Part 74 applicable to its nongovernmental grantees simply by making the entire subpart applicable; the inappropriate provisions are self-deleting for nongovernmental grantees and would not apply in such cases. This is reflected in § 74.4(a)(2)(ii).

Most of DHEW's decisions about applying Part 74 to nongovernmental grantees have been made, and are reflected in program regulation amendments published in separate documents in this issue of the FEDERAL REGISTER. Those amendments are discussed below.

*Deferred applicability to Office of Education and National Institute of Education programs.* Part 74 is effective on September 19, 1973, except for those programs administered by the Office of Education and the National Institute of Education. For such grant programs, Part 74 will become effective upon adoption or implementation by respectively the Commissioner of Education and the Director of the National Institute of Education in regulations issued by them with the approval of the Secretary of Health, Education, and Welfare. Both agencies have published proposals (Office of Education at 38 FR 10386, April 26, 1973, and National Institute of Education at 38 FR 1020, January 8, 1973) for agency-wide general provisions

regulations to cover all their grant programs. When republished in final form, those general provisions will be consistent with this Part 74, and will constitute the adoption or implementation of Part 74 by the Commissioner and the Director.

*Program regulation amendments.* In connection with the issuance of this Part 74, a number of amendments to DHEW grant program regulations are published in separate documents in this issue of the FEDERAL REGISTER. The CFR chapters involved are as follows:

Title 42, Chapter I, Public Health Service.
Title 42, Chapter II, Children's Bureau.
Title 45, Chapter II, Social and Rehabilitation Service (Assistance Programs).
Title 45, Chapter IV, SRS (Rehabilitation Programs).
Title 45, Chapter IX, Administration on Aging.

The primary purpose of those amendments is to relate those program regulations to this new Part 74. They accomplish this purpose in three ways:

(1) They revoke, or modify as necessary, provisions inconsistent with this Part 74;

(2) They insert crossreferences to this Part 74 where appropriate, in order to alert the reader of those regulations to the applicability of this regulation to grants to State and local governments; and

(3) Where determined to be appropriate, they provide exceptions to specified subparts of this Part 74. They also make specified subparts of Part 74 applicable to grants to other types of grantees.

*Omission of notice of proposed rule making.* Notice of proposed rule making and delay in effective date have been omitted in the issuance of these amendments which relate solely to administrative requirements and cost principles for DHEW grants.

*Opportunity to comment.* Written comments concerning these amendments are invited from interested persons. Comments may be addressed to the Assistant Secretary for Administration and Management, Department of Health, Education, and Welfare, 330 Independence Avenue SW., Washington, D.C. 20201. All comments received in response to this invitation will be available for public inspection at room 4829, 400 Sixth Street SW., Washington, D.C., between the hours of 9:00 a.m. and 5:30 p.m. weekdays, Federal holidays excepted.

Interested persons are reminded that, as explained above, much of the following Part 74 is derived from OMB Circulars A–102, A–87, and A–21, from which DHEW cannot unilaterally deviate. Consequently, the Department's discretion to act on any comments which take issue with provisions mandated by OMB circulars may be limited to referral of such comments to those Federal officials who are in a position to change the circulars.

Comments on other aspects of Part 74 (such as its applicability to school districts, institutions of higher education, hospitals, and other recipients not mandatorily covered by Circular A–102, the DHEW cost principles in Appendices E and F, etc.) will be considered independently by the Department.

*Effective date.*—This part shall become effective on September 19, 1973: *Provided, however,* That with respect to programs administered by the Office of Education and the National Institute of Education, this part shall become effective upon adoption or implementation in regulations issued by, respectively, the Commissioner of Education and the Director of the National Institute of Education, with the approval of the Secretary of Health, Education, and Welfare.

Dated September 7, 1973.

FRANK CARLUCCI,
*Acting Secretary of Health, Education, and Welfare.*

Subtitle A of Title 45 of the Code of Federal Regulations is amended by adding a new Part 74, as follows:

**Subpart A—General**

Sec.
74.1 Purpose and scope of this part.
74.2 Scope of subpart.
74.3 Definitions.
74.4 Applicability of this part.
74.5 Appeals.
74.6 Deviations.

**Subpart B—Cash Depositories**

74.10 Physical segregation and eligibility.
74.11 Checks-paid basis letter of credit.
74.12 Minority-owned banks.

**Subpart C—Bonding and Insurance**

74.15 General.
74.16 Construction and facility improvement.
74.17 Loan guarantees.

**Subpart D—Retention and Custodial Requirements for Records**

74.20 Length of retention period.
74.21 Starting date of retention period.
74.22 Substitution of microfilm.
74.23 Access to records.
74.24 Restrictions on public access.

**Subpart E—Waiver of "Single" State Agency Requirements [Reserved]**

**Subpart F—Grant-Related Income**

74.40 Scope of subpart.
74.41 Meaning of program income.
74.42 Interest income.
74.43 Sale of real and personal property.
74.44 Royalties.

Appendix E—Principles for determining costs applicable to research and development under grants and contracts with hospitals.
Appendix F—Principles for determining costs applicable to grants and contracts with nonprofit institutions.

AUTHORITY: 5 U.S.C. 301. Subparts B through P inclusive also issued under Office of Management and Budget Circular No. A-102. Apendix C also issued under Office of Management and Budget Circular No. A-87. Appendix D also issued under Office of Management and Budget Circular No. A-21.

## Subpart A—General

### § 71.1 Purpose and scope of this part.

(a) This part establishes:

(1) Uniform requirements for the administration of HEW grants to State or local governments, and

(2) Principles for determining costs applicable to activities assisted by HEW grants awarded to:

(i) State or local governments

(ii) Institutions of higher education

(iii) Hospitals, and

(iv) Other nonprofit organizations.

(b) Subparts B through P, inclusive, of this part are designed so that they may also be applied to grants to grantees other than State and local governments, where the granting agency concerned as a matter of policy (see § 74.4(a)(2)) finds such application to be appropriate.

### § 71.2 Scope of subpart.

This subpart sets forth (a) general rules and regulations pertaining to this Part 74 (definitions, purpose and scope, applicability, and appeals) and (b) procedures for control of deviations from the part.

### § 71.3 Definitions.

As used in this part, the words and terms defined in this section shall have the meanings set forth below, unless a different definition is prescribed for a particular portion of this part.

"Grant" means money, or property provided in lieu of money, paid or furnished by the Federal Government to an eligible recipient under programs that provide financial assistance. The term includes such financial assistance when provided by contract, but does not include any Federal procurements subject to the procurement regulations in 41 CFR, nor does it include technical assistance or other assistance in the form of revenue sharing, loans, loan guarantees, interest subsidies, insurance, or direct appropriations.

"Grantee" means the organization or person to which a grant is made and which is accountable to the Federal Government for the use of the funds provided. The term does not include any secondary recipients such as subgrantees, contractors, etc., who may receive funds from a grantee pursuant to a grant.

"Granting agency" means the operating agency of HEW (or the organizational component within the Office of the Secretary of Health, Education, and Welfare) authorized to award and administer grants, including (1) the Office of Education, (2) the Health Services and Mental Health Administration, (3) the Social and Rehabilitation Service, (4) the National Institutes of Health, (5) the Food and Drug Administration, or (6) the National Institute of Education.

"HEW" means the U.S. Department of Health, Education, and Welfare, including its granting agencies.

The term "local government" means a local unit of government including specifically a county, municipality, city, town, township, school district, local public authority, special district, intrastate district, council of governments, sponsor group representative organization, and other regional or interstate government entity, or any agency or instrumentality of a local government exclusive of institutions of higher education and hospitals.

"OGPM" means the Office of Grants and Procurement Management, which is an organizational component within the Office of the Secretary of Health, Education, and Welfare.

"OMB" means the Office of Management and Budget within the Executive Office of the President.

"State" means any of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or any agency or instrumentality of a State exclusive of State institutions of higher education and hospitals.

"Subgrant" means money, or property provided in lieu of money, paid or furnished by a grantee to an eligible recipient as financial assistance pursuant to a grant. The term includes such financial assistance when provided by contract, but does not include procurements, nor does it include any form of assistance which is excluded from the definition of "grant" in this section.

"Subgrantee" means the organization or person to which a subgrant is made and which is accountable to the grantee for the use of the funds provided.

"Terms and conditions" of a grant means all legal requirements imposed on a grant by the Federal Government whether under statute, regulations, the grant award document itself, or otherwise.

### § 74.4 Applicability of this part.

(a) *Subparts B through P, inclusive*—(1) *Applicability to State or local governments.* Except to the extent inconsistent with an applicable Federal statute or regulation, Subparts B through P, inclusive of this part, are applicable to all HEW grants to State or local governments. Note, however, that Subpart N "Forms for Applying for Grants" has a more limited applicability, as stated therein.

(2) *Applicability to other types of grantees.* (i) Subparts B through P, inclusive of this part, are applicable to HEW grants to grantees other than State and local governments only to the extent made applicable by other duly published HEW policy statements (usually, but not necessarily, in the program regulations of the granting agency).

(ii) Where any given subpart of this part has been so made applicable in its entirety, any particular provision in that subpart which by its terms is expressly limited to State or local governments shall not be deemed to have been made applicable to other grantees. See, for example, §§ 74.44(b) and (c)(1)(ii), 74.46, 74.61(h), 74.102(b)(3) and (4), 74.140, 74.154(e), 74.155, 74.157, and 74.159(b)(1) and (2).

(b) *Subpart Q.* The applicability of Subpart Q of this part is set forth therein.

### § 74.5 Appeals.

Attention is called to the fact that in accordance with Part 16 of this title, grantees may formally appeal certain postaward administrative decisions made by HEW officials.

### § 74.6 Deviations.

(a) A deviation shall be considered to be either of the following, except when specifically mandated by Federal legislation:

(1) Use of any policy, procedure, form, standard, or grant condition which is inconsistent with an applicable provision of this part, or

(23) Failure to use when applicable any policy, procedure, form, standard, or grant condition which is required by this part.

(b) In the interest of maintaining uniformity to the greatest extent feasible, deviations shall be kept to a minimum. A deviation, whether proposed by an applicant for a grant, a grantee, or an official of the granting agency, may be authorized only when necessary to meet programmatic objectives, or to conserve grant funds, or is otherwise essential in the public interest.

(c) Deviations from subparts B through P, inclusive, of this part may be made on an HEW grant to a State or a local government, or a class of such grants, only when authorized by both:

(1) The head of the granting agency, or other officials if designated in or pursuant to formal deviation control procedures established by the agency, and

(2) OGPM.

(d) Where a provision in subparts B through P, inclusive, of this part has been made applicable (in accordance with § 74.4(a)(2)) to a class of HEW grants to organizations other than State or local governments, deviations from that provision on such grants may be made only when authorized by the head of the granting agency or by other officials if designated in or pursuant to formal deviation control procedures established by the agency.

(e) Deviations from Subpart Q of this part and Appendices C, D, E, and F to this part may be made only as follows:

(1) In individual cases (i.e., where only a single grant is involved) deviations may be authorized by the head of the granting agency or by other officials if designated in or pursuant to formal deviation control procedures established by the agency.

(2) Deviations in classes of cases may be made only when authorized as provided in paragraph (c) of this section.

## Subpart B—Cash Depositories

### § 74.10 Physical segregation and eligibility.

Except as provided in § 74.11, HEW will not:

(a) Require physical segregation of cash depositories for HEW grant funds which are provided to a grantee;

(b) Establish any eligibility requirements for cash depositories in which HEW grant funds are deposited by grantees or their subgrantees.

### § 74.11 Checks-paid basis letter of credit.

A separate bank account shall be used when payments under letter of credit are made on a "check-paid" basis in accordance with agreements entered into by a grantee, the Federal Government, and the banking institutions involved. A checks-paid basis letter of credit is one under which funds are not drawn from the Treasury until the grantee's checks have been presented to its bank for payment.

### § 74.12 Minority-owned banks.

Consistent with the national goal of expanding opportunities for minority business enterprises, grantees are encouraged to use minority-owned banks.

## Subpart C—Bonding and Insurance

### § 74.15 General.

In administering HEW grants, grantees shall observe their regular requirements and practices with respect to bonding and insurance. HEW will not impose additional bonding and insurance requirements, including fidelity bonds, except as provided in §§ 74.16 and 74.17.

### § 74.16 Construction and facility improvement.

The recipient of an HEW grant which requires contracting for construction or facility improvement (including any HEW grant which provides for alterations or renovations of real property) shall follow its own requirements and practices relating to bid guarantees, performance bonds, and payment bonds except for contracts exceeding $100,000. For contracts exceeding $100,000, the minimum requirements shall be as follows:

(a) A bid guarantee from each bidder equivalent to five percent of the bid price. The bid guarantee shall consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder will, upon acceptance of his bid, execute such contractual documents as may be required within the time specified.

(b) A performance bond on the part of the contractor for 100 percent of the contract price. A performance bond is one executed in connection with a contract to secure fulfillment of all the contractor's obligations under the contract.

(c) A payment bond on the part of the contractor for 100 percent of the contract price. A payment bond is one executed in connection with a contract to assure payment as required by law of all persons supplying labor and material in the execution of the work provided for in the contract.

### § 74.17 Loan guarantees.

Where in connection with an HEW grant, HEW also guarantees the payment of money borrowed by the grantee, the granting agency may at its discretion, require adequate bonding and insurance if the bonding and insurance requirements of the grantee are not deemed to be sufficient to protect adequately the interests of the Federal Government.

## Subpart D—Retention and Custodial Requirements for Records

### § 74.20 Length of retention period.

HEW will not impose record retention requirements over and above those established by the grantee except that financial records, supporting documents, statistical records, and all other records pertinent to an HEW grant, or to any subgrant (or negotiated contract exceeding $2,500) thereunder, shall be retained for a period of three years, with the following qualifications:

(a) If audit by or on behalf of the Federal Government has begun but is not completed at the end of the three-year period, or if audit findings have not been resolved at the end of the three-year period, the records shall be retained until resolution of the audit findings. In no case, however, will HEW require retention of records relating to any grant with respect to which actions by the United States to recover for diversion of money paid under the grant are barred by the statute of limitations in 28 U.S.C. 2415(b).

(b) In order to avoid duplicate record-keeping, granting agencies may make special arrangements with grantees to retain any records which are continuously needed for joint use. The granting agency will request transfer of records to its custody from grantees when it determines that the records possess long-term retention value. When the records are transferred to or maintained by HEW, the three year retention requirement is not applicable to the grantee.

### § 74.21 Starting date of retention period.

(a) *General.* Except for records covered by paragraphs (b) and (c) of this section, where HEW grants support is continued or renewed on an annual or essentially annual basis, the retention period for each year's records starts from the date of submission to HEW of the grantee's annual expenditure report for that year; in all other cases the retention period starts from the date of submission to HEW of the grantee's final expenditure report. The term "expenditure report" means:

(1) For nonconstruction grants, the "Financial Status Report" (or other report equivalent thereto).

(2) For construction grants, the "Outlay Report and Request for Reimbursement for Construction Programs" (or other report equivalent thereto).

(b) *Records for nonexpendable property.* For nonexpendable personal property whose acquisition cost was borne in whole or in part by an HEW grant, the property records required by § 74.136(a) shall be retained for three years after final disposition of the property. For purposes of this paragraph, payment by the grantee to the United States for the Federal share of the fair market value of such property, in accordance with Subpart O of this part, shall be deemed a final disposition of such property.

(c) *Records for indirect cost rate proposals, etc.*—(1) *Applicability.* This paragraph applies to records supporting (i) indirect cost rate proposals, (ii) cost allocation plans of State and local governments pursuant to Appendix C to this part, (iii) hospital patient care rate proposals, and (iv) any similar accounting computations of the rate at which a particular group of costs is chargeable to HEW grants. Examples of the latter are computer usage chargeback rate computations and composite fringe benefit rate computations.

(2) *If submitted to the Federal Government.* If the proposal, plan, or other computation is required to be submitted to the Federal Government to form the basis for negotiation of the rate, then the three-year retention period for its supporting records starts from the date of such submission.

(3) *If not submitted to the Federal Government.* If the proposal, plan, or other computation is not required to be submitted to the Federal Government for negotiation purposes, then the three-year retention period for its supporting records starts from the end of the

V 38 I 181 SEP 19 73 XUM

grantee's fiscal year (or other accounting period) covered by the proposal, plan, or other computation.

**§ 74.22 Substitution of microfilm.**

Grantees may be authorized by the granting agency to substitute microfilm or other adequate copies in lieu of original records.

**§ 74.23 Access to records.**

(a) HEW and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to any books, documents, papers, and records of the grantee which any of them determine are pertinent to a specific HEW grant, for the purpose of making audit; examination, excerpts and transcripts.

(b) In the case of a subgrant (or negotiated contract exceeding $2,500) under an HEW grant, the grantee, HEW, the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to any books, documents, papers, and records of the subgrantee (or the contractor) which the grantee, HEW, the Comptroller General of the United States, or any of their duly authorized representatives determine are pertinent to the specific HEW grant, for the purpose of making audit, examination, excerpts, and transcripts.

**§ 74.24 Restrictions on public access.**

Unless otherwise required by law, HEW will not place restrictions on grantees which will limit public access to the grantee's records or to the records of their subgrantees or contractors, except when the records must remain confidential for any of the following reasons:

(a) To prevent a clearly unwarranted invasion of personal privacy;

(b) To comply with an Executive Order or statute which specifically requires the records to be kept secret;

(c) To protect commercial or financial information obtained from a person or a firm on a privileged or confidential basis; or

(d) To protect information which can be improperly exploited for personal gains.

## Subpart E—Waiver of Single State Agency Requirements [Reserved]

## Subpart F—Grant-Related Income

**§ 74.40 Scope of subpart.**

This subpart sets forth standards for grantees in accounting for program income and other income related to projects and programs financed in whole or in part by HEW grants.

**§ 74.41 Meaning of program income.**

As used in this subpart, the term "program income" shall have the meaning set forth for that term in § 74.71.

**§ 74.42 Interest income.**

(a) As used in paragraph (b) of this section:

(1) The term "State" shall have the meaning set forth in § 102 of the Intergovernmental Cooperation Act of 1968.

(2) The term "grant-in-aid" shall have the meaning set forth for that term in section 106 of the Intergovernmental Cooperation Act of 1968.

(b) In accordance with section 203 of the Intergovernmental Cooperation Act of 1968, States shall not be held accountable for interest earned on grant-in-aid funds, pending their disbursement for program purposes.

(c) In all other cases, grantees shall remit to the Federal Government any interest earned on advances of grant funds.

**§ 74.43 Sale of real and personal property.**

Proceeds from the sale of real and tangible personal property whose acquisition cost was borne in whole or in part by an HEW grant shall be handled in accordance with Subpart O of this part.

**§ 74.44 Royalties.**

(a) *Applicability*—(1) Copyrights. This section applies to royalties received by grantees from copyrights on publications or other works developed under HEW grants.

(2) *Patents.* This section also applies to royalties received by grantees from patents on inventions conceived or first actually reduced to practice in the course of or under any HEW grant.

(b) *During the grant period.* (1) If the grantee is a State or local government, royalties received during the grant period shall be retained by the grantee. The terms and conditions of the grant shall provide either:

(i) That such royalties shall be used by the grantee for any purposes which further the objectives of the legislation under which the grant was made, or

(ii) That such royalties shall be deducted from total project costs for the purpose of determining the net costs on which the Federal share of costs shall be based.

(2) When the grantee is a State or local government, the grantee shall elect either of the alternatives specified in subparagraph (1) of this paragraph if the terms and conditions of the grant do not specify which is to be followed.

(3) If the grantee is not a State or local government, disposition of royalties received during the grant period shall be governed by agreements as provided in paragraphs (c)(1)(i) and (c)(2) of this section.

(c) *After the grant period*—(1) *Copyrights.* (i) Disposition of copyright royalties received after the termination or completion of the grant period should ordinarily be governed by specific agreements between the granting agency and the grantee. Such agreements may be negotiated on a case-by-case basis, or may be in the form of a standard rule or policy of the granting agency, agreed to by the grantee as one of the conditions of the grant.

(ii) If the grantee is a State or local government and no other agreement between the granting agency and the grantee is applicable, the Federal share of copyright royalties in excess of $200 received annually shall be paid by the grantee to the granting agency. In such cases, the Federal share of the royalties shall be computed on the same ration basis as the percentage of Federal participation in the cost of the project or program. This percentage of participation shall be determined in accordance with § 74.141.

(2) *Patents.* Disposition of patent royalties received after the termination or completion of the grant period shall be governed by agreements between the Assistant Secretary for Health, Department of Health, Education, and Welfare, and the grantee, pursuant to the Department's patent regulations (Parts 6 and 8 of this title).

**§ 74.45 Other program income.**

(a) This section applies to all program income earned during the grant period except royalties and proceeds from the sale of real property or tangible personal property.

(b) All such income earned during the grant period shall be retained by the grantee. The terms and conditions of the grant shall provide either:

(1) That such income shall be used by the grantee for any purposes which further the objectives of the legislation under which the grant was made, or

(2) That such income shall be deducted from total project costs for the purpose of determining the net costs on which the Federal share of costs shall be based.

(c) The grantee shall elect either of the alternatives specified in paragraph (b) of this section if the terms and conditions of the grant do not specify which is to be followed.

**§ 74.46 Earmarked revenues of State or local governments.**

State or local government grantees shall record the receipt and expenditure of revenues such as taxes, special assessments, levies, fines, etc., as a part of grant project transactions when such revenues are specifically earmarked for a grant project in accordance with the terms and conditions of a grant.

## Subpart G—Matching and Cost Sharing

**§ 74.50 Purpose and scope.**

This subpart sets forth criteria and procedures for the allowability and evaluation of cash and in-kind contributions in satisfying matching or cost sharing requirements of HEW grants.

**§ 74.51 Definitions.**

"Cash contributions" means the grantee's cash outlay, including the outlay of money contributed to the grantee by third parties. Unless authorized by Federal legislation, outlays charged to other Federal grants or to Federal contracts may not be considered as grantee's cash contributions.

"In-kind contributions" represent the value of noncash contributions provided by the grantee or third parties. In-kind contributions may consist of charges for real property and nonexpendable personal property, and the value of goods and services directly benefiting and

specifically identifiable to the grant-supported activity. Unless otherwise authorized by Federal legislation, charges for property purchased wholly with Federal funds, and charges based on the Federal share of the value of property purchased partly with Federal funds, may not be considered as the grantee's in-kind contributions.

"Matching or cost sharing" represents, in general, that portion of project costs not borne by the Federal Government.

"Project costs" means the sum of (a) the allowable costs incurred by the grantee and (b) the allowable in-kind contributions made by third parties.

**§ 74.52 Allowability.**

(a) Matching or cost sharing may consist of:

(1) Charges incurred by the grantee as project costs. Not all charges require cash outlays during the grant period by the grantee; examples are depreciation and use allowances for buildings and equipment.

(2) Project costs financed with cash contributed or donated to the grantee by third parties.

(3) Project costs represented by in-kind contributions made by non-Federal third parties. Where in-kind contributions are made by the Federal Government, they may be included in the grantee's matching or cost sharing only if Federal legislation authorizes such inclusion.

(b) All contributions whether cash or in-kind (including in-kind contributions from third parties) shall be accepted as part of the grantee's matching or cost sharing when such contributions:

(1) Are identifiable from the grantee's records, and

(2) Are not included as contributions for any other federally assisted program, or any Federal contract, and

(3) Are necessary and reasonable for proper and efficient accomplishment of project objectives, and

(4) If made by the grantee, are types of costs which are allowable under the applicable cost principles specified in Subpart Q of this part, and

(5) Are not borne by the Federal Government directly or indirectly under any Federal grant or contract (unless the other grant or contract may, under authority of law, be used for matching or cost sharing), and

(6) Conform to other applicable provisions of this subpart.

**§ 74.53 Valuation of in-kind contributions from third parties.**

(a) *Valuation of volunteer services.*—(1) *General.* Volunteer services may be furnished by professional and technical personnel, consultants, and other skilled and unskilled labor. Volunteered service may be counted as matching or cost sharing if it is an integral and necessary part of an approved program.

(2) *Rates for volunteer services.* Rates for volunteers should be consistent with those regular rates paid for similar work in other activities of the grantee. In cases where the kinds of skills required for the federally assisted activities are not found in the other activities of the grantee, rates used should be consistent with those paid for similar work in the labor market in which the grantee competes for the kind of services involved.

(3) *Volunteers employed by other organizations.* When an employer other than the grantee furnishes the services of an employee, these services shall be valued at the employee's regular rate of pay (exclusive of fringe benefits and overhead cost) provided these services are in the same skill for which the employee is normally paid.

(b) *Valuation of donated real or tangible personal property, or use thereof.*—(1) *Donation of title.* If the donor transfers title to the property, the amount to be allowed as matching or cost sharing shall be determined as if the grantee had purchased the property and had paid the fair market value of the property at the time of transfer.

(2) *Donation of use.* If only use of the property is donated, and the donor retains title, the amount to be allowed as matching or cost sharing shall be determined as if the grantee had rented the property and had paid the property's fair rental value.

(3) *Appraisal.* The granting agency may require that the value of real property be established by an independent appraiser (i.e., a private realty firm or a General Services Administration representative) and certified by the responsible official of the grantee as a precondition to allowability for matching or cost sharing purposes.

(c) *Valuation of other in-kind contributions by third parties.* Other necessary in-kind contributions made by third parties specifically for and in direct benefit to the grant program may be accepted as matching or cost sharing provided that they are adquately supported and permissible under the law. Such charges must be reasonable and properly justifiable.

**§ 74.54 Supporting records for in-kind contributions from third parties.**

The following requirements pertain to the grantee's supporting records for in-kind contributions from third parties:

(a) The extent of volunteer services must be supported by the same methods used by the grantee for its employees.

(b) The basis for determining the charges for personal services, material, equipment, buildings, and land must be documented.

## Subpart H—Standards for Grantee and Subgrantee Financial Management Systems

**§ 74.60 Scope of subpart.**

This subpart prescribes standards for financial management systems of grant-supported activities conducted by grantees and their subgrantees. Neither the Department nor its granting agencies will impose additional standards unless specifically provided for elsewhere in this part. However, suggestions and assistance may be provided in establishing or improving financial management systems when needed or requested.

**§ 74.61 Standards.**

Grantee financial management systems for grants and subgrantee financial management systems for subgrants shall provide for:

(a) Accurate, current, and complete disclosure of the financial results of each grant in accordance with Federal reporting requirements and for each subgrant in accordance with the grantee's requirements. Except when specifically required by law, HEW will not require financial reporting on the accrual basis from organizations whose records are not maintained on that basis. However, when accrual reporting is required by law, organizations whose records are not maintained on that basis will not be required to convert their accounting systems to the accrual basis; they may develop the accrual information through an analysis of the documentation on hand or on the basis of best estimates.

(b) Records which identify adequately the source and application of funds for grant- or subgrant-supported activities. These records shall contain information pertaining to grant or subgrant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays, and income.

(c) Effective control over and accountability for all grant or subgrant funds, and real and personal property acquired with grant or subgrant funds. Grantees and subgrantees shall adequately safeguard all such property and shall assure that it is used solely for authorized purposes.

(d) Comparison of actual with budgeted amounts for each grant or subgrant, and, when specifically required by the performance reporting requirements of the grant or subgrant, relation of financial information with performance or productivity data, including the production of unit cost information.

(e) Procedures to minimize the time elapsing between the transfer of funds from the U.S. Treasury and the disbursement by the grantee, whenever cash is advanced by the Federal Government. When advances are made by a letter-of-credit method, the grantee shall make drawdowns from the U.S. Treasury through his commercial bank as close as possible to the time of making the disbursements. Subgrantees shall institute analogous procedures when funds are advanced by the grantee.

(f) Procedures for determining the allowability and allocability of costs in accordance with the applicable cost principles prescribed by Subpart Q of this part.

(g) Accounting records which are supported by source documentation.

(h)(1) If the grantee or subgrantee is a State or local government, audits to be made by the State or local government or at its direction to determine, at a minimum, the fiscal integrity of grant or subgrant financial transactions and reports, and the compliance with the terms and conditions of the grant or subgrant. The grantee or subgrantee will

V 38 1 181 SEP 19 73 XUM

schedule such audits with reasonable frequency, usually annually, but not less frequently than once every two years, considering the nature, size, and complexity of the activity.

(2) Recipients other than State or local governments are encouraged but not required to meet the standard set forth in subparagraph (1) of this paragraph.

(i) A systematic method to assure timely and appropriate resolution of audit findings and recommendations.

**§ 74.62 Subgrantees.**

The standards in § 74.61, as they apply to subgrantees, shall be included in the terms and conditions of subgrants awarded under HEW grants.

## Subpart I—Financial Reporting Requirements

**§ 74.70 Scope of subpart.**

This subpart prescribes requirements for grantees to report financial information to granting agencies and to request advances and reimbursement when a letter-of-credit method is not used, and promulgates standard forms incident thereto.

**§ 74.71 Definitions.**

As used in this subpart and in the forms identified by this subpart:

"Accrued expenditures" are the charges incurred by the grantee during a given period requiring the provision of funds for: (a) Goods and other tangible property received; (b) services performed by employees, contractors, subgrantees, and other payees; and (c) amounts becoming owed under programs for which no current services or performance are required.

"Accrued income" is the earnings during a given period which is a source of funds resulting from (a) services performed by the grantee, (b) goods and other tangible property delivered to purchasers, and (c) amounts becoming owed to the grantee for which no current services or performance are required by the grantee.

"Disbursements" are payments in cash or by check.

"Federal funds authorized" represents the total amount of the Federal funds authorized for obligations and establishes the ceiling for obligation of Federal funds. This amount may include any authorized carryover of unobligated funds from prior fiscal years.

"In-kind contributions" represent the value of noncash contributions provided by the grantee or third parties. In-kind contributions may consist of charges for real property and nonexpendable personal property, and value of goods and services directly benefiting and specifically identifiable to the grant-supported activity. Unless otherwise authorized by Federal legislation, charges for property purchased wholly with Federal funds, and charges based on the Federal share of the value of property purchased partly with Federal funds, may not be considered as the grantee's in-kind contributions.

"Obligations" are the amounts of orders placed, contracts and grants awarded, services received, and similar transactions during a given period, which will require payment during the same or a future period.

"Outlays" represent charges made to the grant project or program. Outlays may be reported on a cash or accrued expenditure basis. See §§ 74.61(a) and 74.73(b).

"Program income" represents earnings by the grantee realized from the grant-supported activities as a result of the grant. Such earnings exclude interest income and may include, but will not be limited to, income from service fees, sale of commodities, usage or rental fees, sale of assets purchased with grant funds, and royalties on patents and copyrights. Program income may be reported on a cash or accrued income basis. See §§ 74.61(a) and 74.73(b).

"Unobligated balance" is the portion of the funds authorized by the granting agency which has not been obligated by the grantee and is determined by deducting the cumulative obligations from the funds authorized.

"Unpaid obligations" represent the amount of obligations incurred by the grantee which have not been paid.

**§ 74.72 Authorized forms and instructions.**

(a) Only those forms specified in §§ 74.73 through 74.76, inclusive, and such supplementary or other forms as may from time to time be authorized by OGPM and OMB, may be used:

(1) For obtaining financial information from grantees for grant programs, or

(2) For requesting advances or reimbursements when letters of credit are not used.

(b) All applicable standard instructions promulgated by OMB for use in connection with the forms specified in §§ 74.73 through 74.76, inclusive, shall be followed. Granting agencies may promulgate substantive supplementary instructions only with the approval of OGPM and OMB.

(c) Grantees shall submit the original and two copies of forms required pursuant to this subpart. However, granting agencies may waive the requirement for the second copy, or both copies, when not needed.

(d) The forms (with their instructions) specified in §§ 74.73 through 74.76, inclusive, shall be available to the public upon request to any granting agency.

**§ 74.73 Financial Status Report.**

(a) *Form.* Grantees shall use the standard Financial Status Report prescribed by Attachment H of OMB Circular No. A–102 to report the status of funds for all nonconstruction grant programs. Granting agencies, however, have the option of not requiring the Financial Status Report when the Request for Advance or Reimbursement (see § 74.75) is determined to provide adequate information to meet their needs, except that a final Financial Status Report shall be required at the completion of the grant when the Request for Advance or Reimbursement form is used only for advances.

(b) *Accounting basis.* Each grantee shall report outlays and program income on the same accounting basis, i.e., cash or accrued expenditure (accrual), which it used in maintaining its accounting records. The basis used by a grantee must be consistent for all grants. See § 74.61(a).

(c) *Frequency.* For research project grants, reports shall be submitted annually, and a final report shall be submitted upon completion or termination of grant support. For all other types of grants, the granting agency shall prescribe the frequency of the report, considering the size and complexity of the particular program. However, the report shall not be required more frequently than quarterly or less frequently than annually, and a final report shall be required upon completion or termination of grant support.

(d) *Due date.* When reports are required on a quarterly or semi-annual basis, they shall be due thirty days after the end of the specified reporting period. When required on an annual basis, they shall be due ninety days after the end of the grant year. Final reports shall be due ninety days after the completion or termination of grant support. Justified requests from individual grantees for extension of reporting due dates will be approved whenever feasible.

**§ 74.74 Report of Federal cash transactions.**

(a) *Form.* When funds are advanced to grantees through letters of credit or with Treasury checks, each grantee shall submit the Report of Federal Cash Transactions prescribed by Attachment H of OMB Circular No. A–102. This report will be used by HEW financial officers to monitor cash advanced to grantees and to obtain disbursement or outlay information for each grant or project from the grantees. The format of the report may be adapted as appropriate when reporting is to be accomplished with the assistance of automatic data processing equipment, provided that the information to be submitted is not changed.

(b) *Forecasts of Federal cash requirements.* Forecasts of Federal cash requirements may be required in the "Remarks" section of the report.

(c) *Cash in hands of secondary recipients.* When deemed necessary and feasible by the responsible HEW finance officer, grantees may be required to report in the "Remarks" section of the report the amount of cash advances in excess of three days' requirements in the hand of subgrantees or other secondary recipients, and to provide short narrative explanations of actions taken by the grantees to reduce the excess balances.

(d) *Frequency and due date.* Grantees shall submit the Report of Federal Cash Transactions no later than fifteen working days following the end of each quarter. However, where a letter of credit authorizes advances at an annualized rate of one million dollars or more, the responsible HEW financial officer may require the reports to be submitted within fifteen working days following the end of each month.

(e) *Waiver.* HEW finance officers may waive the requirement for submission of the Report of Federal Cash Transactions when a grantee's monthly advances do not exceed $10,000: *Provided,* That such advances are monitored through other forms authorized pursuant to this subpart, or the grantee's accounting controls are adequate to minimize excessive Federal advances.

**§ 74.75 Request for Advance or Reimbursement.**

(a) Grantees shall submit their requests for advance payments or reimbursements under nonconstruction grants and their requests for advance payments under construction grants, on the Request for Advance or Reimbursement form prescribed by Attachment H of OMB Circular No. A–102 when letters of credit or predetermined automatic Treasury check advance methods are not used. Additionally, granting agencies may prescribe this form for construction grants in lieu of the Outlay Report and Request for Reimbursement for Construction Programs as specified in § 74.76(d).

(b) Grantees will be authorized to submit no less often than monthly their requests for advances or reimbursement when letters of credit or predetermined automatic Treasury check advance methods are not used.

**§ 74.76 Outlay Report and Request for Reimbursement for Construction Programs.**

(a) *Construction grants paid by reimbursement method.* (1) Requests for reimbursement under construction grants shall be submitted on the Outlay Report and Request for Reimbursement for Construction Programs form prescribed by Attachment H of OMB Circular No. A–102. Granting agencies may, however, substitute the Request for Advance or Reimbursement form specified in § 74.75 in lieu of this form when they determine that the former provides adequate information to meet their needs.

(2) Grantees will be authorized to submit no less often than monthly their requests for reimbursement under construction grants.

(b) *Construction grants paid by letter of credit or Treasury check advances.* (1) When a construction grant is paid by letter of credit or Treasury check advances, the grantee shall report its outlays to the granting agency using the Outlay Report and Request for Reimbursement for Construction Programs form prescribed by Attachment H of OMB Circular No. A–102. In these cases, the grantee should leave blank those items on the form which are applicable only when requesting reimbursement, i.e., items 3, 5, 10, 11t, 11u, and 11v.

(2) In lieu of the certification and signatures in items 12, 12a, and 12b, the following certification, signed on behalf of the grantee by an authorized official of the grantee organization, shall be submitted to the granting agency with the outlay report:

I certify that to the best of my knowledge and belief the accompanying report is correct and complete and that all outlays reported therein are for the purposes set forth in the grant award documents.

Information as to percentage of project completion and certification thereof by the Government representative shall be submitted independently of the outlay report, at such times and by such means as may be prescribed by the granting agency.

(3) Frequency and due date of the Outlay Report and Request for Reimbursement for Construction Programs shall be governed by § 74.73(c) and (d).

(c) *Accounting basis.* The accounting basis for the Outlay Report and Request for Reimbursement for Construction Programs shall be governed by § 74.73(b).

(d) *Alternative forms.* For construction grants paid by the reimbursement method, or by Treasury check advances based on periodic requests from the grantee, granting agencies may substitute the Request for Advance or Reimbursement specified in § 74.75 in lieu of the Outlay Report and Request for Reimbursement for Construction Programs. When any other payment method is used granting agencies may substitute the Financial Status Report specified in § 74.73.

**§ 74.77 Requests for supplementary Treasury checks.**

When the drawing authority for a specified period under a letter of credit is insufficient, the grantee may request a supplementary Treasury check payment by letter.

## Subpart J—Monitoring and Reporting of Program Performance

**§ 74.80 Scope of subpart.**

This subpart sets forth the procedures for monitoring and reporting program performance under HEW grants. These procedures are designed to place greater reliance on grantees to manage the day-to-day operations of their grant-supported activities.

**§ 74.81 Monitoring by grantees.**

Grantees shall constantly monitor the performance under grant-supported activities to assure that adequate progress is being made towards achieving the goals of the grant. This review shall be made for each program, function, or activity of each grant as set forth in the approved grant application or State plan.

**§ 74.82 Performance reports for nonconstruction grants.**

(a) Where the granting agency determines that performance information sufficient to meet its programmatic needs will be available from continuation or renewal applications, the granting agency will require the grantee to submit a performance report only with the final Financial Status Report (or other financial report equivalent thereto). Note that the "Application for Federal Assistance (Nonconstruction Programs)" prescribed by Subpart N of this part, when used to request a continuation or renewal, provides information substantially equivalent to a performance report.

(b) Except as provided in paragraph (a) of this section, or as otherwise authorized by OGPM, granting agencies shall require grantees to submit a performance report with each Financial Status Report (or other financial report equivalent thereto) in the frequency established by Subpart I of this part. The granting agency shall prescribe the frequency with which performance reports will be submitted with the Request for Advance or Reimbursement when that form is used in lieu of the Financial Status Report; in such cases performance reports may be required not more frequently than quarterly, or less frequently than annually.

(c) Performance reports shall include, to the extent appropriate to the particular grant, a brief presentation of the following for each program, function, or activity involved:

(1) A comparison of actual accomplishments to the goals established for the period. Where the output of grant programs can be readily quantified, such quantitative data should be related to cost data for computation of unit costs.

(2) Reasons for slippage in those cases where established goals were not met.

(3) Other pertinent information including, when appropriate, analysis and explanation of cost overruns or high unit costs.

**§ 74.83 Performance reports for construction grants.**

In general, granting agencies rely heavily on on-site technical inspection and certified percentage-of-completion data to keep themselves informed as to progress under construction grants. Therefore formal performance reports from grantees to supplement those sources of information shall be required only if deemed necessary by the granting agency, and in no case more frequently than quarterly.

**§ 74.84 Significant developments between scheduled reporting dates.**

Between the scheduled performance reporting dates, events may occur which have significant impact upon the grant-supported activity. In such cases, the grantee shall inform the granting agency as soon as the following types of conditions become known:

(a) Problems, delays, or adverse conditions which will materially impair the ability to attain the objectives of the grant. This disclosure shall be accompanied by a statement of the action taken, or contemplated, and any Federal assistance needed to resolve the situation.

(b) Favorable developments or events which enable meeting time schedules and goals sooner or at less cost than anticipated or producing more beneficial results than originally projected.

**§ 74.85 Budget revision.**

If any performance review conducted by the grantee discloses the need for change in the budget estimates in accordance with the criteria established in

V 38 1 81 SEP 19 73 XUM

Subpart L of this part, the grantee shall submit a request for budget revision.

**§ 74.86 Site visits.**

Site visits will be made by representatives of the Department or the granting agency as frequently as practicable to:

(a) Review program accomplishments and management control systems.

(b) Provide such technical assistance as may be required.

## Subpart K—Grant Payment Requirements

**§ 74.90 Scope of subpart.**

This subpart sets forth HEW's methods of making grant payments to grantees. These methods will minimize the time elapsing between the disbursement by a grantee and the transfer of funds from the United States Treasury to the grantee, whether such disbursement occurs prior to or subsequent to the transfer of funds.

**§ 74.91 Definitions.**

As used in this subpart:

"Advance by Treasury check" is a payment made by a Treasury check to a grantee upon its request or through the use of predetermined payment schedules before payments are made by the grantee.

"Letter of credit" is an instrument certified by an authorized official of a grantor agency which authorizes a grantee to draw funds when needed from the Treasury, through a Federal Reserve Bank and the grantee's commercial bank, in accordance with the provisions of Treasury Circular No. 1075.

"Percentage of completion method" refers to a system under which payments are made to the recipient of a construction grant according to a schedule which relates the amount and timing of each payment primarily or solely to the actual percentage of completion of the construction work under the grant rather than to the grantee's actual rate of disbursements.

"Reimbursement by Treasury check" is a payment made to a grantee with a Treasury check upon request for reimbursement from the grantee.

**§ 74.92 Payment methods for nonconstruction grants.**

(a) Letters of credit will be used to pay HEW grantees when all of the following conditions exist:

(1) There is or will be a continuing relationship between the grantee and the responsible HEW finance office for at least a twelve-month period and the total amount of advances to be received from the responsible HEW finance office is $250,000 or more, as prescribed by Treasury Circular No. 1075, and

(2) The grantee has established, or demonstrated to HEW the willingness and ability to establish procedures that will minimize the time elapsing between the transfer of funds from the Treasury and their disbursement by the grantee, and

(3) The grantee's financial management system meets the standards for fund control and accountability prescribed in Subpart H of this part.

(b) Advances by Treasury check will be used, in accordance with the provisions of Treasury Circular No. 1075, when the grantee meets all of the requirements specified in paragraph (a) of this section except those in paragraph (a)(1) of this section.

(c) Reimbursement by Treasury check will be the preferred (although not mandatory) method when the grantee does not meet the requirements specified in either or both of paragraphs (a)(2) and (a)(3) of this section. However, determinations to use the reimbursement by Treasury check method on these grounds may be made only by or with the concurrence of the Assistant Secretary, Comptroller, Department of Health, Education, and Welfare, or his designees. This method may also be used when the major portion of the program is accomplished through private market financing or Federal loans, and the Federal grant assistance constitutes a minor portion of the program.

(d) Grantees will be authorized to submit no less often than monthly their requests for advances or reimbursements when letters of credit or predetermined automatic Treasury check advances are not used.

**§ 74.93 Payment methods for construction grants.**

(a) The percentage of completion method will not be used to pay HEW construction grants.

(b) Reimbursement by Treasury check shall be the preferred method when the grantee does not meet the requirements specified in § 74.92(a) (2) and (3), and may be used for any other HEW construction grant except where HEW has entered into an agreement with a grantee to use a letter of credit for all HEW grants, including construction grants.

(c) When the reimbursement by Treasury check method is used, grantees will be authorized to submit no less often than monthly their requests for reimbursement.

(d) When the reimbursement by Treasury check method is not used, § 74.92 (a) and (b) shall be applicable to the construction grant. Implementing procedures under § 74.92 (a) and (b) shall be insofar as possible the same for construction grants as for nonconstruction grants awarded to the same grantee.

**§ 74.94 Withholding of payments.**

Unless otherwise required by law, payments for proper charges incurred by grantees will not be withheld unless the grant is suspended pursuant to § 74.113, or the grantee is indebted to the United States, and collection of the indebtedness will not impair the accomplishment of the objectives of any grant program sponsored by the United States. When a grant is suspended, payment adjustments will be made in accordance with § 74.113. When an indebtedness is to be collected, the HEW may, upon reasonable notice to the grantee, withhold from the grantee the right to receive payments under the grant(s) or require appropriate accounting adjustments to recorded grant cash balances for which the grantee is accountable to the Federal Government, in order to liquidate the indebtedness.

**§ 74.95 Requesting advances or reimbursements.**

Subpart I of this part sets forth the procedures and forms for requesting advances or reimbursements.

## Subpart L—Budget Revision Procedures

**§ 74.100 Scope of subpart.**

This subpart promulgates criteria and procedures to be followed by grantees in reporting deviations from grant budgets and requesting approvals for budget revisions. For those State plan or other grants which do not involve a "grant budget" as defined in § 74.101, only § 74.105 is applicable.

**§ 74.101 Grant budget.**

The term "grant budget" as used in this subpart means the financial plan approved by the granting agency for both the Federal and non-Federal shares to carry out the purpose of the grant. However, for those grant programs which do not involve Federal approval of a financial plan for the non-Federal share, the term "grant budget" shall mean the financial plan approved by the granting agency for use of the Federal grant funds to carry out the purpose of the grant. The grant budget is the financial expression of the project or program as approved during the grant application and award process. It should be related to performance for program evaluation purposes whenever appropriate and required by the granting agency.

**§ 74.102 Nonconstruction grants.**

(a) As used in paragraphs (b)(3) and (b)(4) of this section, the term "direct cost object class budget categories" means only the following:

(1) Personnel;
(2) Fringe benefits;
(3) Travel;
(4) Equipment;
(5) Supplies;
(6) Contractual;
(7) Construction; and
(8) Other.

(b) For nonconstruction grants, grantees shall request prior approvals promptly from grantor agencies for budget revisions whenever:

(1) The revision results from changes in the scope or the objective of the grant-supported program.

(2) The revision indicates the need for additional Federal funding.

(3) The grantee is a State or local government, the grant budget is over $100,000, and the cumulative amount of transfers among direct cost object class budget categories exceeds or is expected to exceed $10,000, or five percent of the grant budget, whichever is greater. The same criteria apply to the cumulative amount of transfers among programs, functions, and activities when budgeted separately for a grant awarded to a State or local government, except that the granting agency shall permit no transfer which would cause any Federal appropriation, or part thereof, to be used for purposes other than those intended.

(4) The grantee is a State or local government, the grant budget is $100,000, or less, and the cumulative amount of transfers among direct cost object class budget categories exceeds or is expected to exceed five percent of the grant budget. The same criteria apply to the cumulative amount of transfers among programs, functions, and activities when budgeted separately for a grant awarded to a State or local government, except that the granting agency shall permit no transfer which would cause any Federal appropriation, or part thereof, to be used for purposes other than those intended.

(5) The revisions involve the transfer of amounts budgeted for indirect costs to absorb increases in direct costs.

(6) The revisions pertain to the addition of items requiring prior approval by the granting agency in accordance with the provisions of the applicable cost principles specified in Subpart Q of this part.

(c) All other changes to nonconstruction grant budgets, except for the changes described in § 74.104, do not require approval. Examples of changes which do not require Federal approval are (1) the use of grantee funds in furtherance of program objectives over and above the grantee minimum share included in the approved grant budget and (2) the transfer of amounts budgeted for direct costs to absorb authorized increases in indirect costs.

(d) Paragraphs (b)(3) and (b)(4) of this section may be waived by the granting agency for those grant programs in which it determines that the requirements are not needed: *Provided, however,* That

(1) No different limitation or approval requirement for cumulative transfers may be imposed, and

(2) The granting agency shall in no case permit a transfer which would cause any Federal appropriation, or part thereof, to be used for purposes other than those intended.

**§ 74.103 Construction grants.**

For construction grants, grantees shall request prior approvals promptly from granting agencies for budget revisions whenever:

(a) The revision results from changes in the scope or the objective of the grant-supported program.

(b) The revision increases the budgeted amounts of Federal funds needed to complete the project.

**§ 74.104 Construction and nonconstruction work under the same grant.**

When a grant provides support for both construction and nonconstruction work, the granting agency may require the grantee to obtain prior approval from the granting agency before making any fund or budget transfers between the two types of work.

**§ 74.105 Authorized funds exceeding grantee needs.**

For both construction and nonconstruction grants, grantees shall notify the granting agency promptly whenever the amount of Federal authorized funds is expected to exceed the needs of the grantee by more than $5,000 or 5 percent of the Federal grant, whichever is greater. This notification will not be required where applications for additional funding are submitted for continuing grants, and such applications include the grantee's estimate of what the unobligated balance of Federal authorized funds will be at the end of the current period.

**§ 74.106 Method of requesting approvals.**

When requesting approval for budget revisions, grantees shall use the budget forms which were used in the grant application. However, grantees may request by letter the approvals required by the § 74.102(b)(6).

**§ 74.107 Notification of approval or disapproval.**

Within 30 days from the date of receipt of the request for budget revisions, the granting agency shall review the request and notify the grantee whether or not the budget revisions have been approved. If the revision is still under consideration at the end of 30 days, the granting agency shall inform the grantee in writing as to when the grantee may expect the decision.

## Subpart M—Grant Closeout, Suspension, and Termination

**§ 74.110 Definitions.**

As used in this subpart:

"Date of completion" means the date when all work under a grant is completed or the date in the grant award document, or any supplement or amendment thereto, on which Federal assistance ends.

"Disallowed costs" means those charges to a grant which the granting agency or its representative determines to be unallowable.

"Grant closeout" means the process by which a granting agency determines that all applicable administrative actions and all required work of the grant have been completed by the grantee and the granting agency.

"Suspension" means an action by a granting agency which temporarily suspends Federal assistance under the grant pending corrective action by the grantee or pending a decision to terminate the grant by the granting agency.

"Termination" means the cancellation of Federal assistance, in whole or in part, under a grant at any time prior to the date of completion.

**§ 74.111 Closeout.**

(a) In closing out HEW grants, the following shall be observed:

(1) Upon request, the granting agency shall make, or arrange for, prompt payment to the grantee for allowable reimbursable costs not covered by previous payments.

(2) The grantee shall immediately refund to the granting agency, or otherwise dispose of in accordance with instructions from the granting agency or the HEW financial officers representing the granting agency, any unencumbered balance of cash advanced to the grantee.

(3) The granting agency shall obtain from the grantee within 90 days after the date of completion of the grant all financial, performance, and other reports required as a condition of the grant. The agency may grant extensions when requested by the grantee.

(4) The granting agency shall make a settlement for any upward or downward adjustment of the Federal share of costs, to the extent called for by the terms and conditions of the grant.

(5) In the event a final audit has not been performed prior to the closeout of the grant, the granting agency shall retain the right to recover an appropriate amount after fully considering the recommendations on disallowed costs resulting from the final audit.

(b) The provisions of Subpart O of this part shall be observed by the grantee in accounting for any property acquired with grant funds, or received from the Federal Government in connection with the grant.

**§ 74.112 Violation of grant terms and conditions.**

When a grantee has materially failed to comply with the terms and conditions of a grant, the granting agency may suspend the grant, in accordance with § 74.113, terminate the grant for cause, as provided in § 74.114, or take such other remedies as may be legally available and appropriate in the circumstances.

**§ 74.113 Suspension.**

When a grantee has materially failed to comply with the terms and conditions of a grant, the granting agency may, after reasonable notice to the grantee, suspend the grant. No obligations incurred by the grantee during the period of suspension shall be allowable under the suspended grant, except that the granting agency may at its discretion allow necessary and proper costs which the grantee could not reasonably avoid during the period of suspension: *Provided,* That such costs would otherwise be allowable under the applicable cost principles specified in Subpart Q of this part. Appropriate adjustments to the payments under the suspended grant will be made, either by withholding the payments or by not allowing the grantee credit for disbursements which he may make in liquidation of unauthorized obligations he incurs during the period of suspension. Suspensions shall remain in effect until the grantee has taken corrective action to the satisfaction of the granting agency, or given assurances satisfactory to the granting agency that corrective action will be taken, or until the granting agency terminates the grant.

**§ 74.114 Termination.**

(a) *Termination for cause.* The granting agency may terminate any grant in whole, or in part, at any time before the date of completion, whenever it is determined that the grantee has materially failed to comply with the terms and con-

V 38 I 181 SEP 1973 XUM

ditions of the grant. The granting agency shall promptly notify the grantee in writing of the determination and the reasons for the termination, together with the effective date. Payments made to grantees or recoveries by granting agencies under grants terminated for cause shall be in accordance with the legal rights and obligations of the parties.

(b) *Termination on other grounds.* (1) Except as provided in paragraph (a) of this section, grants may be terminated in whole or in part only as follows:

(i) By the granting agency with the consent of the grantee, in which case the two parties shall agree upon the termination conditions, including the effective date and in the case of partial terminations, the portion to be terminated, or

(ii) By the grantee, upon written notification to the granting agency, setting forth the reasons for such termination, the effective date, and in the case of partial terminations, the portion to be terminated.

(2) When a grant is terminated pursuant to subparagraph (1) of this paragraph, the grantee shall not incur new obligations for the terminated portion after the effective date, and shall cancel as many outstanding obligations as possible. The granting agency shall allow full credit to the grantee for the Federal share of the noncancellable obligations properly incurred by the grantee prior to termination.

## Subpart N—Forms for Applying for Grants

### § 74.120 Scope of subpart.

This subpart promulgates forms and instructions to be used by applicants in applying to HEW for grants. This subpart is not applicable, however, to those formula grant programs which do not require applicants to apply to HEW for funds on a project basis.

### § 74.121 Authorized forms and instructions.

(a) Only those forms specified in §§ 74.122 through 74.126, inclusive, and such supplementary or other forms as may from time to time be authorized by OGPM and OMB may be used in applying for grants.

(b) All applicable standard instructions promulgated by OMB for use in connection with the forms specified in §§ 74.122 through 74.126, inclusive, shall be followed. Granting agencies may promulgate supplementary instructions only with the approval of OGPM and OMB.

(c) Applicants shall submit the original and two copies of their applications. However, granting agencies may waive the requirement for the second copy, or both copies, when not needed.

(d) Except as provided by § 74.106 all requests by grantees for changes, continuations, and supplements to approved grants shall be submitted on the same form as the original application. For those purposes, only the affected pages of the forms should be submitted.

(e) The forms (with their instructions) specified in §§ 74.122 through 74.126, inclusive, shall be available to the public upon request to any granting agency.

### § 74.122 Preapplication for Federal Assistance.

(a) The Preapplication for Federal Assistance form prescribed by Attachment M of OMB Circular No. A–102 shall be used to:

(1) Establish communication between the applicant and the granting agency;

(2) Determine the applicant's eligibility;

(3) Determine how well the project can compete with similar applications from others; and

(4) Eliminate any proposals which have little or no chance for Federal funding before applicants incur significant expenditures for preparing an application.

(b) Preapplication shall be mandatory for all construction, land acquisition, or land development projects for which the need for Federal funding exceeds $100,000. The granting agency may require preapplication for other types of grant projects, or for those for which the Federal funds requested are for $100,000 or less. In addition, any applicant shall have the right to submit a preapplication even when not required by the granting agency.

### § 74.123 Notice of Preapplication Review Action.

The Notice of Preapplication Review Action form prescribed by Attachment M of OMB Circular No. A–102 will be used by granting agencies to inform the applicant of the results of the review of the preapplications submitted to them. The granting agency will send a notice to the applicant within 45 days of the receipt of the preapplication form. When the review cannot be made within 45 days, the applicant will be informed by letter as to when the review will be completed.

### § 74.124 Application for Federal Assistance (Nonconstruction Programs).

The Application for Federal Assistance (Nonconstruction Programs) form prescribed by Attachment M of OMB Circular No. A–102 shall be used to apply for any grant to which this subpart is applicable except where the forms specified in §§ 74.125 and 74.126 are to be used.

### § 74.125 Application for Federal Assistance (for Construction Programs).

The Application for Federal Assistance (for Construction Programs) form prescribed by Attachment M of OMB Circular No. A–102 shall be used to apply for any grant whose purpose is solely or primarily construction, land acquisition, or land development.

### § 74.126 Application for Federal Assistance (Short Form).

The Application for Federal Assistance (Short Form) form prescribed by Attachment M of OMB Circular No. A–102 shall be used to apply for any single-purpose, one-time grant of less than $10,000 not requiring clearinghouse approval, an environmental impact statement, or the relocation of persons, businesses, or farms. Granting agencies may, at their discretion, authorize or prescribe this form for applications for larger amounts.

## Subpart O—Property

### § 74.130 Scope of subpart.

This subpart prescribes policies and procedures governing title, use, and disposition, for real and tangible personal property whose acquisition cost was borne in whole or in part as a direct charge by HEW grants, and ownership and rights for intangible personal property developed under HEW grants.

### § 74.131 General.

Grantees may follow their own property management policies and procedures, provided they observe the requirements of this subpart. With respect to property covered by this subpart, granting agencies may not impose on their grantees any requirements (including property reporting requirements) not authorized by this part unless specifically required by Federal law.

### § 74.132 Definitions.

As used in this subpart:

"Acquisition" of property includes purchase, construction, or fabrication of property.

"Acquisition cost" of nonexpendable personal property acquired by purchase means the net invoice price of the property, including any attachments, accessories, or auxiliary apparatus necessary to make the property usable for the purpose for which it was acquired. Ancillary charges such as taxes, duty, protective in-transit insurance, freight, or installation shall be included in or excluded from acquisition cost in accordance with the grantee's regular accounting practices.

"Expendable personal property" means all tangible personal property other than nonexpendable property.

"Nonexpendable personal property" means tangible personal property having a useful life of more than one year and an acquisition cost of $300 or more per unit. A grantee may use its own definition of nonexpendable personal property provided that such definition would at least include all tangible personal property as defined herein.

"Personal property" means property of any kind except real property. It may be tangible—having physical existence, or intangible—having no physical existence, such as patents, inventions, and copyrights.

"Real property" means land, land improvements, structures and appurtenances thereto, excluding movable machinery and equipment.

### § 74.133 Real property.

Title to real property whose acquisition cost was borne in whole or in part by an HEW grant shall vest in the grantee upon acquisition. In the absence of applicable statutory provisions governing the use or disposition of such property, it shall be subject to the following requirements, in addition to any

other requirements imposed by the terms and conditions of the grant:

(a) The grantee shall use the real property for the purposes authorized by the original grant as long as needed.

(b) The granting agency may authorize the grantee to use the property for the following (but no other) purposes when the grantee determines that the property is no longer needed for the originally authorized purposes:

(1) Activities sponsored by other Federal awards (regardless of which Federal agency makes the other awards), or

(2) Activities not sponsored by other Federal awards, but which nevertheless, have purposes consistent with those of the legislation under which the original grant was made.

(c)(1) When no longer used in accordance with paragraphs (a) and (b) of this section, the grantee shall return to the control of the granting agency all real property whose acquisition cost was borne wholly by an HEW grant. If the acquisition cost of the property was borne partly by an HEW grant, the grantee may be relieved of accountability to the Federal Government with respect to the Federal interest in the property by compensating the Federal Government for its fair share of the current value of the property, or if the grantee no longer needs the property, by selling it and compensating the Federal Government for its fair share of the sales proceeds.

(2) The amount of compensation to the Federal Government under subparagraph (1) of this paragraph shall be computed by applying the percentage of Federal participation in the cost of the project or program for which the property was acquired to the property's current fair market value (if the grantee retains the property) or to the proceeds from sale (if the grantee sells the property). In most cases, the real property will have been acquired under a grant whose purpose was to assist the grantee in acquiring the property (e.g., a construction grant). In such cases, the "total cost of the project or program for which the property was acquired" will ordinarily be the same as the acquisition cost of the property.

### § 74.134 Nonexpendable personal property.

(a) *Title.* Title to nonexpendable personal property whose acquisition cost is borne wholly or in part by an HEW grant shall vest in the grantee upon acquisition, and except as provided in § 74.138, shall be subject to the restrictions on use and disposition set forth in paragraphs (b) and (c) of this section.

(b) *Use.* (1) The grantee shall use the property in the original grant project as long as there is a need for such property to accomplish the purpose of the project, whether or not the project continues to be supported by Federal funds.

(2) When there is no longer a need for the property to accomplish the purpose of the original project, the grantee shall use the property in connection with other Federal awards it has received in the following order of priority:

(i) Other awards made by the same granting agency needing the property;

(ii) Awards of other Federal agencies (including non-HEW agencies) needing the property.

(3) When the grantee no longer has need for such property in any of its federally financed activities, the property may be used for the grantee's own official activities in accordance with the following standards:

(i) If the property had an acquisition cost of less than $500 per unit and has been used four years or more, the grantee may use the property without reimbursement to the Federal Government or sell the property and retain the proceeds.

(ii) For all such property not covered under subdivision (i) of this subparagraph, the grantee may retain the property for its own use: *Provided*, That a fair compensation is made to the Federal Government for the Federal share of the property. The amount of such compensation shall be computed by applying the percentage of Federal participation in the cost of the project to the current fair market value of the property.

(c) *Disposition.* If the grantee has no need for the property, disposition of the property shall be made as follows:

(1) If the property had an acquisition cost of $1,000 or less per unit (except for property covered under paragraph (b)(3)(i) of this section), the grantee shall sell the property and reimburse the Federal Government in accordance with paragraph (c)(2)(iii) of this section.

(2) If the property had an acquisition cost of over $1,000 per unit, the grantee shall request disposition instructions from the granting agency. The granting agency shall issue instructions to the grantee within 120 days following the receipt of such request and the following procedures shall govern:

(i) If the grantee is instructed to ship the property elsewhere, the grantee shall be reimbursed with an amount which is computed by applying the percentage of the grantee's participation in the cost of the project to the current fair market value of the property, plus any shipping or interim storage costs incurred.

(ii) If the grantee is instructed to otherwise dispose of the property, the grantee shall be reimbursed for the costs incurred in such disposition.

(iii) If disposition or other instructions are not issued within the 120-day period specified in subparagraph (2) of this paragraph, the grantee shall sell the property and reimburse the Federal Government with an amount which is computed by applying the percentage of Federal participation in the cost of the project to the sales proceeds. The grantee may, however, deduct and retain from that amount $100 or 10 percent of the total sales proceeds, whichever is greater, for the grantee's selling and handling expenses.

### § 74.135 Transfer of title to certain property.

(a) Where the granting agency determines that an item of nonexpendable personal property with an acquisition cost of $1,000 or more which is to be borne wholly by an HEW grant is unique, difficult, or costly to replace, the granting agency may reserve the right to require the grantee to transfer title to the property to the Federal Government or to a third party named by the granting agency.

(b) Such reservation shall be subject to the following:

(1) The right to require transfer of title may be reserved only by means of an express special condition in the grant award document, or, if approval for the acquisition of the property is given after the grant is awarded, by means of a written stipulation at the time such approval is given.

(2) The property must be appropriately identified in the award document or otherwise made known to the grantee.

(3) The granting agency may not exercise the right until the grantee no longer needs the property in the project for which it was acquired. Such need shall be assumed to end on the date of completion or termination of the grant unless the grantee continues to conduct the project after that date and demonstrates to the granting agency a continued need for the property in the project.

(4) In order to exercise the right, the granting agency must issue disposition instructions to the grantee not later than 120 days after the grantee no longer needs the property in the project for which it was acquired. If instructions are not issued within that time, the granting agency's right shall lapse, and the grantee shall act in accordance with the applicable standards in paragraphs (b)(1), (b)(2), (b)(3), and (c)(2) of § 74.134.

(5) The grantee shall be entitled to reimbursement for any shipping and interim storage costs it incurs pursuant to the granting agency's disposition instructions.

### § 74.136 Property management standards.

Grantees' property management standards for nonexpendable personal property covered by § 74.134 shall include the following procedural requirements:

(a) Property records shall be maintained accurately and provide for:

(1) A description of the property;

(2) Manufacturer's serial number or other identification number;

(3) Acquisition date and cost;

(4) Source of the property;

(5) Percentage of Federal funds used in the acquisition of the property;

(6) Location, use, and condition of the property; and

(7) Ultimate disposition data including sales price or the method used to determine current fair market value if the grantee reimburses the Federal Government for the Federal share.

(b) A physical inventory of property shall be taken and the results reconciled with the property records at least once every two years to verify the existence, current utilization, and continued need for the property.

V 38 I 181
SEP 19 73
XUM

(c) A control system shall be in effect to insure adequate safeguards to prevent loss, damage, or theft to the property. Any loss, damage, or theft of nonexpendable personal property shall be investigated and fully documented.

(d) Adequate maintenance procedures shall be implemented to keep the property in good condition.

(e) Proper sales procedures shall be established for unneeded property which would provide for competition to the extent practicable and result in the highest possible return.

**§ 74.137 Expendable personal property.**

(a) *Consumable materials and supplies.* The cost principles prescribed by Subpart Q of this part provide, in effect, that the cost of consumable supplies or materials is allowable only to the extent that the supplies or materials are reasonably necessary to carry out the grant-supported project or program. Amounts in excess of need are therefore not allowable costs.

(b) *Other expendable personal property.* In many cases, items of expendable personal property (other than consumable supplies or materials) whose acquisition cost was borne in whole or in part by a grant have a useful life longer than the period of need on the project or program for which they were required. The grantee may at its option either retain or sell such items when no longer needed for any federally sponsored activity (including activities sponsored by other Federal agencies). However, compensation to the granting agency shall be required if the aggregate fair market value of all such items acquired under the same grant exceeds $500 when no longer needed for any federally sponsored activity. The amount of compensation shall be computed by applying the percentage of Federal participation in the cost of the original grant project or program to the current fair market value of items retained, and to the sales proceeds of items sold.

**§ 74.138 Waiver of accountability.**

(a) Where authorized under Federal law (e.g., (42 U.S.C. 1892) Pub. L. 85-934) title to tangible personal property whose acquisition cost is borne in whole or in part by an HEW grant shall vest in the grantee without regard to any other requirements of this part and without further obligation to the Federal Government, except as provided in paragraph (b) of this section.

(b) When title to an item of property having an acquisition cost of $1,000 or more is vested in the grantee pursuant to paragraph (a) of this section, the granting agency shall have the right to require the grantee to transfer title to the item of property to the Federal Government or to a third party named by the granting agency. The right may be exercised at any time, but no later than twelve months after the granting agency has received the final Financial Status Report (or other final financial report serving an essentially equivalent function) from the grantee after completion or termination of the project for which the property was acquired. If the right is exercised, the grantee shall be entitled to reimbursement for the costs incurred in transferring the property.

**§ 74.139 Patents and inventions.**

(a) All inventions conceived for first actually reduced to practice in the course of or under an HEW grant are subject to the Department of Health, Education, and Welfare Patent Regulations (Parts 6 and 8 of this title). Each such invention shall be promptly and fully reported to the Assistant Secretary for Health, Department of Health, Education, and Welfare.

(b) Determination as to ownership and disposition of rights to such inventions, including whether a patent application shall be filed, and, if so, the manner of obtaining, administering, and disposing of rights under any patent application or patent which may issue shall be made either:

(1) By the Assistant Secretary for Health, whose decision shall be considered as final, or

(2) Where the grantee has a separate formal institutional patent agreement with HEW, by the grantee in accordance with that agreement.

**§ 74.140 Copyrights.**

When a book or other copyrightable material is developed under a grant made to a State or local government, the author or grantee is free to copyright the work, but HEW shall have a royalty-free, nonexclusive and irrevocable license to reproduce, publish, or otherwise use, and to authorize others to use the work for Government purposes. If the grantee is not a State or local government, the copyright policies of the granting agency shall govern.

**§ 74.141 Determining percentage of participation.**

(a) Various provisions in this subpart require a determination of the percentage of Federal (or grantee) participation in the cost of the project or program in order to compute the amount of compensation for the value, or proceeds from sale, of property. In determining the applicable percentage, there shall first be deducted from the allowable costs incurred during the grant period, any royalties or other income (not including interest income or proceeds from sale of property) earned by the grant-supported project or program during the grant period.

(b) The deduction of income required by paragraph (a) of this section is independent of, and is not intended to control, the disposition of such income pursuant to Subpart F of this part.

## Subpart P—Procurement Standards

**§ 74.150 Scope of subpart.**

(a) This subpart provides standards for use by grantees in establishing procedures for the procurement of supplies, equipment, construction, and other services whose cost is borne in whole or in part as a direct charge by HEW grants. These standards are furnished to insure that such materials and services are obtained in an effective manner and in compliance with the provisions of applicable Federal law and Executive Orders. No additional procurement standards will be imposed by HEW upon grantees unless specifically required by Federal law or Executive Orders.

(b) Except for § 74.159(c) the requirements of this subpart are applicable only to procurements, and not to subgrants or other forms of financial assistance provided by grantees to third parties.

**§ 74.151 General.**

(a) Grantees may use their own procurement policies provided that procurements whose cost is borne in whole or in part as a direct charge by HEW grants adhere to the standards set forth in this subpart.

(b) The standards contained in this subpart do not relieve the grantee of the responsibilities arising under its contracts. The grantee is the responsible authority regarding the settlement and satisfaction of all contractual and administrative issues arising out of procurements entered into in support of a grant. This includes but is not limited to: Disputes, claims, protests of award, source evaluation, or other matters of a contractual nature. Matters concerning violation of law are to be referred to such local, State, or Federal authority as may have proper jurisdiction.

**§ 74.152 Code of conduct.**

The grantee shall maintain a code or standard of conduct which shall govern the performance of its officers, employees, or agents in contracting with and expending Federal grant funds. The grantee's officers, employees or agents, shall neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or potential contractors. To the extent permissible under State or local law, rules or regulations, or if the grantee is not a State or local government to the extent that the grantee determines that it has the legal and practical capacity for enforcement, such standards shall provide for appropriate penalties, sanctions, or other disciplinary actions to be applied for violations of such standards either by the grantee's officers, employees, or agents, or by contractors or their agents.

**§ 74.153 Free competition.**

All procurement transactions of the grantee regardless of whether negotiated or advertised and without regard to dollar value shall be conducted in a manner so as to provide maximum open and free competition. The grantee should be alert to organizational conflicts of interest or noncompetitive practices among contractors which may restrict or eliminate competition or otherwise restrain trade.

**§ 74.154 Procedural requirements.**

The grantee shall establish procurement procedures which provide for, as a minimum, the following:

(a) Proposed procurement actions shall be reviewed by appropriate grantee officials to avoid purchasing unnecessary or duplicative items. Where appropriate, an analysis shall be made of lease and purchase alternatives to determine which would be the most economical, practical procurement.

(b) Invitations for bids or requests for proposals shall be based upon a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description shall not, in competitive procurements, contain features which unduly restrict competition. "Brand name or equal" description may be used as a means to define the performance or other salient requirements of a procurement, and when so used, the specific features of the named brand which must be met by offerors should be clearly specified.

(c) Positive efforts shall be made by the grantees to utilize small business and minority-owned business sources of supplies and services. Such efforts should allow these sources the maximum feasible opportunity to compete for contracts to be performed under Federal grants.

(d) The type of procuring instruments used (i.e., fixed-price contracts, cost reimbursable contracts, purchase orders, incentive contracts, etc.), shall be appropriate for the particular procurement and for promoting the purposes of the grant project or program involved. The "cost-plus-a-percentage-of-cost" method of contracting shall not be used.

(e) If the grantee is a State or local government, formal advertising, with adequate purchase description, sealed bids, and public openings shall be the required method of procurement unless negotiation pursuant to § 74.155 is necessary to accomplish sound procurement. However, procurements of $2,500 or less need not be so advertised unless otherwise required by State or local law or regulations. When formal advertising is employed by the State or local government:

(1) The awards shall be made to the responsible bidder whose bid is responsive to the invitation and is most advantageous to the State or local government grantee, price and other factors considered. Factors such as discounts, transportation costs, and taxes may be considered in determining the lowest bid.

(2) Invitations for bids shall clearly set forth all requirements which the bidder must fulfill in order for his bid to be evaluated by the State or local government grantee.

(3) Any or all bids may be rejected when it is in the State or local government grantee's interest to do so, and such rejections are in accordance with applicable State or local law, rules, and regulations.

**§ 74.155 Negotiated procurements by State or local governments.**

(a) Procurements may be negotiated by State or local government grantees if it is not practicable or feasible to use formal advertising. Generally, procurements may be negotiated if one or more of the following conditions prevail:

(1) The public exigency will not permit the delay incident to advertising;

(2) The material or service to be procured is available from only one person or firm; all contemplated sole source procurements where the aggregate expenditure is expected to exceed $5,000 shall be referred to the granting agency for prior approval if such approval is required by the granting agency;

(3) The aggregate amount involved does not exceed $2,500;

(4) The contract is for personal or professional services, or for any service to be rendered by a university, college, or other educational institution;

(5) The material or services are to be procured and used outside the limits of the United States and its possessions;

(6) No acceptable bids have been received after formal advertising;

(7) The purchases are for highly perishable materials or medical supplies, for material or services where the prices are established by law, for technical items or equipment requiring standardization and interchangeability of parts with existing equipment, for experimental, developmental or research work, for supplies purchased for authorized resale, and for technical or specialized supplies requiring substantial initial investment for manufacture;

(8) Negotiation is otherwise authorized by applicable Federal, State, or local law, rules or regulations.

(b) Notwithstanding the existence of circumstances justifying negotiation, competition shall be obtained to the maximum extent practicable.

**§ 74.156 Contractor responsibility.**

Contracts shall be made by grantees only with responsible contractors who possess the potential ability to perform successfully under the terms and conditions of a proposed procurement. Consideration shall be given to such matters as contractor integrity, record of past performance, financial and technical resources, and accessibility to other necessary resources.

**§ 74.157 Records for negotiated procurements by State or local governments.**

The procurement records or files of State or local government grantees for negotiated purchases in amounts in excess of $2,500 shall include the following pertinent information: justification for the use of negotiation in lieu of advertising, contractor selection, and the basis for the cost or price negotiated. Justification for the use of negotiation in lieu of advertising may be provided on a class basis or on an individual contract basis.

**§ 74.158 Contract administration system.**

A system for contract administration shall be maintained by the grantee to assure contractor compliance with terms, conditions, and specifications of the contract or order, and to assure adequate and timely follow up of all purchases.

**§ 74.159 Contract and subgrant provisions.**

(a) *General.* (1) The grantee shall include provisions to define a sound and complete agreement in all contracts and subgrants which it awards when the contract or subgrant costs are to be borne as a direct charge in whole or in part by an HEW grant.

(2) In awarding such contracts, the grantee must comply with the applicable requirements of paragraphs (b) and (c) of this section.

(3) In awarding such subgrants, the grantee must comply with the applicable requirements of paragraph (c) of this section.

(b) *Contracts under HEW grants.* (1) If the grantee is a State or local government, its contracts shall contain contractual provisions or conditions which will allow for administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as may be appropriate.

(2) All contracts awarded by State or local government grantees in excess of $2,500 shall contain suitable provisions for termination by the grantee including the manner by which it will be effected and the basis for settlement. In addition, such contracts shall set forth the conditions under which the contract may be terminated for default as well as conditions where the contract may be terminated because of circumstances beyond the control of the contractor.

(3) In all contracts for construction or facility improvement awarded in excess of $100,000, the bonding requirements set forth in Subpart C of this part shall be observed.

(4) All negotiated contracts (except those of $2,500 or less) shall include provisions giving access to, and requiring retention of, the contractor's records in accordance with §§ 74.20, 74.21, and 74.23(b).

(c) *Contracts and subgrants under HEW grants.* (1) Provisions for compliance with Executive Order No. 11246, entitled, "Equal Employment Opportunity," as supplemented in Department of Labor regulations (41 CFR Part 60) shall be included in all contracts and subgrants to which they are applicable.

(2) All contracts and subgrants in excess of $2,000 for construction or repair shall include a provision for compliance with the Copeland "Anti-Kick Back" Act (18 U.S.C. 874) as implemented in Department of Labor regulations (29 CFR Part 3). The grantee shall report all suspected or reported violations to the granting agency.

(3) When required by the HEW grant program enabling legislation, all construction contracts awarded by grantees and subgrantees in excess of $2,000 shall include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 276a to a–7) as supplemented by Department of Labor regulations (29 CFR Part 5). The grantee shall report all suspected or reported violations to the granting agency.

(4) Where applicable, all construction contracts exceeding $2,000 awarded by

V 38 I 181 SEP 19 73 XUM

grantees and subgrantees, and all other contracts awarded by them which exceed $2,500 and which involve the employment of mechanics and laborers, shall include a provision for compliance with sections 103 and 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 327–330) as implemented by Department of Labor regulations (29 CFR Part 5).

(5) All research or development agreements, whether contracts or subgrants, shall contain a notice to the effect that rights to inventions conceived or first actually reduced to practice in the course of or under the agreement shall be governed by the Department's Patent Regulations (Parts 6 and 8 of this title), implementing terms and conditions of the HEW grant, and any pertinent regulations or other requirements consistent therewith issued by the grantee. The grantee shall assure that the performer of the research or development work either is given all necessary information regarding these matters, or is advised as to the source of such information. This subparagraph shall also apply to nonresearch and nondevelopment awards in fields of science or technology in which there has been little significant experience outside of work funded by the Federal Government.

(6) Each contract of an amount in excess of $2,500 awarded by a grantee or subgrantee shall provide that the recipient will comply with applicable regulations and standards of the Cost of Living Council in establishing wages and prices. The provision shall advise the recipient that submission of a bid or offer or the submittal of an invoice or voucher for property, goods, or services furnished under a contract or agreement with the grantee or subgrantee shall constitute a certification by him that amounts to be paid do not exceed maximum allowable levels authorized by the Cost of Living Council regulations or standards. Suspected violations shall be reported by the grantee in writing to the local Internal Revenue Service field office with a copy to the granting agency.

(7) Contracts and subgrants in excess of $100,000 shall contain a provision which requires the recipient to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act of 1970 as amended (42 U.S.C. 1857b. et seq.). Suspected violations shall be reported by the grantee in writing to the regional office of the United States Environmental Protection Agency, with a copy to the granting agency.

## Subpart Q—Cost Principles

### § 74.170 Scope of subpart.

This subpart establishes the principles to be used (except to the extent inconsistent with an applicable Federal statute or regulation) in determining costs applicable to HEW grants, and to subgrants or cost-type contracts under HEW grants.

### § 74.171 Grants to State or local governments.

The principles to be used in determining the allowable costs of activities conducted or administered by State and local governments under grants (and subgrants) or cost-type contracts awarded to them under grants) are set forth in Appendix C to this part.

### § 74.172 Grants to institutions of higher education.

(a) *Research and development.* The principles for determining the allowable costs of research and development work performed by institutions of higher education under grants (and subgrants or cost-type contracts awarded to them under grants) are set forth in Part I of Appendix D to this part.

(b) *Training and other educational services.* The principles for determining the allowable costs of training and other educational services provided by institutions of higher education under grants (and subgrants or cost-type contracts awarded to them under grants) are set forth in Part II of Appendix D to this part.

(c) *Other activities.* Appendix D to this part shall be used as a guide for determining the allowable costs of other activities conducted by institutions of higher education under grants (and subgrants or cost-type contracts awarded to them under grants).

### § 74.173 Grants to hospitals.

(a) *Research and development.* The principles for determining the allowable costs of research and development work performed by hospitals under grants (and subgrants or cost-type contracts awarded to them under grants) are set forth in Appendix E to this part.

(b) *Other activities.* Appendix E to this part shall be used as a guide for determining the allowable costs of other activities conducted by hospitals under grants (and subgrants or cost-type contracts awarded to them under grants).

### § 74.174 Grants to other nonprofit organizations.

(a) *Nonconstruction.* The principles for determining the allowable costs of activities conducted by nonprofit organizations other than institutions of higher education, hospitals, States, and local governments under nonconstruction grants (and nonconstruction subgrants or cost-type contracts awarded to them under grants) are set forth in Appendix F to this part.

(b) *Construction.* Appendix F to this part shall be used as a guide for determining the allowable costs of work under construction grants to nonprofit organizations (other than institutions of higher education, hospitals, States, and local governments) and any construction subgrants or cost-type contracts awarded to such nonprofit organizations under grants.

### § 74.175 Subgrants and cost-type contracts.

(a) It should be noted that the cost principles applicable to a subgrantee or cost-type contractor under an HEW grant will not necessarily be the same as those applicable to the grantee. For example, where a State government awards a subgrant or cost-type contract to an institution of higher education, Appendix D to this part would apply to the costs incurred by the institution of higher education, even though Appendix C would apply to the costs incurred by the State.

(b) The principles to be used in determining the allowable costs of work performed by commercial organizations under cost-type contracts awarded to them under HEW grants are set forth in 41 CFR Subpart 1.15.2.

APPENDIX A [RESERVED]

APPENDIX B [RESERVED]

APPENDIX C—PRINCIPLES FOR DETERMINING COSTS APPLICABLE TO GRANTS AND CONTRACTS WITH STATE AND LOCAL GOVERNMENTS

PART I—GENERAL

A. PURPOSE AND SCOPE

1. *Objectives.* This appendix sets forth principles for determining the allowable costs of programs administered by State and local governments under grants from and contracts with the Federal Government. The principles are for the purpose of cost determination and are not intended to identify the circumstances or dictate the extent of Federal and State or local participation in the financing of a particular grant. They are designed to provide that federally assisted programs bear their fair share of costs recognized under these principles, except where restricted or prohibited by law. No provision for profit or other increment above cost is intended.

2. *Policy guides.* The application of these principles is based on the fundamental premises that:

a. State and local governments are responsible for the efficient and effective administration of grant and contract programs through the application of sound management practices.

b. The grantee or contractor assumes the responsibility for seeing that federally assisted program funds have been expended and accounted for consistent with underlying agreements and program objectives.

c. Each grantee or contractor organization, in recognition of its own unique combination of staff facilities and experience, will have the primary responsibility for employing whatever form of organization and management techniques may be necessary to assure proper and efficient administration.

3. *Application.* These principles will be applied in determining costs incurred by State and local governments under Federal grants and cost reimbursement type contracts (including subgrants and subcontracts) except those with (a) publicly financed educational institutions subject to Appendix D to this part and (b) publicly owned hospitals and other providers of medical care subject to requirements of Appendix E to this part.

B. DEFINITIONS

1. *Approval or authorization of the grantor Federal agency* means documentation evidencing consent prior to incurring specific cost.

2. *Cost allocation plan* means the documentation identifying, accumulating, and distributing allowable costs under grants and contracts together with the allocation methods used.

3. *Cost,* as used herein, means cost as determined on a cash, accrual, or other basis acceptable to the Federal grantor agency as a discharge of the grantee's accountability for Federal funds.

4. *Cost objective* means a pool, center, or area established for the accumulation of cost. Such areas include organizational units, functions, objects or items of expense, as well as ultimate cost objectives including specific grants, projects, contracts, and other activities.

5. *Federal agency* means the Department of Health, Education, and Welfare.

6. *Grant* means an agreement between the Federal Government and a State or local government whereby the Federal Government provides funds or aid in kind to carry out specified programs, services, or activities. The principles and policies stated in this appendix as applicable to grants in general also apply to any federally sponsored cost reimbursement type of agreement performed by a State or local government, including contracts, subcontracts and subgrants.

7. *Grant program* means those activities and operations of the grantee which are necessary to carry out the purposes of the grant, including any portion of the program financed by the grantee.

8. *Grantee* means the department or agency of State or local government which is responsible for administration of the grant.

9. *Local unit* means any political subdivision of government below the State level.

10. *Other State or local agencies* means departments or agencies of the State or local unit which provide goods, facilities, and services to a grantee.

11. *Services,* as used herein, means goods and facilities, as well as services.

12. *Supporting services* means auxiliary functions necessary to sustain the direct effort involved in administering a grant program or an activity providing service to the grant program. These services may be centralized in the grantee department or in some other agency, and include procurement, payroll, personnel functions, maintenance and operation of space, data processing, accounting, budgeting, auditing, mail and messenger service, and the like.

C. BASIC GUIDELINES

1. *Factors affecting allowability of costs.* To be allowable under a grant program, costs must meet the following general criteria:

a. Be necessary and reasonable for proper and efficient administration of the grant program, be allocable thereto under these principles, and, except as specifically provided herein, not be a general expense required to carry out the overall responsibilities of State or local governments.

b. Be authorized or not prohibited under State or local laws or regulations.

c. Conform to any limitations or exclusions set forth in these principles, Federal laws, or other governing limitations as to types or amounts of cost items.

d. Be consistent with policies, regulations, and procedures that apply uniformly to both federally assisted and other activities of the unit of government of which the grantee is a part.

e. Be accorded consistent treatment through application of generally accepted accounting principles appropriate to the circumstances.

f. Not be allocable to or included as a cost of any other federally financed program in either the current or a prior period.

g. Be net of all applicable credits.

2. *Allocable costs.* a. A cost is allocable to a particular cost objective to the extent of benefits received by such objective.

b. Any cost allocable to a particular grant or cost objective under the principles provided for in this appendix may not be shifted to other Federal grant programs to overcome fund deficiencies, avoid restrictions imposed by law or grant agreements, or for other reasons.

c. Where an allocation of joint cost will ultimately result in charges to a grant program, an allocation plan will be required as prescribed in section J.

3. *Applicable credits.* a. Applicable credits refer to those receipts or reduction of expenditure-type transactions which offset or reduce expense items allocable to grants as direct or indirect costs. Examples of such transactions are: purchase discounts; rebates or allowances; recoveries or indemnities on losses; sale of publications, equipment, and scrap; income from personal or incidental services; and adjustments of overpayments or erroneous charges.

b. Applicable credits may also arise when Federal funds are received or are available from sources other than the grant program involved to finance operations or capital items of the grantee. This includes costs arising from the use or depreciation of items donated or financed by the Federal Government to fulfill matching requirements under another grant program. These types of credits should likewise be used to reduce related expenditures in determining the rates or amounts applicable to a given grant.

D. COMPOSITION OF COST

1. *Total cost.* The total cost of a grant program is comprised of the allowable direct cost incident to its performance, plus its allocable portion of allowable indirect costs, less applicable credits.

2. *Classification of costs.* There is no universal rule for classifying certain costs as either direct or indirect under every accounting system. A cost may be direct with respect to some specific service or function, but indirect with respect to the grant or other ultimate cost objective. It is essential therefore that each item of cost be treated consistently either as a direct or an indirect cost. Specific guides for determining direct and indirect costs allocable under grant programs are provided in the sections which follow.

E. DIRECT COSTS

1. *General.* Direct costs are those that can be identified specifically with a particular cost objective. These costs may be charged directly to grants, contracts, or to other programs against which costs are finally lodged. Direct costs may also be charged to cost objectives used for the accumulation of costs pending distribution in due course to grants and other ultimate cost objectives.

2. *Application.* Typical direct costs chargeable to grant programs are:

a. Compensation of employees for the time and effort devoted specifically to the execution of grant programs.

b. Cost of materials acquired, consumed, or expended specifically for the purpose of the grant.

c. Equipment and other approved capital expenditures.

d. Other items of expense incurred specifically to carry out the grant agreement.

e. Services furnished specifically for the grant program by other agencies, provided such charges are consistent with criteria outlined in Section G of these principles.

F. INDIRECT COSTS

1. *General.* Indirect costs are those (a) incurred for a common or joint purpose benefiting more than one cost objective, and (b) not readily assignable to the cost objectives specifically benefited, without effort disproportionate to the results achieved. The term "indirect costs," as used herein, applies to costs of this type originating in the grantee department, as well as those incurred by other departments in supplying goods, services, and facilities, to the grantee department. To facilitate equitable distribution of indirect expenses to the cost objectives served, it may be necessary to establish a number of pools of indirect cost within a grantee department or in other agencies providing services to a grantee department. Indirect cost pools should be distributed to benefiting cost objectives on bases which will produce an equitable result in consideration of relative benefits derived.

2. *Grantee departmental indirect costs.* All grantee departmental indirect costs, including the various levels of supervision, are eligible for allocation to grant programs provided they meet the conditions set forth in this Appendix. In lieu of determining the actual amount of grantee departmental indirect cost allocable to a grant program, the following methods may be used:

a. *Predetermined fixed rates for indirect costs.* A predetermined fixed rate for computing indirect costs applicable to a grant may be negotiated annually in situations where the cost experience and other pertinent facts available are deemed sufficient to enable the contracting parties to reach an informed judgment (1) as to the probable level of indirect costs in the grantee department during the period to be covered by the negotiated rate, and (2) that the amount allowable under the predetermined rate would not exceed actual indirect cost.

b. *Negotiated lump sum for overhead.* A negotiated fixed amount in lieu of indirect costs may be appropriate under circumstances where the benefits derived from a grantee department's indirect services cannot be readily determined as in the case of small, self-contained or isolated activity. When this method is used, a determination should be made that the amount negotiated will be approximately the same as the actual indirect cost that may be incurred. Such amounts negotiated in lieu of indirect costs will be treated as an offset to total indirect expenses of the grantee department before allocation to remaining activities. The base on which such remaining expenses are allocated should be appropriately adjusted.

3. *Limitation on indirect costs.* a. Federal grants may be subject to laws that limit the amount of indirect cost that may be allowed. Agencies that sponsor grants of this type will establish procedures which will assure that the amount actually allowed for indirect costs under each such grant does not exceed the maximum allowable under the statutory limitation or the amount otherwise allowable under this Appendix, whichever is the smaller.

b. When the amount allowable under a statutory limitation is less than the amount otherwise allocable as indirect costs under this Appendix, the amount not recoverable as indirect costs under a grant may not be shifted to another federally sponsored grant program or contract.

G. COST INCURRED BY AGENCIES OTHER THAN THE GRANTEE

1. *General.* The cost of service provided by other agencies only may include allowable direct costs of the service plus a pro rata share of allowable supporting costs (section B.12.) and supervision directly required in performing the service, but not supervision of a general nature such as that provided by the head of a department and his staff assistants not directly involved in operations. However, supervision by the head of a department or agency whose sole function is providing the service furnished would be an eligible cost. Supporting costs include those furnished by other units of the supplying department or by other agencies.

2. *Alternative methods of determining indirect cost.* In lieu of determining actual indirect cost related to a particular service furnished by another agency, either of the following alternative methods may be used provided only one method is used for a spe-

V 38 I 181 SEP 19 73 XUM

cific service during the fiscal year involved.

a. *Standard indirect rate.* An amount equal to 10 percent of direct labor cost in providing the service performed by another State agency (excluding overtime, shift, or holiday premiums and fringe benefits) may be allowed in lieu of actual allowable indirect cost for that service.

b. *Predetermined fixed rate.* A predetermined fixed rate for indirect cost of the unit or activity providing service may be negotiated as set forth in section F.2.a.

H. COST INCURRED BY GRANTEE DEPARTMENT FOR OTHERS

1. *General.* The principles provided in section G. will also be used in determining the cost of services provided by the grantee department to another agency.

J. COST ALLOCATION PLAN

1. *General.* A plan for allocation of costs will be required to support the distribution of any joint costs related to the grant program. All costs included in the plan will be supported by formal accounting records which will substantiate the propriety of eventual charges.

2. *Requirements.* The allocation plan of the grantee department should cover all joint costs of the department as well as costs to be allocated under plans of other agencies or organizational unit which are to be included in the costs of federally sponsored programs. The cost allocation plans of all the agencies rendering services to the grantee department, to the extent feasible, should be presented in a single document. The allocation plan should contain, but not necessarily be limited to, the following:

a. The nature and extent of services provided and their relevance to the federally sponsored programs.

b. The items of expense to be included.

c. The methods to be used in distributing cost.

3. *Instructions for preparation of cost allocation plans.* The Department of Health, Education, and Welfare, in consultation with the other Federal agencies concerned, will be responsible for developing and issuing the instructions for use by State and local government grantees in preparation of cost allocation plans. This responsibility applies to both central support services at the State and local government level as well as indirect cost proposals of individual grantee departments.

4. *Negotiation and approval of indirect cost proposals for States.* a. The Department of Health, Education, and Welfare, in collaboration with the other Federal agencies concerned, will be responsible for negotiation, approval and audit of cost allocation plans, which will be submitted to it by the States. These plans will cover central support service costs of the State.

b. At the grantee department level in a State, a single Federal agency will have responsibility similar to that set forth in a. above for the negotiation, approval and audit of the indirect cost proposal. Cognizant Federal agencies have been designated for this purpose. Changes which may be required from time to time in agency assignments will be arranged by the Department of Health, Education, and Welfare in collaboration with the other interested agencies, and submitted to the Office of Management and Budget for final approval. A current list of agency assignments will be maintained by the Department of Health, Education, and Welfare.

c. Questions concerning the cost allocation plans approved under a. and b. above should be directed to the agency responsible for such approvals.

5. *Negotiation and approval of indirect cost proposals for local governments.* a. Cost allocation plans will be retained at the local government level for audit by a designated Federal agency except in those cases where that agency requests that cost allocation plans be submitted to it for negotiation and approval.

b. A list of cognizant Federal agencies assigned responsibility for negotiation, approval and audit of central support service cost allocation plans at the local government level is being developed. Changes which may be required from time to time in agency assignments will be arranged by the Department of Health, Education, and Welfare in collaboration with the other interested agencies, and submitted to the Office of Management and Budget for final approval. A current list of agency assignments will be maintained by the Department of Health, Education, and Welfare.

c. At the grantee department level of local governments, the Federal agency with the predominant interest in the work of the grantee department will be responsible for necessary negotiation, approval and audit of the indirect cost proposal.

6. *Resolution of problems.* To the extent that problems are encountered among the Federal agencies in connection with 4. and 5. above, the Office of Management and Budget will lend assistance as required.

PART II—STANDARDS FOR SELECTED ITEMS OF COST

A. PURPOSE AND APPLICABILITY

1. *Objective.* This part provides standards for determining the allowability of selected items of cost.

2. *Application.* These standards will apply irrespective of whether a particular item of cost is treated as direct or indirect cost. Failure to mention a particular item of cost in the standards is not intended to imply that it is either allowable or unallowable, rather determination of allowability in each case should be based on the treatment of standards provided for similar or related items of cost. The allowability of the selected items of cost is subject to the general policies and principles stated in Part I of this appendix.

B. ALLOWABLE COSTS

1. *Accounting.* The cost of establishing and maintaining accounting and other information systems required for the management of grant programs is allowable. This includes cost incurred by central service agencies for these purposes. The cost of maintaining central accounting records required for overall State or local government purposes, such as appropriation and fund accounts by the Treasurer, Comptroller, or similar officials, is considered to be a general expense of government and is not allowable.

2. *Advertising.* Advertising media includes newspapers, magazines, radio, and television programs, direct mail, trade papers, and the like. The advertising costs allowable are those which are solely for:

a. Recruitment of personnel required for the grant program.

b. Solicitation of bids for the procurement of goods and services required.

c. Disposal of scrap or surplus materials acquired in the performance of the grant agreement.

d. Other purposes specifically provided for in the grant agreement.

3. *Advisory councils.* Costs incurred by State advisory councils or committees established pursuant to Federal requirements to carry out grant programs are allowable. The cost of like organizations is allowable when provided for in the grant agreement.

4. *Audit service.* The cost of audits necessary for the administration and management of functions related to grant programs is allowable.

5. *Bonding.* Costs of premiums on bonds covering employees who handle grantee agency funds are allowable.

6. *Budgeting.* Costs incurred for the development, preparation, presentation, and execution of budgets are allowable. Costs for services of a central budget office are generally not allowable since these are costs of general government. However, where employees of the central budget office actively participate in the grantee agency's budget process, the cost of identifiable services is allowable.

7. *Building lease management.* The administrative cost for lease management which includes review of lease proposals, maintenance of a list of available property for lease, and related activities is allowable.

8. *Central stores.* The cost of maintaining and operating a central stores organization for supplies, equipment, and materials used either directly or indirectly for grant programs is allowable.

9. *Communications.* Communication costs incurred for telephone calls or service, telegraph, teletype service, wide area telephone service (WATS), centrex, telpak (tie lines), postage, messenger service and similar expenses are allowable.

10. *Compensation for personal services*—a. *General.* Compensation for personal services includes all remuneration, paid currently or accrued, for services rendered during the period of performance under the grant agreement, including but not necessarily limited to wages, salaries, and supplementary compensation and benefits (section B.13.). The costs of such compensation are allowable to the extent that total compensation for individual employees: (1) is reasonable for the services rendered, (2) follows an appointment made in accordance with State or local government laws and rules and which meets Federal merit system or other requirements, where applicable, and (3) is determined and supported as provided in b. below. Compensation for employees engaged in federally assisted activities will be considered reasonable to the extent that it is consistent with that paid for similar work in other activities of the State or local government. In cases where the kinds of employees required for the federally assisted activities are not found in the other activities of the State or local government, compensation will be considered reasonable to the extent that it is comparable to that paid for similar work in the labor market in which the employing government competes for the kind of employees involved. Compensation surveys providing data representative of the labor market involved will be an acceptable basis for evaluating reasonableness.

b. *Payroll and distribution of time.* Amounts charged to grant programs for personal services, regardless of whether treated as direct or indirect costs, will be based on payrolls documented and approved in accordance with generally accepted practice of the State or local agency. Payrolls must be supported by time and attendance or equivalent records for individual employees. Salaries and wages of employees chargeable to more than one grant program or other cost objective will be supported by appropriate time distribution records. The method used should produce an equitable distribution of time and effort.

11. *Depreciation and use allowances.* a. Grantees may be compensated for the use of buildings, capital improvements, and equipment through use allowances or depreciation. Use allowances are the means of providing compensation in lieu of depreciation or other equivalent costs. However, a combination of the two methods may not be used in connection with a single class of fixed assets.

b. The computation of depreciation or use allowance will be based on acquisition cost. Where actual cost records have not been maintained, a reasonable estimate of the original acquisition cost may be used in the computation. The computation will exclude the cost or any portion of the cost of buildings and equipment donated or borne directly or indirectly by the Federal Government through charges to Federal grant programs or otherwise, irrespective of where title was originally vested or where it presently resides. In addition, the computation will also exclude the cost of land. Depreciation or a use allowance on idle or excess facilities is not allowable, except when specifically authorized by the grantor Federal agency.

c. Where the depreciation method is followed, adequate property records must be maintained, and any generally accepted method of computing depreciation may be used. However, the method of computing depreciation must be consistently applied for any specific asset or class of assets for all affected federally sponsored programs and must result in equitable charges considering the extent of the use of the assets for the benefit of such programs.

d. In lieu of depreciation, a use allowance for buildings and improvements may be computed at an annual rate not exceeding 2 percent of acquisition cost. The use allowance for equipment (excluding items properly capitalized as building cost) will be computed at an annual rate not exceeding 6⅔ percent of acquisition cost of usable equipment.

e. No depreciation or use charge may be allowed on any assets that would be considered as fully depreciated: *provided, however,* That reasonable use charges may be negotiated for any such assets if warranted after taking into consideration the cost of the facility or item involved, the estimated useful life remaining at time of negotiation, the effect of any increased maintenance charges or decreased efficiency due to age, and any other factors pertinent to the utilization of the facility or item for the purpose contemplated.

12. *Disbursing service.* The cost of disbursing grant program funds by the Treasurer or other designated officer is allowable. Disbursing services cover the processing of checks or warrants, from preparation to redemption, including the necessary records of accountability and reconciliation of such records with related cash accounts.

13. *Employee fringe benefits.* Costs identified under a. and b. below are allowable to the extent that total compensation for employees is reasonable as defined in section B.10.

a. Employee benefits in the form of regular compensation paid to employees during periods of authorized absences from the job, such as for annual leave, sick leave, court leave, military leave, and the like, if they are: (1) provided pursuant to an approved leave system, and (2) the cost thereof is equitably allocated to all related activities, including grant programs.

b. Employee benefits in the form of employers' contribution or expenses for social security, employees' life and health insurance plans, unemployment insurance coverage, workmen's compensation insurance, pension plans, severance pay, and the like, provided such benefits are granted under approved plans and are distributed equitably to grant programs and to other activities.

14. *Employee morale, health, and welfare costs.* The costs of health or first-aid clinics and/or infirmaries, recreational facilities, employees' counseling services, employee information publications, and any related expenses incurred in accordance with general State or local policy are allowable. Income generated from any of these activities will be offset against expenses.

15. *Exhibits.* Costs of exhibits relating specifically to the grant programs are allowable.

16. *Legal expenses.* The cost of legal expenses required in the administration of grant programs is allowable. Legal services furnished by the chief legal officer of a State or local government or his staff solely for the purpose of discharging his general responsibilities as legal officer are unallowable. Legal expenses for the prosecution of claims against the Federal Government are unallowable.

17. *Maintenance and repair.* Costs incurred for necessary maintenance, repair, or upkeep of property which neither add to the permanent value of the property nor appreciably prolong its intended life, but keep it in an efficient operating condition, are allowable.

18. *Materials and supplies.* The cost of materials and supplies necessary to carry out the grant programs is allowable. Purchases made specifically for the grant program should be charged thereto at their actual prices after deducting all cash discounts, trade discounts, rebates, and allowances received by the grantee. Withdrawals from general stores or stockrooms should be charged at cost under any recognized method of pricing consistently applied. Incoming transportation charges are a proper part of material cost.

19. *Memberships, subscriptions and professional activities*—a. *Memberships.* The cost of membership in civic, business, technical and professional organizations is allowable provided: (1) the benefit from the membership is related to the grant program, (2) the expenditure is for agency membership, (3) the cost of the membership is reasonably related to the value of the services or benefits received, and (4) the expenditure is not for membership in an organization which devotes a substantial part of its activities to influencing legislation.

b. *Reference material.* The cost of books and subscriptions to civic, business, professional, and technical periodicals is allowable when related to the grant program.

c. *Meetings and conferences.* Costs are allowable when the primary purpose of the meeting is the dissemination of technical information relating to the grant program and they are consistent with regular practices followed for other activities of the grantee.

20. *Motor pools.* The costs of a service organization which provides automobiles to user grantee agencies at a mileage or fixed rate and/or provides vehicle maintenance, inspection and repair services are allowable.

21. *Payroll preparation.* The cost of preparing payrolls and maintaining necessary related wage records is allowable.

22. *Personnel administration.* Costs for the recruitment, examination, certification, classification, training, establishment of pay standards, and related activities for grant programs, are allowable.

23. *Printing and reproduction.* Costs for printing and reproduction services necessary for grant administration, including but not limited to forms, reports, manuals, and informational literature, are allowable. Publication costs of reports or other media relating to grant program accomplishments or results are allowable when provided for in the grant agreement.

24. *Procurement service.* The cost of procurement service, including solicitation of bids, preparation and award of contracts, and all phases of contract administration in providing goods, facilities and services for grant programs, is allowable.

25. *Taxes.* In general, taxes or payments in lieu of taxes which the grantee agency is legally required to pay are allowable.

26. *Training and education.* The cost of in-service training, customarily provided for employee development which directly or indirectly benefits grant programs, is allowable. Out-of-service training involving extended periods of time is allowable only when specifically authorized by the grantor agency.

27. *Transportation.* Costs incurred for freight, cartage, express, postage, and other transportation costs relating either to goods purchased, delivered, or moved from one location to another, are allowable.

28. *Travel.* Travel costs are allowable for expenses for transportation, lodging, subsistence, and related items incurred by employees who are in travel status on official business incident to a grant program. Such costs may be charged on an actual basis, on a per diem or mileage basis in lieu of actual costs incurred, or on a combination of the two, provided the method used is applied to an entire trip, and results in charges consistent with those normally allowed in like circumstances in nonfederally sponsored activities. The difference in cost between first-class air accommodations and less-than-first-class air accommodations is unallowable except when less-than-first-class air accommodations are not reasonably available.

C. COSTS ALLOWABLE WITH APPROVAL OF GRANTOR AGENCY

1. *Automatic data processing.* The cost of data processing services to grant programs is allowable. This cost may include rental of equipment or depreciation on grantee-owned equipment. The acquisition of equipment, whether by outright purchase, rental-purchase agreement or other method of purchase, is allowable only upon specific prior approval of the grantor Federal agency as provided under the selected item for capital expenditures.

2. *Building space and related facilities.* The cost of space in privately or publicly owned buildings used for the benefit of the grant program is allowable subject to the conditions stated below. The total cost of space, whether in a privately or publicly owned building, may not exceed the rental cost of comparable space and facilities in a privately owned building in the same locality. The cost of space procured for grant program usage may not be charged to the program for periods of nonoccupancy, without authorization of the grantor Federal agency.

a. *Rental cost.* The rental cost of space in a privately owned building is allowable.

b. *Maintenance and operation.* The costs of utilities, insurance, security, janitorial services, elevator service, upkeep of grounds, normal repairs, and alterations and the like, are allowable to the extent they are not otherwise included in rental or other charges for space.

c. *Rearrangements and alterations.* Cost incurred for rearrangement and alteration of facilities required specifically for the grant program or those that materially increase the value or useful life of the facilities (section C.3.) are allowable when specifically approved by the grantor agency.

d. *Depreciation and use allowances on publicly owned buildings.* These costs are allowable as provided in section B.11.

e. *Occupancy of space under rental-purchase or a lease with option-to-purchase agreement.* The cost of space procured under such arrangements is allowable when specifically approved by the Federal grantor agency.

3. *Capital expenditures.* The cost of facilities, equipment, other capital assets, and repairs which materially increase the value or useful life of capital assets is allowable when such procurement is specifically approved by the Federal grantor agency. When assets acquired with Federal grant funds are (a) sold, (b) no longer available for use in a federally sponsored program, or (c) used for purposes not authorized by the grantor agency,

V 38 181
SEP 19 73
XUM

the Federal grantor agency's equity in the asset will be refunded in the same proportion as Federal participation in its cost. In case any assets are traded on new items, only the net cost of the newly acquired assets is allowable.

4. *Insurance and indemnification.* a. Cost of insurance required, or approved and maintained pursuant to the grant agreement, is allowable.

b. Cost of other insurance in connection with the general conduct of activities is allowable subject to the following limitations:

(1) Types and extent and cost of coverage will be in accordance with general State or local government policy and sound business practice.

(2) Costs of insurance or of contributions to any reserve covering the risk of loss of, or damage to, Federal Government property are unallowable except to the extent that the grantor agency has specifically required or approved such costs.

c. Contributions to a reserve for a self-insurance program approved by the Federal grantor agency are allowable to the extent that the type of coverage, extent of coverage, and the rates and premiums would have been allowed had insurance been purchased to cover the risks.

d. Actual losses which could have been covered by permissible insurance (through an approved self-insurance program or otherwise) are unallowable unless expressly provided for in the grant agreement. However, costs incurred because of losses not covered under nominal deductible insurance coverage provided in keeping with sound management practice, and minor losses not covered by insurance, such as spoilage, breakage and disappearance of small hand tools which occur in the ordinary course of operations, are allowable.

e. *Indemnification* includes securing the grantee against liabilities to third persons and other losses not compensated by insurance or otherwise. The Government is obligated to indemnify the grantee only to the extent expressly provided for in the grant agreement, except as provided in d. above.

5. *Management studies.* The cost of management studies to improve the effectiveness and efficiency of grant management for ongoing programs is allowable except that the cost of studies performed by agencies other than the grantee department or outside consultants is allowable only when authorized by the Federal grantor agency.

6. *Preagreement costs.* Costs incurred prior to the effective date of the grant or contract, whether or not they would have been allowable thereunder if incurred after such date, are allowable when specifically provided for in the grant agreement.

7. *Professional services.* Cost of professional services rendered by individuals or organizations not a part of the grantee department is allowable subject to such prior authorization as may be required by the Federal grantor agency.

8. *Proposal costs.* Costs of preparing proposals on potential Federal Government grant agreements are allowable when specifically provided for in the grant agreement.

D. UNALLOWABLE COSTS

1. *Bad debts.* Any losses arising from uncollectible accounts and other claims, and related costs, are unallowable.

2. *Contingencies.* Contributions to a contingency reserve or any similar provision for unforeseen events are unallowable.

3. *Contributions and donations.* Unallowable.

4. *Entertainment.* Costs of amusements, social activities, and incidental costs relating thereto, such as meals, beverages, lodgings, rentals, transportation, and gratuities, are unallowable.

5. *Fines and penalties.* Costs resulting from violations of, or failure to comply with, Federal, State, and local laws and regulations are unallowable.

6. *Governor's expenses.* The salaries and expenses of the office of the Governor of a State or the chief executive of a political subdivision are considered a cost of general State or local government and are unallowable.

7. *Interest and other financial costs.* Interest on borrowings (however represented), bond discounts, cost of financing and refinancing operations, and legal and professional fees paid in connection therewith, are unallowable except when authorized by Federal legislation.

8. *Legislative expenses.* Salaries and other expenses of the State legislature or similar local governmental bodies such as county supervisors, city councils, school boards, etc., whether incurred for purposes of legislation or executive direction, are unallowable.

9. *Underrecovery of costs under grant agreements.* Any excess of cost over the Federal contribution under one grant agreement is unallowable under other grant agreements.

## APPENDIX D

### PART I—PRINCIPLES FOR DETERMINING COSTS APPLICABLE TO RESEARCH AND DEVELOPMENT UNDER GRANTS AND CONTRACTS WITH EDUCATIONAL INSTITUTIONS

A. PURPOSE AND SCOPE

1. *Objectives.* This appendix provides principles for determining the costs applicable to research and development work performed by educational institutions under grants from and contracts with the Federal Government. These principles are confined to the subject of cost determination and make no attempt to identify the circumstances or dictate the extent of agency and institutional participation in the financing of a particular research or development project. The principles are designed to provide recognition of the full allocated costs of such research work under generally accepted accounting principles. No provision for profit or other increment above cost is intended.

2. *Policy guides.* The successful application of these principles requires development of mutual understanding between representatives of universities and of the Federal Government as to their scope, implementation, and interpretation. It is recognized that—

a. The arrangements for agency and institutional participation in the financing of a research and development project are properly subject to negotiation between the agency and the institution concerned in accordance with such Government-wide criteria as may be applicable.

b. Each college and university, possessing its own unique combination of staff, facilities, and experience, should be encouraged to conduct research in a manner consonant with its own academic philosophies and institutional objectives.

c. Each institution, in the fulfillment of its obligations, should employ sound management practices.

d. The application of the principles established herein should require no significant changes in the generally accepted accounting practices of colleges and universities and standards herein provided on a consistent basis. Where wide variations exist in the treatment of a given cost item among institutions, the reasonableness and equitableness of such treatments will be fully considered during the rate negotiations and audit.

3. *Application.* The Department of Health, Education, and Welfare, will apply these principles and related policy guides in determining the costs incurred for such work under any type of research and development agreement. These principles should also be used as a guide in the pricing of fixed-price contracts or lump sum agreements.

B. DEFINITION OF TERMS

1. *Organized research* means all research activities of an institution that are separately budgeted and accounted for.

2. *Departmental research* means research activities that are not separately budgeted and accounted for. Such research work, which includes all research activities not encompassed under the term "organized research," is regarded for purposes of this document as a part of the instructional activities of the institution.

3. *Research agreement* means any valid arrangement to perform federally sponsored research, including grants, cost-reimbursement type contracts, cost-reimbursement type subcontracts, and fixed-price contracts and subcontracts for research.

4. *Other institutional activities* means all organized activities of an institution not directly related to the instruction and research functions, such as residence halls, dining halls, student hospitals, student unions, intercollegiate athletics, bookstores, faculty housing, student apartments, guest houses, chapels, theaters, public museums, and other similar activities or auxiliary enterprises. Also included under this definition is any other category of cost treated as "unallowable," provided such category of cost identifies a function or activity to which a portion of the institution's indirect costs (as defined in section E.1.) are properly allocable.

5. *Apportionment* means the process by which the indirect costs of the institution are assigned as between (a) instruction and research, and (b) other institutional activities.

6. *Allocation* means the process by which the indirect costs apportioned to instruction and research are assigned as between (a) organized research, and (b) instruction, including departmental research.

7. *Stipulated salary support* is a fixed or a stated dollar amount of the salary of professorial or other professional staff involved in the conduct of research which a Government agency agrees in advance to reimburse an educational institution as a part of sponsored research costs.

8. *Federal agency* or sponsoring agency means the Department of Health, Education, and Welfare.

C. BASIC CONSIDERATIONS

1. *Composition of total costs.* The cost of a research agreement is comprised of the allowable direct costs incident to its performance, plus the allocable portion of the allowable indirect costs of the institution, less applicable credits as described in section C.5.

2. *Factors affecting allowability of costs.* The tests of allowability of costs under these principles are: (a) they must be reasonable; (b) they must be allocable to research agreements under the standards and methods provided herein; (c) they must be accorded consistent treatment through application of those generally accepted accounting principles appropriate to the circumstances; and (d) they must conform to any limitations or exclusions set forth in these principles or in the research agreement as to types or amounts of cost items.

3. *Reasonable costs.* A cost may be considered reasonable if the nature of the goods or services acquired or applied, and the amount involved therefor, reflect the action that a prudent person would have taken under the circumstances prevailing at the time the decision to incur the cost was made. Major considerations involved in the determination of the reasonableness of a cost are:

(a) whether or not the cost is of a type generally recognized as necessary for the operation of the institution or the performance of the research agreement; (b) the restraints or requirements imposed by such factors as arm's-length bargaining, Federal and State laws and regulations, and research agreement terms and conditions; (c) whether or not the individuals concerned acted with due prudence in the circumstances, considering their responsibilities to the institution, its employees, its students, the Government, and the public at large; and (d) the extent to which the actions taken with respect to the incurrence of the cost are consistent with established institutional policies and practices applicable to the work of the institution generally, including Government research.

4. *Allocable costs.* a. A cost is allocable to a particular cost objective (i.e., a specific function, project, research agreement, department, or the like) if the goods or services involved are chargeable or assignable to such cost objective in accordance with relative benefits received or other equitable relationship. Subject to the foregoing, a cost is allocable to a research agreement if it is incurred solely to advance the work under the research agreement; or it benefits both the research agreement and other work of the institution in proportions that can be approximated through use of reasonable methods; or it is necessary to the overall operation of the institution and, in the light of the standards provided in this appendix is deemed to be assignable in part to organized research. Where the purchase of equipment or other capital items is specifically authorized under a research agreement, the amounts thus authorized for such purchases are allocable to the research agreement regardless of the use that may subsequently be made of the equipment or other capital items involved.

b. Any costs allocable to a particular research agreement under the standards provided in this appendix may not be shifted to other research agreements in order to meet deficiencies caused by overruns or other fund considerations, to avoid restrictions imposed by law or by terms of the research agreement; or for other reasons of convenience.

5. *Applicable credits.* a. The term applicable credits refers to those receipt or negative expenditure types of transactions which operate to offset or reduce expense items that are allocable to research agreements as direct or indirect costs. Typical examples of such transactions are: purchase discounts, rebates, or allowances; recoveries or indemnities on losses; sales of scrap or incidental services; and adjustments of overpayments or erroneous charges.

b. In some instances, the amounts received from the Federal Government to finance institutional activities or service operations should be treated as applicable credits. Specifically, the concept of netting such credit items against related expenditures should be applied by the institution in determining the rates or amounts to be charged to Government research for services rendered whenever the facilities or other resources used in providing such services have been financed directly, in whole or in part, by Federal funds. (See sections F.6., J.10.b., and J.37. for areas of potential application in the matter of direct Federal financing.)

6. *Costs incurred by State and local governments.* Costs incurred or paid by State or local governments in behalf of educational institutions for certain personnel benefit programs such as pension plans, FICA, and any other costs specifically disbursed in behalf of and in direct benefit to the institutions, are allowable costs of such institutions whether or not these costs are recorded in the accounting records of such institutions, subject to the following:

a. Such costs meet the requirements of sections C.1. through C.5.

b. Such costs are properly supported by cost allocation plans in accordance with Appendix C to this part.

c. Such costs are not otherwise borne directly or indirectly by the Federal Government.

D. DIRECT COSTS

1. *General.* Direct costs are those costs which can be identified specifically with a particular research project, an instructional activity or any other institutional activity or which can be directly assigned to such activities relatively easily with a high degree of accuracy.

2. *Application to research agreements.* Identifiable benefit to the research work rather than the nature of the goods and services involved is the determining factor in distinguishing direct from indirect costs of research agreements. Typical transactions chargeable to a research agreement as direct costs are the compensation of employees for performance of work under the research agreement, including related staff benefit and pension plan costs to the extent that such items are consistently treated by the educational institution as direct rather than indirect costs; the costs of materials consumed or expended in the performance of such work; and other items of expense incurred for the research agreement, including extraordinary utility consumption. The cost of materials supplied from stock or services rendered by specialized facilities or other institutional service operations may be included as direct costs of research agreements provided such items are consistently treated by the institution as direct rather than indirect costs and are charged under a recognized method of costing or pricing designed to recover only actual costs and conforming to generally accepted cost accounting practices consistently followed by the institution.

E. INDIRECT COSTS

1. *General.* Indirect costs are those that have been incurred for common or joint objectives and therefore cannot be identified specifically with a particular research project, an instructional activity or any other institutional activity. At educational institutions such costs normally are classified under the following functional categories: general administration and general expenses; research administration expenses; operation and maintenance expenses; library expenses; and departmental administration expenses.

2. *Criteria for distribution*—a. *Base period.* A base period for distribution of indirect costs is the period during which such costs are incurred and accumulated for distribution to work performed within that period. The base period normally should coincide with the fiscal year established by the institution, but in any event the base period should be so selected as to avoid inequities in the distribution of costs.

b. *Need for cost groupings.* The overall objective of the allocation and apportionment process is to distribute the indirect costs described in section F to organized research, instruction, and other activities in reasonable proportions consistent with the nature and extent of the use of the institution's resources by research personnel, academic staff, students, and other personnel or organizations. In order to achieve this objective, it may be necessary to provide for selective distribution by establishing separate groupings of cost within one or more of the functional categories of indirect costs referred to in section E.1. In general, the cost groupings established within a functional category should constitute, in each case, a pool of those items of expense that are considered to be of like character in terms of their relative contribution to (or degree of remoteness from) the particular cost objectives to which distribution is appropriate. Cost groupings should be established considering the general guides provided in c. below. Each such pool or cost grouping should then be distributed individually to the appertaining cost objectives, using the distribution base or method most appropriate in the light of the guides set out in d. below.

c. *General considerations on cost groupings.* The extent to which separate cost groupings and selective distribution would be appropriate at an institution is a matter of judgment to be determined on a case-by-case basis. Typical situations which may warrant the establishment of two or more separate cost groups (based on account classification or analysis) within a functional category include but are not limited to the following:

(1) Where certain items or categories of expense relate solely to one of the three major divisions of the institution (instruction, organized research or other institutional activities) or to any two but not the third, such expenses should be set aside as a separate cost grouping for direct assignment or selective distribution in accordance with the guides provided in b. above and d. below.

(2) Where any types of expense ordinarily treated as general administration and general expenses or departmental administration expenses are charged to research agreements as direct costs, the similar type expenses applicable to other activities of the institution must, through separate cost groupings, be excluded from the indirect costs allocable to those research agreements and included in the direct cost of other activities for cost allocation purposes.

(3) Where it is determined that certain expenses are for the support of a service unit or facility whose output is susceptible of measurement on a workload or other quantitative basis, such expenses should be set aside as a separate cost grouping for distribution on such basis to organized research and other activities at the institution or within the department.

(4) Where organized activities (including identifiable segments of organized research as well as the activities cited in section B.4.) provide their own purchasing, personnel administration, building maintenance or similar service, the distribution of general administration and general expenses or operation and maintenance expenses to such activities should be accomplished through cost groupings which include only that portion of central indirect costs (such as for overall management) which are properly allocable to such activities.

(5) Where the institution elects to treat as indirect charges the cost of the pension plan and other staff benefits, such costs should be set aside as a separate cost grouping for selective distribution to appertaining cost objectives, including organized research.

(6) The number of separate cost groupings within a functional category should be held within practical limits, after taking into consideration the materiality of the amounts involved and the degree of precision attainable through less selective methods of distribution.

d. *Selection of distribution method.* (1) Actual conditions must be taken into account in selecting the method or base to be used in distributing to applicable cost objectives the expenses assembled under each of the individual cost groupings established as indicated under b. above. Where a distribution can be made by assignment of a cost grouping directly to the area benefited, the distribution should be made in

V 38 181 SEP 1973 XUM

that manner. Where the expenses under a cost grouping are more general in nature, the distribution to appertaining cost objectives should be made through use of a selected base which will produce results that are equitable to both the Government and the institution. In general, any cost element or cost-related factor associated with the institution's work is potentially adaptable for use as a distribution base provided (a) it can readily be expressed in terms of dollars or other quantitative measure (total direct expenditures, direct salaries, manhours applied, square feet utilized, hours of usage, number of documents processed, population served, and the like); and (b) it is common to the appertaining cost objectives during the base period.

(2) Results of cost analysis studies may be used when they result in more accurate and equitable distribution of costs. Such cost analysis studies may take into consideration weighting factors, population, or space occupied if they produce equitable results. Cost analysis studies, however, should (a) be appropriately documented in sufficient detail for subsequent review by the cognizant Federal agency, (b) distribute the indirect costs to the appertaining cost objectives in accord with the relative benefits derived, (c) be conducted to fairly reflect the true conditions of the activity and to cover representative transactions for a reasonable period of time, (d) be performed specifically at the institution at which the results are to be used, and (e) be updated periodically and used consistently. Any assumptions made in the study will be sufficiently supported. The use of cost analysis studies and periodic changes in the method of cost distribution must be fully justified.

(3) The essential consideration in selection of the distribution base in each instance is that it be the one best suited for assigning the pool of costs to appertaining cost objectives in accord with the relative benefits derived; the traceable cause and effect relationship; or logic and reason, where neither benefit nor cause and effect relationship is determinable.

3. *Administration of limitations on allowances for research costs.* Research agreements may be subject to statutory or administrative policies that limit the allowance of research costs. When the maximum amount allowable under a statutory limitation or the terms of a research agreement is less than the amount otherwise reimbursable under this Appendix, the amount not recoverable under that research agreement may not be charged to other research agreements.

F. IDENTIFICATION AND ASSIGNMENT OF INDIRECT COSTS

1. *General administration and general expenses.* a. The expenses under this heading are those that have been incurred for the general executive and administrative offices of educational institutions and other expenses of a general character which do not relate solely to any major division of the institution; i.e., solely to (1) instruction, (2) organized research, or (3) other institutional activities. The general administration and general expense category should also include the staff benefit and pension plan costs applicable to the salaries and wages included therein, an appropriate share of the costs of the operation and maintenance of the physical plant, and charges representing use allowances and/or depreciation applicable to the buildings and equipment utilized in performing the functions represented thereunder.

b. The expenses included in this category may be apportioned and allocated on the basis of total expenditures exclusive of capital expenditures in situations where the results of the distribution made on this basis are deemed to be equitable both to the Government and the institution; otherwise the distribution of general administration and general expenses should be made through use of selected bases applied to separate cost groupings established within this category of expenses in accordance with the guides set out in section E.2.d.

2. *Research administration expenses.* a. The expenses under this heading are those that have been incurred by a separate organization or identifiable administrative unit established solely to administer the research activity, including such functions as contract administration, security, purchasing, personnel administration, and editing and publishing of research reports. They include the salaries and expenses of the head of such research organization, his assistants, and their immediate secretarial staff together with the salaries and expenses of personnel engaged in supporting activities maintained by the research organization, such as stock rooms, stenographic pools, and the like. The salaries of members of the professional staff whose appointments or assignments involve the performance of such administrative work may also be included to the extent that the portion so charged to research administration is supported as required by section J.7. The research administration expense category should also include the staff benefit and pension plan costs applicable to the salaries and wages included therein, an appropriate share of the costs of the operation and maintenance of the physical plant, and charges representing use allowance and/or depreciation applicable to the buildings and equipment utilized in performing the functions represented thereunder.

b. The expenses included in this category should be allocated to organized research and, where necessary, to departmental research or to any other benefiting activities on any basis reflecting the proportion fairly applicable to each. (See section E.2.d.)

3. *Operation and maintenance expenses.* a. The expenses under this heading are those that have been incurred by a central service organization or at the departmental level for the administration, supervision, operation, maintenance, preservation, and protection of the institution's physical plant. They include expenses normally incurred for such items as janitorial and utility services; repairs and ordinary or normal alterations of buildings, furniture and equipment; and care of grounds and maintenance and operation of buildings and other plant facilities. The operation and maintenance expense category should also include the staff benefit and pension plan costs applicable to the salaries and wages included therein, and charges representing use allowance and/or depreciation applicable to the buildings and equipment utilized in performing the functions represented thereunder. Costs incurred in the purchases of rare books (museum-type books) with no research value should not be allocated to Government-sponsored research.

b. The expenses included in this category should be allocated on the basis of population including students and other users. Where the results of the distribution made on this basis are deemed to be inequitable to the Government or the institution, the distribution should then be made on a selective basis in accordance with the guides set out in section E.2. Such selective distribution should be made through use of reasonable methods which give adequate recognition to the utilization of the library attributable to faculty, research personnel, students and others. The method used will be based on data developed periodically on the respective institution's experience for representative periods.

5. *Departmental administration expenses.* a. The expenses under this heading are those that have been incurred in academic deans' offices, academic departments and organized research units such as institutes, study centers and research centers for administrative and supporting services which benefit common or joint departmental activities or objectives. They include the salaries and expenses of deans or heads, or associate deans or heads, of colleges, schools, departments, divisions, or organized research units, and their administrative staffs together with the salaries and expenses of personnel engaged in supporting activities maintained by the department, such as stockrooms, stenographic pools, and the like, provided such supporting services cannot be directly identified with a specific research project, with an instructional activity or with any other institutional activity. The salaries of other members of the professional staff whose appointments or assignments involve the performance of such administrative work may also be included to the extent that the portion so charged to departmental administration expenses is supported as required by section J.7. The departmental administration expense category should also include the staff benefit and pension plan costs applicable to the salaries and wages included therein, an appropriate share of the costs of the operation and maintenance of the physical plant, and charges representing use allowances and/or depreciation applicable to the buildings and equipment utilized in performing the functions represented thereunder.

b. The distribution of departmental administration expenses should be made through use of selected bases applied to cost groupings established within this category of expenses in accordance with the guides set out in section E.2.d.

6. *Setoff for indirect expenses otherwise provided for by the Government.* a. The items to be accumulated under this heading are the reimbursements and other receipts from the Federal Government which are used by the institution to support directly, in whole or in part, any of the administrative or service (indirect) activities described in the foregoing (sections F.1. through F.5.). They include any amounts thus applied to such activities which may have been received pursuant to an institutional base grant or any similar contractual arrangement with the Federal Government other than a research agreement as herein defined (section B.3).

b. The sum of the items in this group shall be treated as a credit to the total indirect cost pool before it is apportioned to organized research and to other activities. Such setoff shall be made prior to the determination of the indirect cost rate or rates as provided in section G.

G. DETERMINATION AND APPLICATION OF INDIRECT COST RATE OR RATES

1. *Indirect cost pools.* a. Subject to b. below, indirect costs allocated to organized research should be treated as a common pool, and the costs in such common pool should then be distributed to individual research agreements benefiting therefrom on a single rate basis.

b. In some instances a single rate basis for use across the board on all Government research at an institution may not be appropriate, since it would not take into account those different environmental factors which may affect substantially the indirect costs applicable to a particular segment of Government research at the institution. For this purpose, a particular segment of Government research may be that performed under a single research agreement or it may consist of research under a group of research agreements performed in a common environment. The environmental factors are not limited to the physical location of the work. Other important factors are the level of the administrative support required, the nature of the facilities or other resources employed, the scientific disciplines or technical skills involved, the organizational arrangements used, or any combination thereof. Where a particular segment of Government research is performed within an environment which appears to generate a significantly different level of indirect costs, provision should be made for a separate indirect cost pool applicable to such work. The separate indirect cost pool should be developed during the course of the regular distribution process, and the separate indirect cost rate resulting therefrom should be utilized provided it is determined that (1) such indirect cost rate differs significantly from that which would have obtained under a. above, and (2) the volume of research work to which such rate would apply is material in relation to other Government research at the institution.

2. *The distribution base.* Indirect costs allocated to organized research should be distributed to applicable research agreements on the basis of direct salaries and wages. For this purpose, an indirect cost rate should be determined for each of the separate indirect cost pools developed pursuant to section G.1. The rate in each case should be stated as the percentage which the amount of the particular indirect cost pool is of the total direct salaries and wages of all research agreements identified with such pool. For the purpose of establishing an indirect cost rate, direct salaries and wages may include that portion contributed to the research by the institution for cost sharing or other purposes. Bases other than salaries and wages may be used provided it can be demonstrated that they produce more equitable results.

3. *Negotiated lump sum for indirect costs.* A negotiated fixed amount in lieu of indirect costs may be appropriate for self-contained, off-campus, or primarily subcontracted research activities where the benefits derived from an institution's indirect services cannot be readily determined. Such amount negotiated in lieu of indirect costs will be treated as an offset to total indirect expenses before apportionment to instruction, organized research, and other institutional activities. The base on which such remaining expenses are allocated should be appropriately adjusted.

4. *Predetermined fixed rates for indirect costs.* Public Law 87–638 (76 Stat. 437) authorizes the use of predetermined fixed rates in determining the indirect costs applicable under research agreements with educational institutions. The stated objectives of the law are to simplify the administration of cost-type research and development contracts (including grants) with educational institutions, to facilitate the preparation of their budgets, and to permit more expeditious closeout of such contracts when the work is completed. In view of the potential advantages offered by this procedure, consideration should be given to the negotiation of predetermined fixed rates for indirect costs in those situations where the cost experience and other pertinent facts available are deemed sufficient to enable the parties involved to reach an informed judgment as to the probable level of indirect costs during the ensuing accounting period.

5. *Negotiated fixed rates and carryforward provisions.* When a fixed rate is negotiated in advance for a fiscal year (or other time period), the over- or under-recovery for that year may be included as an adjustment to the indirect cost for the next rate negotiation. When the rate is negotiated before the carryforward adjustment is determined due to the delay in audit, the carryforward may be applied to the next subsequent rate negotiation. When such adjustments are to be made, each fixed rate negotiated in advance for a given period will be computed by applying the expected indirect costs allocable to Government research for the forecast period plus or minus the carryforward adjustment (over- or under-recovery) from the prior period, to the forecast distribution base. Unrecovered amounts under lump-sum agreements or cost-sharing provisions of prior years shall not be carried forward for consideration in the new rate negotiation. There must, however, be an advance understanding in each case between the institution and the cognizant Federal agency as to whether these differences will be considered in the rate negotiation rather than making the determination after the differences are known. Further, institutions electing to use this carryforward provision may not subsequently change without prior approval of the cognizant Federal agency. In the event that an institution returns to a postdetermined rate, any over- or under-recovery during the period in which negotiated fixed rates and carryforward provisions were followed will be included in the subsequent postdetermined rates. Where multiple rates are used, the same procedure will be applicable for determining each rate. This procedure also applies to rates established for grants and contracts for training and other educational services, but does not apply to cost-type research agreements covering work performed in wholly or partially Government-owned facilities.

H. SIMPLIFIED METHOD FOR SMALL INSTITUTIONS

1. *General.* a. Where the total direct cost of all federally supported work under research and educational service agreements at an institution does not exceed $1 million in a fiscal year (excluding direct payments by the institution to participants under educational service agreements for stipends, support, and similar costs requiring little, if any, indirect cost support), the use of the abbreviated procedure described in 2., below, may be used in determining allowable indirect costs. Under this abbreviated procedure, the institution's most recent annual financial report and immediately available supporting information, with salaries and wages segregated from other costs, will be utilized as a basis for determining the indirect cost rate applicable both to federally supported research and educational service agreements.

b. The rigid formula approach provided under this abbreviated procedure should not be used where it produces results which appear inequitable to the Government or the institution. In any such case, indirect costs should be determined through use of the regular procedure.

2. *Abbreviated procedure.* a. Establish the total amount of salaries and wages paid to all employees of the institution.

b. Establish an indirect cost pool consisting of the expenditures (exclusive of capital items and other costs specifically identified as unallowable) which customarily are classified under the following titles or their equivalents:

(1) General administration and general expenses (exclusive of costs of student administration and services, student aid, student activities, and scholarships).

(2) Operation and maintenance of physical plant.

(3) Library.

(4) Department administration expenses, which will be computed as 20 percent of the salaries and expenses of deans and heads of departments.

In those cases where expenditures classified under 2.b.(1) and 2.b.(2) have previously been allocated to other institutional activities, they may be included in the indirect cost pool. The total amount of salaries and wages included in the indirect cost pool must be separately identified.

c. Establish a salary and wage distribution base, determined by deducting from the total of salaries and wages as established under 2.a. the amount of salaries and wages included under 2.b.

d. Establish the indirect cost rate, determined by dividing the amount in the indirect cost pool 2.b. by the amount of the distribution base 2.c.

e. Apply the indirect cost rate established to direct salaries and wages for individual agreements to determine the amount of indirect costs allocable to such agreements.

J. GENERAL STANDARDS FOR SELECTED ITEMS OF COST

Sections J.1. through J.46. provide standards to be applied in establishing the allowability of certain items involved in determining cost. These standards should apply irrespective of whether a particular item of cost is properly treated as direct cost or indirect cost. Failure to mention a particular item of cost in the standards is not intended to imply that it is either allowable or unallowable; rather determination as to allowability in each case should be based on the treatment or standards provided for similar or related items of cost. In case of discrepancy between the provisions of a specific research agreement and the applicable standards provided, the provisions of the research agreement should govern.

1. *Advertising costs.* The term advertising costs means the costs of advertising media and corollary administrative costs. Advertising media include magazines, newspapers, radio and television programs, direct mail, exhibits, and the like. The only advertising costs allowable are those which are solely for: (a) The recruitment of personnel required for the performance by the institution of obligations arising under the research agreement, when considered in conjunction with all other recruitment costs, as set forth in J.32.; (b) the procurement of scarce items

V 381181 SEP 19 73 XUM

for the performance of the research agreement; or (c) the disposal of scrap or surplus materials acquired in the performance of the research agreement. Costs of this nature, if incurred for more than one research agreement or for both research agreement work and other work of the institution, are allowable to the extent that the principles in sections D and E are observed.

2. *Bad debts.* Any losses, whether actual or estimated arising from uncollectible accounts and other claims, related collections costs, and related legal costs, are unallowable.

3. *Capital expenditures.* The costs of equipment, buildings, and repairs which materially increase the value or useful life of buildings or equipment, are unallowable except as provided for in the research agreement. Government funds shall not be used for the acquisition of land, or any interest therein, except with the specific prior approval of the sponsoring agency.

4. *Civil defense costs.* Civil defense costs are those incurred in planning for, and the protection of life and property against, the possible effects of enemy attack. Reasonable costs of civil defense measures (including costs in excess of normal plant protection costs, first-aid training and supplies, firefighting training, posting of additional exit notices and directions, and other approved civil defense measures) undertaken on the institution's premises pursuant to suggestions or requirements of civil defense authorities are allowable when distributed to all activities of the institution. Capital expenditures for civil defense purposes will not be allowed, but a use allowance or depreciation may be permitted in accordance with provisions set forth in section J.10. Costs of local civil defense projects not on the institution's premises are unallowable.

5. *Commencement and convocation costs.* Costs incurred for commencements and convocations apply only to instruction and therefore are not allocable to research agreements, either as direct costs or indirect costs.

6. *Communication costs.* Costs incurred for telephone services, local and long-distance telephone calls, telegrams, radiograms, postage and the like, are allowable.

7. *Compensation for personal services*—a. *General.* Compensation for personal services covers all remuneration paid currently or accrued to the institution for services of employees rendered during the period of performance under Government research agreements. Such remuneration includes salaries, wages, staff benefits (see section J.39.), and pension plan costs (see section J.23.). The costs of such remuneration are allowable to the extent that the total compensation to individual employees is reasonable for the services rendered and conforms to the established policy of the institution consistently applied, and provided that the charges for work performed directly on Government research agreements and for other work allocable as indirect costs to organized research are determined and supported as hereinafter provided.

b. *Payroll distribution.* Amounts charged to organized research for personal services, except stipulated salary support, regardless of whether treated as direct costs or allocated as indirect costs, will be based on institutional payrolls which have been approved and documented in accordance with generally accepted institutional practices. Support for direct and indirect allocations of personal service costs to (1) instruction, (2) organized research, and (3) indirect activities as defined in section E.1., or (4) other institutional activities as defined in section B.4., will be provided as described in c., d., e., and f., below.

c. *Stipulated salary support.* As an alternative to payroll distribution, stipulated salary support amounts may be provided in the research agreement for professorial staff, any part of whose compensation is chargeable to Government-sponsored research. Stipulated salary support may also be provided for any other professionals who are engaged part time in sponsored research and part time in other work. The stipulated salary support for an individual will be determined by the Government and the educational institution during the proposal and award process on the basis of considered judgment as to the monetary value of the contribution which the individual is expected to make to the research project. This judgment will take into account any cost sharing by the institution and such other factors as the extent of the investigator's planned participation in the project and his ability to perform as planned in the light of his other commitments. It will be necessary for those who review research proposals to obtain information on the total academic year salary of the faculty members involved; the other research projects or proposals for which salary is allocated; and any other duties they may have such as teaching assignments, administrative assignments, number of graduate students for which they are responsible, or other institutional activities. Stipulated amounts for an individual must not per se result in increasing his official salary from the institution.

d. *Direct charges for personal services under payroll distribution.* The direct cost charged to organized research for the personal services of professorial and professional staff, exclusive of those whose salaries are stipulated in the research agreement, will be based on institutional payroll systems. Such institutional payroll systems must be supported by either: (1) an adequate appointment and workload distribution system accompanied by monthly reviews performed by responsible officials and a reporting of any significant changes in workload distribution of each professor or professional staff member, or (2) a monthly after-the-fact certification system which will require the individual investigators, deans, departmental chairmen or supervisors having first-hand knowledge of the services performed on each research agreement to report the distribution of effort. Reported changes will be incorporated during the accounting period into the payroll distribution system and into the accounting records. Direct charges for salaries and wages of nonprofessionals will be supported by time and attendance and payroll distribution records.

e. *Direct charges for personal services under stipulated salaries.* The amounts stipulated for salary support will be treated as direct costs. The stipulated salary for the academic year will be prorated equally over the duration of the grant or contract period during the academic year, unless other arrangements have been made in the grant or contract instrument. No time or effort reporting will be required to support these amounts. Special provision for summer salaries, or for a particular "off period" if other than summer, will be required. The research agreements will state that any research covered by summer salary support must be carried out during the summer, not during the academic year, and at locations approved in advance in writing by the granting agency. The certification required in section K will attest to this requirement as well as all others in a given research agreement. Stipulated salary support remains fixed during the funding period of the grant or contract and will be costed at the rate described above unless there is a significant change in performance. For example, a significant change in performance would exist if the faculty member (1) was ill for an extended period, (2) took sabbatical leave to devote effort to duties unrelated to his research, or (3) was required to increase substantially his teaching assignments, administrative duties, or responsibility for more research projects. In the latter event, it will be the responsibility of the educational institution to reduce the charges to the research agreement proportionately or seek an appropriate amendment. In the case of those covered by stipulated salary support, the auditors are no longer required to review the precise accuracy of time or effort devoted to research projects. Rather, their reviews should include steps to determine on a sample basis that an institution is not reimbursed for more than 100 percent of each faculty member's salary and that the portion of each faculty member's salary charged to Government-sponsored research is reasonable in view of his university workload and other commitments. The stipulated salary method may also be agreed upon for that portion of a professional's salary that represents cost sharing by the institution.

f. *Indirect personal services costs.* Allowable indirect personal services costs will be supported by the educational institution's accounting system maintained in accordance with generally accepted institutional practices. Where a comprehensive accounting system does not exist, the institution should make periodic surveys no less frequently than annually to support the indirect personal services costs for inclusion in the overhead pool. Such supporting documentation must be retained for subsequent review by Government officials.

g. *General guidance for charging personal services.* Budget estimates on a monthly, quarterly, semester, or yearly basis do not qualify as support for charges to federally sponsored research projects and should not be used unless confirmed after the fact. Charges to research agreements may include reasonable amounts for activities contributing and intimately related to work under the agreement, such as preparing and delivering special lectures about specific aspects of the ongoing research, writing research reports and articles, participating in appropriate research seminars, consulting with colleagues and graduate students with respect to related research, and attending appropriate scientific meetings and conferences. In no case should charges be made to federally sponsored research projects for lecturing or preparing for formal courses listed in the catalog and offered for degree credit, or for committee or administrative work related to university business.

h. *Nonuniversity professional activities.* A university must not alter or waive university-wide policies and practices dealing with the permissible extent of professional services over and above those traditionally performed without extra university compensation, unless such arrangements are specifically authorized by the sponsoring agency. Where university-wide policies do not adequately define the permissible extent of consultantship or other nonuniversity activities undertaken for extra pay, the Government may require that the effort of professional staff working under research agreements be allocated as between (1) university activities, and (2) nonuniversity professional activities. If the sponsoring agency should consider the extent of nonuniversity professional effort excessive, appropriate arrangements governing compensation will be negotiated on a case-by-case basis.

i. *Salary rates for academic year.* Charges for work performed on Government research by faculty members during the academic year will be based on the individual faculty member's regular compensation for the continuous period which, under the practice of the institution concerned, constitutes the basis of his salary. Charges for work performed on research agreements during all or any portion of such period would be allowable at the base salary rate. In no event will the charge to research agreements, irrespective of the basis of computation, exceed the proportionate share of the base salary for that period, and any extra compensation above the base salary for work on Government research during such period would be unallowable. This principle applies to all members of the faculty at an institution. Since intrauniversity consulting is assumed to be undertaken as a university obligation requiring no compensation in addition to full-time base salary, the principle also applies to those who function as consultants or otherwise contribute to a research agreement conducted by another faculty member of the same institution. However, in unusual cases where consultation is across departmental lines or involves a separate or remote operation, and the work performed by the consultant is in addition to his regular departmental load, any charges for such work representing extra compensation above the base salary are allowable provided such consulting arrangement is specifically provided for in the research agreement or approved in writing by the sponsoring agency.

j. *Salary rates for periods outside the academic year.* Charges for work performed by faculty members on Government research during the summer months or other periods not included in the base salary period will be determined for each faculty member at a monthly rate not in excess of that which would be applicable under his base salary and will be limited to charges made in accordance with other subsections of J.7.

k. *Salary rates for part-time faculty.* Charges for work performed on Government research by a faculty member having only part-time appointment for teaching will be determined at a rate not in excess of that for which he is regularly paid for his part-time teaching assignments. Example: An institution pays $5,000 to a faculty member for half-time teaching during the academic year. He devoted one-half of his remaining time (25 percent of his total available time) to Government research. Thus his additional compensation, chargeable by the institution to Government research agreements, would be one-half of $5,000 or $2,500.

8. *Contingency provisions.* Contributions to a contingency reserve or any similar provision made for events the occurrence of which cannot be foretold with certainty as to time, intensity, or with an assurance of their happening, are unallowable.

9. *Deans of faculty and graduate schools.* The salaries and expenses of deans of faculty and graduate schools, or their equivalents, and their staffs, are allowable.

10. *Depreciation and use allowances.* a. Institutions may be compensated for the use of buildings, capital improvements, and usable equipment on hand through use allowances or depreciation. Use allowances are the means of providing such compensation when depreciation or other equivalent costs are not considered. However, a combination of the two methods may not be used in connection with a single class of fixed assets.

b. Due consideration will be given to Government-furnished facilities utilized by the institution when computing use allowances and/or depreciation if the Government-furnished facilities are material in amount. Computation of the use allowance and/or depreciation will exclude both the cost or any portion of the cost of buildings and equipment borne by or donated by the Federal Government, irrespective of where title was originally vested or where it presently resides and, secondly, the cost of grounds. Capital expenditures for land improvements (paved areas, fences, streets, sidewalks, utility conduits, and similar improvements not already included in the cost of buildings) are allowable provided the systematic amortization of such capital expenditures has been provided, based on reasonable determinations of the probable useful lives of the individual items involved, and the share allocated to organized research is developed from the amount thus amortized for the base period involved. Amortization methods once used should not be changed for a given building or equipment unless approved in advance by the cognizant Federal agency.

c. Where the use allowance method is followed, the use allowance for buildings and improvements will be computed at an annual rate not exceeding 2 percent of acquisition cost. The use allowance for equipment will be computed at an annual rate not exceeding 6⅔ percent of acquisition cost of usable and needed equipment in those cases where the institution maintains current records with respect to such equipment on hand. Where the institution's records reflect only the cost (actual or estimated) of the original complement of equipment, the use allowance will be computed at an annual rate not exceeding 10 percent of such cost. Original complement for this purpose means the complement of equipment initially placed in buildings to perform the functions currently being performed in such buildings; however, where a permanent change in the function of a building takes place, a redetermination of the original complement of equipment may be made at that time to establish a new original complement. In those cases where no equipment records are maintained, the institution will justify a reasonable estimate of the acquisition cost of usable and needed equipment which may be used to compute the use allowance at an annual rate not exceeding 6⅔ percent of such estimate.

d. Where the depreciation method is followed, adequate property record must be maintained and periodic inventory (a statistical sampling basis is acceptable) must be taken to insure that properties for which depreciation is charged do exist and are needed. The period of useful service (service life) established in each case for usable capital assets must be determined on a realistic basis which takes into consideration such factors as type of construction, nature of the equipment used, technological developments in the particular research area, and the renewal and replacement policies followed for the individual items or classes of assets involved. Where the depreciation method is introduced for application to assets acquired in prior years, the annual charges therefrom must not exceed the amounts that would have resulted had the depreciation method been in effect from the date of acquisition of such assets.

e. Where an institution elects to go to a depreciation basis for a particular class of assets, no depreciation, rental or use charge may be allowed on any such assets that, under d. above, would be viewed as fully depreciated provided, however, that reasonable use charges may be negotiated for any such assets if warranted after taking into consideration the cost of the facility or item involved, the estimated useful life remaining at time of negotiation, the actual replacement policy followed in the light of service lives used for calculating depreciation, the effect of any increased maintenance charges or decreased efficiency due to age, and any other factors pertinent to the utilization of the facility or item for the purpose contemplated.

11. *Employee morale, health, and welfare costs and credits.* The costs of house publications, health or first-aid clinics and/or infirmaries, recreational activities, employees' counseling services, and other expenses incurred in accordance with the institution's established practice or custom for the improvement of working conditions, employer-employee relations, employee morale, and employee-performance, are allowable. Such costs will be equitably apportioned to all activities of the institution. Income generated from any of these activities will be credited to the cost thereof unless such income has been irrevocably set over to employee welfare organizations.

12. *Entertainment costs.* Costs incurred for amusement, social activities, entertainment, and any items relating thereto, such as meals, lodging, rentals, transportation, and gratuities, are unallowable.

13. *Equipment and other facilities.* The costs of permanent equipment or other facilities are allowable where such purchases are approved by the sponsoring agency concerned or provided for by the terms of the research agreement. Total expenditures for permanent equipment may not exceed 125 percent of the amount allotted for the permanent equipment category by the sponsoring agency (through an approved budget or other document) except with approval. The term "permanent equipment" shall mean an item of property which has an acquisition cost of $200 or more and has an expected service life of one year or more.

a. *General purpose equipment.* Approval must be obtained to acquire with Government funds any general purpose permanent equipment, i.e., any items which are usable for activities of the institution other than research, such as office equipment and furnishings, air conditioning, reproduction, or printing equipment, motor vehicles, etc., or any automatic data processing equipment.

b. *Research equipment.* Approval must be obtained to acquire with Government funds any item of permanent research equipment costing $1,000 or more.

14. *Fines and penalties.* Costs resulting from violations of, or failure of the institution to comply with, Federal, State, and local laws and regulations are unallowable except when incurred as a result of compliance with specific provisions of the research agreement or instructions in writing from the contracting officer.

15. *Insurance and indemnification.* a. Costs of insurance required or approved, and maintained, pursuant to the research agreement, are allowable.

b. Costs of other insurance maintained by the institution in connection with the general conduct of its activities, are allowable subject to the following limitations: (1) types and extent and cost of coverage must be in accordance with sound institutional practice; (2) costs of insurance or of any contributions to any reserve covering the risk of loss of or damage to Government-owned property are unallowable except to the extent that the Government has specifically required or approved such costs; and (3) costs of insurance on the lives of officers or trustees are unallowable except where such insurance is part of an employee plan which is not unduly restricted.

c. Contributions to a reserve for an approved self-insurance program are allowable to the extent that the types of coverage, extent of coverage, and the rates and premiums would have been allowed had insurance been purchased to cover the risks.

d. Actual losses which could have been covered by permissible insurance (through an approved self-insurance program or otherwise) are unallowable unless expressly provided for in the research agreement, except that costs incurred because of losses not covered under existing deductible clauses for insurance coverage provided in keeping with sound management practice as well as minor losses not covered by insurance, such as spoilage, breakage, and disappearance of

V 38 181 SEP 1973 XUM

small hand tools, which occur in the ordinary course of operations, are allowable.

e. Indemnification includes securing the institution against liabilities to third persons and other losses not compensated by insurance or otherwise. The Government is obligated to indemnify the institution only to the extent expressly provided for in the research agreement, except as provided in d. above.

16. *Interest, fund raising, and investment management costs.* a. Costs incurred for interest on borrowed capital or temporary use of endowment funds, however represented, are unallowable.

b. Costs of organized fund raising, including financial campaigns, endowment drives, solicitation of gifts and bequests, and similar expenses incurred solely to raise capital or obtain contributions, are not allowable under Government research agreements.

c. Costs of investment counsel and staff and similar expenses incurred solely to enhance income from investments are not allowable under Government research agreements.

d. Costs related to the physical custody and control of monies and securities are allowable.

17. *Labor relations costs.* Costs incurred in maintaining satisfactory relations between the institution and its employees, including costs of labor management committees, employees' publications, and other related activities, are allowable.

18. *Losses on other research agreements or contracts.* Any excess of costs over income under any other research agreement or contract of any nature is unallowable. This includes, but is not limited to, the institution's contributed portion by reason of cost-sharing agreements or any under-recoveries through negotiation of flat amounts for indirect costs.

19. *Maintenance and repair costs.* Costs incurred for necessary maintenance, repair, or upkeep of property (including Government property unless otherwise provided for) which neither add to the permanent value of the property nor appreciably prolong its intended life but keep it in an efficient operating condition, are allowable.

20. *Material costs.* Costs incurred for purchased materials, supplies, and fabricated parts directly or indirectly related to the research agreement, are allowable. Purchases made specifically for the research agreement should be charged thereto at their actual prices after deducting all cash discounts, trade discounts, rebates, and allowances received by the institution. Withdrawals from general stores or stockrooms should be charged at their cost under any recognized method of pricing stores' withdrawals conforming to sound accounting practices consistently followed by the institution. Incoming transportation charges are a proper part of material cost. Direct material cost should include only the materials and supplies actually used for the performance of the research agreement, and due credit should be given for any excess materials retained, or returned to vendors. Due credit should be given for all proceeds or value received for any scrap resulting from work under the research agreement. Where Government-donated or furnished material is used in performing the research agreement, such material will be used without charge.

21. *Memberships, subscriptions, and professional activity costs.* a. Costs of the institution's membership in civic, business, technical, and professional organizations are allowable.

b. Costs of the institution's subscriptions to civic, business, professional, and technical periodicals are allowable.

c. Costs of meetings and conferences, when the primary purpose is the dissemination of technical information, are allowable. This includes costs of meals, transportation, rental of facilities, and other items incidental to such meetings or conferences.

22. *Patent costs.* Cost of preparing disclosures, reports, and other documents required by the research agreement and of searching the art to the extent necessary to make such invention disclosures, are allowable. In accordance with the clauses of the research agreement relating to patents, costs of preparing documents and any other patent costs, in connection with the filing of a patent application where title is conveyed to the Government, are allowable. (See also section J.33.)

23. *Pension plan costs.* Costs of the institution's pension plan which are incurred in accordance with the established policies of the institution are allowable, provided such policies meet the test of reasonableness and the methods of cost allocation are not discriminatory, and provided appropriate adjustments are made for credits or gains arising out of normal and abnormal employee turnover or any other contingencies that can result in forfeitures by employees which inure to the benefit of the institution.

24. *Plant security costs.* Necessary expenses incurred to comply with Government security requirements, including wages, uniforms, and equipment of personnel engaged in plant protection, are allowable.

25. *Preresearch agreement costs.* Costs incurred prior to the effective date of the research agreement, whether or not they would have been allowable thereunder if incurred after such date, are unallowable unless specifically set forth and identified in the research agreement.

26. *Professional services costs.* a. Costs of professional services rendered by the members of a particular profession who are not employees of the institution are allowable subject to b. and c. below, when reasonable in relation to the services rendered and when not contingent upon recovery of the costs from the Government. Retainer fees to be allowable must be reasonably supported by evidence of services rendered.

b. Factors to be considered in determining the allowability of costs in a particular case include (1) the past pattern of such costs, particularly in the years prior to the award of Government research agreements; (2) the impact of Government research agreements on the institution's total activity; (3) the nature and scope of managerial services expected of the institution's own organizations; and (4) whether the proportion of Government work to the institution's total activity is such as to influence the institution in favor of incurring the cost, particularly where the services rendered are not of a continuing nature and have little relationship to work under Government research agreements.

c. Costs of legal, accounting, and consulting services, and related costs, incurred in connection with organization and reorganization or the prosecution of claims against the Government, are unallowable. Costs of legal, accounting and consulting services, and related costs, incurred in connection with patent infrigement litigation, are unallowable unless otherwise provided for in the research agreement.

27. *Profits and losses on disposition of plant, equipment, or other capital assets.* Profits or losses of any nature arising from the sale or exchange of plant, equipment, or other capital assets, including sale or exchange of either short- or long-term investments, shall not be considered in computing research agreement costs.

28. *Proposal costs.* Proposal costs are the costs of preparing bids or proposals on potential Government and nongovernment research agreements or projects, including the development of engineering data and cost data necessary to support the institution's bids or proposals. Proposal costs of the current accounting period of both successful and unsuccessful bids and proposals normally should be treated as indirect costs and allocated currently to all activities of the institution, and no proposal costs of past accounting periods will be allocable in the current period to the Government research agreement. However, the institution's established practices may be to treat proposal costs by some other recognized method. Regardless of the method used, the results obtained may be accepted only if found to be reasonable and equitable.

29. *Public information services costs.* Costs of news releases pertaining to specific research or scientific accomplishment are unallowable unless specifically authorized by the sponsoring agency.

30. *Rearrangement and alteration costs.* Costs incurred for ordinary or normal rearrangement and alteration of facilities are allowable. Special arrangement and alteration costs incurred specifically for the project are allowable when such work has been approved in advance by the sponsoring agency concerned.

31. *Reconversion costs.* Costs incurred in the restoration or rehabilitation of the institution's facilities to approximately the same condition existing immediately prior to commencement of Government research agreement work, fair wear and tear excepted, are allowable.

32. *Recruiting costs.* a. Subject to b., c., and d. below, and provided that the size of the staff recruited and maintained is in keeping with workload requirements, costs of "help wanted" advertising, operating costs of an employment office necessary to secure and maintain an adequate staff, costs of operating an aptitude and educational testing program, travel costs of employees while engaged in recruiting personnel, travel costs of applicants for interviews for prospective employment, and relocation costs incurred incident to recruitment of new employees, are allowable to the extent that such costs are incurred pursuant to a well-managed recruitment program. Where the institution uses employment agencies, costs not in excess of standard commercial rates for such services are allowable.

b. In publications, costs of help-wanted advertising that includes color, includes advertising material for other than recruitment purposes, or is excessive in size (taking into consideration recruitment purposes for which intended and normal institutional practices in this respect), are unallowable.

c. Costs of help-wanted advertising, special emoluments, fringe benefits, and salary allowances incurred to attract professional personnel from other institutions that do not meet the test of reasonableness or do not conform with the established practices of the institution, are unallowable.

d. Where relocation costs incurred incident to recruitment of a new employee have been allowed either as an allocable direct or indirect cost, and the newly hired employee resigns for reasons within his control within 12 months after hire, the institution will be required to refund or credit such relocation costs to the Government.

33. *Royalties and other costs for use of patents.* Royalties on a patent or amortization of the cost of acquiring a patent or invention or rights thereto, necessary for the proper performance of the research agreement and applicable to tasks or processes thereunder, are allowable unless the Government has a license or the right to free use of the patent, the patent has been adjudicated to be invalid or has been administratively determined to be invalid, the patent is

considered to be unenforceable, or the patent has expired.

34. *Sabbatical leave costs.* Costs of leave of absence to employees for performance of graduate work or sabbatical study, travel, or research, are allowable provided the institution has a uniform policy on sabbatical leave for persons engaged in instruction and persons engaged in research. Such costs will be allocated on an equitable basis among all appertaining activities of the institution. Where sabbatical leave is included in fringe benefits for which a cost is determined for assessment as a direct charge, the aggregate amount of such assessments applicable to all work of the institution during the base period must be reasonable in relation to the institution's actual experience under its sabbatical leave policy.

35. *Scholarships and student aid costs.* Costs of scholarships, fellowships and other forms of student aid apply only to instruction and therefore are not allocable to research agreements, either as direct costs or indirect costs. However, in the case of students actually engaged in work under research agreements, any tuition remissions to such students for work performed are allocable to such research agreements provided consistent treatment is accorded such costs. (See section J.39.)

36. *Severance pay.* a. Severance pay is compensation in addition to regular salaries and wages which is paid by an institution to employees whose services are being terminated. Costs of severance pay are allowable only to the extent that such payments are required by law, by employer-employee agreement, by established policy that constitutes in effect an implied agreement on the institution's part, or by circumstances of the particular employment.

b. Severance payments that are due to normal, recurring turnover and which otherwise meet the conditions of a. above may be allowed provided the actual costs of such severance payments are regarded as expenses applicable to the current fiscal year and are equitably distributed among the institution's activities during that period.

c. Severance payments that are due to abnormal or mass terminations are of such conjectural nature that allowability must be determined on a case-by-case basis. However, the Government recognizes its obligation to participate, to the extent of its fair share, in any specific payment.

37. *Specialized service facilities operated by institution.* a. The costs, including amortization by generally accepted accounting practice, of institutional services involving the use of highly complex and specialized facilities such as electronic computers, including the cost of adapting computers for use, wind tunnels, and reactors are allowable provided the charges therefor meet the conditions of b. or c. below, and otherwise take into account any items of income or Federal financing that qualify as applicable credits under section C.5.

b. The costs of such institutional services normally will be charged directly to applicable research agreements based on actual usage or occupancy of the facilities on the basis of a schedule of rates that (1) is designed to recover only aggregate costs of providing such services over a long term agreed upon in advance by the cognizant Federal agency on an individual basis, and (2) is applied on a nondiscriminatory basis as between organized research and other work of the institution, including usage by the institution for internal purposes. Commercial or accommodation sales of computer services will be charged at not less than the above rates; however, if the rates charged for these services are greater, the total amount of charges above the scheduled rates when significant may be considered in revising the schedule of rates. Further, within the constraints of this paragraph, it is not necessary that the rates charged for services be equal to the cost of providing those services during any one fiscal year.

c. In the absence of an acceptable arrangement for direct costing as provided in b. above, the costs incurred for such institutional services may be assigned to research agreements as indirect costs, provided the methods used achieve substantially the same results. Such arrangements should be worked out in coordination with the cognizant Federal agency in order to assure equitable distribtuion of the indirect costs.

38. *Special services costs.* Costs incurred for general public relations activities, catalogs, alumni activities, and similar services, are unallowable.

39. *Staff benefits.* a. Staff benefits in the form of regular compensation paid to employees during periods of authorized absences from the job, such as for annual leave, sick leave, military leave, and the like, are allowable provided such costs are absorbed by all institutional activities, including organized research, in proportion to the relative amount of time or effort actually devoted to each. (See section J.34. for treatment of sabbatical leave.)

b. Staff benefits in the form of employer contributions or expenses for social security, employee insurance, workmen's compensation insurance, the pension plan (see section J.23.), tuition or remission of tuition for individual employees or their families (see section J.35.), and the like, are allowable provided such benefits are granted in accordance with established institutional policies, and provided such contributions and other expenses, whether treated as indirect costs or as an increment of direct labor costs, are distributed to particular research agreements and other activities in a manner consistent with the pattern of benefits accruing to the individuals or groups of employees whose salaries and wages are chargeable to such research agreements and other activities.

40. *Student activity costs.* Costs incurred for intramural activities, student publications, student clubs, and other student activities, apply only to instruction and therefore are not allocable to research agreements, either as direct costs or indirect costs.

41. *Student services costs.* Costs of the deans of students, administration of student affairs, registrar, placement offices, student advisers, student health and infirmary services, and such other activities as are identifiable with student services apply only to instruction and therefore are not allocable to research agreements, either as direct costs or indirect costs. However, in the case of students actually engaged in work under research agreements, a proportion of student services costs measured by the relationship between hours of work by students on such research work and total student hours including all research time may be allowed as a part of research administration expenses.

42. *Taxes.* a. In general, taxes which the institution is required to pay and which are paid or accrued in accordance with generally accepted accounting principles, and payments made to local governments in lieu of taxes which are commensurate with the local government services received are allowable, except for: (1) taxes from which exemptions are available to the institution directly or which are available to the institution based on an exemption afforded the Government and in the latter case when the sponsoring agency makes available the necessary exemption certificates, and (2) special assessments on land which represent capital improvements.

b. Any refund of taxes, interest, or penalties, and any payment to the institution of interest thereon, attributable to taxes, interest, or penalties which were allowed as research agreement costs, will be credited or paid to the Government in the manner directed by the Government provided any interest actually paid or credited to an institution incident to a refund of tax, interest and penalty will be paid or credited to the Government only to the extent that such interest accrued over the period during which the institution had been reimbursed by the Government for the taxes, interest, and penalties.

43. *Transportation costs.* Costs incurred for freight, express, cartage, postage, and other transportation services relating either to goods purchased, in process, or delivered, are allowable. When such costs can readily be identified with the items involved, they may be charged directly as transportation costs or added to the cost of such items. Where identification with the materials received cannot readily be made, inbound transportation costs may be charged to the appropriate indirect cost accounts if the institution follows a consistent, equitable procedure in this respect. Outbound freight, if reimbursable under the terms of the research agreement, should be treated as a direct cost.

44. *Travel costs.* a. Travel costs are the expenses for transportation, lodging, subsistence, and related items incurred by employees who are in travel status on official business of the institution. Such costs may be charged on an actual basis, on a per diem or mileage basis in lieu of actual costs incurred, or on a combination of the two, provided the method used is applied to an entire trip and not to selected days of the trip, and results in charges consistent with those normally allowed by the institution in its regular operations.

b. Travel costs are allowable subject to c., d., e., and f. below, when they are directly attributable to specific work under a research agreement or are incurred in the normal course of administration of the institution or a department or research program thereof.

c. The difference in cost between first-class air accommodations and less than first-class air accommodations is unallowable except when less than first-class air accommodations are not reasonably available to meet necessary mission requirements, such as where less than first-class accommodations would:
(1) Require circuitous routing, (2) require travel during unreasonable hours, (3) greatly increase the duration of the flight, (4) result in additional costs which would offset the transportation savings, or (5) offer accommodations which are not reasonably adequate for the medical needs of the traveler.

d. Costs of personnel movements of a special or mass nature are allowable only when authorized or approved in writing by the sponsoring agency or its authorized representative.

e. Foreign travel costs are allowable only when the travel has received specific prior approval. Each separate foreign trip must be specifically approved. For purposes of this provision, foreign travel is defined as "any travel outside of Canada and the United States and its territories and possessions."

f. Expenditures for domestic travel may not exceed $500, or 125 percent of the amount allotted for such travel by the sponsoring agency, whichever is greater, except with approval.

45. *Termination costs applicable to research agreements.* a. Termination of research agreements generally gives rise to the incurrence of costs or to the need for special treatment of costs, which would not have arisen had the agreement not been terminated. Items peculiar to termination are set forth below. They are to be used in conjunction with all other provisions of this Appendix in the case of termination.

V 38 181 SEP 1973 XUM

b. The cost of common items of material reasonably usable on the institution's other work will not be allowable unless the institution submits evidence that it could not retain such items at cost without sustaining a loss. In deciding whether such items are reasonably usable on other work of the institution, consideration should be given to the institution's plans and orders for current and scheduled work. Contemporaneous purchases of common items by the institution will be regarded as evidence that such items are reasonably usable on the institution's other work. Any acceptance of common items as allowable to the terminated portion of the agreement should be limited to the extent that the quantities of such items on hand, in transit, and on order are in excess of the reasonable quantitative requirements of other work.

c. If in a particular case, despite all reasonable efforts by the institution, certain costs cannot be discontinued immediately after the effective date of termination, such costs are generally allowable within the limitations set forth in this Appendix, except that any such costs continuing after termination due to the negligent or willful failure of the institution to discontinue such costs will be considered unacceptable.

d. Loss of useful value of special tooling, and special machinery and equipment is generally allowable, provided: (1) such special tooling, machinery, or equipment is not reasonably capable of use in the other work of the institution; (2) the interest of the Government is protected by transfer of title or by other means deemed appropriate by the contracting officer or equivalent; and (3) the loss of useful value as to any one terminated agreement is limited to that portion of the acquisition cost which bears the same ratio to the total acquisition cost as the terminated portion of the agreement bears to the entire terminated agreement and other Government agreements for which the special tooling, special machinery, or equipment was acquired.

e. Rental costs under unexpired leases are generally allowable where clearly shown to have been reasonably necessary for the performance of the terminated agreement, less the residual value of such leases, if: (1) the amount of such rental claimed does not exceed the reasonable use value of the property leased for the period of the agreement and such further period as may be reasonable; and (2) the institution makes all reasonable efforts to terminate, assign, settle, or otherwise reduce the cost of such lease. There also may be included the cost of alterations of such leased property, provided such alterations were necessary for the performance of the agreement, and of reasonable restoration required by the provisions of the lease.

f. Settlement expenses including the following are generally allowable: (1) accounting, legal, clerical, and similar costs reasonably necessary for the preparation and presentation to contracting officers or equivalent of settlement claims and supporting data with respect to the terminated portion of the agreement, and the termination and settlement of subagreements; and (2) reasonable costs for the storage, transportation, protection, and disposition of property provided by the Government or acquired or produced by the institution for the agreement.

g. Claims under subagreements, including the allocable portion of claims which are common to the agreement and to other work of the institution, are generally allowable.

K. *Certification of charges.* To assure that expenditures for research grants and contracts are proper and in accordance with the research agreement documents and approved project budgets, the annual and/or final fiscal reports or vouchers requesting payment under research agreements will include a certification, signed by an authorized official of the university, which reads essentially as follows: "I certify that all expenditures reported (or payments requested) are for appropriate purposes and in accordance with the agreements set forth in the application and award documents."

PART II—PRINCIPLES FOR DETERMINING COSTS APPLICABLE TO TRAINING AND OTHER EDUCATIONAL SERVICES UNDER GRANTS AND CONTRACTS WITH EDUCATIONAL INSTITUTIONS

A. *Purpose.* This part extends the scope of Part I To cover the determination of costs incurred by educational institutions under Federal grants and contracts for training and other educational services.

B. *Application.* The Department of Health, Education and Welfare will use Parts I and II of this Appendix as a basis for determining allowable costs under grants and cost reimbursement type contracts with educational institutions for work performed under federally supported education service agreements.

C. *Terminology.* The following definitions are to be used in determining the indirect cost of federally sponsored training and other educational services under this Part II:

1. *Educational service agreement* means any grant or contract under which Federal financing is provided on a cost reimbursement basis for all or an agreed portion of the costs incurred for training or other educational services. Typical of the work covered by educational service agreements are summer institutes, special training programs for selected participants, professional or technical services to cooperating countries, the development and introduction of new or expanded courses, and similar instructional oriented undertakings, including special research training programs, that are separately budgeted and accounted for by the institution.

The term does not extend to: (a) grants or contracts for organized research, (b) arrangements under which the Federal financing is exclusively in the form of scholarships, fellowships, traineeships, or other fixed amounts such as a cost of education allowance or the normal published tuition rates and fees of an institution, or (c) construction, facility and exclusively general resource or institutional-type grants.

2. *Instruction* means all of the academic work other than organized research carried on by an institution, including the teaching of graduate and undergraduate courses, departmental research (see section B.2. of Part I) and all special training or other instructional-oriented projects sponsored by the Federal Government or others under educational service agreements.

D. *Student administration and services.* In addition to the five major functional categories of indirect costs described in section F of Part I, there is established an additional category under the title "Student administration and services" to embrace the following:

1. The expenses in this category are those that have been incurred for the administration of student affairs and for services to students, including expenses of such activities as deans of students, admissions, registrar, counseling and placement services, student advisers, student health and infirmary services, catalogs, and commencements and convocations. The salaries of members of the academic staff whose academic appointments or assignments involve the performance of such administrative or service work may also be included to the extent that the portion so charged is supported pursuant to section J.2. of Part I. The student administration and services category also includes the staff benefit and pension plan costs applicable to the salaries and wages included therein, an appropriate share of the cost of the operation and maintenance of the physical plant, and charges representing use allowance or depreciation applicable to the buildings and equipment utilized in the performance of the functions included in this category.

2. The expenses in this category are generally applicable in their entirety to the instruction activity. They should be allocated to applicable cost objectives within the instruction activity, including educational service agreements, when such agreements reasonably benefit from these expenses. Such expenses should be allocated on the basis of population served (computed on the basis of full-time equivalents including students, faculty, and others as appropriate) or other methods which will result in an equitable distribution to cost objectives in relation to the benefits received and be consistent with guides provided in section E.2. of Part I.

E. *Direct costs of educational service agreements.* Direct costs of work performed under educational service agreements will be determined consistent with the principles set forth in section D of Part I.

F. *Indirect costs of the instruction activity.* The indirect costs of the instruction activity as a whole should include its allocated share of administrative and supportive costs determined in accordance with the principles set forth in section D above and in section F of Part I. Such costs may include other items of indirect cost incurred solely for the instruction activity and not included in the general allocation of the various categories of indirect expenses. Costs incurred for the institutions by State and local governments are allowable as provided for in section C.6. of Part I.

G. *Indirect costs applicable to educational service agreements.* The individual items of indirect costs applicable to the instruction activity as a whole should be assigned to: (1) educational service agreements, and (2) all other instructional work through use of appropriate cost groupings, selected distribution bases, and other reasonable methods as outlined in section E.2. of Part I. A single indirect pool may be used for all educational service agreements provided this results in a reasonably equitable distribution of costs among agreements in relation to indirect support services provided. However, when the level of indirect support significantly varies for work performed either on campus or off campus under a particular agreement or group of agreements, separate cost pools should be established consistent with the principles set forth in section G.1.b. of Part I. Where direct charges are provided for under educational service agreements for such things as commencement fees, student fees, and tuition, the related indirect costs, through separate cost groupings, should be excluded from the indirect costs allocable to the service agreements.

H. *Indirect cost rates for educational service agreements.* An indirect cost rate should be determined for the educational service agreement pool or pools, as established under section G above. The rate in each case should be stated as the percentage which the amount of the particular educational service agreement pool is of the total direct salaries and wages of all educational service agreements identified with such pool. Indirect costs should be distributed to individual agreements by applying the rate or rates established to direct salaries and wages for each agreement. When a fixed rate is negotiated in advance of a fiscal year, the over- or under-recovery for that year may be included as an adjustment to the indirect cost for the next rate negotiation as in sections G.4. and G.5. of Part I.

I. *General standards for selected items of cost.* The standards for selected items of cost as set forth in sections J.1. through J.46. of Part I applicable to research agreements will also be applied to educational service agreements with the following modifications:

1. *Commencement and convocation costs (J.5.).* Expenses incurred for convocations and commencements apply to the instruction activity as a whole. Such expenses are unallowable as direct costs of educational service agreements unless specifically authorized in the agreement or approved in writing by the sponsoring agency. For eligibility of allocation as indirect costs, see section D.

2. *Compensation for personal services (J.7.).* Charges to educational service agreements for personal services will normally be determined and supported consistent with the provisions of section J.7. of Part I. However, the provision for stipulated salary support will not be used for educational service agreements. Also, charges may include compensation in excess of the base salary of a faculty member for the conduct of courses outside the normal duties of such member provided that: (a) extra charges are determined at a rate not greater than the basic salary rate of the member; (b) salary payments for such work follow practices consistently applied within the institution; and (c) specific authorization for such charges is included in the educational service agreement.

3. *Scholarships and student aid costs (J.35.).* Expenses incurred for scholarships and student aid are unallowable as either direct costs or indirect costs of educational service agreements, unless specifically authorized in the educational service agreement or approved in writing by the sponsoring agency.

4. *Student activity costs (J.40.).* Expenses incurred for student activities are unallowable as either direct costs or indirect costs of educational service agreements, unless specifically authorized in the educational service agreement or approved in writing by the sponsoring agency.

5. *Student services costs (J.41.).* Expenses incurred for student services are unallowable as direct costs of educational service agreements unless specifically authorized in the agreement or approved in writing by the sponsoring agency. For eligibility of allocation as indirect costs, see section D.

APPENDIX E—PRINCIPLES FOR DETERMINING COSTS APPLICABLE TO RESEARCH AND DEVELOPMENT UNDER GRANTS AND CONTRACTS WITH HOSPITALS

I. PURPOSE AND SCOPE

A. *Objectives.* This appendix provides principles for determining the costs applicable to research and development work performed by hospitals under grants and contracts with the Department of Health, Education and Welfare. These principles are confined to the subject of cost determination and make no attempt to identify the circumstances or dictate the extent of hospital participation in the financing of a particular research or development project. The principles are designed to provide recognition of the full allocated costs of such research work under generally accepted accounting principles. These principles will be applicable to both proprietary and non-profit hospitals. No provision for profit or other increment above cost is provided for in these principles. However, this is not to be interpreted as precluding a negotiated fee between contracting parties when a fee is appropriate.

B. *Policy guides.* The successful application of these principles requires development of mutual understanding between representatives of hospitals and of the Department of Health, Education and Welfare as to their scope, applicability and interpretation. It is recognized that:

1. The arrangements for hospital participation in the financing of a research and development project are properly subject to negotiation between the agency and the hospital concerned in accordance with such Government-wide criteria as may be applicable.

2. Each hospital, possessing its own unique combination of staff, facilities and experience, should be encouraged to conduct research in a manner consonant with its own institutional philosophies and objectives.

3. Each hospital in the fulfillment of its contractual obligations should be expected to employ sound management practices.

4. The application of the principles established herein shall be in conformance with the generally accepted accounting practices of hospitals.

5. Hospitals receive reimbursements from the Federal Government for differing types of services under various programs such as support of Research and Development (including discrete clinical centers) Health Services Projects, Medicare, etc. It is essential that consistent procedures for determining reimbursable costs for similar services be employed without regard to program differences. Therefore, both the direct and indirect costs of research programs must be identified as a cost center(s) for the cost finding and step-down requirements of the Medicare program, or in its absence the Medicaid program.

C. *Application.* All operating agencies within the Department of Health, Education and Welfare that sponsor research and development work in hospitals will apply these principles and related policy guides in determining the costs incurred for such work under grants and cost-reimbursement type contracts and subcontracts. These principles will also be used as a guide in the pricing of fixed-price contracts and subcontracts.

II. DEFINITIONS OF TERMS

A. "Organized research" means all research activities of a hospital that may be identified whether the support for such research is from a federal, non-federal or internal source.

B. "Departmental research" means research activities that are not separately budgeted and accounted for. Such work, which includes all research activities not encompassed under the term organized research, is regarded for purposes of this document as a part of the patient care activities of the hospital.

C. "Research agreement" means any valid arrangement to perform federally-sponsored research or development including grants, cost-reimbursement type contracts, cost-reimbursement type sub-contracts, and fixed-price contracts and sub-contracts.

D. "Instruction and training" means the formal or informal programs of educating and training technical and professional health services personnel, primarily medical and nursing training. This activity, if separately budgeted or identifiable with specific costs, should be considered as a cost objective for purposes of indirect cost allocations and the development of patient care costs.

E. "Other hospital activities" means all organized activities of a hospital not immediately related to the patient care, research, and instructional and training functions which produce identifiable revenue from the performance of these activities. If a non-related activity does not produce identifiable revenue, it may be necessary to allocate this expense using an appropriate basis. In such a case, the activity may be included as an allocable cost (See para. III D below.) Also included under this definition is any category of cost treated as "Unallowable," provided such category of cost identifies a function or activity to which a portion of the institution's indirect cost (as defined in para. V. A.) are properly allocable.

F. "Patient care" means those departments or cost centers which render routine or ancillary services to in-patients and/or out-patients. As used in para. IX B.23, it means the cost of these services applicable to patients involved in research programs.

G. "Allocation" means the process by which the indirect costs are assigned as between:

1. Organized research,
2. Patient care including departmental research.
3. Instruction and training, and
4. Other hospital activities.

H. "Cost center" means an identifiable department or area (including research) within the hospital which has been assigned an account number in the hospital accounting system for the purpose of accumulating expense by department or area.

I. "Cost finding" is the process of recasting the data derived from the accounts ordinarily kept by a hospital to ascertain costs of the various types of services rendered. It is the determination of direct costs by specific identification and the proration of indirect costs by allocation.

J. "Step down" is a cost finding method that recognizes that services rendered by certain nonrevenue-producing departments or centers are utilized by certain other nonrevenue producing centers as well as by the revenue-producing centers. All costs of nonrevenue-producing centers are allocated to all centers which they serve, regardless of whether or not these centers produce revenue. Following the apportionment of the cost of the nonrevenue-producing center, that center will be considered closed and no further costs are apportioned to that center.

K. "Scatter bed" is a bed assigned to a research patient based on availability. Research patients occupying these beds are not physically segregated from nonresearch patients occupying beds. Scatter beds are geographically dispersed among all the beds available for use in the hospital. There are no special features attendant to a scatter bed that distinguishes it from others that could just as well have been occupied.

L. "Discrete bed" is a bed or beds that have been set aside for occupancy by research patients and are physically segregated from other hospital beds in an environment that permits an easily ascertainable allocation of costs associated with the space they occupy and the services they generate.

III. BASIC CONSIDERATIONS

A. *Composition of total costs.* The cost of a research agreement is comprised of the allowable direct costs incident to its performance plus the allocable portion of the allowable indirect costs of the hospital less applicable credits. (See para. III–E.)

B. *Factors affecting allowability of costs.* The tests of allowability of costs under these principles are:

1. They must be reasonable,
2. They must be assigned to research agreements under the standards and methods provided herein,
3. They must be accorded consistent treatment through application of those generally accepted accounting principles appropriate to the circumstances (See para. I–B.5.) and
4. They must conform to any limitations or exclusions set forth in these principles or in the research agreement as to types or amounts of cost items.

C. *Reasonable costs.* A cost may be considered reasonable if the nature of the goods or services acquired or applied, and the amount

V 38 1 81 SEP 19 73 XUM

involved therefor reflect the action that a prudent person would have taken under the circumstances prevailing at the time the decision to incur the cost was made. Major considerations involved in the determination of the reasonableness of a cost are:

1. Whether or not the cost is of a type generally recognized as necessary for the operation of the hospital or the performance of the research agreement,

2. The restraints or requirements imposed by such factors as arm's length bargaining, federal and state laws and regulations, and research agreement terms and conditions,

3. Whether or not the individuals concerned acted with due prudence in the circumstances, considering their responsibilities to the hospital, its patients, its employees, its students, the Government, and the public at large, and

4. The extent to which the actions taken with respect to the incurrence of the cost are consistent with established hospital policies and practices applicable to the work of the hospital generally, including Government research.

D. *Allocable costs.* 1. A cost is allocable to a particular cost center (i.e., a specific function, project, research agreement, department, or the like) if the goods or services involved are chargeable or assignable to such cost center in accordance with relative benefits received or other equitable relationship. Subject to the foregoing, a cost is allocable to a research agreement if it is incurred solely to advance the work under the research agreement; or it benefits both the research agreement and other work of the hospital in proportions that can be approximated through use of reasonable methods; or it is necessary to the overall operation of the hospital and, in light of the standards provided in this chapter, is deemed to be assignable in part to organized research. Where the purchase of equipment or other capital items are specifically authorized under a research agreement, the amounts thus authorized for such purchases are allocable to the research agreement regardless of the use that may subsequently be made of the equipment or other capital items involved.

2. Any costs allocable to a particular research agreement under the standards provided in these principles may not be shifted to other research agreements in order to meet deficiencies caused by overruns or other fund considerations, to avoid restrictions imposed by law or by terms of the research agreement, or for other reasons of convenience.

E. *Applicable credits.* 1. The term applicable credits refers to those receipts or negative expenditure types of transactions which operate to offset or reduce expense items that are allocable to research agreements as direct or indirect costs as outlined in para. V–A. Typical examples of such transactions are: purchase discounts, rebates, or allowances; recoveries or indemnities on losses; sales of scrap or incidental services; tuition; adjustments of overpayments or erroneous charges; and services rendered to patients admitted to federally funded clinical research centers, primarily for care though also participating in research protocols.

2. In some instances, the amounts received from the Federal Government to finance hospital activities or service operations should be treated as applicable credits. Specifically, the concept of netting such credit items against related expenditures should be applied by the hospital in determining the rates or amounts to be charged to government research for services rendered whenever the facilities or other resources used in providing such services have been financed directly, in whole or in part, by federal funds. Thus, where such items are provided for or benefit a particular hospital activity, i.e., patient care, research, instruction and training, or other, they should be treated as an offset to the indirect costs apportioned to that activity. Where the benefits are common to all hospital activities they should be treated as a credit to the total indirect cost pool before allocation to the various cost objectives.

IV. DIRECT COSTS

A. *General.* Direct costs are those that can be identified specifically with a particular cost center. For this purpose, the term cost center refers not only to the ultimate centers against which costs are finally lodged such as research agreements, but also to other established cost centers such as the individual accounts for recording particular objects or items of expense, and the separate account groupings designed to record the expenses incurred by individual organizational units, functions, projects and the like. In general, the administrative functions and service activities described in para. VI are identifiable as separate cost centers, and the expenses associated with such centers become eligible in due course for distribution as indirect costs of research agreements and other ultimate cost centers.

B. *Application to research agreements.* Identifiable benefit to the research work rather than the nature of the goods and services involved is the determining factor in distinguishing direct from indirect costs of research agreements. Typical of transactions chargeable to a research agreement as direct costs are the compensation of employees for the time or effort devoted to the performance of work under the research agreement, including related staff benefit and pension plan costs to the extent that such items are consistently accorded to all employees and treated by the hospital as direct rather than indirect costs (see para. V. B4b); the costs of materials consumed or expended in the performance of such work; and other items of expense incurred for the research agreement, such as extraordinary utility consumption. The cost of materials supplied from stock or services rendered by specialized facilities or other institutional service operations may be included as direct costs of research agreements provided such items are consistently treated by the institution as direct rather than indirect costs and are charged under a recognized method of costing or pricing designed to recover only the actual direct and indirect costs of such material or service and conforming to generally accepted cost accounting practices consistently followed by the institution.

V. INDIRECT COSTS

A. *General.* Indirect costs are those that have been incurred for common or joint objectives, and thus are not readily subject to treatment as direct costs of research agreements or other ultimate or revenue producing cost centers. In hospitals such costs normally are classified but not necessarily restricted to the following functional categories: Depreciation; Administrative and General (including fringe benefits if not charged directly); Operation of Plant; Maintenance of Plant; Laundry and Linen Service; Housekeeping; Dietary; Maintenance of Personnel; and Medical Records and Library.

B. *Criteria for distribution.*—1. *Base period.* A base period for distribution of indirect costs is the period during which such costs are incurred and accumulated for distribution to work performed within that period. The base period normally should coincide with the fiscal year established by the hospital, but in any event the base period should be so selected as to avoid inequities in the distribution of costs.

2. *Need for cost groupings.* The overall objective of the allocation process is to distribute the indirect costs described in para. VI to organized research, patient care, instruction and training, and other hospital activities in reasonable proportions consistent with the nature and extent of the use of the hospital's resources by research personnel, medical staff, patients, students, and other personnel or organizations. In order to achieve this objective with reasonable precision, it may be necessary to provide for selective distribution by establishing separate groupings of cost within one or more of the functional categories of indirect costs referred to in para. V–A. In general, the cost groupings established within a functional category should constitute, in each case, a pool of those items of expense that are considered to be of like character in terms of their relative contribution to (or degree of remoteness from) the particular cost centers to which distribution is appropriate. Each such pool or cost grouping should then be distributed individually to the related cost centers, using the distribution base or method most appropriate in the light of the guides set out in B3 below. While this paragraph places primary emphasis on a step-down method of indirect cost computation, para. VIII provides an alternate method which may be used under certain conditions.

3. *Selection of distribution method.* Actual conditions must be taken into account in selecting the method or base to be used in distributing to related cost centers the expenses assembled under each of the individual cost groups established as indicated under B2 above. Where a distribution can be made by assignment of a cost grouping directly to the area benefited, the distribution should be made in that manner. Care should be given, however, to eliminate similar or duplicative costs from any other distribution made to this area. Where the expenses under a cost grouping are more general in nature, the distribution to related cost centers should be made through use of a selected base which will produce results which are equitable to both the Government and the hospital. In general, any cost element or cost-related factor associated with the hospital's work is potentially adaptable for use as a distribution base provided:

a. It can readily be expressed in terms of dollars or other quantitative measure (total direct expenditures, direct salaries, manhours applied, square feet utilized, hours of usage, number of documents processed, population served, and the like); and

b. It is common to the related cost centers during the base period. The essential consideration in selection of the distribution base in each instance is that it be the one best suited for assigning the pool of costs to related cost centers in accord with the relative benefits derived; the traceable cause and effect relationship; or logic and reason, where neither benefit nor cause and effect relationship is determinable.

4. *General consideration on cost groupings.* The extent to which separate cost groupings and selective distribution would be appropriate at a hospital is a matter of judgment to be determined on a case-by-case basis. Typical situations which may warrant the establishment of two or more separate cost groups (based on account classification or analysis) within a functional category include but are not limited to the following:

a. Where certain items or categories of expense relate solely to one of the major divisions of the hospital (patient care, sponsored research, instruction and training, or other hospital activities) or to any two but not all, such expenses should be set aside as a separate cost grouping for direct assignment or selective distribution in accordance with the guides provided in B2 and B3 above.

b. Where any types of expense ordinary treated as indirect cost as outlined in para. V–A are charged to research agreements as direct costs, the similar type expenses applicable to other activities of the institution must through separate cost grouping be excluded from the indirect costs allocable to research agreements.

c. Where it is determined that certain expenses are for the support of a service unit or facility whose output is susceptible of measurement on a workload or other quantitative basis, such expenses should be set aside as a separate cost grouping for distribution on such basis to organized research and other hospital activities.

d. Where organized activities (including identifiable segments of organized research as well as the activities cited in para. II–E) provide their own purchasing, personnel administration, building maintenance, or housekeeping or similar service, the distribution of such elements of indirect cost to such activities should be accomplished through cost grouping which includes only that portion of central indirect costs (such as for overall management) which are properly allocable to such activities.

e. Where the hospital elects to treat as indirect charges the costs of pension plans and other staff benefits, such costs should be set aside as a separate cost grouping for selective distribution to related cost centers, including organized research.

f. Where the hospital is affiliated with a medical school or some other institution which performs organized research on the hospital's premises, every effort should be made to establish separate cost groupings in the Administrative and General or other applicable category which will reasonably reflect the use of services and facilities by such research. (See also para. VII–A.3)

5. *Materiality.* Where it is determined that the use of separate cost groupings and selective distribution are necessary to produce equitable results, the number of such separate cost groupings within a functional category should be held within practical limits, after taking into consideration the materiality of the amounts involved and the degree of precision attainable through less selective methods of distribution.

C. *Administration of limitations on allowances for indirect costs.* 1. Research grants may be subject to laws and/or administrative regulations that limit the allowance for indirect costs under each such grant to a stated percentage of the direct costs allowed. Agencies that sponsor such grants will establish procedures which will assure that:

a. the terms and amount authorized in each case conform with the provisions of paragraphs III, V and IX of these principles as they apply to matters involving the consistent treatment and allowability of individual items of cost; and

b. the amount actually allowed for indirect costs under each such research grant does not exceed the maximum allowable under the limitation or the amount otherwise allowable under these principles, whichever is the smaller.

2. Where the actual allowance for indirect costs on any research grant must be restricted to the smaller of the two alternative amounts referred to in C1 above, such alternative amounts should be determined in accordance with the following guides:

a. The maximum allowable under the limitation should be established by applying the stated percentage to a direct cost base which shall include all items of expenditure authorized by the sponsoring agency for inclusion as part of the total cost for the direct benefit of the work under the grant; and

b. The amount otherwise allowable under these principles should be established by applying the current institutional indirect cost rate to those elements of direct cost which were included in the base on which the rate was computed.

3. When the maximum amount allowable under a statutory limitation or the terms of a research agreement is less than the amount otherwise allocable as indirect costs under these principles, the amount not recoverable as indirect costs under the research agreement involved may not be shifted to other research agreements.

VI. IDENTIFICATION AND ASSIGNMENT OF INDIRECT COSTS

A. *Depreciation or use charge.* 1. The expenses under this heading should include depreciation (as defined in para. IX–B.9a) on buildings, fixed equipment, and movable equipment, except to the extent purchased through federal funds. Where adequate records for the recording of depreciation are not available, a use charge may be substituted for depreciation (See para. IX–B.)

2. The expenses included in this category should be allocated to applicable cost centers in a manner consistent with the guides set forth in para. V–B. on a basis that gives primary emphasis to (a) space utilization with respect to depreciation on buildings and fixed equipment; and (b) specific identification of assets and their use with respect to movable equipment as it relates to patient care, organized research, instruction and training, and other hospital activities. Where such records are not sufficient for the purpose of the foregoing, reasonable estimates will suffice as a means for effecting distribution of the amounts involved.

B. *Administration and general expenses.* 1. The expenses under this heading are those that have been incurred for the administrative offices of the hospital including accounting, personnel, purchasing, information centers, telephone expense, and the like which do not relate solely to any major division of the institution, i.e., solely to patient care, organized research, instruction and training, or other hospital activities.

2. The expenses included in this category may be allocated on the basis of total expenditures exclusive of capital expenditures, or salaries and wages in situations where the results of the distribution made on this basis are deemed to be equitable both to the Government and the hospital; otherwise the distribution of Administration and General expenses should be made through use of selected bases, applied to separate cost groupings established within this category of expenses in accordance with the guides set out in para. V–B.

C. *Operation of plant.* 1. The expenses under this heading are those that have been incurred by a central service organization or at the departmental level for the administration, supervision, and provision of utilities (exclusive of telephone expense) and protective services to the physical plant. They include expenses incurred for such items as power plant operations, general utility costs, elevator operations, protection services, and general parking lots.

2. The expenses included in this category should be allocated to applicable cost centers in a manner consistent with the guides provided in para. V–B. on a basis that gives primary emphasis to space utilization. The allocations should be developed as follows:

a. Where actual space and related cost records are available and can readily be developed and maintained without significant change in the accounting practices, the amount distributed should be based on such records;

b. Where the space and related cost records maintained are not sufficient for purposes of the foregoing, a reasonable estimate of the proportion of total space assigned to the various costs centers normally will suffice as a means for effecting distribution of the amounts involved; or

c. Where it can be demonstrated that an area or volume of space basis of allocation is impractical or inequitable, other basis may be used provided consideration is given to the use of facilities by research personnel and others, including patients.

D. *Maintenance of plant.* 1. The expenses under this heading should include:

a. All salaries and wages pertaining to ordinary repair and maintenance work performed by employees on the payroll of the hospital;

b. All supplies and parts used in the ordinary repairing and maintaining of buildings and general equipment; and

c. Amounts paid to outside concerns for the ordinary repairing and maintaining of buildings and general equipment.

2. The expenses included in this category should be allocated to applicable cost centers in a manner consistent with the guides provided in para. V–B. on a basis that gives primary emphasis to space utilization. The allocations and apportionments should be developed as follows:

a. Where actual space and related cost records are available and can readily be developed and maintained without significant change in the accounting practices, the amount distributed should be based on such records;

b. Where the space and related cost records maintained are not sufficient for purposes of the foregoing, a reasonable estimate of the proportion of total space assigned to the various cost centers normally will suffice as a means for effecting distribution of the amounts involved; or

c. Where it can be demonstrated that an area or volume of space basis of allocation is impractical or inequitable, other basis may be used provided consideration is given to the use of facilities by research personnel and others, including patients.

E. *Laundry and linen.* 1. The expenses under this heading should include:

a. Salaries and wages of laundry department employees, seamstresses, clean linen handlers, linen delivery men, etc.;

b. Supplies used in connection with the laundry operation and all linens purchased; and

c. Amounts paid to outside concerns for purchased laundry and/or linen service.

2. The expense included in this category should be allocated to related cost centers in a manner consistent with the guides provided in para. V–B. on a basis that gives primary emphasis to actual pounds of linen used. The allocations should be developed as follows:

a. Where actual poundage and related cost records are available or can readily be develop and maintained without significant change in the accounting practices, the amount distributed should be based on such records;

b. Where it can be demonstrated that a poundage basis of allocation is impractical or inequitable other bases may be used provided consideration is given to the use of linen by research personnel and others, including patients.

F. *Housekeeping.* 1. The expenses under this heading should include:

a. All salaries and wages of the department head, foreman, maids, porters, janitors, wall washers, and other housekeeping employees;

b. All supplies used in carrying out the housekeeping functions; and

c. Amounts paid to outside concerns for purchased services such as window washing, insect extermination, etc.

2. The expenses included in this category should be allocated to related cost centers in a manner consistent with the guides pro-

V 38 181
SEP 19 73
XUM

vided in para. V–B. on a basis that gives primary emphasis to space actually serviced by the housekeeping department. The allocations and apportionments should be developed as follows:

a. Where actual space serviced and related cost records are available or can readily be developed and maintained without significant change in the accounting practices, the amount distributed should be based on such records;

b. Where the space serviced and related cost records maintained are not sufficient for purposes of the foregoing, a reasonable estimate of the proportion of total space assigned to the various cost centers normally will suffice as a means for effecting distribution of the amounts of housekeeping expenses involved; or

c. Where it can be demonstrated that the space serviced basis of allocation is impractical or inequitable, other bases may be used provided consideration is given to the use of housekeeping services by research personnel and others, including patients.

G. *Dietary.* 1. These expenses, as used herein, shall mean only the subsidy provided by the hospital to its employees including research personnel through its cafeteria operation. The hospital must be able to demonstrate through the use of proper cost accounting techniques that the cafeteria operates at a loss to the benefit of employees.

2. The reasonable operating loss of a subsidized cafeteria operation should be allocated to related cost centers in a manner consistent with the guides provided in para. V–B. on a basis that gives primary emphasis to number of employees.

H. *Maintenance (housing) of personnel.* 1. The expenses under this heading should include:

a. The salaries and wages of matrons, clerks, and other employees engaged in work in nurses' residences and other employees' quarters;

b. All supplies used in connection with the operation of such dormitories; and

c. Payments to outside agencies for the rental of houses, apartments, or rooms used by hospital personnel.

2. The expenses included in this category should be allocated to related cost centers in a manner consistent with the guides provided in para. V–B. on a basis that gives primary emphasis to employee utilization of housing facilities. The allocation should be developed as follows:

a. Appropriate credit should be given for all payments received from employees or otherwise to reduce the expense to be allocated;

b. A net cost per housed employee may then be computed; and

c. Allocation should be made on a departmental basis based on the number of housed employees in each respective department.

I. *Medical records and library.* 1. The expenses under this heading should include:

a. The salaries and wages of the records librarian, medical librarian, clerks, stenographers, etc.; and

b. All supplies such as medical record forms, chart covers, filing supplies, stationery, medical library books, periodicals, etc.

2. The expenses included in this category should be allocated to related cost centers in a manner consistent with the guides provided in para. V–B. on a basis that gives primary emphasis to a special time survey of medical records personnel. If this appears to be impractical or inequitable, other bases may be used provided consideration is given to the use of these facilities by research personnel and others, including patients.

### VII. DETERMINATION AND APPLICATION OF INDIRECT COST RATE OR RATES

A. *Indirect cost pools.* 1. Subject to (2) below, indirect costs allocated to organized research should be treated as a common pool, and the costs in such common pool should be distributed to individual research agreements benefiting therefrom on a single rate basis.

2. In some instances a single rate basis for use on all government research at a hospital may not be appropriate since it would not take into account those different environmental factors which may affect substantially the indirect costs applicable to a particular segment of government research at the institution. For this purpose, a particular segment of government research may be that performed under a single research agreement or it may consist of research under a group of research agreements performed in a common environment. The environmental factors are not limited to the physical location of the work. Other important factors are the level of the administrative support required, the nature of the facilities or other resources employed, the scientific disciplines or technical skills involved, the organizational arrangements used, or any combination thereof. Where a particular segment of government research is performed within an environment which appears to generate a significantly different level of indirect costs, provision should be made for a separate indirect cost pool applicable to such work. An example of this differential may be in the development of a separate indirect cost pool for a clinical research center grant. The separate indirect cost pool should be developed during the course of the regular distribution process, and the separate indirect cost rate resulting therefrom should be utilized provided it is determined that:

a. Such indirect cost rate differs significantly from that which would have obtained under (1) above; and

b. The volume of research work to which such rate would apply is material in relation to other government research at the institution.

3. It is a common practice for grants or contracts awarded to other institutions, typically University Schools of Medicine, to be performed on hospital premises. In these cases the hospital should develop a separate indirect cost pool applicable to the work under such grants or contracts. This pool should be developed by a selective distribution of only those indirect cost categories which benefit the work performed by the other institution, within the practical limits dictated by available data and the materiality of the amounts involved. Hospital costs determined to be allocable to grants or contracts awarded to another institution may not be recovered as a cost of grants or contracts awarded directly to the hospital.

B. *The distribution base.* Preferably, indirect costs allocated to organized research should be distributed to applicable research agreements on the basis of direct salaries and wages. However, where the use of salaries and wages results in an inequitable allocation of costs to the research agreements, total direct costs or a variation thereof, may be used in lieu of salaries and wages. Regardless of the base used, an indirect cost rate should be determined for each of the separate indirect cost pools developed pursuant to para. VII–A. The rate in each case should be stated as the percentage which the amount of the particular indirect cost pool is of the total direct salaries and wages (or other base selected) for all research agreements identified with such a pool.

C. *Negotiated lump sum for overhead.* A negotiated fixed amount in lieu of indirect costs may be appropriate for self-contained or off-campus research activities where the benefits derived from a hospital's indirect services cannot be readily determined. Such amount negotiated in lieu of indirect costs will be treated as an offset to the appropriate indirect cost pool after allocation to patient care, organized research, instruction and training, and other hospital activities. The base on which such remaining expenses are allocated should be appropriately adjusted.

D. *Predetermined overhead rates.* The utilization of predetermined fixed overhead rates may offer potential advantages in the administration of research agreements by facilitating the preparation of research budgets and permitting more expeditious close out of the agreements when the work is completed. Therefore, to the extent allowed by law, consideration may be given to the negotiation of predetermined fixed rates in those situations where the cost experience and other pertinent factors available are deemed sufficient to enable the Government and the hospital to reach a reasonable conclusion as to the probable level of the indirect cost rate for the ensuing accounting period.

### VIII. SIMPLIFIED METHOD FOR SMALL INSTITUTIONS

A. *General.* 1. Where the total direct cost of all government-sponsored research and development work at a hospital in a year is minimal, the use of the abbreviated procedure described in para. VIII–B below may be acceptable in the determination of allowable indirect costs. This method may also be used to initially determine a provisional indirect cost rate for hospitals that have not previously established a rate. Under this abbreviated procedure, data taken directly from the institution's most recent annual financial report and immediately available supporting information will be utilized as a basis for determining the indirect cost rate applicable to research agreements at the institution.

2. The rigid formula approach provided under the abbreviated procedure has limitations which may preclude its use at some hospitals either because the minimum data required for this purpose are not readily available or because the application of the abbreviated procedure to the available data produces results which appear inequitable to the Government or the hospital. In any such case, indirect costs should be determined through use of the regular procedure rather than the abbreviated procedure.

3. In certain instances where the total direct cost of all government-sponsored research and development work at the hospital is more than minimal, the abbreviated procedure may be used if prior permission is obtained. This alternative will be granted only in those cases where it can be demonstrated that the step-down technique cannot be followed.

B. *Abbreviated procedure.* 1. Total expenditures as taken from the most recent annual financial report will be adjusted by eliminating from further consideration expenditures for capital items as defined in para. IX–B.4 and unallowable costs as defined under various headings in para. IX and para. III–E.

2. Total expenditures as adjusted under the foregoing will then be distributed among (a) expenditures applicable to administrative and general overhead functions, (b) expenditures applicable to all other overhead functions, and (c) expenditures for all other purposes. The first group shall include amounts associated with the functional categories, Administration and General, and Dietary, as defined in para. VI. The second group shall include Depreciation, Operation of Plant, Maintenance of Plant, and Housekeeping. The third group—expenditures for all other purposes—shall include the amounts applicable to all other activities, namely, patient care, organized research, instruction and training, and other hospital activities as defined under para. II–E. For the purposes of this section, the functional categories of Laundry and Linen, Maintenance of Personnel, and Medical Records and Library as defined in para. VI shall be considered as expenditures for all other purposes.

3. The expenditures distributed to the first two groups in para. VIII–B.2 should then be adjusted by those receipts or negative expenditure types of transactions which tend to reduce expense items allocable to research agreements as indirect costs. Examples of such receipts or negative expenditures are itemized in para. III–E.1.

4. In applying the procedures in para. VIII–B.1 and B.2., the cost of unallowable activities such as Gift Shop, Investment Property Management, Fund Raising, and Public Relations, when they benefit from the hospital's indirect cost services, should be treated as expenditures for all other purposes. Such activities are presumed to benefit from the hospital's indirect cost services when they include salaries of personnel working in the hospital. When they do not include such salaries, they should be eliminated from the indirect cost rate computation.

5. The indirect cost rate will then be computed in two stages. The first stage requires the computation of an Administrative and General rate component. This is done by applying a ratio of research direct costs over total direct costs to the Administrative and General pool developed under para. VIII–B.2 and B.3. above. The resultant amount—that which is allocable to research—is divided by the direct research cost base. The second stage requires the computation of an All other Indirect Cost rate component. This is done by applying a ratio of research direct space over total direct space to All Other Indirect Cost pool developed under para. VIII B.2. and B.3 above. The resultant amount—that which is allocable to research—is divided by the direct research cost base.

The total of the two rate components will be the institution's indirect cost rate. For the purposes of this section, the research direct cost or space and total direct cost or space will be that cost or space identified with the functional categories classified under Expenditures for all other purposes under para. VIII–B.2.

### IX. GENERAL STANDARDS FOR SELECTED ITEMS OF COST

A. *General.* This section provides standards to be applied in establishing the allowability of certain items involved in determining cost. These standards should apply irrespective of whether a particular item of cost is properly treated as direct cost or indirect cost. Failure to mention a particular item of cost in the standards is not intended to imply that it is either allowable or unallowable; rather, determination as to allowability in each case should be based on the treatment or standards provided for similar or related items of cost. In case of discrepancy between the provisions of a specific research agreement and the applicable standards provided, the provisions of the research agreement should govern. However, in some cases advance understandings should be reach on particular cost items in order that the full costs of research be supported. The extent of allowability of the selected items of cost covered in this section has been stated to apply broadly to many accounting system in varying environmental situations. Thus, as to any given research agreement, the reasonableness and allocability of certain items of costs may be difficult to determine, particularly in connection with hospitals which have medical school or other affiliations. In order to avoid possible subsequent disallowance or dispute based on unreasonableness or nonallocability, it is important that prospective recipients of federal funds particularly those whose work is predominantly or substantially with the Government, seek agreement with the Government in advance of the incurrence of special or unusual costs in categories where reasonableness or allocability are difficult to determine. Such agreement may also be initiated by the Government. Any such agreement should be incorporated in the research agreement itself. However, the absence of such an advance agreement on any element of cost will not in itself serve to make that element either allowable or unallowable. Examples of costs on which advance agreements may be particularly important are:

1. Facilities costs, such as:
   a. Depreciation
   b. Rental
   c. Use charges for fully depreciated assets
   d. Idle facilities and idle capacity
   e. Plant reconversion
   f. Extraordinary or deferred maintenance and repair
   g. Acquisition of automatic data processing equipment.
2. Preward costs
3. Non-hospital professional activities
4. Self-insurance
5. Support services charged directly (computer services, printing and duplicating services, etc.)
6. Employee compensation, travel, and other personnel costs, including:
   a. Compensation for personal service, including wages and salaries, bonuses and incentives, premium payments, pay for time not worked, and supplementary compensation and benefits, such as pension and retirement, group insurance, severance pay plans, and other forms of compensation
   b. Morale, health, welfare, and food service and dormitory costs
   c. Training and education costs
   d. Relocation costs, including special or mass personnel movement

B. *Selected items.*—1. *Advertising costs.* The term advertising costs means the costs of advertising media and corollary administrative costs. Advertising media include magazines, newspapers, radio and television programs, direct mail, exhibits, and the like. The only advertising costs allowable are those which are solely for:

a. The recruitment of persons required for the performance by the institution of obligations arising under the research agreement, when considered in conjunction with all other recruitment costs as set forth in para IX–B.34

b. The procurement of scarce items for the performance of the research agreement; or

c. The disposal of scrap or surplus materials acquired in the performance of the research agreement.

Costs of this nature, if incurred for more than one research agreement or for both research agreement work and other work of the institution, are allowable to the extent that the principles in paragraph IV and V are observed.

2. *Bad debts.* Losses arising from uncollectible accounts and other claims and related collection and legal costs are unallowable except that a bad debt may be included as a direct cost of the research agreement to the extent that it is caused by a research patient and approved by the awarding agency. This inclusion is only intended to cover the situation of the patient admitted for research purposes who subsequently or in conjunction with the research receives clinical care for which a charge is made to the patient. If, after exhausting all means of collecting these charges, a bad debt results, it may be considered an appropriate charge to the research agreement.

3. *Bonding costs.* a. Bonding costs arise when the Government requires assurance against financial loss to itself or others by reason of the act or default of the hospital. They arise also in instances where the hospital requires similar assurance.

Included are such types as bid, performance, payment, advance payment, infringement, and fidelity bonds.

b. Costs of bonding required pursuant to the terms of the research agreement are allowable.

c. Costs of bonding required by the hospital in the general conduct of its business are allowable to the extent that such bonding is in accordance with sound business practice and the rates and premiums are reasonable under the circumstances.

4. *Capital expenditures.* The costs of equipment, buildings, and repairs which materially increase the value or useful life of buildings or equipment should be capitalized and are unallowable except as provided for in the research agreement.

5. *Civil defense costs.* Civil defense costs are those incurred in planning for, and the protection of life and property against the possible effects of enemy attack. Reasonable costs of civil defense measures (including costs in excess of normal plant protection costs, first-aid training and supplies, firefighting training, posting of additional exit notices and directions, and other approved civil defense measures) undertaken on the institution's premises pursuant to suggestions or requirements of civil defense authorities are allowable when distributed to all activities of the institution. Capital expenditures for civil defense purposes will not be allowed, but a use allowance or depreciation may be permitted in accordance with provisions set forth elsewhere. Costs of local civil defense projects not on the institution's premises are unallowable.

6. *Communication costs.* Costs incurred for telephone services, local and long distance telephone calls, telegrams, radiograms, postage, and the like are allowable.

7. *Compensation for personal services.*—a. *General.* Compensation for personal services covers all remuneration paid currently or accrued to employees of the hospital for services rendered during the period of performance under government research agreements. Such remuneration includes salaries, wages, staff benefits (see para. IX–B.10), and pension plan costs (see para. IX–B.25). The costs of such remuneration are allowable to the extent that the total compensation to individual employees is reasonable for the services rendered and conforms to the established policy of the institution consistently applied, and provided that the charges for work performed directly on government research agreements and for other work allocable as indirect costs to sponsored research are determined and supported as hereinafter provided. For non-profit, nonproprietary institutions, where federally supported programs constitute less than a preponderance of the activity at the institution the primary test of reasonableness will be to require that the institution's compensation policies be applied consistently both to federally-sponsored and non-sponsored activities alike. However, where special circumstances so dictate a contractual clause may be utilized which calls for application of

V 38 I 181 SEP 1973 XUM

the test of comparability in determining the reasonableness of compensation.

b. *Payroll distribution.* Amounts charged to organized research for personal services, regardless of whether treated as direct costs or allocated as indirect costs, will be based on hospital payrolls which have been approved and documented in accordance with generally accepted hospital practices. In order to develop necessary direct and indirect allocations of cost, supplementary data on time or effort as provided in (c) below, normally need be required only for individuals whose compensation is properly chargeable to two or more research agreements or to two or more of the following broad functional categories: (1) patient care; (2) organized research; (3) instruction and training; (4) indirect activities as defined in para. V–A; or (5) other hospital activities as defined in para. II–E.

c. *Reporting time or effort.* Charges for salaries and wages of individuals other than members of the professional staff will be supported by daily time and attendance and payroll distribution records. For members of the professional staff, current and reasonable estimates of the percentage distribution of their total effort may be used as support in the absence of actual time records. The term professional staff for purposes of this section includes physicians, research associates, and other personnel performing work at responsible levels of activities. These personnel normally fulfill duties, the competent performance of which usually requires persons possessing degrees from accredited institutions of higher learning and/or state licensure. In order to qualify as current and reasonable, estimates must be made no later than one month (though not necessarily a calendar month) after the month in which the services were performed.

d. *Preparation of estimates of effort.* Where required under (c) above, estimates of effort spent by a member of the professional staff on each research agreement should be prepared by the individual who performed the services or by a responsible individual such as a department head or supervisor having first-hand knowledge of the services performed on each research agreement. Estimates must show the allocation of effort between organized research and all other hospital activities in terms of the percentage of total effort devoted to each of the broad functional categories referred to in (b) above. The estimate of effort spent on a research agreement may include a reasonable amount of time spent in activities contributing and intimately related to work under the agreement, such as preparing and delivering special lectures about specific aspects of the ongoing research, writing research reports and articles, participating in appropriate research seminars, consulting with colleagues with respect to related research, and attending appropriate scientific meetings and conferences. The term "all other hospital activities" would include departmental research, administration, committee work, and public services undertaken on behalf of the hospital.

e. *Application of budget estimates.* Estimates determined before the performance of services, such as budget estimates on a monthly, quarterly, or yearly basis do not qualify as estimates of effort spent.

f. *Non-hospital professional activities.* A hospital must not alter or waive hospital-wide policies and practices dealing with the permissible extent of professional services over and above those traditionally performed without extra hospital compensation, unless such arrangements are specifically authorized by the sponsoring agency. Where hospital-wide policies do not adequately define the permissible extent of consultantships or other non-hospital activities undertaken for extra pay, the Government may require that the effort of professional staff working under research agreements be allocated as between (1) hospital activities, and (2) non-hospital professional activities. If the sponsoring agency should consider the extent of non-hospital professional effort excessive, appropriate arrangements governing compensation will be negotiated on a case by case basis.

g. *Salary rates for part-time appointments.* Charges for work performed on government research by staff members having only part-time appointments will be determined at a rate not in excess of that for which he is regularly paid for his part-time staff assignment.

8. *Contingency provisions.* Contributions to a contingency reserve or any similar provisions made for events the occurrence of which cannot be foretold with certainty as to time, intensity, or with an assurance of their happening, are unallowable.

9. *Depreciation and use allowances.* a. Hospitals may be compensated for the use of buildings, capital improvements and usable equipment on hand through depreciation or use allowances. Depreciation is a charge to current operations which distributes the cost of a tangible capital asset, less estimated residual value, over the estimated useful life of the asset in a systematic and logical manner. It does not involve a process of valuation. Useful life has reference to the prospective period of economic usefulness in the particular hospital's operations as distinguished from physical life. Use allowances are the means of allowing compensation when depreciation or other equivalent costs are not considered.

b. Due consideration will be given to government-furnished research facilities utilized by the institution when computing use allowances and/or depreciation if the government-furnished research facilities are material in amount. Computation of the use allowance and or depreciation will exclude both the cost or any portion of the cost of grounds, buildings and equipment borne by or donated by the Federal Government, irrespective of where title was originally vested or where it presently resides, and secondly, the cost of grounds. Capital expenditures for land improvements (paved areas, fences, streets, sidewalks, utility conduits, and similar improvements not already included in the cost of buildings) are allowable provided the systematic amortization of such capital expenditures has been provided in the institution's books of account, based on reasonable determinations of the probable useful lives of the individual items involved, and the share allocated to organized research is developed from the amount thus amortized for the base period involved.

c. Normal depreciation on a hospital's plant, equipment, and other capital facilities, except as excluded by (d) below, is an allowable element of research cost provided that the amount thereof is computed:

1. Upon the property cost basis used by the hospital for Federal Income Tax purposes (See section 167 of the Internal Revenue Code of 1954); or

2. In the case of non-profit or tax exempt organizations, upon a property cost basis which could have been used by the hospital for Federal Income Tax purposes, had such hospital been subject to the payment of income tax; and in either case

3. By the consistent application to the assets concerned of any generally accepted accounting method, and subject to the limitations of the Internal Revenue Code of 1954 as amended, including—

i. The straight line method;

ii. The declining balance method, using a rate not exceeding twice the rate which would have been used had the annual allowance been computed under the method described in (1) above;

iii. The sum of the years-digits method; and

iv. Any other consistent method productive of an annual allowance which, when added to all allowances for the period commencing with the use of the property and including the current year, does not during the first two-thirds of the useful life of the property exceed the total of such allowances which would have been used had such allowances been computed under the method described in (ii) above.

d. Where the depreciation method is followed, adequate property records must be maintained. The period of useful service (service life) established in each case for usable capital assets must be determined on a realistic basis which takes into consideration such factors as type of construction, nature of the equipment used, technological developments in the particular research area, and the renewal and replacement policies followed for the individual items or classes of assets involved. Where the depreciation method is introduced for application to assets acquired in prior years, the annual charges therefrom must not exceed the amounts that would have resulted had the depreciation method been in effect from the date of acquisition of such assets.

e. Depreciation on idle or excess facilities shall not be allowed except on such facilities as are reasonably necessary for standby purposes.

f. Where an institution elects to go on a depreciation basis for a particular class of assets, no depreciation, rental or use charge may be allowed on any such assets that would be viewed as fully depreciated; provided, however, that reasonable use charges may be negotiated for any such assets if warranted after taking into consideration the cost of the facility or item involved, the estimated useful life remaining at time of negotiation, the actual replacement policy followed in the light of service lives used for calculating depreciation, the effect of any increased maintenance charges or decreased efficiency due to age, and any other factors pertinent to the utilization of the facility or item for the purpose contemplated.

g. Hospitals which choose a depreciation allowance for assets purchased prior to 1966 based on a percentage of operating costs in lieu of normal depreciation for purposes of reimbursement under Public Law 89–97 (Medicare) shall utilize that method for determining depreciation applicable to organized research.

The operating costs to be used are the lower of the hospital's 1965 operating costs or the hospital's current year's allowable costs. The percent to be applied is 5 percent starting with the year 1966–67, with such percentage being uniformity reduced by one-half percent each succeeding year. The allowance based on operating costs is in addition to regular depreciation on assets acquired after 1965. However, the combined amount of such allowance on pre-1966 assets and the allowance for actual depreciation on assets acquired after 1965 may not exceed 6 percent of the hospital's allowable cost for the current year. After total depreciation has been computed, allocation methods are used to determine the share attributable to organized research.

For purposes of this section, "Operating Costs" means the total costs incurred by the hospital in operating the institution, and includes patient care, research, and other activities. "Allowable Costs" means operating costs less unallowable costs as defined in these principles; by the application of allocation methods to the total amount of such allowable costs, the share attributable to Federally-sponsored research is determined.

A hospital which elects to use this procedure under Public Law 89–97 and subsequently changes to an actual depreciation basis on pre-1966 assets in accordance with the option afforded under the Medicare program shall simultaneously change to an actual depreciation basis for organized research.

Where the hospital desires to change to actual depreciation but either has no historical cost records or has incomplete records, the determination of historical cost could be made through appropriate means involving expert consultation with the determination being subject to review and approval by the Department of Health, Education, and Welfare.

h. Where the use allowance method is followed, the use allowance for buildings and improvements will be computed at an annual rate not exceeding two percent of acquisition cost. The use allowance for equipment will be computed at an annual rate not exceeding six and two-thirds percent of acquisition cost of usable equipment in those cases where the institution maintains current records with respect to such equipment on hand. Where the institution's records reflect only the cost (actual or estimated) of the original complement of equipment, the use allowance will be computed at an annual rate not exceeding ten percent of such cost. Original complement for this purpose means the complement of equipment initially placed in buildings to perform the functions currently being performed in such buildings; however, where a permanent change in the function of a building takes place, a redetermination of the original complement of equipment may be made at that time to establish a new original complement. In those cases where no equipment records are maintained, the institution will justify a reasonable estimate of the acquisition cost of usable equipment which may be used to compute the use allowance at an annual rate not exceeding six and two-thirds percent of such estimate.

1. Depreciation and/or use charges should usually be allocated to research and other activities as an indirect cost.

10. *Employee morale, health, and welfare costs and credits.* The costs of house publications, health or first-aid benefits, recreational activities, employees' counseling services, and other expenses incurred in accordance with the hospital's established practice or custom for the improvement of working conditions, employer-employee relations, employee morale, and employee performance, are allowable. Such costs will be equitably apportioned to all activities of the hospital. Income generated from any of these activities will be credited to the cost thereof unless such income has been irrevocably set over to employee welfare organizations.

11. *Entertainment costs.* Except as pertains to 10 above, costs incurred for amusement, social activities, entertainment, and any items relating thereto, such as meals, lodging, rentals, transportation, and gratuities are unallowable.

12. *Equipment and other facilities.* The cost of equipment or other facilities are allowable on a direct charge basis where such purchases are approved by the sponsoring agency concerned or provided for by the terms of the research agreement.

13. *Fines and penalties.* Costs resulting from violations of, or failure of the institution to comply with federal, state and local laws and regulations are unallowable except when incurred as a result of compliance with specific provisions of the research agreement, or instructions in writing from the awarding agency.

14. *Insurance and indemnification.* a. Costs of insurance required or approved and maintained pursuant to the research agreement are allowable.

b. Costs of other insurance maintained by the hospital in connection with the general conduct of its activities are allowable subject to the following limitations: (1) types and extent and cost of coverage must be in accordance with sound institutional practice; (2) costs of insurance or of any contributions to any reserve covering the risk of loss of or damage to government owned property are unallowable except to the extent that the Government has specifically required or approved such costs; and (3) costs of insurance on the lives of officers or trustees are unallowable except where such insurance is part of an employee plan which is not unduly restricted.

c. Contributions to a reserve for an approved self-insurance program are allowable to the extent that the types of coverage, extent of coverage, and the rates and premiums would have been allowed had insurance been purchased to cover the risks. Such contributions are subject to prior approval of the Government.

d. Actual losses which could have been covered by permissible insurance (through an approved self-insurance program or otherwise) are unallowable unless expressly provided for in the research agreement, except that costs incurred because of losses not covered under nominal deductible insurance coverage provided in keeping with sound management practice as well as minor losses not covered by insurance such as spoilage, breakage and disappearance of small hand tools which occur in the ordinary course of operations are allowable.

15. *Interest, fund raising and investment management costs.* a. Costs incurred for interest on borrowed capital or temporary use of endowment funds, however represented, are unallowable.

b. Costs of organized fund raising, including financial campaigns, endowment drives, solicitation of gifts and bequests, and similar expenses incurred solely to raise capital or obtain contributions are not allowable.

c. Costs of investment counsel and staff and similar expenses incurred solely to enhance income from investments are not allowable.

d. Costs related to the physical custody and control of monies and securities are allowable.

16. *Labor relations costs.* Costs incurred in maintaining satisfactory relations between the hospital and its employees, including costs of labor management committees, employees' publications, and other related activities are allowable.

17. *Losses on research agreements or contracts.* Any excess of costs over income under any agreement or contract of any nature is unallowable. This includes, but is not limited to, the hospital's contributed portion by reason of cost-sharing agreements, underrecoveries through negotiation of flat amounts for overhead, or legal or administrative limitations.

18. *Maintenance and repair costs.* a. Costs necessary for the upkeep of property (including government property unless otherwise provided for), which neither add to the permanent value of the property nor appreciably prolong its intended life, but keep it in an efficient operating condition, are to be treated as follows:

1. Normal maintenance and repair costs are allowable;

2. Extraordinary maintenance and repair costs are allowable, provided they are allocated to the periods to which applicable for purposes of determining research costs.

b. Expenditures for plant and equipment, including rehabilitation thereof, which according to generally accepted accounting principles as applied under the hospital's established policy, should be capitalized and subjected to depreciation, are allowable only on a depreciation basis.

19. *Material costs.* Costs incurred for purchased materials, supplies and fabricated parts directly or indirectly related to the research agreement, are allowable. Purchases made specifically for the research agreement should be charged thereto at their actual prices after deducting all cash discounts, trade discounts, rebates, and allowances received by the institution. Withdrawals from general stores or stockrooms should be charged at their cost under any recognized method of pricing stores withdrawals conforming to sound accounting practices consistently followed by the hospital. Incoming transportation charges are a proper part of material cost. Direct material cost should include only the materials and supplies actually used for the performance of the research agreement, and due credit should be given for any excess materials retained or returned to vendors. Due credit should be given for all proceeds or value received for any scrap resulting from work under the research agreement. Where government donated or furnished material is used in performing the research agreement, such material will be used without charge.

20. *Memberships, subscriptions and professional activity costs.* a. Costs of the hospital's membership in civic, business, technical and professional organizations are allowable.

b. Costs of the hospital's subscriptions to civic, business, professional and technical periodicals are allowable.

c. Costs of meetings and conferences, when the primary purpose is the dissemination of technical information, are allowable. This includes costs of meals, transportation, rental of facilities, and other items incidental to such meetings or conferences.

21. *Organization costs.* Expenditures such as incorporation fees, attorneys' fees, accountants' fees, brokers' fees, fees to promoters and organizers in connection with (a) organization or reorganization of a hospital, or (b) raising capital, are unallowable.

22. *Other business expenses.* Included in this item are such recurring expenses as registry and transfer charges resulting from changes in ownership of securities issued by the hospital, cost of shareholders meetings preparation and publication of reports to shareholders, preparation and submission of required reports and forms to taxing and other regulatory bodies, and incidental costs of directors and committee meetings. The above and similar costs are allowable when allocated on an equitable basis.

23. *Patient care.* The cost of routine and ancillary or special services to research patients is an allowable direct cost of research agreements.

a. Routine services shall include the costs of the regular room, dietary and nursing services, minor medical and surgical supplies and the use of equipment and facilities for which a separate charge is not customarily made.

b. Ancillary or special services are the services for which charges are customarily made in addition to routine services, such as operating rooms, anesthesia, laboratory, BMR–EKG, etc.

c. Patient care, whether expressed as a rate or an amount, shall be computed in a manner consistent with the procedures used to determine reimbursable costs under Public Law 89–97 (Medicare Program) as defined under the "Principles Of Reimbursement For Provider Costs" published by the Social Security Administration of the Department of Health, Education, and Welfare. The allowability of specific categories of cost shall be in accordance with those principles rather than the principles for research contained herein. In the absence of participation in the Medicare program by a hospital, all refer-

V 38 1 181 SEP 19 73 XUM

ences to the Medicare program in these principles shall be construed as meaning the Medicaid program.

i. Once costs have been recognized as allowable, the indirect costs or general service center's cost shall be allocated (stepped-down) to special service centers, and all patient and nonpatient costs centers based upon actual services received or benefiting these centers.

ii. After allocation, routine and ancillary costs shall be apportioned to scatter-bed research patients on the same basis as is used to apportion costs to Medicare patients, i.e. using either the departmental method or the combination method, as those methods are defined by the Social Security Administration; except that final settlement shall be on a grant-by-grant basis. However, to the extent that the Social Security Administration has recognized any other method of cost apportionment, that method generally shall also be recognized as applicable to the determination of research patient care costs.

iii. A cost center must be established on Medicare reimbursement forms for each discrete-bed unit grant award received by a hospital. Routine costs should be stepped-down to this line item(s) in the normal course of stepping-down costs under Medicare/Medicaid requirements. However, in stepping-down routine costs, consideration must be given to preventing a step-down of those costs to discrete-bed unit line items that have already been paid for directly by the grant, such as bedside nursing costs. Ancillary costs allocable to research discrete-bed units shall be determined and proposed in accordance with Section 23.c.ii.

d. Where federally sponsored research programs provide specifically for the direct reimbursement of nursing, dietary, and other services, appropriate adjustment must be made to patient care costs to preclude duplication and/or misallocation of costs.

24. *Patent costs.* Costs of preparing disclosures, reports and other documents required by the research agreement and of searching the art to the extent necessary to make such invention disclosures are allowable. In accordance with the clauses of the research agreement relating to patents, costs of preparing documents and any other patent costs, in connection with the filing of a patent application where title is conveyed to the Government, are allowable. (See also para. IX–B.36.)

25. *Pension plan costs.* Costs of the hospital's pension plan which are incurred in accordance with the established policies of the institution are allowable, provided such policies meet the test of reasonableness and the methods of cost allocation are not discriminatory, and provided appropriate adjustments are made for credits or gains arising out of normal and abnormal employee turnover or any other contingencies that can result in forfeitures by employees which inure to the benefit of the hospital.

26. *Plan security costs.* Necessary expenses incurred to comply with government security requirements including wages, uniforms and equipment of personnel engaged in plant protection are allowable.

27. *Preresearch agreement costs.* Costs incurred prior to the effective date of the research agreement, whether or not they would have been allowable thereunder if incurred after such date, are unallowable unless specifically set forth and identified in the research agreement.

28. *Professional services costs.* a. Costs of professional services rendered by the members of a particular profession who are not employees of the hospital are allowable subject to (b) and (c) below when reasonable in relation to the services rendered and when not contingent upon recovery of the costs from the Government. Retainer fees to be allowable must be reasonably supported by evidence of services rendered.

b. Factors to be considered in determining the allowability of costs in a particular case include (1) the past pattern of such costs, particularly in the years prior to the award of government research agreements on the institution's total activity; (2) the nature and scope of managerial services expected of the institution's own organizations; and (3) whether the proportion of government work to the hospital's total activity is such as to influence the institution in favor of incurring the cost, particularly where the services rendered are not of a continuing nature and have little relationship to work under government research agreements.

c. Costs of legal, accounting and consulting services, and related costs incurred in connection with organization and reorganization or the prosecution of claims against the Government are unallowable. Costs of legal, accounting and consulting services, and related costs incurred in connection with patent infringement litigation are unallowable unless otherwise provided for in the research agreement.

29. *Profits and losses on disposition of plant equipment, or other assets.* Profits or losses of any nature arising from the sale or exchange of plant, equipment, or other capital assets, including sales or exchange of either short- or long-term investments, shall be excluded in computing research agreement costs.

30. *Proposal costs.* Proposal costs are the costs of preparing bids or proposals on potential government and non-government research agreements or projects, including the development of technical data and cost data necessary to support the institution's bids or proposals. Proposal costs of the current accounting period of both successful and unsuccessful bids and proposals normally should be treated as indirect costs and allocated currently to all activities of the institution, and no proposal costs of past accounting periods will be allocable in the current period to the government research agreement. However, the institution's established practices may be to treat proposal costs by some other recognized method. Regardless of the methods used, the results obtained may be accepted only if found to be reasonable and equitable.

31. *Public information services costs.* Costs of news releases pertaining to specific research or scientific accomplishment are unallowable unless specifically authorized by the sponsoring agency.

32. *Rearrangement and alteration costs.* Costs incurred for ordinary or normal rearrangement and alteration of facilities are allowable. Special rearrangement and alteration costs incurred specifically for a project are allowable only as a direct charge when such work has been approved in advance by the sponsoring agency concerned.

33. *Reconversion costs.* Costs incurred in the restortion or rehabilitation of the institution's facilities to approximately the same condition existing immediately prior to commencement of government research agreement work, fair wear and tear excepted, are allowable.

34. *Recruiting costs.* a. Subject to (b), (c), and (d) below, and provided that the size of the staff recruited and maintained is in keeping with workload requirements, costs of "help wanted" advertising, operating costs of an employment office necessary to secure and maintain an adequate staff, costs of operating an aptitude and educational testing program, travel costs of employees while engaged in recruiting personnel, travel costs of applicants for interviews for prospective employment, and relocation costs incurred incident to recruitment of new employees are allowable to the extent that such costs are incurred pursuant to a well managed recruitment program. Where an institution uses employment agencies, costs not in excess of standard commercial rates for such services are allowable.

b. In publications, costs of help wanted advertising that includes color, includes advertising material for other than recruitment purposes, or is excessive in size (taking into consideration recruitment purposes for which intended and normal institutional practices in this respect) are unallowable.

c. Costs of help wanted advertising, special emoluments; fringe benefits, and salary allowances incurred to attract professional personnel from other institutions that do not meet the test of reasonableness or do not conform with the established practices of the institution are unallowable.

d. Where relocation costs incurred incident to recruitment of a new employee have been allowed either as an allocable direct or indirect cost, and the newly hired employee resigns for reasons within his control within twelve months after hire, the institution will be required to refund or credit such relocations costs as were charged to the Government.

35. *Rental costs (including sale and leaseback of facilities).* a. Rental costs of land, building, and equipment and other personal property are allowable if the rates are reasonable in light of such factors as rental costs of comparable facilities and market conditions in the area, the type, life expectancy, condition, and value of the facilities leased, options available, and other provisions of the rental agreement. Application of these factors, in situations where rentals are extensively used, may involve among other considerations comparison of rental costs with the amount which the hospital would have received had it owned the facilities.

b. Charges in the nature of rent between organizations having a legal or other affiliation or arrangement such as hospitals, medical schools, foundations, etc., are allowable to the extent such charges do not exceed the normal costs of ownership such as depreciation, taxes, insurance, and maintenance, provided that no part of such costs shall duplicate any other allowed costs.

c. Unless otherwise specifically provided in the agreement, rental costs specified in sale and lease-back agreements incurred by hospitals through selling plant facilities to investment organizations such as insurance companies or to private investors, and concurrently leasing back the same facilities are allowable only to the extent that such rentals do not exceed the amount which the hospital would have received had it retained legal title to the facilities.

36. *Royalties and other costs for use of patents.* Royalties on a patent or amortization of the cost of acquiring a patent or invention or rights thereto necessary for the proper performance of the research agreement and applicable to tasks or processes thereunder are allowable unless the Government has a license or the right to free use of the patent, the patent has been adjudicated to be invalid, or has been administratively determined to be invalid, the patent is considered to be unenforceable, or the patent has expired.

37. *Severance pay.* a. Severance pay is compensation in addition to regular salaries and wages which is paid by a hospital to employees whose services are being terminated. Costs of severance pay are allowable only to the extent that such payments are required by law, by employer-employee agreement, by established policy that constitutes in effect an implied agreement on the institution's part, or by circumstances of the particular employment.

b. Severance payments that are due to normal, recurring turnover, and which otherwise meet the conditions of (a) above may be allowed provided the actual costs of such severance payments are regarded as expenses applicable to the current fiscal year and are equitably distributed among the institution's activities during that period.

c. Severance payments that are due to abnormal or mass terminations are of such conjectural nature that allowability must be determined on a case-by-case basis. However, the Government recognizes its obligation to participate to the extent of its fair share in any specific payment.

38. *Specialized service facilities operated by a hospital.* a. The costs of institutional services involving the use of highly complex and specialized facilities such as electronic computers and reactors are allowable provided the charges therefor meet the conditions of (b) or (c) below, and otherwise take into account any items of income or federal financing that qualify as applicable credits under para. III–E.

b. The costs of such hospital services normally will be charged directly to applicable research agreements based on actual usage or occupancy of the facilities at rates that (1) are designed to recover only actual costs of providing such services, and (2) are applied on a nondiscriminatory basis as between organized research and other work of the hospital including commercial or accommodation sales and usage by the hospital for internal purposes. This would include use of such facilities as radiology, laboratories, maintenance men used for a special purpose, medical art, photography, etc.

c. In the absence of an acceptable arrangement for direct costing as provided in (b) above, the costs incurred for such institutional services may be assigned to research agreements as indirect costs, provided the methods used achieve substantially the same results. Such arrangements should be worked out in coordination with all government users of the facilities in order to assure equitable distribution of the indirect costs.

39. *Special administrative costs.* Costs incurred for general public relations activities, catalogs, alumni activities, and similar services are unallowable.

40. *Staff and/or employee benefits.* a. Staff and/or employee benefits in the form of regular compensation paid to employees during periods of authorized absences from the job such as for annual leave, sick leave, military leave and the like are allowable provided such costs are absorbed by all hospital activities including organized research in proportion to the relative amount of time or effort actually devoted to each.

b. Staff benefits in the form of employer contributions or expenses for Social Security taxes, employee insurance, Workmen's Compensation insurance, the Pension Plan (see para. IX–B.25), hospital costs or remission of hospital charges to the extent of costs for individual employees or their families, and the like are allowable provided such benefits are granted in accordance with established hospital policies, and provided such contributions and other expenses whether treated as indirect costs or an increment of direct labor costs are distributed to particular research agreements and other activities in a manner consistent with the pattern of benefits accruing to the individuals or groups of employees whose salaries and wages are chargeable to such research agreements and other activities.

41. *Taxes.* a. In general, taxes which the hospital is required to pay and which are paid or accrued in accordance with generally accepted accounting principles, and payments made to local governments in lieu of taxes which are commensurate with the local government services received are allowable except for (1) taxes from which exemptions are available to the hospital directly or which are available to the hospital based on an exemption afforded the Government and in the latter case when the sponsoring agency makes available the necessary exemption certificates, (2) special assessments on land which represent capital improvements, and (3) Federal Income Taxes.

b. Any refund of taxes, interest, or penalties, and any payment to the hospital of interest thereon attributable to taxes, interest or penalties, which were allowed as research agreement costs will be credited or paid to the Government in the manner directed by the Government provided any interest actually paid or credited to a hospital incident to a refund of tax, interest, and penalty will be paid or credited to the Government only to the extent that such interest accrued over the period during which the hospital had been reimbursed by the Government for the taxes, interest, and penalties.

42. *Transportation costs.* Costs incurred for inbound freight, express, cartage, postage and other transportation services relating either to goods purchased, in process, or delivered are allowable. When such costs can readily be identified with the items involved, they may be charged directly as transportation costs or added to the cost of such items. Where identification with the material received cannot readily be made, inbound transportation costs may be charged to the appropriate indirect cost accounts if the institution follows a consistent equitable procedure in this respect. Outbound freight, if reimbursable under the terms of the research agreement, should be treated as a direct cost.

43. *Travel costs.* a. Travel costs are the expenses for transportation, lodging, subsistence, and related items incurred by employees who are in travel status on official business of the hospital. Such costs may be charged on an actual basis, on a per diem or mileage basis in lieu of actual costs incurred, or on a combination of the two provided the method used is applied to an entire trip and not to selected days of the trip, and results in charges consistent with those normally allowed by the institution in its regular operations.

b. Travel costs are allowable subject to (c) and (d) below when they are directly attributable to specific work under a research agreement or when they are incurred in the normal course of administration of the hospital or a department or research program thereof.

c. The difference in cost between first class air accommodations and less than first class air accommodations is unallowable except when less than first class air accommodations are not reasonably available to meet necessary mission requirements such as where less than first class accommodations would (1) require circuitous routing, (2) require travel during unreasonable hours, (3) greatly increase the duration of the flight, (4) result in additional costs which would offset the transportation savings, or (5) offer accommodations which are not reasonably adequate for the medical needs of the traveler.

d. Costs of personnel movements of a special or mass nature are allowable only when authorized or approved in writing by the sponsoring agency or its authorized representative.

44. *Termination costs applicable to contracts.* a. Contract terminations generally give rise to the incurrence of costs or to the need for special treatment of costs which would not have arisen had the contract not been terminated. Items peculiar to termination are set forth below. They are to be used in conjunction with all other provisions of these principles in the case of contract termination.

b. The cost of common items of material reasonably usable on the hospital's other work will not be allowable unless the hospital submits evidence that it could not retain such items at cost without sustaining a loss. In deciding whether such items are reasonably usable on other work of the institution, consideration should be given to the hospital's plans for current scheduled work or activities including other research agreements. Contemporaneous purchases of common items by the hospital will be regarded as evidence that such items are reasonably usable on the hospital's other work. Any acceptance of common items as allowable to the terminated portion of the contract should be limited to the extent that the quantities of such items on hand, in transit, and on order are in excess of the reasonable quantitative requirement of other work.

c. If in a particular case, despite all reasonable efforts by the hospital, certain costs cannot be discontinued immediately after the effective date of termination, such costs are generally allowable within the limitations set forth in these principles, except that any such costs continuing after termination due to the negligent or willful failure of the hospital to discontinue such costs will be considered unacceptable.

d. Loss of useful value of special tooling and special machinery and equipment is generally allowable, provided (1) such special tooling, machinery or equipment is not reasonably capable of use in the other work of the hospital; (2) the interest of the Government is protected by transfer of title or by other means deemed appropriate by the contracting officer; and (3) the loss of useful value as to any one terminated contract is limited to that portion of the acquisition cost which bears the same ratio to the total acquisition cost as the terminated portion of the contract bears to the entire terminated contract and other government contracts for which the special tooling, special machinery or equipment was acquired.

e. Rental costs under unexpired leases are generally allowable where clearly shown to have been reasonably necessary for the performance of the terminated contract, less the residual value of such leases, if (1) the amount of such rental claimed does not exceed the reasonable use value of the property leased for the period of the contract and such further period as may be reasonable; and (2) the hospital makes all reasonable efforts to terminate, assign, settle, or otherwise reduce the cost of such lease. There also may be included the cost of alterations of such leased property, provided such alterations were necessary for the performance of the contract and of reasonable restoration required by the provisions of the lease.

f. Settlement expenses including the following are generally allowable: (1) accounting, legal, clerical, and similar costs reasonably necessary for the preparation and presentation to contracting officers of settlement claims and supporting data with respect to the terminated portion of the contract and the termination and settlement of subcontracts; and (2) reasonable costs for the storage, transportation, protection, and disposition of property provided by the Government or acquired or produced by the institution for the contract.

g. Subcontractor claims including the allocable portion of claims which are common to the contract and to other work of the contractor are generally allowable.

45. *Voluntary services.* The value of voluntary services provided by sisters or other members of religious orders is allowable provided that amounts do not exceed that paid other employees for similar work. Such amounts must be identifiable in the records of the hospital as a legal obligation of the hospital. This may be reflected by an agreement between the religious order and the hospital supported by evidence of payments to the order.

V 38 181 SEP 1973 XUM

APPENDIX F—PRINCIPLES FOR DETERMINING COSTS APPLICABLE TO GRANTS AND CONTRACTS WITH NONPROFIT INSTITUTIONS

A. PURPOSE AND SCOPE

1. *Objectives.* This Appendix provides principles for determining the costs applicable to grants and contracts awarded by the Department of Health, Education, and Welfare and performed by nonprofit organizations other than educational institutions, hospitals and State and local Government organizations. These principles are confined to the subject of cost determination and make no attempt to identify the circumstances or dictate the extent of agency and institutional participation in the financing of a particular project. The principles are designed to provide recognition of the full allocated costs of work under generally accepted accounting principles. No provision for profit or other increment above cost is provided for in these principles.

2. *Definition of Nonprofit Institution.* (a) A nonprofit institution for purposes of this document is any corporation, foundation, trust, association, cooperative or other organization other than (i) educational institutions, (ii) hospitals and (iii) State and local Governmental agencies, bureaus or departments, which is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest, which is not organized primarily for profit and which uses all income exceeding costs to maintain, improve and or expand its operations.

The charter or other legally binding authority for the existence of the institution must provide that no part of the net earnings, properties or other assets of the institution, on dissolution or otherwise, shall inure to the benefits of any private person or individual including any member, employee, officer, director or trustee of the institution, and that, on liquidation or dissolution all properties and assets remaining after providing for all debts and obligations shall be distributed and paid over to such other fund, foundation or other organization formed and operated as a nonprofit institution, as defined herein, as the board of directors or trustees may determine. Institutions which have received tax exemptions as nonprofit institutions from the U.S. Internal Revenue Service shall be considered to have met the criteria of this definition.

(b) For purposes of this document, the terms nonprofit and not-for-profit as they are descriptively applied to institutions shall be considered synonymous provided the requirements of 2(a) are met.

3. *Policy guides.* The successful application of these principles requires development of mutual understanding between representatives of nonprofit institutions and of the Federal Government as to their scope, applicability, and interpretation. It is recognized that the arrangements for agency and institutional participation in the financing of a project are properly subject to negotiation between the agency and the institution concerned in accordance with such governmentwide criteria as may be applicable, that each institution should be expected to employ sound management practice in the fulfillment of its obligation, and that each grantee or contractor organization in recognition of its own unique combination of staff, facilities and experience should be responsible for employing whatever form of organization and management techniques as may be necessary to assure proper efficient administration.

4. *Application.* These principles shall be applied in determining cost incurred in the performance of all grants and cost-reimbursement type contracts awarded by the Department of Health, Education, and Welfare. The principles shall also apply to cost-reimbursement type contracts performed under DHEW grants and cost-reimbursement type subcontracts and shall be used as a guide in the pricing of fixed price contracts and subcontracts. The principles do not apply to construction grants or contracts.

B. BASIC CONSIDERATIONS

1. *Composition of total cost.* The total cost of a contract or grant is the sum of the allowable direct and indirect costs allocable to the grant/contract less any applicable credits. In ascertaining what constitutes costs, any generally accepted accounting method of determining or estimating costs that is equitable under the circumstances may be used.

2. *Factors affecting allowability of costs.* Factors to be considered in determining the allowability of individual items of cost include (a) reasonableness, (b) allocability, (c) application of those generally accepted accounting principles and practices appropriate to the particular circumstances, and (d) any limitations or exclusions set forth in this document or otherwise included in the grant/contract as to types or amounts of cost items.

3. *Definition of reasonableness.* A cost is reasonable if, in its nature or amount, it does not exceed that which would be incurred by an ordinarily prudent person in the conduct of competitive business. The question of the reasonableness of specific costs must be scrutinized with particular care in connection with institutions or separate divisions thereof which may not be subject to effective competitive restraints. What is reasonable depends upon a variety of considerations and circumstances involving both the nature and amount of the cost in question. In determining the reasonableness of a given cost, consideration shall be given to:

(a) Whether the cost is of a type generally recognized as ordinary and necessary for the operation of the institution or the performance of the grant/contract.

(b) The restraints or requirements imposed by such factors as generally accepted sound business practices, arms length bargaining, Federal and State laws and regulations, and grant/contract terms and specifications;

(c) The action that a prudent businessman would take in the circumstances, considering his responsibilities to the public at large, the Government, his employees, his clients, shareholders or members and the fulfillment of the purposes for which the institution was organized; and

(d) Significant deviations from the established practices of the institution which may unjustifiably increase the grant/contract costs.

4. *Definition of allocability.* A cost is allocable if it is assignable or chargeable to a particular cost objective, such as a grant/contract, project, product, service, process, or other major activity, in accordance with the relative benefits received or other equitable relationship. Subject to the foregoing, a cost is allocable to a Government grant/contract if it:

(a) Is incurred specifically for the grant/contract;

(b) Benefits both the grant/contract and other work and can be distributed to them in reasonable proportion to the benefits received; or

(c) Is necessary to the overall operation of the institution, although a direct relationship to any particular cost objective cannot be shown.

Where an organization utilizes the Standards of Accounting and Financial Reporting for Voluntary Health and Welfare Organizations (or comparable generally accepted accounting standards peculiar to its particular organizational structure or activity) to allocate costs to non-HEW supported activities it must also use such standards to allocate costs to HEW grants/contracts.

5. *Applicable credits.* The term applicable credits refers to those receipt or negative expenditure types of transactions which operate to offset or reduce expense items that are allocable to grants or contracts as direct or indirect costs. Typical examples of such transactions are: purchase discounts, rebates or allowances; recoveries or indemnities on losses; sales of scrap or incidental services; and adjustments of overpayments or erroneous charges. The applicable portion of any income, rebate, allowance, and other credit relating to any allowable cost, received by or accruing to the grantee/contractor shall be credited to the Government either as a cost reduction or by cash refund, as appropriate.

C. DIRECT COSTS

1. A direct cost is any cost which can be identified specifically with a particular cost objective. Direct costs are not limited to items which are incorporated in the end product as materiel or labor. Costs identified specifically with the grant/contract are direct costs of the grant/contract and may be charged directly thereto. Costs identified specifically with other work of the institution are direct costs of that work and are not to be charged to the grant/contract either directly or indirectly. Items charged as direct cost to Government-supported projects must be charged in a uniform manner to all other work of the institution in order to preclude an overcharge to the Government as a result of the Government's participation in the indirect cost pool. Conversely, where the institution's established accounting system provides for the treatment of certain items of cost as direct costs of the institution, then the same items must be considered direct costs to Government-supported projects and may not be included in the indirect cost pool.

2. Certain types of cost, or costs associated with certain activities are not reimbursable as a charge to a DHEW grant/contract. These unallowable costs or activities are identified in section G. Even though a particular activity or cost is designated as unallowable for purposes of computing costs charged to Government work, it nonetheless must be treated as a direct cost or activity if a portion of the institution's indirect cost (as defined in section D) is properly allocable to it. The amount of indirect cost allocated must be in accordance with the principles set forth in section D–2. In general, an unallowable institutional activity shall be treated as a direct function when it (1) includes salaries of personnel, (2) occupies space, and (3) is serviced by an indirect cost grouping(a). Thus the costs associated with the following types of activities when normal or necessary to an institution's primary mission shall be treated as direct costs:

(a) Maintenance of membership rolls, subscriptions, publications and related functions.

(b) Providing services and information to members, legislative or administrative bodies or the public.

(c) Promotion, lobbying, and other forms of public relations.

(d) Meetings and conferences except those held to conduct the general administration of the institution.

(e) Fund raising.

(f) Maintenance, protection, and investment of special funds not used in operation of institutions.

(g) Administration of group benefits on behalf of members or clients including life and hospital insurance, annuity or retirement plans, financial aid, etc.

(h) Other activities performed primarily as a service to a membership, clients, or the public.

3. This definition shall be applied to all items of cost of significant amount unless the institution demonstrates that the application of any different current practice achieves substantially the same results. Direct cost items of minor amount may be distributed as indirect costs as provided in section D.

D. INDIRECT COSTS

1. An indirect cost is one which, because of its incurrence for common or joint objectives, is not readily subject to treatment as a direct cost. Minor direct cost items may be considered to be indirect costs for reasons of practicality. After direct costs have been determined and charged directly to the grant/contract or other work as appropriate, indirect costs are those remaining to be allocated to the several classes of work. The overall objective of the allocation process is to distribute the indirect costs of the institution to its various major activities or cost objectives in reasonable proportions with the benefits provided to those activities or cost objective. Because of the diverse natures and purposes of organizations falling within the definition of a non-profit organization, it is impractical to specifically identify those functions which constitute major activities for purposes of identifying and distributing indirect costs. Such identification will be dependent upon an institution's purpose-inbeing, the services it renders to the public, its clients and/or members, the amount of effort devoted to fund raising activities, public relations, and membership activities, etc. (See section C–2.)

2. Indirect costs shall be accumulated by logical cost groupings with due consideration of the reasons for incurring the costs. Each grouping should be determined so as to permit distribution of the grouping on the basis of the benefits accruing to the several cost objectives. Sub-grouping may be required where there is no single equitable distribution base for all the elements of cost comprising a group. Actual conditions must be taken into account in selecting the method or base to be used in distributing the expenses assembled under each of the individual cost groupings established to applicable cost objectives. Where a distribution can be made by assignment of a cost grouping directly to the area benefited, the distribution should be made in that manner. Where the expenses under a cost grouping are more general in nature, the distribution to the cost objectives should be made through use of a selected base which will produce results which are equitable to both the Government and the institution. In general, any cost element or cost-related factor associated with the institution's work is potentially adaptable for use as a distribution base provided (1) it can readily be expressed in terms of dollars or other quantitative measure (total direct expenditures, direct salaries, manhours applied, square feet utilized, hours of usage, number of documents processed, population served, and the like); and (2) it is common to the cost objectives during the base period. The essential consideration in selection of the distribution base in each instance is that it be the one best suited for assigning the pool of costs to the cost objectives in accord with the relative benefits derived; the traceable cause and effect relationship; or logic and reason, where neither benefit nor cause and effect relationship is determinable.

3. The number and composition of the groupings should be governed by practical considerations and should be such as not to complicate unduly the allocation where substantially the same results are achieved through less precise methods.

4. A base period for distribution of indirect costs is the period during which such costs are incurred and accumulated for distribution to work performed within that period. The base period normally should coincide with the fiscal year established by the institution, but in any event the base period should be so selected as to avoid inequities in the distribution of costs.

E. DETERMINATION AND APPLICATION OF INDIRECT COST RATE OR RATES

1. *Indirect cost pools.* (a) Subject to (b) below, indirect costs allocable to an institution's direct functions should be treated as a common pool, and the costs in such common pool should then be distributed to the individual projects benefiting therefrom by use of a single rate.

(b) In some instances a single rate for use across the board on all activities at an institution may not be appropriate, since it would not take into account those different environmental factors which may affect substantially the indirect costs applicable to a particular segment of work at the institution. For this purpose, a particular segment of work may be that performed under a single grant/contract or it may consist of work under a group of grants/contracts performed in a common environment. The environmental factors are not limited to the physical location of the work. Other important factors are the level of the administrative support required, the nature of the facilities or other resources employed, the scientific disciplines or technical skills involved, the organizational arrangements used, or any combination thereof. Where a particular segment of work is performed within an environment which appears to generate a significantly different level of indirect costs, provision should be made for a separate indirect cost pool applicable to such work. The separate indirect cost pool should be developed during the course of the regular distribution process, and the separate indirect cost rate resulting therefrom should be utilized provided it is determined that (1) such indirect cost rate differs significantly from that which would have been obtained under (a) above, and (2) the volume of work to which such rate would apply is material in relation to other activity at the institution.

2. *The distribution base.* Indirect costs should be distributed to each applicable project on the basis of direct salaries and wages, total direct costs or other basis which results in an equitable distribution. For this purpose, an indirect cost rate should be determined for each of the separate indirect cost pools developed pursuant to section E.1. The rate in each case should be stated as the percentage which the amount of the particular indirect cost pool is of the base selected.

F. APPLICATION OF PRINCIPLES AND PROCEDURES

1. Costs shall be allowed to the extent that they are reasonable (see B.3) allocable (see B.4) and determined to be allowable in view of the other factors set forth in paragraph B.2. and section G. These criteria apply to all of the selected items of cost which follow notwithstanding that particular guidance is provided in connection with certain specific items for emphasis or clarity.

2. Costs of all subcontracts under a grant or cost-reimbursement type contract are subject to those Federal cost regulations and policies appropriate to the subcontract involved. Thus if the subcontract is for supplies or services with a nonprofit institution other than an educational institution, hospital or State and local governmental unit this document would apply; if the subcontract is for supplies or services with a commercial organization, Federal Procurement Regulation Part 1.15.2 would apply; if the subcontract is with an educational institution. Appendix D to this Part (Federal Procurement Regulation Part 1.15.3) would apply; if the subcontract is with a hospital, the Department of Health, Education, and Welfare's Cost Principles for Hospitals would apply (see Appendix E to this Part).

3. Selected items of cost are treated in Section G. However, section G does not cover every element of cost and every situation that might arise in a particular case. Failure to treat any item of cost in Section G is not intended to imply that it is either allowable or unallowable. With respect to all items, whether or not specifically covered, determination of allowability shall be based on the principles and standards set forth in this document and, where appropriate, the treatment of similar or related selected items.

G. GENERAL STANDARDS FOR SELECTED ITEMS OF COST

Sections G–1 through G–46 provide standards to be applied in establishing the allowability of certain items involved in determining costs. These standards should apply irrespective of whether a particular item of cost is properly treated as direct cost or indirect cost. Failure to mention a particular item of cost in the standards is not intended to imply that it is either allowable or unallowable; rather determination as to allowability in each case should be based on the treatment or standards provided for similar or related items of cost. In case of a discrepancy between the provisions of a specific grant/contract and the applicable standards provided, the provisions of the grant/contract shall govern. Under any given grant/contract the reasonableness and allocability of certain items of costs may be difficult to determine. This is particularly true in connection with nonprofit institutions which are so diverse in nature and not subject to effective competive restraints. In order to avoid possible subsequent disallowance or dispute based on unreasonableness or nonallocability, it is important that institutions entering into grants or contracts with the Government seek agreement in advance of the incurrence of special or unusual costs in categories where reasonableness or allocability are difficult to determine. Such action may also be initiated by the Government. Examples of costs on which advance agreements may be particularly important are:

1. Compensation for personal services;
2. Consultant fees;
3. Deferred maintenance costs;
4. Excess facility costs;
5. Materiel, services, and supplies sold between organizations or divisions under common control;
6. Preaward costs;
7. Publication and public information costs;
8. Royalties;
9. Training and educational costs;
10. Travel costs, as related to special or mass personnel movement, and to the class of air-travel accommodations allowable;
11. Use charge for fully depreciated assets;
12. Depreciation or use charge on assets donated to the institution by third parties.

1. *Advertising costs.* (a) Advertising costs mean the costs of advertising media and corollary administrative costs. Advertising media include magazine, newspapers, radio, and television programs, direct mail, trade papers, outdoor advertising, dealer cards, and window displays, conventions, exhibits, free goods, and samples, and the like.

(b) The only advertising costs allowable are those which are solely for (1) the recruitment of personnel required for the performance by the institution of obligations arising under the grant/contract, when considered in conjunction with all other recruitment

V 38 181 SEP 1973 XUM

costs, as set forth in G.36; (2) the procurement of scarce items for the performance of the grant/contract or (3) the disposal of scrap or surplus materials acquired in the performance of the project. Costs of this nature, if incurred for more than one Government award or for both Government work and other work of the institution, are allowable to the extent that the principles in paragraphs B–3, B–4, and section D are observed.

2. *Bad debts.* Bad debts, including losses (whether actual or estimated) arising from uncollectible customers' accounts and other claims, related costs, and related legal costs, are unallowable.

3. *Bidding or proposal costs.* Bidding or proposal costs are the immediate costs of preparing bids or proposals on potential Government and non-Government contracts or projects or applications for financial assistance under Federal grant and contract programs, including development of scientific, engineering and cost data necessary to support the institution's bids, proposals or applications. Bidding costs of the current accounting period are allowable as part of the indirect cost pool. Costs of past accounting periods are unallowable. Bidding costs do not include any of those costs described in section G–16 and G–30.

4. *Bonding costs.* (a) Bonding costs arise when the Government requires assurance against financial loss to itself or others by reason of the act or default of the grantee/contractor. They arise also in instances where the grantee/contractor requires similar assurance. Included are such bonds as bid, performance, payment, advance payment, infringement, and fidelity bonds.

(b) Costs of bonding required pursuant to the terms of the grant/contract are allowable.

(c) Costs of bonding required by the grantee/contractor in the general conduct of its operations are allowable to the extent that such bonding is in accordance with sound business practice and the rates and premiums are reasonable under the circumstances.

5. *Civil defense costs.* (a) Civil defense costs are those incurred in planning for, and the protection of life and property against, the possible effects of enemy attack. Reasonable costs of civil defense measures (including costs in excess of normal plant protection costs, first-aid training and supplies, fire fighting training and equipment, posting of additional exit notices and directions, and other approved civil defense measures) undertaken on the institution's premises pursuant to suggestions or requirements of civil defense authorities are allowable when allocated to all work of the institution.

(b) Costs of capital assets under (a) above are allowable through depreciation or use charges in accordance with G–10.

(c) Contributions to local civil defense funds and projects are unallowable.

6. *Compensation for personal services.*—(a) *Definition.* Compensation for personal services includes all remuneration paid currently or accrued in whatever form and whether paid immediately or deferred for services rendered by employees of the institution during the period of grant/contract performance. It includes, but is not limited to salary, wages, directors' and executive committee members' fees, bonuses, incentive awards, employee insurance, fringe benefits, and contributions to pension, annuity, and management employee incentive compensation plans.

(b) *Allowability.* Except as otherwise specifically provided in this subsection, the costs of compensation for personal services are to be treated as allowable to the extent that:

(1) Compensation is paid in accordance with policy, programs, and procedures that effectively relate individual compensation to the individual's contribution to the performance of grant or contract work, result in internally consistent treatment of employees in like situations, and effectively relate compensation paid within the organization to that paid for similar services outside the organization;

(2) Total compensation of individual employees is reasonable for the services rendered; and

(3) Costs are not in excess of those costs which are allowable by the Internal Revenue Code and regulations thereunder.

(c) *Reasonableness.* (1) When the institution is predominantly engaged in activities other than those sponsored by the Federal Government, compensation for employees on federally sponsored work will be considered reasonable to the extent that it is consistent with that paid for similar work in the institution's other activities;

(2) When the institution is predominantly engaged in federally sponsored activities, and in cases where the kind of employees required for the federally sponsored activities are not found in the institution's other activities, compensation for employees on federally sponsored work will be considered reasonable to the extent that it is comparable to that paid for similar work in the labor markets in which the institution competes for the kind of employees involved.

(d) *Review and approval of compensation of individual employees.* In determining the reasonableness of compensation, the compensation of each individual employee normally need not be subject to review and approval. Reviews and approvals of individuals need be made only in those cases in which a general review reveals amounts or types of compensation which appear unreasonable or otherwise out of line.

(e) *Special considerations in determining allowability.* Certain conditions require special consideration and possible limitation as to allowability for grant and contract cost purposes where amounts appear excessive. Among such conditions are the following:

(1) Compensation to share holders, members, trustees, directors, associates, officers or members of the immediate families thereof, or to persons who are contractually committed to acquire a substantial financial interest in the enterprise. Determination should be made that such compensation is reasonable for the actual personal services rendered rather than a distribution of earnings in excess of costs.

(2) Any change in an institution's compensation policy resulting in a substantial increase in the institution's level of compensation, particularly when it was concurrent with an increase in the ratio of Government awards to other business, or any change in the treatment of allowability of specific types of compensation due to changes in Government policy.

(3) The institution's activities are such that its compensation levels are not subject to the restraints normally occurring in the conduct of competitive business.

(f) Notwithstanding any other provisions of this subsection, costs of compensation are not allowable to the extent that they result from provisions of labor-management agreements that, as applied to work in the performance of Government grants or contracts are determined to be unreasonable either because they are unwarranted by the character and circumstances of the work or because they are discriminatory against the Government. The application of the provisions of a labor-management agreement designed to apply to a given set of circumstances and conditions of employment (for example, work involving extremely hazardous activities or work not requiring recurrent use of overtime) is unwarranted when applied to a Government grant or contract involving significantly different circumstances and conditions of employment, (for example, work involving less hazardous activities or work continually requiring use of overtime). It is discriminatory against the Government if it results in individual personnel compensation (in whatever form or name) in excess of that being paid for similar non-Government work under comparable circumstances. Disallowance of costs will not be made under this subparagraph unless:

(1) The institution has been permitted an opportunity to justify the costs; and

(2) Due consideration has been given to whether there are unusual conditions pertaining to the Government work which impose burdens, hardships, or hazards on the institution's employees, for which compensation that might otherwise appear unreasonable is required to attract and hold necessary personnel.

(g) (1) In addition to the general requirements set forth in (a) through (f) of this subsection, certain forms of compensation are subject to further requirements as specified in (2) through (9) below.

(2) *Salaries and wages.* Salaries and wages for current services include gross compensation paid to employees in the form of cash, products, or services, and are allowable. However, see G.25 as it relates to compensation for overtime.

(3) *Incentive compensation.* Incentive compensation to employees based on cost reduction, or efficient performance, suggestion awards, safety awards, etc. are allowable to the extent that the overall compensation is determined to be reasonable and such costs are paid or accrued pursuant to an agreement entered into in good faith between the institution and the employees before the services were rendered, or pursuant to an established plan followed by the institution so consistently as to imply, in effect, an agreement to make such payment. Awards, and incentive compensation when deferred are allowable to the extent provided in (4) below.

(4) *Deferred compensation.* (a) As used herein, deferred compensation includes all remuneration, in whatever form, for which the employee is not paid until after the lapse of a stated period of years or the occurrence of other events as provided in the plans, except that it does not include normal end of accounting period accruals for regular salaries and wages. It includes (i) contributions to pension and annuity plans, (ii) contributions to disability, withdrawal, insurance, survivorship, and similar benefit plans, and (iii) other deferred compensation.

(b) Deferred compensation is allowable to the extent that (i) except for past service pension and retirement costs, it is for services rendered during the grant/contract period; (ii) it is, together with all other compensation paid to the employee, reasonable in amount; (iii) it is paid pursuant to an agreement entered into in good faith between the institution and its employees before the services are rendered, or pursuant to an established plan followed by the institution so consistently as to imply, in effect, an agreement to make such payments; (iv) the benefits of the plan are vested in the employees or their designated beneficiaries and no part of the deferred compensation reverts to the employer institution; (v) in the case of past service pension costs, it is amortized over a period of ten years or more; and (vi) for a plan which is subject to approval by the Internal Revenue Service, it fails within the criteria and standards of the Internal Revenue Code and the regulations of the Internal Revenue Service.

(c) In determining the cost of deferred compensation allowable under the grant or contract, appropriate adjustments shall be made for credits or gains, including those

arising out of both normal and abnormal employee turnover, or any other contingencies that can result in a forfeiture by employees of such deferred compensation. Adjustments shall be made only for forfeitures which directly or indirectly inure to the benefit of the institution; forfeitures which inure to the benefits of other employees covered by a deferred compensation plan with no reduction in the institution's costs will not normally give rise to an adjustment in grant/contract costs. Adjustments for normal employee turnover shall be based on the institution's experience and on foreseeable prospects, and shall be reflected in the amount of cost currently allowable. Such adjustments will be unnecessary to the extent that the institution can demonstrate that its contributions take into account normal forfeitures. Adjustments for possible future abnormal forfeitures shall be effected according to the following rules:

(i) Abnormal forfeitures that are foreseeable and which can be currently evaluated with reasonable accuracy, by actuarial or other sound computation shall be reflected by an adjustment of current costs otherwise allowable; and

(ii) Abnormal forfeitures, not within (i) above, may be made the subject of agreement between the Government and the institution either as to an equitable adjustment or a method of determining such adjustment.

(d) In determining whether deferred compensation is for services rendered during the agreement period or is for future services, consideration shall be given to conditions imposed upon eventual payment, such as requirements of continued employment, consultation after retirement, and covenants not to compete.

(5) *Fringe benefits.* Fringe benefits are allowances and services provided by the institution to its employees as compensation in addition to regular wages and salaries. Costs of fringe benefits, such as pay for vacations, holidays, sick leave, military leave, employee insurance, and supplemental unemployment benefit plans are allowable to the extent required by law, employer-employee agreement, or an established policy of the institution.

(6) Severance pay. See G.40.

(7) Training and education expenses. See G.44.

(8) *Location allowances.* (a) "Location allowances," sometimes called "supplemental pay" or "incentive pay," are compensation in addition to normal wages or salaries and are paid by institutions to especially compensate or induce employees to undertake or continue work at locations which may be isolated or in an unfavorable environment. Location allowances include extra wage or salary payments in the form of station allowances, extended per diem, or mileage payments for daily commuting; they also include such benefits as institution-furnished housing. Payment of location allowances shall be allowed as costs under grants and cost-reimbursement type contracts, or recognized in pricing fixed-price type contracts, only with prior approval in writing from the awarding agency and only where and so long as the isolation or unfavorable environment of the site makes such payments necessary to the accomplishment of the work without unacceptable delays. Whether the site is so isolated, or its environment is so unfavorable, as to require location allowances is to be determined in the light of (a) its location and climate; (b) the availability and adequacy of housing within reasonable commuting distance; and (c) the availability and adequacy of educational, recreational, medical, and hospital facilities. The extent to which compensation includes location allowances is to be determined by comparing it with (a) the institution's normal compensation policy, including pay scales at its principal operating locations; (b) pay scales of other organizations and concerns operating at or near the site; and (c) compensation paid by other concerns within the same field for similar services elsewhere.

(b) Locations for which location allowances are paid shall be reviewed at least once a year to determine whether such allowances should continue to be allowed.

(9) *Support of salaries and wages.* (a) Direct charges for professionals must be supported by either:

(i) An adequate appointment and workload distribution system, accompanied by monthly reviews performed by responsible change in workload distribution of each professional (i.e., an exception reporting system) or

(ii) A monthly after-the-fact certification system which will require persons in supervisory positions having firsthand knowledge of the services performed to report the distribution of effort (i.e., a positive reporting system). Such reports must account for the *total* salaried effort of the persons covered. Consequently, a system which provides for the reporting only of effort applicable to federally sponsored activities is not acceptable.

(b) Direct charges for salaries and wages of nonprofessionals will be supported by time and attendance and payroll distribution records.

(c) Allowable indirect personal services costs will be supported by the institution's accounting system maintained in accordance with generally accepted institutional practices. Where a comprehensive accounting system does not exist, the institution should make periodic surveys no less frequently than annually to support the indirect personal services costs for inclusion in the overhead pool. Such supporting documentation must be retained for subsequent review by Government representatives.

7. *Capital expenditures.* The costs of equipment, buildings, and repairs which materially increase the value or useful life of buildings or equipment, are unallowable except as provided for in the grant/contract.

8. *Contingencies.* (a) A contingency is a possible future event or condition arising from presently known or unknown causes, the outcome of which is indeterminable at the present time.

(b) In historical costing, contingencies are not normally present since such costing deals with costs which have been incurred and recorded on the institution's books. Accordingly, contingencies are generally unallowable for historical costing purposes. However, in some cases, as for example, terminations, a contingency factor may be recognized which is applicable to a past period to give recognition to minor unsettled factors in the interest of expeditious settlement.

(c) In connection with estimates of future costs, contingencies fall into two categories:

(1) Those which may arise from presently known and existing conditions, the effects of which are foreseeable within reasonable limits of accuracy; e.g., pension funds, sick leave, and vacation accruals, etc. In such situations where they exist, contingencies of this category are to be included in the estimates of future cost so as to provide the best estimate of performance costs; and

(2) Those which may arise from presently known or unknown conditions, the effect of which cannot be measured so precisely as to provide equitable results to the institution and to the Government; e.g., results of pending litigation, and other general business risks. Contingencies of this category are to be excluded from cost estimates under the several items of cost, but should be disclosed separately, including the basis upon which the contingency is computed in order to facilitate the negotiation of appropriate contractual coverage (see, for example, G–17, G–21, and G–40).

9. *Contributions and donations.* (a) Contributions and donations by the grantee/contractor are unallowable.

(b) The value of donated services or goods provided by individual volunteers or members of volunteer organizations is not an allowable cost; however, the fair market value of donated services or goods utilized in the performance of a direct cost activity as defined in C.1 and C.2 shall be considered in the determination of the indirect cost rate(s) and, accordingly, shall be allocated a proportionate share of indirect cost.

10. *Depreciation and use allowances.* (a) Institutions may be compensated for the use of buildings, capital improvements and usable equipment on hand through depreciation or use allowances. Depreciation is a charge to current operations which distributes the cost of a tangible capital asset, less estimated residual value, over the estimated useful life of the asset in a systematic and logical manner. It does not involve a process of valuation. Useful life has reference to the prospective period of economic usefulness in the particular institution's operations as distinguished from physical life. Use allowances are the means of allowing compensation when depreciation or other equivalent costs are not considered.

(b) Depreciation or a use allowance on assets donated by third parties is allowable. However, any limitations on the amount of depreciation which would have applied to the donor as a result of restrictions contained in this Section shall also apply to the recipient organization.

(c) Due consideration will be given to Government-furnished facilities utilized by the institution when computing use allowances and/or depreciation if the Government-furnished facilities are material in amount. Computation of the use allowance and/or depreciation will exclude both the cost or any portion of the cost of grounds, buildings and equipment borne by or donated by the Federal Government, irrespective of where title was originally vested or where it presently resides, and secondly, the cost of grounds. Capital expenditures for land improvements (paved areas, fences, streets, sidewalks, utility conduits, and similar improvements not already included in the cost of buildings) are allowable provided the systematic amortization of such capital expenditures has been provided in the institution's books of account, based on reasonable determinations of the probable useful lives of the individual items involved, and the share allocated to the grant or contract is developed from the amount thus amortized for the base period involved.

(d) Normal depreciation on an institution's plant, equipment, and other capital facilities, except as excluded by (d) below, is an allowable element of cost provided that the amount thereof is computed:

(1) Upon a property cost basis which could have been used by the institution for Federal Income Tax purposes, had such institution been subject to the payment of income tax; and

(2) By the consistent application to the assets concerned of any generally accepted accounting method, and subject to the limitations of the Internal Revenue Code of 1954 as amended, including—

(i) The straight line method;

(ii) The declining balance method, using a rate not exceeding twice the rate which would have been used had the annual allowance been computed under the method described in (i) above;

(iii) The sum-of-the-years-digits method; and

(iv) Any other consistent method productive of an annual allowance which, when added to all allowances for the period commencing with the use of the property and including the current year, does not during

V 38 N 181 SEP 19 73 XUM

the first two-thirds of the useful life of the property exceed the total of such allowances which would have been used had such allowances been computed under the method described in (ii) above.

(v) Where the depreciation method is followed, adequate property records must be maintained. The period of useful service (service life) established in each case for usable capital assets must be determined on a realistic basis which takes into consideration such factors as type of construction, nature of the equipment used, technological developments in the particular area, and the renewal and replacement policies followed for the individual items or classes of assets involved. Where the depreciation method is introduced for application to assets acquired in prior years, the annual charges therefrom must not exceed the amounts that would have resulted had the depreciation method been in effect from the date of acquisition of such assets.

(vi) Depreciation on idle or excess facilities shall not be allowed except on such facilities as are reasonably necessary for standby purposes. (See G. 13.)

(vii) Where an institution elects to go on a depreciation basis for a particular class of assets, no depreciation, rental or use charge may be allowed on any such assets that would be viewed as fully depreciated. *Provided, however*, that reasonable use charges may be negotiated for any such assets if warranted after taking into consideration the cost of the facility or item involved, the estimated useful life remaining at time of negotiation, the actual replacement policy followed in the light of service lives used for calculating depreciation, the effect of any increased maintenance charges or decreased efficiency due to age, and any other factors pertinent to the utilization of the facility or item for the purpose contemplated.

(viii) Where the use allowance method is followed, the use allowance for buildings and improvements will be computed at an annual rate not exceeding 2 percent of acquisition cost. The use allowance for equipment will be computed at an annual rate not exceeding 6⅔ percent of acquisition cost of usable equipment in those cases where the institution maintains current records with respect to such equipment on hand. Where the institution's records reflect only the cost (actual or estimated) of the original complement of equipment, the use allowance will be computed at an annual rate not exceeding 10 percent of such cost. Original complement for this purpose means the complement of equipment initially placed in buildings to perform the functions currently being performed in such buildings; however, where a permanent change in the function of a building takes place, a redetermination of the original complement of equipment may be made at that time to establish a new original complement. In those cases where no equipment records are maintained, the institution will justify a reasonable estimate of the acquisition cost of usable equipment which may be used to compute the use allowance at an annual rate not exceeding 6⅔ percent of such estimate.

(ix) Depreciation and/or use charges should usually be allocated to all activities as an indirect cost.

11. *Employee morale, health, welfare costs, and credits.* (a) Employee morale, health, and welfare activities are those services or benefits provided by the institution to its employees to improve working conditions, employer-employee relations, employee morale, and employee performance. Such activities include house publications, health or first-aid clinics, recreation, employee counseling services and, for the purpose of this paragraph, food and dormitory services. Food and dormitory services include operating or furnishing facilities for cafeterias, dining rooms, canteens, lunch wagons, vending machines, living accommodations, or similar types of services for the institution's employees at or near its facilities.

(b) Except as limited by (c) below, the aggregate of costs incurred on account of all activities mentioned in (a) above, less income generated by all such activities is allowable to the extent that the net amount is reasonable.

(c) Losses from the operation of food and dormitory services may be included as cost incurred under (b) above, only if the institution's objective is to operate such services on a break-even basis. Losses sustained because food services or lodging accommodations are furnished without charge or at prices or rates which obviously would not be conducive to accomplishment of the above objective, are not allowable, except that a loss may be allowed to the extent the institution can demonstrate that unusual circumstances exist (e.g., (i) where the institution must provide food or dormitory services at remote locations where adequate commercial facilities are not reasonably available or (ii) where it is necessary to operate a facility at a lower volume than the facility could economically support) such that, even with efficient management, operation of the services on a break-even basis would require charging inordinately high prices or prices or rates higher than those charged by commercial establishments offering the same services in the same geographical areas.

(d) In those situations where the institution has an arrangement authorizing an employee association to provide or operate a service such as vending machines in the institution's plant, and retain the profits derived therefrom, such profits shall be treated in the same manner as if the institution were providing the service (but see (e)).

(e) Contributions by the institution to an employee organization, including funds set over from vending machine receipts or similar sources, may be included as cost incurred under (b) above only to the extent that the institution demonstrates that an equivalent amount of the costs incurred by the employee organization would be allowable if incurred by the institution directly.

12. *Entertainment costs.* Costs of amusement, diversion, social activities, ceremonials, and incidental costs relating thereto, such as meals, lodging, rentals, transportation, and gratuities, are unallowable (but see G–11 and G–43).

13. *Excess facility costs.* (a) As used in this paragraph, the words and phrases defined in this subparagraph (a) shall have the meanings set forth below.

(1) Facilities means plant or any portion thereof (inclusive of land integral to the operation); equipment individually or collectively; or any other tangible capital asset, wherever located, and whether owned or leased by the institution.

(2) Idle Facilities means completely unused facilities that are excess to the institution's current needs.

(3) Idle Capacity means the unused capacity of partially used facilities. It is the difference between that which a facility could achieve under 100 percent operating time on a one shift basis less operating interruptions resulting from time lost for repairs, setups, unsatisfactory materiels, and other normal delays, and the extent to which the facility was actually used to meet demands during the accounting period. (A multiple shift basis may be used if it can be shown that this amount of usage could normally be expected for the type of facility involved.)

(4) Costs of idle facilities or idle capacity are costs such as maintenance, repair, housing, rent, and other related costs, e.g., property taxes, insurance, and depreciation.

(b) The costs of idle facilities are unallowable except to the extent that:

(i) They are necessary to meet fluctuations in workload; or

(ii) Although not necessary to meet fluctuations in workload, they were necessary when acquired and are now idle because of changes in program requirements, grantee/contractor efforts to produce more economically, reorganization, termination, or other causes which could not have been reasonably foreseen.

Under the exception stated in (ii) of this subparagraph (b), costs of idle facilities are allowable for a reasonable period of time, ordinarily not to exceed 1 year, depending upon the initiative taken to use, lease, or dispose of such facilities (but see G.42(b) and (e)).

(c) The costs of idle capacity are normal costs of doing business and are a factor in the normal fluctuations of usage or overhead rates from period to period. Such costs are allowable, provided the capacity is reasonably anticipated to be necessary or was originally reasonable and is not subject to reduction or elimination by subletting, renting, or sale, in accordance with sound business, economics, or security practices. Widespread idle capacity throughout an entire plant or among a group of assets having substantially the same function may be idle facilities.

14. *Fines and penalties.* Costs of fines and penalties resulting from violations of, or failure of the institution to comply with, Federal, State, and local laws and regulations are unallowable except when incurred as a result of compliance with specific provisions of the grant or contract instructions in writing from the awarding agency.

15. *Fringe benefits.* (See G.–6–(g)–(5.)

16. *Independent research and development.* (a) An institution's independent research and development (I.R. & D.) is that research and development which is not sponsored by the Government or a non-Government organization or agency under a grant/contract or other arrangement.

(b) Basic research, for the purpose of this document, is that type of research which is directed toward increase of knowledge within a particular discipline. In such research, the primary aim of the investigator is a fuller knowledge or understanding of the subject under study, rather than any practical application thereof. Applied research, for the purpose of this document consists of that type of effort which (1) is normally derived from the results of basic research, but may not be severable from the related basic research, (2) attempts to determine and expand the potentialities of new scientific discoveries or improvements in technology, materiels, processes, methods, devices, and techniques, and (3) attempts to "advance the state of the art." Applied research, does not include any such efforts when their principal aim is the design, development, or test of specific articles or services to be offered for sale, which are within the definition of the term development as defined in (c) below. Census research, for the purpose of this document, is that type of activity devoted to the compilation and interpretation of statistical and other analytical information acquired through survey (e.g. interview, circularization of questionnaires), observations or from books, treatises, articles or other sources relative to specifically defined activities, occurrences or conditions for the purpose of accomplishing some scientific end.

(c) "Development" is the systematic use of scientific knowledge which is directed toward the production of, or improvements in, useful products to meet specific performance

requirements, but exclusive of manufacturing and production engineering.

(d) Independent research and development will be treated in a manner consistent with the treatment of sponsored research and development. Accordingly, an institution's I.R. & D. shall be allocated in proportionate share of indirect costs on the same basis that indirect costs are allocated to sponsored research and development.

(e) The cost of an institution's I.R. & D. including its proportionate share of indirect costs, is unallowable.

17. *Insurance and indemnification.* (a) Insurance includes insurance which the institution is required to carry, or which is approved, under the terms of the grant or contract and any other insurance which the institution maintains in connection with the general conduct of its business.

(1) Costs of insurance required or approved, and maintained, pursuant to the grant or contract are allowable.

(2) Costs of other insurance maintained by the institution in connection with the general conduct of its business are allowable subject to the following limitations:

(a) Types and extent of coverage shall be in accordance with sound business practice and the rates and premiums shall be reasonable under the circumstances;

(b) Costs allowed for business interruption or other similar insurance shall be limited to exclude coverage of profit;

(c) Costs of insurance or of any provision for a reserve covering the risk of loss of or damage to Government property are allowable only to the extent that the institution is liable for such loss or damage and such insurance or reserve does not cover loss or damage which results from willful misconduct or lack of good faith on the part of any of the institution's trustees, directors or officers, or other equivalent representatives, who have supervision or direction of (i) all or substantially all of the institution's business, or (ii) all or substantially all of the institution's operations at any one separate location in which the grant or contract is being performed, or who are specifically identified as the project director in the project or otherwise primarily responsible for the direction and/or execution of the project supported by the grant or contract.

(d) Provisions for a reserve under an approved self-insurance program are allowable to the extent that types of coverage, extent of coverage, and the rates and premiums would have been allowed had insurance been purchased to cover the risks; and

(e) Costs of insurance on the lives of trustees, officers, or other employees holding positions of similar responsibilities are allowable only to the extent that the insurance represents additional compensation. (See G–6).

(3) Actual losses which could have been covered by permissible insurance (through an approved self-insurance program or otherwise) are unallowable unless expressly provided for in the grant or contract, except:

(a) Costs incurred because of losses not covered under nominal deductible insurance coverage provided in keeping with sound business practice, are allowable; and

(b) Minor losses not covered by insurance, such as spoilage, breakage, and disappearance of supplies, which occur in the ordinary course of doing business, are allowable.

(b) Indemnification includes securing the institution against liabilities to third persons and any other loss or damage not compensated by insurance or otherwise. The Government is obligated to indemnify the institution only to the extent expressly provided in (a) (3) above.

18. *Interest and other financial costs.* (a) Costs incurred for interest on borrowed capital or temporary use of endowment funds, however represented, are unallowable.

(b) Costs of organized fund raising, including financial campaigns, endowment drives, solicitation of gifts and bequests, and similar expenses incurred solely to raise capital or obtain contributions, are unallowable.

(c) Costs of investment counsel and staff and similar expenses incurred solely to enhance income from investments are unallowable.

(d) Where substantial effort or time is devoted to fund raising and investment activities as described in (b) and (c) in relation to other functions of an institution, such activities shall be considered as a major activity of the institution and shall be allocated its share of indirect costs in accordance with section D. (See also C–2.)

19. *Labor relations costs.* Costs incurred in maintaining satisfactory relations between the institution and its employees, including costs of labor management committees, employee publications, and other related activities, are allowable.

20. *Losses on other grants or contracts.* Any excess of costs over income on any grant or contract is unallowable as a cost of any other grant or contract.

21. *Maintenance and repair costs.* (a) Costs necessary for the upkeep of property (including Government property unless otherwise provided for), which neither add to the permanent value of the property nor appreciably prolong its intended life, but keep it in an efficient operating condition, are to be treated as follows (but see G–10):

(1) Normal maintenance and repair costs are allowable:

(2) Extraordinary maintenance and repair costs are allowable, provided such are allocated to the periods to which applicable for purposes of determining grant or contract costs.

(b) Expenditures for plant and equipment, including rehabilitation thereof, which, according to generally accepted accounting principles as applied under the institution's established policy, should be capitalized and subjected to depreciation, are allowable only on a depreciation basis.

22. *Materiels costs.* (a) The cost of consumable supplies, serum, drugs, fabricated parts, and other materiels necessary to carry out the objectives of a grant or contract, whether purchased outside or manufactured by the institution are allowable subject to the provisions (b) through (e) below. The cost may include such collateral items as inbound transportation and intransit insurance.

In computing these costs consideration will be given to reasonable overruns, spoilage, or defective work if consistent with the nature of the project being performed and the recognized practice of the industry.

(b) Costs of materiel shall be suitably adjusted for applicable portions of income and other credits, including available trade and cash discounts, refunds, rebates, allowances, and credits for scrap and salvage and materiel returned to vendors. Such income and other credits shall either be credited directly to the cost of the materiel involved or be allocated (as credits) to indirect costs. However, where the institution can demonstrate that failure to take cash discounts was due to reasonable circumstances, such lost discounts need not be so credited.

(c) Reasonable adjustments arising from differences between periodic physical inventories and book inventories may be included in arriving at costs, provided such adjustments relate to the period of performance of the grant or contract.

(d) When the materiels are purchased specifically for and identifiable solely with performance under a grant or contract, the actual purchase cost thereof should be charged to that grant or contract. If materiel is issued from stores, any generally recognized method of pricing such materiel is acceptable if that method is consistently applied and the results are equitable. When estimates of materiel costs to be incurred in the future are required, either current market price or anticipated acquisition cost may be used, but the basis of pricing must be disclosed.

(e) Allowance for all materiels, supplies and services which are sold or transferred between any division, subsidiary or affiliate of the institution under a common control shall be on the basis of cost incurred in accordance with these principles, except that when it is the established practice of the transferring organization to price interorganization transfers of materiels, supplies and services at other than cost for non-Government work of the institution or any division, subsidiary or affiliate of the institution under a common control, allowance may be at a price when:

(1) It is or is based on an "established catalog or market price of commercial items sold in substantial quantities to the general public;" or

(2) It is the result of "adequate price competition" and is the price at which an award was made to the affiliated organization after obtaining quotations on an equal basis from such organization and one or more outside sources which normally produce the item or its equivalent in significant quantity.

*Provided*, that in either case:

(1) The price is not in excess of the transferor's current sales price to his most favored customer (including any division, subsidiary, or affiliate of the institution under a common control) for a like quantity under comparable conditions, and

(2) The price is not determined to be unreasonable by the awarding agency.

The price determined in accordance with (1) above should be adjusted, when appropriate, to reflect the quantities being procured and may be adjusted upward or downward to reflect the actual cost of any modifications necessary because of grant or contract requirements.

23. *Organization costs.* Expenditures, such as incorporation fees, attorney's fees, accountant's fees, broker's fees, fees to promoters and organizers, in connection with (a) organization or reorganization of a business, or (b) raising capital, are unallowable unless specified otherwise in the grant or contract.

24. *Other business expenses.* Included in this item are such recurring expenses as preparation and publication of reports to members and trustees; preparation and submission of required reports and forms to taxing and other regulatory bodies; and incidental costs of director and committee meetings. The above and similar costs are allowable when allocated on an equitable basis.

25. *Overtime, extra-pay shift and multishift premiums.* Premiums for overtime, extra-pay shifts, and multishift work are allowable only to the extent approved by the awarding agency except:

(a) When necessary to cope with emergencies, such as those resulting from accidents, natural disasters, breakdowns of production equipment, or occasional production bottlenecks of a sporadic nature;

(b) When by indirect labor employees such as those performing duties in connection with administration, protection, transportation, maintenance, standby plant protection, operation of utilities, or accounting;

(c) In the performance of tests, laboratory procedures, or other similar operations which are continuous in nature and cannot reason-

V 38 181 SEP 19 1973 XUM

ably be interrupted or otherwise completed; or

(d) When lower overall cost to the Government will result.

Overtime premiums and shift premiums may be considered proper for approval when determined in writing by the awarding agency that approval:

(a) Is necessary to meet delivery or performance schedules, and such schedules are determined to be extended to the maximum consistent with essential program objectives;

(b) Is necessary to make up for delays which are beyond the control and without the fault or negligence of the institution;

(c) Is necessary to eliminate foreseeable bottlenecks of an extended nature which cannot be eliminated in any other way.

Approvals should ordinarily be prospective, but may be retroactive where justified by the circumstances. Such approvals may be for an individual grant or contract project, or program, or for a division, department, or branch, as most practicable.

Overtime for which overtime premiums would be at Government expense should not be approved under an award where the institution is already obligated, without the right to additional compensation, to meet the required delivery date.

Where overtime premiums or shift premiums are being paid at Government expense in connection with the performance of Government grant or contract the continued need therefor should be subject to periodic review by the awarding agency.

26. *Patent and copyright costs.* Costs of preparing disclosures, reports, and other documents required by the grant/contract and of searching the art to the extent necessary to make such disclosures, are allowable. In accordance with the conditions of the grant or contract relating to patents or copyrights, costs of preparing documents and any other costs, in connection with the filing of a patent application or copyright where title is conveyed to the Government, are allowable. However, similar costs incurred in connection with patents or copyrights where title is not conveyed to the Government are unallowable. (See G–39.)

27. *Pension plans.* (See G–6(g)–(4).)

28. *Plant protection costs.* Costs of items such as (a) wages, uniforms, and equipment of personnel engaged in plant protection, (b) depreciation on plant protection capital assets, and (c) necessary expenses to comply with security requirements are allowable.

29. *Plant reconversion costs.* Plant reconversion costs are those incurred in the restoration or rehabilitation of the institution's facilities to approximately the same condition existing immediately prior to the commencement of the grant or contract work, fair wear and tear excepted. Reconversion costs are unallowable except for the cost of removing Government property and the restoration or rehabilitation costs caused by such removal. However, in special circumstances where equity so dictates, additional costs may be allowed to the extent agreed upon in writing before the costs are incurred. Whenever such costs are given consideration, care should be exercised to avoid duplication through allowance as contingencies, as additional profit or fee, or in other grants or contracts.

30. *Preaward costs.* Preaward costs are those incurred prior to the effective date of the grant or contract directly pursuant to the negotiation and in anticipation of the award of the grant or contract where such incurrence is necessary to comply with the proposed delivery schedule or period of performance. Such costs are allowable only to the extent that they would have been allowable if incurred after the date of the award and only with the prior written approval of the awarding agency.

31. *Professional service cost—legal, accounting, scientific and other.* (a) Costs of professional services rendered by members of a particular profession who are not employees of the institution are allowable, subject to (b), (c) and (d) below, when reasonable in relation to the services rendered. (But see G–23.)

(b) Factors to be considered in determining the allowability of costs in a particular case include:

(1) The nature and scope of the service rendered in relation to the service required;

(2) The necessity of contracting for the service considering the institution's capability in the particular area;

(3) The past pattern of such costs, particularly in years prior to the award of Government work;

(4) The impact of Government work on the institution's business (i.e., what new problems have arisen);

(5) Whether the proportion of Government work to the institution's total business is such as to influence the institution in favor of incurring the cost, particularly where the services rendered are not of a continuing nature and have little relationship to work under Government grants/contracts;

(6) Whether the service can be performed more economically by employment rather than by contracting;

(7) The qualifications of the individual or concern rendering the service and the customary fees charged, especially on non-government grants/contracts;

(8) Adequacy of the contractual agreement for the service (e.g., description of the service, estimate of time required, rate of compensation; termination provisions).

(c) Retainer fees to be allowable must be reasonably supported by evidence of bona fide services available or rendered.

(d) Costs of legal, accounting, and consulting service, and related costs, incurred in connection with organization and reorganization, defense of anti-trust suits, and the prosecution of claims against the Government, are unallowable. Costs of legal, accounting, and consulting services, and related costs, incurred in connection with patent or copyright infringement litigation, are unallowable unless otherwise provided for in the grant or contract.

32. *Profits and losses on disposition of plant equipment, or other capital assets.* Profits or losses of any nature arising from the sale or exchange of plant, equipment, or other capital assets, including sale or exchange of either short- or long-term investments, shall be excluded in computing grant or contract costs.

33. *Public information services costs.* Public information services costs include the costs associated with promotions, public relations, pamphlets, news releases, and other forms of information services. Such costs are normally incurred to:

(a) Inform or instruct individuals, groups or the general public about health or social problems;

(b) Interest individuals or groups in participating in a service program of the institution;

(c) Provide stewardship reports to State and local Government agencies, benefactor foundations and associations, etc.;

(d) Appeal for funds;

(e) Disseminate the results of sponsored and non-sponsored research or other activity to the scientific community.

To the extent that the costs incurred for any of these purposes are identifiable with a particular cost objective they should be charged to the objective to which they relate.

If these costs are not identifiable with a particular cost objective, they should be allocated as indirect costs to all major activities of the institution except that costs related to fund-raising appeals are unallowable as costs of grants and contracts.

Public information service costs are unallowable as a direct cost of grants and contracts unless formally approved by the awarding agency.

34. *Publication and printing costs.* Publication costs include the costs of printing (including the processes of composition, platemaking, press work, binding and the end products produced by such processes), distribution, promotion, mailing and general handling.

Publication costs are unallowable as a direct cost of grants and contracts unless formally approved by the awarding agency.

35. *Rearrangement and alteration costs.* Costs incurred for ordinary or normal rearrangement and alteration of facilities are allowable. Special arrangement and alteration costs incurred specifically for the project are allowable when written approval has been given in advance by the awarding agency.

36. *Recruitment costs.* (a) Subject to (b), (c), and (d) of this G–36, and provided that the size of the staff recruited and maintained is in keeping with workload requirements, costs of help-wanted advertising, operating costs of an employment office necessary to secure and maintain an adequate labor force, costs of operating an aptitude and educational testing program, travel costs of employees while engaged in recruiting personnel, and travel costs of applicants for interviews for prospective employment are allowable to the extent that such costs are incurred pursuant to a well managed recruitment program. Where the institution uses employment agencies, costs not in excess of standard commercial rates for such services are allowable.

(b) In publications, costs of help-wanted advertising that (1) includes color, (2) includes advertising materiel for other than recruitment purposes, or (3) is excessive in size (taking into consideration recruitment purposes for which intended and normal business practices in this respect) are unallowable.

(c) Costs of (1) help-wanted advertising and (2) excessive salaries, fringe benefits, and special emoluments that have been offered to prospective employees, designed to attract personnel from another institution performing as grantee or contractor to the Government, or in excess of the standard practices in comparable institutions, are unallowable.

(d) Where relocation costs incurred incident to recruitment of a new employee have been allowed either as an allocable direct or indirect cost and the newly hired employee resigns for reasons within his control within 12 months after hire, the institution shall be required to refund or credit such relocation costs to the Government.

37. *Relocation costs.* (a) Relocation costs, for the purpose of this document, are costs incident to the permanent change of duty assignment (for an indefinite period, or for a stated period of no less than 12 months) of an existing employee or upon recruitment of a new employee. These costs may include, but are not limited to cost of (i) transportation of the employee, members of his immediate family and his household and personal effects to the new location; (ii) finding a new home, such as advance trips by employees and spouses to locate living quarters and temporary lodging during the transition period; (iii) closing costs (i.e., brokerage fees, legal fees, appraisal fees, etc.), incident to the disposition of housing; (iv) other necessary and reasonable expenses normally incident to relocation, such as cost of cancelling an unexpired lease, disconnecting or reinstalling household appliances, and purchase of insurance against damages to personal property; (v) loss on sale of home; and (vi) acquisition

of a home in a new location (i.e., brokerage fees, legal fees, appraisal fees, etc.).

(b) Subject to (c) below, relocation costs of the type covered in (a) (i), (ii), (iii), and (iv) above are allowable, provided (i) the move is for the benefit of the employer; (ii) reimbursement is in accordance with an established policy or practice consistently followed by the employer, and such policy or practice is designed to motivate employees to relocate promptly and economically; (iii) the costs are not otherwise unallowable under the provisions of G–36 or any other paragraph of this document and (iv) amounts to be reimbursed shall not exceed the employee's actual (or reasonably estimated) expenses.

(c) Costs otherwise allowable under (b) above are subject to the following additional provisions: (i) the transition period for incurrance of costs of the type covered in (a) (ii) above shall be kept to the minimum number of days necessary under the circumtances, but shall not, in any event, exceed a cumulative total of 30 days including advance trip time; and (ii) allowance for cost of the type covered in (a) (iii) above shall not exceed 8 percent of the sales price of the property sold. Costs of the type covered in (a) (iii) and (iv) above are allowable only in connection with the relocation of existing employees, and are not allowable for newly recruited employees.

(d) Costs of the type covered in (a) (v) and (vi) above are not allowable.

38. *Rental costs (including sale and leaseback of facilities).* (a) Rental costs of land, building, and equipment and other personal property are allowable if the rates are reasonable in light of such factors as rental costs of comparable facilities and market conditions in the area, the type, life expectancy, condition, and value of the facilities leased, options available, and other provisions of the rental agreement. Application of these factors, in situations where rentals are extensively used, may involve among other considerations, comparison of rental costs with the amount which the institution would have received had it owned the facilities.

(b) Charges in the nature of rent between plants, divisions, or organizations under common control are allowable to the extent such charges do not exceed the normal costs of ownership, such as depreciation, taxes, insurance, and maintenance: *Provided*, That no part of such costs shall duplicate any other allowed costs.

(c) Unless otherwise specifically provided in the grant or contract, rental costs specified in sale and leaseback agreements, incurred by institutions through selling plant facilities to investment organizations, such as insurance companies, associate institutions, or to private investors, and concurrently leasing back the same facilities, are allowable only to the extent that such rentals do not exceed the amount which the grantee/contractor would have received had it retained legal title to the facilities.

(d) Rentals for land, building and equipment and other personal property owned by affiliated organizations including corporations or by stockholders, members, directors, trustees, officers or other key personnel of the institution or their families either directly or through corporations, trusts or other similar arrangements in which they hold a more than token interest are allowable only to the extent that such rentals do not exceed the amount the institution would have received had legal title to the facilities been vested in it.

(e) The allowability of rental costs under unexpired leases in connection with terminations is treated in G–42(e).

39. *Royalties and other costs for use of patents and copyrights.* (a) Royalties on a patent or copyright or amortization of the cost of acquiring by purchase a copyright, patent or rights thereto, necessary for the proper performance of the grant or contract applicable to grant products or processes, are allowable unless:

(1) The Government has a license or the right to free use of the patent;

(2) The patent or copyright has been adjudicated to be invalid, or has been administratively determined to be invalid;

(3) The patent or copyright is considered to be unenforceable; or

(4) The patent or copyright is expired.

(b) Special care should be exercised in determining reasonableness where the royalties may have been arrived at as a result of less than arm's-length bargaining; e.g.:

(1) Royalties paid to persons, including corporations, affiliated with the institution;

(2) Royalties paid to unaffiliated parties, including corporations, under an agreement entered into in contemplation that a Government grant or contract would be awarded; or

(3) Royalties paid under an agreement entered into after the award of the grant or contract.

(c) In any case involving a patent or copyright formerly owned by the institution, the amount of royalty allowed should not exceed the cost which would have been allowed had the institution retained title thereto.

40. *Severance pay.* (a) Severance pay, also commonly referred to as dismissal wages, is a payment in addition to regular salaries and wages, by institutions to workers whose employment is being terminated. Costs of severance pay are allowable only to the extent that, in each case, it is required by (1) law, (2) employer-employee agreement, (3) established policy that constitutes, in effect, an implied agreement on the institution's part, or (4) circumstance of the particular employment.

(b) Costs of severance payments are divided into two categories as follows:

(1) Actual normal turnover severance payments shall be allocated to all work performed in the institution's facilities; or, where the institution provides for accrual of pay for normal severances, such method will be acceptable if the amount of the accrual is reasonable in light of payments actually made for normal severances over a representative past period, and if amounts accrued are allocated to all work performed in the institution's facilities; and

(2) Abnormal or mass severance pay is of such a conjectural nature that measurement of costs by means of an accrual will not achieve equity to both parties. Thus, accruals for this purpose are not allowable. However, the Government recognizes its obligation to participate, to the extent of its fair share, in any specific payment. Thus, allowability will be considered on a case-by-case basis in the event of occurrence.

41. *Taxes.* (a) Taxes are certain charges levied by Federal, State, or local governments. They do not include fines and penalties except as otherwise provided herein. In general, taxes which the institution is required to pay and which are paid or accrued in accordance with generally accepted accounting principles are allowable, except for:

(1) Federal income taxes and similar levies against income of the institution derived from activities unrelated to the project supported by the grant or contract;

(2) Taxes in connection with financing, refinancing, or refunding operations (see G–18);

(3) Taxes from which exemptions are available to the institution directly or available to the institution based on an exemption afforded the Government except when the awarding agency determines that the administrative burden incident to obtaining the exemption outweighs the corresponding benefits accruing to the Government;

(4) Special assessments on land which represent capital improvements; and

(5) Taxes on any category of property which is used solely in connection with work other than on Government grants or contracts. (Taxes on property used solely in connection with either non-Government or Government work should be considered directly applicable to the respective category of work unless the amounts involved are insignificant or comparable results would otherwise be obtained.)

(b) Taxes otherwise allowable under paragraph (a) of this section, but upon which a claim of illegality or erroneous assessment exists, are allowable provided the institution, prior to payment of such taxes:

(1) Promptly requests instructions from the awarding agency concerning such taxes, and

(2) Takes all action directed by the awarding agency arising out of subparagraph (1) of this paragraph or an independent decision of the Government as to the existence of a claim of illegality or erroneous assessment, including cooperation with and for the benefit of the Government to (i) determine the legality of such assessment, or (ii) secure a refund of such taxes.

Reasonable costs of any such action undertaken by the institution at the direction or with the concurrence of the awarding agency are allowable. Interest and penalties incurred by an institution by reason of the nonpayment of any tax at the direction of the awarding agency or by reason of the failure of the awarding agency to issue timely direction after prompt request therefor, are also allowable.

(c) Any refund of taxes, interest, or penalties, and any payment to the institution of interest thereon, attributable to taxes, interest, or penalties which were allowed as project costs, shall be credited or paid to the Government in the manner directed by the Government, provided any interest actually paid or credited to an institution incident to a refund of tax, interest or penalty shall be paid or credited to the Government only to the extent that such interest accrued over the period during which the institution had been reimbursed by the Government for the taxes, interest or penalties.

42. *Termination costs.* Grants and contracts terminations generally give rise to the incurrence of costs, or the need for special treatment of costs, which would not have arisen had the project not been terminated. Cost principles covering these items are set forth below. They are to be used in conjunction with the remainder of this document in termination situations.

(a) *Common items.* The cost of items reasonably usable on the institution's other work shall not be allowable unless the institution submits evidence that it could not retain such items at cost without sustaining a loss. In deciding whether such items are reasonably usable on other work of the institution, the awarding agency should consider the institution's plans and orders for current and scheduled production. Contemporaneous purchases of common items by the institution shall be regarded as evidence that such items are reasonably usable on the institution's other work. Any acceptance of common items as allocable to the terminated portion of the project should be limited to the extent that the quantities of such items on hand, in transit, and on order are in excess of the reasonable quantitative requirements of other work.

(b) *Costs continuing after termination.* If in a particular case, despite all reasonable efforts by the institution, certain costs cannot be discontinued immediately after the effective date of termination, such costs are generally allowable within the limitations set forth in this document, except that any such

V 38 181 SEP 1973 XUM

costs continuing after termination due to the negligent or willful failure of the institution to discontinue such costs shall be considered unallowable.

(c) *Initial costs.* Initial costs, including starting load and preparatory costs, are allowable, subject to the following:

(1) Starting load costs are costs of a nonrecurring nature arising in the early stages of operation, investigation or production and not fully absorbed because of the termination. Such costs may include the cost of labor and materiel, and related indirect cost attributable to such factors as:

(a) Excessive spoilage resulting from inexperienced labor;

(b) Idle time and subnormal production occasioned by testing and changing methods of processing;

(c) Employee training; and

(d) Unfamiliarity or lack of experience with the product, materiels, manufacturing processes, and techniques.

(2) Preparatory costs are costs incurred in preparing to perform the terminated project including costs of initial plant rearrangement and alterations, management and personnel organization, production planning and similar activities, but excluding special machinery and equipment and starting load costs.

(3) If initial costs are claimed and have not been segregated on the institution's books, segregation for settlement purposes shall be made from cost reports and schedules which reflect the high unit cos. incurred during the early stages of the project.

(4) When the settlement proposal is on the inventory basis, initial costs should normally be allocated on the basis of total end items called for by the project immediately prior to termination; however, if the project includes end items of a diverse nature, some other equitable basis may be used, such as machine or labor hours.

(5) When initial costs are included in the settlement proposal as a direct charge, such costs shall not also be included in overhead.

(6) Initial costs attributable to only one project shall not be allocated to other projects.

(d) *Loss of useful value.* Loss of useful value of special tooling and special machinery and equipment is generally allowable if:

(1) Such special tooling, machinery, or equipment is not reasonably capable of use in the other work of the institution;

(2) The interest of the Government is protected by transfer of title or by other means deemed appropriate by the awarding agency and

(3) The loss of useful value as to any one terminated project is limited to that portion of the acquisition cost which bears the same ratio to the total acquisition cost as the terminated portion of the project bears to the entire terminated project and other Government projects for which the special tooling and special machinery and equipment were acquired.

(e) *Rental costs.* Rental costs under unexpired leases are generally allowable where clearly shown to have been reasonably necessary for the performance of the terminated project less the residual value of such leases, if:

(1) The amount of such rental claimed does not exceed the reasonable use value of the property leased for the period of the project and such further period as may be reasonable; and

(2) The institution makes all reasonable efforts to terminate, assign, settle, or otherwise reduce the cost of such lease.

There also may be included the cost of alterations of such leased property, provided such alterations were necessary for the performance of the project, and of reasonable restoration required by the provisions of the lease.

(f) *Settlement expenses.* Settlement expenses including the following are generally allowable:

(1) Accounting, legal, clerical, and similar costs reasonably necessary for—

(a) The preparation and presentation to awarding agency of settlement claims and supporting data with respect to the terminated portion of the project, and

(b) The termination and settlement of subcontracts; and

(2) Reasonable costs for the storage, transportation, protection, and disposition of property acquired or produced for the project.

(g) *Subcontractor claims.* Subcontractor claims, including the allocable portion of claims which are common to the project and to other work of the institution are generally allowable.

43. *Trade, Business, Technical, and Professional Activity Costs*—(a) *Membership.* This category includes costs of memberships in trade, business, technical, and professional organizations. Such costs are allowable.

(b) *Subscriptions.* This item includes cost of subscriptions to trade, business, professional, or technical periodicals. Such costs are allowable.

(c) *Meetings and conferences.* This item includes costs of meals, transportation, rental of facilities for meetings, and costs incidental thereto, when the primary purpose of the incurrence of such costs is the dissemination of technical information or stimulation of production. Such costs are allowable.

44. *Training and educational costs.* (a) The costs of training courses taken by a bona fide employee to acquire basic skills which he should bring to the job or to qualify a person for duties other than those related to an institution's goals are unallowable.

(b) Costs of on-the-job training and part-time education, at an undergraduate or post-graduate college level, related to the job requirements of bona fide employees, identified in (1) through (5) below, are allowable.

(1) Training materiels;

(2) Textbooks;

(3) Fees charged by the educational institution;

(4) Tuition charged by the educational institution, or in lieu of tuition, instructors' salaries and the related share of indirect cost of the educational institution to the extent that the sum thereof is not in excess of the tuition which would have been paid to the participating educational institution; and

(5) Straight-time compensation of each employee for time spent attending classes during working hours not in excess of 156 hours per year where circumstances do not permit the operation of classes or attendance at classes after regular working hours.

(c) Costs of tuition, fees, training materiels and textbooks (but not subsistence, salary, or any other emoluments) in connection with full time scientific and medical education at a post-graduate (but not undergraduate) college level related to the job requirements of bona fide employees for a total period not to exceed 1 school year for each employee so trained, are allowable when approved in writing by the awarding agency.

(d) Grants to educational or training institutions, including the donation of facilities or other properties, scholarships, or fellowships, are considered contributions and are unallowable.

45. *Transportation costs.* Transportation costs include freight, express, cartage, and postage charges relating either to goods purchased, in process, or delivered. These costs are allowable. When such costs can readily be identified with the items involved, they may be directly costed as transportation costs or added to the cost of such items (see G-22).

Where identification with the materiels received cannot readily be made, inbound transportation costs may be charged to the appropriate indirect cost accounts if the institution follows a consistent, equitable procedure in this respect. Outbound freight, if reimbursable under the terms of the grant or contract, shall be treated as a direct cost.

46. *Travel costs.* (a) Travel costs include costs of transportation, lodging, subsistence, and incidental expenses, incurred by institution personnel in a travel status while on official business.

(b) Travel costs may be based upon actual costs incurred, or on a per diem or mileage basis in lieu of actual costs, or on a combination of the two, provided the method used does not result in an unreasonable charge. The difference in cost between first-class and less than first-class air accommodations is unallowable except when less than first-class air accommodations are not reasonably available to meet necessary mission requirements, such as where less than first-class accommodations would (1) require circuitous routing, (2) require travel during unreasonable hours, (3) greatly increase the duration of the flight, (4) result in additional costs which would offset the transportation savings, or (5) offer accommodations which are not reasonably adequate for the medical needs of the traveler.

(c) Travel costs incurred in the normal course of overall administration of the business are allowable and shall be treated as indirect costs.

(d) Travel costs directly attributable to specific grant or contract performance are allowable and may be charged to the grant or contract in accordance with the principle of direct costing (see section C).

(e) Costs of personnel movement of a special or mass nature are allowable only when authorized or approved in writing by the sponsoring agency.

■

## GRANT PROGRAM REGULATIONS AND PRINCIPLES FOR DETERMINING ALLOWABLE COSTS

No. 181—Pt. III——1

V 38-181 SEP 1973 XUM

Title 45—Public Welfare

CHAPTER II—SOCIAL AND REHABILITATION SERVICE (ASSISTANCE PROGRAMS), DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 201—GRANTS TO STATES FOR PUBLIC ASSISTANCE PROGRAMS

PART 220—SERVICE PROGRAMS FOR FAMILIES AND CHILDREN: TITLE IV PARTS A AND B OF SOCIAL SECURITY ACT

Miscellaneous Amendments

The following amendments relate the grant program regulations in Chapter II to 45 CFR Part 74, which is a new Department of Health, Education, and Welfare (DHEW) regulation published in this issue of the FEDERAL REGISTER. Part 74 provides a regulatory umbrella for DHEW implementation of Office of Management and Budget (OMB) Circular No. A–102, "Uniform Administrative Requirements for Grants-in-Aid to State and Local Governments." Part 74 also established (in Subpart Q) principles for determining allowable costs under DHEW grants to the various types of grantee organizations. The principles have hitherto been published by DHEW only in manual and brochure format.

*Effect on grants to State and local governments.* Part 74 is mandatorily applicable (with certain exceptions) to DHEW grants to State or local governments (as defined in Subpart A of Part 74). For such grants, these amendments add blanket cross-references to those subparts of Part 74 which are mandatorily applicable. However, current regulations pertaining to matching and cost sharing will continue to apply to all programs under Chapter II, and current financial reporting requirements will continue to apply to programs under titles I, IV–A, X, XIV, XVI, and XIX of the Social Security Act.

*Cost principles.* Cross-references to Subpart Q, "Cost Principles," of Part 74 are also added by these amendments, since that subpart is applicable to all DHEW grants.

*Conflicting provisions.* These amendments also revoke or modify, as appropriate, those specific provisions in Chapter II which would have conflicted with Part 74.

*Omission of notice of proposed rulemaking.* Notice of proposed rulemaking and delay in effective date have been omitted as unnecessary in the issuance of these amendments which relate solely to administrative requirements for grants for public assistance and child welfare services programs.

*Opportunity to comment.* Written comments concerning these amendments are invited from interested persons. Comments may be addressed to the Assistant Secretary for Administration and Management, Department of Health, Education, and Welfare, 330 Independence Avenue SW., Washington, D.C. 20201. All comments received will be available for public inspection at Room 4829, 400 Sixth Street SW., Washington, D.C., between the hours of 9 a.m. and 5:30 p.m. weekdays, Federal holidays excepted.

*Effective date.*—The amendments shall become effective on September 19, 1973.

Dated September 7, 1973.

FRANK CARLUCCI,
*Acting Secretary of Health, Education, and Welfare.*

Chapter II of Title 45 of the Code of Federal Regulations is amended as set forth below:

1. Section 201.5 of Part 201 is amended by adding a new paragraph (e) as follows:

**§ 201.5 Grants.**

* * * * *

(e) *General administrative requirements.* With the following exceptions, the provisions of Part 74 of this title, establishing uniform administrative requirements and cost principles, shall apply to all grants made to States under this part:

45 CFR PART 74

Subpart G Matching and Cost Sharing.
Subpart I Financial Reporting Requirements.

**§ 220.75 [Revoked]**

2. Section 220.75 is revoked.

3. Section 220.79 is amended to read as follows:

**§ 220.79 Refunds.**

Amounts refunded or repaid to the State shall be reported for any necessary adjustments in accordance with § 220.74(c).

**§ 220.81 [Revoked]**

4. Section 220.81 is revoked.

5. Subpart D of Part 220 is amended by adding a new § 220.85, reading as follows:

**§ 220.85 Other administrative requirements.**

The provisions of Part 74 of this title (with the exception of Subpart G, Matching and Cost Sharing), establishing uniform administrative requirements and cost principles, shall apply to all grants made to States under this subpart.

PART 406—TRAINING AND TRAINEESHIPS

PART 408—PROJECT GRANTS FOR REHABILITATION OF THE MENTALLY RETARDED

PART 416—DEVELOPMENTAL DISABILITIES PROGRAM AND GRANTS FOR INITIAL STAFFING OF COMMUNITY MENTAL RETARDATION FACILITIES

Miscellaneous Amendments

The following amendments conform the affected grant program regulations in Chapter IV with 45 CFR Part 74, which is a new Department of Health, Education, and Welfare (DHEW) regulation published in this issue of the FEDERAL REGISTER. Part 74 provides a regulatory umbrella for DHEW implementation of Office of Management and Budget (OMB) Circular No. A–102, "Uniform Administrative Requirements for Grants-in-Aid to State and Local Governments." Part 74 also establishes (in Subpart Q) principles for determining allowable costs under DHEW grants to the various types of grantee organizations. These principles have hitherto been published by DHEW only in manual and brochure format.

*Effect on grants to State and local governments.* Part 74 is mandatorily applicable (with certain exceptions) to DHEW grants to State or local governments (as defined in Subpart A of Part 74). For such grants, these amendments add blanket cross-references to those subparts of Part 74 which are mandatorily applicable. However, current regulations pertaining to matching and cost sharing will continue to apply in formula grant programs.

*Effect on grants to other organizations.* Those subparts of Part 74 which are derived from OMB Circular No. A–102 have been designed so that, where determined to be appropriate, they may be made applicable to DHEW grants to organizations which are not State or local governments. The following subparts of Part 74 have been determined to be appropriate for application to such grants under this Chapter IV and are specifically made so applicable by these amendments:

45 CFR PART 74

Subpart
A General.
B Cash Depositories.
C Bonding and Insurance.
D Retention and Custodial Requirements for Records.
F Grant-Related Income.
G Matching and Cost Sharing.
H Standards for Grantee Financial Management Systems.
K Grant Payment Requirements.
M Grant Closeout, Suspension, and Termination.
O Property.

*Cost principles.* Cross-references to Subpart Q, "Cost Principles" of Part 74 are also added by these amendments, since that subpart is applicable to all DHEW grants.

*Conflicting provisions.* These amendments also revoke or modify, as appropriate, those specific provisions in Chapter IV which would have conflicted with Part 74.

*Omission of notice of proposed rulemaking.* Notice of proposed rulemaking and delay in effective date have been omitted as unnecessary in the issuance of these amendments which relate solely to grants for rehabilitation and developmental disabilities programs.

*Opportunity to comment.* Written comments concerning these amendments are invited from interested persons. Comments may be addressed to the Assistant Secretary for Administration and Management, Department of Health, Education, and Welfare, 330 Independence Avenue SW., Washington, D.C. 20201. All comments received will be available for public inspection at room 4829, 400 Sixth Street SW., Washington, D.C., between the hours of 9 a.m. and 5:30 p.m. weekdays, Federal holidays excepted.

*Effective date.*—These amendments shall become effective September 19, 1973.

Dated September 7, 1973.

FRANK CARLUCCI,
*Acting Secretary of Health, Education, and Welfare.*

Chapter IV of Title 45 of the Code of Federal Regulations is amended as set forth below:

1. Subpart C, of Part 401, is amended by adding a new § 401.69, reading as follows:

**§ 401.69 General administrative requirements.**

The provisions of Part 74 of this title (with the exception of Subpart G, Matching and Cost Sharing) establishing uniform administrative requirements and cost principles, shall apply to all grants made to States under this part.

**§§ 403.9, 403.29, 403.49, 404.48, 404.60, 404.93, 405.19, 406.19, 406.51 [Revised]**

2. Sections 403.9, 403.29, 403.49, 404.48, 404.60, 404.93, 405.19, 406.19, and 406.51 are revised to read as follows:

*Termination*

(a) *Termination for cause.* The Administrator may terminate any grant in whole, or in part, at any time before the date of completion whenever it is determined that the grantee has materially failed to comply with the terms and conditions of the grant. The Administrator shall promptly notify the grantee in writing of the determination and the reasons for the termination, together with the effective date. Payments made to grantees or recoveries by the Administrator under grants terminated for cause shall be in accordance with the legal rights and obligations of the parties.

(b) *Termination on other grounds.*

(1) Except as provided in paragraph (a) of this section, grants may be terminated in whole or in part as follows:

(i) By the Administrator, with the consent of the grantee, in which case the two parties shall agree upon the termination conditions, including the effective date, and in the case of partial terminations, the portion to be terminated, or

(ii) By the grantee, upon written notification to the Administrator, setting forth the reasons for such termination, the effective date, and in the case of partial terminations, the portion to be terminated.

(2) When a grant is terminated pursuant to paragraph (b)(1) of this section, the grantee shall not incur new obligations for the terminated portion after the effective date, and shall cancel as many outstanding obligations as possible. The Administrator shall allow full credit to the grantee for the Federal share of the noncancellable obligations properly incurred by the grantee prior to termination.

3. Section 401.77(b) is revised to read as follows:

**§ 401.77 Purchase of goods, facilities, or services from other agencies of the State.**

* * * * *

(b) Federal financial participation will be available in expenditures under the State plan for payment of costs of other public agencies pursuant to the principles and procedures prescribed by Subpart Q of Part 74 of this title.

---

4. Subpart A of Part 403 is amended by adding a new § 403.16, reading as follows:

**§ 403.16 Other administrative requirements.**

The provisions of Part 74 of this title, establishing uniform administrative requirements and cost principles, shall apply to all grants under this subpart to State and local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to grants to all other grantee organizations under this subpart:

45 CFR PART 74

Subpart
A General.
B Cash Depositories
C Bonding and Insurance.
D Retention and Custodial Requirements for Records.
F Grant-Related Income.
G Matching and Cost Sharing.
H Standards for Grantee Financial Management Systems.
K Grant Payment Requirements.
M Grant Closeout, Suspension, and Termination.
O Property.
Q Cost Principles.

5. Subpart B of Part 403 is amended by adding a new § 403.33, reading as follows:

**§ 403.33 Other administrative requirements.**

The provisions of Part 74 of this title, establishing uniform administrative requirements and cost principles shall apply to all grants under this subpart to State and local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to grants to all other grantee organizations under this subpart:

45 CFR PART 74

Subpart
A General.
B Cash Depositories.
C Bonding and Insurance.
D Retention and Custodial Requirements for Records.
F Grant-Related Income.
G Matching and Cost Sharing.
H Standards for Grantee Financial Management Systems.
K Grant Payment Requirements.
M Grant Closeout, Suspension, and Termination.
O Property.
Q Cost Principles.

6. Subpart C of Part 403 is amended by adding a new § 403.50, reading as follows:

**§ 403.50 Other administrative requirements.**

The provisions of Part 74 of this title, establishing uniform administrative requirements and cost principles, shall apply to all grants under this subpart to State and local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to grants to all other grantee organizations under this subpart:

45 CFR PART 74

Subpart
A General.
B Cash Depositories.
C Bonding and Insurance.
D Retention and Custodial Requirements for Records.
F Grant-Related Income.
G Matching and Cost Sharing.
H Standards for Grantee Financial Management Systems.
K Grant Payment Requirements.
M Grant Closeout, Suspension, and Termination.
O Property.
Q Cost Principles.

7. Subpart A of Part 404 is amended by adding a new § 404.6, reading as follows:

**§ 404.6 Other administrative requirements.**

The provisions of Part 74 of this title, establishing uniform administrative requirements and cost principles, shall apply to all grants under this part to State and local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of that Part 74 shall also apply to grants to all other grantee organizations under this part:

45 CFR PART 74

Subpart
A General.
B Cash Depositories.
C Bonding and Insurance.
D Retention and Custodial Requirements for Records.
F Grant-Related Income.
G Matching and Cost Sharing.
H Standards for Grantee Financial Management Systems.
K Grant Payment Requirements.
M Grant Closeout, Suspension, and Termination.
O Property.
Q Cost Principles.

**§ 404.22 [Amended] and § 404.28 [Revoked]**

8. Sections 404.22(c), 404.22(k)(2)(ii), and 404.28 are revoked.

V38-181
SEP 19 73
XUM

9. Subpart B of Part 405 is amended by adding a new § 405.9, reading as follows:

**§ 405.9 Other administrative requirements.**

The provisions of Part 74 of this title, establishing uniform administrative requirements and cost principles, shall apply to all grants under this subpart to State and local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to grants to all other grantee organizations under this subpart:

45 CFR PART 74

Subpart
A General.
B Cash Depositories.
C Bonding and Insurance.
D Retention and Custodial Requirements for Records.
F Grant-Related Income.
G Matching and Cost Sharing.
H Standards for Grantee Financial Management Systems.
K Grant Payment Requirements.
M Grant Closeout, Suspension, and Termination.
O Property.
Q Cost Principles.

10. Subpart A of Part 406 is amended by adding a new § 406.5, reading as follows:

**§ 406.5 Other administrative requirements.**

The provisions of Part 74 of this title, establishing uniform administrative requirements and cost principles, shall apply to all grants under this part to State and local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to grants to all other grantee organizations under this part.

45 CFR PART 74

Subpart
A General.
B Cash Depositories.
C Bonding and Insurance.
D Retention and Custodial Requirements for Records.
F Grant-Related Income.
G Matching and Cost Sharing.
H Standards for Grantee Financial Management Systems.
K Grant Payment Requirements.
M Grant Closeout, Suspension, and Termination.
O Property.
Q Cost Principles.

11. Part 408 is amended by revoking § 408.10 and by adding a new § 408.16, reading as follows:

**§ 408.16 Other administrative requirements.**

The provisions of Part 74 of this title, establishing uniform administrative requirements and cost principles, shall apply to all grants under this part to State and local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to grants to all other grantee organizations under this part:

45 CFR PART 74

Subpart
A General.
B Cash Depositories.
C Bonding and Insurance.
D Retention and Custodial Requirements for Records.
F Grant-Related Income.
G Matching and Cost Sharing.
H Standards for Grantee Financial Management Systems.
K Grant Payment Requirements.
M Grant Closeout, Suspension, and Termination.
O Property.
Q Cost Principles.

**§ 416.15 [Amended]**

12. In § 416.15(b), the words "as specified in § 416.38" are revoked.

**§ 416.16 [Revoked]**

13. Section 416.16 is revoked.

14. Section 416.25 is revised to read as follows:

**§ 416.25 Methods of administration.**

(a) *General.* The State plan shall provide for such methods of administration as are necessary for the proper and efficient operation of the plan. Such methods shall include provision for informing the general public in the State of the kinds and locations of services and facilities which are available under the State plan.

(b) *Other administrative requirements.* The provisions of Part 74 of this title (with the exception of Subpart G, Matching and Cost Sharing) establishing uniform administrative requirements and cost principles, shall apply to all grants made to States under this subpart.

15. Section 416.38 is revised to read as follows:

**§ 416.38 Reports.**

The State plan shall provide that the State agency or agencies will make such reports in such form and containing such information as the Administrator may require, and will keep such records and afford such access thereto as the Administrator finds necessary to assure the correctness and verification of such reports. All reports shall be transmitted by the State Council to the Regional Commissioner.

**§§ 416.74 and 416.75 [Amended]**

16. Sections 416.74 and 416.75 are amended by deleting the parenthetical references.

17. Section 416.99 is revised to read as follows:

**§ 416.99 Other administrative requirements.**

The provisions of Part 74 of this title, establishing uniform administrative requirements and cost principles, shall apply to all grants under this subpart to State and local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to grants to all other grantee organizations under this subpart:

45 CFR PART 74

Subpart
A General.
B Cash Depositories.
C Bonding and Insurance.
D Retention and Custodial Requirement for Records.
F Grant-Related Income.
G Matching and Cost Sharing.
H Standards for Grantee Financial Management Systems.
K Grant Payment Requirements.
M Grant Closeout, Suspension, and Termination.
O Property.
Q Cost Principles.

ATOMIC ENERGY COMMISSION—Simplification of definition of "calendar quarter" 22467; 8-21-73

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

# List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

## Title 3—The President

PROCLAMATION 4245

## National Employ the Handicapped Week, 1973

*By the President of the United States of America*

### A Proclamation

This country was founded upon a promise made to all of its people: that our government would work to assure every citizen a fair and equal start in the race of life. Implicit in this promise is the concept that a person has a right to compete for any job he is able to perform.

This promise has been kept for a great many of our people, but not for all. Too many handicapped persons—particularly young disabled veterans—are unable to find work.

Perhaps the greatest difficulty a handicapped person faces is not his own disability, but rather the attitudes of society concerning that disability. Yet handicapped people are able to perform a wide range of jobs with great skill and efficiency. The employer who hires the handicapped is not only helping them; he is also helping himself and his country.

Let us all work therefore to make good on the promise America has always held out to its people—allowing each person who is willing to work and who is qualified to work a fair chance to work.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, in accordance with a joint resolution of the Congress approved August 11, 1945, as amended (36 U.S.C. 155), do hereby proclaim the week of October 7, 1973, as National Employ the Handicapped Week.

I urge the Nation's Governors, mayors, and all other public officials, as well as leaders in every area of American life, to join with the handicapped themselves in making this observance a time of new awakening in our country to the value and the importance of employing handicapped men and women.

IN WITNESS WHEREOF, I have hereunto set my hand this eighteenth day of September, in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred ninety-eighth.

Richard Nixon

# Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

## Title 5—Administrative Personnel

### CHAPTER I—CIVIL SERVICE COMMISSION

### PART 213—EXCEPTED SERVICE

#### Office of Emergency Preparedness; Correction

In the FEDERAL REGISTER of July 24, 1973, FR Doc. 73-15157, appearing on page 19801, paragraph (n) (2) was added to § 213.3326 in error; it should have appeared as a title change to the position listed in § 213.3326(n)(1). This section should read as set out below.

**§ 213.3326 Office of Emergency Preparedness.**

* * * * *

(n) *Government Preparedness Office.*

(1) Assistant Director.

## Title 7—Agriculture

### CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Reg. 450]

### PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

#### Limitation of Handling

This regulation fixes the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period September 21–27, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 908. The quantity of Valencia oranges so fixed was arrived at after consideration of the total available supply of Valencia oranges, the quantity of Valencia oranges currently available for market, the fresh market demand for Valencia oranges, Valencia orange prices, and the relationship of season average returns to the parity price for Valencia oranges.

**§ 908.750 Valencia Orange Regulation 450.**

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the respective quantities of Valencia oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Valencia orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Valencia oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Valencia oranges continues to be generally strong. Prices f.o.b. averaged $3.52 per carton on a sales volume of 510 carlots during the week ended September 13, 1973, compared with $3.35 per carton on sales of 459 carlots a week earlier. Track and rolling supplies at 258 cars were up 10 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Valencia oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time

V 38-182 SEP 20 73 XUM

intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on September 18, 1973.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period September 21, 1973, through September 27, 1973, are hereby fixed as follows:

(i) District 1: Unlimited;

(ii) District 2: 650,000 cartons;

(iii) District 3: Unlimited.

(2) As used in this section, "handled", "District 1", "District 2", "District 3", and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

Dated September 19, 1973.

CHARLES R. BRADER,
*Director, Fruit and Vegetable Division Agricultural Marketing Service.*

## CHAPTER XI—AGRICULTURAL MARKETING SERVICE, (MARKETING AGREEMENTS AND ORDERS; MISCELLANEOUS COMMODITIES), DEPARTMENT OF AGRICULTURE

[Amdt. 1]

## PART 1207—POTATO RESEARCH AND PROMOTION PLAN

### Subpart—Rules and Regulations

REPRESENTATION ON NATIONAL POTATO PROMOTION BOARD

Notice was published in the August 9, 1973, FEDERAL REGISTER (38 FR 21499) regarding a proposal to amend the base period to be used in determining representation on the National Potato Promotion Board. The proposed amendment was unanimously recommended by the National Potato Promotion Board, established pursuant to the Potato Research and Promotion Plan (7 CFR Part 1207). The Plan is effective under the Potato Research and Promotion Act (7 U.S.C. 2611–2627).

The notice afforded interested persons an opportunity to file written data, views, or arguments not later than September 10, 1973. None was received.

The National Potato Promotion Board at its 1973 annual meeting unanimously recommended that each future Board's membership be determined on the basis of average potato production during the three preceding years, rather than the one preceding year as is currently used.

The one-year basis for representation results in a Board composition which reflects the relative importance of each State in total U.S. potato production the preceding year. However, this basis can result in significant variation in representation from year to year. For example, because of an unusually sharp drop in production in 1972 mainly due to extreme weather, six States lost a member on the 1973 Board. It is anticipated that some of these States will regain these membership losses in 1974. The effect of such short term variation is a decline in continuity of membership which may be detrimental to operations of the Board. Under the amended base period, membership on the 1974 Board will reflect 1971–73 average production, the 1975 Board will be based upon 1972–74 production, and so on.

The Board's office has recently been relocated and Section 1207.501 is being amended to reflect the Board's current address.

After consideration of all relevant matters, including the proposal set forth in the notice which was recommended by the National Potato Promotion Board, it is hereby found that Subpart—Rules and Regulations (37 F.R. 17379) should be amended as hereinafter set forth:

1. § 1207.501 *Communications* is revised to read as follows:

**§ 1207.501 Communications.**

All communications in connection with the Potato Research and Promotion Plan shall be addressed to: National Potato Promotion Board, 1385 South Colorado Boulevard, Suite 512, Denver, CO 80222.

2. A new § 1207.550 is added to read as follows:

**§ 1207.550 Determination of membership.**

Pursuant to § 1207.320 and the recommendation of the National Potato Promotion Board, annual membership on the Board shall be determined on the basis of the average potato production of the three preceding years in each of the 48 contiguous States as set forth in the Crop Production Annual Summary Reports issued by the Crop Reporting Board of the U.S. Department of Agriculture.

(7 U.S.C. 2611–2627; 84 Stat. 2041.)

Dated September 17, 1973, to become effective October 31, 1973.

CHARLES R. BRADER,
*Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[FR Doc.73-20050 Filed 9-19-73;8:45 am]

## Title 8—Aliens and Nationality

## CHAPTER I—IMMIGRATION AND NATURALIZATION SERVICE, DEPARTMENT OF JUSTICE

## PART 214—NONIMMIGRANT CLASSES

### Nonimmigrant Transits

*Correction*

In FR Doc. 73-19251, appearing on page 24891 in the issue of Tuesday, September 11, 1973, make the following changes:

1. In § 214.2, in the twenty-second line of paragraph (c)(1), delete the words "time for connecting".

2. Following § 214.2(c)(1) there is an undesignated paragraph beginning "Except for transit * * *". The text of this undesignated paragraph should be "run in" to paragraph (c)(1).

## Title 10—Atomic Energy

## CHAPTER I—ATOMIC ENERGY COMMISSION

## PART 50—LICENSING OF PRODUCTION AND UTILIZATION FACILITIES

## PART 55—OPERATORS' LICENSES

### Requalification Requirements for Operating Personnel of Production and Utilization Facilities; Correction

In FR Doc. 73-17000 appearing at page 22221 in the issue of Friday, August 17, 1973, the following changes should be made:

1. In the second column on page 22221, the seventh line in paragraph 1. should read "requirements of Appendix A of Part 55."

2. In the second column on page 22222, the eighth line in § 50.54(i-1) should read "the licensee shall not, except as specifical-".

3. In the second column on page 22223:

a. The second line in paragraph 3.e. should read "requirements of paragraphs 3a and 3b if the".

b. The sixth line in paragraph 5. should read "examinations administered, the answers given by".

Dated at Washington, D.C. this 14th day of September 1973.

For the Atomic Energy Commission.

GORDON M. GRANT,
*Acting Secretary of the Commission.*

[FR Doc.73-20035 Filed 9-19-73;8:45 am]

## Title 12—Banks and Banking

## CHAPTER III—FEDERAL DEPOSIT INSURANCE CORPORATION

### SUBCHAPTER B—REGULATIONS AND STATEMENTS OF GENERAL POLICY

## PART 329—INTEREST ON DEPOSITS

### "Noninsured" Banks in Massachusetts

1. Under the authority contained in sections 9 and 18(g) of the Federal Deposit Insurance Act, the Board of Directors of the Federal Deposit Insurance Corporation is amending Part 329 of the Corporation's rules and regulations pertaining to the advertisement and payment of interest or dividends on deposits in insured nonmember banks (12 C.F.R. Part 329). The amendment extends the provisions of Part 329 to banks in Massachusetts (including mutual savings banks) that are not insured by the Federal Deposit Insurance Corporation.

2. Section 329.0 is amended to read as follows:

**§ 329.0 Scope.**

The provisions of this Part 329 apply to the advertisement and payment of interest or dividends on deposits in insured nonmember banks.[1] The provisions of this Part 329 do not apply to any deposit in a bank outside of, or payable only at a bank's office which is located outside of, the States of the United States and the District of Columbia. Except as provided in §§ 329.7, 329.8, and 329.10, the provisions of this Part 329 do not apply to mutual savings banks or to guaranty savings banks operating in the State of New Hampshire so long as said guaranty savings banks operate substantially under and pursuant to the laws of the State of New Hampshire pertaining to mutual savings banks and do not engage in commercial banking.

(Section 9, 18(g); 64 Stat. 881–82, Pub. L. No. 93–100, §§ 1 and 3 (August 16, 1973); 12 U.S.C. 1819, 1828(g).)

3. The requirements of sections 553(b) and (d) of Title 5, United States Code, and §§ 302.1, 302.2 and 302.5 of the rules and regulations of the Federal Deposit Insurance Corporation, with respect to notice, public participation and deferred effective date were not followed in connection with this amendment because the Board found that the public interest compelled it to make the action effective as soon as possible.

4. *Effective date.*—This amendment is effective Sept. 20, 1973.

By order of the Board of Directors, September 14, 1973.

FEDERAL DEPOSIT INSURANCE CORPORATION,
[SEAL] ALAN R. MILLER,
*Executive Secretary.*

[FR Doc.73-20074 Filed 9-19-73;8:45 am]

[1] Wherever the terms "insured nonmember bank" or "insured nonmember mutual savings bank" appear in this Part 329, they shall be deemed to include banks and mutual savings banks, respectively, in Massachusetts that are not insured by the Federal Deposit Insurance Corporation.

## CHAPTER V—FEDERAL HOME LOAN BANK BOARD

### SUBCHAPTER A—GENERAL

[No. 73-1317]

## PART 506—BONDS AND DEBENTURES

## PART 506a—BOOK-ENTRY PROCEDURE FOR FEDERAL HOME LOAN BANK SECURITIES

### Book-Entry Procedure for Federal Home Loan Bank Securities

SEPTEMBER 14, 1973.

The Federal Home Loan Bank Board in Resolution No. 73-521, dated April 10, 1973, proposed to amend the General Regulations of the Federal Home Loan Bank Board (12 CFR Subchapter A) by amending Part 506 thereof (12 CFR Part 506), and by adding a new Part 506a thereto (12 CFR Part 506a), for the purpose of providing appropriate regulations for the issuance of consolidated Federal Home Loan Bank bonds or notes in bookentry form. Notice of such proposed rulemaking was duly published in the FEDERAL REGISTER on May 3, 1973, as FR Doc. No. 73-8749 (38 FR 10969), with an invitation for interested persons to submit written comments by May 18, 1973.

On the basis of its consideration of all relevant material presented by interested persons and otherwise available, the Board considers it desirable to adopt the proposed amendments with the changes discussed herein.

The first sentence of paragraphs (a) and (b) of proposed § 506a.4 is revised by changing the phrase therein, "Fiscal Agent of the Federal Home Loan Banks", to read, "Fiscal Agent of the United States". This change is technical and does not affect the substance of the section.

Accordingly, the Federal Home Loan Bank Board hereby amends said Subchapter A of its General Regulations as proposed in said Resolution No. 73-521, subject to the following changes, effective September 14, 1973:

1. In the first sentence of paragraph (a) of § 506a.4, the phrase "Fiscal Agent of the Federal Home Loan Banks" is changed to read "Fiscal Agent of the United States".

2. In the first sentence of paragraph (b) of § 506a.4, the phrase "Fiscal Agent of the Federal Home Loan Banks" is changed to read "Fiscal Agent of the United States".

Since affording notice and public procedure on the above amendment would delay it from becoming effective for a period of time and since it is in the public interest that the authority contained in the amendment become effective as soon as possible, the Board hereby finds that notice and public procedure on said amendment are contrary to the public interest under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b); and since the amendment relieves restriction, publication for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date of the amendment is unnecessary; and the Board hereby provides that the amendment shall become effective as hereinbefore set forth.

(Secs. 11, 17, 47 Stat. 733, 736, as amended (12 U.S.C. 1431, 1437); Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1947 Supp.)

By the Federal Home Loan Bank Board.

[SEAL] EUGENE M. HERRIN,
*Assistant Secretary.*

**§ 506.3 Transactions in consolidated bonds (transfers, exchanges, redemptions, etc.).**

The general regulations of the Treasury Department now or hereafter in force governing transactions in United States securities, except subpart O of Treasury Department Circular No. 300 (31 CFR part 306, as amended) regarding book-entry procedure, are hereby adopted, so far as applicable and as necessarily modified to relate to consolidated Federal home loan bank bonds, as the regulations of the Board for similar transactions in consolidated Federal home loan bank bonds. Book-entry procedure for consolidated Federal home loan bank bonds is contained in part 506a of this subchapter.

## PART 506a—BOOK-ENTRY PROCEDURE FOR FEDERAL HOME LOAN BANK SECURITIES

Sec.
506a.1 Definition of terms.
506a.2 Authority of Reserve banks.
506a.3 Scope and effect of book-entry procedure.
506a.4 Transfer or pledge.
506a.5 Withdrawal of Federal home loan bank securities.
506a.6 Delivery of Federal home loan bank securities.
506a.7 Registered bonds and notes.
506a.8 Servicing book-entry Federal home loan bank securities; payment of interest; payment at maturity or upon call.
506a.9 Obligation of United States with respect to Federal home loan bank securities.

AUTHORITY.—Sec. 11, 47 Stat. 733, as amended; sec. 17, 47 Stat. 736, as amended, 12 U.S.C. 1431, 1437; Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1947 Supp.

**§ 506a.1 Definition of terms.**

In this part, unless the context otherwise requires or indicates:

(a) "Reserve bank" means the Federal Reserve Bank of New York (and any other Federal Reserve bank which agrees to issue Federal home loan bank securities in book-entry form) acting as fiscal agent of the Federal home loan banks and, when indicated, acting in its individual capacity.

(b) "Federal home loan bank security" means a consolidated bond or consolidated note of the Federal home loan banks issued by the Federal Home Loan Bank Board under the Federal Home Loan Bank Act, as amended, in the form of a definitive Federal home loan bank security or a book-entry Federal home loan bank security.[1]

[1] Consolidated bonds issued with maturities of 1 year or less may be designated consolidated notes.

V 38 1 82 SEP 20 73 XUM

(c) "Definitive Federal home loan bank security" means a Federal home loan bank security in engraved or printed form.

(d) "Book-entry Federal home loan bank security" means a Federal home loan bank security in the form of an entry made as prescribed in this part on the records of a Reserve bank.

(e) "Pledge" includes a pledge of, or any other security interest in, Federal home loan bank securities as collateral for loans or advances or to secure deposits of public monies or the performance of an obligation.

(f) "Date of call" is the date fixed in the official notice of call published in the FEDERAL REGISTER on which the Federal home loan banks will make payment of the security before maturity in accordance with its terms.

(g) "Member bank" means any national bank, State bank or bank or trust company which is a member of a Reserve bank.

**§ 506a.2 Authority of Reserve banks.**

Each Reserve bank is hereby authorized, in accordance with the provisions of this part, to (a) issue book-entry Federal home loan bank securities by means of entries on its records which shall include the name of the depositor, the amount, the series, and maturity date; (b) effect conversions between book-entry Federal home loan bank securities and definitive Federal home loan bank securities; (c) otherwise service and maintain book-entry Federal home loan bank securities; and (d) issue a confirmation of transaction in the form of a written advice (serially numbered or otherwise) which specifies the amount and description of any securities, that is, series and maturity date, sold or transferred and the date of the transaction.

**§ 506a.3 Scope and effect of book-entry procedure.**

(a) A Reserve bank as fiscal agent of the Federal home loan banks may apply the book-entry procedure provided for in this part to any Federal home loan bank securities which have been or are hereafter deposited for any purpose in accounts with it in its individual capacity under terms and conditions which indicate that the Reserve bank will continue to maintain such deposit accounts in its individual capacity, notwithstanding application of the book-entry procedure to such securities. This paragraph is applicable, but not limited, to such securities deposited:

(1) As collateral pledged to a Reserve bank (in its individual capacity) for advances by it;

(2) By a member bank for its sole account;

(3) By a member bank held for the account of its customers;

(4) In connection with deposits in a member bank of funds of States, municipalities, or other political subdivisions; or

(5) In connection with the performance of an obligation or duty under Federal, State, municipal, or local law, or judgments or decrees of courts.

The application of the book-entry procedure under this paragraph shall not derogate from or adversely affect the relationships that would otherwise exist between a Reserve bank in its individual capacity and its depositors concerning any deposits under this paragraph. Whenever the book-entry procedure is applied to such Federal home loan bank securities, the Reserve bank is authorized to take all action necessary in respect of the book-entry procedure to enable such Reserve bank in its individual capacity to perform its obligations as depositary with respect to such Federal home loan bank securities.

(b) A Reserve bank as fiscal agent of the Federal home loan banks may apply the book-entry procedure to Federal home loan bank securities deposited as collateral pledged to the United States under Treasury Department Circulars Nos. 92 and 176, both as revised and amended, and may apply the book-entry procedure, with the approval of the Secretary of the Treasury, to any other Federal home loan bank securities deposited with a Reserve bank as fiscal agent of the United States.

(c) Any person having an interest in Federal home loan bank securities which are deposited with a Reserve bank (in either its individual capacity or as fiscal agent of the United States) for any purpose shall be deemed to have consented to their conversion to book-entry Federal home loan bank securities pursuant to the provisions of this part, and in the manner and under the procedures prescribed by the Reserve bank.

(d) No deposits shall be accepted under this section on or after the date of maturity or call of the securities.

**§ 506a.4 Transfer or pledge.**

(a) A transfer or a pledge of book-entry Federal home loan bank securities to a Reserve bank (in its individual capacity or as fiscal agent of the United States), or to the United States, or to any transferee or pledgee eligible to maintain an appropriate book-entry account in its name with a Reserve bank under this part, is effected and perfected, notwithstanding any provision of law to the contrary, by a Reserve bank making an appropriate entry in its records of the securities transferred or pledged. The making of such an entry in the records of a Reserve bank shall (1) have the effect of a delivery in bearer form of definitive Federal home loan bank securities; (2) have the effect of a taking of delivery by the transferee or pledgee; (3) constitute the transferee or pledgee a holder; and (4) if a pledge, effect a perfected security interest therein in favor of the pledgee. A transfer or pledge of book-entry Federal home loan bank securities effected under this paragraph shall have priority over any transfer, pledge, or other interest, theretofore or thereafter effected or perfected under paragraph (b) of this section or in any other manner.

(b) A transfer or a pledge of transferable Federal home loan bank securities, or any interest therein, which is maintained by a Reserve bank (in its individual capacity or as fiscal agent of the United States) in a book-entry account under this part, including securities in book-entry form under § 506a.3(a)(3) of the "General Regulations" of the Federal Home Loan Bank Board, is effected, and a pledge is perfected, by any means that would be effective under applicable law to effect a transfer or to effect and perfect a pledge of the Federal home loan bank securities, or any interest therein, if the securities were maintained by the Reserve bank in bearer definitive form. For purposes of transfer or pledge hereunder, book-entry Federal home loan bank securities maintained by a Reserve bank shall, notwithstanding any provision of law to the contrary, be deemed to be maintained in bearer definitive form. A Reserve bank maintaining book-entry Federal home loan bank securities either in its individual capacity or as fiscal agent of the United States is not a bailee for purposes of notification of pledges of those securities under this paragraph, or a third person in possession for purposes of acknowledgment of transfers thereof under this paragraph. Where transferable Federal home loan bank securities are recorded on the books of a depositary (a bank, banking institution, financial firm, or similar party, which regularly accepts in the course of its business Federal home loan bank securities as a custodial service for customers, and maintains accounts in the name of such customers reflecting ownership of or interest in such securities) for account of the pledgor or transferor thereof and such securities are on deposit with a Reserve bank in a book-entry account hereunder, such depositary shall, for purposes of perfecting a pledge of such securities or effecting delivery of such securities to a purchaser under applicable provisions of law, be the bailee to which notification of the pledge of the securities may be given or the third person in possession from which acknowledgment of the holding of the securities for the purchaser may be obtained. A Reserve bank will not accept notice or advice of a transfer or pledge effected or perfected under this paragraph, and any such notice or advice shall have no effect. A Reserve bank may continue to deal with its depositor in accordance with the provisions of this part, notwithstanding any transfer or pledge effected or perfected under this paragraph.

(c) No filing or recording with a public recording office or officer shall be necessary or effective with respect to any transfer or pledge of book-entry Federal home loan bank securities or any interest therein.

(d) A Reserve bank shall, upon receipt of appropriate instructions, convert book-entry Federal home loan bank securities into definitive Federal home loan bank securities and deliver them in accordance with such instructions; no such conversion shall affect existing interests

in such Federal home loan bank securities.

(e) A transfer of book-entry Federal home loan bank securities within a Reserve bank shall be made in accordance with procedures established by the Reserve bank not inconsistent with this part. The transfer of book-entry Federal home loan bank securities by a Reserve bank may be made through a telegraphic transfer procedure.

(f) All requests for transfer or withdrawal must be made prior to the maturity or date of call of the securities.

**§ 506a.5 Withdrawal of Federal home loan bank securities.**

(a) A depositor of book-entry Federal home loan bank securities may withdraw them from a Reserve bank by requesting delivery of like definitive Federal home loan bank securities to itself or on its order to a transferee.

(b) Federal home loan bank securities which are actually to be delivered upon withdrawal may be issued in bearer form only until the date of the first issue of such securities in registered form; thereafter, all Federal home loan bank securities, regardless of form of original issue, which are actually to be delivered upon withdrawal may be issued in bearer or registered form.

**§ 506a.6 Delivery of Federal home loan bank securities.**

A Reserve bank which has received Federal home loan bank securities and effected pledges, made entries regarding them, or transferred or delivered them according to the instructions of its depositor is not liable for conversion or for participation in breach of fiduciary duty even though the depositor had no right to dispose of or take other action in respect of the securities. A Reserve bank shall be fully discharged of its obligations under this part by the delivery of Federal home loan bank securites in definitive form to its depositor or upon the order of such depositor. Customers of a member bank or other depositary (other than a Reserve bank) may obtain Federal home loan bank securities in definitive form only by causing the depositor of the Reserve bank to order the withdrawal thereof from the Reserve bank.

**§ 506a.7 Registered bonds and notes.**

Registered Federal home loan bank securities deposited with a Reserve bank for any purpose specified in § 506a.3 shall be assigned for conversion to book-entry Federal home loan bank securities. The assignment, which shall be executed in accordance with the provisions of subpart F of 31 CFR part 306, so far as applicable, shall be to "Federal Reserve Bank of _____, as fiscal agent of the Federal home loan banks, for conversion to book-entry Federal home loan bank securities."

**§ 506a.8 Servicing book-entry Federal home loan bank securities; payment of interest; payment at maturity or upon call.**

Interest becoming due on book-entry Federal home loan bank securities shall be charged in the Federal Home Loan Bank Board's symbol account with the Treasurer of the United States on the interest due date and remitted or credited in accordance with the depositor's instructions. Such securities shall be redeemed and charged in the same account on the date of maturity, call or advance refunding, and the redemption proceeds, principal and interest, shall be disposed of in accordance with the depositor's instructions.

**§ 506a.9 Obligation of United States with respect to Federal home loan bank securities.**

Federal home loan bank securities are not obligations of the United States and are not guaranteed by the United States.

**SUBCHAPTER B—FEDERAL HOME LOAN BANK SYSTEM**

[No. 73-1318]

## PART 525—ADVANCES

### Amortization of Advances

SEPTEMBER 14, 1973.

The Federal Home Loan Bank Board considers it desirable to amend § 525.10 of the Regulations for the Federal Home Loan Bank System (12 CFR 525.10) for the purpose of eliminating the provisions therein regarding amortization of advances to members on the security of home mortgages and/or obligations of the United States. Accordingly, on the basis of such consideration, the Board hereby amends said § 525.10 to read as set forth below, effective September 20, 1973.

The present § 525.10 provides, in part, that advances to members on the security of home mortgages and/or obligations of the United States for periods of more than one year shall be made on a monthly or quarterly amortization basis, with interest thereon payable monthly or quarterly, unless prior approval of the Board is obtained to make such advances on a nonamortized basis. The amended regulation deletes such provisions regarding amortization and nonamortization of advances. Therefore, it will no longer be necessary for a Bank to apply to the Board for specific approval to make certain advances on a nonamortized basis. However, the making of such advances must be consistent with such Bank's statement of policy governing the extension of credit to its members, adopted pursuant to the provisions of § 525.2 (12 CFR 525.2).

Since the above amendment relieves restriction, the Board hereby finds that notice and public procedure with respect to said amendment is unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b); and since publication of said amendment for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date of said amendment would in the opinion of the Board likewise be unnecessary for the same reason, the Board hereby provides that said amendment shall become effective as hereinbefore set forth.

**§ 525.10 Terms of advances.**

The Banks may make advances to members on the security of home mortgages and/or obligations of the United States, as provided in section 10 of the act, for periods of not to exceed ten years.

(Secs. 10, 17, 47 Stat. 731, 736, as amended; 12 U.S.C. 1430, 1437. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943-48 Comp., p. 1071.)

By the Federal Home Loan Bank Board.

**SUBCHAPTER D—FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION**

[No. 73-1316]

## PART 563—OPERATIONS

### Nationwide Lending and Participation Loans

SEPTEMBER 14, 1973.

The Federal Home Loan Bank Board, in Resolution No. 73-479, dated March 29, 1973 (38 FR 9153) amended Part 563 of the Rules and Regulations for Insurance of Accounts (12 CFR Part 563) for the purpose of revising the regulatory provisions regarding nationwide lending (12 CFR 563.9) and participation loans (12 CFR 563.9-1).

Section 563.9(e)(2)(i) provides in this part, that "Any insured institution, to the extent permitted by this paragraph * * * may purchase from any approved lender, any whole nationwide loan, * * *" The Board considers it desirable to delete the requirement that whole nationwide loans must be purchased only from "approved lenders." With this amendment, insured institutions will be permitted to purchase whole nationwide loans from anyone. Such institutions have been permitted to do this prior to the amendments in Resolution No. 73-479.

Accordingly, the Federal Home Loan Bank Board hereby amends said § 563.9(e)(2) by revising subdivision (i) thereof to read as set forth below, effective September 20, 1973.

Since the amendment to § 563.9(e)(2)(i) relieves a restriction, the Board hereby finds that notice and public procedure with respect to said amendment is unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b); and since publication of said amendment for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date of said amendment would in the opinion of the Board likewise be unnecessary for the same reason, the Board hereby provides that said amendment shall become effective as hereinbefore set forth.

The text of said § 563.9(e)(2)(i), as amended, is as follows:

**§ 563.9 Nationwide lending.**

* * * * * * *

(e) *Other nationwide lending.* * * *

V 38 I 182 SEP 20 73 XUM

(2) *Investments in nationwide loans.* (i) Any insured institution, to the extent permitted by this paragraph, may make or may purchase any whole nationwide loan, and may participate with only an approved lender or lenders in making any nationwide loan, and may purchase a participation interest in any nationwide loan owned by only an approved lender or lenders. Except in the case of (*a*) a loan originally made in an amount in excess of $500,000, or (*b*) an insured loan or a guaranteed loan, any nationwide loan so invested in shall be serviced by or through a local eligible servicer.

* * * * *

(Secs. 402, 403, 48 Stat. 1256, 1257, as amended; 12 U.S.C. 1725, 1726. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943–48 Comp., p. 1071.)

By the Federal Home Loan Bank Board.

[SEAL] EUGENE M. HERRIN,
*Assistant Secretary.*

## Title 14—Aeronautics and Space

### CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 73-NW-10-AD; Amendment 39-1722]

### PART 39—AIRWORTHINESS DIRECTIVES

#### Boeing Model B-17 F & G

There has been a failure of the lower front spar cap center section on a Boeing B-17G that resulted in partial wing failure. Crack initiation and growth may have been accelerated by fretting caused by relative movement between the spar cap and the terminal plates. Further, there have been indications that the airplane may have been operated at excessive gross weights which would aggravate the problem. Since this condition is likely to exist or develop in other airplanes of the same design, an airworthiness directive is being issued to require inspection of the lower front spar cap center section for cracks and repair as necessary on all B-17F and G airplanes.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of the Federal Aviation Regulations is amended by adding the following new Airworthiness Directive:

BOEING. Applies to all B-17 F & G airplanes certified in all categories.

Compliance required within the next 125 hours' time in service after the effective date of this AD, unless already accomplished within the last 125 hours' time in service, and thereafter at intervals not to exceed 250 hours' time in service from the last inspection.

To detect cracking in the front spar lower cap center section, P/N 753424-2, accomplish the following:

(a) Remove the most inboard bolt from the 8 bolt pattern attaching the front spar center section lower chord P/N 753424-2 to the terminal plates, P/N 56-3852-500 (aft) and 46-3852 (forward), left and right-hand sides. The bolt is approximately 8 inches inboard of the inboard jack pad. Using eddy current inspection procedures, or boroscope methods, inspect the front spar lower chord center section for cracks around the bolt hole in both the forward and aft wall of the tube. Particular attention should be given to the top and bottom portion of the tube. Removal of the bolt may necessitate installation of an access panel in the wing fillet fairing just forward of the front spar. The access panels may be installed using the procedures of FAA Advisory Circular 43.13-2.

(b) If cracks are found, replace the spar cap with a serviceable part of the same part number, or repair in accordance with Army T.O. No. 01-20E-3 or other method approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region.

(c) After repairs per (b) have been accomplished, re-inspect in accordance with (a) at intervals not to exceed 250 hours' time in service.

This Amendment becomes effective September 20, 1973.

This Amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Seattle, Washington, September 12, 1973.

C. B. WALK, JR.,
*Director,*
*Northwest Region.*

## Title 17—Commodity and Securities Exchanges

### CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-10388]

### PART 241—INTERPRETATIVE RELEASES RELATING TO THE SECURITIES EXCHANGE ACT OF 1934 AND GENERAL RULES AND REGULATIONS THEREUNDER

#### Interpretation of Market Identification Requirement of Rule for Reporting of Market Information on Transactions in Listed Securities

The Securities and Exchange Commission has annouced an interpretation of the market designation requirements of Rule 17a-15 [17 CFR 240.17a-15] under the Securities Exchange Act of 1934 (the "Rule").[1] The Rule provides for the reporting of prices and volume of completed transactions in listed securities. Pargaraph (b) of the Rules states that "(e)ach such composite tape or interrogation system, in displaying last sale reports, shall identify the marketplace where such transaction was executed."

The Commission has determined that any interrogation device shall be deemed to comply with the Rule if it is capable of reporting:

1. The last sale in any given security, regardless of the market center in which it takes place and whether or not that market center is identified; *and*

2. The last sale price in each market center in which such security is traded, upon specific inquiry for each such market center's last sale information as to that security.

If interrogation devices are capable of meeting both these requirements, the viewer will be able to see the last sale reported on the consolidated tape and know the current price level, as well as the present trend, if any. In addition, by selectively querying each market, he will be able to see the last price in all of the market centers where that security is traded. Although ideally an interrogation device should be capable of arraying and identifying simultaneously the last sale in each market center for a given security, the use of display units able to provide the same information, albeit in a less convenient manner, would not be inconsistent with the basic objective of the Rule.

(Secs. 10(b), 15(c), 17(a), 23(a), 48 Stat. 891, 895, 897, 901, 49 Stat. 1377, 1379, 52 Stat. 1075, 1076, 78 Stat. 570, 84 Stat. 1653, 15 U.S.C. 78j(b), 78o(c), 78q., 78w.)

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
*Secretary.*

September 12, 1973.

[FR Doc.73-19980 Filed 9-19-73;8:45 am]

[1] Notice of the adoption of Rule 17a-15 was given in Securities Exchange Act Release No. 9850 (November 8, 1972), published in the FEDERAL REGISTER for November 15, 1972 at 37 FR 24173.

## Title 40—Protection of Environment

### CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

### PART 35—STATE AND LOCAL ASSISTANCE

#### Extension of Public Comment Period for Interim State and Local Assistance Grant Regulations

With reference to the publication on June 29, 1973 of 40 CFR Part 35, State and local assistance grant regulations pertaining to water pollution control program grants, the comment period on these interim regulations is hereby extended to September 30, 1973. Interested parties are encouraged to submit written comments to: Director, Grants Administration Division, Environmental Protection Agency, Washington, D.C. 20460.

ROBERT L. SANSOM,
*Assistant Administrator,*
*for Air and Water Programs.*

Dated September 13, 1973.

[FR Doc.73-19975 Filed 9-19-73;8:45 am]

### PART 120—WATER QUALITY STANDARDS

#### Adoption, Identification and Availability of State Standards

Under section 303(a)(1) of the Federal Water Pollution Control Act, as amended (Pub. L. 92-500; 86 Stat. 816)

(the Act), any water quality standards applicable to interstate waters which were adopted by any State and submitted to and approved by, or awaiting approval by the Administrator prior to October 18, 1972, under the previous law will automatically remain in effect unless the Administrator determines by January 18, 1973, that such standards are not consistent with the applicable requirements of the Act as in effect immediately prior to the date of enactment of the 1972 Amendments and notified the State of required changes. If the State fails to adopt such changes within 90 days, the Administrator is required to promulgate water quality standards pursuant to the procedure established by section 303(b) of the Act.

States are also required under section 303(a)(2) of the Act to submit to the Administrator by November 17, 1972, any water quality standards applicable to intrastate waters and adopted pursuant to State law before October 18, 1972. Such standards will also become automatically effective under the Act unless the Administrator determines that the standards are not consistent with applicable requirements of the former law and notifies the State of required changes within 120 days following the date on which the standards are submitted. As with interstate water quality standards, the State has 90 days to adopt the suggested changes after which the Administrator is to proceed to promulgate standards under section 303(b).

On December 29, 1972, the Environmental Protection Agency published in the FEDERAL REGISTER a notice that interstate and intrastate water quality standards had been submitted by the States and were subject to review by the Agency. The public was invited to review the standards which had been submitted, and to provide comments upon such standards to the appropriate Regional Administrator.

On January 18, 1973, the Regional Administrators notified some States that revisions were necessary in their water quality standards. Among the States so notified were California, Maryland, and Mississippi. As required by section 303(a), these States adopted changes in water quality standards adequate to meet the requirements of the Federal Water Pollution Control Act as in effect prior to October 18, 1972. The standards so adopted are those set forth below in paragraph 18 and the last paragraph under "California," and all standards listed under "Maryland" and "Mississippi."

The Administrator did not request changes in standards adopted by the State of South Carolina. Nevertheless, the State adopted a revised plan of implementation and enforcement for interstate waters within its jurisdiction. Accordingly, such standards are considered to have been submitted pursuant to section 303(a)(1). The Regional Administrator having determined such standards to be consistent with the applicable requirements of the Act as in effect prior to October 18, 1972, such standards are the water quality standards applicable to interstate waters within the State of South Carolina.

The remainder of the standards noticed herein were adopted by the States and approved by the Administrator, or awaiting approval by him, prior to October 18, 1972. No changes were requested by the Agency for these standards. Accordingly, pursuant to section 303(a)(1), such standards shall be the standards applicable to the interstate waters for which adopted.

Section 120.10 of Title 40 of the Code of Federal Regulations is amended as follows:

§ 120.10 **Standards adopted.**

* * * * *

CALIFORNIA

Water quality standards established by California in June 1967 for interstate waters subject to its jurisdiction and which are contained in the following documents:

1. Water Quality Control Policy for Klamath River in California, 1967, as amended June 5, 1969.[1]
2. Water Quality Control Policy for Smith River, 1967, as amended June 4, 1970.[1]
3. Water Quality Control Policy for Humboldt Bay, 1967.[1]
4. Water Quality Control Policy for Humboldt-Del Norte Coast, 1967.[1]
5. Water Quality Control Policy for Sonoma-Marin Coast, 1967.[1]
6. Water Quality Control Policy for Mendocino Coast, 1967.[1]
7. Lake Tahoe Water Quality Control Policy, June 1966, with Addendum Regarding Control of Siltation adopted December 17, 1970.[1]
8. Water Quality Control Policy for East Walker River, 1967.[1]
9. Water Quality Control Policy for West Fork Carson River, 1967.[1]
10. Water Quality Control Policy for Truckee River, 1967, as amended June 5, 1969.[1]
11. Water Quality Control Policy for West Walker River and Lake Topaz, 1967.[1]
12. Water Quality Control Policy for East Fork Carson River, 1967.[1]
13. Statement of Policy for Water Quality Control of Minor California, Nevada Interstate Waters, April 1967.[1]
14. Water Quality Control Policy for Pacific Ocean, 1967 (Within the San Diego Water Quality Control Region, March 30, 1967).[1]
15. Water Quality Control Policy for San Diego Bay, 1966.[1]
16. Water Quality Control Policy for Mission Bay including Tidal Prism of San Diego River and Agua Hedionda Lagoon, 1967.[1]
17. Water Quality Control Policy for Tijuana River Basin in California, 1967.[1]
18. Water Quality Control Policy for Sacramento-San Joaquin Delta, 1967, as amended:[1] Supplemental plan adopted by State, April 19, 1973.
19. Water Quality Control Policy for Goose Lake, California, January 1967.[1]
20. Water Quality Control Policy for Tidal Waters Inland from the Golden Gate within the San Francisco Bay Region, 1967, as amended December 3, 1970.[1]
21. Water Quality Control Policy for Pacific Ocean, Pescadero Point to Mouth of Tomales Bay (Bolinas Lagoon, Drakes Estero, Limantour Estero, Portions of Tomales Bay and Tidal Portions of Coastal Streams), 1967.[1]
22. Water Quality Control Policy for Coastal Waters, Point Piedras Blancas to Pescadero Point, 1967.[1]
23. Water Quality Control Policy for Coastal Waters, Point Arguello to Point Piedras Blancas.[1]
24. Water Quality Control Policy for Coastal Waters, Rincon Point to Point Arguello, 1967.[1]
25. Water Quality Control Policy for Pacific Ocean Coastal Waters, Rincon Point to San Gabriel River, 1967.[1]
26. Water Quality Control Policy for San Gabriel Tidal Prism, 1967.[1]
27. Water Quality Control Policy for Pacific Ocean Coastal Waters, 1967 (San Gabriel River to the Drainage Divide Between Muddy Canyon and More Canyon, Orange County, March 1967), as amended December 4, 1969.[1]
28. Water Quality Control Policy for Coastal Bays, Marinas and Sloughs, 1967.[1]
29. Water Quality Control Policy for Colorado River in California, 1967, as amended June 4, 1970.[1]
30. Water Quality Control Policy for Alamo River in California, 1967.[1]
31. Water Quality Control Policy for New River in California, 1967.[1]
32. Water Quality Control Policy for Harbors, Marinas, and Tidal Prisms of Los Angeles and Ventura Counties, 1967, as revised February 6, 1969, December 4, 1969, and November 5, 1970, and corrected February 18, 1971.[1]
33. Water Quality Control Policy for the Lost River in California, September, 1969, as revised November 18, 1970.[1]
34. Water Quality Plan for the Bryant Creek Basin, January 21, 1971.[1]
35. Water Quality Control Plan for Control of Temperature in the Coastal and Interstate Waters and Enclosed Bays and Estuaries of California, May 18, 1972.[1]
36. Water Quality Control Plan for Ocean Waters of California, July 6, 1972.[2]

Also, the Amendments to Interstate Water Quality Control Plans and Policies (Resolution No. 73-23) adopted by the State Water Resources Control Board on May 17, 1973, and approved by the EPA Regional Administrator on June 29, 1973.

* * * * *

FLORIDA

Section 17-3.05(g) of the Rules of the Department of Pollution Control, Supplement No. 23 is replaced by § 17-3.05(3), consisting of revised temperature criteria. These revisions amend the Water Quality Standards approved by the Secretary of the Interior, on January 17, 1968, and are applicable to all waters in the State.

* * * * *

HAWAII

* * * * *

The Implementation and Enforcement Plan has been amended, with the dates and the Lists of Discharges, dated February 17, 1972, and June 23, 1972, superseding the dates contained in the previous list of the same name, with the following exceptions:

1. The Sand Island Sewage Treatment Plant schedule is inconsistent with plans and grant offer dates.

[1] Temperature requirements established by the Water Quality Control Plan for control of temperature in the Coastal and Interstate Waters and Enclosed Bays and Estuaries of California (paragraph 35) supersede temperature requirements stated in water quality control policies for particular waters.

[2] The criteria of the Water Quality Control Plan for Ocean Waters of California will co-exist with the provisions of existing water quality standards, provided that no direct conflict between numerical values occurs. If two numerical values conflict, the more stringent value will prevail.

V 38-182 SEP 20 73 XUM

2. All discharges associated with the Honolulu Sewage Treatment System must have schedules consistent with the recommendation of the Pearl Harbor Enforcement Conference.

3. The schedule for bringing the Tri-Services Sewage Treatment Plant discharges into full compliance with State-Federal water quality standards should be shown on the List of Discharges.

4. Specific performance requirements must be established for entrees such as "Zone of Mixing" are shown under the column heading "Further Treatment Needs and Priority".

* * * * *

MARYLAND

Water quality standards established by Maryland effective May 1, 1973, for all navigable waters subject to its jurisdiction and which are contained in the following documents: Maryland Water Pollution Control Regulations 08.05.04.01; 04.02; 04.03; 04.09 and 04.11, approved by the Regional Administrator of EPA on July 2, 1973.

* * * * *

MISSISSIPPI

Water quality standards for all waters including stream classifications and water quality criteria amended on April 24, 1973, and contained in the document *State of Mississippi Water Quality Criteria for Intrastate, Interstate and Coastal Waters*, approved by the Regional Administrator of EPA on May 15, 1973.

* * * * *

MISSOURI

Water quality standards established by Missouri in June 1967 for interstate waters subject to its jurisdiction and which are contained in the following documents:

1. "St. Francis and Little Rivers and Tributaries and Lower Mississippi River Tributaries; Lower Mississippi River Basin, Southwest-Lower Mississippi; Water Quality Standards," June 1968, as revised.

2. "Osage and Gasconade Rivers and Tributaries; Osage-Gasconade River Basin; Water Quality Standards," June 1968, amended January 12, 1971 and August 11, 1971."

3. Grand and Chariton Rivers and Tributaries; Grand-Chariton River Basin, Missouri River Basin; Water Quality Standards," June 1968, as revised.

4. "Minor Missouri River Tributaries; Missouri River Basin, Water Quality Standards," June 1968, as revised.

5. "White, North Fork, Spring, Eleven Point, Current and Black Rivers and Tributaries; White River Basin, Southwest Lower Mississippi; Water Quality Standards," June 1968, as revised.

6. "Missouri River; Missouri River Basin; Water Quality Standards," June 1967, revised August 1967, amended February 27, 1970 and by correction dated May 1969 and May 1970.

7. "Mississippi River; Upper Mississippi River Basin, Southwest-Lower Mississippi; Water Quality Standards," June 1967, revised August 1968, as revised.

8. "Big Blue River; Missouri River Basin; Water Quality Standards," June 1967, revised August 1968, as revised.

9. "Spring and Elk Rivers and Tributaries; Grand (Neosho) River Basin, Southwest-Lower Mississippi; Water Quality Standards," June 1968, as revised.

10. "Meramec River and Tributaries and Mississippi River Tributaries; Upper Mississippi River Basin; Water Quality Standards," June 1968, as revised.

11. "Salt River and Tributaries, Mississippi River Tributaries and Des Moines River; Upper Mississippi River Basin; Water Quality Standards," June 1968, as revised.

* * * * *

SOUTH CAROLINA

Water quality standards implementation plan applicable to all waters established by South Carolina Pollution Control Authority on January 23, 1973, and contained in the document "Water Pollution Control Implementation Plan for the State of South Carolina, January 23, 1973."

Dated September 10, 1973.

JOHN QUARLES,
*Acting Administrator.*

## SUBCHAPTER E—PESTICIDE PROGRAMS

## PART 162—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE ACT

### Prohibition of Nontoxic Claims on Labeling for Pesticides

On August 3, 1972, there was published in the FEDERAL REGISTER (37 FR 15522) a notice of proposed rulemaking concerning the amendment of the regulations for the enforcement of the Federal Insecticide, Fungicide, and Rodenticide Act (40 CFR 162.14(a) (5) and 162.122). Said notice was published pursuant to provisions of section 6 of the Act (7 U.S.C. 135d). Interested persons were given a period of 30 days to submit written data, views, or arguments. The spectrum of these views from the public was mixed. The segments of industry engaged in the manufacture and sale of pyrethrin insecticides and the governments of certain foreign countries engaged in the production of pyrethrins opposed the amendment; however, comments received from the public and from public officials overwhelmingly endorsed the amendment. After due consideration of all relevant matters presented, and pursuant to authority under section 25 of the Federal Insecticide, Fungicide, and Rodenticide Act as amended by the Federal Environmental Pesticide Control Act of 1972 (P.L. 92-516 86 Stat. 993) the following changes are made.

1. Section 162.14(a)(5) is hereby amended as set forth below.

**§ 162.14 Misbranding.**

(a) * * *

(5) Unwarranted claims as to the safety of the economic poison or its ingredients, including a statement such as "safe", "nontoxic", "nonpoisonous", "noninjurious", or "harmless" with or without such a qualifying phrase as "when used as directed".

* * * * *

**§ 162.122 [Revoked]**

2. Section 162.122 (Interpretation with Respect to claims for Safety and Nontoxicity on Labeling of Economic Poisons) is revoked.

*Effective date.*—This amendment is effective immediately with respect to new applications for registration or applications for amended registration under the Act. Registrants affected by this action will have until December 19 to submit revised labeling, complying with this amendment.

The views submitted expressed that a reasonable period of time be permitted to provide for shipment and normal disposition of labeled stock of affected merchandise. Since this rule change affects products which are of a low order of toxicity, I am persuaded that such reasonable time should be granted. Therefore, the effective date is hereby set at one year from the date of publication of the notice with respect to packaged or labeled stock on hand of products bearing such claims. Sale and use of such merchandise thereafter in channels of trade is not affected by this order.

Done at Washington, D.C., the 13th day of September 1973.

JOHN QUARLES,
*Acting Administrator.*

[FR Doc.73-20069 Filed 9-19-73;8:45 am]

## PART 168—RULES OF PRACTICE GOVERNING PROCEEDINGS CONDUCTED IN THE ASSESSMENT OF CIVIL PENALTIES UNDER THE FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE ACT

Interim rules are hereby promulgated to amend Chapter I of Title 40 of the Code of Federal Regulations by adding a new Part 168, to read as set forth below. These rules will govern all proceedings conducted in the assessment of a civil penalty as provided in section 14(a) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended by the Federal Environmental Pesticide Control Act of 1972. (Public Law 92-516; 86 Stat. 973. *et. seq.*).

Section 25(a) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended by the Federal Environmental Pesticide Control Act of 1972 (86 Stat. 993) empowers the Administrator of the Environmental Protection Agency "* * * to prescribe regulations to carry out the provisions of [the] Act." Pursuant to this authority, these rules of practice are promulgated to implement section 14(a) of the Act. They provide a procedure for the assessment of civil penalties against any person who is found to be in violation of any provision of the Act. They establish a mechanism whereby any alleged violator may be given notice of the charges against him and may receive an opportunity to request a hearing on the questions of his liability for the acts charged and the appropriateness of the civil penalty which is proposed to be assessed against him.

These rules provide that a complaint shall be issued to persons found to be in violation of the Act. The complaint shall set forth the provisions alleged to be violated, the amount of the civil penalty which is proposed to be assessed and a notice of opportunity for hearing. Within twenty (20) days after receipt of such a complaint, an alleged violator may file an answer. The answer may admit, deny or explain any allegation contained in the complaint, or it may challenge the appropriateness of the proposed penalty, or both. Failure to file a timely answer shall be deemed to be an admission of all allegations and shall result in a default order requiring payment of the civil penalty. Similarly, failure to specifically answer allegations of the complaint shall be deemed to be an admission of those allegations.

These rules encourage settlement of cases by allowing Consent Agreements, if approved by the Regional Administrator, and by providing prehearing conferences in which issues may be simplified and settlement possibilities may be explored.

Following a hearing, if one is requested, an Administrative Law Judge shall make an initial decision. This initial decision may be appealed to the Regional Administrator by any party or reviewed by the Regional Administrator on his own initiative. Any party adversely affected by a final order of the Regional Administrator may move that matters claimed to have been erroneously decided be reheard, reargued or reconsidered.

Interested parties may submit written comments, concerning these interim rules. Such comments should be filed in duplicate and addressed to Mrs. Betty J. Billings, Hearing Clerk, Environmental Protection Agency, East Tower, Waterside Mall, Washington, D.C. 20460. All such comments received on or before October 22, 1973, will be considered prior to the promulgation of final regulations. Such comments will be available for the public inspection at the office of the hearing clerk during regular business hours, 8 a.m.–4:30 p.m.

*Effective date.* The interim rules of practice for civil penalties promulgated hereby shall become effective on September 21, 1973. All Environmental Protection Agency civil penalty assessment proceedings conducted after September 21, 1973, pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, shall be subject to these rules of practice. It is necessary that these rules of practice take effect prior to a thirty-day (30) period following promulgation to insure that the Environmental Protection Agency's authority to assess civil penalties, pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, will be uniformly applied. Such civil penalty assessment authority is currently in effect.

The rules in this part shall apply to remaining phases of any proceedings underway insofar as practicable and fair, provided that any phase of a proceeding which might have been conducted differently under the rules in this part shall not be affected.

Dated September 14, 1973.

JOHN QUARLES,
*Acting Administrator.*

**SUBPART A—IN GENERAL**

**§ 168.01 Scope of these rules, applicability of the Federal Rules of Civil Procedure.**

(a) These rules of practice shall govern all proceedings conducted in the assessment against any party of any civil penalty pursuant to the provisions of section 14(a) of the Act (86 Stat. 992).

(b) In the absence of specific provisions in these rules, procedural questions shall be resolved in accordance with the provisions of the Federal Rules of Civil Procedure.

**§ 168.02 Use of number.**

As used in these rules, words in the singular number shall be deemed to import the plural and vice versa, as the case may require.

**§ 168.03 Definitions.**

As used herein:

(a) The term "Act" means the Federal Insecticide, Fungicide, and Rodenticide Act, as amended by the Federal Environmental Pesticide Control Act of 1972 (86 Stat. 973) and any other legislation supplementary thereto and amendatory thereof.

(b) The term "Administrative Law Judge" means an Administrative Law Judge appointed pursuant to 5 U.S.C. 3105 (see also 5 CFR 930, as amended by 37 FR 16787). Such term is synonymous with the term "Hearing Examiner" as used in the Act or in Title 5 of the United States Code.

(c) The term "Agency" means the United States Environmental Protection Agency.

(d) The term "commencement of the hearing" means that stage of the proceeding at which the Administrative Law Judge orders the parties or their counsel to appear at a prehearing conference, or at which the Administrative Law Judge sets a matter for hearing, where circumstances render the prehearing conference unnecessary or impracticable.

(e) The term "complaint" means a written communication issued by the complainant to a person alleged to be in violation of the Act in the manner specified therein. The complaint shall contain a proposed civil penalty and shall give the alleged violator notice of opportunity for a hearing.

(f) The term "complainant" means any person authorized by the Regional Administrator to issue Complaints and Notices of Opportunity for Hearing to persons alleged to be in violation of the Act.

(g) The term "Consent Agreement" means any written document containing stipulations of fact, conclusions of law and a specified proposed penalty acceptable to both complainant and respondent which results from any settlement conference conducted pursuant to § 168.43 (a) below. Such Consent Agreement does not dispose of a case unless it becomes a final order of the Regional Administrator as provided in § 168.43(c).

(h) The term "Final Order" means an order disposing of a matter of controversy between any respondent and the Agency. The final order may be issued by the Regional Administrator upon (1) default of the respondent, (2) ratification of a Consent Agreement, or (3) completion of a hearing.

(i) The term "hearing" means a hearing open to the public which is conducted pursuant to the provisions of 5 U.S.C. 554 *et seq.* and of the regulations of this part.

(j) The term "Hearing Clerk" means the Hearing Clerk, Environmental Protection Agency, Washington, D.C. 20460.

(k) The term "Initial Decision" means the decision of the Administrative Law Judge supported by findings of fact and conclusions of law, as well as reasons therefor. Such decision shall become the final order of the Regional Administrator without further proceedings unless (1) an appeal is taken to the Regional Administrator therefrom by a party, or (2) the Regional Administrator orders review thereof on his own initiative.

(l) The term "party" means any person, group, organization, agency, or department that participates in a hearing.

(m) The term "person" includes any individual, partnership, association, corporation, and any organized group of persons whether incorporated or not.

V38-182 SEP 20 73 XUM

(n) The term "Regional Administrator" means the Administrator of any Regional Office of the Agency or his delegatee.

(o) The term "Regional Hearing Clerk" means an individual duly authorized to serve as hearing clerk for a given Region. Correspondence may be addressed to the Regional Hearing Clerk, Environmental Protection Agency, (address of Regional Office).

(p) The term "Regional Judicial Officer" means an officer or employee of the Agency appointed by a Regional Administrator to serve as the Judicial Officer for a Region as provided in these rules.

(1) *Office.* One or more Regional Judicial Officers may be designated to perform functions thereinafter provided within the Region of his designation.

(2) *Qualifications.* A Regional Judicial Officer shall be a permanent or temporary employee of the Agency who performs other duties for the Agency. Such Regional Judicial Officer shall not have engaged in the performance of investigative or prosecuting functions in the particular case or in a factually related case.

(3) *Functions.* The Regional Administrator may delegate any or part of his authority to act in a given case to a Regional Judicial Officer. The Regional Administrator may separately delegate his authority to rule on interlocutory orders and motions, and may also delegate his authority to make findings of fact and draw conclusions of law in a particular proceeding, provided that this delegation shall not preclude the Regional Judicial Officer from referring any motion or case to the Regional Administrator when such referral is appropriate. The Regional Administrator, in deciding a case himself, may consult with the Regional Judicial Officer in the preparation (or may altogether assign the preliminary drafting) of findings of fact or conclusions of law.

(q) The term "respondent" means any person proceeded against in the complaint.

Terms defined in the Act and not explicitly defined herein are used herein with the meanings given in the Act.

**§ 168.04 Filing and service.**

(a) *Filing of pleadings and documents.* All documents or papers required or authorized to be filed, shall be filed in triplicate with the Regional Hearing Clerk.

(1) All filing may be accomplished by certified mail, return receipt requested, addressed to the Regional Hearing Clerk, Environmental Protection Agency (address of Regional Office). Filing is deemed effective at the time of mailing. Filing shall be deemed timely if postmarked on the due date.

(b) *Service of papers.* At the same time that a party files triplicate copies of document or paper with the Regional Hearing Clerk, it shall serve copies thereof upon all other parties. A certificate of service shall accompany each document or paper. Each party shall file an original and two (2) copies of all papers filed in connection with an appeal to the Regional Administrator.

(c) *Service of complaint.* Service of the complaint may be made personally on the respondent (or his representative), or by certified mail, return receipt required. Service upon a party who has appeared through a representative shall be made only upon such representative. Proof of service of the Complaint and Notice shall be made by affidavit of the person making personal service, or by properly executed return receipt. Such proof of service shall be filed with the Regional Hearing Clerk immediately upon completion of service.

**§ 168.05 Time.**

(a) *Computation.* In computing any period of time prescribed or allowed in these rules, the day from which the designated period begins to run shall not be included. Saturdays, Sundays and legal holidays shall be included in computing the time allowed for the filing of any document or paper. When such time expires on a Saturday, Sunday, or legal holiday, however, such period shall be extended to include the next following business day.

(b) *Extensions of Time.* Requests for extensions of time for the filing of any pleading, document or motion shall be granted only under exceptional circumstances upon good cause shown, and after consideration of the views of the other parties. Such requests must be received in advance of the date on which the pleading, document or motion is due to be filed. Such requests, if made prior to commencement of hearing, may be granted by the Regional Administrator.

(c) *Service by Mail.* Where service of a pleading or document is by mail, three (3) days shall be added to the time allowed by these rules for the filing of a responsive pleading.

**§ 168.06 Ex parte discussion of proceeding.**

At no stage in the proceeding shall the Regional Administrator, Regional Judicial Officer or the Administrative Law Judge discuss *ex parte* the merits of the proceeding with any person who is connected with the proceeding in an advocative, investigative, or expert capacity, or with any representative of such person. The Regional Administrator, the Regional Judicial Officer, or the Administrative Law Judge may discuss the merits of the case with any such person if all parties to the proceeding, or their representatives, have been given reasonable notice and opportunity to be present. Any memorandum or other communication addressed to the Regional Administrator, Regional Judicial Officer or the Administrative Law Judge during the pendency of the proceeding, and relating to the merits thereof, by or on behalf of any party, shall be regarded as argument made in the proceeding. Such other parties shall be given an opportunity to file a reply thereto. Nothing in this section shall limit discussions between respondent and complainant for the purposes of exploring settlement of the case.

**§ 168.07 Arrangements for examining agency records, transcripts, and orders.**

(a) Subject to the provisions of law restricting public disclosure of confidential information, any person may, at the offices of the Regional Hearing Clerk, inspect and copy any document filed in any proceeding.

(b) Duplication costs shall be borne by any such person who is not a party to the proceeding in which such documents are filed.

(c) All orders, decisions or other signed documents required under these rules whether issued by an Administrative Law Judge or by the Regional Administrator, shall be made available to the public.

(d) All transcripts and docket entries shall become part of the official docket and shall be retained by the Regional Hearing Clerk. At least two copies of all final orders shall be retained by the Regional Hearing Clerk and filed chronologically. Such documents shall be periodically bound and indexed. All documents shall be made available to the public for reasonable inspection during Agency business hours.

(e) All orders, decisions or other documents made or signed by the Administrative Law Judge or by the Regional Administrator shall be filed with the Regional Hearing Clerk. The Regional Hearing Clerk shall immediately serve all parties with a copy of such order, decision or other document.

**SUBPART B—PARTIES AND APPEARANCES**

**§ 168.20 Appearances.**

(a) *Representatives.* Any party may appear in person or by counsel or other representative. Persons who appear as counsel or other representative must conform to the standards of ethics as required of practitioners before the courts of the United States.

(b) *Failure to appear.* If any party to the proceeding, after being duly notified, fails to appear at any prehearing conference or fails to give notice thereat that he wishes to participate in the subsequent hearing, he shall be deemed to have waived his right to a hearing in the proceeding unless otherwise ordered by the Administrative Law Judge. If any party to the proceeding, after being duly notified, fails to appear at a hearing, he shall be deemed to have waived his right to present evidence at the hearing in support of his pleadings. An initial decision may be rendered in the absence of such evidence. Failure to appear shall not be deemed to be a waiver of the right to be served with a copy of the initial decision of the Administrative Law Judge or to file exceptions and to appeal as provided in § 168.51 below.

**§ 168.21 Intervention.**

(a) *Pleading.* Any person may file a motion for leave to intervene in a hearing conducted under this part. Such motion must set forth the grounds for the proposed intervention, the position and interest of the movant in the proceedings, and the impact that such intervention will have on the expeditious progress of the proceedings.

(b) *When filed.* A motion for leave to intervene in a hearing must ordinarily be filed prior to the commencement of the first prehearing conference. Any motion filed after that time must include a statement of good cause for the failure to file the motion prior to the commencement of the first prehearing conference and shall be granted only upon a finding (1) that extraordinary circumstances justify the granting of the motion, and (2) that the intervenor shall be bound by any agreements, arrangements and other matters previously made in the proceeding.

(c) *Disposition.* Leave to intervene will be granted only insofar as movant demonstrates (1) that there exist common questions of fact or law, (2) that he may be adversely affected by a final order of the Regional Administrator, and (3) that his presence in the case would not unreasonably broaden the issues as already presented. If leave is granted, the movant shall thereby become a full-status party to the proceedings. If leave is denied, the movant may request that the ruling be certified on interlocutory appeal to the Regional Administrator as provided in § 168.47 below.

(d) *Amicus curiae.* Persons not parties to the proceedings who wish to file briefs may do so by motion to the Administrative Law Judge or the Regional Administrator. Such motion shall identify the interest of the applicant and shall state the reasons why the proposed *amicus* brief is desirable. Unless all parties otherwise consent, or unless the Administrative Law Judge or Regional Administrator on good cause shown so order an *amicus curiae* shall file its brief within the time allowed the party whose position the brief will support.

**§ 168.22 Consolidation and severance.**

(a) *Consolidation.* The Administrative Law Judge may, by motion or *sua sponte*, consolidate two or more proceedings docketed under these rules where there exist common parties, common questions of fact or law or where such consolidation would expedite or simplify consideration of the issues. Consolidation shall not affect the right of any party to raise issues that could have been raised if consolidation had not occurred.

(b) *Severance.* The Administrative Law Judge may, by motion or *sua sponte*, for good cause shown order any proceedings severed with respect to some or all parties or issues.

**§ 168.23 Fees of witnesses.**

Witnesses summoned before the Administrative Law Judge shall be paid the same fees and mileage that are paid witnesses in the courts of the United States.

**SUBPART C—PREHEARING PROCEDURES**

**§ 168.30 Issuance of complaint.**

If the complainant has reason to believe that a person has violated any provision of the Act, he may institute a proceeding for the assessment of a civil penalty by issuing a complaint pursuant to the provisions of section 14(a) of the Act (86 Stat. 992). At the time the complaint is issued the complainant shall file a copy of the complaint with the Regional Hearing Clerk. Upon receipt of a Complaint the Regional Hearing Clerk shall assign an I.F.&R. docket number. Thereafter, each document filed in the proceeding shall bear such docket number.

**§ 168.31 Contents of the complaint.**

(a) *Alleged violation.* Each Complaint shall contain (1) specific reference to the provision of the Act which respondent is alleged to have violated, and (2) a concise statement of a factual basis for the alleged violation.

(b) *Amendment of the complaint.* At any time prior to the commencement of hearing, upon motion granted by the regional Administrator, the complaint may be amended. At any time after commencement but prior to the close of the hearing, upon motion granted by the Administrative Law Judge, the complaint may be amended.

**§ 168.32 Motions.**

(a) *General.* All motions except those made orally on the record during a hearing shall be in writing, shall state with particularity the grounds therefor, shall set forth the relief or order sought and shall be accompanied by any affidavit or other evidence relied upon. Such written motions shall be filed with the Regional Hearing Clerk if made before commencement of hearing, or with the Hearing Clerk, if made after commencement of hearing.

(b) *Response to Motions.* Within ten (10) days after service of any written motion, any party may file a response in support of or in opposition to the motion. This response shall be accompanied by any affidavit or other evidence relied upon. If no response is filed, the parties shall be deemed to have waived any objection to the granting of the motion.

(c) *Decision.* The Regional Administrator shall rule upon all preliminary motions filed or made prior to the commencement of the hearing. The Administrative Law Judge shall rule upon all motions filed or made after the commencement of the hearing and prior to the filing of his initial decision. Such decision shall be made at the time of filing on *ex parte* motions or where the movant has stated that no party objects to the granting of such motion. Otherwise, such decision shall await the answering papers and reply papers if permitted. Oral argument on motions will be permitted where the Administrative Law Judge or the Regional Administrator deems it necessary. The Regional Administrator shall rule upon all motions filed after the filing of the initial decision.

**§ 168.33 Answer to the complaint.**

(a) *General.* Where respondent wishes to contest any material fact set forth in the Complaint or where respondent feels that the amount of the penalty proposed in the Complaint is inappropriate with respect to such violation, he shall file a written Answer to the Complaint with the Regional Hearing Clerk. Any answer to the complaint must be received by the Regional Hearing Clerk within twenty (20) days after receipt of the complaint.

(b) *Contents of the answer to the complaint.* The Answer to the Complaint shall clearly and directly admit, deny or explain each of the factual allegations contained in the Complaint with regard to which respondent has any knowledge. Such answer shall contain (1) a definite statement of the facts which constitute the grounds of defense, and (2) a concise statement of the facts which respondent intends to place at issue in the hearing.

(c) *Failure to answer specifically.* Failure of respondent to plead specifically to any factual allegation contained in the complaint shall constitute an admission of such allegation, and shall likewise constitute consent to the issuance by the Administrative Law Judge of a default order. Such default order shall be an initial decision which shall become a final order as provided in § 168.34(a) herein.

(d) *Procedure upon admission of facts.* Upon admission by respondent of the facts set forth in the complaint, complainant shall file with the Regional Hearing Clerk recommended findings of fact, conclusions of law and a proposed order assessing a civil penalty. Respondent may within ten (10) days thereafter file objections or exceptions to the proposed order together with a supporting brief with the Regional Hearing Clerk. Failure to state in writing that he desires to make oral argument on such findings of fact, conclusions of law, or on the amount of the penalty proposed to be assessed, shall be construed as a waiver of oral argument.

(e) *Procedure upon denial of facts.* The denial of any material fact or the raising of any affirmative defense shall be construed as a request for a hearing.

**§ 168.34 Failure to answer the complaint; payment.**

(a) *Default order.* Failure of respondent to file a timely answer to the complaint shall constitute an admission of all facts alleged in the complaint and a waiver of respondent's right to a hearing on such factual allegations. The penalty proposed to be assessed in the Complaint shall thereupon become due and payable by default without further proceedings.

(b) *Payment of a civil penalty.* Payment shall be made by forwarding to the Regional Hearing Clerk a cashiers check

V 38 182 SEP 20 73 XUM

in the amount of the assessed penalty, payable to the United States of America.

**§ 168.35 Informal settlement and consent agreement.**

(a) *Settlement policy.* The Agency encourages settlement at any time after the initiation of the proceedings where such settlement is consistent with the provisions and the objectives of the Act. Whether or not respondent requests a hearing, he may confer with complainant concerning the facts stated in the complaint or concerning the amount of the proposed civil penalty. The terms of such settlement agreement shall be expressed in a written Consent Agreement submitted to the Regional Administrator. Such Consent Agreement shall be accompanied by a proposed final order of the Regional Administrator.

(b) *Consent agreement.* A written Consent Agreement signed by the parties, shall be prepared and filed with the Regional Administrator whenever settlement or compromise is proposed. The Consent Agreement shall state that respondent (1) admits the jurisdictional allegations of the complaint (2) admits the facts as stipulated in the Consent Agreement, or neither admits nor denies specific factual allegations contained in the complaint, and (3) consents to the assessment of a given proposed civil penalty. The Consent Agreement shall set forth terms of the Agreement and shall contain a statement of reasons as to why the proposed penalty is appropriate.

(c) *Evaluation of the consent agreement.* No settlement or compromise agreement shall be dispositive of any action pending under section 14(a) of the Act (86 Stat. 992) without a final order of the Regional Administrator. The Regional Administrator shall evaluate the appropriateness of the proposed penalty, as provided in § 168.53(b) herein. The Regional Administrator may require that any or all of the parties to the settlement appear before him to answer inquiries relating to the proposed Consent Agreement.

(d) *Failure to ratify consent agreement.* Upon the failure of the parties to arrive at a mutually satisfactory settlement or upon failure of the Regional Administrator to ratify a Consent Agreement certified to him by the parties, the matter shall proceed to hearing before an Administrative Law Judge.

**§ 168.36 Prehearing conference.**

(a) *Purpose of prehearing conference.* When it appears that such procedure will expedite the proceeding, the Administrative Law Judge, at any time prior to the commencement of the oral hearing, may request the parties or their counsel to appear at a conference before him to consider:

(i) The possibility of settlement of the case;

(ii) The simplification of issues;

(iii) The necessity or desirability of amendments to pleadings;

(iv) The possibility of obtaining admissions or stipulations of fact and of documents which will avoid unnecessary proof;

(v) The limitation of the number of expert or other witnesses;

(vi) The setting of a time and place for the public hearing, after giving careful consideration of the convenience of all parties, witnesses, and public interest, and

(vii) Any other matters as may expedite the disposition of the proceeding.

(b) *Exchange of witness lists and documents.* At the prehearing conference each party shall make available to each other party the names of the expert and other witnesses he intends to call together with a brief narrative summary of their expected testimony. Copies of all documents and exhibits which the party intends to introduce into evidence shall be marked for identification as ordered by the Administrative Law Judge. Thereafter, witnesses, documents, or exhibits may be added and narrative summaries of expected testimony amended only upon motion by a party.

(c) *Record of the prehearing conference.* No transcript of any prehearing conference shall be made, but the Administrative Law Judge shall prepare and file for the record a written summary of the action taken at such conference. Such summary shall incorporate any written stipulations or agreements made by the parties at or as a result of such conference, all rulings upon matters considered at such conference, and appropriate orders containing directions to the parties. Such summary shall direct the subsequent course of the proceeding, unless modified by the Administrative Law Judge, on motion or *sua sponte*, to prevent manifest injustice.

(d) *Unavailability of a prehearing conference.* Where circumstances render a prehearing conference unnecessary, or impracticable, the Administrative Law Judge, on motion or *sua sponte*, may request the parties to correspond with him for the purpose of accomplishing any of the objectives set forth in this section. The Administrative Law Judge shall submit a written summary of such correspondence for the record.

## SUBPART D—HEARING PROCEDURE

**§ 168.40 Scheduling the hearing.**

(a) *Assignment of Administrative Law Judge.* Upon receipt of a request for a hearing or upon receipt of an answer which denies material factual allegations contained in the Complaint, the Regional Hearing Clerk shall refer the proceeding to the Chief Administrative Law Judge. He in turn shall assign an Administrative Law Judge to conduct the hearing and thereafter to direct all matters concerning the proceedings, except as otherwise allowed in these rules.

(b) *Notice of intent to hold a hearing.* The Administrative Law Judge shall, after consideration of the convenience of the parties, forthwith serve upon parties a notice of intent to hold a hearing, setting a time and place for such hearing.

(c) *Postponement of hearing.* Except in the case of an extreme emergency or in unusual circumstances, and for good cause shown, no request for postponement of a hearing will be considered. Such request must be received in writing at least three (3) days in advance of the time set for the hearing. No postponement in excess of thirty (30) days shall be allowed.

**§ 168.41 Duties and powers of Administrative Law Judge.**

(a) *Duties.* It shall be the duty of the Administrative Law Judge to conduct a fair and impartial hearing, assure that the facts are fully elicited, adjudicate all issues, and avoid delay.

(b) *Powers.* The Administrative Law Judge shall have authority after the commencement of the hearing to:

(i) Rule upon motions, requests, and offers of proof and issue all necessary orders;

(ii) Conduct the procedural affairs of the hearing;

(iii) Administer oaths and affirmations and take affidavits;

(iv) Examine witnesses and receive documentary or other evidence;

(v) Admit or exclude evidence;

(vi) Hear oral argument on facts and/or law; and

(vii) Do all other acts and take all measures necessary for the maintenance of order at the hearing and for the efficient, fair and impartial conduct of the proceeding.

(c) *Disqualification.* The Administrative Law Judge shall not decide any matter in which he has (1) a financial interest or (2) any relationship with a party or with the subject matter which would make it otherwise inappropriate for him to act. Any party may, by motion made to the Administrative Law Judge, request that he disqualify himself and withdraw from the proceeding. The Administrative Law Judge shall then rule upon the motion and, upon request of the movant, shall certify an adverse ruling to the Regional Administrator on appeal. The Administrative Law Judge may at any time withdraw from any proceeding in which he deems himself disqualified for any reason.

(d) *Absence or change.* In case of the absence, the inability to act, or the removal by disqualification or withdrawal of the Administrative Law Judge, the powers and duties to be performed by him may be assigned to another Administrative Law Judge without abatement of the proceeding, unless otherwise ordered by the Regional Administrator.

**§ 168.42 Failure to appear.**

(a) The failure of a party to appear at a hearing shall constitute a waiver of all rights in the proceeding except the right to be served with a copy of the initial decision of the Administrative Law Judge and to request review.

(b) Requests for reinstatement must be made, within five (5) days after the scheduled hearing date. Such requests shall be granted only where an extreme

emergency or unusual circumstance prevented the appearance of the party seeking reinstatement.

**§ 168.43 Filing and certification of transcripts.**

The Hearing shall be transcribed verbatim. Promptly following the taking of the last evidence, the reporter shall transmit to the Regional Hearing Clerk the original of the transcript of testimony and of the exhibits introduced or offered into evidence at the hearing and as many copies of the transcript as required. The Administrative Law Judge shall promptly certify the original transcript and exhibits as the true transcript of the testimony offered or received at the hearing, and shall certify the exhibits accompanying the transcript as all of the exhibits introduced at the hearing, except in such particulars as he shall specify. A copy of such transcript and exhibits. The Regional Hearing Clerk shall promptly serve notice upon each of the parties of the filings of the certified transcripts. Any party to the proceedings who desires a copy of the transcript of the hearing may request such copy from the Regional Hearing Clerk.

**§ 168.44 Evidence.**

(a) *General.* The Adminstrative Law Judge shall admit all evidence which is relevant, material, and is not unduly repetitious. Relevant and material evidence may be received at the hearing although such evidence may be inadmissible under the rules of evidence applicable to judicial proceedings. The weight to be given all evidence shall be determined by its reliability and probative value.

(b) *Examination of witnesses.* Witnesses shall be examined orally, under oath of affirmation, and shall be subject to cross-examination. In multiparty proceedings the Administrative Law Judge may limit cross-examination to the respondent and one other party on each side if it appears that such cross-examination will adequately protect all similarly-situated parties. Additional parties may, however, engage in cross-examination upon a showing that their cross-examination will raise matters not covered by previous cross-examination.

(c) *Verified statements.* The Administrative Law Judge, may admit as evidence in lieu of oral testimony, an affidavit containing statements of fact or opinion if the matters therein contained would be admissible if subjected to the same rules applied to oral evidence. Before any such statement is read or admitted into evidence the witness shall deliver to the Administrative Law Judge, the reporter, and opposing counsel a copy thereof. The witness proponent of the affidavit shall be subject to oral cross-examination on the contents of such statements. Admission of such verified statements shall be denied when it appears to the Administrative Law Judge that the memory or the demeanor of the witness is of importance.

(d) *Exhibits.* Except where the Administrative Law Judge finds it impracticable, a copy of each exhibit filed with the Administrative Law Judge shall be furnished to each party. A true copy of an exhibit may be substituted for the original.

(e) *Official Notice.* Official notice may be taken of any matter judicially noticed in the Federal courts, and of other facts within the specialized knowledge and experience of the Agency. Opposing parties shall be given adequate opportunity to show that such facts are erroneously noticed.

**§ 168.45 Objections and offers of proof.**

(a) *Objection.* Any objection concerning the conduct of the hearing, the admission or rejection of evidence, the limitation of the scope of any examination or cross-examination, or a ruling by the Administrative Law Judge, may be stated orally if on the record, or in writing. The party raising the objection must supply a short statement of the grounds for the objection. The transcript shall not include any argument or debate thereon, unless the Administrative Law Judge, orders that such argument be transcribed. The ruling of the Administrative Law Judge on any objection shall be a part of the transcript. An automatic exception will follow any ruling which may be pursued on appeal by a party adversely affected. No objection shall be deemed waived by further participation in the hearing.

(b) *Offer of proof.* Whenever evidence is excluded from the record, the party offering such evidence may make an offer of proof, which shall be included in the transcript. The offer of proof for excluded oral testimony shall consist of a brief statement describing the nature of the evidence excluded. The offer of proof for excluded documents or exhibits shall consist of the insertion in the record of the documents or exhibits excluded. Where the Regional Administrator decides that the ruling of the Administrative Law Judge in excluding the evidence was both erroneous and prejudicial, the hearing may be reopened to permit the taking of such evidence. Where appropriate, the Regional Administrator may evaluate improperly excluded evidence in preparing his final order.

**§ 168.46 Burden of presentation and the burden of persuasion.**

(a) *Burden of presentation.* At the hearing, the Complainant shall have the burden of going forward with the presentation of an affirmative case for the assessment of an appropriate civil penalty.

(b) *Burden of persuasion.* In establishing that the violation occurred as set forth in the Complaint and that the civil penalty assessed is appropriate, the burden of persuasion shall rest with the Complainant.

**§ 168.47 Appeal from or review of interlocutory orders or rulings.**

(a) *Request for interlocutory appeal.* Except as provided in this section, appeals to the Regional Administrator shall obtain as a matter of right only from an initial decision of the Administrative Law Judge. Appeals from other orders or rulings shall lie only if the Administrative Law Judge, upon request of a party, certifies such orders or rulings to the Regional Administrator on appeal. Requests to the Administrative Law Judge for special permission to appeal from an adverse ruling shall be filed in writing within five (5) days of the receipt of the ruling and shall state briefly the grounds to be relied upon on appeal.

(b) *Availability of interlocutory appeal.* The Administrative Law Judge may certify an order or ruling for appeal to the Regional Administrator when: (1) the order or ruling involves an important question of law or policy concerning which there is substantial ground for difference of opinion; and (2) either (i) an immediate appeal from the order and ruling will materially advance the ultimate termination of the proceeding, or (ii) review after the final order is issued will be inadequate or ineffective.

(c) *Decision.* If the Regional Administrator determines that certification was improvidently granted, or if he takes no action within thirty (30) days of the certification, the appeal shall be deemed dismissed. When the Administrative Law Judge declines to certify an order or ruling to the Regional Administrator on interlocutory appeal, it may be reviewed by the Regional Administrator only upon appeal from the initial decision, except when the Regional Administrator determines, upon direct requests of a party and in exceptional circumstances, that to delay review would be deleterious to the public interest. Ordinarily, the interlocutory appeal will be decided on the basis of the submissions made to the Administrative Law Judge. The Regional Administrator may, however, allow further briefs and oral argument.

(d) *Stay of proceedings.* Except in extraordinary circumstances proceedings will not be stayed pending an interlocutory appeal; where a stay is granted, a stay of more than thirty (30) days must be approved by the Regional Administrator.

**§ 168.48 Filing of briefs and proposed findings of fact, conclusions of law and proposed order.**

Within twenty (20) days after the last evidence is taken in a hearing, each party may file with the Regional Hearing Clerk proposed findings of fact, conclusions of law, and a proposed order, based solely on the record, and a brief in support thereof, together with references to relevant pages of the transcript. A copy of each such document shall be served upon each other party. Each party may, within the same period, file with the Regional Hearing Clerk a brief, concerning each of the exceptions or objections taken to actions or rulings of the Administrative Law Judge at the hearing, upon which the party wishes to rely. Within twenty (20) days thereafter, each party may file a reply brief which takes specific exception to matters contained in opposing briefs and contains alternative findings of fact,

V 38 1 82 SEP 20 73 XUM

conclusions of law and proposed order. Failure of a party to request oral argument on any objections briefed shall constitute a waiver of oral argument. The hearing shall be deemed terminated at the conclusion of the briefing period.

SUBPART E—POST HEARING PROCEDURES

**§ 168.50 Initial decision.**

The Administrative Law Judge shall, within a reasonable time after the termination of the hearing, evaluate the record before him, and prepare, and file his initial decision with the Regional Hearing Clerk. This initial decision shall contain his findings of fact, conclusions of law, and proposed order. A copy of the initial decision shall be served upon each of the parties, and shall be transmitted to the Regional Administrator by the Regional Hearing Clerk. Such initial decision shall become the final decision of the Regional Administrator thirty (30) days after service thereof without further proceedings unless (1) an appeal to the Regional Administrator is taken therefrom by a party to the proceeding or (2) the Regional Administrator, on his own initiative, elects to review such initial decision. No decision shall be final for the purposes of judicial review except as contained in a final order of the Regional Administrator.

**§ 168.51 Appeal from or review of initial decisions.**

(a) *Exceptions and request for oral argument.* (1) Within twenty (20) days after the filing of the Administrative Law Judge's initial decision, any party may appeal to the Regional Administrator any exception taken thereto and may request oral argument upon any matter set forth in such decision or upon any adverse order or ruling to which he objected during the hearing. Appeal may be made by filing exceptions in writing with the Regional Hearing Clerk. Such exceptions shall contain alternative findings of fact, conclusions of law, and a proposed order together with references to the relevant pages of the record and initial decision. A copy of each such document taking exception with the initial decision shall be served upon each other party.

(2) Within ten (10) days of the service of exceptions and briefs under paragraph (1) of this subsection, any other party or *amicus curiae* may file and serve a reply brief responding to exceptions or arguments raised by any party, together with references to the relevant portions of the record, initial decision, or opposing brief. Reply briefs shall not, however, raise additional exceptions.

(b) *Review by Regional Administrator upon his own initiative.* Whenever the Regional Administrator determines to review an initial decision on his own initiative, notice of such intention shall be served upon the parties within thirty (30) days after the date of service of the initial decision. Such notice shall include a statement of issues to be briefed by the parties and a time schedule concerning service and the filing of briefs.

(c) *Scope of appeal or review.* Except when the Regional Administrator determines that additional issues should be argued the appeal of the initial decision shall be limited to the issue raised by appellant. Where it is determined that additional issues should be argued, counsel for the parties shall be given reasonable written notice of such determination to permit preparation of adequate argument.

(d) *Argument before the Regional Administrator.* Failure of a party to request oral argument on the exceptions filed shall constitute a waiver of oral argument. The Regional Administrator may, nonetheless, on his own initiative, set a matter for oral argument. The time and place for such oral argument shall be assigned after giving consideration to the convenience of the parties.

**§ 168.52 Denial of appeal.**

If after review of the entire record following filing of an appeal and of any brief permitted to be filed in connection therewith, the Regional Administrator decides that no change or modification of the initial decision of the Administrative Law Judge is necessary, he may dismiss the appeal and adopt all or part of the initial decision as the final order of the Regional Administrator. Such action shall preserve rights of the appellant to appeal to the U.S. Courts of Appeals.

**§ 168.53 Final order.**

(a) *Final order.* As soon as practicable after the filing of exceptions to the initial decision of the Administrative Law Judge and after receipt of any response thereto and following oral argument, if any, the Regional Administrator shall, on appeal or review from an initial decision of the Administrative Law Judge, issue his final order. Such final order shall include findings of fact, conclusions of law and an order assessing a given civil penalty. Such final order may accept or reject all or part of the initial decision of the Administrative Law Judge. A final order must likewise be issued for any Consent Agreement signed by the parties to become effective.

(b) *Evaluation of the penalty.* The final order of the Regional Administrator shall consider the appropriateness of the penalty proposed to be assessed in the Consent Agreement, or the initial decision out of which the final order originates. In evaluating the appropriateness of such proposed penalty, the Regional Administrator must consider (1) the size of respondent's business, (2) the effect of such proposed penalty on respondent's ability to continue in business, and (3) the gravity of the violation. In evaluating the appropriateness of such proposed penalty, the Regional Administrator may also consider (1) respondent's history of compliance with the Act, and (2) any evidence of good faith.

**§ 168.54 Motion to reopen hearings; to rehear or reargue any proceedings; or to reconsider a final order.**

(a) *Filing service.* A motion to reopen a hearing to take further evidence, to rehear or reargue a proceeding or to reconsider any final order, must be made by motion to the Regional Administrator, filed with the Regional Hearing Clerk. Every such motion must state the specific grounds upon which relief is sought.

(b) *Motion to reopen hearing.* A motion to reopen a hearing for the purpose of taking further evidence may be filed at any time after the termination of the hearing and prior to the issuance of the Regional Administrator's final order. Each such motion shall state briefly the nature and purpose of the evidence to be adduced, shall show that such evidence is not cumulative, and shall set forth a good reason why such evidence was not adduced at a hearing.

(c) *Motion to rehear, reargue, or reconsider.* Motions to rehear or reargue the proceeding or to reconsider the final order shall be filed within ten (10) days after the date of service of the final order. Every such motion must state specifically the matters claimed to have been erroneously decided. The nature of any alleged error must be briefly stated.

**§ 168.55 Procedure for disposition of motions.**

Within ten (10) days following the service of any motion provided for in § 168.54, any other party to the proceeding may file with the Regional Hearing Clerk an answer thereto. As soon as practicable thereafter, the Regional Administrator shall announce his intent to grant or to deny such motion. Unless the Regional Administrator determines otherwise, implementation of the final order shall not be stayed pending the decision to grant or to deny the motion. The conduct of any proceeding required by the granting of any motion allowed in this section shall be governed by the provisions of the applicable section of these rules.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-213]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the last column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

**§ 1914.4 Status of participating communities.**

| State | County | Location | Map No. | State map repository | Local map repository | Effective date of authorization of sale of flood insurance for area |
|---|---|---|---|---|---|---|
| Michigan | Jackson | Jackson, city of | | | | Sept. 19, 1973. Emergency. |
| Texas | Harris | Unincorporated areas. | | | | Sept. 14, 1973. Emergency. |

(National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968), effective Jan. 28, 1969 (33 FR 17804, Nov. 28, 1968), as amended (secs. 408-410, P.L. 91-152, Dec. 24, 1969), 42 U.S.C. 4001-4127; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, Feb. 27, 1969.)

Issued September 12, 1973.

GEORGE K. BERNSTEIN,
*Federal Insurance Administrator.*

V 38-182 SEP 20 73 XUM

[Docket No. FI-211]

## PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

### List of Communities With Special Hazard Areas

The Federal Insurance Administrator finds that comment and public procedure and the use of delayed effective dates in identifying the areas of communities which have special flood or mudslide hazards, in accordance with 24 CFR Part 1915, would be contrary to the public interest. The purpose of such identifications is to guide new development away from areas threatened by flooding, a purpose which is accomplished pursuant to statute by denying subsidized flood insurance to structures thereafter built within such areas. The practice of issuing proposed identifications for comment or of delaying effective dates would tend to frustrate this purpose by permitting imprudent or unscrupulous builders to start construction within such hazardous areas before the official identification became final, thus increasing the communities' aggregate exposure to loss of life and property and the agency's financial exposure to flood losses, both of which are contrary to the statutory purposes of the program. Accordingly, the Department is not providing for public comment in issuing this amendment and it will become effective September 20, 1973. Section 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

**§ 1915.3 List of communities with special hazard areas.**

| State | County | Location | Map No. | State map repository | Local map repository | Effective date of identification of areas which have special flood hazards |
|---|---|---|---|---|---|---|
| Arizona | Maricopa | Scottsdale, city of. | H 04013 0420 01 through H 04013 0420 07 | Arizona State Land Department, 1624 W. Adams, Rm. 400, Phoenix, Ariz. 85007. ## Title 41—Public Contracts and Property Management

### CHAPTER 8—VETERANS ADMINISTRATION

### MISCELLANEOUS AMENDMENTS TO CHAPTER

Organizational titles and cross references have been updated. In addition § 8-4.410-5 is revised to prescribe use of GSA Form 1685, Supplemental Provisions (Utility Service Contract), where applicable. Sections 8-4.408 and 8-4.411-2 are revised to update title and address for the GSA office responsible for the review of utility contracts. Section 8-4.411-3 is revised to delete the word "legal" since legal review of contracts for utility connections and contracts for combined utility connections and services is the responsibility of the office of the General Counsel. Section 8-16.703(a) is revised to provide that the use of VA Form 08-6279, Special Provisions (Architect-Engineer Contract), is not mandatory when other contract forms are more appropriate as in the case of small and uncomplicated projects. Section 8-95.102 is amended to cite revised dollar limitation of repair costs to properties acquired under chapter 37, title 38, United States Code, which may be authorized at the local level.

Compliance with the provisions of § 1.12 of Title 38, Code of Federal Regulations, as to notice of proposed regulatory development and delayed effective date is unnecessary in this instance and would serve no useful purpose. The amendments only involve agency procedure or practice.

Chapter 8 is amended as follows:

### PART 8-4—SPECIAL TYPES AND METHODS OF PROCUREMENT

1. In § 8-4.408(b), the introductory portion preceding subparagraph (1) is amended to read as follows:

**§ 8-4.408 GSA long-term contracts.**

* * * * *

(b) The request will be submitted to General Services Administration, Federal Supply Service, Public Utilities Management Division, Washington, D.C. 20406. It will state the reason a long-term contract is believed justified and will include the following information:

* * * * *

2. In § 8-4.410-5, paragraphs (b) and (c) are amended to read as follows:

**§ 8-4.410-5 Uniform clauses for utility service contracts.**

* * * * *

(b) In addition to the clauses contained in GSA Form 1685, Supplemental Provisions (Utility Service Contract), the clauses referred to in this paragraph will be included, when applicable. Stock of the form will be obtained from the VA Forms and Publications Depot.

(1) Changes in rates (§ 8-7.150-7).

(2) Termination. (When a termination clause is appropriate, it will be written to cover the needs of the specific contract, conforming to the principals of FPR 1-8.7 insofar as practical.)

(c) Negotiated cost-reimbursement and fixed-price contracts will also include the following clauses, when required by the referenced FPR section:

(1) Negotiated overhead rates (FPR 1-3.704).

(2) Certificate of current cost or pricing data (FPR 1-3.807-4).

(3) Subcontracting considerations in cost analysis (FPR 1-3.807-10).

(4) Contract clauses (FPR 1-3.814).

3. Sections 8-4.411-2 and 8-4.411-3 are revised to read as follows:

**§ 8-4.411-2 Prior review by GSA.**

Except as provided in § 8-4.411-3, proposed utility procurements meeting the criteria of FPR 1-4.411-1 will be forwarded to General Services Administration, Federal Supply Service, Public Utilities Management Division, Washington, D.C. 20406, for prior review.

**§ 8-4.411-3 Alternative prior review by the procuring agency.**

Prior review of contracts for utility connections and contracts for combined utility connections and services consummated by the designated contracting officer(s) in Central Office will be made by technical and administrative personnel in the Office of Construction, when required by FPR 1-4.411-1.

### PART 8-16—PROCUREMENT FORMS

4. In § 8-16.703, paragraph (a) is amended to read as follows:

**§ 8-16.703 Terms, conditions, and provisions.**

(a) In addition to the requirements of Standard Form 253, General Provisions (Architect-Engineer Contract), contracting officers at both the Central Office and field station level will review, be guided by, and include in all negotiated architect-engineer contracts the mandatory, and where necessary, authorized revisions set forth in VA Form 08-6279, Special Provisions (Architect-Engineer Contract). In case of small and uncomplicated projects for which other contract forms are more appropriate, the use of VA Form 08-6279 is not mandatory.

* * * * *

### PART 8-95—LOAN GUARANTY AND EDUCATION AND REHABILITATION PROGRAMS

5. The title of Part 8-95 is changed to read "Loan Guaranty and Education and Rehabilitation Programs".

6. In Subpart 8-95.1, § 8-95.102 is revised to read as follows:

**§ 8-95.102 Authorization for repairs to properties.**

(a) Except as provided in this subpart, Directors, VA Regional Offices, are authorized to purchase supplies and services for the repair to any Veterans Administration property acquired under chapter 37, title 38, United States Code, where the cost does not exceed $4,000 on any single transaction.

(b) In those cases where the expenditure is known or estimated to exceed $4,000, the request, together with the loan guaranty folder, will be forwarded to the Chief Benefits Director for approval.

(c) During the period when the Veterans Administration has assumed custody of the property from a holder and prior to its conveyance to the Veterans Administration pursuant to Veterans Administration Regulation 4320 (38 CFR 36.4320), repairs are authorized not in excess of $750 when appropriate to make the property ready for sale at an earlier date than would otherwise be possible if the repair program was delayed until such time as the Veterans Administration acquired absolute title.

(d) No repairs may be made to property by the holder when it has continued custody except for emergency repairs not in excess of $50 unless adequate notice has been given the Director, VA Regional Office. Emergency repairs as applied in this paragraph will be deemed to mean those requiring immediate action to preserve the property from serious damage or to correct a situation imminently dangerous to life or limb, and includes the initial cleanup of the property in order to prevent the risk of damage by fire or vandalism.

(e) An approved management broker may be authorized, at the time a property is listed with him, to incur expenses for fuel and utilities or other recurring items which are required to be furnished by the Veterans Administration to its tenants or are required in the maintenance of the property. Advance blanket authorizations to management brokers will be limited to repairs not in excess of $75 in any transaction. Repair jobs may not be split to circumvent this restriction. Expenditures in excess of $75 require prior approval of the Director, Regional Office, having jurisdiction of the property.

7. In § 8-95.104, paragraph (a) is amended to read as follows:

**§ 8-95.104 Qualification of bidders.**

(a) Qualifications of bidders shall be established in accordance with the procedures outlined in FPR 1-1.12 and Subpart 8-1.12 of this chapter.

* * * * *

8. Section 8-95.105 is revised to read as follows:

**§ 8-95.105 Debarred, suspended and ineligible bidders.**

Firms or individuals will be debarred and suspended in accordance with FPR 1-1.6 and Subpart 8-1.6 of this chapter.

9. In § 8-95.106, paragraph (b) is amended to read as follows:

**§ 8-95.106 Lien waivers.**

* * * * *

(b) Contractors will be required to notify the Director, Regional Office, of any subcontracts for services or materials in excess of $1,000. Such subcontractors or material men will be required to sign the release or waiver jointly with the prime contractor or to execute release or waiver in his own name.

* * * * *

10. In § 8-95.107, paragraph (a) is amended to read as follows:

**§ 8-95.107 Stipulations against liens.**

(a) Where determined necessary by the Director, Regional Office, contracts in an amount less than $1,000 may contain the following:

The contractor expressly waives any and all rights to file or maintain any mechanics lien or claim against the aforesaid premises.

* * * * *

11. The title of Subpart 8-95.2 is changed to read "Education and Rehabilitation Program".

12. Section 8-95.200 is revised to read as follows:

**§ 8-95.200 Scope of subpart.**

This subpart sets forth policy and procedures with respect to the education and rehabilitation program as it pertains to contracts for training, education, guidance and approval of institutions and training establishments.

13. In § 8-95.201-2, paragraph (a) is amended to read as follows:

**§ 8-95.201-2 Requirements when contracts are not required.**

(a) When a contract is not required, a signed statement of charges will be obtained from the educational institution or training establishment for courses to be offered, including the rate of tuition, fees, and separate charges, if any, for books, supplies, and equipment handling charges, refund policy and such other provisions as are required to determine proper payment. The statement of charges may be in the form of a statement on VA Form 22-1905, Authorization and Certification of Entrance or Reentrance into Training, that charges will be in accordance with catalog or other

V 38-182 SEP 20 73 XUM

published document (identify publication). The statement of charges may not exceed those charges paid by nonveterans or that is published in the school catalog or other published document.

## CHAPTER 114—DEPARTMENT OF THE INTERIOR

### PART 114–43—UTILIZATION OF PERSONAL PROPERTY

### Subpart 114–43.3—Utilization of Excess

PERFORMANCE REPORTS

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301 and Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c), Subpart 114–43.3 of Chapter 114, Title 41 of the Code of Federal Regulations, is revised as set forth below.

This revision relates only to matters of internal Department practice. It is, therefore, determined that the public rulemaking procedure is unnecessary and this revision shall become effective on September 20, 1973.

RICHARD R. HITE,
*Deputy Assistant Secretary of the Interior.*

SEPTEMBER 13, 1973.

Section 114–43.319 is revised to read as follows:

**§ 114–43.319 Performance reports.**

(a) The Quarterly Report—Utilization and Disposal of Excess and Surplus Personal Property, Standard Form 121, shall be prepared and submitted in accordance with FPMR 101–43.4907 and the supplemental instructions set forth in §§ 114–43.319–50, 51, and 52.

(b) The annual report of the utilization of foreign excess property shall be submitted to the Director of Management Operations by July 25 of each year. Negative reports, when applicable, may be submitted in memorandum form, in lieu of the prescribed Standard Form 365.

The materials previously contained under § 114–43.319 (a), (b), and (c) are moved to new subsections and amended to read as follows:

**§ 114–43.319–50 Preparation of S.F. 121.**

(a) All data called for on Standard Form 121 are to be reported without regard to the instruction found on the reverse of the form, which provides that data for Lines 1, 2, 3, 5, 11, 12, 13, 15, and 28 need not be reported unless otherwise directed by GSA.

(b) On Line 1 report only transfers of available property to other Department of the Interior Bureaus and Offices whether with or without reimbursement.

(c) On Line 9 report only excess property transferred to Federal agencies outside the Department of the Interior with or without reimbursement.

(d) On Lines 10 and 14 report all property determined to be surplus during the quarter whether such determination was made by the General Services Administration or by the holding Bureau or Office.

(e) Since no property may be disposed of as surplus until it has first been found to be excess, the original cost of property reported under section III must first have been reported under section II of the report.

(f) The following data shall be entered in the space reserved for "Remarks" on Standard Form 121, or in an attachment thereto:

(1) The value of available property transferred in from other Interior Bureaus and Offices with or without reimbursement, in terms of original acquisition costs,

(2) The value of excess property acquired from Federal agencies outside of Interior, whether with or without reimbursement, in terms of original acquisition cost (estimated if not known),

(3) When an entry is made on Line 6, 7, 16, or 26, a certification to the effect that the requirements of FPMR 101–45.5 have been complied with in any instances where excess or surplus property is disposed of by abandonment or destruction, and

(4) Appropriate explanations, when entries made require an explanation, as in the case of Lines 3, 13, 22, and 27.

**§ 114–43.319–51 Property excepted from reporting.**

The following transactions should not be included in the Standard Form 121 report:

(a) Transfers and sales of personal property made pursuant to the Exchange/Sale authority in sec. 201(c) of the Federal Property and Administrative Services Act of 1949, as amended.

(b) Destruction, abandonment, or reduction to scrap of property as a result of board of survey action if such property was not, in fact, first determined to be excess or surplus. However, the proceeds from sales of all scrap should be reported on Line 30.

**§ 114–43.319–52 Submission and due date.**

Separate Standard Form 121 reports, consolidated for the Bureau, shall be submitted for Job Corps property (see 755 DM 554) and for other Bureau property. Reports should be submitted, in original only, to the Director of Management Operations by the 25th of the month following the close of the reporting period.

## Title 43—Public Lands: Interior

## CHAPTER II—BUREAU OF LAND MANAGEMENT

### APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5387]

### NEVADA

### Withdrawal of Land for Protection of Desert Pupfish

By virtue of the authority vested in the President and pursuant to Executive Order 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described public lands which are under the jurisdiction of the Secretary of the Interior are hereby withdrawn from all forms of appropriation under the public land laws, including the mining laws, 30 U.S.C. Ch. 2, but not from leasing under the mineral leasing laws, to preserve, protect, and enhance the habitat of rare species of desert pupfish.

MOUNT DIABLO MERIDIAN

T. 17 S., R. 50 E.,
sec. 14, lot 11,
sec. 35, SW¼NE¼, S½NE¼SE¼, SE¼SE¼.

The areas described aggregate 136.84 acres in Nye County.

2. The withdrawal made by this order does not alter the applicability of the public land laws governing the use of the lands under lease, license, or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws. However, leases, licenses, contracts, or permits will be issued only if the proposed use of the lands will not interfere with the proper management of the areas.

JACK O. HORTON,
*Assistant Secretary of the Interior.*

[Public Land Order 5388]

### ALASKA

### Amendment of Public Land Orders No. 5181 and No. 5180, as Amended

By virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), and by virtue of the authority vested in the Secretary of the Interior by section 17(d)(1) of the Alaska Native Claims Settlement Act of December 18, 1971, (hereinafter referred to as the "Act"), 43 U.S.C. section 1616(d)(1), it is ordered as follows:

1. Public Land Order No. 5181 of March 9, 1972, as amended by Public Land Order No. 5194 of March 17, 1972, withdrawing lands for classification and study as possible additions to the National Wildlife Refuge System, pursuant to section 22(e) of the Act, 43 U.S.C. 1621(e), is hereby amended to add the following described lands to paragraph 1 thereof:

SEWARD MERIDIAN

PROTRACTED DESCRIPTIONS

T. 9 S., R. 75 W. (Fractional).
T. 20 S., R. 60 W. (Fractional).
T. 21 S., R. 58 W. (Fractional).
T. 25 S., R. 46 W. (Fractional).
T. 26 S., Rs 45 and 46 W. (Fractional).
T. 27 S., R. 46 W. (Fractional).
T. 28 S., Rs. 46 and 47 W.
T. 29 S., R. 47 W.
T. 30 S., Rs. 46 and 47 W. (Fractional).
T. 34 S., Rs. 51 and 52 W.
T. 41 S., Rs. 60, 61, 62 W.
T. 42 S., R. 62 W.
T. 43 S., Rs. 63 and 64 W.
T. 44 S., Rs. 63 and 64 W.
T. 45 S., Rs. 64, 65, 66 W.
T. 46 S., Rs. 64, 65, 66, 67 W.
T. 51 S., R. 72 W. (E½).
T. 55 S., R. 83 W.
T. 56 S., R. 84 W., that portion outside of Izembek National Wildlife Refuge.
T. 23 N., Rs. 90 and 91 W. (Fractional).
T. 24 N., R. 90 W. (Fractional).
T. 23 N., R. 91 W. (Fractional).

UMIAT MERIDIAN

PROTRACTED DESCRIPTIONS

T. 7 S., R. 29 E., west of the Arctic National Wildlife Refuge.

2. Subject to valid existing rights, all of the lands described in paragraph 1 of this order are added to paragraph 1 of Public Land Order No. 5181, as amended, and immediately become subject to all of the terms and conditions of that order, including withdrawal of the lands from selection by the State of Alaska under the Alaska Statehood Act, 72 Stat. 339, and from location and entry under the mining laws, 30 U.S.C. Ch. 2, and from leasing under the Mineral Leasing Act of February 25, 1920, as amended, 30 U.S.C. sections 181–287 (1970). Any of the lands described in paragraph 1 of this order that are included in Public Land Order No. 5180 of March 9, 1972, as amended by Public Land Orders No. 5193 of March 17, 1972, and No. 5251 of September 12, 1972, are deleted from that order.

3. Public Land Order No. 5181, as amended, is also hereby modified and corrected by deleting the following described lands:

SEWARD MERIDIAN

PROTRACTED DESCRIPTIONS

T. 17 S., R. 74 W., that portion lying within the Cape Newenham National Wildlife Refuge.
T. 17 S., R. 75 W. (E½).
T. 18 S., R. 74 W., that portion lying within the Cape Newenham National Wildlife Refuge.
T. 18 S., R. 75 W. (E½).
T. 52 S., R. 72 W. (W½).

4. Subject to valid existing rights, all of those lands described in paragraph 3 of this order that are shown to be deleted from Public Land Order No. 5181, except those lands lying within the Cape Newenham National Wildlife Refuge, are hereby added to Public Land Order No. 5180, as amended by Public Land Orders No. 5193, and No. 5251, and immediately become subject to all of the terms and conditions of that order, including the withdrawal of the lands from selection by the State of Alaska under the Alaska Statehood Act, 72 Stat. 339, and from location and entry under the mining laws (except for locations for metalliferous minerals), 30 U.S.C. Ch. 2, and from leasing under the Mineral Leasing Act of February 25, 1920, as amended, 30 U.S.C. sections 181–287 (1970).

5. The purpose of this order is to supplement Public Land Order No. 5181, as amended, to reserve additional lands for classification and study as possible additions to the National Wildlife Refuge System pursuant to section 22(e) of the Act.

6. While the lands described in paragraphs 1 and 3 of this order remain withdrawn, the land shall be subject to administration by the Secretary of the Interior under the applicable laws and regulations, and his authority to make contracts and to grant leases, permits, rights-of-way, or easements shall not be impaired by this withdrawal. New applications for leases under the Mineral Leasing Act of February 25, 1920, *supra*, will be rejected until this order is modified or the lands are appropriately classified for mineral leasing.

7. It is hereby determined that the promulgation of this public land order is not a major Federal action significantly affecting the quality of the human environment and that no detailed statement pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, 42 U.S.C. section 4332(2)(C), is required.

September 14, 1973.

ROGERS C. B. MORTON,
*Secretary of the Interior.*

### ALASKA

### Amendment of Public Land Orders No. 5171 and No. 5179, as Amended

By virtue of the authority vested in the Secretary of the Interior by sections 11(a)(3) and 17(d)(2)(A), of the Alaska Native Claims Settlement Act of December 18, 1971 (hereinafter referred to as the "Act"), 43 U.S.C. sections 1610(a)(3), 1616(d)(2)(A), and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Public Land Order No. 5179 of March 9, 1972, as amended by Public Land Orders No. 5192 of March 17, 1972, and No. 5250 of September 12, 1972, withdrawing lands in aid of legislation concerning additions to or creation as units of the National Park, Forest, Wildlife Refuge, and Wild and Scenic Rivers Systems, and for classification, and Public Land Order No. 5171 of March 9, 1972, as amended by Public Land Order No. 5253 of September 12, 1972, withdrawing lands for selection by the Village Corporation and the Regional Corporation for the approximate area covered by the operations of the Northwest Alaska Native Association, are hereby amended to the extent necessary to accommodate the right of the Village Corporation for the Village of Kotzebue to select and the Regional Corporation to identify the following described lands pursuant to the terms of the Act, 43 U.S.C. section 1616(d)(2)(E):

KATEEL RIVER MERIDIAN

PROTRACTED DESCRIPTIONS

T. 10 N., R. 11 W. (Fractional).
T. 10 N., R. 24 W. (Fractional), including all offshore islands.
T. 11 N., Rs. 5 and 6 W.
T. 11 N., Rs. 7, 8, 9, 10 and 25 W. (Fractional).
T. 11 N., R. 24 W. (Fractional), including all offshore islands.
T. 12 N., R. 10 W. (Fractional).
T. 12 N., R. 24 W. (Fractional), including all offshore islands.
T. 12 N., R. 25 W.
T. 13 N., R. 23 W. (Fractional), including all offshore islands.
T. 13 N., R. 24 W. (Fractional).
T. 13 N., R. 25 W.
T. 14 N., R. 23 W. (Fractional), including all offshore islands.
T. 14 N., Rs. 24 and 25 W. (Fractional).
Ts. 22 thru 24 N., R. 17 W.

This order does not otherwise serve to change the provisions of Public Land Order No. 5179, as amended, so far as the above-identified lands are concerned.

2. Public Land Order No. 5171, as amended, is further amended to add the following described lands to paragraph 1 of said order:

a. Kotzebue

KATEEL RIVER MERIDIAN

PROTRACTED DESCRIPTIONS

T. 9 N., Rs. 14 and 15 W. (Fractional).
T. 10 N., Rs. 12 thru 15 W. (Fractional).
T. 11 N., Rs. 11 thru 15 W. (Fractional).
T. 12 N., R. 12 W.
T. 12 N., Rs. 11, 13 thru 15 W. (Fractional).
T. 13 N., R. 12 W. (NE¼, S½).
T. 13 N., Rs. 11, 14 and 15 W. (Fractional).
T. 14 N., Rs. 14 and 15 W. (Fractional).
T. 15 N., R. 9 W.
T. 15 N., R. 16 W. (Fractional).
T. 16 N., R. 16 W. (Fractional).
T. 19 N., Rs. 14 and 15 W. (Fractional).
T. 20 N., Rs. 15, 16 and 19 W.
T. 21 N., Rs. 16 thru 19 W.
T. 22 N., Rs. 18 thru 20 W.

3. Subject to valid existing rights, all of the lands described in paragraph 2 of this order are added to paragraph 1 of Public Land Order No. 5171, as amended, and immediately become subject to all of the terms and conditions of that order, including the withdrawal of the lands from selection by the State of Alaska under the Alaska Statehood Act, 72 Stat. 339, and from location and entry under the mining laws, 30 U.S.C. Ch. 2, and from leasing under the Mineral Leasing Act of February 25, 1920, as amended, 30 U.S.C. sections 181–287 (1970). These lands are also withdrawn for classification or reclassification pursuant to section 17(d)(1) of the Act, and are subject to administration by the Secretary of the Interior under the applicable laws and regulations, as provided for by paragraphs 3 and 4 of Public Land Order No. 5171. Any of the lands described in paragraph 2 of this order that are listed in Public Land Order No. 5179, as amended, are hereby deleted from that order.

V 38-182 SEP 20 73 XUM

4. The purpose of this order is to supplement Public Land Order No. 5171, as amended, by accommodating the right of the Village Corporation to select and the Regional Corporation to identify certain lands pursuant to the terms of the Act, 43 U.S.C. section 1616(d)(2)(E), and by reserving additional lands for selection by the Village Corporation pursuant to section 12 of the Act.

5. It is hereby determined that the promulgation of this public land order is not a major Federal action significantly affecting the quality of the human environment and that no detailed statement pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, 43 U.S.C. section 4332(2)(C), is required.

### Withdrawals for Selections by Village Corporations and Regional Corporation In Bristol Bay Region and for Classification for Lands in Withdrawals

By virtue of the authority vested in the Secretary of the Interior by section 11(a)(3) of the Alaska Native Claims Settlement Act of December 18, 1971, (hereinafter called the "Act"), 43 U.S.C. section 1610(a)(3), it is ordered as follows:

1. Subject to valid existing rights and prior appropriations, the following described lands are hereby withdrawn from all forms of appropriation under the public land laws, including selections by the State of Alaska under the Alaska Statehood Act, 72 Stat. 339, and from location and entry under the mining laws, 30 U.S.C. Ch. 2, and from leasing under the Mineral Leasing Act of February 25, 1920, as amended, 30 U.S.C. sections 181–287 (1970), and are hereby reserved: (a) For selection under section 12 of said Act by the corporations established pursuant to section 8 of said Act for the villages named below (hereinafter called "Village Corporations"); (b) For reallocation to Village Corporations under section 12(b) of said Act by the corporation established pursuant to section 7 of said Act as the Regional Corporation for the approximate area covered by the operation of the Bristol Bay Native Corporation (said corporation being referred to hereinafter as the "Regional Corporation"):

a. Chignik and Chignik Lagoon

SEWARD MERIDIAN

PROTRACTED DESCRIPTIONS

T. 42 S., Rs. 57 thru 61 W.

2. After each Village Corporation has exhausted its rights of selection under subsections 12(a) and 12(b) of said Act in the area withdrawn in their behalf in paragraph 1 of this order, said Regional Corporation may select any of the remaining lands under section 12 of said Act.

3. Prior to the conveyance of any of the lands withdrawn by this order to any Village Corporation or said Regional Corporation, the lands shall be subject to administration by the Secretary of the Interior under applicable laws and regulations, and his authority to make contracts and to grant leases, permits, rights-of-way, or easements shall not be impaired by this withdrawal. Applications for leases under the Mineral Leasing Act, *supra*, will be rejected until this order is modified or the lands are appropriately classified to permit mineral leasing.

4. By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), and by virtue of the authority vested in the Secretary of the Interior in section 17(d)(1) of said Act, it is ordered as follows: Subject to valid existing rights, the lands described in paragraph 1 of this order are hereby withdrawn from all forms of appropriation under the public land laws, including selections by the State of Alaska under the Alaska Statehood Act, 72 Stat. 339, and from location and entry under the mining laws, 30 U.S.C. ch. 2, and from leasing under the Mineral Leasing Act of February 25, 1920, as amended 30 U.S.C. sections 181–287 (1970), but not from selection pursuant to section 12 of the Act by corporations formed pursuant to section 7 or section 8 of said Act, and are hereby reserved for study and review by the Secretary of the Interior for the purpose of classification or reclassification of any lands not conveyed pursuant to section 14 of said Act.

5. It is hereby determined that the promulgation of this public land order is not a major Federal action significantly affecting the quality of the human environment and that no detailed statement pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, 42 U.S.C. section 4332(2)(C), is required.

### Amendment of Public Land Orders No. 5173 and No. 5180 as Amended

By virtue of the authority vested in the Secretary of the Interior by sections 11(a)(3) and 17(d)(1) of the Alaska Native Claims Settlement Act of December 18, 1971, (hereinafter referred to as the "Act"), 43 U.S.C. sections 1610(a)(3), 1616(d)(1) and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Public Land Order No. 5173 of March 9, 1972, as amended, by Public Land Orders No. 5191 of March 17, 1972, No. 5213 of May 30, 1972, No. 5252 of September 12, 1972, and No. 5321 of December 7, 1972, withdrawing lands for selection under section 12 of the Act by the Village Corporations and the Regional Corporation for the approximate area covered by the operations of the Tanana Chiefs Conference, now known as Doyon, Limited, is hereby amended to add the following described land to paragraph 1b for selection by the Village Corporation for the Village of Nenana:

FAIRBANKS MERIDIAN

PROTRACTED DESCRIPTIONS

Ts. 2 thru 4 S., R. 14 W.
Ts. 4 and 5 S., R. 15 W.
T. 5 S., R. 3 W, outside of Blair Lake Air Force Range.

2. Subject to valid existing rights, all of the lands described in paragraph 1 of this order are added to paragraph 1 of Public Land Order No. 5173, as amended, and immediately become subject to all of the terms and conditions of that order, including withdrawal of the lands from selection by the State of Alaska under the Alaska Statehood Act, 72 Stat. 339, and from location and entry under the mining laws, 30 U.S.C. Ch. 2, and from leasing under the Mineral Leasing Act of February 25, 1920, as amended, 30 U.S.C. sections 181–287 (1970). These lands are also withdrawn for classification or reclassification pursuant to section 17(d)(1) of the Act, and are subject to administration by the Secretary of the Interior under the applicable laws and regulations, as provided for in paragraphs 4 and 5 of Public Land Order No. 5173. Any of the lands described in paragraph 1 of this order that are listed in Public Land Order No. 5180 of March 9, 1972, as amended by Public Land Orders No. 5193 of March 17, 1972, and No. 5251 of September 12, 1972, are deleted from that order.

3. Public Land Order No. 5173, as amended, is also hereby modified and corrected by adding to, deleting from, or changing the descriptions of the lands previously described therein as follows:

1a. *Minto:*

FAIRBANKS MERIDIAN

PROTRACTED DESCRIPTIONS

Delete T. 5 N., R. 10 W., and T. 6 N., Rs. 7 thru 10 W.

1b. *Nenana:* The following descriptions are hereby amended to delete (fractional) and to add that portion lying outside the Blair Lake Air Force Range:

T. 4 S., R. 4 W.
T. 6 S., R. 3 W.
T. 5 S., R. 4 W.

Add (fractional) to the following townships:

FAIRBANKS MERIDIAN

PROTRACTED DESCRIPTIONS

T. 4 N., R. 33 E.
Ts. 9 thru 16 N., R. 32 E.
Ts. 17 thru 24 N., R. 31 E.
Ts. 2 thru 4 N., R. 27 W.
Ts. 9 thru 12 S., R. 28 W.

Delete Ts. 25 and 26 N., R. 28 E. in their entireties.

Change T. 35 N., R. 7 E., T. 36 N., R. 7 E., and T. 31 N., R. 6 E. to show only those portions lying outside Venetie Indian Reserve.

COPPER RIVER MERIDIAN

PROTRACTED DESCRIPTIONS

Delete T. 20 N., R. 13 E., and T. 21 N., R. 14 E. in their entireties.

KATEEL RIVER MERIDIAN

PROTRACTED DESCRIPTIONS

Add (fractional) to the following townships:

Ts. 16 and 17 N., R. 27 E.
Ts. 16 thru 19 S., R. 30 E.

Delete T. 3 S., R. 29 E. in its entirety.

4. The purpose of this order is to supplement Public Land Order No. 5173 by reserving additional lands for selection by the Village Corporation for the Village of Nenana pursuant to section 12 of the Act, and to modify and correct descriptions of the lands previously described in said order.

5. It is hereby determined that the promulgation of this public land order is not a major Federal action significantly affecting the quality of the human environment and that no detailed statement pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, 42 U.S.C. section 4332(2)(C), is required.

### Amendment of Public Land Orders No. 5172, No. 5179, No. 5180, and No. 5181

By virtue of the authority vested in the Secretary of the Interior by sections 11(a)(3), 17(d)(1), and 17(d)(2)(A) of the Alaska Native Claims Settlement Act of December 18, 1971, (hereinafter referred to as the "Act"), 43 U.S.C. sections 1610(a)(3), 1616(d)(1), and 1616(d)(2)(A), and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Public Land Order No. 5172 of March 9, 1972, as amended by Public Land Order No. 5191 of March 17, 1972, withdrawing lands for selection under section 12 of the Act by the Village Corporations and the Regional Corporation for the approximate area covered by operation of the Association of Village Council Presidents, now known as Calista, Incorporated, is hereby amended to add the following described lands to paragraph 1 of said order:

SEWARD MERIDIAN

PROTRACTED DESCRIPTIONS

T. 1 N., Rs. 69 and 70 W.
T. 5 N., Rs. 68 and 79 W.
Ts. 7 and 8 N., R. 78 W.
T. 9 N., Rs. 78 and 79 W.
T. 10 N., Rs. 78 and 79 W.
T. 11 N., Rs. 61, 62, 63, 78 W.
T. 12 N., Rs. 61, 62, 63, 78 W.
T. 13 N., Rs. 60, 61, 62, 63 W.
T. 15 N., Rs. 84 and 85 W., those portions lying outside Clarence Rhode National Wildlife Refuge.
T. 21 N., R. 87 W.
T. 22 N., R. 87 W.
T. 23 N., Rs. 64, 65, 66, 67, 85, 86 W.
T. 24 N., Rs. 64, 65, 66, 85, 86 W.
T. 25 N., Rs. 65 and 73 W.
T. 26 N., Rs. 65, 73, 78, 79, 80, 81 W.
T. 27 N., Rs. 78, 79, 80, 81 W.
T. 28 N., Rs. 78 and 80 W.
T. 29 N., Rs. 77 and 78 W.
T. 32 N., R. 74 W.
T. 1 S., Rs. 69, 70, 71, 82, 83 W.
T. 2 S., Rs. 69 thru 74 W.
T. 2 S., R. 75 W. (Fractional).

2. Subject to valid existing rights, all of the lands described in paragraph 1 of this order are added to paragraph 1 of Public Land Order No. 5172, as amended, and immediately become subject to all of the terms and conditions of that order, including the withdrawal of the lands from selection by the State of Alaska under the Alaska Statehood Act, 72 Stat. 339, and from location and entry under the mining laws, 30 U.S.C. Ch. 2, and from leasing under the Mineral Leasing Act of February 25, 1920, as amended, 30 U.S.C. section 181–287 (1970). The lands are also withdrawn for classification or reclassification pursuant to section 17(d)(1) of the Act, and are subject to administration by the Secretary of the Interior under the applicable laws and regulations, as provided for by paragraphs 3 and 4 of Public Land Order No. 5172. Any of the lands described in paragraph 1 of this order are deleted from those listed in Public Land Order No. 5179 of March 9, 1972, as amended by Public Land Orders No. 5192 of March 17, 1972, and No. 5250 of September 12, 1972, Public Land Order No. 5180 of March 9, 1972, as amended by Public Land Orders No. 5193 of March 17, 1972, and No. 5251 of September 12, 1972, and No. 5181 of March 9, 1972, as amended by Public Land Order No. 5194 of March 17, 1972.

3. Public Land Order No. 5172, as amended, is hereby further modified by adding to, deleting from, or changing the descriptions of the lands in that order as follows:

A. Delete the names of the Native Villages listed under subparagraphs a, b, c, d, e, f, g, h, i, j, and k of paragraph 1, leaving the lands described therein withdrawn for selection under section 12 of the Act by the appropriate Village Corporations established under section 8 of the Act in the Calista Region.

B. Delete the following described lands from those described in paragraph 1 of said order, as herein amended:

SEWARD MERIDIAN

PROTRACTED DESCRIPTIONS

T. 6 N., R. 83 W.
T. 31 N., R. 76 W.
T. 32 N., Rs. 76 and 77 W.
T. 7 N., R. 82 W.
T. 5 N., R. 69 W.

4. The purpose of this order is to supplement Public Land Order No. 5172, as amended, by reserving additional lands for selection by the Village Corporations in the Calista Region pursuant to section 12 of the Act, and to make necessary corrections in the descriptions of the lands previously included in said order.

5. It is hereby determined that the promulgation of this public land order is not a major Federal action significantly affecting the quality of the human environment and that no detailed statement pursuant to section 102(2)(C) of the Environmental Policy Act of 1969, 42 U.S.C. 4332(2)(C), is required.

ROGERS C. B. MORTON,
*Secretary of the Interior.*

## ALASKA

### Amendment of Public Land Orders No. 5176, No. 5179, No. 5180, and No. 5186 as Amended

By virtue of the authority vested in the Secretary of the Interior by sections 11(a)(3), and 17(d)(2)(A) of the Alaska Native Claims Settlement Act of December 18, 1971 (hereinafter referred to as the "Act"), 43 U.S.C. sections 1610(a)(3) and 1616(d)(2)(A), and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Paragraph 1 of Public Land Order No. 5176 is amended to add the words "and Port Graham" to existing subparagraph a and to establish two new subparagraphs as set forth below:

b. Tatitlek
c. Eyak

2. Public Land Order No. 5179 of March 9, 1972, as amended by Public Land Orders No. 5192 of March 17, 1972, and No. 5250 of September 12, 1972, withdrawing lands in aid of legislation concerning additions to or creation as units of the National Park, Forest, Wildlife Refuge, and Wild and Scenic Rivers Systems, and for classification, and Public Land Order No. 5176 of March 9, 1972, as amended by Public Land Orders No. 5191 of March 17, 1972, and No. 5252 of September 12, 1972, withdrawing lands for selection under section 12 of the Act by the Village Corporations and the Regional Corporation for the approximate area covered by the operation of the Chugach Native Association, are hereby amended to the extent necessary to accommodate the right of the appropriate Village Corporation in the Chugach Region to select and the Chugach Regional Corporation to identify the following ascribed lands pursuant to the terms of the Act, 43 U.S.C. section 1616(d)(2)(E):

a. Add to paragraph 1b of Public Land Order No. 5176 as established in paragraph 1 of this order for Tatitlek:

COPPER RIVER MERIDIAN PROTRACTED DESCRIPTIONS

T. 9 S., R. 1 E.
T. 10 S., Rs. 1 and 2 E.

b. Add to paragraph 1c of Public Land Order No. 5176 as established in paragraph 1 of this order for Eyak, pending a determination pursuant to section 11(b)(3) of the Act, as to its eligibility to

V 38 I 182 SEP 20 73 XUM

receive benefits under the provisions of the Act:

COPPER RIVER MERIDIAN PROTRACTED DESCRIPTIONS

T. 13 S., Rs. 4 thru 6 E.
T. 14 S., Rs. 3 and 4 E.
T. 15 S., Rs. 3 and 4 E., lying outside of Chugach National Forest.

3. Public Land Order No. 5179, as amended, and Public Land Order No. 5176, as amended, are hereby amended to the extent necessary to accommodate the right of the Chugach Regional Corporation to identify the following described lands for selection pursuant to the terms of the Act, 43 U.S.C. section 1616(d)(2)(E):

COPPER RIVER MERIDIAN PROTRACTED DESCRIPTIONS

T. 8 S., R. 3 E.
T. 9 S., Rs. 2 thru 4 E.
T. 10 S., Rs. 3 thru 9 E.
T. 11 S., Rs. 4 thru 7 and 9 E.
T. 12 S., Rs. 4 thru 6 E.

This order does not otherwise serve to change the provisions of Public Land Order No. 5179, as amended, so far as the lands described in paragraphs 2 and 3, hereof, are concerned.

4. Public Land Order No. 5176, as amended, is further amended to delete the following described lands from paragraph 2 of that order and add them to paragraph 1 of said order in the following manner:

a. Add to paragraph 1b of Public Land Order No. 5176 as established in paragraph 1 of this order for Tatitlek:

COPPER RIVER MERIDIAN PROTRACTED DESCRIPTIONS

T. 9 S., R. 2 W.

b. Add to paragraph 1a of Public Land Order No. 5176 as established in paragraph 1 of this order for English Bay and Port Graham:

SEWARD MERIDIAN PROTRACTED DESCRIPTIONS

T. 2 S., R. 2 W.
T. 3 S., Rs. 2 and 3 W. (Fractional).
T. 4 S., Rs. 2 thru 4 W. (Fractional).
T. 5 S., Rs. 3 thru 5 W. (Fractional).
T. 6 S., Rs. 4, 5, and 7 W. (Fractional).
T. 6 S., R. 6 W. (Fractional), lying outside of Kenai National Moose Range.
T. 7 S., Rs. 5 and 6 W. (Fractional).
T. 8 S., R. 6 W. (Fractional).

5. Public Land Order No. 5176, as amended, is further amended to delete the following described lands from paragraph 1 of that order and add them to paragraph 2 thereof:

SEWARD MERIDIAN PROTRACTED DESCRIPTIONS

T. 7 S., Rs. 9 and 10 W.
T. 8 S., Rs. 9 and 10 W.

6. Public Land Order No. 5176, as amended, is also hereby amended to add the following described lands to paragraphs 1 and 2 as follows:

a. Add to paragraph 1b as established in paragraph 1 of this order for Tatitlek:

COPPER RIVER MERIDIAN PROTRACTED DESCRIPTIONS

T. 9 S., R. 1 W.

b. Add to paragraph 2 for regional selection:

U.S. Survey No. 440, situated at the head of Orca Bay

SEWARD MERIDIAN PROTRACTED DESCRIPTIONS

T. 1 N., R. 2 E., lying outside of the Chugach National Forest.
T. 2 N., R. 2 E., lying outside of the Chugach National Forest.
T. 2 N., R. 3 E.
T. 3 N., R. 3 E., lying outside of the Chugach National Forest.
T. 3 N., R. 4 E.
T. 4 N, R. 4 E., lying outside of the Chugach National Forest.

COPPER RIVER MERIDIAN

PROTRACTED DESCRIPTIONS

T. 16 S., R. 9 E., lying outside of the Chugach National Forest.
T. 17 S., R. 9 E., lying outside of the Chugach National Forest.
T. 18 S., Rs. 9, 17 and 18 E.
T. 19 S., R. 9 E., lying outside of the Chugach National Forest.
T. 19 S., Rs. 13, 14, 15, 17 E.
T. 20 S., Rs. 6 thru 8 E., lying outside of the Chugach National Forest.
T. 20 S., R. 9 E., lying outside of the Chugach National Forest.
T. 21 S., Rs. 7 and 8 E., lying outside of the Chugach National Forest.
T. 20 S., Rs. 10, 11, 11½, 19, 20, 24 and 25 E.
T. 20 S., R. 26 E. (Fractional).
T. 21 S., R. 24 E. (E½).
T. 21 S., Rs. 20, 21, 25 E.
T. 21 S., R. 26 E. (Fractional).
T. 22 S., R. 24 E. (E½).
T. 22 S., R. 25 E.
T. 22 S., R. 26 E. (Fractional).
T. 23 S., Rs. 23 thru 25 E.
T. 23 S., R. 26 E. (Fractional).
T. 24 S., Rs. 23 thru 25 E. (Fractional).
T. 25 S., Rs. 25 and 26 E. (Fractional).

7. Subject to valid existing rights, all of the lands described in paragraph 6 of this order are added to paragraphs 1 and 2 of Public Land Order No. 5176, as amended, and immediately become subject to all of the terms and conditions of that order, including withdrawal from selection by the State of Alaska under the Alaska Statehood Act, 72 Stat. 339, and from location and entry under the mining laws, 30 U.S.C. Ch. 2, and from leasing under the Mineral Leasing Act of February 25, 1920, as amended, 30 U.S.C. sections 181–287 (1970). These lands are also withdrawn for classification or reclassification pursuant to section 17(d)(1) of the Act, and are subject to administration by the Secretary of the Interior under the applicable laws and regulations, as provided for by paragraphs 4 and 5 of Public Land Order No. 5176. Any of the lands described in paragraph 6 of this order that are listed in Public Land Order No. 5179, as amended, and Public Land Order No. 5186 of March 9, 1972, as amended by Public Land Order No. 5254 of September 12, 1972, are deleted from those orders.

8. Public Land Order No. 5176, as amended, is further amended to delete the following described lands from paragraph 2:

SEWARD MERIDIAN

PROTRACTED DESCRIPTIONS

T. 1 S., Rs. 3 and 4 W.
T. 1 S., R. 5 W., east of Kenai National Moose Range.
T. 2 S., Rs. 3 and 4 W.
T. 2 S, R 5 W., east of Kenai National Moose Range.
T. 3 S., R. 3 W. (Fractional).
T. 3 S., R. 4 W.
T. 3 S, R. 5 W., east of Kenai National Moose Range.
T. 4 S., R. 5 W.
T. 5 S., R. 2 W.

COPPER RIVER MERIDIAN

PROTRACTED DESCRIPTIONS

T. 7 S., Rs. 6 thru 10 W.
T. 7 S., R. 11 W. (Fractional).
T. 8 S., Rs. 8 thru 10 W.
T. 8 S., R. 11 W. (Fractional).
T. 10 S., Rs. 2 thru 4 W.
T. 10 S., R. 5 W., east of Chugach National Forest.
T. 11 S., Rs. 2 and 3 W.
T. 11 S., Rs. 4 and 5 W., east of Chugach National Forest.
T. 12 S., R. 1 W.
T. 12 S., Rs. 2 and 3 W., east of Chugach National Forest.
T. 13 S., R. 1 E.
T. 13 S., R. 1 W., east of Chugach National Forest.
T. 14 S., R. 1 E., east of Chugach National Forest.

9. Subject to valid existing rights, all of the lands described in paragraph 8 of this order that are shown to be deleted from Public Land Order No. 5176, as amended, are hereby added to Public Land Order No. 5180 of March 9, 1972, as amended by Public Land Orders No. 5193 of March 17, 1972, and No. 5251 of September 12, 1972, and immediately become subject to all of the terms and conditions of that order, including the withdrawal of the lands from selection by the State of Alaska under the Alaska Statehood Act, 72 Stat. 339, and from location and entry under the mining laws (except for locations for metalliferous minerals), 30 U.S.C. Ch. 2, and from leasing under the Mineral Leasing Act of February 25, 1920, as amended, 30 U.S.C. sections 181–287 (1970). So long as these lands remain withdrawn, they shall be subject to administration by the Secretary of the Interior under the applicable laws and regulations, as provided for by paragraph 2 of Public Land Order No. 5180.

10. The purpose of this order is to supplement Public Land Order No. 5176, as amended, by providing for 3 villages not previously listed in the order, by accommodating the right of the Village Corporations to select certain lands, and the Regional Corporation to identify certain lands for selection pursuant to section 17(d)(2)(E) of the Act, 43 U.S.C. section 1616(d)(2)(E), by reserving additional lands for selection by the Village Corporations and the Regional Corporation pursuant to section 12 of the Act, and to make necessary corrections in the descriptions of the lands previously included in said order and to delete certain lands therefrom.

11. It is hereby determined that the promulgation of this public land order is not a major Federal action significantly affecting the quality of the human environment, and that no detailed statement pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, 42 U.S.C. 4332(2)(C) is required.

ROGERS C. B. MORTON,
*Secretary of the Interior.*

## ALASKA

### Amendment of Public Land Orders No. 5175, No. 5180, and No. 5181, as Amended

By virtue of the authority vested in the Secretary of the Interior by sections 11(a)(3), 17(d)(1), and 22(e) of the Alaska Native Claims Settlement Act of December 18, 1971, (hereinafter referred to as the "Act"), 43 U.S.C. sections 1610(a)(3), 1616(d)(1), and 1621(e), and pursuant to Executive Order No. 10335 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Public Land Order No. 5175 of March 9, 1972, as amended by Public Land Order No. 5191 of March 17, 1972, withdrawing lands for selection under section 12 of the Act by the Village Corporations and the Regional Corporation for the approximate area covered by the operations of the Aleut League, is hereby amended by adding the following described lands to paragraph 1 of that order:

SEWARD MERIDIAN

PROTRACTED DESCRIPTIONS

T. 47 S., R. 68 W.
T. 48 S., Rs. 68 and 69 W.
T. 49 S., R. 69 W.
T. 50 S., R. 70 W.
T. 50 S., Rs. 69, 71, 72 W. (Fractional).
T. 52 S., R. 78 W.
T. 52 S., Rs. 65, 67, 70 W. (Fractional).
T. 52 S., R. 78 W.
T. 53 S., Rs. 68, 72, 73, 79, 80, 81 W. (Fractional).
T. 53 S., R. 74 W. (E½) (Fractional).
T. 53 S., R. 78 W.
T. 54 S., Rs. 70, 80, 81 W. (Fractional).
T. 54 S., R. 78 W. (N½).
T. 55 S., Rs. 80 and 81 W. (Fractional).
T. 56 S., Rs. 68, 67, 69, 70, 80 W. (Fractional).
T. 57 S., Rs. 67, 69, 70, 71, 78, 79, 81 W. (Fractional).
T. 58 S., Rs. 67, 69, 70, 71, 79, 80, 81 W. (Fractional).
T. 59 S., Rs. 69, 70, 71, 81 W. (Fractional).
T. 60 S., Rs. 70 and 71 W. (Fractional).
T. 61 S., Rs. 71, 72, 73, 90, 91 W. (Fractional).
T. 62 S., Rs. 86 and 87 W. (Fractional), those portions within Deer Island.

2. Subject to valid existing rights, all of the lands described in paragraph 1 of this order are added to paragraph 1 of Public Land Order No. 5175, as amended, and immediately become subject to all of the terms and conditions of that order, including withdrawal of the lands from selection by the State of Alaska under the Alaska Statehood Act, 72 Stat. 339, and from location and entry under the mining laws, 30 U.S.C. Ch. 2, and from leasing under the Mineral Leasing Act of February 25, 1920, as amended, 30 U.S.C. sections 181–287 (1970). The lands are also withdrawn for classification or reclassification pursuant to section 17(d)(1) of the Act, and are subject to administration by the Secretary of the Interior under the applicable laws and regulations, as provided for by paragraphs 3 and 4 of Public Land Order No. 5175. Any of the lands described in paragraph 1 of this order are deleted from those listed in Public Land Order No. 5180 of March 9, 1972, as amended by Public Land Orders No. 5193 of March 17, 1972, and No. 5251 of September 12, 1972, and from Public Land Order No. 5181 of March 9, 1972, as amended by Public Land Order No. 5194 of March 17, 1972.

3. Public Land Order No. 5175, as amended, is hereby further modified by adding to, deleting from, or changing the description of the lands in paragraph 1 of that order as follows:

A. Delete the names of the Native Villages listed under a, b, c, and d, thereof, leaving the lands described withdrawn for selection under section 12 of the Act by the appropriate Village Corporations established under section 8 of the Act in the Aleut League Region:

B. Delete from paragraph 1 the following described lands:

SEWARD MERIDIAN

PROTRACTED DESCRIPTIONS

T. 54 S., Rs. 74 and 75 W. (Fractional).
T. 55 S., R. 82 W.
T. 59 S., R. 80 W.
Ts. 58 and 59 S., R. 89 W., those portions within the Izembek National Wildlife Refuge.
T. 59 S., Rs. 89 and 90 W., those portions within the Izembek National Wildlife Refuge.
T. 58 S., R. 66 W.
T. 60 S., Rs. 65 and 68 W.
T. 61 S., Rs. 65, 69, and 70 W.

4. Subject to valid existing rights, all of the lands described in paragraph 3 of this order that are deleted from Public Land Order No. 5175, are hereby added to Public Land Order No. 5180 as amended by Public Land Orders No. 5193 and No. 5251, and immediately become subject to all of the terms and conditions of that order, including the withdrawal of the lands from selection by the State of Alaska under the Alaska Statehood Act, 72 Stat. 339, and from location and entry under the mining laws (except for locations for metalliferous minerals), 30 U.S.C. Ch. 2, and from leasing under the Mineral Leasing Act of February 25, 1920, as amended, sections 181–287 (1970). So long as these lands remain withdrawn they shall be subject to administration by the Secretary of the Interior under the applicable laws and regulations, as provided for by paragraph 2 of Public Land Order No. 5180

5. The purpose of this order is to supplement Public Land Order No. 5175, as amended, by reserving additional lands for selection by the Village Corporations under section 12 of the Act, and to modify and correct the descriptions of the lands previously described in said order.

6. It is hereby determined that the promulgation of this public land order is not a major Federal action significantly affecting the quality of the human environment and that no detailed statement pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, 42 U.S.C. section 4332(2)(C), is required.

### Amendment of Public Land Orders No. 5170 and No. 5179, as Amended and No. 5180 as Amended

By virtue of the authority vested in the Secretary of the Interior by sections 11(a)(3), and 17(d)(2)(A) of the Alaska Native Claims Settlement Act of December 18, 1971 (hereinafter referred to as the "Act"), 43 U.S.C. sections 1610(a)(3), 1616(d)(2)(A), and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Public Land Order No. 5170 of March 9, 1972, withdrawing lands for selection under section 12 of the Act by the Village Corporations and Regional Corporation for the approximate area covered by the operations of the Bering Straits Association, is hereby amended to delete from and add to the lands described in subparagraphs a and b of paragraph 1, and to withdraw lands for selection by the Village Corporations for the Villages of Shishmaref, Stebbins, and King Island under new subparagraphs c, d, and e of paragraph 1 of said order, as follows:

a. *Gambell.* Delete the lands listed in paragraph 1a for Gambell and add the following described lands located on St. Lawrence Island:

KATEEL RIVER MERIDIAN

PROTRACTED DESCRIPTIONS

T. 22 S., Rs. 64 and 65 W. (Fractional).
T. 23 S., Rs. 64 and 65 W.
T. 23 S., R. 68 W. (Fractional).
T. 24 S., Rs. 61, 62, 63, 64, and 65 W. (Fractional).
T. 24 S., R. 66 W.
T. 24 S., R. 68 W (Fractional).
T. 25 S., Rs. 62, 66, 67, and 68 W. (Fractional).

b. *Inalik.*

KATEEL RIVER MERIDIAN

PROTRACTED DESCRIPTIONS

Add T. 1 S., Rs. 41, 42, and 43 W.
Delete T. 4 N., Rs. 43 and 44 W.

c. *Shishmaref.*

KATEEL RIVER MERIDIAN

PROTRACTED DESCRIPTIONS

T. 9 N., R. 32 W.
T. 8 N., Rs. 32 and 33 W.

d. *Stebbins.*

V 38-182 SEP 20 73 XUM

KATEEL RIVER MERIDIAN

PROTRACTED DESCRIPTIONS

T. 22 S., R. 13 W.
T. 23 S., Rs. 13 and 14 W. (Fractional).
T. 24 S., R. 14 W.
T. 25 S., Rs. 14 and 15 W.
T. 26 S., Rs. 15 and 16 W.

e. *King Island.* The following described section 11(b)(3) of the Act as to its lands are withdrawn for King Island, pending a determination pursuant to eligibility to receive benefits under provisions of the Act:

KATEEL RIVER MERIDIAN

PROTRACTED DESCRIPTIONS

T. 5 S., Rs. 38 and 39 W.
T. 5 S., R. 40 W. (Fractional).
T. 6 S., Rs. 37 and 38 W.
T. 6 S., R. 39 W. (Fractional).
T. 7 S., R. 37 W.
T. 7 S., R. 38 W. (Fractional).
T. 8 S., Rs. 36 and 37 W.
T. 8 S., Rs. 38 and 39 W. (Fractional).
T. 9 S., Rs. 37 and 38 W.
T. 9 S., R. 39 W. (Fractional).
T. 10 S., R. 37 W.
T. 10 S., Rs. 38 and 39 W. (Fractional).
T. 11 S., R. 37 W. (Fractional).

2. Subject to valid existing rights, all of the lands described in paragraph 1 of this order that are shown to be added to paragraph 1 of Public Land Order No. 5170, hereby immediately become subject to all of the terms and conditions of that order, including withdrawal of the lands from selection by the State of Alaska under the Alaska Statehood Act, 72 Stat. 339, and from location and entry under the mining laws, 30 U.S.C. Ch. 2, and from leasing under the Mineral Leasing Act of February 25, 1920, as amended, 30 U.S.C. section 181–287 (1970). These lands are also withdrawn for classification or reclassification pursuant to section 17(d)(1) of the Act, and are subject to administration by the Secretary of the Interior under the applicable laws and regulations, as provided for by paragraphs 3 and 4 of Public Land Order No. 5170. Any of the lands withdrawn in paragraph 1 of this order that are listed in Public Land Order No. 5179 of March 9, 1972, as amended by Public Land Orders No. 5192 of March 17, 1972, and No. 5250 of September 12, 1972, or as withdrawn by Public Land Order No. 5180 of March 9, 1972, as amended by Public Land Order No. 5193 of March 17, 1972, and No. 5251 of September 12, 1972, are deleted from those orders.

3. The purpose of this order is to supplement Public Land Order No. 5170 by reserving lands for selection by the Village Corporations for the Villages of Inalik, Shishmaref, Stebbins, and King Island, and to alter the lands withdrawn for Gambell and to delete certain lands from said order, which deleted lands become subject to all outstanding prior withdrawals.

4. It is hereby determined that the promulgation of this public land order is not a major Federal action significantly affecting the quality of the human environment and that no detailed statement pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, 42 U.S.C. section 4332(2)(C), is required.

ROGERS C. B. MORTON,
*Secretary of the Interior.*

[Public Land Order 5396]

## ALASKA

### Amendment of Public Land Orders No. 5169, No. 5179, and No. 5180, as Amended

By virtue of the authority vested in the Secretary of the Interior by sections 11(a)(3), 17(d)(1), and 17(d)(2)(A) of the Alaska Native Claims Settlement Act of December 18, 1971 (hereinafter referred to as the "Act"), 43 U.S.C. sections 1610(a)(3), 1616(d)(1), and 1616(d)(2)(A), and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Public Land Order No. 5179 of March 9, 1972, as amended by Public Land Orders No. 5192 of March 17, 1972, and No. 5250 of September 12, 1972, withdrawing lands in aid of legislation concerning addition to or creation as units of the National Park, Forest, Wildlife Refuge, and Wild and Scenic Rivers Systems, and for classification, and Public Land Order No. 5169 of March 9, 1972, as amended by Public Land Orders No. 5191 of March 17, 1972, and No. 5256 of September 12, 1972, withdrawing lands for selection under section 12 of the Act by the Village Corporations and the Regional Corporation for the approximate area covered by the operations of the Arctic Slope Native Association, are hereby amended to the extent necessary to accommodate the right of the Regional Corporation to identify the following described lands for selection pursuant to the terms of the Act, 43 U.S.C. section 1616(d)(2)(E):

UMIAT MERIDIAN

PROTRACTED DESCRIPTIONS

T. 3 S., R. 6 W., that portion lying outside of Naval Petroleum Reserve No. 4.

T. 5 S., Rs. 6 and 7 W.
T. 5 S., Rs. 8 thru 10 W., those portions lying outside of Naval Petroleum Reserve No. 4.
T. 5 S., Rs. 11 thru 14 W.
T. 5 S., Rs. 15 and 16 W., those portions lying outside of Naval Petroleum Reserve No. 4.
T. 6 S., Rs. 5 thru 15 W.
T. 6 S., R. 16 W., that portion lying outside of Naval Petroleum Reserve No. 4.
T. 7 S., Rs. 5 thru 15 W.
T. 7 S., R. 16 W., that portion lying outside of Naval Petroleum Reserve No. 4.
T. 8 S., Rs. 5 thru 15 W.
T. 8 S., R. 16 W., that portion lying outside of Naval Petroleum Reserve No. 4.
T. 9 S., Rs. 5 thru 15 W.
T. 9 S., R. 16 W., that portion lying outside of Naval Petroleum Reserve No. 4.
T. 10 S., Rs. 5 thru 15 W.
T. 10 S., R. 16 W., that portion lying outside of Naval Petroleum Reserve No. 4.
T. 11 S., Rs. 5 thru 15 W.
T. 11 S., R. 16 W., that portion lying outside of Naval Petroleum Reserve No. 4.
T. 12 S., Rs. 5 thru 15 W. (Fractional).
T. 12 S., R. 16 W. (Fractional), that portion lying outside of Naval Petroleum Reserve No. 4.
T. 13 S., R. 5 W. (Fractional).

KATEEL RIVER MERIDIAN

PROTRACTED DESCRIPTIONS

T. 29 N., R. 25 E.
T. 29 N., R. 26 E. (Fractional).
T. 30 N., R. 25 E.
T. 30 N., R. 26 E. (Fractional).
T. 33 N., R. 14 E., that portion lying outside of Naval Petroleum Reserve No. 4.
T. 33 N., Rs. 15 thru 18 E.
T. 34 N., R. 14 E. (Fractional), that portion lying outside of Naval Petroleum Reserve No. 4.
T. 34 N., Rs. 15 thru 25 E. (Fractional).

FAIRBANKS MERIDIAN

PROTRACTED DESCRIPTIONS

T. 34 N., Rs. 21 and 22 W.
T. 35 N., Rs. 19 thru 23 W.
T. 36 N., Rs. 20 thru 23 W.
T. 36 N., R. 24 W. (Fractional).
T. 37 N., Rs. 20 thru 24 W. (Fractional).

This order does not otherwise serve to change the provisions of Public Land Order No. 5179, as amended, so far as the above-described lands are concerned.

2. Public Land Order No. 5169, as amended, is further amended to delete the following described lands from subparagraph 1b, and add them to paragraph 2 of said order:

UMIAT MERIDIAN

PROTRACTED DESCRIPTIONS

T. 1 S., Rs. 21 and 22 E.
T. 2 S., Rs. 21 and 22 E.
T. 3 S., Rs. 22 thru 24 E.
T. 3 S., R. 25 E. (W½).
T. 4 S., Rs. 23 and 24 E.
T. 5 S., R. 24 E.
T. 5 S., R. 25 E. (W½)

3. Public Land Order No. 5169, as amended, is further amended to add the following described lands to paragraphs 1 and 2 of that order, as follows:

a. To subparagraph 1a for Barrow:

UMIAT MERIDIAN

PROTRACTED DESCRIPTIONS

T. 6 N., R. 42 W.

b. To subparagraph 1b for Kaktovik:

UMIAT MERIDIAN

PROTRACTED DESCRIPTIONS

T. 1 S., R. 24 E. (secs. 19 thru 36).

c. To subparagraph 1c for Point Hope:

UMIAT MERIDIAN

PROTRACTED DESCRIPTIONS

T. 9 S., R. 61 W. (Fractional).
T. 10 S., R. 61 W. (Fractional).
T. 11 S., R. 60 W.
T. 11 S., R. 61 W. (Fractional).
T. 12 S., R. 60 W. (Fractional).
T. 12 S., R. 61 W. (Fractional).

d. To paragraph 2 for Regional selection:

UMIAT MERIDIAN

PROTRACTED DESCRIPTIONS

T. 4 S., R. 8 W., that portion lying outside Naval Petroleum Reserve No. 4.
T. 7 S., R. 59 W. (secs. 13 thru 36).
T. 7 S., R. 60 W. (secs. 13, 14, 23 thru 26, 35 and 36).
T. 8 S., R. 59 W.
T. 8 S., R. 60 W. (secs. 1, 2, 11 thru 14, 23 thru 26, 35 and 36).
T. 12 S., Rs. 49 thru 56 W. (Fractional).
Ts. 3 and 4 N., R. 43 W.
T. 5 N., R. 42 W.

4. Subject to valid existing rights, all of the lands described in paragraph 3 of this order are added to paragraphs 1 and 2 of Public Land Order No. 5169, as amended, and immediately become subject to all of the terms and conditions of that order, including withdrawal of the lands from selection by the State of Alaska under the Alaska Statehood Act, 72 Stat. 339, and from location and entry under the mining laws, 30 U.S.C. Ch. 2, and from leasing under the Mineral Leasing Act of February 25, 1920, as amended, 30 U.S.C. sections 181–287 (1970). Any of the lands described in paragraph 3 of this order that are listed in Public Land Order No. 5179, as amended, are hereby deleted from that order.

5. Public Land Order No. 5169, as amended, is also hereby modified and corrected by changing, adding to, or deleting from the lands described in paragraphs 1a and 2 thereof as follows:

a. Correction to paragraph 1a for Barrow:

UMIAT MERIDIAN

PROTRACTED DESCRIPTIONS

Ts. 5 thru 8 N., R. 40 W., is corrected by deleting "(W½)" and adding "those portions lying outside of Naval Petroleum Reserve No. 4."

b. Delete from paragraph 2 the following described lands:

UMIAT MERIDIAN

PROTRACTED DESCRIPTIONS

T. 7 S., R. 60 W. (secs. 13, 14, 23 thru 26, 35 and 36).
T. 8 S., R. 59 W.
T. 8 S., R. 60 W. (secs. 1, 2, 11 thru 14, 23 thru 26, 35 and 36).
T. 12 S., Rs. 49 thru 56 W. (Fractional).
Ts. 3 and 4 N., R. 43 W.
T. 5 N., R. 42 W.

6. Public Land Order No. 5169, as amended, is hereby further amended to delete the following described lands from paragraph 2 thereof, as follows:

UMIAT MERIDIAN

PROTRACTED DESCRIPTIONS

T. 6 S., R. 18 E.
T. 7 S., Rs. 17 and 18 E.
T. 8 S., Rs. 16 thru 18 E.
T. 9 S., Rs. 16 thru 18 E.
T. 10 S., Rs. 15 thru 18 E.
T. 11 S., Rs. 15 thru 18 E.
T. 12 S., Rs. 13 thru 18 E.
T. 13 S., Rs. 13 thru 18 E.
T. 14 S., Rs. 13 thru 17 E.
T. 15 S., R. 13 E.
